INDEPENDENT AUDITORS' REPORT

The Board of Commissioners
Niagara Frontier Transportation Authority

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Niagara Frontier Transportation Authority (the Authority) (a component unit of the State of New York), a business-type activity, as of and for the years ended March 31, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of March 31, 2024 and 2023, and the changes in its financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for one year beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

GAAP requires that management's discussion and analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Additional Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The additional information on pages 37 through 39 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 26, 2024 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

MANAGEMENT'S CERTIFICATION OF THE FINANCIAL STATEMENTS

Management certifies that, based on our knowledge, the information provided herein is accurate, correct and does not contain any untrue statement of material fact; does not omit any material fact, which, if omitted, would cause the financial statements to be misleading in light of the circumstances under which such statements are made; and fairly presents, in all material respects, the financial position, changes in financial position, and cash flows of the Authority as of, and for, the period presented in the financial statements.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Niagara Frontier Transportation Authority's (the Authority) internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenses of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

Management is responsible for establishing and maintaining effective internal control over financial reporting. Management assessed the effectiveness of the Authority's internal control over financial reporting as of March 31, 2024, based on the framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control – Integrated Framework*. Based on that assessment, management concluded that, as of March 31, 2024, the Authority's internal control over financial reporting is effective based on the criteria established in *Internal Control – Integrated Framework*.

Management's Discussion and Analysis

For the Years Ended March 31, 2024, 2023 and 2022
(Unaudited)

This management's discussion and analysis (MD&A) of the Niagara Frontier Transportation Authority (the Authority) provides an introduction and overview to the Authority's financial activities as of and for the years ended March 31, 2024, 2023, and 2022, which should be read in conjunction with the Authority's financial statements and notes to the financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Authority's financial statements. It begins by presenting and explaining the financial statements. These statements have been prepared according to accounting principles generally accepted in the United States of America (GAAP). Revenues and expenses are recorded using the accrual basis of accounting, meaning that they are recorded by the Authority as earned/incurred, regardless of when cash is received or paid.

The financial statements of the Authority encompass the activity of the NFTA, which includes aviation operations and property management, and Niagara Frontier Transit Metro System, Inc. (Metro), which primarily provides surface transportation.

Effective April 1, 2022, the Authority adopted GASB Statement No. 87, *Leases* (GASB 87). The statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

The *Balance Sheets* present information on the Authority's assets and deferred outflows of resources less liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the Authority's financial position is strengthening or weakening.

The *Statements of Revenues, Expenses and Changes in Net Position* show the results of the Authority's operations during the year and reflect both operating and non-operating activities. Changes in net position reflect the operational impact of the current year's activities on the financial position of the Authority.

The *Statements of Cash Flows* provide an analysis of the sources and uses of cash. The cash flows statements show net cash provided or used in operating, non-capital financing, capital and related financing, and investing activities.

The notes to the financial statements include additional information which provides a further understanding of the financial statements.

(Unaudited)

FINANCIAL HIGHLIGHTS

Summarized Balance Sheets

(in thousands)	March 31,		
	2024	2023	2022
Current assets	\$ 289,967	\$ 279,247	\$ 260,548
Restricted assets	116,148	102,466	88,080
Other assets	25,774	39,070	-
Capital assets, net	707,404	645,470	633,526
Deferred outflows of resources related to pensions and OPEB	91,611	110,625	126,015
Total assets and deferred outflows of resources	<u>\$ 1,230,904</u>	<u>\$ 1,176,878</u>	<u>\$ 1,108,169</u>
Current liabilities	\$ 93,022	\$ 91,169	\$ 76,446
Noncurrent liabilities	627,515	658,723	775,951
Deferred inflows of resources related to leases, pensions, and OPEB	237,649	260,082	129,347
Total liabilities and deferred inflows of resources	<u>958,186</u>	<u>1,009,974</u>	<u>981,744</u>
Net position:			
Net investment in capital assets	600,606	522,119	493,798
Restricted	116,148	102,466	88,080
Unrestricted	(444,036)	(457,681)	(455,453)
Total net position	<u>272,718</u>	<u>166,904</u>	<u>126,425</u>
Total liabilities, deferred inflows of resources, and net position	<u>\$ 1,230,904</u>	<u>\$ 1,176,878</u>	<u>\$ 1,108,169</u>

The changes in total net position over time serve as a useful indicator of the Authority's financial position. Net investment in capital assets represents the Authority's net capital assets, offset by any payables or debt outstanding used to finance the capital asset purchases. Restricted net assets consist primarily of cash and investments restricted in accordance with bonding requirements or assets whose use is limited to specific purposes in accordance with various agreements. Unrestricted net position deficits of \$444.0 million, \$457.7 million, and \$455.5 million at March 31, 2024, 2023, and 2022 result primarily from the accrual of other postemployment benefits. As a result of the Authority's activities, March 31, 2024 net position increased \$105.8 million from March 31, 2023, and March 31, 2023 net position increased \$40.5 million from March 31, 2022.

Current assets increased \$10.7 million from March 31, 2023 to March 31, 2024, primarily due to an increase in unrestricted cash. Restricted assets increased \$13.7 million from March 31, 2023 to March 31, 2024, due to the continued strategic increase of reserves in the Metro 88c special assistance fund and the Buffalo Niagara International Airport (BNIA) and Niagara Falls International Airport (NFIA) passenger facility charges fund. Other assets decreased \$13.3 million primarily due to a \$7.9 million decrease in net pension assets. Deferred outflows of resources decreased \$19.0 million due to changes in assumptions related to the Authority's other postemployment benefits (OPEB) plan.

Current assets increased \$18.7 million from March 31, 2022 to March 31, 2023 primarily due to an increase in unrestricted cash and current portion of leases receivable recognized for the first time resulting from the adoption of GASB 87 in 2023. Restricted assets increased \$14.4 million from March 31, 2022 to March 31, 2023 due to the strategic building up of reserves in the Metro 88c special assistance fund and the BNIA and NFIA passenger facility charges fund. Other assets increased \$39.1 million primarily due to \$31.2 million in noncurrent leases receivable recognized for the first time resulting from the adoption of GASB 87 in 2023.

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Management's Discussion and Analysis

For the Years Ended March 31, 2024, 2023 and 2022
(Unaudited)

Deferred outflows of resources decreased \$15.4 million due to changes in assumptions and differences between the projected and actual investment earnings related to certain pension and OPEB plans as well as amounts recognized for payments made subsequent to the respective plans' measurement dates.

Current liabilities increased \$1.9 million from March 31, 2023 to March 31, 2024 and \$14.7 million from March 31, 2022 to March 31, 2023 resulting from normal operations and timing of payments.

Principal payments on debt along with decreases in self-insured claims of \$3.1 million and other postemployment benefits of \$43.2 million were partially offset by an increase in net pension liabilities of \$32.4 million for overall decrease in noncurrent liabilities of \$31.2 million at March 31, 2024 compared to March 31, 2023. Deferred inflows of resources decreased \$22.4 million primarily as a result of differences between projected and actual earnings on investments related to the Authority's pension plans.

Principal payments on debt and decreases in self-insured claims of \$4.6 million, net pension liabilities of \$5.0 million, and other postemployment benefits of \$91.8 million resulted in an overall decrease in noncurrent liabilities of \$117.2 million at March 31, 2023 compared to March 31, 2022. Deferred inflows of resources increased \$130.7 million primarily as a result of changes in assumptions related to the Authority's OPEB plans and will be amortized against expenses over the next six years.

Refer to the Capital Assets and Debt Administration sections of this MD&A for further details.

(Unaudited)

Summary of Revenues, Expenses and Changes in Net Position

The charts below summarize operating revenues by source.

Operating revenues increased \$6.0 million, or 5.8%, from 2023 to 2024. Fare revenue increased \$2.1 million due to increased ridership as the region continues to recover from the COVID-19 pandemic. Concessions and commissions in 2024 were \$3.4 million higher than 2023, due to an increase in parking, auto rental, food, and retail revenues at the airports as enplanements increased approximately 10.7% from 2023 at BNIA, as air travel continues to rebound from the impact of the COVID-19 pandemic.

Operating revenues increased \$12.0 million, or 13.1%, from 2022 to 2023. Fare revenue increased \$2.2 million due to increased ridership as the region continues to recover from the COVID-19 pandemic. Concessions and commissions in 2023 were \$8.4 million higher than 2022, due to an increase in parking, auto rental, food, and retail revenues at the airports as enplanements increased approximately 26% from 2022 at BNIA and 17% at NFIA, as air travel continues to rebound from the impact of the COVID-19 pandemic. Additionally, hourly parking rates at BNIA were increased approximately 27% in September 2022. This was the first parking rate increase at BNIA in nine years.

(A Component Unit of the State of New York)

Management’s Discussion and Analysis

For the Years Ended March 31, 2024, 2023 and 2022
(Unaudited)

The charts below summarize operating expenses by category.

Operating expenses for 2024 of \$277.5 million were \$10.4 million higher than 2023. Salaries and employee benefits increased \$19.4 million, or 15.5%, primarily due to increased pension expense, contractual wage increases, and fewer vacant positions. Other postemployment benefits decreased \$17.6 million from 2023 relating to the actuarially calculated postemployment health insurance costs. Depreciation and amortization expense, which varies from year to year based on the timing of asset purchases and estimated useful lives, increased by \$1.9 million from 2023 to 2024. Transit fuel and power costs decreased \$1.1 million due to lower diesel and compressed natural gas fuel prices in 2024. Other operating expenses increased \$5.1 million primarily due to higher professional service contracts, security costs, and parking management costs related to higher BNIA parking revenue.

Operating expenses for 2023 of \$267.1 million were \$3.9 million lower than 2022. Salaries and employee benefits increased \$4.0 million, or 3.3%, primarily due to contractual wage increases and fewer vacant positions. Other postemployment benefits decreased \$14.6 million from 2022 relating to the actuarially calculated postemployment health insurance costs. Depreciation and amortization expense, which varies from year to year based on the timing of asset purchases and estimated useful lives, increased by \$0.3 million from 2022 to 2023. Transit fuel and power costs increased \$1.5 million due to higher diesel and compressed natural gas fuel prices in 2023. Other operating expenses increased \$3.0 million primarily due to higher parking management costs related to higher BNIA parking revenue.

Net non-operating revenues for 2024 increased \$14.7 million compared to 2023, from \$146.2 million to \$160.9 million, due to a \$7.4 million increase in New York State Transit Operating Assistance and a \$6.4 million increase in interest income due to higher rates.

Net non-operating revenues for 2023 decreased \$72.6 million compared to 2022, from \$218.8 million to \$146.2 million, due to a \$75.7 million decrease in government assistance, mostly due to no further federal funds appropriated by Congress to the Authority to address the impact of the COVID-19 pandemic.

Capital contributions fluctuate depending on the timing of capital projects and vehicle and equipment purchases.

(A Component Unit of the State of New York)

Management's Discussion and Analysis

For the Years Ended March 31, 2024, 2023 and 2022
(Unaudited)

CAPITAL ASSETS

Net capital assets totaled \$707.4 million at March 31, 2024, representing a 9.6% increase from March 31, 2023, as investment in capital exceeded depreciation and dispositions by \$61.9 million in 2024. Capital asset additions totaling \$124.9 million include \$34.0 million for BNIA Runway 05-23 rehabilitation and construction, \$35.4 million for diesel and electric buses and charging infrastructure, and \$1.5 million for paratransit vehicles.

Net capital assets totaled \$645.5 million at March 31, 2023, representing a 1.7% increase from March 31, 2022, as investment in capital exceeded depreciation and dispositions by \$10.5 million in 2023 and the impact of GASB 87 created an additional \$1.5 million in net right-to-use lease assets as of the beginning of the year. Capital asset additions totaling \$64.4 million include \$36.6 million for rail extension and station construction in the former DL&W train shed, \$7.2 million for bus purchases, and \$5.0 million for the rehabilitation and reconstruction of NFIA taxiway "D."

DEBT ADMINISTRATION

Long-term debt at March 31, 2024 totaled \$106.8 million, which is a decrease of \$16.6 million from 2023 and results from debt service payments net of premium amortization.

Long-term debt at March 31, 2023 totaled \$123.4 million, which is a decrease of \$17.9 million from 2022 and results from debt service payments net of premium amortization.

FACTORS IMPACTING THE AUTHORITY'S FUTURE

Surface Transportation

Historically, approximately 25% of Metro's revenues are derived from fare collection and advertising, while 75% are from outside government assistance. New York State is the Authority's largest investor, usually providing almost 50% of total assistance while approximately 30% comes from local sources and 20% from the federal government. Any changes in these funding sources can have a significant impact on Authority operations.

The impact of efforts to minimize the spread of COVID-19 resulted in an approximately 50% erosion in ridership during 2021. There has been a long-term impact from the pandemic on ridership and it will take years to return to pre-COVID-19 ridership levels. Metro has been awarded and spent COVID relief funds from the federal government to support operations with the drop in business activity.

As part of the Authority's 2023-2033 Roadmap, Metro concentrated on revenue generation, cost control, increasing organizational liquidity, technological improvements, operational changes such as implementation of a new fare box collection system, providing more flexible fare structures, and continuing to engage with the public regularly through social media, the Citizens Advisory Committee, Accessibility Advisory Committee, workforce development, and many other means.

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Management's Discussion and Analysis

For the Years Ended March 31, 2024, 2023 and 2022
(Unaudited)

Metro-owned property along the Metro Rail corridor and property adjacent to Metro Rail has seen significant development in the recent years, including the Metro Rail Allen-Medical Campus Station which is located on the Buffalo Niagara Medical Campus (BNMC). The Allen-Medical Campus Metro Rail Station will continue to play a prominent role in meeting the mobility needs of BNMC employees, patients, visitors, and neighborhood residents well into the future. In June 2024 the City of Buffalo, in partnership with the NFTA, issued a Request for Proposals from development teams for an equitable transit-oriented development at and around the NFTA-Metro Rail Lasalle station. Responses are due in September 2024. The NFTA and the City of Buffalo own adjoining parcels at the site.

In February 2018, the Authority started the environmental review process for extending Metro Rail from its current terminus at the University Station along the preferred Niagara Falls Boulevard route alternative through the University at Buffalo North Campus in the Town of Amherst as approved by the Authority Board of Commissioners and recommended by our Alternatives Analysis Study. The Amherst-Buffalo Metro Rail Corridor contains 20% of all regional jobs and more than 10% of all regional residents. The proposed project would more than double ridership, link all three University at Buffalo Campuses with a one-seat Metro Rail ride, provide a seamless connection between the region's largest concentration of housing to significant employment, health care, education, and recreation destinations, and generate billions in direct, indirect, and induced economic impact throughout the Corridor. The Authority has \$31 million under contract with New York State Department of Transportation to complete the environmental process for the project, project development, and some preliminary engineering. The order of magnitude estimate of project construction is approximately \$1.5 billion, with up to 50% of project costs planned to come from the Federal Capital Investment Grant (CIG) Program and the remainder from a mix of state, local, and/or private sector sources.

In 2019, the Authority started construction on an extension of NFTA-Metro Rail revenue service into the former DL&W train shed which is owned by the Authority. The project, which is scheduled to be completed in 2024, involves construction of a new Metro Rail Station on the first floor of the facility and will open up development opportunities on the first and second floor. In July 2020, the Authority executed a pre-development agreement with Savarino Companies, a private sector developer, for development of the first and second floor space. In April 2022, New York State announced an appropriation of \$30 million to rehabilitate the core and shell of the train shed in order to facilitate private sector development and the NFTA will complete design of development improvements in 2024.

Aviation

Together, BNIA and NFIA historically have served approximately 5 million passengers per year as the only commercial service airports serving Erie and Niagara counties. Additionally, the airports have been a convenient and less costly option for nearby Canadian travelers. As approximately 30% of BNIA and 88% of NFIA passenger traffic originates from Canada, any closure of the United States and Canada border, such as the COVID-19 closure in 2021 and 2022, has a significant negative impact on enplanements. Also, fluctuations in the exchange rate of the Canadian dollar have an impact on enplanements. During 2024, approximately 4.8 million passengers were served by the two airports.

In 2015, an overall aviation strategic plan identified critical issues relating to the two airports and established goals to enhance air cargo development, enhance and maintain air service to Canadian travelers, maintain the quality of overall customer service, and improve the financial sustainability of BNIA and NFIA. The NFTA is in the process of updating that plan.

A two-year, \$72.2 million passenger terminal and baggage claim expansion and renovation project at BNIA began in 2019 and was completed in 2022. The project improves overall airport security, expands and modernizes the baggage claim area, improves passenger flow to and from all boarding areas, including international boarding areas, expands the terminal for additional concessions and amenities, and adds new curb space at both ends of the BNIA terminal.

Management's Discussion and Analysis

For the Years Ended March 31, 2024, 2023 and 2022
(Unaudited)

In 2023, the NFTA began construction related to the rehabilitation of the main runway at BNIA. The project, currently broken into two phases, is budgeted to cost approximately \$92.2 million. Construction of the first phase of the project is primarily funded by the Federal Aviation Administration.

CONTACT FOR THE AUTHORITY'S FINANCIAL MANAGEMENT

This report is designed to provide a general overview of the finances of the Authority for interested parties. Questions concerning any information within this report or requests for additional information should be addressed to John T. Cox, Chief Financial Officer, 181 Ellicott Street, Buffalo, New York 14203.

See accompanying notes.

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Notes to Financial Statements

March 31, 2024

(1) Financial Reporting Entity

The Niagara Frontier Transportation Authority (the Authority) was created by an Act of the New York State Legislature in 1967 to promote the development and improvement of transportation and related services within the Niagara Frontier transportation district. As a multi-modal transportation authority, the Authority operates a number of transportation related business centers including aviation, surface transportation, and property management. The Authority is included in the financial statements of the State of New York (the State) as an enterprise fund.

The Niagara Frontier Transit Metro System, Inc. (Metro) was created in 1974 to provide mass transportation services to the Niagara Frontier. Although Metro is a separate legal entity, the Authority maintains financial and governance responsibility over its operations.

The Board of Commissioners (the Board) of the Authority, including Metro, consists of 12 members appointed by the Governor of the State. All appointments are made with the consent of the New York State Senate. The Board governs and sets policy for the Authority. The Executive Director is responsible for day-to-day management of the Authority.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation and Measurement Focus

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The Authority reports as a special purpose government engaged in business-type activities, using the economic resources measurement focus and the accrual basis of accounting. All assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, and expenses are accounted for through a single enterprise fund with revenues recorded when earned and expenses recorded at the time liabilities are incurred. Grants and similar items are recognized as revenue when all eligibility requirements imposed by the provider have been satisfied.

The Authority's policy for defining operating activities in the statements of revenues, expenses and changes in net position are those that generally result from exchange transactions such as payments received for services and payments made to purchase goods and services. Certain other transactions, including government grants, passenger facilities charges, and interest, are reported as non-operating activities.

Authority Operations

The Authority operates three strategic business centers within NFTA and Metro:

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Notes to Financial Statements

March 31, 2024

NFTA Operations

Aviation

The Authority operates the Buffalo Niagara International Airport (BNIA) and the Niagara Falls International Airport (NFIA). BNIA is Western New York's primary passenger and cargo airport, while NFIA is a commercial, primary small-hub airport and serves as a joint-use military facility with the Niagara Falls Air Reserve Station.

Property Management

The property management department manages real estate owned by the Authority, including certain rail rights of way and non-public transportation assets, such as industrial distribution warehouses and associated office space for lease.

Metro Operations

Surface Transportation

Metro operates the surface transportation business unit responsible for all ground-based transportation services provided by the Authority. Such services include public fixed-route bus and rail routes, paratransit and other non-traditional transit services, and intracity bus terminals in Buffalo and Niagara Falls.

Metro also provides a 6.4 mile light rail rapid transit (LRRT) system in the City of Buffalo between downtown Buffalo and the State University of New York at Buffalo's South Campus.

The Metropolitan Transportation Center, located in downtown Buffalo, serves intercity and NFTA-Metro passengers and contains the offices of the Authority. The Niagara Falls Transit Center and the Portage Road Transit Center in Niagara Falls serve NFTA-Metro customers in Niagara County.

The majority of Metro operations employees are members of the Amalgamated Transit Union Local 1342 (ATU). Five other labor unions represent a small percentage of remaining employees. The current ATU contract expires July 31, 2025.

(b) *Cash and Cash Equivalents*

Cash and cash equivalents principally include cash on hand, money market funds, and certificates of deposit with original maturities of three months or less.

(c) *Receivables*

Accounts receivable are stated at the amount management expects to collect on outstanding balances and consist primarily of amounts due from services related to the Authority's operations and advertising. Management provides for probable uncollectible amounts based on collection history and aging of accounts. Balances outstanding after reasonable collection efforts are written off through a charge to an allowance for bad debts and a credit to accounts receivable.

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Notes to Financial Statements

March 31, 2024

Grants receivable are stated at the amount management expects to collect on outstanding balances and consists primarily of amounts due from Federal, State, and local governments related to grant expenses incurred.

Leases receivable are stated at the present value of lease payments expected to be received during the lease term. Corresponding deferred inflows of resources are also reported and revenue is recognized over the lease term.

(d) *Materials and Supplies Inventory*

Materials and supplies inventory is valued based on the weighted average cost method or net realizable value.

(e) *Restricted Assets*

Certain cash deposits and investments are classified as restricted assets in accordance with bonding requirements or because their use is legally limited to specific purposes such as airport capital expansion and operations or the LRRT system. The Authority's policy is to use restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted resources are available.

(f) *Investments*

The Authority's investment policies comply with the New York State Comptroller's guidelines for Public Authorities. Investments consist primarily of certificates of deposits with original maturities greater than three months and obligations of the U.S. Government reported at fair value.

(g) *Capital Assets*

The Authority's policy is to capitalize assets that cost at least \$5,000 and have estimated useful lives of two years or more. Capital assets are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization is computed on the straight-line method over the estimated useful lives of the assets. Maintenance and repairs are charged to operations as incurred; significant improvements are capitalized.

The estimated useful lives on principal classes of capital assets are as follows:

	Estimated Useful Life (Years)
Improvements	10 - 25
LRRT system	10 - 45
Buildings	10 - 45
Metropolitan transportation centers	25
Motor buses	12
Equipment and other	2 - 10

(h) *Other Current Liabilities*

Advances

The Authority administers the funding of regional transportation improvement projects on behalf of the Federal Highway Administration (FHWA) for the Niagara International Transportation Technology Coalition (NITTEC). At March 31, 2024 and 2023, net advance payments provided by the FHWA for regional construction projects authorized by NITTEC and the FHWA are held by the Authority and included in restricted cash and other current liabilities on the accompanying balance sheet and totaled \$5,288,000 and \$5,205,000.

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Notes to Financial Statements

March 31, 2024

Mortgage Recording Tax Revenue

As required by New York State legislation, the Authority receives a percentage of mortgage recording taxes collected by Erie County and Niagara County. Receipts are recorded as other current liabilities until all eligibility requirements are met.

(i) Bond Issuance Costs and Premiums

Bond issuance costs, with the exception of prepaid insurance, are expensed as incurred. Premiums received upon the issuance of debt are included with the debt liability and amortized against interest expense over the life of the related obligation.

(j) Self-Insured Claims

The Authority is self-insured for property damage, environmental claims, personal injury liability, and workers' compensation claims. An estimate of the liability is made by the Authority based primarily on information available from third-party administrator claims, actuarial studies, and in-house and outside legal counsel.

(k) Pensions

The Authority has elected to participate in the New York State and Local Retirement System, including the Employees' Retirement System (ERS) and the Police and Fire Retirement System (PFRS). The Authority provides retirement benefits to substantially all employees through various defined benefit retirement plans or other agreements (Note 8). For ERS and PFRS, the Authority recognizes its proportionate share of the net pension position, deferred outflows and deferred inflows of resources, pension expense, and information about and changes in the fiduciary net position on the same basis as reported by ERS and PFRS. ERS and PFRS recognize benefit payments when due and payable in accordance with benefit terms; investment assets are reported at fair value.

(l) Other Postemployment Benefits (OPEB)

In addition to providing pension benefits, the Authority provides OPEB in the form of health insurance coverage to retired employees (Note 9). Substantially all employees become eligible for these benefits when they reach normal retirement age with a minimum of ten years of service.

(m) Other Noncurrent Liabilities

Other noncurrent liabilities consist primarily of amounts due to the New York State and Local Retirement System pursuant to the New York State Pension Contribution Stabilization Program (Note 8).

(n) Net Position

Net position consists of the following components:

- *Net investment in capital assets* – consists of net capital assets reduced by outstanding balances of any related debt obligations attributable to the acquisition, construction, or improvement of those assets.
- *Restricted* – consists of restricted assets reduced by related liabilities and deferred inflows of resources. Restrictions are imposed by external organizations such as federal or state laws or by the terms of the Authority's bonds.
- *Unrestricted* – net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that do not meet the definition of the above restrictions and are available for general use of the Authority.

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Notes to Financial Statements

March 31, 2024

(o) Revenue Recognition

The Authority's principal sources of operating revenues are fares, airport fees and services, rental income, and concessions and commissions. Operating revenues from fares represent surface transportation services and are generated from cash and various fare media including tickets and passes which are recognized as income as they are used. On November 1, 2023, the Authority introduced MetGo smart cards, an account-based system that eliminates the need for cash. Operating revenues from airport fees and services include landing and terminal ramp fees. Rental income includes building and ground space rented to airlines and air cargo carriers, among others. Operating revenues from concessions and commissions include parking fees and rental of retail space. These sources of operating revenues are recognized upon provision of services. Commissions from auto rental companies are recognized based upon a monthly percentage of revenues earned during the contractual year with an annual adjustment for any minimum annual guaranteed fees.

In April and July 2020, the Authority was awarded funding of \$61,909,000 from the Federal Transit Administration (FTA) and \$23,538,000 from the Federal Aviation Administration (FAA) under the Coronavirus Aid, Relief, and Economic Security (CARES) Act to support costs to operate, maintain, and manage the Authority's services. The grants provide funding for eligible costs beginning January 20, 2020.

In April and May 2021, the Authority was awarded funding of \$43,183,000 from the FTA and \$7,900,000 from the FAA under the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA) to support costs to prevent, prepare for, and respond to coronavirus, including operating expenses. The CRRSA grant also provides funding for eligible costs beginning January 20, 2020. Amounts totaling \$1,000,000 and \$5,500,000 are recognized as capital contributions in the accompanying statements of revenues, expenses and changes in net position for the years ended March 31, 2024 and 2023, respectively

In March 2021 the American Rescue Plan Act (ARPA) was passed by the United States Congress and signed into law by President Biden. Through ARPA, the FTA allocated \$79,413,000 through the Section 5307 program to NFTA-Metro and \$20,053,000 was allocated from the FAA. Amounts totaling \$9,323,000 and \$7,965,000 are recognized as capital contributions in the accompany statements of revenue, expenses and changes in net position for the years ended March 31, 2024 and 2023, respectively.

The Authority also receives operating assistance and capital contributions pursuant to various federal, state, and local government contracts and grant agreements. Operating assistance and capital contributions are recorded as revenue based on annual appropriations or when expenditures have been incurred in compliance with grant requirements. Government assistance and capital contributions represent 67% and 63% of total revenue for the years ended March 31, 2024 and 2023, respectively. A significant decrease in this funding may negatively impact future operations of the Authority.

(p) Taxes

As a public benefit entity, the Authority is exempt from federal and state income tax, as well as state and local property and sales taxes, with the exception of certain agreements for payments made in lieu of taxes.

(q) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Notes to Financial Statements

March 31, 2024

(r) Administrative Services

In accordance with agreements between the Authority and the New York State Department of Transportation, the Authority functions as the “host agency” for the Greater Buffalo Niagara Regional Transportation Council (GBNRTC), the designated Metropolitan Planning Organization (MPO) for the metro region including Erie and Niagara counties, and NITTEC, a regional traffic operations center. As the host agency for both organizations, the Authority provides certain administrative responsibilities relating to grants management and accounting functions; however, the Authority has no budgetary oversight and no responsibility for operations, deficits, or debts. Consequently, the Authority’s financial statements do not include the assets, liabilities, revenues, or expenses of GBNRTC or NITTEC. The Authority administered reimbursement grants totaling \$10,667,000 and \$7,501,000 for GBNRTC and NITTEC combined for the years ended March 31, 2024 and 2023, respectively.

(3) Cash Deposits and Investments

The Authority has a written investment policy which is in compliance with the Authority’s enabling legislation under Sections 1299-E and 2925(3)(f) of the New York State Public Authorities Law. Further, pursuant to collateralizing its investments, the Authority is subject to General Municipal Law Section 10, *Deposit of Public Money*, whereby all cash, cash equivalents, and investments are fully insured by the Federal Deposit Insurance Corporation (FDIC) and/or are fully collateralized with U.S. government obligations held in the name of the Authority. Investments consist of certificates of deposit and U.S. Treasury notes purchased directly by the Authority.

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the Authority will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. At March 31, 2024 and 2023, the Authority’s bank deposits were fully insured by FDIC or collateralized in accordance with the above requirements.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In order to limit its exposure, the Authority limits the maturity dates of its investments.

The Authority, as lessor, has entered into non-cancelable leases for various buildings and airport concessions with options to extend through 2052. Corresponding rental income recognized during fiscal year 2024 and 2023 totaled \$10,734,000 and \$10,716,000 and interest on the leases receivable totaled \$1,215,000 and \$1,530,000 at rates of 4.6% and 3.6%, respectively.

Rental income is derived primarily from airport operations. At March 31, 2024 and 2023, net airport capital assets totaled \$279,200,000 and \$261,100,000, of which approximately 25% is leased to third parties (based on square footage).

(5) Long-Term Debt (in thousands)

	2024	2023
(a) Airport Revenue Bonds 2019: Series A, maturing April 1, 2039 with variable annual principal payments commencing April 1, 2020, bearing interest at 5.0% (including unamortized premium of \$3,660 and \$4,620 at March 31, 2024 and 2023)	\$ 59,980	\$ 67,815
(b) Airport Revenue Bonds 2014: Series A, maturing April 1, 2029 with variable annual principal payments commencing April 1, 2015, bearing interest at 3.0% to 5.0% (including unamortized premium of \$1,039 and \$1,495 at March 31, 2024 and 2023)	37,464	43,415
(c) New York State, non-interest bearing	3,380	3,380
(d) Financed motor bus purchases, monthly payments with fixed interest rates ranging from 1.5% to 7.8%, maturing through 2032, secured by related equipment	4,447	7,439
(e) Buildings and concessions leases and software subscription, monthly payments with fixed interest rates at 3.6% to 4.55%, maturing through 2038	1,527	1,302
	106,798	123,351
Less current portion	14,904	15,568
	\$ 91,894	\$ 107,783

- (a) On February 26, 2019, the Authority issued \$81,920,000 Series 2019A Airport Revenue Bonds at a premium of \$10,111,000. These bonds were issued to provide financing for certain capital improvements at BNIA and to refund outstanding Series 2004A and 2004C bonds in the amounts of \$24,350,000 and \$3,825,000, respectively.
- (b) On September 3, 2014, the Authority issued \$65,340,000 Series 2014A and \$12,430,000 Series 2014B Airport Revenue Bonds at a premium of \$9,336,000. These bonds were issued to refund outstanding Series 1999A, 1999B, and 1998 bonds in the amounts of \$61,525,000, \$13,775,000, and \$13,485,000, respectively.
- (c) The State Legislature passed a law in 1994 that granted the Authority immediate relief from the repayment covenant for a non-interest-bearing loan totaling \$3,380,000. The law provides in pertinent part that repayment of the loan would be deferred for a two-year period, which expired on May 12, 1996. The Director of the Budget has been granted the discretion to either enter into an agreement with the Authority setting forth a schedule for reimbursement without interest or waive the requirement for reimbursement in whole or in part. No decision has been made to date. Maturities for this loan have been included in the category of loans and capital leases for long-term debt maturities for 2032 due to the uncertainty of repayment.

The Airport Revenue Bonds from 2019 and 2014 are payable from and secured by a lien against net revenues derived from the operations of the BNIA. Payment of scheduled bond principal and interest payments are also guaranteed by municipal bond insurance policies maintained by the Authority. The bonds are special limited obligations of the Authority. They are neither general obligations of the Authority nor a debt of the State or any political subdivision.

Notes to Financial Statements

March 31, 2024

(8) Pensions

(a) New York State Retirement System

The Authority participates in ERS and PFRS (the Systems), which are cost-sharing, multiple-employer, public employee retirement systems that provide retirement benefits as well as death and disability benefits. New York State Retirement and Social Security Law (NYSRSSL) governs obligations of employers and employees to contribute and provide benefits to employees. The benefits to employees are guaranteed under the State constitution. The Authority's election to participate in the State plans is irrevocable.

As set forth in NYSRSSL, the Comptroller of the State (the Comptroller) serves as sole trustee and administrative head of the Systems. The Comptroller adopts and may amend rules and regulations for the administration and transaction of the business of the Systems and for the custody and control of its funds. The Systems issue publicly available financial reports that include financial statements and required supplementary information. Those reports may be obtained from the New York State and Local Retirement System at www.osc.state.ny.us/retire.

Benefits: The Systems provide retirement, disability, and death benefits for eligible members, including automatic cost of living adjustments. In general, retirement benefits are determined based on an employee's individual circumstances using a pension factor, an age factor, and final average salary. The benefits vary depending on the individual's employment tier. Pension factors are determined based on tier and an employee's years of service, among other factors.

Contribution requirements: No employee contributions are required for those whose service began prior to July 27, 1976. The Systems require employee contributions of 3% of salary for the first 10 years of service for those employees who joined the Systems on or after July 27, 1976 through December 31, 2009. Participants whose service began on or after January 1, 2010 through March 31, 2012 are required to contribute 3% of their salary for the entire length of service. Employees who joined on or after April 1, 2012 contribute based on annual wages at a rate of 3% to 6% each year, based on their level of compensation. The Comptroller annually certifies the rates used, expressed as a percentage of the wages of participants, to compute the contributions required to be made by the Authority to the pension accumulation fund. For payments made in fiscal year 2024, rates ranged from 9.5% - 19.9% for ERS (8.2% - 17.5% for 2023) and 9.9% - 31.4% for PFRS (9.6% - 29.9% for 2023).

The Authority participates in the New York State Pension Contribution Stabilization Program (the Program), an optional program which establishes a graded contribution rate system that enables the Authority to pay a portion of its annual contributions over time and more accurately predict pension costs. At March 31, 2024 and 2023, \$247,000 and \$1,656,000 is due to the Systems pursuant to the Authority's participation in the Program which is included in other noncurrent liabilities in the accompanying balance sheets.

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Notes to Financial Statements

March 31, 2024

Net Pension Position, Pension Expense, and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

At March 31, 2024, the Authority reported liabilities of \$18,064,000 and \$17,679,000 for its proportionate shares of the ERS and PFRS net pension positions, respectively. At March 31, 2023, the Authority reported an asset of \$6,558,000 and a liability of \$1,698,000 for its proportionate shares of the ERS and PFRS net pension positions, respectively.

The total pension liability at the March 31, 2023 measurement date was determined by an actuarial valuation as of April 1, 2022, with update procedures applied to roll forward the total pension liability to March 31, 2023 (measurement date of March 31, 2022 with an actuarial valuation as of April 1, 2021 for the March 31, 2023 net pension position). The Authority's proportion of the net pension position was based on the ratio of its actuarially determined employer contribution to ERS's and PFRS's total actuarially determined employer contributions for the fiscal year ended on the measurement date. At the March 31, 2023 measurement date, the Authority's proportion was 0.0842365% for ERS and 0.3208288% for PFRS, increases of 0.0040144 and 0.0219894 from their respective proportions measured as of March 31, 2022.

For the years ended March 31, 2024 and 2023, the Authority recognized related pension expense of \$11,695,409 and \$1,766,000, respectively, and reported deferred outflows and deferred inflows of resources as follows (in thousands):

	2024			
	ERS		PFRS

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Notes to Financial Statements

March 31, 2024

Authority contributions subsequent to the measurement date will be recognized as an addition to (a reduction of) the net pension asset (liability) in the subsequent year. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands):

Years Ending March 31,	ERS	PFRS
2025	\$ 2,588	\$ 1,570
2026	(773)	(728)
2027	3,862	4,993
2028	5,038	3,001
2029	-	209
	\$ 10,715	\$ 9,045

Actuarial Assumptions

The actuarial assumptions used in the April 1, 2022 valuation, with update procedures used to roll forward the total pension liability to March 31, 2023, were based on the results of an actuarial experience study for the period April 1, 2015 to March 31, 2020. These assumptions are:

Inflation - 2.9% (2.7% for 2023)

Salary increases - 4.4% (ERS), 6.2% (PFRS)

Cost of living adjustments - 1.5% annually (1.4% for 2023)

Investment rate of return - 5.9% compounded annually, net of investment expense, including inflation

Mortality - Society of Actuaries' Scale MP-2021 (Scale MP-2020 for 2023)

Discount rate - 5.9%

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Investment Asset Allocation

Best estimates of arithmetic real rates of return (net of the long-term inflation assumption) for each major asset class and the Systems' target asset allocations as of the valuation date are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equities	32%	4.3%
International equities	15%	6.9%
Private equities	10%	7.5%
Real estate equities	9%	4.6%
Domestic fixed income securities	23%	1.5%
Short-term	1%	-
Other	10%	5.4%-5.8%
	100%	

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Notes to Financial Statements

March 31, 2024

Discount Rate

The discount rate projection of cash flows assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the Authority's proportionate share of its net pension asset (liability) for ERS and PFRS as of March 31, 2024 calculated using the discount rate of 5.9% and the impact of using a discount rate that is 1% lower and 1% higher (in thousands):

	1.0% Lower Discount Rate (4.9%)	Current Discount Rate (5.9%)	1.0% Higher Discount Rate (6.9%)
Authority's proportionate share of the ERS net pension asset (liability)	\$ (43,652)	\$ (18,064)	\$ 3,318
Authority's proportionate share of the PFRS net pension asset (liability)	\$ (36,853)	\$ (17,679)	\$ (1,802)

(b) Niagara Frontier Transit Metro System, Inc. Retirement Plan

The Metro Plan is a single employer defined benefit pension plan covering certain full-time non-union employees previously employed by Metro. Participation in the Metro Plan was frozen effective January 1, 1998.

Benefits: The Metro Plan provides for retirement and death benefits for eligible members. In general, retirement benefits are determined based on an employee's individual circumstances based on age, years of credited service, and compensation.

Employees Covered by Benefit Terms: At the March 31, 2023 measurement date, the following employees were covered by the Metro Plan:

Retirees	40
Beneficiaries	10
Terminated vested	14
	64

Contribution requirements: The Authority pays the full cost of all benefits provided under the Metro Plan. The Authority's policy is to fund the minimum recommended contribution as actuarially determined annually. No contributions were required for 2024 and 2023.

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Notes to Financial Statements

March 31, 2024

Net Pension Asset (Liability)

The net pension asset as of March 31, 2024 was measured as of March 31, 2023 (measured as of March 31, 2022 for March 31, 2023) based on an actuarial valuation as of the same date. Actuarial assumptions applied to all periods included in the measurement are as follows:

Actuarial Cost Method - Entry Age Normal

Mortality - Generational PUB-2010 Mortality Table for General Employees (Amount Weighted Version) projected using Scale MP-2021

Rate of Return on Plan Assets - 6.5%

Discount Rate - The Plan's fiduciary net position is projected to be available to meet all projected future benefit payments resulting in a single discount rate of 6.5%

Assumed Retirement Age - Age first eligible for unreduced benefits

Notes to Financial Statements

March 31, 2024

(c) *Amalgamated Transit Union Division 1342 Niagara Frontier Transport System Pension Fund*

All full-time Metro employees who are ATU members are covered by the Amalgamated Transit Union Division 1342 Niagara Frontier Transit System Pension Fund (the ATU Plan), a defined benefit pension plan established in accordance with an Agreement and Declaration of Trust between the ATU and Metro (the Agreement). Pursuant to the ATU Union Contract, a portion of part-time employee compensation is also contributed by Metro to the ATU Plan, although part-time employees do not participate in or benefit from the ATU Plan.

The ATU Plan is managed by four trustees: two union representatives and two management representatives. These trustees are responsible for management of investments and payments to retirees. The ATU Plan issues a publicly available financial report that includes financial statements and notes. That report may be obtained by writing to Amalgamated Transit Union Local 1342, 196 Orchard Park Road, West Seneca, New York 14224.

Funding Requirement

On a weekly basis, each eligible employee is required to contribute the greater of sixteen dollars or 5% of payroll. Metro's contribution is 11% of eligible employee wages and is determined pursuant to the collective bargaining agreement (CBA) between Metro and the ATU. Metro's contributions to the Plan recorded on the statement of revenues, expenses and changes in net position, pursuant to the CBA, totaled \$6,445,000 and \$6,279,000 for 2024 and 2023. The Agreement provides that Metro is not obligated to make any other payment to fund the benefits or to meet any expenses of administration and, in the event of termination, Metro will have no obligation for further contributions to the ATU Plan. Therefore, net pension assets and liabilities of the ATU plan are not recorded by the Authority.

(d) *Postretirement Medical Premium Stipend Plan*

The Authority's Metro retirees are provided with a monthly stipend (Stipend Plan) representing the insurance premium amount of single medical coverage if they retired prior to January 1, 2004. If they retired subsequent to January 1, 2004, Metro retirees are provided with continuation of full medical coverage as described in Note 9.

As of March 31, 2024, there are 89 retirees within Metro who retired prior to January 1, 2004. Monthly, each retiree is provided with a cash stipend equivalent to the single medical premium cost or, if enrolled in Medicare, the retiree is provided with an amount equal to the Medicare Part B premium and an additional amount ranging from \$932 to \$1,102. The retiree has the option of any combination of cash stipend and/or health insurance continuation.

Net changes	858	-	858
Balances at March 31, 2024	\$ (9,133)	\$ -	\$ (9,133)

The net pension liability was measured as of March 31, 2024 based on an actuarial valuation as of the same date (measurement date of March 31, 2023 for the March 31, 2023 net pension liability). Actuarial methods and assumptions applied to all periods included in the measurement are as follows:

Healthcare Cost Trend – 5.6% (5.8% for 2023), ultimately declining to 3.94% in 2075

Actuarial Cost Method – Projected Unit Credit

Discount Rate – 3.96% (3.78% for 2023)

Mortality – Generational PUB-2010 Mortality Table for General Employees projected using Scale MP-2021

Inflation Rate – 2.5%

The following presents the Authority's Stipend Plan net pension liability as of March 31, 2024 calculated using the discount rate of 3.96% and the impact of using a discount rate that is 1% lower and 1% higher (in thousands):

	1.0% Lower Discount Rate (2.96%)	Current Discount Rate (3.96%)	1.0% Higher Discount Rate (4.96%)
Authority's Stipend Plan net pension liability	\$ (9,776)	\$ (9,133)	\$ (8,566)

(9) OPEB

The Authority provides a defined benefit postemployment health care plan (the Plan) for essentially all full-time employees with a minimum of ten years of service upon retirement. Upon retirement, most Authority employees are provided a portion of medical coverage while certain employees hired prior to February 2004 are provided with continuation of full medical coverage.

At the actuarial valuation date of March 31, 2022, employees covered by the Plan include:

Active employees	1,418
Inactive employees or beneficiaries currently receiving benefits	1,167
Inactive employees entitled to but not yet receiving benefits	-
	2,585

Total OPEB Liability

The total OPEB liability of \$458,809,000 and \$502,015,000 was measured as of March 31, 2023 and March 31, 2022, respectively, determined by an actuarial valuation as of March 31, 2022. The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

- Healthcare cost trend rates* – based on the Society of Actuaries Long-Term Healthcare Cost Trend Model, initially 7.5%, then decreasing slowly to an ultimate rate of 3.94% after 2075
- Salary increases* – 0.8%-12.4%
- Mortality* - Generational PUB-2010 Mortality Table for General Employees projected using Scale MP-2021
- Discount rate* – 3.78% based on the General Obligation 20-Year Bond rate (2.83% for 2023)
- Inflation rate* – 2.5%

Changes in the Total OPEB Liability (in thousands)

Notes to Financial Statements

March 31, 2024

(10) Commitments and Contingencies

(a) Litigation and Claims

In the normal course of business, it is not uncommon for the Authority to incur litigation surrounding certain events. There are outstanding lawsuits involving substantial amounts that have been filed against the Authority. Based on the facts presently known, management and in-house legal counsel do not expect these matters to have a material adverse effect on the Authority's financial condition or results of operations.

(b) Self-Insured Claims

The Authority assumes the liability for most risks including, but not limited to, workers' compensation, health, property damage, environmental claims, and personal injury claims. The Authority has excess insurance from commercial carriers to cover claims in excess of \$1,250,000 per occurrence for workers compensation claims and limits ranging from \$50,000 to \$5,000,000 depending on the type of claim for other self-insured claims. Estimated liabilities for claims not covered by insurance have been reflected in the financial statements when it is probable that a loss has occurred and the amount can be reasonably estimated. Workers' compensation liabilities are estimated based on an actuarial valuation dated April 11, 2024. Other self-insured liabilities are estimated by the Authority based on available information. Management believes the estimated liabilities are reasonable based upon historical experience and the opinions of internal risk management administrators and legal counsel.

Changes in the reported liability claims for the year ended March 31, 2024 and 2023 are as follows (in thousands):

	2024	2023
Liability, beginning of year	\$ 35,580	\$ 40,140
Current year claims and change in estimates	4,041	3,616
Claim payments	(7,127)	(8,176)
Liability, end of year	\$ 32,494	\$ 35,580

(c) Project Commitments

As of March 31, 2024, the Authority has commenced several projects including:

- BNIA runways 5/23 Reconstruction-Design/Construction estimated at \$92,242,000 of which \$36,308,000 was expended to date
- BNIA Passenger Boarding Bridge Replacement estimated at \$19,521,000 of which \$1,044,000 was expended to date
- BNIA Terminal HVAC Replacement estimated at \$74,204,000 of which \$867,000 was expended to date
- NFIA airfield illuminated signage estimated at \$5,330,000 of which \$205,000 was expended to date
- Track bed replacement Mohawk-Eagle Design and Construction estimated at \$29,195,000 of which \$9,239,000 was expended to date
- Metro DL&W Terminal Design/Construction estimated at \$60,253,000 of which \$48,231,000 was expended to date
- Metro Electric Bus Infrastructure estimated at \$18,995,000 of which \$11,331,000 was expended to date

NIAGARA FRONTIER TRANSPORTATION AUTHORITY
(A Component Unit of the State of New York)

Notes to Financial Statements

March 31, 2024

- Metro (Bus and Rail) fare collection upgrade estimated at \$27,448,000 of which \$24,073,000 was expended to date
- Metro Bailey Corridor Bus Rapid Transit (BRT) estimated at \$105,743,000 of which \$0 was expended to date
- Metro Amherst/Buffalo LRRT Extension estimated at \$31,000,000 of which \$8,782,000 was expended to date

Funding for these projects is provided by federal and state grant awards, Passenger Facility Charges, and other local/Authority revenue sources.

(11) Segment Information – Buffalo Niagara International Airport

BNIA is Western New York’s primary passenger and cargo airport. In fiscal year 1991, the Authority began the Airport Improvement Program to build a new terminal building and provide improved facilities for BNIA passengers. The Authority issued Airport Revenue Bonds (Note 5) pursuant to a Master Resolution approved by the Board of Commissioners for the construction of BNIA. The Master Resolution contains certain compliance covenants including a requirement that net airport revenues be a minimum percentage of net debt service. The bonds are payable from and are secured by a lien on net revenues derived from the operations of BNIA. The bonds are special limited obligations of the Authority. They are neither general obligations of the Authority nor a debt of the State or any political subdivision.

(d) Master Resolution Covenant

As required by the Master Resolution authorizing the issuance of airport revenue bonds, the Authority charges rates, rentals, and fees at the BNIA which are sufficient to pay debt service, operating expenses, and any and all other claims and charges relating to the BNIA. In addition, net airport revenues must at all times be at least 125% of the maximum net debt service on all bonds outstanding. The Authority has the ability to bill the airlines to meet the bond covenant pursuant to the Airline Use and Lease Agreement. In lieu of billing the airlines to meet the covenant, BNIA utilized CRRSA and ARP Acts funding to make 2024 and 2023 principal and interest payments.

Airport revenues are defined in the Master Resolution as the total of all revenue from all sources collected by the Authority at the BNIA, which specifically excludes passenger facility charges and includes interest income. Passenger facility charges are not pledged as security for the Airport Revenue Bonds. Operating expenses are defined as all costs to operate and maintain the BNIA including general, administrative, and professional fee expenses allocated by the Authority. Debt service is defined as the total amount required to pay the maximum current or future year principal and interest, net of amounts available for the payment of interest as defined by the Master Resolution (in thousands).

	2024	2023
Airport revenues:		
Operating revenues	\$ 71,991	\$ 67,978
Interest income	3,321	1,701

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Board of Commissioners
Niagara Frontier Transportation Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Niagara Frontier Transportation Authority (the Authority) (a component unit of the State of New York), a business-type activity, as of and for the year ended March 31, 2024, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated June 26, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in blue ink that reads "Lyndon & McCormick, LLP". The signature is written in a cursive, flowing style.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH SECTION 2925(3)(f) OF THE NEW YORK STATE PUBLIC AUTHORITIES LAW

The Board of Commissioners
Niagara Frontier Transportation Authority

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of Niagara Frontier Transportation Authority (the Authority), a business-type activity and a component unit of the State of New York, as of and for the year ended March 31, 2024, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and we have issued our report thereon dated June 26, 2024.

In connection with our audit, nothing came to our attention that caused us to believe that the Authority failed to comply with §2925(3)(f) of the New York State Public Authorities Law regarding investment guidelines during the year ended March 31, 2024. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Authority's noncompliance with the above rules and regulations.

The purpose of this report is solely to describe the scope and results of our testing. This communication is not suitable for any other purpose.
