# PART I

# **INTRODUCTORY SECTION**

# CHICAGO DEPARTMENT OF AVIATION CITY OF CHICAGO

June 25, 2019

To the Honorable Mayor Lori E. Lightfoot, members of the City Council and residents of the City of Chicago:

I am pleased to submit the Comprehensive Annual Financial Report ("CAFR") of Chicago Midway International Airport ("Airport") for the year ended December 31, 2018. State law requires that all governmental units publish, within six months of the close of each fiscal year, financial statements presented in conformity with generally accepted accounting principles ("GAAP") and audited by a licensed public accountant.

Responsibility for both the accuracy of the data and completeness, and fairness of the presentation, including all disclosures, rests with the City of Chicago ("City"), Chicago Department of Aviation ("CDA") and Comptroller's Office. The purpose of the CAFR is to provide complete and accurate information that complies with reporting requirements. The Chicago Midway International Airport's Management's Discussion and Analysis ("MD&A") can be found immediately following the independent auditors' report.

# ECONOMIC CONDITION AND OUTLOOK

The Airport provides regional travelers with access to service by a number of airlines that generally specialize in low-fare, point-to-point, origin and destination ("O&D") passenger service. The Airport's major attributes that allow it to enjoy a unique market niche include the Airport's location proximate to a large O&D passenger base, its accessibility and its low per-passenger cost structure. The Airport connects Chicago to 49 of the top 50 markets in the contiguous United States. In 2018, total passenger volume remained steady at 22 million passengers.

Given these factors, along with the projections of air travel demand throughout the region, there is a strong economic outlook for the Airport.

## **REPORTING ENTITY**

The Airport is located approximately eight miles southwest of the City's central business district and is within one of the largest O&D passenger bases in the United States. In addition, the Airport is near the center of the Chicago region's population. This geographic advantage is further enhanced by the existence of an extensive highway and passenger rail network providing convenient access to the Airport. The Airport occupies approximately 840 acres in slightly more than a one-mile square area.

# MAJOR INITIATIVES

The City continues to enhance operations at the Airport through the Midway Modernization Program ("MMP"), which is an over \$300 million program to provide passengers with a more world-class travel experience by the year 2020. The investments are focused on addressing the Airport's steady passenger demand, improvements to passenger safety and security, and modernization to Airport facilities and amenities.

Currently underway through MMP are projects to increase security checkpoint capacity; enhance terminal parking; and a significant overhaul of concessions that reflect the community and provide greater opportunities to small and historically disadvantaged businesses.

Over the course of 2018, progress was made on the following elements of the MMP:

- Passenger Security Checkpoint Expansion: This project will construct an 80,000 square foot security
  pavilion to increase the number of TSA lanes, allowing five times the volume of the current throughput
  to improve security checkpoint efficiency and wait times for passengers. Construction for this project
  began in January 2018.
- Terminal Parking Garage Enhancements: This project will enhance the existing Terminal Parking Garage with a new revenue control system and modern upgrades to provide a better passenger experience. Construction for this project began in August 2018.
- Concessions Redevelopment Program: The project is the first significant upgrade to the Airport's concessions program in nearly 20 years and is delivering new local offerings, national brands, new healthy options and expanded retail offerings. The program will double the number of concessions jobs from 700 to 1,400. Phase I of the concessions transformation began in January 2018, with the first wave of brands which opened in Summer 2018.

In total, these projects are focused on maintaining and enhancing the Airport's operational capability and efficiency, growing non-airline revenue, and bringing further improvements to the overall travel experience for passengers by 2020.

Finally, the Airport continues to invest in our surrounding community and has invested over \$350 million as part of the on-going residential and school sound insulation programs since 1996.

The City is financing the capital program through bond proceeds, federal grants, passenger facility charge revenues and other available Airport funds.

# FINANCIAL INFORMATION

The Departments of Finance and Aviation are responsible for implementing and maintaining an internal control structure to ensure the integrity of the Airport's operations and to allow for the preparation of financial statements in conformity with generally accepted accounting principles. As the cost of a control should not exceed the benefits to be derived, the internal control structure is designed to provide reasonable, rather than absolute, assurance to all stakeholders that the financial statements reflect operations free of theft, neglect or material misstatements that could affect the efficiency of operations at the Airport. This objective is being

met by adequate supervision of employees, segregation of the duties and multiple approval and budgetary controls over all expenditures.

The Airport's budget is developed in connection with the City's annual budget and is based on an analysis of the Airport's historical operating expenses. The Commissioner of Aviation recommends the final proposed budget to the Budget Director. After approval by the Budget Director, the proposed budget is recommended to the Mayor for submission to the City Council for its approval following public hearings.

The budget process is designed to ensure that the Airport will have adequate funding to meet its operational objectives. The Airport cannot, by law, exceed the level of funding as established by the City Council-approved budget. The Budget Director uses an allotment system to manage each department's expenditures against its respective annual appropriations. The Budget Director, through the allotment system, has the authority to institute economic measures for the Airport to ensure that its expenditures do not exceed its revenue collection. The Airport uses encumbrances to control expenditures by preventing appropriated dollars from being used for any purpose other than that for which they have been legally appropriated.

# **RELEVANT FINANCIAL POLICIES**

The Airport is owned by the City and operated by CDA and is accounted for as a self-supporting enterprise fund of the City. The City maintains the books, records and accounts of the Airport in accordance with generally accepted accounting principles and as required by the provisions of the Airport Use Agreements, the Bond Ordinance, and Bond Indentures as supplemented and amended.

The Airport Use and Lease Agreements specify a residual rate-making methodology for the calculation of airline rates and charges. Under this methodology, total operating and maintenance expenses and debt service (including coverage) are calculated for each cost-revenue center and offset by non-airline revenues. The Airport Use Agreements provide that the aggregate of Airport Fees and Charges paid by the Airline Parties must be sufficient to pay for the net cost of operating, maintaining and developing the Airport, including the satisfaction of Debt Service coverage, deposit and payment requirements of the Bond Ordinance and the Indentures.

# **INDEPENDENT AUDIT**

The Midway bond indentures require the Airport financial statements to be audited by independent certified public accountants. The audit was conducted by Deloitte & Touche LLP and a consortium of Chicago-based minority and women-owned certified public accounting firms. An unmodified audit opinion, rendered by Deloitte & Touche LLP, is included in the financial section of this report.

# AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Airport for its CAFR for the fiscal year ended December 31, 2017. This was the 21<sup>st</sup> consecutive year that the Airport has received this prestigious award, which is the highest form of recognition for excellence in state and local government financial reporting. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to conform to the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

This CAFR could not have been prepared without the dedication and effective help of the entire staff of the CDA and the Comptroller's Office. I wish to express my appreciation to them, particularly those that contributed directly to the preparation of the report.

Respectfully submitted,

Jamie L. Rhee

Commissioner Chicago Department of Aviation

# **INDEPENDENT AUDITORS' REPORT**

To the Honorable Lori E. Lightfoot, Mayor And Members of the City Council City of Chicago, Illinois

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of Chicago Midway International Airport ("Midway"), an enterprise fund of the City of Chicago, Illinois (the "City"), as of and for the years ended December 31, 2018 and 2017, and the related notes to the financial statements, which collectively comprise Midway's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Chicago Midway International Airport, as of December 31, 2018 and 2017, and the changes in its financial position, and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Emphasis of Matter**

As discussed in Note 1 to the basic financial statements, the basic financial statements referred to above present only Chicago Midway International Airport, an enterprise fund of the City, and do not purport to, and do not, present the financial position of the City as of December 31, 2018 and 2017, changes in its financial position, or, where applicable, its cash flows, thereof, in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

## **Other Matters**

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, the Schedule of Changes in the Net Pension Liability and Related Ratios, and the Schedule of Contributions as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Midway's basic financial statements. The introductory section, additional supplementary information, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The additional supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the

additional supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Deloite & Jouche LLP

June 25, 2019

## MANAGEMENT'S DISCUSSION AND ANALYSIS (Dollars in thousands)

This following discussion and analysis of the Chicago Midway International Airport's (the "Airport" or "Midway") performance provides an introduction and overview of the Airport's financial activities for the years ended December 31, 2018 and 2017. Please read this discussion in conjunction with the Airport's basic financial statements and the notes to basic financial statements following this section.

# **FINANCIAL HIGHLIGHTS**

# 2018

- Operating revenues for 2018 increased by \$11,508 compared to 2017 operating revenue primarily due to increases in the landing fees and terminal rental rates to pay for capital development of the airport and operational infrastructure reliability.
- Operating expenses before depreciation and amortization increased by \$10,445 compared to 2017 due to increases in salaries and wages of \$3,223 due to increased public safety presence, pension expense of \$2,632 primarily as a result of composition of amounts being amortized from deferred inflows and outflows related to prior assumptions changes and differences between projected and actual earnings on pension plan investments, and repairs and maintenance of \$2,820 due to increased equipment and fuel maintenance.
- The Airport's total net deficit at December 31, 2018, was \$332,824. This is a decrease of \$25,823 compared to total net deficit at December 31, 2017, primarily due to the reduction of capital grant revenues earned during 2018 for Airport Improvement Grants (AIP) that were awarded but not expended during 2018. These grant awards will be expended during 2019-2020.
- Capital asset additions for 2018 were \$80,927, which is an increase of \$45,038 compared to 2017, principally due to runway rehabilitation and parking and security improvements related to the terminal checkpoint expansion as part of the Midway Modernization Program. Completed projects totaling, \$18,008 were transferred from construction in progress to applicable buildings and other facilities capital account.

# 2017

- Operating revenues for 2017 increased by \$12,832 compared to 2016 operating revenue primarily due to increases in the landing fees and terminal rental rates to pay for capital development of the airport, increases in concessions revenues (primarily food & beverage and retail) due to a new concessions management contract which the Airport entered into in May 2017 with Midway Partnership LLC, and parking revenues due to a new rate structure implemented in January 2017.
- Operating expenses before depreciation and amortization decreased by \$11,640 compared to 2016 primarily due to a decrease in pension expenses as a result of the changes under Public Act 100-0023 (P.A. 100-0023), which requires increased future contributions to the

Municipal Employees' Annuity and Benefit Fund of Chicago (Municipal Employees') and the Laborers' and Retirement Board Employees' Annuity and Benefit Fund of Chicago (Laborers') Plans. The increase in future required contributions increased the discount rate used to determine the total pension liability and decreased the current year pension expense. This was offset by an increase in professional and engineering services for pre-construction (planning) related services associated with the Midway Modernization Program.

- The Airport's total net deficit at December 31, 2017, was \$(307,001). This is a decrease of \$3,148 compared to total net deficit at December 31, 2016, primarily due to the non cash portion of pension expense (recorded as an operating expense) that is not collected in rates and charges.
- Capital asset additions for 2017 were \$35,889, principally due to land acquisition, runway rehabilitation and parking and security improvements. Completed projects totaling, \$14,174 were transferred from construction in progress to applicable buildings and other facilities capital account.

# **OVERVIEW OF THE BASIC FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the Airport's basic financial statements. The Airport is included in the City of Chicago, Illinois' (the "City") reporting entity as an enterprise fund. The Airport's basic financial statements are composed of the basic financial statements and the notes to basic financial statements. In addition to the basic financial statements, this report also presents additional and statistical information after the notes to basic financial statements.

The Statements of Net Position present all of the Airport's assets and liabilities using the accrual basis of accounting. The difference between assets and deferred outflows and liabilities and deferred inflows is reported as net position. The increase or decrease in net position may serve as an indicator, over time, whether the Airport's financial position is improving or deteriorating. However, the consideration of other non-financial factors, such as changes within the airline industry, may be necessary in the assessment of the overall financial position and health of the Airport.

The Statements of Revenues, Expenses, and Changes in Net Position present all current fiscal year revenues and expenses, regardless of when cash is received or paid, and the ensuing change in net position.

The Statements of Cash Flows report how cash and cash equivalents are provided and used by the Airport's operating, capital financing, noncapital financing and investing activities. These statements present the cash received and disbursed, the net increase or decrease in cash and cash equivalents for the year and the cash and cash equivalents balance at year-end.

The Notes to Basic Financial Statements are an integral part of the basic financial statements; accordingly, such disclosures are essential to a full understanding of the information provided in the basic financial statements.

The Required Supplementary Information section presents the schedule of changes in the net pension liability and related ratios and the schedule of contributions.

In addition to the basic financial statements, this report includes the Additional Supplementary and Statistical Information. The Additional Supplementary Information section presents debt

service coverage calculations and the Statistical Information section includes certain unaudited information related to the Airport's historical financial and non-financial operating results and capital activities.

# FINANCIAL ANALYSIS

Landing fees and terminal area use charges and fueling system charges are assessed to the various airlines throughout each year based on estimated rates. Such rates are designed to yield collections from airlines adequate to cover certain operating expenses and required debt service and fund deposits as determined under provisions of the Airport Use Agreement and Facilities Lease ("Use Agreement"). Incremental amounts due from the airlines arise when amounts assessed, based on the estimated rates used during the year, are less than actual expenses and required deposits for the year. Such incremental amounts due from airlines arise when amounts assessed, based on the estimated rates used during the year, exceed actual expenses and required deposits for the year. Such incremental amounts due to airlines arise when amounts assessed, based on the estimated rates used during the year, exceed actual expenses and required deposits for the year. Such incremental amounts due to airlines are included in billings over amounts earned. The termination date of the Use Agreement is December 31, 2027.

At December 31, 2018, the Airport's financial position included total assets and deferred outflows of \$2,041,271 total liabilities and deferred inflows of \$2,374,095 and net deficit of \$332,824. A comparative condensed summary of the Airport's net position at December 31, 2018, 2017, and 2016, is as follows:

	Net Position			
	2018	2017	2016	
Current unrestricted assets Restricted and other assets—noncurrent Capital assets—net	\$88,052 622,339 1,196,678	\$    72,095 692,585 1,167,134	\$    61,717 705,534 1,182,688	
Total assets	1,907,069	1,931,814	1,949,939	
Deferred outflows	134,202	154,462	114,005	
Total assets and deferred outflows	<u>\$2,041,271</u>	<u>\$2,086,276</u>	<u>\$2,063,944</u>	
Current unrestricted liabilities Liabilities payable from restricted assets and noncurrent liabilities	\$    51,908 <u>    2,239,346</u>	\$ 39,668 <u>2,244,835</u>	\$ 34,711 	
Total liabilities	2,291,254	2,284,503	2,359,393	
Deferred inflows	82,841	108,774	8,404	
Total liabilities and deferred inflows	\$2,374,095	\$2,393,277	<u>\$2,367,797</u>	
Net position: Net investment in capital assets Restricted Unrestricted	\$ (172,197) 120,685 (281,312)	\$ (180,803) 127,476 (253,674)	\$ (152,026) 83,048 (234,875)	
Total net deficit	<u>\$ (332,824</u> )	<u>\$ (307,001</u> )	<u>\$ (303,853</u> )	

# 2018

Current unrestricted assets increased by \$15,957 (22.1%) primarily due to an increase in cash and cash equivalents from increased landing fee and terminal rental revenues. The Airport's current ratio (current unrestricted assets/current unrestricted liabilities) at December 31, 2018 and 2017, was 1.70:1 and 1.82:1, respectively. Noncurrent restricted and other assets decreased by \$70,246 (10.1%) mainly due to decreases in construction funds of \$53,291 (14.7%) related to increased activity in the Midway Modernization Program capital development during 2018. Net capital assets increased by \$29,544 (2.5%) due primarily to projects continually being completed.

The increase in current liabilities of \$12,240 (30.9%) is mainly related to the increase in billings over amounts earned for terminal rent of \$12,802.

Liabilities payable from restricted assets and noncurrent liabilities decreased by \$5,488 (0.2%) in 2018 mainly due to a decrease in revenue bonds payable from restricted funds of \$59,607 (3.2%), which was offset by an increase in pension liability of \$39,092 (13.4%) compared to 2017 primarily as a result of a decrease in pension plan assets associated with investment losses caused by market results. At December 31, 2018, total net deficit was \$(332,824), a decrease of \$25,823 (8.4%).

Deferred outflows decreased by \$20,260 (13.1%) and deferred inflows decreased by \$25,933 (23.8%) during 2018 due to the difference between 2018 projected and actual earnings on pension plan investments.

# 2017

Current unrestricted assets increased by \$10,378 (16.8%) primarily due to an increase in cash and cash equivalents from increased revenues. The Airport's current ratio (current unrestricted assets/current unrestricted liabilities) at December 31, 2017 and 2016, was 1.82:1 and 1.78:1, respectively. Noncurrent restricted and other assets decreased by \$12,949 (1.8%) mainly due to decreases in construction funds of \$32,119 related to increased activity in the Midway Modernization capital improvement plan during 2017. Net capital assets decreased by \$15,554 (1.3%) due principally to projects continually being completed, therefore an overall increase in depreciation.

The increase in current liabilities of \$4,957 (14.3%) is mainly related to the increase in advances for terminal rent of \$2,013. Pension liability in the amount of \$290,610 decreased \$26,137 (8.25%) compared to 2016 as a result of the changes under P.A. 100-0023 which requires increased future contributions to the Municipal Employees' and Laborers' plans. The increase in future required contributions increased the discount rate used to determine the total pension liability and therefore decreased the net pension liability.

Liabilities payable from restricted assets and noncurrent liabilities decreased by \$79,847 (3.4%) in 2017 mainly due to a decrease in revenue bonds payable from restricted funds of \$36,793, which was offset by a decrease in net pension liability as a result of the changes under P.A. 100-0023, which impacted the Municipal Employees' and Laborers' plans. At December 31, 2017, total net deficit was \$(307,001), a decrease of \$3,148 (1.0%).

Deferred outflows increased by \$40,457 (35.5%) and deferred inflows increased by \$100.4 (1,194.3%) during 2017 due to changes in the required future pension contributions as discussed above in the financial highlights.

A comparative condensed summary of the Airport's changes in net position for the years ended December 31, 2018, 2017, and 2016 is as follows (dollars in thousands):

	Changes in Net Position			
	2018	2017	2016	
Operating revenues				
Operating revenues: Landing fees and terminal area use charges	\$ 106,125	\$ 95,416	\$ 87,425

## 2018

Landing fees and terminal area use charges for the years 2018 and 2017 were \$106,125 and \$95,416, respectively. Rents, concessions, and other revenues were \$100,408 and \$99,609 for 2018 and 2017, respectively. The increase in 2018 operating revenues of \$11,508 (5.9%) from 2017 was due to increased landing fees and terminal area use charges of \$10,709 to pay for capital development of the airport and operational infrastructure reliability and rents and other

concession revenue of \$799 based on steady revenues earned under the Midway concessions program.

Salaries and wages increased by \$3,223 (6.7%) in 2018 compared to 2017 due to an increase in public safety presence and additional traffic management support as the construction of the terminal security checkpoint expansion is over a major roadway and affects traffic flow. Repairs and maintenance increased by \$2,820 (6.3%) due to increased equipment and fuel maintenance.

Pension expense increased \$2,632 (6.5%) from \$40,211 in 2017 to \$42,843 in 2018, as a result of composition of amounts being amortized from deferred inflows and outflows related to prior assumptions changes and differences between projected and actual earnings on pension plan investments. During 2018, the Airport made contributions of \$11,490 toward the pension plans.

The 2018 nonoperating revenues of \$54,462 are comprised of Passenger Facility Charges (PFC) revenue of \$39,469, Customer Facility Charges (CFC) revenue of \$7,502, investment income of \$6,408 and other nonoperating revenues of \$1,083. During 2018, nonoperating revenues decreased by \$783 primarily due to fair value changes in investment income resulting from better long-term investment management.

Nonoperating expenses of \$60,801 and \$62,566 for the years 2018 and 2017, respectively, were primarily comprised of bond interest expense.

Capital grants decreased \$24,780 in 2018, primarily due to the reduction of capital grant revenues earned during 2018 for Airport Improvement Grants (AIP) grants that were awarded but not expended during 2018. These grant awards will be expended during 2019-2020.

# 2017

Landing fees and terminal area use charges for the years 2017 and 2016 were \$95,416 and \$87,425, respectively. Rents, concessions, and other revenues were \$99,609 and \$94,768 for 2017 and 2016, respectively. The increase in 2017 operating revenues of \$12,832 (7.0%) from 2016 was due to increased landing fees and terminal area use charges of \$7,991 and rents and other concession revenue of \$4,841 due to a new concessions management contract which the Airport entered into in May 2017 with Midway Partnership LLC, and due to a new parking rate structure implemented in January 2017.

Salaries and wages decreased by \$363 (0.7%) in 2017 compared to 2016 due to a decrease in the payment of overtime and medical care premiums as well as a retroactive salary adjustment in 2016 that was not applicable in 2017. Professional and engineering expenses increased \$3,493 (16.8%) compared to 2017 primarily due to increases in contractor costs associated with public parking facilities and pre-construction planning related to Midway Modernization.

Pension expense decreased \$7,668 (16%) from \$47,879 in 2016 to \$40,211 in 2017 as a result of the changes under P.A. 100-0023, which requires increased future contributions to the Municipal Employees' and Laborers' plans. The increase in future required contributions increased the discount rate used to determine the total pension liability and decreased the current year pension expense. During 2017, \$9,548 of the \$40,211 was paid under statutory requirements.

The 2017 nonoperating revenues of \$55,245 are comprised of Passenger Facility Charges (PFC) revenue of \$40,918, Customer Facility Charges (CFC) revenue of \$8,130, investment income of

\$5,722 and other nonoperating revenues of \$475. During 2017, nonoperating revenues increased by \$5,685 primarily due to fair value changes in investment income resulting from better long-term investment management.

Nonoperating expenses of \$62,566 and \$88,310 for the years 2017 and 2016, respectively, were primarily comprised of bond interest expense and noise mitigation costs.

Capital grants increased \$3,653 in 2017, mainly as a result of when associated capital expenditures became eligible for grant reimbursement from the federal government and increase in the allotment of Airport Improvement Program grant funding from the FAA.

A comparative summary of the Airport's cash flows for the years ended December 31, 2018, 2017, and 2016, is as follows:

	Cash Flows			
	2018	2017	2016	
Cash provided by (used in) activities: Operating Capital and related financing Noncapital financing	\$ 69,048 (135,794) (477)	\$ 56,535 (98,141) (814)	\$ 41,960 287,614 (26,725)	
Investing	157,177	74,775	<u>(243,563</u> )	
Net change in cash and cash equivalents	89,954	32,355	59,286	
Cash and cash equivalents: Beginning of year	260,393	228,038	168,752	
End of year	\$350,347	<u>\$260,393</u>	<u> \$228,038</u>	

## 2018

As of December 31, 2018, the Airport's cash and cash equivalents of \$350,347 increased by \$89,954 compared to \$260,393 at December 31, 2017, due to operating activities of \$69,048, and investing activities of \$157,177 offset by noncapital financing of \$477 and capital and related financing of \$135,794, due to excess CFC funds used to pay off CFC bonds through restructuring and additional capital asset construction. Total cash and cash equivalents at December 31, 2018, were comprised of unrestricted and restricted cash and cash equivalents of \$62,153 and \$288,194, respectively.

# 2017

As of December 31, 2017, the Airport's available cash and cash equivalents of \$260,393 increased by \$32,355 compared to \$228,038 at December 31, 2016, due to operating activities of \$56,535 and investing activities of \$74,775 offset by capital and related financing of \$98,141 and noncapital financing of \$814. Total cash and cash equivalents at December 31, 2017, were comprised of unrestricted and restricted cash and cash equivalents of \$46,037 and \$214,356, respectively.

# CAPITAL ASSET AND DEBT ADMINISTRATION

At the end of 2018 and 2017, the Airport had \$1,196,678 and \$1,167,134, respectively, invested in net capital assets. During 2018, the Airport had additions of \$80,927 related to capital activities. Construction projects include runway rehabilitation, passenger security checkpoint and terminal garage enhancements.

During 2018, completed projects totaling \$18,008 were transferred from construction in progress to applicable buildings and other facilities capital account. These major completed projects were related to building security, runway and taxi improvements and parking enhancements.

The Airport's capital assets at December 31, 2018, 2017, and 2016, are summarized as follows:

	Capital Assets at Year-End			
	2018	2017	2016	
Capital assets not depreciated:				
Land Construction in progress	\$ 116,250 95,571	\$ 116,475 <u>32,427</u>	\$ 115,637 11,550	
Total capital assets not depreciated	211,821	148,902	127,187	
Capital assets depreciated:				
Buildings and other facilities	1,703,964	1,685,956	1,671,782	
Less accumulated depreciation for: Buildings and other facilities	(719,107)	(667,724)	(616,281)	
Total capital assets depreciated—net	984,857	1,018,232	1,055,501	
Total property and facilities—net	<u>\$1,196,678</u>	<u>\$1,167,134</u>	<u>\$1,182,688</u>	

The Airport's capital activities are funded through Airport revenue bonds, federal and state grants, PFC and CFC revenue. Additional information on the Airport's capital assets is presented in Note 5 of the notes to the basic financial statements.

During 2018, the Airport sold \$45,670 of Chicago Midway International Airport Second Lien Revenue Refunding Bonds, Series 2018 A, having interest rates ranging from 2.9% to 3.9% and maturity dates ranging from January 1, 2019 to January 1, 2029. Certain net proceeds used to refund certain maturities of outstanding bonds and to pay the cost of issuance of bonds.

The Airport's outstanding debt at December 31, 2018, 2017, and 2016, is summarized as follows (dollars in thousands):

	Outstanding Debt at Year-End			
	2018	2017	2016	
Revenue bonds and notes Unamortized:	\$1,713,485	\$1,755,835	\$1,781,605	
Bond premium (discount)	105,563	114,270	123,133	
Total revenue bonds payable—net of unamortized premium discount	1,819,048	1,870,105	1,904,738	
Current bonds payable	(36,480)	(27,930)	(25,770)	
Total long-term revenue bonds and notes payable—net	\$1,782,568	\$1,842,175	\$1,878,968	

Additional information on the Airport's long-term debt is presented in Note 4 of the notes to basic financial statements and in the Statistical Information section of this report.

The Airport's revenue bonds at December 31, 2018, had credit ratings with each of the four major rating agencies as follows:

		Standard & Poor's	Fitch Ratings	Kroll Ratings
First Lien Chicago Midway Revenue Bonds	A2	А	NR	NR
Second Lien Chicago Midway Revenue Bonds	A3	А	А	А

At December 31, 2018 and 2017, the Airport believes it was in compliance with the debt covenants as stated within the Master Trust Indentures.

## ECONOMIC FACTORS AND NEXT YEAR RATES AND CHARGES

The airlines using the Airport generally provide low fare, point-to-point origination and destination passenger service. During 2018 and 2017, Southwest Airlines accounted for 92.9% and 92.7%, respectively, of total enplanements at the Airport.

Based on the Airport's rates and charges for 2019, total budgeted operating and maintenance expenses are projected at \$173,031 and total net debt service and fund deposit requirements are projected at \$82,509. Additionally, 2019 nonairline and nonsignatory revenues are budgeted for \$86,510, resulting in a net airline requirement of \$169,029 that will be funded through landing fees, terminal area use charges, and fueling system charges.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide the reader with a general overview of the Airport's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Chicago Department of Finance.

The fair value adjustments (loss) to investments for 2018 and 2017 were \$(3,809) and \$(4,072), respectively.

See notes to basic financial statements.

(Concluded)

#### NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2018 AND 2017

## **1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Organization**—Chicago Midway International Airport (the "Airport" or "Midway) is operated by the City of Chicago, Illinois (the "City") Department of Aviation. The Airport is included in the City's reporting entity as an enterprise fund. The City is a member of the Chicago-Gary Regional Airport Authority, which was created in 1995 to address the air transportation needs of the Chicago-Northwest Indiana Region. The Airport operated subject to the provisions of the Airport Use Agreement and Facilities Lease ("Use Agreement") commencing January 1, 2013, which is a residual Use Agreement that is scheduled to terminate on December 31, 2027.

**Basis of Accounting and Measurement Focus**—The accounting policies of the Airport are based upon accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB). The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The accounts of the Airport are reported using the flow of economic resources measurement focus.

The Airport uses the accrual basis of accounting, under which revenues are recognized when earned and expenses are recognized when incurred.

**Annual Appropriated Budget**—The Airport has a legally adopted annual budget, which is not required to be reported.

**Management's Use of Estimates**—The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the basic financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from the estimates.

**Cash, Cash equivalents and Investments**—Cash, cash equivalents, and investments generally are held with the City treasurer as required by the Municipal Code of Chicago (the "Code"). Interest earned on pooled investments is allocated to participating funds based upon their average combined cash and investment balances. Due to contractual agreements or legal restrictions, the cash and investments of certain funds are segregated and earn and receive interest directly.

The Code permits deposits only to City Council-approved depositories, which must be regularly organized state or national banks and federal and state savings and loan associations, located within the City, whose deposits are federally insured.

Investments are limited to those authorized by the Code. Investments authorized by the Code include, but are not limited to, interest-bearing general obligations of the City, the State of Illinois (the "State"), and the U.S. government; U.S. Treasury bills and other

non-interest-bearing general obligations of the U.S. government purchased in the open market below face value; domestic money market mutual funds regulated by, and in good standing with, the Securities and Exchange Commission; and tax anticipation warrants issued by the City (see Note 2). The City is prohibited by ordinance from investing in derivatives, as defined, without City Council approval.

The Airport values its investments at fair value or amortized cost as applicable. U.S. government securities purchased at a price other than par with a maturity of less than one year are reported at amortized cost.

Repurchase agreements can be purchased only from banks and certain other institutions authorized to do business in the State. The City Treasurer requires that securities pledged to secure these agreements have a fair value equal to the cost of the repurchase agreements plus accrued interest.

Investments generally may not have a maturity in excess of 30 years from the date of purchase. Certain other investment balances are held in accordance with the specific provisions of applicable bond ordinances.

Cash equivalents include certificates of deposit and other investments with maturities of three months or less when purchased.

**Accounts Receivable Allowance**—Management has provided an allowance based on amounts recorded at year-end, which may be uncollectible.

**Transactions with the City**—The City's general fund provides services to the Airport. The amounts allocated to the Airport for these services are treated as operating expenses and consist mainly of employee benefits, self-insured risks, and administrative expenses.

**Property and Facilities**—Property and facilities are recorded at cost or, for donated assets, donated works of art and similar items, and capital assets received in a consortium arrangement at acquisition value. Expenditures greater than \$5,000 for the acquisition, construction, or equipping of capital projects, together with related design, architectural, and engineering fees, are capitalized. Expenditures for vehicles and other movable equipment are expensed as incurred.

Depreciation and amortization are provided using the straight-line method and begin in the year following the year of acquisition or completion. Estimated useful lives are as follows:

Facilities and structures	40 years
Runways, aprons, tunnels, taxiways, and paved roads	30 years
Other	10–30 years

**Deferred Outflows**—Deferred outflows represent the unamortized loss on bond refundings, fair value of derivative instruments that are deemed to be effective hedges and differences between estimated and actual investment earnings related to pensions, and changes in actuarial assumptions related to pensions.

**Deferred Inflows**—Deferred inflows represent the differences between projected and actual actuarial experience related to pensions.

**Net Position**—Net position comprises the net earnings from operating and nonoperating revenues, expenses, and capital grants. Net position is displayed in three components—net

investment in capital assets; restricted for debt service, capital projects, PFC, Airport Use Agreement requirements, CFC, and other assets; and unrestricted. Net investment in capital assets consists of all capital assets, net of accumulated depreciation, reduced by outstanding debt net of debt service reserve, and unspent construction funds. Restricted net position consists of net position for which constraints are placed thereon by external parties (such as lenders and grantors) and laws, regulations, and enabling legislation. Unrestricted net position consists of all other net position not categorized as either of the above.

**Employee Benefits**—Employee benefits are granted for vacation and sick leave, workers' compensation, and health care. Unused vacation leave is accrued and may be carried over for up to one year. Sick leave is accumulated at the rate of one day for each month worked, up to a maximum of 200 days. Severance of employment terminates all rights to receive compensation for any unused sick leave. Sick leave pay is not accrued. Employee benefit claims outstanding, including claims incurred but not reported, are estimated and recorded as liabilities. The Airport maintains insurance from a commercial carrier for workers' compensation claims. Settlements in each of the past three years have been less than insurance coverage maintained.

Employees are eligible to defer a portion of their salaries until future years under the City's deferred compensation plan created in accordance with Internal Revenue Code Section 457. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The plan is administered by third-party administrators who maintain the investment portfolio. The plan's assets have been placed in trust accounts with the plan administrators for the exclusive benefit of participants and their beneficiaries and are not considered assets of the City.

The City is subject to the State of Illinois Unemployment Compensation Act and has elected the reimbursing employer option for providing unemployment insurance benefits for eligible former employees. Under this option, the City reimburses the State for claims paid by the State.

**Bond Insurance Costs, and Bond Premiums, and Discounts**—Bond insurance costs and bond premiums and discounts are deferred and amortized over the term of the related debt. Other debt issuance costs are expensed in the period incurred.

**Capitalized Interest**—Interest expense on construction bond proceeds are capitalized during construction on those capital projects paid from the bond proceeds and are being amortized over the depreciable lives of the related assets on a straight-line basis.

**Capital Grants**—The Airport reports capital grants as revenue on the statements of revenues, expenses, and changes in net position. Capital grants are on a reimbursement basis and revenues are recognized when associated capital expenditures become eligible and are spent for grant reimbursement.

**Noise Mitigation Costs**—Funds expended for the Noise Mitigation Program are recorded as nonoperating expenses in the period they are incurred.

**Revenue Recognition**—Revenues from landing fees, terminal area use charges, fueling system charges, parking revenue, and concessions are reported as operating revenues. The Airport adheres to the guidelines outlined in the Federal Aviation Administration (FAA) revenue use policy. Landing fees and terminal area use charges and fueling system charges are assessed to the various airlines throughout each year based on estimated

rates. Such rates are designed to yield collections from airlines adequate to cover certain expenses and required debt service and fund deposits as determined under provisions of the previously defined Use Agreement. Incremental amounts due from the airlines arise when amounts assessed, based on the estimated rates used during the year, are less than actual expenses and required deposits for the year. Such incremental amounts due from airlines are included in amounts to be billed. Incremental amounts due to the airlines arise when amounts assessed, based on the estimated rates used during the year, exceed actual expenses and required deposits for the year. Such incremental amounts due to airlines arise included in billings over amounts earned.

**Passenger Facility Charge (PFC) Revenue**—The Airport imposed PFCs of \$4.50 per eligible enplaned passenger for the years ended December 31, 2018 and 2017, respectively. PFCs are available, subject to Federal Aviation Administration regulation and approval, to finance specific eligible capital projects. The City reports PFC revenue as nonoperating revenue and related noncapital expenses as nonoperating expenses in conformity with industry practice.

**Customer Facility Charge (CFC) Revenue**—The Airport imposed a CFC of \$4.75 per contract day on each customer for motor vehicle rentals at the Airport for the years ended December 31, 2018 and 2017, respectively. CFCs are available to finance-specific eligible capital projects. The City reports CFC revenue as nonoperating revenue and related noncapital expenses as nonoperating expenses in conformity with industry practice.

**Expenses**—Salaries and wages, repair and maintenance, pension expense, professional and engineering services, and other expenses that relate to Airport operations are reported as operating expenses. Interest expense, financing costs, and noise mitigation costs are reported as nonoperating expenses.

**Adopted Accounting Standards**—GASB Statement No. 85, *Omnibus* ("GASB 85") addresses practice issues that have been identified during implementation and application of certain GASB Statements. GASB 85 addresses various miscellaneous issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (OPEB). Adoption of GASB 85 had no impact to the Airport.

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions ("GASB 75"), replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. GASB 75 details the recognition and disclosure requirements for employers with payables to defined benefit OPEB plans that are administered through trusts that meet the specified criteria and for employers whose employees are provided with defined contribution OPEB. GASB 75 states that the provisions of the standard need not be applied to immaterial amounts. The OPEB benefit information pertaining expressly to the Airport employees was deemed to be immaterial to the Airport basic financial statements. As such, no liability has been recorded in the accompanying basic financial statements. OPEB liabilities for the City are recorded within the City's government-wide basic financial statements. The City's actuarial valuation of certain OPEB benefits provided under collective bargaining agreements (CBAs) assumes the expiration of these benefits as of the conclusion of negotiations on new CBAs. Based on prior history, the negotiations are assumed to be concluded by December 31, 2019. It is not known whether the OPEB benefits provided under these CBAs will be specifically eliminated, modified, or extended at this time.

GASB Statement No. 86, *Certain Debt Extinguishment Issues* ("GASB 86") establishes accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources (resources other than the proceeds of refunding debt) are placed in an irrevocable trust for the sole purpose of extinguishing debt. Adoption of GASB 86 had no impact to the Airport as historical defeasances of debt have not been from existing resources.

**Upcoming Accounting Standards**—Other accounting standards that the Airport is currently reviewing for applicability and potential impact on the financial statements include:

GASB Statement No. 83, *Certain Asset Retirement Obligations* ("GASB 83") addresses accounting and financial reporting for certain asset retirement obligations (AROs). A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets will have to recognize a liability based on the guidance in this statement. GASB 83 also requires disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. GASB 83 will be effective for the Airport beginning with its year ending December 31, 2019.

GASB Statement No. 84, *Fiduciary Activities* ("GASB 84") improves the guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. GASB 84 will be effective for the Airport beginning with its year ending December 31, 2019.

GASB Statement No. 87, *Leases* ("GASB 87") requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. GASB 87 will establish a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB 87, a lessee is required to recognize a lease liability and an intangible rightto-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. GASB 87 will increase the usefulness of governments' financial statements by requiring reporting of certain lease liabilities that are currently not reported. GASB 87 will be effective for the Airport beginning with its year ending December 31, 2020.

GASB Statement No. 88, *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements* ("GASB 88") will improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. GASB 88 will be effective for the Airport beginning with its year ending December 31, 2019.

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period ("GASB 89") will enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period. GASB 89 requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. GASB 89 will be effective for the Airport beginning with its year ending December 31, 2020.

GASB Statement No. 90, *Majority Equity Interests an amendment of GASB Statements No. 14 and No. 61* ("GASB 90") aims to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and the relevance of financial statement information for certain component units. GASB 90 will be effective for the Airport beginning with its year ending December 31, 2019.

GASB Statement No. 91, *Conduit Debt Obligations* ("GASB 91") provides a single method of reporting conduit debt obligations by issuers and aims to eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. GASB 91 will be effective for the Airport beginning with its year ending December 31, 2021.

## 2. RESTRICTED AND UNRESTRICTED CASH, CASH EQUIVALENTS, AND INVESTMENTS

**Cash Equivalents and Investments**—As of December 31, 2018, the Airport had the following investments (dollars in thousands):

	Maturities (in Years)					
				More than		
Investment Type	Less than 1	1-5	6-10	10	Fair Value	
U.S. agencies	\$152,199	\$ 74,094	\$ -	\$ -	\$226,293	
U.S. treasuries	29,931	-	-	-	29,931	
Municipal bonds	10,849	61,784	9,495	4,528	86,656	
Corporate bonds	-	-	-	-	-	
Certificates of deposits and other						
short-term	213,281				213,281	
Subtotal	\$406,260	<u>\$135,878</u>	<u>\$ 9,495</u>	<u>\$ 4,528</u>	\$556,161	

As of December 31, 2017, the Airport had the following investments (dollars in thousands):

	Maturities (in Years)					
			More than			
Investment Type	Less than 1	1-5	6-10	10	Fair Value	
U.S. agencies	\$219,922	\$135,621	\$ -	\$ -	\$355,543	
U.S. treasuries	11,970	-	-	-	11,970	
Municipal bonds	17,507	77,640	9,616	11,474	116,237	
Corporate bonds	-	-	-	-	-	
Certificates of deposits and other						
short-term	225,997				225,997	
Subtotal	<u>\$475,396</u>	\$213,261	<u>\$ 9,616</u>	\$11,474	<u>\$709,747</u>	

U.S. agencies include investments in government-sponsored enterprises such as Federal National Mortgage Association, Federal Home Loan Banks, and Federal Home Loan Mortgage Corp.

**Investments Fair Value Measurements**—The City categorizes the fair value measurements of its investments based the hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation techniques used to measure fair value.

*Level 1*—Inputs are unadjusted quoted prices in active markets for identical assets

Level 2—Observable inputs other than quoted market prices, and

Level 3—Unobservable Inputs

The investments measured at fair value as of December 31, 2018 and 2017 were (dollars in thousands):

	2018			2017			
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3	
U.S. agencies U.S. treasuries Municipal bonds	\$ - - -	\$185,777 4,996 <u>84,521</u>	\$ - - -	\$ - - -	\$292,530 5,985 112,237	\$ - - -	
Total investments at fair value	<u>\$ -</u>	\$275,294	<u>\$ -</u>	<u>\$ -</u>	\$410,752	<u>\$ -</u>	

Investments that are valued through other observable inputs (Level 2), are valued using methods that include, but are not limited to, model processes, benchmark curves, benchmarking of like securities, sector groupings, and matrix pricing.

Money market investments and participating interest-earning investment contracts that have a remaining maturity at the time of purchase of one year or less and are held by governments other than the external investment pools are measured at amortized cost and are not reflected in the table above. The total of these investments at amortized cost for Midway are \$280.9 million and \$298.9 million at December 31, 2018 and 2017, respectively.

**Interest Rate Risk**—As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy requires that investments generally may not have a maturity date in excess of 30 years from the date of purchase. Certain other investments are held in accordance with the specific provisions of applicable ordinances.

**Credit Risk**—With regard to credit risk, the Code limits the investments in securities to:

- (1) Interest-bearing general obligations of the United States and the State of Illinois;
- (2) United States treasury bills and other non-interest bearing general obligations of the United States or United States government agencies when offered for sale at a price below the face value of same, so as to afford the City a return on such investment in lieu of interest;

- (3) Tax anticipation warrants, municipal bonds, notes, commercial paper or other instruments representing a debt obligation issued by the City of Chicago;
- (4) Commercial paper which: (1) at the time of purchase, is rated in the two highest classifications by at least two accredited ratings agencies; and (2) matures not more than 270 days after the date of purchase;
- (5) Reverse repurchase agreement if: (1) the term does not exceed 90 days; and (2) the maturity of the investment acquired with the proceeds of the reverse repurchase agreement does not exceed the expiration date of the reverse repurchase agreement; Reverse repurchase agreements may be transacted with primary dealers and financial institutions, provided that the City has on file a master repurchase agreement;
- (6) Certificates of deposit of banks or savings and loan associations designated as municipal depositories which are insured by federal deposit insurance; provided that any amount of the deposit in excess of the federal deposit insurance shall be collateralized as noted in Custodial Credit Risk—Cash and Certificates of Deposit below;
- (7) Bankers acceptance of banks whose senior obligations, at the time of purchase, are rated in either the AAA or AA rating categories by at least two accredited ratings agencies;
- (8) Tax-exempt securities exempt from federal arbitrage provisions applicable to investments of proceeds of the City's tax-exempt debt obligations;
- (9) Domestic money market mutual funds regulated by and in good standing with the Securities and Exchange Commission; provided that such money market mutual funds' portfolios are limited to investments authorized by this section;
- (10) Any other suitable investment instrument permitted by state laws governing municipal investments generally, subject to the reasonable exercise of prudence in making investments of public funds;
- (11) Except where otherwise restricted or prohibited, a non-interest-bearing savings account, non-interest-bearing checking account or other non-interest bearing demand account established in a national or state bank, or a federal or state savings and loan association, when, in the determination of the treasurer, the placement of such funds in the non-interest bearing account is used as compensating balances to offset fees associated with that account that will result in cost savings to the City;
- (12) Bonds of companies organized in the United States with assets exceeding \$1 billion that, at the time of purchase, are rated not less than two ratings above investment grade, or equivalent rating, by at least two accredited ratings agencies;
- (13) Debt instruments of international financial institutions, including but not limited to the World Bank and the International Monetary Fund, that, at the time of purchase, are rated within 4 intermediate credit ratings of the United States sovereign credit rating by at least two accredited ratings agencies, but not less than an A-rating, or equivalent rating. For purposes of this subsection, an "international financial institution" means a financial institution that has been established or chartered by more than one country and the owners or shareholders are generally national governments or other international institutions such as the United Nations;

- (14) United States dollar denominated debt instruments of foreign sovereignties that, at the time of purchase, are rated within 4 intermediate credit ratings of the United States sovereign credit rating by at least two accredited ratings agencies, but not less than an A-rating or equivalent rating;
- (15) Interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation, or school district, of the State of Illinois, of any other state, or of any political subdivision or agency of the State of Illinois or of any other state, whether the interest earned thereon is taxable or tax-exempt under federal law. The bonds shall be registered in the name of the city or held under a custodial agreement at a bank. The bonds shall be rated, at the time of purchase, not less than A-, or equivalent rating, by at least two accredited rating agencies with nationally recognized expertise in rating bonds of states and their political subdivisions;
- (16) Bonds registered and regulated by the Securities and Exchange Commission and for which the full faith and credit of the State of Israel is pledged for payment; provided that the bonds have an A-rating or above or equivalent rating by at least two accredited ratings agencies;
- (17) Bonds, notes, debentures, or other similar obligations of agencies of the United States rated, at the time of purchase, no less than AAA by at least two accredited rating agencies.

Total holdings across all funds held by the Airport shall have no less than an overall average rating of Aa1 on a quarterly basis, as rated by two accredited rating agencies. The Airport's exposure to credit risk at December 31, 2018 and 2017, was as follows (dollars in thousands):

Quality Rating	2018	2017
Moody's/S&P:		
Aaa/AAA <sup>*</sup>	\$220,964	\$190,794
Aa/AA	311,106	441,972
P1/A1	21,592	47,571
MIG1/SP-1+	-	5,502
Not rated <sup>*</sup>	2,499	23,908
Total funds	\$556,161	<u>\$709,747</u>

\* The Airport was able to obtain quality ratings for a portion of money market mutual funds as of December 31, 2018 and 2017. The remaining investments that are not rated are primarily composed of money market mutual funds.

**Custodial Credit Risk—Cash and Certificates of Deposit**—This is the risk that in the event of a bank failure, the City's Deposits may not be returned. The City's Investment Policy states that in order to protect the City public fund deposits, depository institutions are to maintain collateral pledges on City deposits and certificates of deposit during the term of the deposit.

For certificates of deposit of banks or savings and loan associations designated as municipal depositories which are insured by federal deposit insurance, any amount of the deposit in excess of the federal deposit insurance shall be either: (1) fully collateralized at least 102% by: (i) marketable U.S. government securities marked to market at least monthly; (ii) bonds, notes, or other securities constituting the direct and general obligation of any agency or instrumentality of the United States; or (iii) bonds, notes or other securities constituting a direct and general obligation of any county, township, city, village, incorporated town, municipal corporation, or school district, of the State of Illinois or of any other state, or of any political subdivision or agency of the State of Illinois or any other state which are rated in either the AAA or AA rating categories by at least two accredited ratings agencies and maintaining such rating during the term of such investments; (2) secured by a corporate surety bond issued by an insurance company licensed to do business in Illinois and having a claims-paying rating in the top rating category as rated by a nationally recognized statistical rating organization and maintaining such rating during the term of such investment; or (3) fully collateralized at least 102% by an irrevocable letter of credit issued in favor of the City of Chicago by the Federal Home Loan Bank, provided that the Federal Home Loan Bank's short-term debt obligations are rated in the highest rating category by at least one accredited ratings agency throughout the term of the certificate of deposit.

The collateral required to secure City funds must be held in safekeeping and pursuant to collateral agreements which would prohibit release or substitution of pledged assets without proper written notification and authorization of the City Treasurer. The final maturity of acceptable collateral pledged shall not exceed 120 months.

The bank balance of cash and certificates of deposit with the City's various municipal depositories was \$1,035.1 million. 97.7 percent of the bank balance was either insured or collateralized with securities held by City agents in the City's name. \$23.7 million was uncollateralized at December 31, 2018, and thus was subject to custodial credit risk.

**Custodial Credit Risk**—**Investments**—For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The City has no custodial credit risk exposure because investment securities are insured, registered and held by the City.

The investments reported in the basic financial statements at December 31, 2018 and 2017, are summarized as follows (dollars in thousands):

	2018	2017
Per Note 2: Investments—airport	<u>\$556,161</u>	<u>\$709,747</u>
Per basic financial statements:		
Restricted investments	\$296,144	\$442,809
Unrestricted investments	5,081	5,009
Investments classified as cash and cash equivalents on the statements of net position	_254,936	261,929
	\$556,161	\$709,747

## 3. **RESTRICTED ASSETS**

There are various limitations and restrictions contained in the Master Indenture of Trust securing the Chicago Midway Airport Revenue Bonds ("First Lien Master Indenture") and the Master Indenture of Trust securing the Chicago Midway Airport Second Lien Obligation ("Second Lien Master Indenture") and together with the First Lien Master Indenture ("Master Indentures"), the Use Agreement and federal regulations contain various limitations and restrictions, which, among other things, require the creation and maintenance of separate accounts, certain of which must be held by a trustee and into which required deposits are made by the Airport on a periodic basis to fund construction, debt retirement, operation and maintenance, and contingencies.

Restricted cash, cash equivalents, and investment balances in accordance with the Master Indenture requirements at December 31, 2018 and 2017, were as follows (dollars in thousands):

Account	2018	2017
Construction	\$309,972	\$363,263
Capitalized interest	3,733	14,941
Debt service	77,748	74,387
Debt service reserve	127,460	128,237
Operation and maintenance reserve	26,699	25,812
Repair and replacement	9,261	8,086
Emergency reserve	426	416
Customer Facility Charge (CFC)	14,052	31,796
Other	14,440	9,265
Subtotal—master indentures and use		
agreement accounts	583,791	656,203
Passenger Facility Charges (PFC)	548	965
Total	<u> \$584,339</u>	<u>\$657,168</u>

Construction and capitalized interest accounts, which are funded with bond proceeds, are restricted to pay authorized capital improvements and related interest costs during construction.

Required deposits are made by the Airport from revenues collected after funding deposits to an operation and maintenance account in the following priority on a monthly basis:

- The debt service account, which is restricted for the payment of debt service.
- The operation and maintenance reserve account, which is restricted to make loans to the operation and maintenance account, as needed, and are to be repaid as the funds become available.

The debt service reserve account requirement was funded upon issuance of, the Series 2004 second lien bonds, the Series 2010 second lien bonds, the Series 2013 second lien bonds, the Series 2016 second lien bonds and the Series 2014 second lien bonds with a cash deposit. The debt service reserve account is restricted to the payment of debt service in the event that the balance in the debt service account is insufficient.

The repair and replacement account must be used for paying the cost of maintenance expenditures, such as costs incurred for major repairs, renewals, and replacements at the Airport whether caused by normal wear and tear or by unusual and extraordinary occurrences.

The emergency reserve account is restricted to make payments for certain purposes, including terminal area use charges, landing fees, and certain other charges that are deemed uncollectible and also for any judgments or settlements against the Airport.

The CFC funds are restricted for permitted costs and purposes related to the consolidated rental car facility. The PFC account is restricted to fund eligible and approved PFC projects.

Other funds include the federal and state grant funds, the security for payment fund, and the Airport development fund.

At December 31, 2018 and 2017, the Airport believes it was in compliance with the funding requirements and restrictions as stated in the Master Indentures.

## 4. LONG-TERM DEBT

Long-term debt at December 31, 2018 and 2017, consisted of the following (dollars in thousands):

	2018	2017
First lien bonds:		
\$54,210 Series 1998 C Chicago Midway Airport Revenue Bonds, issued September 10, 1998, due through 2024, interest at 5.25%–5.50%	<u>\$ 22,660</u>	<u>\$ 25,775</u>
Subtotal—first lien bonds	22,660	25,775
Second lien bonds: \$152,150 Series 2004 C and D Chicago Midway Airport Second Lien Revenue Bonds, issued December 14, 2004, due through 2035, interest rate Swap at		
4.174% and 4.247% at December 31, 2018, respectively) \$63,470 Series 2010 C Chicago Midway Airport Second Lien Revenue Bonds,	122,850	127,625
issued October 26, 2010, due through 2041, interest rate at 3.782%-7.168% \$118,600 Series 2013 A Chicago Midway Airport Second Lien Revenue Bonds,	-	61,260
issued December 5, 2013, due through 2033, interest rate at 5.375%-5.500% \$150,365 Series 2013 B Chicago Midway Airport Second Lien Revenue Bonds,	118,600	118,600
issued December 5, 2013, due through 2035, interest rate at 4.125%-5.250% \$64,995 Series 2013 C Chicago Midway Airport Second Lien Revenue Bonds,	150,365	150,365
issued December 5, 2013, due through 2020, interest rate at 0.740%-3.655% \$484,200 Series 2014 A Chicago Midway Airport Second Lien Revenue Bonds,	25,365	39,420
issued June 11, 2014, due through 2041, interest rate at 5.000% \$287,610 Series 2014 B Chicago Midway Airport Second Lien Revenue Bonds,	484,200	484,200
<ul> <li>\$124,710 Series 2014 C Chicago Midway Airport Second Lien Revenue Bonds,</li> <li>\$124,710 Series 2014 C Chicago Midway Airport Second Lien Revenue Bonds,</li> <li>\$154,710 Series 2014 C Chicago Midway Airport Second Lien Revenue Bonds,</li> <li>\$124,710 Series 2014 C Chicago Midway Airport Second Lien Revenue Bonds,</li> </ul>	287,610	287,610
(1.85% at December 31, 2018) \$121,265 Series 2016 A Chicago Midway Airport Second Lien Revenue Bonds,	124,710	124,710
issued June 1, 2016, due through 2033, interest rate at 2.000%–5.000% \$221,130 Series 2016 B Chicago Midway Airport Second Lien Revenue Bonds,	119,145	120,070
issued June 1, 2016, due through 2046, interest rate at 2.000%–5.000% \$45,670 Series 2018 A Chicago Midway Airport Second Lien Revenue Bonds,	212,310	216,200
issued August 1, 2018, due through 2029, interest rate at 2.937%–3.897%	45,670	
Subtotal—second lien bonds	1,690,825	1,730,060
Total revenue bonds and notes	1,713,485	1,755,835
Unamortized premium (discount)	105,563	114,270
Total revenue bonds payable—net of unamortized premium (discount)	1,819,048	1,870,105
Current portion	(36,480)	(27,930)
Total long-term revenue bonds payable	\$1,782,568	\$1,842,175

Long-term debt during the years ended December 31, 2018 and 2017, changed as follows (dollars in thousands):

	Balance January 1, 2018	Additions	Reductions	Balance December 31, 2018	Due within One Year
Revenue bonds and notes Unamortized premium (discount)	\$1,755,835 114,270	\$ 45,670 	\$(88,020) (8,707)	\$1,713,485 105,563	\$36,480 
Total long-term debt	<u>\$1,870,105</u>	<u>\$ 45,670</u>	<u>\$(96,727</u> )	<u>\$1,819,048</u>	<u>\$36,480</u>
	Balance January 1, 2017	Additions	Reductions	Balance December 31, 2017	Due within One Year
Revenue bonds and notes Unamortized premium (discount)	January 1,	Additions \$ - 	<b>Reductions</b> \$(25,770) (8,863)	December 31,	

Interest expense capitalized for 2018 and 2017 totaled \$16.9 million and \$17.6 million, respectively. Interest income capitalized for 2018 and 2017 totaled \$3.9 million and \$3.9 million, respectively. Interest expense includes amortization of the deferred loss on bond refunding for 2018 and 2017 of \$3.9 million and \$1.4 million, and amortization of \$8.7 million of premium, net and \$8.9 million of premium, net, respectively.

**Issuance of Debt**—The Airport Commercial Paper Notes, Series A, B, C, and D (\$150 million maximum aggregated authorized by City Council) outstanding at December 31, 2018 and 2017, were \$0 and \$0, respectively. Note proceeds may be used to finance portions of the costs of authorized airport projects and to repay the expenses of issuing the notes. An irrevocable letter of credit (LOC) (\$94.6 million) provided for the timely payment of principal and interest on the notes until July 10, 2020. Amounts paid by drawing on the LOC shall be reimbursed by the Airport on said day; any amounts not reimbursed shall constitute an advance and will bear interest at the greater of the most recent prime rate, plus 1.50% or the federal funds rate, plus 2.0% and 7.5% (Base Rate). Advances outstanding greater than 90 days will bear interest at the Base Rate, plus 1.0% beginning on the 90-first day after such advance is made. At December 31, 2018, there were no outstanding LOC advances.

In August 2018, the Airport sold \$45.7 million of Chicago Midway Airport Second Lien Refunding Revenue Bonds, Series 2018A (Taxable) at par. The Bonds have interest rates of 2.937% to 3.897%. The bonds are subject to mandatory sinking fund redemption prior to maturity and have maturity dates ranging from January 1, 2019, through January 1, 2029. Certain proceeds of \$45.1 million together with \$18.9 million transferred from the debt service, debt service reserve and surplus account were deposited into an escrow account to fully defease the Series 2010C Second Lien Bonds (\$60.1 million of principal and \$3.9 million of interest). Certain proceeds of \$0.6 million were used to pay the cost of issuance of the bonds. The current refunding resulted in a difference between the reacquisition price and the net carrying amount of the refunded debts of \$3.5 million that will be charged to operation over 12 years using the straight-line method. The current and advance refunding decreased the Airport's total debt service by \$65.7 million and resulted in an economic gain (difference between the present value of the old debt and the new debt service payments) of \$17.5 million. **Defeased Bonds**—Defeased bonds have been removed from the balance sheet because the related assets have been placed in irrevocable trusts, together with interest earned thereon, will provide amount sufficient for payment of all principal and interest. Defeased bonds at December 31, 2018 are as follows (dollars in thousands):

	Defeased	Outstanding
Chicago Midway Airport 2010C Second Lien Revenue Bonds	<u>\$60,090</u>	<u>\$57,580</u>
Total	<u>\$60,090</u>	<u>\$57,580</u>

**Debt Redemption**—Following is a schedule of debt service requirements to maturity of the first lien bonds (dollars in thousands):

Years Ending December 31	Principal	Interest	Total
2019	\$ 3,290	\$1,156	\$ 4,446
2020	3,470	970	4,440
2021	3,660	774	4,434
2022	3,860	567	4,427
2023	4,080	349	4,429
2024	4,300	118	4,418
Total	<u>\$22,660</u>	<u>\$3,934</u>	<u>\$26,594</u>

Following is a schedule of debt service requirements to maturity of the second lien bonds. For issues with variable rates, interest is imputed at the percent rate effective at December 31, 2018 (dollars in thousands):

Years Ending December 31	Principal	Interest	Total
2019	\$ 33,190	\$ 77,831	\$ 111,021
2020	44,715	76,365	121,080
2021	50,235	74,169	124,404
2022	56,280	71,615	127,895
2023	64,380	68,706	133,086
2024–2028	380,560	291,283	671,843
2029–2033	436,010	189,572	625,582
2034–2038	300,825	89,351	390,176
2039–2043	229,925	37,387	267,312
2044–2046	94,705	4,381	99,086
Total	\$1,690,825	<u>\$ 980,660</u>	<u>\$2,671,485</u>

The Airport's second lien variable rate bonds may bear interest from time to time at a flexible rate, a daily rate, a weekly rate, an adjustable long rate or the fixed rate as determined from time to time by the remarketing agent, in consultation with the City. At December 31, 2018, the Series 2004 C&D bonds and the Series 2014C bonds were in a

weekly rate interest mode. Irrevocable LOC (\$124.3 million) provides for the timely payment of principal and interest on the Series 2004 C&D bonds until November 25, 2019.

Irrevocable LOC (\$126.1 million) provides for the timely payment of principal and interest on the Series 2014C bonds until July 17, 2020.

In the event the bonds are put back to the bank and not successfully remarketed, or if the LOC expires without an extension or substitution, the bank bonds will convert to a term loan. There is no principal due on potential term loans within the next fiscal year.

**Debt Covenants**—The Master Indenture of Trust securing Chicago Midway Airport Revenue Bonds requires in each year that the City fix and establish and revise from time to time whenever necessary, such rates and other charges for the use and operation of Midway and for services rendered by the City in the operation of Midway in order that, in each Fiscal year, Revenues, together with any Other Available Monies deposited with the Trustee with respect to such Fiscal Year and any cash balance held in the Revenue Fund on the first day of such Fiscal Year not then required to be deposited in any Fund or Account, will be at least sufficient (a) to provide for the Operation and Maintenance Expenses for the Fiscal Year and (b) to provide for the greater of (i) the amounts needed to make the Deposits required during such Fiscal Year into the Debt Service Funds, the Operations & Maintenance Reserve Account, the Working Capital Account, the Debt Service Reserve Fund, the Junior Lien Obligation Debt Service Fund, the Repair and Replacement Fund, and the Special Project Fund and (ii) an amount not less than 125% of the Aggregate Debt Service for the Bond Year commencing during such Fiscal Year reduced by an amount equal to the sum of any amount held in any Capitalized Interest Account for disbursement during such Fiscal Year to pay interest on First Lien Bonds. These requirements were met at December 31, 2018.

The Master Indenture of Trust Securing Chicago Midway Airport Second Lien Obligations requires that the City fix and establish and revise from time to time whenever necessary, such rentals, rates and other charges for the use and operation of Midway and for certain services rendered by the City in the operation of Midway in order that in each Fiscal Year, Revenues, together with Other Available Moneys deposited with the First Lien Trustee or the Second Lien Trustee with respect to such Fiscal Year and any cash balance held in the First Lien Revenue Fund or the Second Lien Revenue Fund on the first day of such Fiscal Year not then required to be deposited in any Fund or Account under the First Lien Indenture for the Second Lien Indenture, will be at least sufficient (1) to provide for the payment of Operation and Maintenance Expenses for the Fiscal Year and (2) to provide for the greater of (A) or (B) as follows: (A) the greater of the amounts needed to make the deposits required under the First Lien Indenture described in the immediately preceding paragraph above; or (B) the greater of the amounts needed to make the deposits required under the First Lien Indenture described in the immediately preceding paragraph above or an amount not less than 110% of the Aggregate First Lien Debt Service and Aggregate Second Lien Debt Service for the Bond Year commencing during such Fiscal Year, reduced by (X) any amount held in any Capitalized Interest Account for disbursement during such Bond Year to pay interest on First Lien Bonds, and (Y) any amount held in any capitalized interest account established pursuant to a Supplemental Indenture under the Second Lien Indenture for disbursement during such Bond Year to pay interest on Second Lien Obligations. These requirements were met at December 31, 2018.

**Hedging Derivatives**—In April 2011, the Airport novated its \$60.9 million notional amount swap associated with the Midway Airport Series 2004 C&D variable rate bonds with J.P. Morgan to Wells Fargo Bank, N.A. The fixed rate the Airport pays increased from

4.174% to 4.247%, and the Airport signed a one-way credit support agreement (CSA) that no longer requires the Airport to post collateral if the mark-to-market exceeds the threshold, previously defined in the J.P. Morgan agreement. A Goldman Sachs swap covers the 60% balance of the bonds, with a current notional amount of \$73.7 million, which does not have a two-way CSA and remains unchanged.

**Objective of the Swaps**—In order to protect against the potential of rising interest rates, the Airport has entered into a separate pay-fixed, receive-variable interest rate swap at a cost less than what the Airport would have paid to issue fixed-rate debt (dollars in thousands).

			Fair Value	e at

**Pay-Fixed, Receive-Variable Interest Rate Swaps**—The swap counterparties are Goldman Sachs and Wells Fargo, with notional amounts as of December 31, 2018, of \$73.7 million and \$49.1 million, respectively, and as of December 31, 2017, of \$76.6 million and \$51.1 million, respectively.

**Terms, Fair Values, and Credit Risk**—The terms, including the fair value and credit ratings of the outstanding swaps as of December 31, 2018 and 2017, are as follows. The notional amounts of the swaps match the principal amounts of the associated debt. The Airport's swap agreements contained scheduled reductions to outstanding notional amounts that are expected to approximately follow scheduled or anticipated reductions in the associated "bonds payable" category (dollars in thousands).

2018 Associated Bond Issue	Notional Amounts	Effective Date	Fixed Rate Paid	Variable Rate Received	Fair Value 2018	Swap Termination Date	Counterparty Credit Rating
Series 2004 C&D Bonds Series 2004 C&D Bonds	\$ 73,710 49,140	December 14, 2004 April 21, 2011	4.174 % 4.247	SIFMA +.05% SIFMA +.05%	\$(11,928) (8,311)	January 1, 2035 January 1, 2035	A1/A+ Aa2/A+

Total	\$127,625				\$(24,319)		

**Fair Value**—As per industry convention, the fair value of the Airport's outstanding swaps was estimated using the zero-coupon method. This method calculates the future net settlement payment required by the swap, assuming that the forward rates implied the yield curve correctly anticipates future spot rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement of the swap. Because interest rates declined subsequent to the date of execution, the Airport's swaps had negative values. Derivative instruments are valued in the market using regression analysis. Significant inputs to the derivative valuation for interest rate swaps are observable in active markets and are classified as Level 2 in the fair value hierarchy.

**Credit Risk**—The Airport is exposed to credit risk (counterparty risk) through the counterparties with which it enters into agreements. If minimum credit rating requirements are not maintained, the counterparty is required to post collateral to a third party. This protects the Airport by mitigating the credit risk, and therefore the ability to pay a termination payment, inherent in a swap. Collateral on all swaps is to be in the form of cash or eligible collateral held by a third-party custodian. Upon credit events, the swaps also allow transfers, credit support, and termination, if the counterparty is unable to meet the said credit requirements.

**Basis Risk**—Basis risk refers to the mismatch between the variable rate payments received on a swap contract and the interest payment actually owed on the bonds. The two significant components driving this risk are credit and Securities Industry and Financial Markets Associations (SIFMA) ratios. Credit may create basis risk because the Airport's bonds may trade differently than the swap index as a result of a credit change in the Airport. SIFMA ratios (or spreads) may create basis risk if SIFMA swaps of the Airport's bonds trade higher than the SIFMA received on the swap. This can occur due to many factors including, without limitations, changes in marginal tax rates, tax-exempt status of bonds, and supply and demand for variable rate bonds. The Airport is exposed to basis risk is liable for the difference. The difference would need to be available on the debt service payment date and would add additional underlying cost to the transaction.

**Tax Risk**—The swap exposes the Airport to tax risk or a permanent mismatch (shortfall) between the floating rate received on the swap and the variable rate paid on the underlying variable-rate bonds due to tax law changes such that the Federal or State tax exception of municipal debt is eliminated or its value reduced. There have been no tax law changes since the execution of this swap agreement.

**Termination Risk**—The risk that the swap could be terminated as a result of certain events, including a ratings downgrade for the issuer or swap counterparty, covenant violation, bankruptcy, payment default, or other defined events of default. Termination of a swap may result in a payment made by the issuer or to the issuer depending upon the market at the time of termination.

**Swap Payments and Associated Debt**—As of December 31, 2018, debt service requirements for the Airport's outstanding variable-rate debt and net swap payments, assuming current interest rates remain the same, for their term are as follows (dollars in thousands):

Years Ending	Variable-Rate Bonds with Swaps				
December 31	Principal	Interest	Swaps-Net	Total	
2019	\$ 5,000	\$ 2,054	\$ 2,917	\$ 9,971

<sup>(1)</sup> Includes net capitalized interest of \$9,530

## 6. LEASING ARRANGEMENTS

**With Tenants**—Most of the Airport's land, buildings, and terminal space are leased under operating lease agreements to airlines and other tenants. The following is a schedule of the minimum future rental income on noncancelable operating leases as of December 31, 2018 (dollars in thousands):

Years Ending December 31	Amount
2019	\$ 73,130
2020	72,777
2021	72,600
2022	72,600
2023	70,147
2024–2028	305,744
2029–2033	103,896
2034–2038	2,503
2039-2043	2,169
Total future minimum rental income	<u>\$775,566</u>

Contingent rentals that may be received under certain leases, based on the tenants' revenues, are not included in minimum future rental income.

Rental income, consisting of all rental and concession revenues except aircraft parking fees and certain departure fees (turns) and automobile parking, amounted to \$118.9 million and \$103.5 million in 2018 and 2017, respectively. Contingent rentals included in the totals were approximately \$46.2 million and \$40.2 million for 2018 and 2017, respectively.

## 7. PENSION PLANS

## General Information about the Pension Plan

**Plan Description**—Eligible Midway Fund employees participate in one of four singleemployer defined benefit pension plans (Plans). These Plans are: the Municipal Employees' Annuity and Benefit Fund of Chicago (Municipal Employees'); the Laborers' and Retirement Board Employees' Annuity and Benefit Fund of Chicago (Laborers'); the Policemen's Annuity and Benefit Fund of Chicago (Policemen's); and the Firemen's Annuity and Benefit Fund of Chicago (Firemen's). The plans are administered by individual retirement boards of trustees comprised of City officials or their designees and of trustees elected by Plan members. Certain employees of the Chicago Board of Education participate in Municipal Employees' or Laborers'. Each Plan issues a publicly available financial report that includes financial statements and required supplementary information that can be obtained at www.meabf.org, www.labfchicago.org, www.chipabf.org, and www.fabf.org.

**Benefits provided**—The Plans provide retirement, disability, and death benefits as established by State law. Benefits generally vest after 10 years of credited service. Employees qualify for an unreduced retirement age minimum formula annuity based on a combination of years of service and age of retirement. Employees may also receive a reduced retirement age minimum formula annuity if they do not meet the age and service requirements for the unreduced retirement age annuity. The requirements of age and service are different for employees depending on when they first became members of their respective Plans. For all four Plans, employees who became members before January 1, 2011 are considered Tier 1 Employees. For Policemen's and Firemen's, those employees who became members on or after January 1, 2011 are considered Tier 2 Employees. For Municipal Employees' and Laborers', those employees who became members on or after January 1, 2011 but before July 6, 2017 are considered Tier 2 Employees. For Municipal Employees' and Laborers', those employees who became members on or after July 6, 2017 are considered Tier 3 Employees. Public Act 100-0023 (P.A. 100-0023), which established the requirements for Tier 3 employees, includes a provision for Tier 2 employees to elect to be considered as Tier 3 employees. The annuity is computed by multiplying the final average salary by a percentage ranging from 2.2% to 2.5% per year of credited service. The final average salary is the employee's highest average annual salary for any four consecutive years within the last 10 years of credited service for participants who are Tier 1 Employees and any eight consecutive years within the last 10 years of credited service for participants who are Tier 2 Employees or Tier 3 Employees.

Benefit terms provide for annual adjustments to each employee's retirement allowance subsequent to the employees' retirement date. For Tier 1 Employees, the annual adjustments for Municipal Employees' and Laborers' are 3.0%, compounded, and for Policemen's and the majority of participants in Firemen's 3.0%, simple, for annuitants born before January 1, 1966 and 1.5%, simple, born after January 1, 1966 or later. For Tier 2 Employees and Tier 3 Employees, the annual adjustments are equal to the lesser of 3.0% and 50% of CPI-U of the original benefit.

**Employees Covered by Benefit Terms**—At December 31, 2018, the following City employees were covered by the benefit terms:

	Municipal Employees'	Laborers'	Policemen's	Firemen's	Total
Inactive employees or beneficiaries currently receiving benefits Inactive employees entitled	25,577	3,688	13,631	5,022	47,918
to but not yet receiving benefits Active employees	17,575 31,285	1,489 2,715	721 13,438	92 4,487	19,877 51,925
	74,437	7,892	27,790	9,601	119,720

**Contributions**—For the Municipal Employees' and Laborers' Plans, P.A. 100-0023 was enacted on July 6, 2017. P.A. 100-0023 requires the City to contribute specific amounts to the Municipal Employees' and the Laborers' Plans in the aggregate amounts as follows: in payment year 2018, \$302.0 million; in payment year 2019, \$392.0 million; in payment year 2020, \$481.0 million; in payment year 2021, \$571.0 million; and in payment year 2022, \$660.0 million. Additionally, P.A. 100-0023 requires that the City's contributions are at actuarially determined rates beginning in payment year 2023 and future funding be sufficient to produce a funding level of 90% by the year end of 2058.

For Policemen's and Firemen's, Public Act 99-0506 (P.A. 99-0506) was enacted on May 31, 2016. P.A. 99- 0506 requires the City to contribute specific amounts to Policemen's and Firemen's Plans in the aggregate amounts as follows: in payment year 2018, \$727.0 million; in payment year 2019, \$792.0 million; and in payment year 2020, \$824.0 million. Additionally, P.A. 99-0506 requires that the City's contributions are at actuarially determined rates beginning in payment year 2021 and future funding be sufficient to produce a funding level of 90% by the year end of 2055.

The City's contributions are budgeted in the same year as the applicable levy year for the property taxes funding the contributions. The City's contributions are then paid to the pension funds in the following year (which is when the levied property taxes are collected and paid to the City by the Cook County Treasurer).

The contribution to all four pension plans from the Airport was \$11.5 million and \$9.5 million for the years ended December 31, 2018 and 2017, respectively.

**Net Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**—At December 31, 2018 and 2017, the Airport reported a liability of \$329.7 million and \$290.6 million, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2018 and 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

**Changes in Actuarial Assumptions**—Changes in the municipal bond rate resulted in an increase in the single discount rate for Laborers, Policemen, and Firemen. In addition, the investment return assumption for Firemen decreased from 7.50% to 6.75% resulting in a decrease in the single discount rate for Firemen, which offset the increase from the change in the municipal bond rate. See discount rate section below.

The change in the single discount rate and other assumptions decreased the net pension liability by \$0.2 million for Laborers' and \$1.2 million for Policemen and increased the net

pension liability by \$5.2 million for Firemen. These changes are being amortized into expense over a 4 year period for Laborers' and a 6 year period for Policemen and Firemen.

The Airport's proportion of the net pension liability was determined based on the rates of the Airport's salaries within each corresponding pension plan to the total budgeted salaries for 2018 and 2017. At December 31, 2018 and 2017, the Airport's proportion was 1.5% and 1.4%, respectively, of the Municipal Employees' Plan, 1.5% and 1.5% of the Laborer's Plan, 0.5% and 0.5% of the Policemen's Plan and 1.4% and 1.3%, respectively, of the Firemen's Plan.

For the years ended December 31, 2018 and 2017, the Airport recognized pension expense of \$42.8 million and \$40.2 million, respectively.

At December 31, 2018 and 2017, the reported deferred outflows of resources of \$44.9 million and \$59.6 million, respectively, and deferred inflows of resources of \$82.8 million and \$108.8 million, respectively, related to pensions from the following sources:

Municipal Employees' (dollars in thousands):

	2018		2017	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual

#### Deferred Outflows Related to Changes in Proportionate Share of Contributions—

For the years ended December 31, 2018 and 2017, the Airport reported pension charge/(benefit) of \$16.1 million and \$(13.6) million, respectively, related to changes in its proportionate share of contributions. As of December 31, 2018 and 2017, the airport

reported deferred outflows of \$50.2 million and \$53.7 million, respectively, related to changes in its proportionate share of contributions. This deferred amount will be recognized as pension charge/(benefit) over a period of five years.

**Actuarial Assumptions**—The total pension liability in the December 31, 2018 and 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

2018	Municipal Employees'		Laborers'	Policemen's	Firemen's
Inflation	2.50 %		2.25 %	2.75 %	2.25 %
Salary increases	3.50%-7.75 %	(a)	3.00 (ł	) 3.75	(c) 3.50 (d)
Investment rate of return	7.00 %	(e)	7.25 (e	e) 7.25	6.75

2017	Municipal Employees'		Laborers	,	Policemen's	I	Firemen	's
Inflation	2.50 %		2.25 %	, 0	2.75 %		2.50 %	6
Salary increases	3.50%-7.75 %	(a)	3.00	(b)	3.75	(c)	3.75	(d)
Investment rate of return	7.00 %	(e)	7.25	(e)	7.25		7.50	

- <sup>(a)</sup> (1.50%–6.50% for 2019-2022), varying by years of service
- <sup>(b)</sup> Plus a service—based increase in the first 9 years
- <sup>(c)</sup> Plus additional percentage related to service
- <sup>(d)</sup> Plus additional service based increases
- <sup>(e)</sup> Net of investment expense

Post-retirement mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table (Blue Collar mortality table for Laborers' and Firemen's) for males or females, as appropriate. Pre-retirement mortality rates were based on the RP-2014 Employee Mortality Table (Blue Collar mortality table for Laborers' and Firemen's). Disabled mortality rates were based on the RP-2014 Healthy Annuitant mortality table for Policemen's and Blue Collar mortality table for Firemen's.

The mortality actuarial assumptions used in the December 31, 2018 valuation were adjusted based on the results of actuarial experience study for the following periods:

Municipal Employees'	January 1, 2012-December 31, 2016
Laborers'	January 1, 2012–December 31, 2016
Policemen's	January 1, 2009–December 31, 2013
Firemen's	January 1, 2012–December 31, 2016

The long term expected rate of return on pension plan investments was determined using the building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of December 31, 2018 and 2017 are summarized in the following tables:

	Target Allocation				Long-Term Expected Real Rate of Return

## Discount Rate

**Municipal Employees'**—The discount rate used to measure the total pension liability as of December 31, 2018 and 2017 was 7.0%. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made according to the contribution rate applicable for each member's tier and that employer contributions will be made as specified by Public Act 100-0023. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions and contributions from future plan members that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments

was applied to all periods of projected benefit payments to determine the total pension liability

**Laborers'**—A Single Discount Rate of 7.11% and 7.07% was used to measure the total pension liability as of December 31, 2018 and 2017, respectively. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.25% as of December 31, 2018 and 2017, and a municipal bond rate of 3.71% and 3.31% as of December 31, 2018 and 2017, respectively (based on the rate closest to but not later than the measurement date of the "20-Year Municipal GO AA Index" rate from Fidelity Index). The projection of cash flows used to determine this Single Discount Rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at under the statutory funding policy. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments only through the year 2072. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2072, and the municipal bond rate was applied to all benefit payments after that date.

**Policemen's**—A Single Discount Rate of 7.18% and 7.0% was used to measure the total pension liability as of December 31, 2018 and 2017, respectively. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.25% for December 31, 2018 and 2017, respectively, and a municipal bond rate of 3.71% and 3.31% as of December 31, 2018 and 2017, respectively (based on the rate closest to but not later than the measurement date of the "20-Year Municipal GO AA Index" rate from Fidelity Index). The projection of cash flows used to determine this Single Discount Rate assumed that plan member contributions will be made at the current contribution rate and employer contributions are made in accordance with the statutory requirements. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2079 (for the 2018 valuation) and the year 2070 (for the 2017 valuation). As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2079 (for the 2018 valuation) and the year 2079 (for the 2018 valuation) and the year 2070 (for the 2018 valuation) and the year 2079 (for the 2017 valuation), and the respective municipal bond rate was applied to all benefit payments after that date.

**Firemen's**—A Single Discount Rate of 6.61% and 7.23% was used to measure the total pension liability as of December 31, 2018 and 2017, respectively. This Single Discount Rate was based on an expected rate of return on pension plan investments of 6.75% and 7.5% for December 31, 2018 and 2017, respectively, and a municipal bond rate of 3.71% and 3.31% as of December 31, 2018 and 2017, respectively (based on the rate closest to but not later than the measurement date of the "20-Year Municipal GO AA Index" rate from Fidelity Index). The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made in accordance with the statutory requirements. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2072 (for the 2018 valuation) and 2070 (for the 2017 valuation). As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2072 (for the 2018 valuation) and 2070 (for the 2018 valuation) and 2070 (for the 2018 valuation) and 2070 valuation), and the respective municipal bond rate was applied to all benefit payments after that date.

#### Sensitivity of the Airport's Net Pension Liability to Changes in the Discount Rate

**Municipal Employees'**—The following presents the allocated share of the net pension liability to the Airport as of December 31, 2018 and 2017, calculated using the discount rate of 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1% point lower (6.00%) or 1% (8.00%) point higher than the current rate (dollars in thousands):

		Current	
Net Pension Liability December 31, 2018	1% Decrease	Discount Rate	1% Increase
Municipal Employees' discount rate	6.00 %	7.00 %	8.00 %
Municipal Employees' net pension liability	\$219,518	\$188,469	\$162,720
		Current	
Net Pension Liability December 31, 2017	1% Decrease	Discount Rate	1% Increase
Municipal Employees' discount rate	6.00 %	7.00 %	8.00 %
Municipal Employees' net pension liability	\$188,457	\$160,076	\$136,569

**Laborers'**—The following presents the allocated share of the net pension liability to the Airport as of December 31, 2018 and 2017, calculated using the discount rate of 7.11% and 7.07%, respectively, as well as what the net pension liability would be if it were calculated using a discount rate that is 1% point lower (6.11%) or 1% point higher (8.11%) than the current rate (dollars in thousands):

		Current	
Net Pension Liability December 31, 2018	1% Decrease	Discount Rate	1% Increase
Laborers' discount rate Laborers' net pension liability	6.11 % \$27,927	7.11 % \$23,248	8.11 % \$19,330
		Current	
Net Pension Liability December 31, 2017	1% Decrease	Discount Rate	1% Increase
Laborers' discount rate	6.07 %	7.07 %	8.07 %
Laborers' net pension liability	\$24,973	\$20,249	\$16,298

**Policemen's**—The following presents the allocated share of the net pension liability to the Airport as of December 31, 2018 and 2017, calculated using the discount rate of 7.18% and 7.0%, respectively, as well as what the net pension liability would be if it were calculated using a discount rate that is 1% point lower (6.18%) or 1% point higher (8.18%) than the current rate (dollars in thousands):

		Current	
Net Pension Liability December 31, 2018	1% Decrease	Discount Rate	1% Increase
Policemen's discount rate	6.18 %	7.18 %	8.18 %
Policemen's net pension liability	\$54,477	\$47,425	\$41,483

		Current	
Net Pension Liability December 31, 2017	1% Decrease	Discount Rate	1% Increase
Policemen's discount rate	6.00 %	7.00 %	8.00 %
Policemen's net pension liability	\$55,663	\$48,149	\$41,838

**Firemen's**—The following presents the allocated share of the net pension liability to the Airport as of December 31, 2018 and 2017, calculated using the discount rate of 6.61% and 7.23%, respectively, as well as what the net pension liability would be if it were calculated using a discount rate that is 1% point lower (5.61%) or 1% point higher (7.61%) than the current rate (dollars in thousands):

		Current	
Net Pension Liability December 31, 2018	1% Decrease	Discount Rate	1% Increase
Firemen's discount rate	5.61 %	6.61 %	7.61 %
Firemen's net pension liability	\$80,915	\$70,560	\$61,914
		Current	
Net Pension Liability December 31, 2017	1% Decrease	Current Discount Rate	1% Increase

**Pension Plan Fiduciary Net Position**—Detailed information about the pension plan's fiduciary net position is available in the separately issued Pension Plans financial report.

## 8. RELATED-PARTY TRANSACTIONS

Included in operating expenses are reimbursements to the general fund of the City for services provided by other City departments, employee fringe benefits, and self-insured risks. Such reimbursements were \$24.5 million in 2018 and \$22.0 million in 2017.

#### 9. COMMITMENTS AND CONTINGENCIES

The Airport has certain contingent liabilities resulting from litigation, claims, and commitments incident to the ordinary course of business. Management expects that the final resolution of these contingencies will not have a material adverse effect on the financial position or results of operations of the Airport.

The Airport provides employee health benefits under a self-insurance program, administered by the City. Such claims outstanding, including claims incurred but not reported, are estimated and recorded as liabilities in the financial statements.

Uninsured claim expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Changes in the claims liability amount for the years ended December 31, 2018 and 2017, are as follows (dollars in thousands):

	2018	2017
Beginning balance—January 1 Total claims incurred Claims paid	\$    511 5,102 <u>   (5,136</u> )	\$    620 4,141 <u>   (4,250</u> )
Claims liability—December 31	<u>\$ 477</u>	<u>\$ 511</u>

The City's property and liability insurance premiums are approximately \$11.1 million per year. The City maintains property and liability insurance coverage for both O'Hare and Midway and allocates the cost of the premiums between the two airports. The property coverage was renewed on December 31, 2018 with a limit of \$3.5 billion and includes \$3.5 billion in terrorism coverage, and the liability coverage was renewed May 15, 2018 with a limit of \$1 billion and includes \$1 billion in war and terrorism liability coverage.

At December 31, 2018 and 2017, the Airport had commitments in the amount of approximately \$234.2 million and \$116.3 million, respectively, in connection with contracts entered into for construction projects.

### **10. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

	2018	2017
Deferred outflows of resources: Deferred outflows from pension		
activities accumulated Changes in proportionate share of	\$ 44,856	\$ 59,589
pension contribution Unamortized deferred bond refunding costs Derivatives	50,233 18,874 20,239	53,694 16,860 24,319
Total deferred outflows of resources	\$134,202	\$ 154,462
Deferred inflows of resources deferred inflows from pension activities	<u>\$ (82,841</u> )	<u>\$(108,774</u> )

## **11. SUBSEQUENT EVENTS**

Midway has evaluated subsequent events through June 25, 2019, the date the financial statements were available to be issued and concluded no subsequent events have occurred that would require recognition that have not already been recognized or that require disclosure that have not already been disclosed.

Retirement age	(h)		(i)		(j)		(i)	
Mortality	(k)		(I)		(m)		(n)	
Other information	(0)		(p)		(p)		(p)	

(a) Actuarially determined contribution amount is determined as of December 31, with appropriate interest to the end of the year.

(b) (1.50%-6.50% for 2019-2022), varying by years of service.

(c) Plus a service-based increase in the first 9 years.

- (d) Plus a service-based increases consistent with bargain contracts...
- (e) Salary increase rates based on age-related productivity and merit rates plus inflation.
- (f) Net of investment expense.
- (g) Net of investment expense, including inflation.
- (h) For employees first hired prior to January 1, 2011, rates of retirement are based on the recent experience of the Fund (effective December 31, 2017). For employees first hired on or after January 1, 2011 and before July 6, 2017, rates of retirement for each age from 62 to 80

were used (effective December 31, 2011).

For employees first hired on or after July 6, 2017, rates of retirement for each age from 62 to 80 were used (effective December 31, 2017).

- (i) Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the December 31, 2017, valuation pursuant to an experience study of the period January 1, 2012, through December 31, 2016.
- (j) Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the December 31, 2014, actuarial valuation pursuant to an experience study of the period January 1, 2009, through December 31, 2013.
- (k) Post-retirement mortality rates were based on the RP-2014 Healthy Annuitant Mortality Tables, set forward two years for males and one year for females, and projected generationally using scale MP-2016. Pre-retirement mortality rates were based on 120% of the RP-2014 Employee Mortality Tables projected generationally using scale MP-2016.
- (I) Post Retirement Mortality: Scaling factors of 117% for males, and 102% for females of the RP-2014 Blue Collar Healthy Annuitant mortality table, sex distinct, with generational mortality improvement using MP-2017 2-dimensional mortality improvement scales. No adjustment is made for post-disabled mortality.

Pre Retirement Mortality: Scaling factors of 109% for males, and 103% for females of the RP-2014 Blue Collar Employee mortality table, sex distinct, with generational mortality improvement using MP-2017 2-dimensional mortality improvement scales.

(m) Post-Retirement Healthy mortality rates: Sex distinct Retirement Plans 2014 Healthy Annuitant mortality table weighted 108% for males and 97% for females.

Pre-Retirement mortality rates: Sex distinct Retirement Plans 2014 Total Employee mortality table weighted 85% for males and 115% for females. Disabled Mortality: Sex distinct Retirement Plans 2014 Healthy Annuitant mortality table weighted 115% for males and 115% for females

- (n) Post Retirement Mortality: Scaling factors of 106% for males, and 98% for females of the RP-2014 Blue Collar Healthy Annuitant mortality table, sex distinct, with generational mortality improvement using MP-2017 2-dimensional mortality improvement scales. Disabled Mortality: Scaling factors of 107% for males, and 99% for females of the RP-2014 Blue Collar Healthy Annuitant mortality table, sex distinct, with generational mortality improvement using MP-2017 2-dimensional mortality improvement scales. Pre-Retirement Mortality: Scaling factors of 92% for males, and 100% for females of the RP-2014 Blue Collar Employee mortality table, sex distinct, with generational mortality improvement using MP-2017 2-dimensional mortality improvement scales. Future mortality improvements in pre- and post-retirement mortality are reflected by projecting the base mortality tables back from the year 2014 to the year 2006 using the MP-2014 projection scale and projecting from 2006 using the MP-2017 projection scale. (o) Other assumptions: Same as those used in the December 31, 2018, actuarial funding valuations.
- (p) The actuarial valuation is based on the statutes in effect as of December 31, 2018.

(Concluded)

#### ADDITIONAL SUPPLEMENTARY INFORMATION CHICAGO MIDWAY AIRPORT REVENUE BONDS NOTES TO DEBT SERVICE COVERAGE CALCULATIONS YEARS ENDED DECEMBER 31, 2018 AND 2017

## 1. RATE COVENANT

The Master Indenture of Trust ("Master Indenture") securing the Chicago Midway Airport Revenue Bonds ("Bonds") requires that revenues, together with other available moneys deposited with the trustee and any balance held in the revenue fund on the first day of the calendar year not then required to be deposited in any fund or account, will be at least sufficient (i) to provide for the payment of operation and maintenance expenses for the year and (ii) to provide for the greater of (a) the amounts, if any, needed to make required deposits into the Debt Service Fund, the Operating and Maintenance Reserve Account, the Working Capital Account, the Debt Service Reserve Fund, the Junior Lien Obligation Debt Service Fund, the Repair and Replacement Fund, and the Special Project Fund; and (b) an amount not less than 125% of the aggregate debt service for the Bond year commencing during such fiscal year.

Of the \$42.8 million of pension expense for 2018, \$11.5 million is the portion of the City's pension contribution payable in 2018 to the pension funds and allocable to Midway Airport. The remaining portion of the pension expense for 2018, \$31.3 million, is recognized on the income statement of Midway Airport for 2018 but is not due and payable by the City during 2018; accordingly, that portion is not included in Operating Expenses for purposes of calculation of the debt service coverage ratios.

## 2. REVENUE FUND BALANCE

The revenue fund balance includes all cash, cash equivalents, and investments, which were available to the revenue fund to satisfy the coverage requirement under the terms of the Master Indenture.

## 3. FUND DEPOSIT REQUIREMENTS

The Airport excludes the Airport Development Fund in the Debt Service Coverage calculation. This fund can be used by the City for any lawful Airport purpose and therefore can be used to fulfill any debt service obligations. The balance as of December 31,2018 was \$14.5 million.

#### ADDITIONAL SUPPLEMENTARY INFORMATION CHICAGO MIDWAY AIRPORT SECOND LIEN REVENUE BONDS NOTES TO DEBT SERVICE COVERAGE CALCULATIONS YEARS ENDED DECEMBER 31, 2018 AND 2017

### 1. RATE COVENANT

The Master Indenture of Trust ("Master Indenture") securing the Chicago Midway Airport Second Lien Revenue Bonds ("Bonds") requires that revenues, together with other available moneys deposited with the first lien trustee or the second lien trustee and any balance held in the first lien revenue fund or the second lien revenue fund on the first day of the year not then required to be deposited in any fund or account under the first lien indenture or the second lien indenture, will be at least sufficient (a) to provide for the payment of operation and maintenance expenses for the year and (b) to provide for: (i) the greater of the amounts needed to make the deposits required under the first lien indenture during such calendar year into the first lien debt service fund, the Operating and Maintenance (O&M) Reserve Account, the Working Capital Account, the First Lien Debt Service Reserve Fund, the Junior Lien Obligation Debt Service Fund, the Repair and Replacement Fund and the Special Project Fund, or an amount not less than 125% of the Aggregate First Lien Debt Service for the Bond year commencing during such year, reduced by any amount held in any capitalized interest account for disbursement during such Bond year to pay interest on first lien bonds; or (ii) the greater of the amounts needed to make the deposits required under the first lien indenture during such year into the First Lien Debt Service Fund, the O&M Reserve Account, the Working Capital Account, the First Lien Debt Service Reserve Fund, the Junior Lien Obligation Debt Service Fund, the Repair and Replacement Fund and the Special Project Fund, or an amount not less than 110% of the sum of Aggregate First Lien Debt Service and Aggregate Second Lien Debt Service for the Bond year commencing during such year, reduced by (a) any amount held in any capitalized interest account for disbursement during such Bond year to pay interest on any first lien bonds, and (b) any amount held in any capitalized interest account established pursuant to a supplemental indenture for disbursement during such Bond year to pay interest on second lien obligations.

Of the \$42.8 million of pension expense for 2018, \$11.5 million is the portion of the City's pension contribution payable in 2018 to the pension funds and allocable to Midway Airport. The remaining portion of the pension expense for 2018, \$31.3 million, is recognized on the income statement of Midway Airport for 2018 but is not due and payable by the City during 2018; accordingly, that portion is not included in Operating Expenses for purposes of calculation of the debt service coverage ratios.

### 2. REVENUE FUND BALANCE

The revenue fund balance includes all cash, cash equivalents, and investments, which were available to the revenue fund to satisfy the coverage requirement under the terms of the Master Indenture.

## 3. FUND DEPOSIT REQUIREMENTS

The Airport excludes the Airport Development Fund in the Debt Service Coverage calculation. This fund can be used by the City for any lawful Airport purpose and therefore can be used to fulfill any debt service obligations. The balance as of December 31,2018 was \$14.5 million.

# PART III

STATISTICAL SECTION (UNAUDITED)

### STATISTICAL INFORMATION

### (UNAUDITED)

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, notes disclosures and required supplementary information says about the Airport's overall financial health.

### Contents

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the Airport's financial performance and well-being have changed over time.

#### Revenue Capacity

These schedules contain information to help the reader assess the Airport's most significant revenue sources.

#### Debt Capacity

These schedules present information to help the reader assess the affordability of the Airport's current levels of outstanding debt and the Airport's ability to issue additional debt in the future.

#### Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the Environment within which the Airport's financial activities takes place.

#### **Operating Information**

These schedules contains data to help the reader understand how the information in the Airport's financial report relates to the services the Airport provides and the activities it performs.

#### HISTORICAL OPERATING RESULTS EACH OF THE TEN YEARS ENDED DECEMBER 31, 2009-2018 (UNAUDITED) (\$ in thousands)

<sup>(1)</sup> Average annual compound growth rate for 2009–2018 for total operating revenues is 6.0%.

<sup>(2)</sup> Salaries and wages includes charges for pension, health care and other employee benefits for years 2009–2018.

<sup>(3)</sup> Average annual compound growth rate for 2009–2018 for total operating and maintenance expenses before depreciation and amortization is 6.9%.

(4) Amount for 2018 may be reconciled to operating loss of \$26,260 reported in the 2018 Statement of Revenues, Expenses and Changes in Net Position by deducting

depreciation and amortization of \$51,383. Amount for prior years may be reconciled through similar calculations.

<sup>(5)</sup> Represents debt service coverage ratio on first and second lien bonds.

Of the \$42.8 million of pension expense for 2018, \$11.5 million is the portion of the City's pension contribution payable in 2018 to the pension funds and allocable to Midway Airport. The remaining portion of the pension expense for 2018 \$31.3 million is recognized on the income statement of Midway Airport for 2018 pursuant to GASB 68 but is not due and payable by the City during 2018; accordingly, that portion is not included in Operating Expenses for purposes of calculation of the debt service coverage ratios.
