

Official Statement

Airport Commission of the City and County of San Francisco
San Francisco International Airport

Second Series Revenue Refunding Bonds
Series 2024A/B/C

San Francisco
International
Airport

Scale: 1" = 360'
Flown: July 2018

In the opinion of Orrick, Herrington & Sutcliffe LLP, Special Tax Counsel to the Commission ("Special Tax Counsel"), based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Series 2024A Bonds and the Series 2024B Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 (the "Code"), except that no opinion is expressed as to the status of interest on any Series 2024A Bond for any period that such Series 2024A Bond is held by a "substantial user" of the facilities financed or refinanced by the Series 2024A Bonds or by a "related person" within the meaning of Section 147(a) of the Code. In the further opinion of Special Tax Counsel, interest on the Series 2024B Bonds is not a specific preference item for purposes of the federal individual alternative minimum tax. Special Tax Counsel observes that interest on the Series 2024A Bonds is a specific preference item for purposes of the federal individual alternative minimum tax, and that interest on the Series 2024A Bonds and the Series 2024B Bonds included in adjusted financial statement income of certain corporations is not excluded from the federal corporate alternative minimum tax. In the further opinion of Special Tax Counsel, interest on the Series 2024A-C Bonds is exempt from State of California personal income taxes. Special Tax Counsel observes that interest on the 2024C Bonds is not excluded from gross income for federal income tax purposes under Section 103 of the Code. Special Tax Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Series 2024A-C Bonds. See "TAX MATTERS" herein.

Dated: Date of Delivery

Due: As shown on the pages immediately following this cover

The Airport Commission (the "Commission") of the City and County of San Francisco (the "City") will issue (i) \$782,535,000 principal amount of its San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024A (the "Series 2024A Bonds"), (ii) \$123,590,000 principal amount of its San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024B (the "Series 2024B Bonds") and (iii) \$18,540,000 principal amount of its San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024C (the "Series 2024C Bonds," and, together with the Series 2024A Bonds and the Series 2024B Bonds, the "Series 2024A-C Bonds"), pursuant to the terms of the 1991 Master Resolution (as defined herein).

The San Francisco International Airport (the "Airport") is an enterprise department of the City. The Bank of New York Mellon Trust Company, N.A. has been appointed by the Commission to act as Trustee for its Bonds, including the Series 2024A-C Bonds.

The Commission will use the proceeds of the Series 2024A-C Bonds, together with other available moneys, to refund certain outstanding Bonds of the Commission; to repay Commercial Paper Notes issued to finance costs of the Capital Improvement Plan; to finance a portion of the costs of the Capital Improvement Plan; to fund a reserve account deposit; to pay capitalized interest on a portion of the Series 2024A-C Bonds; and to pay costs of issuance of the Series 2024A-C Bonds.

The Series 2024A-C Bonds will mature on the dates and bear interest at the rates shown on the page immediately following this cover page. Interest on the Series 2024A-C Bonds will be payable each May 1 and November 1, commencing November 1, 2024.

Certain of the Series 2024A-C Bonds are subject to redemption prior to their stated maturity dates, as described herein.

The Series 2024A-C Bonds will be issued only as fully registered bonds, registered in the name of Cede & Co., as registered owner and nominee of The Depository Trust Company ("DTC"). So long as Cede & Co. is the registered owner of the Series 2024A-C Bonds, payment of the principal of and interest on the Series 2024A-C Bonds will be made only to Cede & Co. as nominee of DTC, which is required in turn to remit such principal and interest to the DTC Participants for subsequent disbursement to the Beneficial Owners of the Series 2024A-C Bonds.

The Series 2024A-C Bonds are special, limited obligations of the Commission, payable as to principal and interest solely out of, and secured by a pledge of and lien on, the Net Revenues of the Airport and the funds and accounts provided for in the 1991 Master Resolution. Neither the credit nor taxing power of the City is pledged to the payment of the principal of or interest on the Series 2024A-C Bonds. No holder of a Series 2024A-C Bond shall have the right to compel the exercise of the taxing power of the City to pay the principal of or the interest on the Series 2024A-C Bonds. The Commission has no taxing power whatsoever.

The Series 2024A-C Bonds are offered when, as and if issued by the Commission and received by the Underwriters, subject to approval of validity by Squire Patton Boggs (US) LLP and Amira Jackmon, Attorney at Law, Co-Bond Counsel to the Commission, and certain other conditions. Certain legal matters will be passed upon for the Commission by Nixon Peabody LLP, Disclosure Counsel, by Orrick, Herrington & Sutcliffe LLP, Special Tax Counsel, and by the City Attorney. Certain legal matters will be passed upon for the Underwriters by their counsel, Hawkins Delafield & Wood LLP. The Commission expects to deliver the Series 2024A-C Bonds through the facilities of DTC on or about June 4, 2024, against payment therefor.

Information Provided by the Commission and by Third Parties. This Official Statement presents information with respect to the Commission and the Airport. The information contained herein has been obtained from officers, employees and records of the Commission and from other sources believed to be reliable. The order and placement of information in this Official Statement, including the appendices, are not an indication of relative importance, and this Official Statement, including the appendices, must be read in its entirety. The captions and headings in this Official Statement are for convenience only and in no way define, limit or describe the scope or intent, or affect the meaning or construction, of any provision in this Official Statement.

Limitations Regarding Offering. No broker, dealer, salesperson or any other person has been authorized to give any information or to make any representations, other than those contained in this Official Statement, in connection with the offering of the Series 2024A-C Bonds, and if given or made, such information or representations must not be relied upon as having been authorized by the Commission. This Official Statement does not constitute an offer to sell, or the solicitation from any person of an offer to buy, nor shall there be any sale of the Series 2024A-C Bonds by any person in any jurisdiction where such offer, solicitation or sale would be unlawful. The information set forth herein is subject to change without notice. The delivery of this Official Statement at any time does not imply that information herein is correct or complete as of any time subsequent to its date.

The Series 2024A-C Bonds have not been recommended by any federal or state securities commission or regulatory authority, and the forgoing authorities have neither reviewed nor confirmed the accuracy of the Official Statement.

Forward-Looking Statements. This Official Statement contains forecasts, projections, estimates and other forward-looking statements that are based on current expectations. The words “expects,” “forecasts,” “projects,” “intends,” “anticipates,” “estimates,” “assumes” and analogous expressions are intended to identify forward-looking statements. Such forecasts, projections and estimates are not intended as representations of fact or guarantees of results. Any such forward-looking statements inherently are subject to a variety of risks and uncertainties that could cause actual results or performance to differ materially from those that have been forecast, estimated or projected. Such risks and uncertainties include, among others, changes in regional, domestic and international political, social and economic conditions, federal, state and local statutory and regulatory initiatives, litigation, population changes, financial conditions of individual air carriers and the airline industry, technological change, changes in the tourism industry, changes at other San Francisco Bay Area airports, seismic events, international agreements or regulations governing air travel, the COVID-19 pandemic and future worldwide health concerns, and various other events, conditions and circumstances, many of which are beyond the control of the Commission. These forward-looking statements speak only as of the date of this Official Statement. The Commission disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any changes in the Commission’s expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Underwriters’ Disclaimer. The Underwriters have provided the following sentence for inclusion in this Official Statement: The Underwriters have reviewed the information in this Official Statement in accordance with, and as part of, their respective responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information.

No Securities Registration. The Series 2024A-C Bonds have not been registered under the Securities Act of 1933, as amended, in reliance upon an exemption from the registration requirements contained in such Act. The Series 2024A-C Bonds have not been registered or qualified under the securities laws of any state.

Ratings of Other Parties. This Official Statement may contain information concerning the ratings assigned by Moody’s Investors Service, Inc., S&P Global Ratings and Fitch Ratings, Inc. for parties other than the Commission. Such ratings reflect only the view of the agency giving such rating and are provided for convenience of reference only. Such rating information has been obtained from sources believed to be reliable but has not been confirmed or re-verified by such rating agencies. Neither the Commission, nor any of the Underwriters takes any responsibility for the accuracy of such ratings, gives any assurance that such ratings will apply for any given period of time, or that such ratings will not be revised downward or withdrawn if, in the judgment of the agency providing such rating, circumstances so warrant.

Websites Not Incorporated. References to website addresses presented herein are for informational purposes only and may be in the form of a hyperlink solely for the reader's convenience. Unless specified otherwise, such websites and the information or links contained therein are not incorporated into, and are not part of, this Official Statement. The Commission maintains an investor relations page on its website at <https://www.flysfo.com/about-sfo/investor-relations> on which it periodically provides information for investors. The Commission and the City each maintain a website and various social media accounts. The information presented on the investor relations page, those websites and those social media accounts is *not* incorporated by reference as part of this Official Statement and should not be relied upon in making investment decisions with respect to the Series 2024A-C Bonds.

INTRODUCTION

The Airport Commission (the “Commission”) of the City and County of San Francisco (the “City”) will issue (i) \$782,535,000 principal amount of its San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024A (the “Series 2024A Bonds”), (ii) \$123,590,000 principal amount of its San Francisco International Airport Second Series Revenue Refunding Bonds Series 2024B (the “Series 2024B Bonds”) and (iii) \$18,540,000 principal amount of its San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024C (the “Series 2024C Bonds,” and, together with the Series 2024A Bonds and the Series 2024B Bonds, the “Series 2024A-C Bonds”), pursuant to the terms of the 1991 Master Resolution (defined below).

The Commission authorized the issuance and sale of the Series 2024A-C Bonds under Resolution No. 91-0210, which the Commission adopted on December 3, 1991, as supplemented and amended (the “1991 Master Resolution”). The Series 2024A-C Bonds, together with all bonds that the Commission has issued and will issue in the future pursuant to the 1991 Master Resolution, are referred to herein as the “Bonds.” For a summary of the Commission’s Outstanding Bonds, see “AIRPORT’S FINANCIAL AND RELATED INFORMATION—Currently Outstanding Bonds.” Capitalized terms used and not defined in this Official Statement have the meanings given those terms in the 1991 Master Resolution. The Commission has appointed The Bank of New York Mellon Trust Company, N.A. to act as trustee (the “Trustee”) for the Bonds, including the Series 2024A-C Bonds.

The Commission will use the proceeds of the Series 2024A-C Bonds, together with other available moneys, to refund certain outstanding Bonds of the Commission; to repay Commercial Paper Notes issued to finance costs of the Airport’s current Capital Improvement Plan (the “CIP”); to finance a portion of the costs of the CIP; to fund a deposit to the Original Reserve Account described herein; to pay capitalized interest on a portion of the Series 2024A-C Bonds; and to pay costs of issuance of the Series 2024A-C Bonds. See “PLAN OF FINANCE AND REFUNDING” and “ESTIMATED SOURCES AND USES OF FUNDS.”

The Series 2024A-C Bonds will mature on the dates, in the amounts and bear interest at the rates shown on the pages immediately following the front cover of this Official Statement.

The Commission will secure the Series 2024A-C Bonds with a pledge of, lien on and security interest in the Net Revenues of the San Francisco International Airport (the “Airport”) on parity with the Commission’s other Outstanding Bonds, which, as of May 2, 2024, were outstanding in the amount of approximately \$8.5 billion, and any additional Bonds issued by the Commission in the future. See “SECURITY FOR THE SERIES 2024A-C BONDS” and “AIRPORT’S FINANCIAL AND RELATED INFORMATION—Currently Outstanding Bonds.” The Commission expects to issue additional Bonds in the future for various purposes permitted by the 1991 Master Resolution. The Series 2024A-C Bonds will be additionally secured by the Original Reserve Account. See “SECURITY FOR THE SERIES 2024A-C BONDS—Reserve Fund and Reserve Accounts—*Original Reserve Account*.”

This Official Statement contains brief descriptions or summaries of, among other things, the Series 2024A-C Bonds, the 1991 Master Resolution, the Lease and Use Agreements, and the Continuing Disclosure Certificate of the Commission. Any description or summary in this Official Statement of any such document is qualified in its entirety by reference to each such document.

PLAN OF FINANCE AND REFUNDING

The Commission will use the proceeds of the Series 2024A-C Bonds, together with other available moneys, to (i) refund certain outstanding Bonds of the Commission; (ii) repay Commercial Paper Notes issued to finance costs of the CIP; (iii) finance a portion of the costs of the CIP; (iv) fund a deposit to the Original Reserve Account described herein; (v) pay capitalized interest on a portion of the Series 2024A-C Bonds; and (vi) pay costs of issuance of the Series 2024A-C Bonds.

Refunding Plan

A portion of the proceeds of the Series 2024A-C Bonds, along with certain other available moneys, will be used as determined by the Commission to refund and defease all of the Outstanding Bonds listed and identified as the Refunded Bonds in APPENDIX H –“LIST OF REFUNDED BONDS” (the Bonds so refunded and defeased, collectively, the “Refunded Bonds”). The Refunded Bonds will be redeemed on the date set forth in APPENDIX H.

A portion of the proceeds of the Series 2024A-C Bonds, together with certain other available moneys, including certain amounts held pursuant to the 1991 Master Resolution, will be deposited with The Bank of New York Mellon Trust Company, N.A., as escrow agent (the “Escrow Agent”), pursuant to an escrow agreement (the “Escrow Agreement”) to be executed and delivered by the Commission and the Escrow Agent, in an escrow account established thereunder. The amounts deposited with the Escrow Agent, together with investment earnings thereon, will be sufficient, to (i) effect the defeasance of the Refunded Bonds on the date of delivery of the Series 2024A-C Bonds and (ii) pay the redemption price of the Refunded Bonds (as set forth in APPENDIX H) and accrued interest on such Refunded Bonds on the Refunded Bonds’ redemption date. See also “VERIFICATION OF MATHEMATICAL COMPUTATIONS.”

Repayment of Commercial Paper and Financing of Capital Projects

Approximately \$452,450,000 in principal amount of Commercial Paper Notes issued to finance Airport capital projects will be repaid with certain proceeds of the Series 2024A-C Bonds. \$18,450,000 of such Commercial Paper Notes will be repaid on or about the date of issuance of the Series 2024A-C Bonds. A portion of the proceeds of the Series 2024A-C Bonds will be deposited with the Escrow Agent pursuant to the Escrow Agreement in an escrow account established thereunder to defease the remaining \$434,000,000 principal amount of Commercial Paper Notes (the “Defeased Commercial Paper Notes”). The amounts deposited with the Escrow Agent, together with investment earnings thereon, will be sufficient to pay principal of and interest on the Defeased Commercial Paper Notes on the date of repayment thereof, August 27, 2024. The letters of credit supporting the Commercial Paper Notes will be reinstated upon the repayment of the respective Commercial Paper Notes. In addition, \$15,258,073.42 of the proceeds of the Series 2024A-C Bonds will be deposited in the Construction Fund to be used to pay a portion of the costs of the CIP.

Proceeds of the Series 2024A-C Bonds will be used as determined by the Commission to finance capitalized interest on a portion of the Series 2024A-C Bonds used to repay Commercial Paper Notes and to finance capital projects as described above.

Deposit to Original Reserve Account

A portion of the proceeds of the Series 2024A-C Bonds will be used to make a deposit in the amount of \$33,540,618.06 into the Original Reserve Account. See “SECURITY FOR THE SERIES 2024A-C BONDS–Reserve Fund and Reserve Accounts–Original Reserve Account.”

ESTIMATED SOURCES AND USES OF FUNDS

The following table sets forth the estimated sources and uses of funds for the Series 2024A-C Bonds.

Series 2024A-C Bonds Estimated Sources and Uses of Funds

	Series 2024A Bonds	Series 2024B Bonds	Series 2024C Bonds	Total
SOURCES OF FUNDS:				
Principal Amount.....	\$782,535,000.00	\$123,590,000.00	\$18,540,000.00	\$924,665,000.00
<i>Plus:</i> Original Issue Premium.....	73,977,431.45	14,036,290.15	–	88,013,721.60
Other Funds of the Airport ⁽¹⁾	3,135,625.00	810,750.00	291.67	3,946,666.67
TOTAL	\$859,648,056.45	\$138,437,040.15	\$18,540,291.67	\$1,016,625,388.27
USES OF FUNDS:				
Issuance Date Commercial Paper				
Repayment, and Deposits to Escrow				
Account for Refunded Bonds and				
Defeased Commercial Paper Notes.....				
	\$776,465,247.47	\$132,612,637.24	\$18,485,121.40	\$927,563,006.11
Deposits to Construction Accounts.....	14,893,073.42	365,000.00	–	15,258,073.42
Capitalized Interest ⁽²⁾	36,302,142.70	1,304,009.72	–	37,606,152.42
Deposits to Original Reserve Account.....	29,740,618.06	3,800,000.00	–	33,540,618.06
Underwriters' Discount.....	1,291,783.41	204,018.37	30,605.20	1,526,406.98
Costs of Issuance ⁽³⁾	955,191.39	151,374.82	24,565.07	1,131,131.28
TOTAL	\$859,648,056.45	\$138,437,040.15	\$18,540,291.67	\$1,016,625,388.27

⁽¹⁾ Includes funds from various funds and accounts related to the Refunded Bonds under the 1991 Master Resolution, including amounts from the interest accounts established with respect to the Refunded Bonds.

⁽²⁾ Represents capitalized interest on a portion of the Series 2024A Bonds and Series 2024B Bonds.

⁽³⁾ Includes fees and expenses of Co-Bond Counsel, Special Tax Counsel, Disclosure Counsel, the Co-Municipal Advisors, the Verification Agent, the Trustee, the Escrow Agent and the Airport Consultant, printing costs, rating agency fees, and other miscellaneous costs associated with the issuance of the Series 2024A-C Bonds.

DESCRIPTION OF THE SERIES 2024A-C BONDS

General

The Series 2024A-C Bonds will be dated their date of issuance. The Series 2024A-C Bonds will bear interest at the rates and mature in the amounts and on the dates shown on the pages immediately following the front cover of this Official Statement. Interest on the Series 2024A-C Bonds will be payable on May 1 and November 1 of each year, commencing November 1, 2024 (each an “Interest Payment Date”). Interest will be calculated on the basis of a 360-day year comprised of twelve 30-day months.

The Series 2024A-C Bonds will be issued as fully registered securities, without coupons, and will be registered in the name of Cede & Co., as registered owner and nominee of The Depository Trust Company (“DTC”). Beneficial ownership interests in the Series 2024A-C Bonds will be available in book-entry form only, in Authorized Denominations of \$5,000 and any integral multiple thereof.

Purchasers of beneficial ownership interests in the Series 2024A-C Bonds (“Beneficial Owners”) will not receive certificates representing their interests in the Series 2024A-C Bonds purchased. While held in book-entry form, all payments of principal of and interest on the Series 2024A-C Bonds will be made by wire transfer only to DTC or its nominee as the sole registered owner of the Series 2024A-C Bonds. Payments to Beneficial Owners of the Series 2024A-C Bonds are the sole responsibility of DTC and its Participants. See APPENDIX C–“INFORMATION REGARDING DTC AND THE BOOK-ENTRY ONLY SYSTEM.”

Redemption Provisions

Optional Redemption of the Series 2024A Bonds and Series 2024B Bonds (Par Call)

The Series 2024A Bonds maturing before May 1, 2035 are not subject to optional redemption. The Series 2024A Bonds maturing on or after May 1, 2035 are subject to redemption prior to their respective stated maturity dates, at the option of the Commission, from any source of available funds (other than mandatory sinking fund payments), as a whole or in part, in Authorized Denominations, on any date on or after May 1, 2034, at a redemption price equal to 100% of the principal amount of the Series 2024A Bonds called for redemption, together with accrued interest to the date fixed for redemption, without premium.

The Series 2024B Bonds are subject to redemption prior to their respective stated maturity dates, at the option of the Commission, from any source of available funds (other than mandatory sinking fund payments), as a whole or in part, in Authorized Denominations, on any date on or after May 1, 2034, at a redemption price equal to 100% of the principal amount of the Series 2024B Bonds called for redemption, together with accrued interest to the date fixed for redemption, without premium.

Any notice of optional redemption for the Series 2024A Bonds or the Series 2024B Bonds may be conditional and may be cancelled and annulled by the Commission for any reason on or prior to the date fixed for redemption. Such cancellation would not constitute an Event of Default under the 1991 Master Resolution.

Optional Redemption of the Series 2024C Bonds (Make-Whole Redemption)

The Series 2024C Bonds are subject to redemption prior to their stated maturity date, at the option of the Commission, from any source of available funds, as a whole or in part, in Authorized Denominations, on any date at a redemption price equal to 100% of the principal amount of the Series 2024C Bonds called for redemption, plus the Make-Whole Premium (as defined below), if any, together with accrued interest to the date fixed for redemption. Any notice of optional redemption for the Series 2024C Bonds may be conditional and may be cancelled and annulled by the Commission for any reason on or prior to the date fixed for redemption. Such cancellation does not constitute an Event of Default under the 1991 Master Resolution.

For purposes of the foregoing paragraph, the following terms are defined as follows:

“Make-Whole Premium” means, with respect to any Series 2024C Bond to be redeemed, an amount calculated by an Independent Banking Institution (as defined below) equal to the positive difference, if any, between:

- (1) The sum of the present values, calculated as of the date fixed for redemption of:
 - (a) Each interest payment that, but for the redemption, would have been payable on the Series 2024C Bond or portion thereof being redeemed on each regularly scheduled Interest Payment Date occurring after the date fixed for redemption through the maturity date of such Series 2024C Bond (excluding any accrued interest for the period prior to the date fixed for redemption); plus
 - (b) The principal amount that, but for such redemption, would have been payable on the maturity date of the Series 2024C Bond or portion thereof being redeemed; minus
- (2) The principal amount of the Series 2024C Bond or portion thereof being redeemed.

The present values of the interest and principal payments referred to in (1) above will be determined by discounting the amount of each such interest and principal payment from the date that each such payment would have been payable but for the redemption to the date fixed for redemption on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at a discount rate equal to the Comparable Treasury Yield plus seven and one half (7.5) basis points.

“Comparable Treasury Yield” means the yield which represents the weekly average yield to maturity for the preceding week appearing in the most recently published statistical release designated “H.15(519) Selected Interest Rates” under the heading “Treasury Constant Maturities,” or any successor publication selected by the Independent Banking Institution that is published weekly by the Board of Governors of the Federal Reserve System and that establishes yields on actively traded United States Treasury securities adjusted to constant maturity, for the maturity corresponding to the remaining term to maturity of the Series 2024C Bonds being redeemed. The Comparable Treasury Yield will be determined as of the 10th Business Day immediately preceding the applicable date fixed for redemption. If the H.15(519) statistical release sets forth a weekly average yield for United States Treasury securities that have a constant maturity that is the same as the remaining term to maturity of the Series 2024C Bonds being redeemed, then the Comparable Treasury Yield will be equal to such weekly average yield. In all other cases, the Comparable Treasury Yield will be calculated by interpolation on a straight-line basis, between the weekly average yields on the United States Treasury securities that have a constant maturity (a) closest to and greater than the remaining term to maturity of the Series 2024C Bonds being redeemed; and (b) closest to and less than the remaining term to maturity of the Series 2024C Bonds being redeemed. Any weekly average yields calculated by interpolation will be rounded to the nearest 1/100th of 1%, with any figure of 1/200th of 1% or above being rounded upward.

If, and only if, weekly average yields for United States Treasury securities for the preceding week are not available in the H.15(519) statistical release or any successor publication, then the Comparable Treasury Yield will be the rate of interest per annum equal to the semiannual equivalent yield to maturity of the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price (each as defined herein) as of the date fixed for redemption.

“Comparable Treasury Issue” means the United States Treasury security selected by the Independent Banking Institution as having a maturity comparable to the remaining term to maturity of the Series 2024C Bonds being redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term to maturity of the Series 2024C Bonds being redeemed.

“Independent Banking Institution” means an investment banking institution of national standing which is a primary United States government securities dealer in the City of New York designated by the Commission (which may be one of the Underwriters). If the Commission fails to appoint an Independent Banking Institution at least 30 days prior to the date fixed for redemption, or if the Independent Banking Institution appointed by the Commission is unwilling or unable to determine the Comparable Treasury Yield, the Comparable Treasury Yield will be determined by an Independent Banking Institution designated by the Trustee in consultation with the Commission.

“Comparable Treasury Price” means, with respect to any date on which a Series 2024C Bond or portion thereof is being redeemed, either (a) the average of five Reference Treasury Dealer quotations for the date fixed for redemption, after excluding the highest and lowest such quotations, and (b) if the Independent Banking Institution is unable to obtain five such quotations, the average of the quotations that are obtained. The quotations will be the average, as determined by the Independent Banking Institution, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of principal amount) quoted in writing to the Independent Banking Institution, at 5:00 p.m. New York City time on the 10th Business Day preceding the date fixed for redemption.

“Reference Treasury Dealer” means a primary United States Government securities dealer in the United States appointed by the Commission and reasonably acceptable to the Independent Banking Institution (which may be one of the Underwriters). If the Commission fails to select the Reference Treasury Dealers within a reasonable period of time, the Trustee will select the Reference Treasury Dealers in consultation with the Commission.

Mandatory Sinking Fund Redemption

The Series 2024A Bonds maturing on May 1, 2049 are subject to mandatory sinking fund redemption prior to their stated maturity date, in part, by lot, from mandatory sinking fund payments, at a redemption price equal to 100% of the principal amount thereof plus accrued interest thereon to the date of redemption, without premium, on the dates and in the amounts, as set forth below:

Series 2024A Mandatory Sinking Fund Redemption

Mandatory Sinking Fund Redemption Date (May 1)	Mandatory Sinking Fund Payment
2045	\$14,375,000
2046	15,260,000
2047	16,200,000
2048	17,190,000
2049 [†]	37,200,000

[†] Maturity.

Selection of Series 2024A-C Bonds for Redemption

Series 2024A Bonds and Series 2024B Bonds. The Commission shall select the maturities of the Series 2024A Bonds and the Series 2024B Bonds to be optionally redeemed. If the Series 2024A Bonds to be optionally redeemed are Term Bonds, the Commission shall designate to the Trustee the mandatory sinking fund payment or payments to which the principal amount of such Series 2024A Bonds of the maturity optionally redeemed shall be credited.

Except as otherwise described in APPENDIX C—"INFORMATION REGARDING DTC AND THE BOOK-ENTRY ONLY SYSTEM," if less than all of a maturity of the Series 2024A Bonds and the Series 2024B Bonds is to be redeemed, the Series 2024A Bonds or the Series 2024B Bonds, as applicable, to be redeemed shall be selected by lot in such manner as the Trustee shall determine.

Series 2024C Bonds. The Commission shall select the maturities of the Series 2024C Bonds to be optionally redeemed.

If less than all of the Series 2024C Bonds of a maturity are redeemed prior to their respective stated maturity dates, the particular Series 2024C Bonds to be redeemed will be selected on a pro-rata pass-through distribution of principal basis in accordance with the rules and procedures of DTC. It is the Commission's intent that redemption allocations made by DTC, the DTC participants or such other intermediaries that may exist between the Commission and the beneficial owners of the Series 2024C Bonds shall be made on a pro-rata pass-through distribution of principal basis. However, so long as the Series 2024C Bonds are in book-entry only form, the selection for redemption of such Series 2024C Bonds shall be made in accordance with the operational arrangements of DTC then in effect. Neither the Commission nor the Trustee shall provide any assurance or shall have any responsibility or obligation to ensure that DTC, the DTC participants or any other intermediaries allocate redemptions of the Series 2024C Bonds among beneficial owners on a pro-rata pass-through distribution of principal basis. If the DTC operational arrangements do not allow for the redemption of the Series 2024C Bonds on a pro-rata pass-through distribution of principal basis, the Series 2024C Bonds shall be selected for redemption, in accordance with DTC procedures, by lot. See APPENDIX C—"INFORMATION REGARDING DTC AND THE BOOK-ENTRY ONLY SYSTEM." The portion of any Series 2024C Bond of a denomination of more than \$5,000 to be redeemed will be in the principal amount of \$5,000 or any integral multiple thereof.

Notice of Redemption

The Trustee is required to give notice of redemption of the Series 2024A-C Bonds by first-class mail or electronic means, at least 30 days but not more than 60 days prior to the redemption date, to the registered owners of

the Series 2024A-C Bonds to be redeemed, all organizations registered with the U.S. Securities and Exchange Commission (the “SEC”) as securities depositories, and at least two information services of national recognition which disseminate redemption information with respect to municipal securities.

So long as the Series 2024A-C Bonds are in book-entry only form through the facilities of DTC, any notice of redemption will be provided to Cede & Co., as the registered owner of the applicable Series 2024A-C Bonds, and not directly to the Beneficial Owners. See APPENDIX C–“INFORMATION REGARDING DTC AND THE BOOK-ENTRY ONLY SYSTEM.”

Any notice of optional redemption may be conditional and may be cancelled and annulled by the Commission for any reason on or prior to the date fixed for redemption. Such cancellation would not constitute an Event of Default under the 1991 Master Resolution.

Transfer and Exchange

The Series 2024A-C Bonds will be issued only as fully registered securities, with the privilege of transfer or exchange in Authorized Denominations for Series 2024A-C Bonds of an equal aggregate principal amount, of the same series, bearing the same interest rate and having the same maturity date, as set forth in the 1991 Master Resolution. All such transfers and exchanges shall be without charge to the owner, with the exception of any taxes, fees or other governmental charges that are required to be paid to the Trustee as a condition to transfer or exchange. While the Series 2024A-C Bonds are in book-entry only form, beneficial ownership interests in the Series 2024A-C Bonds may only be transferred through Direct Participants and Indirect Participants as described in APPENDIX C–“INFORMATION REGARDING DTC AND THE BOOK-ENTRY ONLY SYSTEM.”

Defeasance

Upon deposit by the Commission with the Trustee, at or before maturity, of money or noncallable Government Obligations, Government Certificates or certain pre-funded municipal obligations described in the definition of Permitted Investments which, together with the earnings thereon, are verified to be sufficient to pay the principal amount or redemption price of any particular Series 2024A-C Bonds, or portions thereof, becoming due, together with all interest accruing thereon to the due date or redemption date, and if the Commission provides for any required notice of redemption prior to maturity, such Series 2024A-C Bonds (or portions thereof) will be deemed not to be Outstanding under the 1991 Master Resolution. This is referred to in this Official Statement as a “Defeasance.” Upon a Defeasance of Series 2024A-C Bonds (or portions thereof), the Owner or Owners of such Series 2024A-C Bonds (or portions thereof) will be restricted exclusively to the money or securities so deposited with the Trustee, together with any earnings thereon, for payment of such Series 2024A-C Bonds. See APPENDIX D–“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION–Defeasance.” See also “CERTAIN RISK FACTORS–Income Taxation Risk Upon Defeasance of the Series 2024C Bonds.”

SECURITY FOR THE SERIES 2024A-C BONDS

Authority for Issuance

The Series 2024A-C Bonds will be issued under the authority of, and in compliance with, the Charter of the City and County of San Francisco (the “Charter”), the 1991 Master Resolution, and the statutes of the State as made applicable to the City pursuant to the Charter.

Pledge of Net Revenues; Source of Payment

Pledge of Net Revenues

The Series 2024A-C Bonds, together with all Bonds issued and to be issued pursuant to the 1991 Master Resolution, are referred to herein as the “Bonds.” The 1991 Master Resolution constitutes a contract between the Commission and the registered owners of the Bonds under which the Commission has irrevocably pledged the Net Revenues of the Airport to the payment of the principal of and interest and premium, if any, on the Bonds. The payment of the principal of and interest on the Series 2024A-C Bonds will be secured by a pledge of, lien on and security

interest in the Net Revenues on a parity with the pledge, lien and security interest securing all previously issued and Outstanding Bonds and any additional Bonds issued in the future under the 1991 Master Resolution. The Bonds have a lien on Net Revenues senior to any other outstanding debt, and the Commission has covenanted in the 1991 Master Resolution that it will not create any pledge of, lien on, or security interest in or encumbrance on Revenues or Net Revenues except for a pledge, lien, security interest or encumbrance subordinate to the pledge, lien and security interest granted in the 1991 Master Resolution for the benefit of the Bonds.

Net Revenues are defined in the 1991 Master Resolution as “Revenues” less “Operation and Maintenance Expenses.” “Revenues,” in turn, are defined in the 1991 Master Resolution to include all revenues earned by the Commission with respect to the Airport, as determined in accordance with generally accepted accounting principles (“GAAP”). “Revenues” does not include: (a) interest and investment income from moneys in (i) the Construction Fund, (ii) the Debt Service Fund which constitute capitalized interest, or (iii) the Reserve Fund if and to the extent there is any deficiency therein; (b) interest income on, and any profit realized from, the investment of the proceeds of any Special Facility Bonds; (c) Special Facility Revenues and any income realized from the investment thereof unless designated as Revenues by the Commission; (d) any passenger facility or similar charge levied by or on behalf of the Commission unless designated as Revenues by the Commission; (e) grants-in-aid, donations and bequests; (f) insurance proceeds not deemed to be Revenues in accordance with GAAP; (g) the proceeds of any condemnation award; (h) the proceeds of any sale of land, buildings or equipment; (i) any money received by or for the account of the Commission from the levy or collection of taxes upon any property of the City; (j) any Customer Facility Charge or similar charge levied by or on behalf of the Commission against customers, except to the extent all or a portion thereof is designated as Revenues by the Commission; and (k) any Federal Subsidy Payments, except to the extent all or a portion thereof is designated as Revenues by the Commission.

“Operation and Maintenance Expenses” are defined in the 1991 Master Resolution to include all expenses of the Commission incurred for the operation and maintenance of the Airport, as determined in accordance with GAAP. Operation and Maintenance Expenses do not include: (a) the principal of, premium, if any, or interest on the Bonds or Subordinate Bonds (including Commercial Paper Notes); (b) any allowance for amortization, depreciation or obsolescence of the Airport; (c) any expense for which, or to the extent to which, the Commission will be paid or reimbursed from or through any source that is not included or includable as Revenues; (d) any extraordinary items arising from the early extinguishment of debt; (e) Annual Service Payments; (f) any costs, or charges made therefor, for capital additions, replacements or improvements to the Airport which, under GAAP, are properly chargeable to a capital account or reserve for depreciation; and (g) any losses from the sale, abandonment, reclassification, revaluation or other disposition of any Airport properties. Operating and Maintenance Expenses include the payment of pension charges and proportionate payments to such compensation and other insurance or outside reserve funds as the Commission may establish or the Board of Supervisors of the City (the “Board of Supervisors”) may require with respect to Commission employees.

Pursuant to Section 5450 *et seq.* of the California Government Code, the pledge of, lien on and security interest in Net Revenues and certain other funds granted by the 1991 Master Resolution are valid and binding in accordance with the terms thereof from the time of issuance of the Series 2024A-C Bonds; the Net Revenues and such other funds are immediately subject to such pledge; and such pledge constitutes a lien and security interest which immediately attaches to such Net Revenues and other funds and is effective, binding and enforceable against the Commission, its successors, creditors, and all others asserting rights therein to the extent set forth in, and in accordance with the terms of, the 1991 Master Resolution, irrespective of whether those parties have notice of such pledge and without the need for any physical delivery, recordation, filing or other further act. Such pledge, lien and security interest are not subject to the provisions of Article 9 of the California Uniform Commercial Code. Also see “CERTAIN RISK FACTORS–Potential Effect of a City Bankruptcy.”

For a description of the Airport’s revenues and expenses, see “AIRPORT’S FINANCIAL AND RELATED INFORMATION.”

Certain Adjustments to “Revenues” and “Operation and Maintenance Expenses”

PFCs as Revenues. The term “Revenues” as defined in the 1991 Master Resolution does not include any passenger facility charge (“PFC”) or similar charge levied by or on behalf of the Commission against passengers,

unless all or a portion thereof are designated as such by the Commission by resolution. See “AIRPORT’S FINANCIAL AND RELATED INFORMATION–Passenger Facility Charge.”

The amounts of PFCs designated as “Revenues” under the 1991 Master Resolution and applied to pay debt service on the Bonds since Fiscal Year 2013-14 are described under “AIRPORT’S FINANCIAL AND RELATED INFORMATION– Passenger Facility Charge–*Designation of PFC Collections as Revenues.*” The Commission expects to continue to designate a substantial portion of PFCs as Revenues in each Fiscal Year during which such PFCs are authorized to be applied to pay debt service on the Bonds. In the absence of such PFCs or such designation, the Airport would have to increase its rates and fees, including landing fees and terminal rental rates, and/or reduce operating expenses in the aggregate by a corresponding amount. See “AIRPORT’S FINANCIAL AND RELATED INFORMATION–Passenger Facility Charge.”

Offsets Against Operating Expenses. The term “Operation and Maintenance Expenses” is defined in the 1991 Master Resolution to exclude, among other things, any expense for which, or to the extent to which, the Commission is or will be paid or reimbursed from or through any source that is not included or includable as Revenues. For example, if the Commission pays operating expenses from proceeds of borrowed money or from grant moneys rather than from current revenues, it can reduce “Operation and Maintenance Expenses” and thereby increase “Net Revenues” for purposes of satisfaction of the rate covenant and additional Bonds tests under the 1991 Master Resolution. Historically, the Commission has done this only in extraordinary circumstances. The Commission applied federal funds received under certain legislatively approved stimulus programs to offset Operation and Maintenance Expenses in Fiscal Years 2019-20, 2020-21, 2021-22 and 2022-23. See “AIRPORT’S FINANCIAL AND RELATED INFORMATION–Operating Expenses.”

Unearned Aviation Revenues/Aviation Revenues Due. Because Revenues are determined on an accrual basis in accordance with GAAP, actual year-to-year cash receipts from terminal rentals and landing fees may differ materially from the amounts reported as “Revenues.” Terminal rental rates and landing fees are established in advance for the upcoming Fiscal Year based on estimated revenues and expenses. Actual receipts in any given Fiscal Year are either more or less than estimated revenues, as are actual costs relative to estimated costs. Due to the residual nature of the Lease and Use Agreements, to the extent there is an over-collection in any year (that is, receipts from the airlines exceed net costs), that excess is not included in “Revenues.” This is due to the fact that those revenues have not yet been earned, and these amounts are referred to as “unearned aviation revenues.” The Commission is obligated to use unearned aviation revenues to reduce future rates and charges under the Lease and Use Agreements (“rates and charges,” see “Rates and Charges” in APPENDIX E –“SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS” for additional detail), except such amounts of unearned aviation revenue that are applied towards the Operating Revenue and Capital Improvement Fund (the “ORCIF”) as provided in the Lease and Use Agreements. See “SAN FRANCISCO INTERNATIONAL AIRPORT–Airline Agreements” and APPENDIX E–“SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS.” However, the cash-on-hand resulting from any such over-collection is available to the Airport in the interim to pay operating expenses, debt service on Bonds or other amounts in the event that Revenues are unexpectedly low or expenses are unexpectedly high in the course of a given Fiscal Year.

Conversely, if there is an under-collection in any year, that shortfall will nonetheless be recognized as “Revenues,” as the Airport’s right to receive them has been earned (or “accrued”). The airlines are obligated under the Lease and Use Agreements to pay such deficiency through future terminal rentals and landing fees. An under-collection signifies a corresponding reduction in liquidity available to the Airport for operating and other expenses. The Commission may also increase terminal rental rates and/or landing fees at any time during a Fiscal Year if the actual expenses (including debt service) in one or more applicable cost centers are projected to exceed by 10% or more the actual revenues from such cost center. See “SAN FRANCISCO INTERNATIONAL AIRPORT–Airline Agreements.”

The Commission had unearned aviation revenues for more than ten years through Fiscal Year 2016-17 and for subsequent Fiscal Years through Fiscal Year 2022-23, other than Fiscal Years 2017-18 (primarily as a result of the effect of the adoption of Governmental Accounting Standards Board Statement No. 75, Accounting and Financial Reporting for Post-employment Benefits Other than Pensions (“GASB 75”) on the Airport’s beginning net position for Fiscal Year) and Fiscal Year 2019-20 (as a result of the COVID-19 pandemic). Unearned aviation revenues were \$461.7 million as of June 30, 2023.

Special, Limited Obligations

The Series 2024A-C Bonds are special, limited obligations of the Commission, payable as to principal and interest solely out of, and secured by a pledge of and lien on, the Net Revenues of the Airport and certain funds and accounts provided for in the 1991 Master Resolution. Neither the credit nor taxing power of the City is pledged to the payment of the principal of or interest on the Series 2024A-C Bonds. No holder of a Series 2024A-C Bond shall have the right to compel the exercise of the taxing power of the City to pay the principal of the Series 2024A-C Bonds or the interest thereon. The Commission has no taxing power whatsoever.

Rate Covenant

The Commission has covenanted in the 1991 Master Resolution that it will establish and at all times maintain rates, rentals, charges and fees for the use of the Airport and for services rendered by the Commission so that:

(a) Net Revenues in each Fiscal Year will be at least sufficient (i) to make all required debt service payments and deposits in such Fiscal Year with respect to the Bonds, any Subordinate Bonds and any general obligation bonds issued by the City for the benefit of the Airport (there have been no such general obligation bonds outstanding for more than 30 years), and (ii) to make the Annual Service Payment to the City as described under “AIRPORT’S FINANCIAL AND RELATED INFORMATION–Payments to the City–*Annual Service Payment*”; and

(b) Net Revenues, together with any Transfer from the Contingency Account to the Revenues Account, in each Fiscal Year will be at least equal to 125% of aggregate Annual Debt Service with respect to the Bonds for such Fiscal Year. See “–Contingency Account.” For purposes of the 1991 Master Resolution as described in this clause (b), “Annual Debt Service” may, at the Commission’s option, be calculated based on required deposits to pay Annual Debt Service.

In the event that Net Revenues for any Fiscal Year are less than the amount determined as described in clause (b) above, but the Commission has promptly taken all lawful measures to revise its schedule of rentals, rates, fees and charges as necessary to increase Net Revenues, together with any Transfer, to the amount specified, such deficiency will not constitute an Event of Default under the 1991 Master Resolution. Nevertheless, if, after taking such measures, Net Revenues in the next succeeding Fiscal Year are less than the amount determined as described in clause (b) above, such deficiency in Net Revenues will constitute an Event of Default under the 1991 Master Resolution. See APPENDIX D–“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION–Certain Covenants–*Rate Covenant*.”

Contingency Account

The 1991 Master Resolution created a Contingency Account within the Airport Revenue Fund held by the Treasurer of the City (the “Treasurer”). Moneys in the Contingency Account may be applied upon the direction of the Commission to the payment of principal of, interest on, purchase price of or premium on the Bonds, payment of Operation and Maintenance Expenses, and payment of costs related to any additions, improvements, repairs, renewals or replacements to the Airport, in each case only if and to the extent that moneys otherwise available to make such payments are insufficient therefor. The Commission is not obligated to maintain a particular balance in the Contingency Account or to replenish the Contingency Account in the event any amounts are withdrawn therefrom.

As of June 30, 2023, the Contingency Account contained approximately \$165.3 million.

The Commission has never drawn on the Contingency Account to stabilize its finances, but it has used the balance in the Contingency Account to satisfy the coverage requirements of the rate covenant described under “–Rate Covenant.”

If the Commission withdraws funds from the Contingency Account for any purpose during any Fiscal Year and does not replenish the amounts withdrawn, such reduction in the amount on deposit in the Contingency Account may have an adverse effect on debt service coverage with respect to the Bonds for such Fiscal Year and subsequent

Fiscal Years. The Commission is not obligated to replenish the Contingency Account in the event amounts are withdrawn therefrom.

Flow of Funds

The application of Revenues is governed by relevant provisions of the Charter and the 1991 Master Resolution. Under the Charter, the gross revenue of the Commission is to be deposited in a special fund in the City Treasury designated as the "Airport Revenue Fund." These moneys are required to be held separate and apart from all other funds of the City and are required to be applied as follows:

First, to pay Airport operation and maintenance expenses;

Second, to make required payments of pension charges and to compensation, insurance and outside reserve funds therefor;

Third, to pay the principal of, interest on, and other required payments to secure revenue bonds (including the Series 2024A-C Bonds);

Fourth, to pay principal of and interest on general obligation bonds of the City issued for Airport purposes (there are no general obligation bonds outstanding for Airport purposes, nor have there been for more than 30 years);

Fifth, to pay for necessary reconstruction and replacement of Airport facilities;

Sixth, to acquire real property for, and to pay for the construction or improvement of, Airport facilities;

Seventh, to repay to the City's General Fund any sums paid from tax moneys for principal of and interest on any general obligation bonds previously issued by the City for Airport purposes; and

Eighth, for any other lawful purpose of the Commission, including without limitation transfer to the City's General Fund on an annual basis of up to 25% of the non-airline revenues as a return upon the City's investment in the Airport. However, the Lease and Use Agreements further limit payments from the Airport Revenue Fund into the General Fund of the City to the greater of (i) 15% of "Concessions Revenues" (as defined in the Lease and Use Agreements) and (ii) \$5 million per year. The Annual Service Payment to the City includes the total transfer to the City's General Fund contemplated by the applicable Charter provision. See "AIRPORT'S FINANCIAL AND RELATED INFORMATION—Payments to the City."

The 1991 Master Resolution establishes the following accounts within the Airport Revenue Fund: the Revenues Account, the Operation and Maintenance Account, the Revenue Bond Account, the General Obligation Bond Account, the General Purpose Account, and the Contingency Account. Under the 1991 Master Resolution, all Revenues are required to be set aside and deposited by the Treasurer in the Revenues Account as received. Each month, moneys in the Revenues Account are set aside and applied as follows:

First, to the Operation and Maintenance Account, the amount required to pay Airport Operation and Maintenance Expenses;

Second, to the Revenue Bond Account, the amount required to make all payments and deposits required in that month for the Bonds and any Subordinate Bonds, including amounts necessary to make any parity Swap Payments to a Swap Counterparty (the Commission is not currently party to any Swap Agreements);

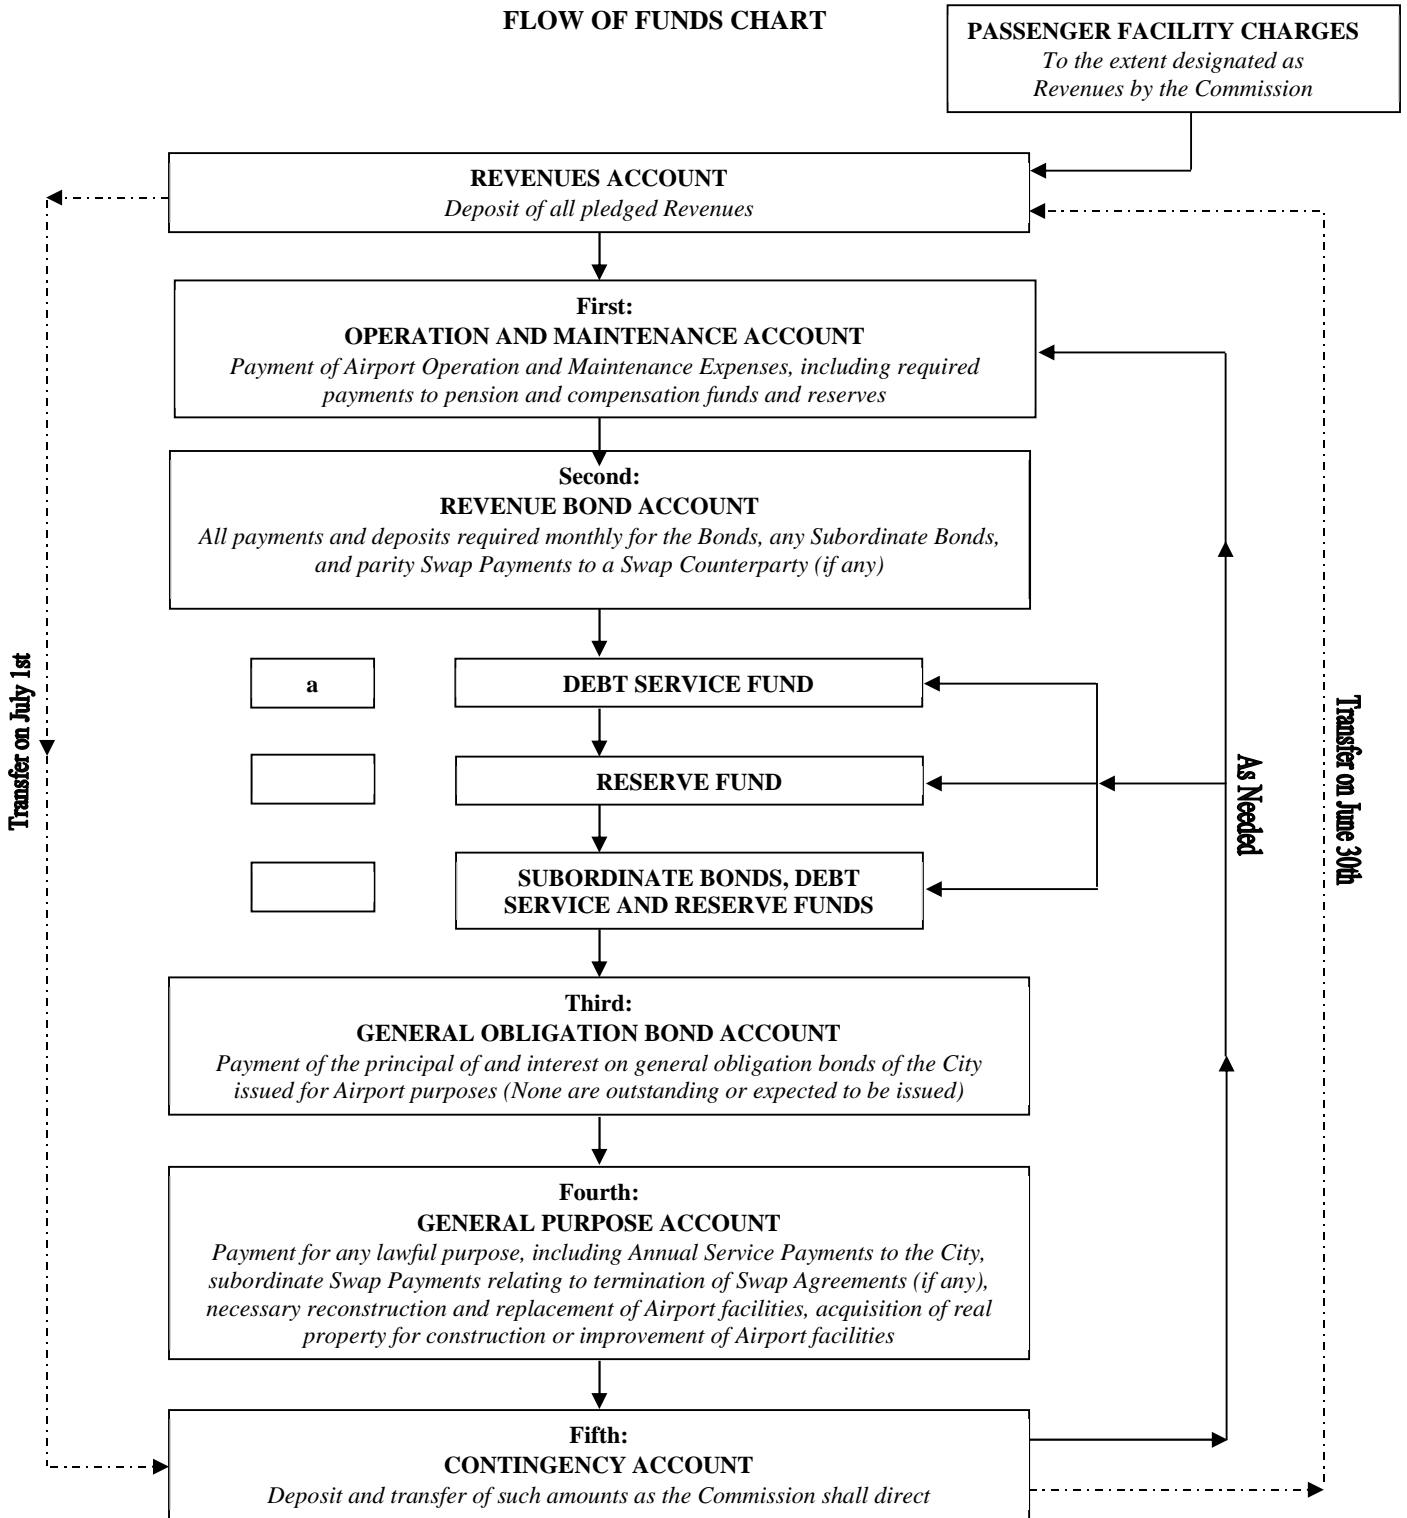

Third, to the General Obligation Bond Account, the amount required to pay the principal of and interest on general obligation bonds of the City issued for Airport purposes (there are no general obligation bonds outstanding for Airport purposes, nor have there been for more than 30 years);

Fourth, to the General Purpose Account, the amount estimated to be needed to pay for any lawful purpose, including any subordinate Swap Payment payable in connection with the termination of a Swap Agreement (the Commission is not currently party to any Swap Agreements); and

Fifth, to the Contingency Account, such amount, if any, as the Commission shall direct.

Flow of Funds Chart

The Flow of Funds Chart below sets forth a simplified graphic presentation of the allocation of amounts on deposit in the Airport Revenue Fund each month as provided in both the Charter and the 1991 Master Resolution. The Commission is providing such chart solely for the convenience of the reader, and the Commission qualifies it in its entirety by reference to the statements under the caption “–Flow of Funds.”

For a detailed description of the transfers and deposits of Revenues, see APPENDIX D–“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION–Revenue Fund; Allocation of Net Revenues.”

Additional Bonds

General Requirements

Additional Bonds that have a parity lien on Net Revenues equivalent with the Series 2024A-C Bonds and all previously issued Bonds may be issued by the Commission pursuant to the 1991 Master Resolution. The Commission has retained substantial flexibility as to the terms of any such additional Bonds. Such additional Bonds (which may include, without limitation, bonds, notes, bond anticipation notes, commercial paper, lease or installment purchase agreements or certificates of participation therein and Repayment Obligations to Credit Providers or Liquidity Providers) may mature on any date or dates over any period of time; bear interest at a fixed or variable rate; be payable in any currency or currencies; be in any denominations; be subject to additional events of default; have any interest and principal payment dates; be in any form (including registered, book-entry or coupon); include or exclude redemption provisions; be sold at a certain price or prices; be further secured by any separate and additional security; be subject to optional tender for purchase; and otherwise include such additional terms and provisions as the Commission may determine, subject to the then-applicable requirements and limitations imposed by the Charter.

Under the Charter, the issuance of Bonds authorized by the Commission must be approved by the Board of Supervisors.

The Commission may not issue any additional Bonds under the 1991 Master Resolution unless the Trustee has been provided with either:

(a) a certificate of an Airport Consultant (as defined in APPENDIX D) stating that:

(i) for the period, if any, from and including the first full Fiscal Year following the issuance of such additional Bonds through and including the last Fiscal Year during any part of which interest on such Bonds is expected to be paid from the proceeds thereof, projected Net Revenues, together with any Transfer from the Contingency Account, in each such Fiscal Year will be at least equal to 1.25 times Annual Debt Service; and

(ii) for the period from and including the first full Fiscal Year following the issuance of such Bonds during which no interest on such Bonds is expected to be paid from the proceeds thereof through and including the later of: (A) the fifth full Fiscal Year following the issuance of such Bonds, or (B) the third full Fiscal Year during which no interest on such Bonds is expected to be paid from the proceeds thereof, projected Net Revenues together with any Transfer from the Contingency Account, if applicable, in each such Fiscal Year will be at least sufficient to satisfy the rate covenants in the 1991 Master Resolution (see “–Rate Covenant”); or

(b) a certificate of an Independent Auditor stating that Net Revenues, together with any Transfer from the Contingency Account, in the most recently completed Fiscal Year were at least equal to 125% of the sum of (i) Annual Debt Service on the Bonds in such Fiscal Year, plus (ii) Maximum Annual Debt Service on the Bonds proposed to be issued.

Any Transfer from the Contingency Account taken into account for purposes of clause (a) or (b) above shall not exceed 25% of Maximum Annual Debt Service in such Fiscal Year. Also, for purposes of the tests described above, “Annual Debt Service” and “Maximum Annual Debt Service” may, at the Commission’s option, be calculated based on required deposits to pay Annual Debt Service. See APPENDIX D–“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION–Issuance of Additional Series of Bonds.”

The Commission anticipates that the certificate described in (a) above will be delivered by LeighFisher (the “Airport Consultant”), an Airport Consultant as defined in APPENDIX D in connection with the issuance of the Series 2024A-C Bonds.

Proceeds of additional Bonds are expected to be a significant source of funding for the CIP and other future capital projects. See “CERTAIN RISK FACTORS—Risks Related to the Commission’s Capital Projects” and “CAPITAL PROJECTS AND PLANNING—The Capital Improvement Plan.” Also see “AIRPORT CAPITAL IMPROVEMENT PLAN AND FUNDING—Summary of Capital Improvement Plan Funding” and “FINANCIAL FRAMEWORK AND ANALYSIS—Framework for Financial Operations—The Bond Resolution—*Proposed and Future Bonds*” in APPENDIX A—“REPORT OF THE AIRPORT CONSULTANT.”

The Commission may issue Bonds for the purpose of refunding any Bonds or Subordinate Bonds upon compliance with the requirements summarized above or upon delivery to the Trustee of evidence that aggregate Annual Debt Service in each Fiscal Year with respect to all Bonds to be Outstanding after the issuance of the refunding Bonds will be less than aggregate Annual Debt Service in each such Fiscal Year in which Bonds are Outstanding prior to the issuance of such refunding Bonds, and that Maximum Annual Debt Service with respect to all Bonds to be Outstanding after the issuance of the refunding Bonds will not exceed Maximum Annual Debt Service with respect to all Bonds Outstanding immediately prior to such issuance. For the purposes of this test, “Annual Debt Service” and “Maximum Annual Debt Service” may, at the Commission’s option, be calculated based on required deposits to pay Annual Debt Service. See APPENDIX D—“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION—Refunding Bonds.”

Repayment Obligations

Under certain circumstances, Repayment Obligations may be accorded the status of Bonds. Repayment Obligations are defined under the 1991 Master Resolution to mean an obligation under a written agreement between the Commission and a Credit Provider or Liquidity Provider to reimburse the Credit Provider or Liquidity Provider for amounts paid under or pursuant to a “Credit Facility” (which is defined in the 1991 Master Resolution to include letters of credit, lines of credit, standby bond purchase agreements, municipal bond insurance policies, surety bonds or other financial instruments) or a “Liquidity Facility” (which is defined in the 1991 Master Resolution to include lines of credit, standby bond purchase agreements or other financial instruments that obligate a third party to pay or provide funds for the payment of the purchase price of any variable rate Bonds) for the payment of the principal or purchase price of and/or interest on any Bonds. See “AIRPORT’S FINANCIAL AND RELATED INFORMATION—Credit Facilities.” See APPENDIX D—“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION—Repayment Obligations.”

Reserve Fund and Reserve Accounts

The 1991 Master Resolution established the pooled “Issue 1 Reserve Account” (the “Original Reserve Account”) in the Reserve Fund as security for each series of Bonds (each, an “Original Reserve Series”) that is designated as being secured by the Original Reserve Account. All of the series of Bonds currently Outstanding under the 1991 Master Resolution have been designated as Original Reserve Series except for the Series 2017D, 2018B, 2018C, 2019B and 2019D Bonds. **The Series 2024A-C Bonds will be designated as Original Reserve Series and will be secured by the Original Reserve Account.**

The 1991 Master Resolution also established the pooled “2017 Reserve Account” (the “2017 Reserve Account”) in the Reserve Fund as security for each series of Bonds (the “2017 Reserve Account Series Bonds”) that is designated as being secured by the 2017 Reserve Account. The Series 2017D Bonds, Series 2019B Bonds and Series 2019D Bonds are designated as 2017 Reserve Account Series Bonds.

As permitted under the 1991 Master Resolution, the Commission does not maintain a reserve account for the Outstanding Series 2018B or 2018C Bonds, which are secured by direct-pay letters of credit. See “AIRPORT’S FINANCIAL AND RELATED INFORMATION—Credit Facilities.”

Future series of Bonds may be secured by the Original Reserve Account, the 2017 Reserve Account or a separate reserve account established by the Commission, or may not be secured by any debt service reserve account, as the Commission shall determine. A deficiency in any reserve account may require the Commission to apply Net Revenues to cure such deficiency and thereby reduce Net Revenues available to pay debt service on the Commission’s Bonds, including the Series 2024A-C Bonds.

Original Reserve Account

Each Series of the Series 2024A-C Bonds will be designated as an Original Reserve Series and will be secured by the Original Reserve Account.

Amounts on deposit in the Original Reserve Account may be used solely for the purposes of (i) paying interest, principal or mandatory sinking fund payments on Original Reserve Series Bonds whenever any moneys then credited to the debt service accounts with respect to such Original Reserve Series Bonds are insufficient for such purposes, and (ii) reimbursing the providers of any reserve policies or other credit facilities credited to the Original Reserve Account for any payments thereunder.

The reserve requirement for the Original Reserve Account (the “Original Reserve Requirement”) is an amount equal to Aggregate Maximum Annual Debt Service on the Outstanding Original Reserve Series Bonds. “Aggregate Maximum Annual Debt Service” means the maximum amount of Annual Debt Service on all Outstanding Original Reserve Series Bonds in any Fiscal Year during the period from the date of calculation to the final scheduled maturity of such Bonds. The Original Reserve Requirement can be funded with cash, Permitted Investments and/or Credit Facilities.

The 1991 Master Resolution authorizes the Commission to obtain Credit Facilities, including surety bonds and insurance policies (“reserve policies”), in place of funding the Original Reserve Account with cash and Permitted Investments upon the satisfaction of certain requirements. The 1991 Master Resolution requires that a reserve policy deposited in the Original Reserve Account must be from a credit provider meeting ratings requirements as described in “Debt Service and Reserve Funds–Application and Valuation of Issue 1 Reserve Account and 2017 Reserve Account” in APPENDIX D at the time of deposit. The 1991 Master Resolution does not require that those ratings be maintained after the date of deposit of such reserve policy to the Original Reserve Account. See APPENDIX D–“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION–Debt Service and Reserve Funds–Application and Valuation of Issue 1 Reserve Account and 2017 Reserve Account.” The Commission does not have any Credit Facilities in, and does not have any plans to obtain Credit Facilities for, the Original Reserve Account.

As of March 31, 2024, the Original Reserve Requirement was approximately \$584.7 million and the cash and Permitted Investments in the Original Reserve Account were approximately \$588.4 million. Following the issuance of the Series 2024A-C Bonds, the Original Reserve Requirement will be approximately \$622.0 million. Immediately following the issuance of the Series 2024A-C Bonds, cash and Permitted Investments in the Original Reserve Account are expected to equal approximately \$622.0 million, or 100% of the Original Reserve Requirement.

In the event that the balance in the Original Reserve Account is diminished below the Original Reserve Requirement, the Trustee is required to immediately notify the Commission of such deficiency and the Commission is required under the 1991 Master Resolution to replenish the Original Reserve Account by transfers of available Net Revenues over a period not to exceed 12 months from the date on which the Commission is notified of such deficiency. See APPENDIX D–“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION–Debt Service and Reserve Funds–Application and Valuation of Issue 1 Reserve Account and 2017 Reserve Account.” Any amounts on deposit in the Original Reserve Account in excess of the Original Reserve Requirement may be withdrawn by the Commission.

2017 Reserve Account

The Series 2024A-C Bonds are NOT secured by the 2017 Reserve Account.

Amounts on deposit in the 2017 Reserve Account may be used solely for the purposes of (i) paying interest, principal or mandatory sinking fund payments on any 2017 Reserve Account Series Bonds whenever any moneys then credited to the debt service accounts with respect to such 2017 Reserve Account Series Bonds are insufficient for such purposes, and (ii) reimbursing the providers of any reserve policies or other credit facilities credited to the 2017 Reserve Account for any payments thereunder.

The reserve requirement for the 2017 Reserve Account (the “2017 Reserve Requirement”) is set forth in APPENDIX D–“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION–Certain Definitions.” In the

event of a deficiency in the 2017 Reserve Account, the Commission is required under the 1991 Master Resolution to replenish the 2017 Reserve Account from Net Revenues. Any amount on deposit in the 2017 Reserve Account in excess of the 2017 Reserve Requirement may be withdrawn by the Commission. See APPENDIX D—“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION—Debt Service and Reserve Funds—*Application and Valuation of Issue 1 Reserve Account and 2017 Reserve Account.*”

The 1991 Master Resolution authorizes the Commission to obtain Credit Facilities, including reserve policies, in place of funding the 2017 Reserve Account with cash and Permitted Investments. The 1991 Master Resolution requires that a reserve policy deposited in the 2017 Reserve Account must be from a credit provider meeting ratings requirements as described in “Debt Service and Reserve Funds—*Application and Valuation of Issue 1 Reserve Account and 2017 Reserve Account*” in APPENDIX D at the time of deposit. The 1991 Master Resolution does not require that those ratings be maintained after the date of deposit of such reserve policy to the 2017 Reserve Account. See APPENDIX D—“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION—Debt Service and Reserve Funds—*Application and Valuation of Issue 1 Reserve Account and 2017 Reserve Account.*”

As of March 31, 2024, the reserve requirement for the 2017 Reserve Account was approximately \$42.9 million, and approximately \$57.5 million of cash and Permitted Investments was held in the 2017 Reserve Account.

Contingent Payment Obligations

The Commission has entered into, and may in the future enter into, contracts and agreements in the course of its business that include an obligation on the part of the Commission to make payments contingent upon the occurrence or non-occurrence of certain future events, including events that are beyond the direct control of the Commission. These agreements include interest rate swaps and other similar agreements, investment agreements, including for the future delivery of specified securities, letter of credit and line of credit agreements for advances of funds to the Commission in connection with its Bonds and other obligations, and other agreements. See “—Other Indebtedness—*Subordinate Bonds*” and “AIRPORT’S FINANCIAL AND RELATED INFORMATION—Credit Facilities” for information about the Commission’s existing letters of credit. The Commission is not currently party to any interest rate swap.

Such contracts and agreements may provide for contingent payments that may be conditioned upon the credit ratings of the Airport and/or of the other parties to the contract or agreement, maintenance by the Commission of specified financial ratios, the inability of the Commission to obtain long-term refinancing for short-term obligations or liquidity arrangements, and other factors. Such payments may be payable on a parity basis with debt service on the Bonds, including any “Swap Payments” to a Swap Counterparty, as such term is defined in the 1991 Master Resolution.

The amount of any such contingent payment may be substantial. To the extent that the Commission does not have sufficient funds on hand to make any such payment, it is likely that the Commission would seek to borrow such amounts through the issuance of additional Bonds or Subordinate Bonds (including Commercial Paper Notes).

No Acceleration

The Bonds are not subject to acceleration under any circumstances or for any reason including, without limitation, upon the occurrence and continuance of an Event of Default under the 1991 Master Resolution. Moreover, the Bonds will not be subject to mandatory redemption or mandatory purchase or tender for purchase upon the occurrence and continuance of an Event of Default under the 1991 Master Resolution to the extent the redemption or purchase price is payable from Net Revenues. Bonds, however, may be subject to mandatory redemption or mandatory purchase or tender for purchase if the redemption or purchase price is payable from a source other than Net Revenues, such as payments under a credit facility or liquidity facility. Amounts payable to reimburse a credit provider or liquidity provider pursuant to a credit facility or liquidity facility for amounts drawn thereunder to pay principal, interest or purchase price of Bonds, which reimbursement obligations are accorded the status of Repayment Obligations, can be subject to acceleration, but any such accelerated payments (other than certain amounts assumed to be amortized in that year under the 1991 Master Resolution) would be made from Net Revenues on a basis subordinate to the Bonds. See APPENDIX D—“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION—Repayment Obligations.”

Upon the occurrence and continuance of an Event of Default under the 1991 Master Resolution, the Commission would be liable only for principal and interest payments, and premium, if any, on the Bonds as they became due. *The inability to accelerate the Bonds limits the remedies available to the Trustee and the Owners upon an Event of Default and could give rise to conflicting interests among Owners of earlier-maturing and later-maturing Bonds.* In the event of successive defaults in payment of the principal of or interest on the Bonds, the Trustee likely would be required to seek a separate judgment for each such payment not made. Also see “CERTAIN RISK FACTORS–Limitation of Remedies” and “–Potential Effect of a City Bankruptcy.”

Other Indebtedness

General

In addition to the Series 2024A-C Bonds and the other Bonds that it may have Outstanding from time to time, the Commission has reserved the right under the 1991 Master Resolution to issue indebtedness (i) secured in whole or in part by a pledge of and lien on Net Revenues subordinate to the pledge and lien securing the Bonds (“Subordinate Bonds”), or (ii) secured by revenues from a Special Facility (defined herein) (“Special Facility Bonds”). Provisions of the 1991 Master Resolution governing the issuance of and security for Subordinate Bonds and Special Facility Bonds are described below under “–*Subordinate Bonds*” and “–*Special Facility Bonds*” and in APPENDIX D–“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION–Subordinate Bonds” and “–Special Facility Bonds.”

Subordinate Bonds

The Commission has authorized, and the Board of Supervisors has approved, the issuance by the Commission of up to \$600,000,000 principal amount outstanding at any one time of commercial paper notes (the “Commercial Paper Notes”), which constitute Subordinate Bonds. The Commercial Paper Notes are authorized pursuant to Resolution No. 97-0146 adopted by the Commission on May 20, 1997, as amended and supplemented (the “Subordinate Resolution”). The terms and provisions of the Subordinate Resolution are substantially similar to those of the 1991 Master Resolution, with the exception that the Subordinate Resolution provides that payment of the Commercial Paper Notes, and repayment of amounts drawn on the letters of credit with respect thereto, are secured by a lien on Net Revenues subordinate to the lien of the 1991 Master Resolution securing the Bonds. See “–Contingent Payment Obligations” and APPENDIX D–“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION–Subordinate Bonds.”

[Remainder of Page Intentionally Left Blank]

The Commission presently has six irrevocable direct-pay letters of credit totaling \$600 million in available principal amount to support the Commercial Paper Notes. The current letters of credit are described in the following table.

LETTERS OF CREDIT SUPPORTING COMMERCIAL PAPER NOTES
(as of May 1, 2024)

<u>Series</u>	<u>Principal Amount</u>	<u>Letter of Credit Provider</u>	<u>Expiration Date</u>
Series A-1 Notes Series B-1 Notes Series C-1 Notes	\$100,000,000	Bank of America, N.A.	April 28, 2028
Series A-2 Notes Series B-2 Notes Series C-2 Notes	\$100,000,000	Sumitomo Mitsui Banking Corporation, acting through its New York Branch	April 7, 2027
Series A-3 Notes Series B-3 Notes Series C-3 Notes	\$100,000,000	BMO Bank N.A.	April 30, 2027
Series A-4 Notes Series B-4 Notes Series C-4 Notes	\$100,000,000	Sumitomo Mitsui Banking Corporation, acting through its New York Branch	June 6, 2028
Series A-5 Notes Series B-5 Notes Series C-5 Notes	\$125,000,000	Barclays Bank PLC	April 23, 2027
Series A-6 Notes Series B-6 Notes Series C-6 Notes	\$75,000,000	Bank of America, N.A.	May 4, 2026

Source: Commission.

As of May 6, 2024, of the \$600 million of Commercial Paper Notes authorized, there were approximately \$452.5 million in principal amount of Commercial Paper Notes outstanding. The Commission expects to repay and defease, as applicable, such Commercial Paper Notes with certain proceeds of the Series 2024A-C Bonds. See “PLAN OF FINANCE AND REFUNDING.” Furthermore, the Commission expects to continue issuing and repaying Commercial Paper Notes from time to time in the future, and it may issue additional Commercial Paper Notes prior to the issuance of the Series 2024A-C Bonds.

Special Facility Bonds

The Commission may (a) designate an existing or planned facility, structure, equipment or other property, real or personal, which is at the Airport or part of any facility or structure at the Airport as a Special Facility, (b) provide that revenues earned by the Commission from or with respect to such Special Facility shall constitute “Special Facility Revenues” and shall not be included as Revenues, and (c) issue Special Facility Bonds for the purpose of acquiring, constructing, renovating, or improving such Special Facility. The designation of an existing facility as a Special Facility therefore could result in a reduction in Revenues. Principal, purchase price, if any, redemption premium, if any, and interest with respect to Special Facility Bonds shall be payable from and secured by the Special Facility Revenues, and not from or by Net Revenues.

No Special Facility Bonds may be issued by the Commission unless an Airport Consultant (as defined in APPENDIX D) has certified: (i) that the estimated Special Facility Revenues with respect to the proposed Special

Facility will be at least sufficient to pay the principal, purchase price, interest, and all sinking fund, reserve fund and other payments required with respect to such Special Facility Bonds when due, and to pay all costs of operating and maintaining the Special Facility not paid by a party other than the Commission; (ii) that estimated Net Revenues calculated without including the Special Facility Revenues and without including any operation and maintenance expenses of the Special Facility as Operation and Maintenance Expenses will be sufficient so that the Commission will be in compliance with its rate covenant during each of the five Fiscal Years immediately following the issuance of the Special Facility Bonds; and (iii) that no Event of Default under the 1991 Master Resolution exists.

SFO Fuel Bonds

The Commission issued \$125,000,000 of Special Facilities Lease Revenue Bonds (SFO FUEL COMPANY LLC) Series 2019A and Series 2019B (the “SFO Fuel Bonds”), which are Special Facility Bonds, in February 2019. As of April 1, 2024, \$87,705,000 in principal amount of SFO Fuel Bonds remain outstanding. The SFO Fuel Bonds were issued to finance and refinance (including through the refunding of Special Facility Bonds issued in 1997 and 2000) certain costs of the construction of jet fuel storage, distribution and related facilities at the Airport for the benefit of the airlines serving the Airport. See “SAN FRANCISCO INTERNATIONAL AIRPORT—Current Airport Facilities—*Jet Fuel Distribution System*.” The SFO Fuel Bonds are payable from and secured by payments made by SFO FUEL COMPANY LLC, a special purpose limited liability company (“SFO Fuel”), pursuant to a lease agreement between the Commission and SFO Fuel with respect to the jet fuel storage and distribution facilities. SFO Fuel was formed by certain airlines operating at the Airport. The lease payments, and therefore the SFO Fuel Bonds, are payable from charges imposed by SFO Fuel on air carriers for into-plane fueling at the Airport and are not payable from or secured by Net Revenues.

Airport Hotel Special Facility Revenue Bonds

In June 2018, the Commission issued \$260,000,000 of San Francisco International Airport Hotel Special Facility Revenue Bonds (the “Hotel Special Facility Bonds”) to finance and refinance (through the repayment of Commercial Paper Notes) the development and construction of a new Commission-owned hotel at the Airport (the “On-Airport Hotel”), to fund capitalized interest on the Hotel Special Facility Bonds and to pay related costs. The On-Airport Hotel was designated as a Special Facility, and the Hotel Special Facility Bonds are Special Facility Bonds. The Hotel Special Facility Bonds are payable from On-Airport Hotel revenues. There are \$260,000,000 in principal amount of Hotel Special Facility Bonds outstanding as of April 1, 2024. The final maturity date of the Hotel Special Facility Bonds is April 1, 2058. The Hotel Special Facility Bonds are held by the Commission and were purchased with proceeds of the Commission’s Second Series Revenue Bonds, Series 2018B and Series 2018C. The terms of the Hotel Special Facility Bonds were modified to address financial challenges then faced by the On-Airport Hotel as a result of the COVID-19 pandemic. In September 2020, the Commission, as beneficiary of the trust that owns the Hotel Special Facility Bonds, instructed that the October 1, 2020 interest payment with respect to the Hotel Special Facility Bonds not be made until the Commission directed the payment to occur. On February 26, 2021, the Commission entered into an Amended and Restated Trust Agreement that restructured the Hotel Special Facility Bonds by delaying principal repayment until April 1, 2025 instead of April 1, 2022 and temporarily reduced the interest rate on the Hotel Special Facility Bonds from 3.00% to 0.086% through September 30, 2023. The interest rate has since begun increasing incrementally until it is restored to 3.00%, beginning on April 1, 2029. In addition, the Amended and Restated Trust Agreement provided that October 1, 2020 was no longer an interest payment date, and there was no requirement to pay interest on the Hotel Special Facility Bonds until October 1, 2023. See “SAN FRANCISCO INTERNATIONAL AIRPORT—Current Airport Facilities—*On-Airport Hotel*” for additional information about the hotel.

CERTAIN RISK FACTORS

This section provides a general overview of certain risk factors which should be considered, in addition to the other matters set forth in this Official Statement, in evaluating an investment in the Series 2024A-C Bonds. This section is not meant to be a comprehensive or definitive discussion of the risks associated with an investment in the Series 2024A-C Bonds, and the order in which this information is presented does not necessarily reflect the relative importance of various risks. Potential investors in the Series 2024A-C Bonds are advised to consider the following factors, among others, and to review this entire Official Statement, including all of the Appendices hereto, to obtain information essential to the making of an informed investment decision. Any one or more of the risk factors discussed below, among others, could adversely affect the financial condition of the Airport or its ability to make scheduled

payments on the Series 2024A-C Bonds. There can be no assurance that other risk factors not discussed herein will not become material in the future.

Local Economy

The economy of the San Francisco Bay Area is a major factor affecting long-term airline traffic at the Airport. Generally, regions such as the San Francisco Bay Area with large populations, high levels of employment, and high average per capita incomes will generate a high demand for airline travel. In recent years, approximately 80% of passenger traffic at the Airport was “origin and destination” traffic, which means that the Airport is either the origin or ultimate destination of a passenger’s air travel; the remaining approximately 20% was connecting passengers. The demographics and economy of a region—as measured by changes in population, employment, and per capita income—as well as airline service and airfares—are typically the most important factors affecting origin and destination passenger demand. The strength of the origin and destination traffic at the Airport primarily depends on the strength of the San Francisco Bay Area economy and the economic linkages between and among the regional, national, and global economies. In particular, the growth of passenger traffic at the Airport over the ten years preceding the COVID-19 pandemic was significantly supported by its growing population, well-educated work force, high per capita income, diverse local economy, popularity as a domestic and international tourist destination, and its strong competitive position in industries such as information technology and software, social and digital media, life sciences and biotechnology, environmental and clean technology, professional services, and international business. If the San Francisco Bay Area experiences slower economic growth, a recession or a depression, the demand for passenger traffic at the Airport and Airport Revenues may be substantially reduced. Although the economy has continued to improve since the COVID-19 pandemic, the economy of the San Francisco Bay Area, as well as the State, national and global economies, were profoundly affected by it. See APPENDIX A—“REPORT OF THE AIRPORT CONSULTANT—AIRLINE TRAFFIC AND ECONOMIC ANALYSIS – Historical Airline Traffic and Service” and “ – Key Factors Affecting Future Airline Traffic” for discussion of historic airline traffic at the Airport and factors that could affect future airline traffic. Also see “–Worldwide Health Concerns and Pandemics.”

Uncertainties of the Aviation Industry

Demand for Air Travel

The Airport’s ability to generate Revenues depends significantly on the level of aviation activity and passenger traffic at the Airport. The principal determinants of passenger demand at the Airport include the population and economy of the Airport service region; national and international economic conditions, including imposition of tariffs; political conditions, including wars, other hostilities and acts of terrorism; airfares and competition from surrounding airports; airline service and route networks; the capacity of the national air transportation system and the Airport; accidents involving commercial passenger aircraft; visa requirements and other limitations on the ability of foreign citizens to enter the United States or Americans to enter other countries; currency exchange rates; the occurrence of pandemics, such as the COVID-19 pandemic; and the occurrence of natural and man-made disasters. Decisions made by the U.S. and other countries, such as limits on landing slots for foreign air carriers, restrictions on use of air space, and travel restrictions and warnings for citizens, could significantly impact the volume of international passenger traffic at the Airport, as well as at other airports. Airfares and airline service are, in turn, affected by the financial condition of the airlines and regulatory requirements imposed on airlines, among other factors. See “–Bankruptcy of Airlines Operating at the Airport or Other Airport Tenants” and “–Competition” and “SAN FRANCISCO INTERNATIONAL AIRPORT–Airline Agreements–*Potential Effects of an Airline Bankruptcy.*”

Concerns about the safety of airline travel and the effectiveness of security precautions may influence, and in some instances have influenced, passenger travel behavior and air travel demand. One recent example is the January 2024 Federal Aviation Administration (the “FAA”) ordering of the temporary grounding of certain Boeing 737-9 MAX (“MAX”) aircraft operated by U.S. airlines or in U.S. territory following an incident on Alaska Airlines during which a plug door malfunctioned. In addition, United Airlines experienced several safety-related incidents in March 2024, resulting in increased FAA oversight, as described in APPENDIX A—“REPORT OF THE AIRPORT CONSULTANT” under the heading “AIRLINE TRAFFIC AND ECONOMIC ANALYSIS–Key Factors Affecting Future Airline Traffic–Airline Safety and Security Concerns.” Accidents involving commercial passenger aircraft and additional safety incidents could occur at any time, and the Airport cannot predict the impact of the events described in this paragraph or future events on passenger travel.

Furthermore, in addition to its role as a large origin and destination airport, the Airport serves as a connecting hub. Approximately 18.2 percent of passengers were connecting passengers in Fiscal Year 2022-23. A decision by an airline to change its hubbing practices at the Airport could significantly affect the level of traffic at the Airport.

Financial Condition of the Airlines

The airline industry is cyclical and subject to competition and variable demand. Traffic volumes are responsive to economic circumstances and seasonal patterns. Other factors, such as fuel and regulatory costs, can also have a significant effect on the industry. As a result, airline financial performance can fluctuate dramatically from one reporting period to the next. The ability of the Commission to derive revenues from its operations depends largely upon the financial health of the airlines serving the Airport and the airline industry as a whole. The financial results of the airline industry are subject to substantial volatility and, at times, many carriers have had overlapping, extended periods of unprofitability. See “–Bankruptcy of Airlines Operating at the Airport or Other Airport Tenants” below. The COVID-19 pandemic and the economic impacts thereof have had a significant and adverse impact on the demand for air travel and the airline industry. The COVID-19 pandemic resulted in substantial financial challenges for airlines serving the Airport, including substantial financial losses and reductions in airline industry workforce. See APPENDIX A—“REPORT OF THE AIRPORT CONSULTANT—AIRLINE TRAFFIC AND ECONOMIC ANALYSIS—Key Factors Affecting Future Airline Traffic—Financial Health of the Airline Industry” for additional information. While the Airport has seen passenger traffic return after or grow through airline bankruptcies and consolidations and other events affecting the airline industry from 2000 through 2019, and while traffic has largely returned following the COVID-19 pandemic, the impact of future events or conditions on the airline industry cannot be predicted with any certainty.

Fuel is a significant cost component of airline operations and continues to be an important and uncertain determinant of an air carrier’s operating economics. Historically, aviation fuel prices have been particularly sensitive to worldwide political instability. Fuel prices are discussed in APPENDIX A—“REPORT OF THE AIRPORT CONSULTANT” under the heading “AIRLINE TRAFFIC AND ECONOMIC ANALYSIS—Key Factors Affecting Future Airline Traffic—Availability and Price of Aviation Fuel.” Continued or new hostilities in petroleum producing regions or affecting key shipping lanes could dramatically increase the price and adversely affect the availability of aviation fuel. Economic expansion in emerging markets also contributes to higher aviation fuel prices. Natural disasters affecting refineries may also result in higher aviation fuel prices. Significant and prolonged increases in the cost of aviation fuel have had and are likely in the future to have an adverse effect on the air transportation industry by increasing airline operating costs and reducing airline profitability.

As a result of the incident that led to the grounding of MAX aircraft described above under “– Demand for Air Travel,” the FAA announced increased oversight of Boeing’s manufacturing processes and stated that it will not permit the company to increase aircraft production rates until the FAA is satisfied that adequate manufacturing quality controls are in place. Such restriction will constrain Boeing’s ability to deliver aircraft as planned and could delay the ability of some airlines to upgrade their fleets with more fuel-efficient aircraft and increase capacity. Delays in availability of aircraft, and of more fuel-efficient aircraft for these or other reasons may affect the financial condition of the airlines and their ability to increase service. Similarly, groundings of aircraft such as the grounding of MAX aircraft described above may affect the ability of airlines to maintain their flight schedules.

The airlines have been faced with labor shortages, including a shortage of pilots, that have resulted in reduced flight schedules and cancelled flights. The Report of the Airport Consultant assumes that airline seating capacity will be constrained in the short-term, in part due to shortages of airline pilots. However, the aviation industry may experience a more enduring shortage, or may face additional shortages in the future. The aviation industry may also be impacted by shortages of air traffic controllers. See “AIRLINE TRAFFIC AND ECONOMIC ANALYSIS—AIRLINE TRAFFIC PROJECTIONS – BASE CASE – Underlying Assumptions” and “AIRLINE TRAFFIC AND ECONOMIC ANALYSIS—KEY FACTORS AFFECTING FUTURE AIRLINE TRAFFIC—Capacity of the National Air Traffic Control System” in APPENDIX A—“REPORT OF THE AIRPORT CONSULTANT” for further discussion.

Airlines have consolidated in the past and may continue to do so in the future. For example, in December 2023, Alaska Airlines announced plans to acquire Hawaiian Airlines. This proposed merger remains subject to regulatory approval and other conditions. Future airline consolidation could change airline service patterns, particularly at the connecting hub airports of the merged airlines. The Commission cannot predict what impact, if any, such consolidations will have on airline traffic at the Airport. See “AIRLINE TRAFFIC AND ECONOMIC

ANALYSIS—KEY FACTORS AFFECTING FUTURE AIRLINE TRAFFIC—Airline Consolidation and Alliances” in APPENDIX A—“REPORT OF THE AIRPORT CONSULTANT” for further discussion of airline consolidations.

Information about the financial condition of airlines serving the Airport is available as described under “AIRLINE INFORMATION.”

Worldwide Health Concerns and Pandemics

Worldwide health concerns and related travel restrictions and public health measures have led to significant past declines in passenger traffic at the Airport. For example, the COVID-19 pandemic caused significant reductions in domestic and international passenger air travel and had significant negative effects on passenger traffic at the Airport. While most of the passenger traffic has returned, the pandemic may continue to affect passenger traffic and Airport operations and financial performance. Some shifts in behavior patterns initiated or intensified by the COVID-19 pandemic may persist indefinitely. Some of the impacts to date are discussed in APPENDIX A—“REPORT OF THE AIRPORT CONSULTANT—AIRLINE TRAFFIC AND ECONOMIC ANALYSIS – Historical Airline Traffic and Service” and “—Key Factors Affecting Future Airline Traffic – Public Health Concerns.”

The Airport has been affected by past health concerns as well. For example, in spring 2003, there was an outbreak of a serious strain of bird influenza or “flu” in Asia and Canada called “Severe Acute Respiratory Syndrome” or SARS. That, together with the outbreak of the war in Iraq and other factors at about the same time, resulted in a temporary but significant decline in passenger activity at the Airport of approximately 14% in the second quarter of Fiscal Year 2002-03, and approximately 7% for that fiscal year as a whole.

Future outbreaks or pandemics or a resurgence of COVID-19, alone or in combination with other events or circumstances, may lead to a decrease in air traffic at the Airport, which in turn could cause a decrease in passenger activity at the Airport and a corresponding decline in Airport Revenues.

Geopolitical Considerations

The U.S. economy and aviation sector in particular are exposed to risks from geopolitical conflicts. For example, the ongoing Russia-Ukraine war has affected the global economy and commercial aviation. The impacts of the war include but are not limited to (i) increased food, commodity and fuel prices and increased strain on global supply chains; (ii) economic sanctions against certain Russian individuals, institutions, companies and commodities including oil and natural gas; (iii) closure of affected airspace necessitating changes to airline routes and the suspension of service to some areas; and (iv) increased risk of cyber-attacks from Russia against U.S. government agencies, financial institutions and infrastructure. War broke out in Israel and Gaza in late 2023. The effects of this war on commercial aviation include alterations to flight routes, but effects on the global economy and other effects on commercial aviation are unknown at this time. These conflicts could intensify and other conflicts could occur without warning. Future or ongoing wars and conflicts may negatively affect the global economy and commercial aviation.

Airport Security

Acts of terrorism or other major breaches of security at the Airport can result in a decline in passenger traffic at the Airport which can materially adversely impact Airport Revenues. The September 11, 2001 terrorist attacks resulted in increased safety and security measures at the Airport mandated by the Aviation and Transportation Security Act passed by the U.S. Congress in November 2001 and by directives of the FAA. In addition, certain safety and security operations at the Airport have been assumed by the Transportation Security Administration (“TSA”). In spite of the increased security measures, additional acts of terrorism resulting in disruption to the North American air traffic system, increased flight delays, damage to the Airport, reductions in Airport passenger traffic and/or reductions in Airport Revenues, remain possible. See “SAN FRANCISCO INTERNATIONAL AIRPORT—Airport Security.” The Airport maintains liability insurance coverage for war perils including but not limited to terrorism and hijacking, with \$250 million in coverage. The Airport has also purchased a cyber liability product to protect against cyber related events. See “AIRPORT’S FINANCIAL AND RELATED INFORMATION—Risk Management and Insurance.” It is possible that liability could exceed coverage or otherwise not be covered.

Limitations on Additional Liquidity

The Lease and Use Agreements that the Airport has entered into with each of the Signatory Airlines (defined herein) serving the Airport limit the amount of reserves that the Airport may establish. The Lease and Use Agreements provide for a residual rate setting methodology at the Airport, which requires the Airport to match revenues and expenditures when it sets its rates and charges. Any excess revenues collected in a given Fiscal Year are used to offset costs in a future Fiscal Year, as discussed under “SECURITY FOR THE SERIES 2024A-C BONDS—Pledge of Net Revenues; Source of Payment—*Certain Adjustments to ‘Revenues’ and ‘Operation and Maintenance Expenses’—Unearned Aviation Revenues/Aviation Revenues Due.*” The Lease and Use Agreements provide for a mid-year rate adjustment if the Airport’s actual expenses for any year are projected to exceed actual revenues for that year by ten percent, subject to other conditions. The Lease and Use Agreements also permit the Commission to create the ORCIF, to be funded through airline rates and charges. There are limits on the amounts that can be required to be funded, and no deposit may be made to the ORCIF in any fiscal year in which the balance at the beginning of the year exceeds \$650,000,000 (adjusted for inflation), as described in greater detail in APPENDIX E—“SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS – The ORCIF.” Funds on deposit in the ORCIF may be used for any lawful purpose for which Airport Revenues may be used. However, the Lease and Use Agreements do not permit the Airport to set rates and charges to establish reserves in excess of those required by the 1991 Master Resolution and the terms of the ORCIF under the Lease and Use Agreements. See APPENDIX E—“SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS.”

Bankruptcy of Airlines Operating at the Airport or Other Airport Tenants

Airlines operating at the Airport and other Airport tenants have filed for bankruptcy relief in the past and may do so in the future. For example, Scandinavian Airlines filed for bankruptcy protection in November 2022. If a bankruptcy case is filed with respect to an airline or other tenant, any lease to which the debtor airline or other tenant is a party will be treated as an executory contract or unexpired lease pursuant to Section 365 of the United States Bankruptcy Code, as amended (the “Bankruptcy Code”). Under Section 365, a trustee in bankruptcy or the airline or other tenant, as debtor-in-possession, might reject its Lease and Use Agreement or other lease, as applicable, in which case, among other things, the rights of that airline or other tenant to continued possession of the facilities subject to the lease (including, in the case of airlines, gates and boarding areas) would terminate. Such facilities could ultimately be leased by the Commission to other users. In the case of airline facilities, the Commission’s ability to lease such facilities to other airlines may depend on the state of the airline industry in general, on the nature and extent of the increased capacity at the Airport, if any, resulting from the airline’s bankruptcy, and on the need for such facilities by other airlines. In the case of other facilities, the Commission’s ability to lease such facilities to other users may also depend on the state of the airline industry or the travel industry in general, on the nature and extent of the increased capacity at the Airport, if any, resulting from the tenant’s bankruptcy, and on the need for such facilities by other users. The rejection of a lease in connection with the bankruptcy of an airline or other tenant may result in the loss of Revenues to the Commission and a resulting increase in the costs, including the cost per enplaned passenger for other airlines at the Airport. In addition, in any bankruptcy, the Commission may be required to repay rentals and fees, including landing fees and terminal rentals, and other amounts paid by the tenant to the Airport during the 90-day period prior to the date of the bankruptcy filing. Such payments may be considered “preferential” and may be avoidable in a bankruptcy case pursuant to Section 547 of the Bankruptcy Code. The Commission would, however, likely have defenses to claims brought under Section 547 of the Bankruptcy Code, including that the subject payments were made in the ordinary course of business or that the Airport provided subsequent new value to the tenant.

Also, under the Bankruptcy Code, any rejection of a lease could result in the Commission holding a claim for rents and other items that would have accrued in the future, which claims are generally treated the same as other general unsecured claims against the debtor airline or other debtor tenant. Further, with respect to the rejection of leases involving real property, any rejection damages claim for the rent due under a lease is capped under the Bankruptcy Code at the greater of one year, or 15%, not to exceed three years of the remaining term of the lease. The Commission would also hold a claim for actual use of facilities by the airline or other tenant after the bankruptcy filing which would have a higher priority under the Bankruptcy Code. For further discussion of the impact of an airline bankruptcy, see “SAN FRANCISCO INTERNATIONAL AIRPORT—Airline Agreements—*Potential Effects of an Airline Bankruptcy.*”

Risks Related to the Commission’s Capital Projects

The Commission’s capital projects will increase the Commission’s overall long-term debt.

The Commission’s current CIP includes spending on capital projects in the coming years which may be financed with the proceeds of additional Bonds. See “CAPITAL PROJECTS AND PLANNING–The Capital Improvement Plan.” In addition to the Series 2024A-C Bonds, the Report of the Airport Consultant assumes the issuance of approximately \$8.9 billion of Bonds in 2024 through 2029 to finance the projects in the CIP. The timing and amounts of additional Bonds may change depending on passenger and cargo demand, the availability of other funding sources, the timing of capital expenditures and market conditions. It is also possible that the Commission may undertake additional capital projects during the period covered by the CIP that are not presently included in the CIP, and the Commission expects to undertake other major capital projects following the completion of the current CIP. For example, most of the updated Shoreline Protection Program, which had an estimated cost of at least several hundred million dollars, is not currently in the Airport’s approved CIP. See “CAPITAL PROJECTS AND PLANNING–Other Anticipated Capital Needs–Shoreline Protection Program.” Other potential projects are also described under “CAPITAL PROJECTS AND PLANNING–Other Anticipated Capital Needs.” Other capital needs that are not presently known may arise, and the costs of now known and future capital needs could increase significantly between the times that they are identified and when they are addressed. The issuance of a significant amount of additional Bonds for capital projects will result in higher debt service costs, which will increase landing fees and terminal rents at the Airport, thereby increasing the costs borne by the airlines serving the Airport, which in turn could make the Airport comparatively less competitive.

If the Commission is unable to finance and complete major capital projects, the Commission may be unable to provide critical improvements to infrastructure or meet regulatory requirements.

If, for any reason, the Commission is unable to undertake critical capital projects, then the condition of Airport facilities may decline, which can affect customer experience, airline satisfaction, and operational efficiency and effectiveness. In addition, the Airport may be required to undertake certain capital projects to comply with regulatory requirements or to preserve the overall viability of the Airport.

The Commission’s capital projects may be delayed or over budget.

Although the Commission uses a variety of strategies to mitigate risk associated with the implementation of its capital projects, project development could be delayed, and the cost of completing capital projects could be higher than expected due to various factors that are outside of the control of the Commission, including but not limited to economic conditions; pandemics; natural or manmade disasters; events such as the September 11, 2001 terrorist attacks; new or ongoing military hostilities; unexpected issues with integration into existing facilities; the inability to obtain, or delays in obtaining, regulatory approvals; the inability to comply with the conditions of regulatory approvals; changes in laws or regulations; inability to obtain, or delays in obtaining, federal approvals or federal funding; labor, bidding and contracting requirements; delays caused by the airline review process (see “SAN FRANCISCO INTERNATIONAL AIRPORT–Airline Agreements–Lease and Use Agreements–Airline Review of Capital Improvements”); weather; litigation; tariffs; cost overruns; casualty; strikes; unanticipated engineering, environmental or geological problems; shortages or increased costs of materials or labor; and financial difficulties of contractors. In addition, it is possible that funding sources such as federal grants may not be available as expected. If costs are higher than projected or funds are not available to finance the projects or portions thereof, the Commission may have to delay or cancel projects and/or incur additional debt. Some of the capital projects of the Commission are essential to the Commission’s ability to generate Airport revenues. For example, some projects were delayed as a result of the COVID-19 pandemic.

Competition

Metropolitan Oakland International Airport (the “Oakland Airport”) and San José Norman Y. Mineta International Airport (the “San Jose Airport”) are the other airports in the San Francisco Bay Area that compete with the Airport for passengers and cargo traffic. In addition, the Airport competes with other West Coast airports, primarily Los Angeles International Airport (the “Los Angeles Airport”) and Seattle-Tacoma International Airport (the “Seattle

Airport”), for international passengers. Competition from these airports may affect passenger and cargo demand at the Airport. See “SAN FRANCISCO INTERNATIONAL AIRPORT–Competition.”

The California High-Speed Rail Authority is in the process of planning and constructing a high-speed train service linking Southern California, the Sacramento San Joaquin Valley and the San Francisco Bay Area. The Airport could experience reductions in passenger traffic as a result of a high-speed rail system. The Commission is unable to predict when or whether a high-speed rail system will be completed, what areas of the State it will serve, or the effect that any such high-speed rail system would have on passenger traffic at and revenues of the Airport.

Uncertainties of Projections and Assumptions

In its Report of the Airport Consultant, the Airport Consultant, based on the assumptions contained in the report, forecasts that the projected Revenues of the Commission will be sufficient to allow the Commission to comply with the rate covenant in the 1991 Master Resolution through June 30, 2030. See APPENDIX A – “REPORT OF THE AIRPORT CONSULTANT.” One of the principal assumptions upon which the Airport Consultant relies in making its projection is that over the long term, passenger traffic will increase as a function of growth in the economy of the region served by the Airport and continued airline competition. Whether the projected passenger traffic materializes depends on a number of factors outside of the Commission’s control, such as economic growth of the United States and the San Francisco Bay Area, airline financial condition, general costs of air travel, capacity of the national air traffic control system, operational decisions made by airlines, public health concerns, and other similar factors and assumptions. In addition, the Airport Consultant makes numerous other assumptions as described in their Report.

The Report should be read in its entirety for an understanding of the projections and the underlying assumptions. As noted in the Report, projections are subject to uncertainties. Inevitably, some of the assumptions used to develop the projections will not be realized, and unanticipated events and circumstances may occur. The actual financial results achieved will vary from those projections, and the variations may be material. Also see “REPORT OF THE AIRPORT CONSULTANT” herein and APPENDIX A—“REPORT OF THE AIRPORT CONSULTANT.”

Technological Innovations

New technologies and innovative business strategies in established markets are being developed and are likely to be developed in the future. For example, facial recognition technology and other technologies facilitating a “touchless” passenger experience are seeing increasing adoption and potential expansion in the airport setting. Increased adoption of videoconferencing technologies during the COVID-19 pandemic and increased acceptance of these methods of communicating could reduce the demand for business travel, though the impact of such technologies on the demand for business travel is not known. As another example, transportation network companies (“TNCs”), such as Uber Technologies Inc., Lyft, Inc. and Tickengo, Inc. d/b/a Wingz were increasingly popular in the years prior to the COVID-19 pandemic, resulting in shifts in the relative share of non-airline revenues from various ground transportation activities and operational issues such as increased curbside congestion. The popularity of different forms of ground transportation also has shifted during the pandemic and post-pandemic. See “AIRPORT’S FINANCIAL AND RELATED INFORMATION–Ground Transportation Revenues.” While the Commission makes every effort to anticipate changes resulting from new technologies and innovative business strategies and to minimize negative impacts on revenues, if any, there may be times when the Commission’s expectations differ from actual outcomes. In such event, revenues could be lower than expected and additional capital or operating expenses might be incurred.

Seismic and Other Natural Disasters or Emergencies

The Airport is located in a seismically active region. Active earthquake faults underlie both the City and the surrounding San Francisco Bay Area, including the San Andreas Fault, which passes within about three miles of the City’s border, and the Hayward Fault, which runs under Oakland, Berkeley and other cities on the east side of San Francisco Bay, as well as a number of other significant faults in the region. Significant seismic events include the 1989 Loma Prieta earthquake, centered about 50 miles south of the Airport, which registered 6.9 on the Richter scale of earthquake intensity. That earthquake caused fires, building collapses, and structural damage to buildings and highways in the City and surrounding areas. The San Francisco-Oakland Bay Bridge, the only east-west vehicle access into the City, was closed for a month for repairs, and several highways in the City were permanently closed and eventually removed. There was no damage to the runways and no material structural damage to the terminal

buildings at the Airport, and the Airport was fully operational within twelve hours of the event. On August 24, 2014, the San Francisco Bay Area experienced a 6.0 earthquake centered near Napa along the West Napa Fault. Neither the City nor the Airport suffered any material damage as a result of this earthquake. The effects of future seismic events may vary from the effects of past seismic events.

In March 2015, the Working Group on California Earthquake Probabilities (a collaborative effort of the U.S. Geological Survey (“U.S.G.S.”), the California Geological Survey, and the Southern California Earthquake Center) reported that there is a 72% chance that one or more earthquakes of about magnitude 6.7 or larger will occur in the San Francisco Bay Area before the year 2045. Earthquakes may be very destructive. The U.S.G.S. released a report in April 2017 entitled “The HayWired Earthquake Scenario,” which estimates that property damage and direct business disruption losses from a magnitude 7.0 earthquake on the Hayward Fault would be more than \$82 billion (in 2016 dollars).

The Commission has made and continues to make upgrades to the seismic stability of some of its facilities. See “SAN FRANCISCO INTERNATIONAL AIRPORT—Current Airport Facilities—*Seismic Design of Airport Facilities.*” Nevertheless, the Airport could sustain extensive damage to its facilities in a major earthquake from ground motion and possible liquefaction of underlying soils and resulting tidal surges. Damage could include pavement displacement (which could, in the worst case, necessitate the closing of one or more runways for extended periods of time), distortions of pavement grades, breaks in utilities, loss of water supply from the City’s Hetch Hetchy water system, damage to drainage and sewage lines, displacement or collapse of buildings, rupture of gas and fuel lines (including the common carrier pipelines under the San Francisco Bay that supply jet fuel to the Airport and Pacific Gas & Electric lines under Airport property), and collapse of dikes at the Airport with consequential flooding. For further discussion of liquefaction, see “SAN FRANCISCO INTERNATIONAL AIRPORT—Current Airport Facilities—*Settlement, Subsidence and Liquefaction.*”

Furthermore, the Airport could sustain damage as a result of other events, such as terrorist attacks, extreme weather events and other natural occurrences, wildfires, fires and explosions, spills of hazardous substances, strikes and lockouts, sabotage, wars, blockades, and riots. Also see “—Airport Security” and “—Risks Associated with Global Climate Change.”

While the Commission has attempted to address the risk of loss through the purchase of insurance, certain of these events may not be covered. In particular, the Commission does not maintain insurance or self-insure against any risks due to land movement or seismic activity, and in some instances other events may not be covered. See “—Airport Security” and “AIRPORT’S FINANCIAL AND RELATED INFORMATION—Risk Management and Insurance.” Furthermore, even for events that are covered by insurance, the Commission cannot guarantee that coverage will be sufficient or that insurers will pay claims in a timely manner. From time to time, the Commission may change the types of and limits and deductibles on the insurance coverage that it carries.

Furthermore, a major earthquake anywhere in the San Francisco Bay Area may cause significant temporary and possibly long-term harm to the economy of one or more San Francisco Bay Area cities or the entire region, which could in turn have a negative effect on passenger traffic and on Revenues, and such effect could be material.

Risks Associated with Global Climate Change

Numerous scientific studies on global climate change show that, among other effects on the global ecosystem, sea levels are rising and extreme temperatures and weather events are more frequent and more intense, due to increasing atmospheric carbon dioxide levels and global temperatures. The City as a whole, including Airport operations and infrastructure, are vulnerable to the impacts of global climate change, and significant capital and other investments have been and are being made, and more will need to be made, to ensure the Airport’s infrastructure and operations can appropriately respond to these climate-related hazards, shocks and/or stressors. Furthermore, the long-term impacts of climate change, combined with the increasing passenger awareness of the greenhouse gas emissions impacts associated with traditional aviation, could reduce demand for travel globally or locally (to or from the San Francisco Bay Area), with the potential to have material adverse effects on the Airport’s operations and financial condition.

The United Nations' Intergovernmental Panel on Climate Change ("IPCC") *Sixth Assessment Report (2021)* ("AR6"), the *Special Report on Global Warming of 1.5 °C (2018)* and the *Fourth National Climate Assessment (2018)* ("NCA4"), published by the U.S. Global Change Research Program, stated that rising temperatures, sea level rise, and more frequent and intense extreme weather and climate-related events, as well as changes in average climate conditions, are expected to continue to increasingly disrupt and damage infrastructure, ecosystems, social systems, property, regional economies and industries, especially those that depend on natural resources and favorable climate conditions.

The AR6 projected for North and Central America (and the Caribbean) climate changes across all regions, with some common changes and others showing distinctive regional patterns that lead to unique combinations of adaptation and risk-management challenges. These shifts in North and Central American climate become more prominent with increasing greenhouse gas emissions and higher global warming levels. The NCA4, which assessed the variability of climate impacts across individual regions of the United States, found that the Airport is vulnerable to impacts from sea level rise, with flooding potentially exacerbated by storm surges, extreme precipitation and high tides. The NCA4 notes that between 1854 and 2016, sea level rose about nine inches according to the tidal gauge at Fort Point, underneath the Golden Gate Bridge. Sea levels are anticipated to continue to rise due to the increasing temperature of the oceans causing thermal expansion and growing ocean volume from glaciers and ice caps melting. The upper range for long-range planning used by the San Francisco Planning Commission estimates an additional sea level rise of 12 inches by 2030, 24 inches by 2050 and 66 inches by 2100. Weather and tidal patterns, including 100-year or more storms and king tides, may exacerbate the effects of sea level rise. Coastal areas, including the City, are vulnerable to floods impacting private development and public infrastructure, including the Airport, as well as roads, utilities, and emergency services. Recent studies have brought particular attention to the need to advance climate adaptation policy to mitigate and/or prevent future coastal flooding of California's airports, including a study published at *Climate Risk Management* 38 (2022) 100462, that identifies and highlights potential weaknesses in climate mitigation modeling techniques, potentially underestimating the effects of sea level rise, including at the Airport.

The NCA4 also recognized that mental and physical health may be adversely impacted by decreases in air quality, including due to factors such as ozone depletion, wildfires and aeroallergens. These threats may require additional changes in Airport infrastructure and/or decrease demand for travel globally or locally, with potential material adverse effects on the Airport's operations and financial condition. However, the Airport is already undertaking many infrastructure adaptations within its mechanical systems to respond to both pandemics and air quality events so is already activating its preparation for these future events (see: <https://sustainability.flysfo.com/health-and-wellbeing/>). The information on such website is not incorporated herein by reference.

In 2019, the Airport partnered with other departments across the City to prepare a Hazards and Climate Resilience Plan (the "HCR") as a blueprint to better understand and address the potential impacts of both sudden and slower moving disasters on its assets and people to minimize the severity of potential impacts. The HCR identifies the hazards, vulnerabilities, and consequences the City could expect to face without action and proposes over 90 strategies, several directly applicable to the Airport, to mitigate risks and adapt to unavoidable climate impacts. The HCR was approved by FEMA as San Francisco's 2020 Hazard Mitigation Plan update and was adopted by the Board of Supervisors. The plan is undergoing an update to reflect citywide updates, including the new Airport-focused Infrastructure Resilience Framework ("IRF") (described below).

In February 2020, the San Francisco Planning Commission released a Sea Level Rise Vulnerability and Consequences Assessment, with coordination from many departments in the City, including the Airport. This assessment describes the vulnerability of public buildings and infrastructure, including the Airport, to sea level rise and coastal flooding and the potential consequences to people, the economy and the environment. The information in this assessment is intended to advise decision makers (including the Airport), City agencies and public stakeholders as they develop, prioritize, design and implement appropriate, additional adaptation strategies to enhance the City's resilience to intermediate and long-term threats of sea level risk by identifying additional measures to implement, protect and enhance public and private assets, including the Airport.

In March 2020, a consortium of State and local agencies, led by the San Francisco Bay Conservation and Development Commission, released a detailed study entitled "Adapting to Rising Tides Bay Area: Regional Sea Level

Rise Vulnerability and Adaptation Study” (the “ART Study”) on how sea level rise could alter the San Francisco Bay Area. The ART Study states that a 48-inch increase in the bay’s water level in coming decades could cause more than 100,000 San Francisco Bay Area jobs to be relocated, nearly 30,000 lower-income residents to be displaced, and 68,000 acres of ecologically valuable shoreline habitat to be lost. The ART Study argues that without a far-sighted, nine-county response, the region’s economic and transportation systems could be undermined, including potentially significant and persistent flooding on the runways at the Airport and along U.S. Highway 101, preventing access to the Airport, along with significant detrimental impacts to the regional economy and the environment. The ART Study outlines several preceding and concurrent potential assessments, including (i) the Airport’s Shoreline Protection Program, to better address potential flooding risks from 100-year storms and sea level rise out to 2085 as further discussed under “CAPITAL PROJECTS AND PLANNING –Other Anticipated Capital Needs–Shoreline Protection Program,” and (ii) an Extreme Precipitation Study (the “Precipitation Study”) by Lawrence Berkeley National Laboratory (“LBNL”), with support from the San Francisco Public Utilities Commission, the Port of San Francisco and the Airport, modeling potential changes in precipitation patterns, as further discussed below under this heading and under “CAPITAL PROJECTS AND PLANNING–Other Anticipated Capital Needs–*Planning to Respond to Climate Change and Sea Level Rise.*”

In September 2022, the Airport prepared an IRF, which is a high-level guide to improve the resilience, or endurance, of its critical facilities and lifelines to ensure the continuity of service and to enable its essential role during local and regional recovery from a catastrophic event. The Airport’s critical facilities require upstream lifelines to which the Airport has significant dependencies such as utilities, data and voice communications, and transportation, to be fully functional. The IRF is intended to recommend high-level strategies and steps towards building a more resilient Airport, that is flexible, adaptive, and responsive through intentional and collaborative planning, design, construction, and operations. The IRF supports the Airport’s Emergency Plan and the soon-to-be updated Business Continuity Plan, which both assume infrastructure and utilities will be available for emergency response. The IRF is expected to be expanded into a complete capital and operational plan by the end of 2024, to reduce vulnerabilities to geologic and climatic hazards, shocks and stressors, with the goal of enabling the Airport to reduce the time and cost needed for infrastructure recovery and repair, thereby allowing the Airport to quickly resume operations across critical assets and services.

Projections of the direct (e.g. flooding) and indirect (e.g. disruption in access to or demand for the Airport) adverse impacts of global climate change on the City, the Airport and Airport tenants, and on Airport operations and infrastructure are likely to be material, and are complex and dependent on many factors that are outside the Airport’s control, including pending and possible regulations aimed at curbing the effects of climate change that may directly or indirectly materially adversely affect the operations and infrastructure or financial condition of the Airport. These include federal and state (including State) regulations and international accords pertaining to greenhouse gas emissions that could require significant upgrades to planes, increase the cost of jet fuel, require actions by the Airport to upgrade or retrofit infrastructure, or a combination, thus increasing the cost of, and potentially reducing passenger demand for, air travel (e.g., electrification and other carbon-reducing projects to meet new regulations). See “SAN FRANCISCO INTERNATIONAL AIRPORT–Certain Federal and State Laws and Regulations–*Current and Possible Regulation Related to Climate Change.*”

The various scientific studies that forecast climate change and its adverse effects, including sea level rise, flooding risk, settlement and subsidence, and decreased air quality, are based on assumptions contained in such studies, but actual events may vary materially. Also, the scientific understanding of climate change and its effects continues to evolve. Accordingly, the Airport is unable to predict with certainty when sea level rise, flooding risk, settlement and subsidence, decreased air quality, and other adverse effects, both known and unknown, or the confluence of these events or effects of climate change (e.g., the occurrence and frequency of extreme precipitation and king tides) will occur. As a result, the Airport cannot predict the precise timing or magnitude of adverse economic effects, including, without limitation, material adverse effects on the business operations or financial condition of the Airport and the local economy during the term of the Series 2024A-C Bonds. While the effects of climate change are attempted to be mitigated by the Airport’s past, current and future investments in mitigation and adaptation strategies and attempts to identify third party contribution and/or grant funding to finance mitigation and adaptation measures, the Airport can give no assurance about the net effects of those strategies, the feasibility of government or third party funding sources, and whether the Airport will be required to take additional adaptive mitigation or adaptation measures. If necessary, such additional measures could require significant capital resources.

Portions of the Airport and other portions of the San Francisco Bay Area, including the City, are built on fill that was placed over saturated silty clay known as “Bay Mud.” This Bay Mud is soft and compressible, and the compression of the Bay Mud under the weight of the existing fill is ongoing. A report issued in March 2018 by researchers at The University of California – Berkeley and the University of Arizona suggests that flooding risk from climate change could be exacerbated in the San Francisco Bay Area due to the sinking or settling of the ground surface, known as subsidence. The report claims that the risk of subsidence is more significant for certain parts of the City built on fill, including portions of the Airport and estimates that subsidence at the Airport may cause half of the runways and taxiways to be underwater by 2100. While holes from localized subsidence have occurred on some runways, the Airport has not experienced the uniform subsidence that is described in this report. However, the Airport cannot guarantee that significant subsidence will not occur in the future. Furthermore, subsidence could be exacerbated and the Airport may suffer major damage from liquefaction in a major earthquake, increased flooding during increased frequency of 100-year storms, and sea level rise. The Airport was constructed to the relevant codes at the time of construction, with renovations/upgrades also done in accordance with the relevant construction codes at the time. The portions of the Airport that are relatively new or have been recently renovated will be more resilient to the effects of subsidence, an earthquake, and flooding, while other portions may be more susceptible to damage.

Beyond the IRF, the Airport is focused on its role in city-wide resilience by participating in the City and County-convened “ClimateSF Working Group,” which is updating a hazard and climate resilience plan, and region-wide resilience as an active member of the Bay Area Corporate Climate Resilience Council, which offers a platform for like-minded San Francisco Bay Area companies to come together to mutually address shared regional climate risks and climate resilience priorities. This group is undertaking significant efforts to understand and prepare for the impacts of acute and chronic physical climate risks on their assets, operations, employees, and communities in the San Francisco Bay Area.

In addition, San Francisco departments, including the Airport, collaborated with climate scientists at LBNL and climate consultants at Pathways Climate Institute on the Precipitation Study to create a research team that focused on a better understanding of the frequency and strength of future precipitation events through climate modeling. Using supercomputing resources at LBNL’s National Energy Research Scientific Computing Center, the research team generated scientific data that predicted the effect of climate change on future storms is significant, leading to more powerful events unleashing substantially more water. The Airport’s resilience plan will reflect this data, recommend the timeline for updating the data, and suggest how best to apply it at the Airport through infrastructure improvements. This information provides information that may inform planning and policies of the City and the Airport to adapt to a changing climate with increasingly extreme storms via the collective work of ClimateSF Working Group.

For further discussion of some capital spending associated with sea level rise, see “CAPITAL PROJECTS AND PLANNING – Other Anticipated Capital Needs–*FEMA Flood Insurance Rate Map Update*,” “–*Shoreline Protection Program*” and “– *Planning to Respond to Climate Change and Sea Level Rise*.” Also see the discussion in “SAN FRANCISCO INTERNATIONAL AIRPORT–Current Airport Facilities–*Settlement, Subsidence and Liquefaction*” and the Airport Consultant’s discussion of climate change in “APPENDIX A—“REPORT OF THE AIRPORT CONSULTANT—AIRLINE TRAFFIC AND ECONOMIC ANALYSIS–Key Factors Affecting Future Airline Traffic–Climate Change Concerns.”

Some current and possible regulations related to climate change are discussed under “SAN FRANCISCO INTERNATIONAL AIRPORT–Certain Federal and State Laws and Regulations–*Current and Possible Regulation Related to Climate Change*.” The Commission is unable to predict what additional laws and regulations with respect to global and local adverse impacts of climate change, and the responsive actions and planning recommended and necessary to prevent such adverse impacts, will be adopted, or what effects such laws and regulations will have on the Airport, airlines operating at the Airport, other Airport tenants, or the local economy. The effects, however, could be material.

Cybersecurity

A large and complex technology environment is vital to the safe and efficient operation of the Airport, the airlines that serve the Airport, and other tenants. Despite security measures, information technology and infrastructure of the Airport, vendors and service providers that have Airport information, any of the airlines serving the Airport, or other tenants at the Airport may be vulnerable to attack by unauthorized entities or individuals attempting to benefit from access to the Airport’s information systems and networks. Cybersecurity threats include, but are not limited to,

hacking, viruses, malware and other attacks on the computing and other digital networks and systems (collectively, “Systems Technology”). The severity of such attacks can be amplified by vulnerabilities present in the hardware and software used within the Airport’s technology environment. Successful cybersecurity breaches could damage the Airport’s technology environment, compromise safety and security at the Airport, or cause material disruption to the Airport’s finances or operations.

The City has appointed a city-wide Chief Information Security Officer (“CCISO”), who is directly responsible for understanding the business and related cybersecurity needs of the City’s fifty-four departments, including the Airport. The CCISO is responsible for identifying, evaluating, responding to, and reporting on information security risks in a manner that meets compliance and regulatory requirements and aligns with and supports the risk posture of the City.

The City has adopted a City-wide Cyber Security Policy (the “Cyber Policy”) to support, maintain and secure critical infrastructure and data systems. The objectives of the Cyber Policy include the protection of critical infrastructure and information, managing risk, improving cybersecurity event detection and remediation, and facilitating cybersecurity awareness across all City departments. The City’s Department of Technology has established a cybersecurity team to work across all departments to implement the Cyber Policy, and the Cyber Policy is reviewed periodically.

To further mitigate the risk to operations and/or losses from cybersecurity threats, the Airport invests in multiple forms of cybersecurity and operational safeguards including 24/7 monitoring of the network and internet connectivity and annual cybersecurity assessments. The Airport also contractually transfers some cybersecurity risks to third party providers and contractors who have been granted access to Airport networks and information systems.

While Airport cybersecurity and operational safeguards are in place to protect against these threats, no assurance can be given by the Commission that such measures will fully ensure against cybersecurity threats and attacks. Cybersecurity breaches could result from unintentional events, or from deliberate attacks by unauthorized entities or individuals attempting to gain access to the Airport’s Systems Technology for the purposes of misappropriating assets or information or causing operational disruption and damage. Such breaches could damage the Airport’s computing and other digital networks and systems and cause material disruption to the Airport’s operations. The costs of remedying any such damages or protecting against future attacks could be substantial. Further, cybersecurity breaches could expose the Airport to material litigation and other legal risks, which could cause the Airport to incur material costs related to such legal claims and proceedings. The Airport has been the target of cybersecurity attacks in the past and such incidents are likely to occur in the future.

The airlines serving the Airport, SFO Fuel and other Airport tenants also face cybersecurity threats that could affect their operations and finances.

Credit Risk of Financial Institutions Providing Credit Enhancement and Other Financial Products Relating to Airport Bonds

The Commission has obtained credit enhancement agreements from a variety of financial institutions relating to its outstanding variable rate Bonds and Commercial Paper Notes, including letters of credit from commercial banks. See “AIRPORT’S FINANCIAL AND RELATED INFORMATION–Credit Facilities” and “SECURITY FOR THE SERIES 2024A-C BONDS–Reserve Fund and Reserve Accounts.”

During and following the U.S. recession in 2007-2009 each of the Rating Agencies downgraded the claims-paying ability and financial strength ratings of most of the nation’s monoline bond insurance companies and many commercial banks and other financial institutions, though many of the institutions have subsequently been upgraded. The Rating Agencies could announce downgrades of these entities in the future. Such adverse ratings developments with respect to credit providers could have an adverse effect on the Commission, including significant increases in its debt service costs.

Limitation of Remedies

Any remedies available to the Owners of the Bonds upon the occurrence of an Event of Default under the 1991 Master Resolution are in many respects dependent upon judicial actions which are in turn often subject to discretion and delay and could be both expensive and time-consuming to obtain. If the Commission fails to comply with its covenants under the 1991 Master Resolution including its covenant to pay principal of or interest on the Bonds, there can be no assurance that available remedies will be adequate to fully protect the interests of the Owners of the Bonds. The ability of the Commission to comply with its covenants under the 1991 Master Resolution and to generate Net Revenues sufficient to pay principal of and interest on the Bonds may be adversely affected by actions and events outside of the control of the Commission, or may be adversely affected by actions taken (or not taken) by voters or payers of fees and charges, among others. See “–Initiatives, Referenda and Charter Amendments” and “SAN FRANCISCO INTERNATIONAL AIRPORT–Certain Federal and State Laws and Regulations–*State Proposition 218*” and “–*State Proposition 26*.” Furthermore, the rate covenant included in the 1991 Master Resolution provides that if the requirement that Net Revenues together with any Transfer equal at least 125% of aggregate Annual Debt Service with respect to the Bonds is not met, so long as the Commission is taking specified steps to meet the rate covenant, an Event of Default will not be triggered until after the following Fiscal Year. See “SECURITY FOR THE SERIES 2024A-C BONDS–Rate Covenant.” The ability of the Commission to increase its rates, fees and charges and to reduce its expenses will be limited by, among other things, existing contracts, and state and federal law.

The Bonds are not subject to acceleration under any circumstances or for any reason, including without limitation upon the occurrence and continuance of an Event of Default under the 1991 Master Resolution. Moreover, the Bonds will not be subject to mandatory redemption or mandatory purchase or tender for purchase upon the occurrence and continuance of an Event of Default under the 1991 Master Resolution to the extent the redemption or purchase price of such Bonds is payable from Net Revenues. However, Bonds may be subject to mandatory redemption or mandatory purchase or tender for purchase if the redemption or purchase price of such Bonds is payable from a source other than Net Revenues such as a Credit Facility or Liquidity Facility.

In addition to the limitations on remedies contained in the 1991 Master Resolution, the rights and obligations under the 1991 Master Resolution may be subject to the limitations on legal remedies against charter cities and counties in the State, as well as applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors’ rights generally, now or hereafter in effect, the exercise by the United States of America of the powers delegated to it by the Constitution, the reasonable and necessary exercise, in certain exceptional situations, of the police powers inherent in the sovereignty of the State and its governmental bodies in the interest of serving a significant and legitimate public purpose, and to the application of general principles of equity, including, without limitation, concepts of materiality, reasonableness, good faith and fair dealing and the possible unavailability of specific performance or injunctive relief, regardless of whether considered in a proceeding in equity or in law. Bankruptcy proceedings, if initiated, could subject the Owners of the Bonds to judicial discretion and interpretation of their rights in bankruptcy proceedings or otherwise, and consequently may entail risks of delay or limitation or modification of rights. The various legal opinions to be delivered with respect to the Series 2024A-C Bonds are expected to be qualified by reference to bankruptcy, insolvency, reorganization, moratorium, fraudulent conveyance or transfer, and other laws relating to or affecting the rights and remedies of creditors generally; to the application of equitable principles, whether considered in a proceeding at law or in equity; to the exercise of judicial discretion; and to limitations on legal remedies against charter cities and counties in California. In the event the Commission fails to comply with its covenants under the 1991 Master Resolution, there can be no assurance that available remedies will be adequate to fully protect the interests of the holders of the Series 2024A-C Bonds.

Potential Effect of a City Bankruptcy

The City is authorized under California law to file for bankruptcy protection under Chapter 9 of the Bankruptcy Code. However, third parties cannot bring involuntary bankruptcy proceedings against the City. The Airport, being a department of the City and not a separate legal entity, cannot itself file for bankruptcy protection.

Should the City become a debtor in a bankruptcy proceeding, the owners of the Series 2024A-C Bonds would continue to have a lien on Net Revenues after the commencement of the bankruptcy case so long as the Net Revenues constitute “special revenues” within the meaning of the Bankruptcy Code. “Special revenues” are defined under the Bankruptcy Code to include, among other things, receipts by local governments from the ownership, operation or

disposition of projects or systems that are primarily used to provide transportation services. While the Net Revenues appear to be “special revenues,” no assurance can be given that a court would not determine otherwise. Bankruptcy courts have broad discretionary powers, and there is no binding judicial precedent dealing with the treatment in bankruptcy proceedings of airport revenues collected for the payment of bonds in California. If Net Revenues do not constitute “special revenues,” there could be delays or reductions in payments by the Commission with respect to the Series 2024A-C Bonds.

Furthermore, although the automatic stay arising upon the filing of a bankruptcy petition under Chapter 9 has historically been understood not to stay the City’s collection and application of “special revenues” to payment of bonds secured by such special revenues, if the City were to become a debtor in a proceeding under Chapter 9, the bankruptcy court could possibly decide that (i) post-bankruptcy Bond payments by the City are merely optional and not mandatory under the special revenues provisions of the Bankruptcy Code and/or (ii) the automatic stay exception for special revenues in those provisions does not apply to, among other things, possible enforcement action by the Trustee or is limited to amounts then on hand with the Trustee or the City. If the bankruptcy court were to interpret the Bankruptcy Code in that (or a similar) fashion, the parties to the proceeding might be prohibited from taking any action to collect the Net Revenues, to require payment to the Trustee, or to enforce any related obligation connected with the Series 2024A-C Bonds, without the bankruptcy court’s permission.

Even if the Net Revenues are “special revenues,” to enable continued operations of a municipal enterprise like the Airport, the Bankruptcy Code provides that special revenues can be applied first to necessary operating expenses of the project or system from which the special revenues are derived before they are applied to other obligations. This rule applies regardless of the provisions of the transaction documents which may otherwise be contrary or silent with respect to such payments. Thus, in a bankruptcy case of the City, the Net Revenues could be used to pay necessary operating expenses of the Airport before the remaining Net Revenues are turned over to the Trustee to pay amounts owed to the holders of the Series 2024A-C Bonds. It is not clear precisely which expenses would constitute necessary operating expenses of the Airport. In addition, there may be delays or reductions in payments on the Series 2024A-C Bonds in a Chapter 9 proceeding, especially if the City does not voluntarily pay Net Revenues in its possession to the Trustee.

Regardless of any specific determinations by a bankruptcy court in a City bankruptcy proceeding that may be adverse to the Airport or the Owners, the mere filing by the City for bankruptcy protection could have a material adverse effect on the marketability and market price of the Series 2024A-C Bonds.

Also see “SECURITY FOR THE SERIES 2024A-C BONDS – Pledge of Net Revenues; Source of Payment – *Pledge of Net Revenues*” for discussion of California Government Code 5450 *et seq.*, which provides, among other things, that the pledge of, lien on and security interest in Net Revenues and certain other funds granted by the 1991 Master Resolution is valid and binding from the time of issuance of the Series 2024A-C Bonds.

Also see “–Limitation of Remedies.”

Future Legislation and Regulation

The Airport is subject to various laws, rules and regulations adopted by the local, State and federal governments and their agencies. The Airport is highly regulated by federal agencies including the FAA, the TSA, Customs and Border Protection (“CBP”) and the U.S. Department of Health and Human Services. In the past, actions, rules and policies by these agencies (in particular the FAA, the TSA and CBP) have required the Airport to undertake additional capital and equipment expenditures, have affected passenger traffic, or both. The Commission is unable to predict the adoption or amendment of additional laws, rules or regulations, or their effect on the operations or financial condition of the Airport.

Initiatives, Referenda and Charter Amendments

The ability of the Commission to comply with its covenants under the 1991 Master Resolution, including to generate revenues sufficient to pay the principal of and interest on the Series 2024A-C Bonds, may be adversely affected by actions taken (or not taken) by voters. Under the State Constitution, the voters of the State have the ability

to initiate legislation or amendments to the State Constitution, and require a public vote on legislation passed by the State Legislature, through the powers of initiative and referendum, respectively. For example, see “SAN FRANCISCO INTERNATIONAL AIRPORT—Certain Federal and State Laws and Regulations—*State Proposition 218*” and “—*State Proposition 26*.” Interpretations of existing and future laws may change over time and such changes may impact the ability of the Commission to generate revenues. Furthermore, initiatives arise from time to time that could limit the ability of the Commission and other governmental entities to establish, amend, impose or extend fees and charges. For example, Initiative 1935, known as the “Taxpayer Protection and Government Accountability Act” (the “Initiative”), became eligible for the November 2024 ballot and would amend a number of State constitutional provisions impacting state and local government finances. The Initiative purports to further restrict the ability of local governments to impose, increase, or extend taxes, fees, and other charges, potentially retroactively to January 1, 2022. The full text of the Initiative is available at the website of the California Attorney General (which website is not incorporated herein by reference). This Initiative will become qualified for the ballot on June 27, 2024 for the next Statewide General Election in November 2024 unless withdrawn by the proponents prior to its qualification by the Secretary of State. The Commission is not able to predict the impact this initiative will have on the Commission’s ability to generate Revenues if the Initiative is approved by the voters, but the impact could be significant. Under the Charter, the voters of the City can restrict or revise the powers of the Commission through the approval of a Charter amendment. The Commission is unable to predict whether any other initiatives might be submitted to or approved by the voters, the nature of such initiatives, interpretations of initiatives or existing law, or their potential impact on the Commission or the Airport.

Potential Limitation of Tax Exemption of Interest on Series 2024A-C Bonds

From time to time, the President of the United States, the United States Congress and/or state legislatures have proposed and could propose in the future, legislation that, if enacted, could cause interest on the Series 2024A Bonds or the Series 2024B Bonds to be subject, directly or indirectly, in whole or in part, to federal income taxation or could cause interest on the Series 2024A-C Bonds to be subject to or exempted from state income taxation, or otherwise prevent Beneficial Owners from realizing the full current benefit of the tax status of such interest. Clarifications of the Internal Revenue Code of 1986, as amended (the “Code”), or court decisions may also cause interest on the Series 2024A Bonds or the Series 2024B Bonds to be subject, directly or indirectly, in whole or in part, to federal income taxation or may cause interest on the Series 2024A-C Bonds to be subject to or exempted from state income taxation. The introduction or enactment of any such legislative proposals or any clarification of the Code or court decisions may affect, perhaps significantly, the market price for, or marketability of, the Series 2024A-C Bonds. Prospective purchasers of the Series 2024A-C Bonds should consult their own tax advisors regarding any such pending or proposed federal or state tax legislation, regulations or litigation, as to which Special Tax Counsel expresses no opinion. See “TAX MATTERS.”

Risk of Tax Audit

The Internal Revenue Service (the “IRS”) includes a subdivision that is specifically devoted to tax-exempt bond compliance. If the IRS undertook an examination of the Series 2024A Bonds or the Series 2024B Bonds, or other Bonds issued by the Commission as tax-exempt bonds, it may have a material adverse effect on the marketability or the market value of the Series 2024A Bonds or the Series 2024B Bonds. The IRS has undertaken limited examinations of three prior issues of the Bonds since 2010, most recently in 2020. All three of those examinations were closed without the IRS taking any action. The Commission is not aware of any other IRS examination or investigation of its tax-exempt bonds since 2010. See “TAX MATTERS.”

Income Taxation Risk Upon Defeasance of the Series 2024C Bonds

In the event the Commission were to defease all or a portion of the Series 2024C Bonds, for federal income tax purposes, the Series 2024C Bonds that are the subject of such a defeasance may be deemed to be retired and “reissued” as a result of the defeasance. In such an event, a bondholder who owns such a Series 2024C Bond may recognize a gain or loss on the Series 2024C Bond at the time of defeasance. Holders who own Series 2024C Bonds should consult their own tax advisors regarding the tax consequences of a defeasance of the Series 2024C Bonds. See “TAX MATTERS –Series 2024C Bonds.”

SAN FRANCISCO INTERNATIONAL AIRPORT

Introduction

San Francisco International Airport, which is owned and operated by the City, is the principal commercial service airport for the San Francisco Bay Area. The Airport is located 14 miles south of downtown San Francisco in an unincorporated area of San Mateo County between the Bayshore Freeway (U.S. Highway 101) and the San Francisco Bay. In 2022, the Airport was ranked 14th in the United States in terms of passengers and 18th in terms of air cargo tonnage, according to Airports Council International-North America (“ACI-NA”). According to U.S. Department of Transportation (“U.S. DOT”) statistics, the Airport is also a major origin and destination point (14th in the United States in calendar year 2022). The Airport is one of the nation’s principal gateways for Pacific traffic and serves as a domestic hub and Pacific gateway for United Airlines. It also serves as a domestic hub for Alaska Airlines.

Organization and Management

Under the Charter, the Commission is responsible for the operation and management of the Airport, which is an enterprise department of the City. The Commission consists of five members appointed by the Mayor of the City for four-year overlapping terms. All appointments are subject to rejection by a two-thirds vote of the Board of Supervisors and any member may be removed by a three-fourths vote of the Board of Supervisors but only for official misconduct.

The current members of the Commission and their respective occupations and terms are as follows:

Current Members of the Commission

Member	Occupation	Term Ends August 31 of
Malcolm Yeung, <i>President</i>	Executive Director, Chinatown Community Development Center	2026
Everett A. Hewlett, Jr., <i>Vice President</i>	Formerly, Neutral with Alternative Disputes Resolution Services, Inc. Retired	2024
Jose Fuentes Almanza	Trustee, San Francisco Electrical Workers Health & Welfare	2026
Jane Natoli	Compliance Governance Lead, Lithic; San Francisco Organizing Director, YIMBY Action	2025
Mark Buell	Retired, Chair, Presidio Trust; Trustee, Golden Gate Conservancy	2027

Under the Charter, the Commission is responsible for the “construction, management, supervision, maintenance, extension, operation, use and control of all property, as well as the real, personal and financial assets which are under the Commission’s jurisdiction.” The Commission has the exclusive authority to plan and issue revenue bonds for airport-related purposes, subject to the approval, amendment or rejection by the Board of Supervisors.

Under the City Administrative Code, the Commission also has power to fix and adjust Airport rates, fees and charges for services and facilities provided by the Airport.

The Commission’s budget and certain Commission contracts and leases (generally, those for a term of more than ten years or involving revenue to the City of more than \$1,000,000 or expenditures of more than \$10,000,000), and modifications thereto, require approval of the Board of Supervisors. In addition, if any project is estimated to cost more than \$25 million, and more than \$1 million in predevelopment, planning or construction costs will be paid with City funds, then the Board of Supervisors is required to make a determination of fiscal feasibility prior to the

commencement of environmental review, if any, on such project. Certain actions of the Board of Supervisors are also subject to approval by the Mayor.

Other City departments provide various services to the Commission, including the Police Department, the Fire Department, the Water Department, the Hetch Hetchy Power Division, the Department of Public Works, the City Controller, the Purchasing Department, the Department of Technology and the City Attorney. See “AIRPORT’S FINANCIAL AND RELATED INFORMATION—Payments to the City—*Payments for Direct Services.*”

Airport Senior Management and Legal Counsel

Senior management is led by the Airport Director (the “Director”), who has the authority to administer the affairs of the Commission as the chief executive officer thereof. Under the Charter, the Director is appointed by the Mayor from candidates submitted by the Commission. Once appointed by the Mayor, the Director serves at the pleasure of the Commission. The City Attorney serves as the legal advisor to the Commission.

The Airport also has a Chief Operating Officer, a Chief Financial and Commercial Officer, a Chief Development Officer, a Chief External Affairs Officer, a Chief Digital Transformation Officer, and a Chief Resiliency & Sustainability Officer, all of whom report directly to the Director. The Divisions of Airport Services, Safety, Security & Airside Services, Customer Care, Facilities, People, Performance & Development, Strategy & Social Impact, Social Responsibility, Diversity, Equity & Inclusion, and Museum report to the Chief Operating Officer. The Divisions of Architectural Services, Engineering & Construction Services, and Project Management report to the Chief Development Officer. The Divisions of Aviation Marketing & Development, Aviation & Parking Management, Revenue Development & Management, Hotel Development & Special Projects, SFO Medical Clinic, Accounting, Finance and Risk Management report to the Chief Financial and Commercial Officer. The Divisions of Information Technology & Telecommunications and Contracts Administration report to the Chief Digital Transformation Officer. The Divisions of Marketing & Communications, Government Affairs, International Trade & Commerce, Protocol/Economic Liaison, the Public Information Officer, and Reprographics report to the Chief External Affairs Officer. The Divisions of Planning & Environmental Affairs, Sustainability & Environmental Policy, and Infrastructure Information Management report to the Chief Resiliency & Sustainability Officer. In addition to reporting to the Chief Operating Officer, the Division of Strategy and Social Impact also reports directly to the Director.

Because the Commission believes that the financial and operational performance of the Airport depends in part on the strategies and principles that have been followed by senior management in recent years, it has adopted several policies with the objective of maintaining continuity and continuing to follow such strategies and principles. These policies include, among others, policies on shared use of systems, infrastructure, and services by multiple airline tenants, concessionaires and others; maintenance of ownership by the Airport of its data and digital assets; maintaining a level playing field for all air carriers; controlling, developing and financing the Airport’s assets with limited use of public-private partnerships ensuring the Airport retains management control over Airport facilities development, financing, and operations and maintenance; ensuring that the Airport maintains a culture focused on the guest experience; ensuring a work environment where people come first; supporting actions for the Airport to strive to be a model for the aviation in climate action and leadership; and prioritizing acquisition and development of land located outside the current boundaries of the Airport to optimize operations.

Brief biographies of the principal members of the senior management and legal counsel at the Airport are set forth below:

Ivar C. Satero was appointed as Director effective July 21, 2016. Prior to this, he served as Chief Operating Officer from April 2014 until his appointment as Director. Prior to that, he served as Deputy Airport Director-Design and Construction Division from December 2003. From February 2002 through November 2003, he served as the Administrator of the Bureau of Design and Construction and then as the Administrator of Airport Development. From February 1994 to February 2002, Mr. Satero was the Program Manager of transit projects for the Airport’s Master Plan Program, including the AirTrain System and the Bay Area Rapid Transit (“BART”) extension to the Airport. Prior to joining the Airport in February 1994, Mr. Satero worked for the Public Utilities Commission of the City as Project Engineer/Project Manager for various municipal railway and Hetch Hetchy water system capital improvement

projects. Mr. Satero has announced that he plans to retire in December 2024. The Commission is developing plans to recruit his replacement.

Kevin Bumen was appointed Chief Financial and Commercial Officer in November 2022. Prior to serving in this capacity, Mr. Bumen served as Chief Commercial Officer beginning in October 2020, overseeing the Airport's revenue generating departments, including Aviation Management, Hotel and Special Projects, Parking Management, and Revenue Development and Management. Prior to joining Airport staff, Mr. Bumen served as the Director of Airports for San Luis Obispo County as well as Director of Aviation and Business Services for Truckee Tahoe Airport District. Mr. Bumen is Past President of the California Airports Council and is currently serving on the Board of Directors of the American Association of Airport Executives and Airports Council International – North America.

Jeff Littlefield was appointed Chief Operating Officer in July 2016. Prior to this, he served as the Deputy Airport Director-Operations and Security from 2011 until taking on his new role, and as Deputy Airport Manager from 2008 to 2011. Prior to joining the Airport, Mr. Littlefield was employed by United Airlines for 21 years in a variety of operational capacities, including nine years as General Manager at Oakland Airport.

Judi Mosqueda was appointed Chief Development Officer in November 2022. In this capacity, she oversees Design and Construction for the Airport, including Architecture, Engineering, Procurement and Contracts, and Project Management. Prior to her role as Chief Development Officer, Ms. Mosqueda served as the Director of Project Management for eight years and led the successful implementation of over \$5 billion in major capital projects. Prior to that, Ms. Mosqueda was a project manager responsible for implementing a wide range of project types for the Airport and other departments of the City. Ms. Mosqueda is a licensed landscape architect with over 30 years of experience in design and construction.

Geoffrey W. Neumayr was appointed Chief Resilience & Sustainability Officer in November 2022. Prior to serving in this role, he served as Chief Development Officer from July 2016. Prior to this, he served as Deputy Director of Design and Construction beginning in 2014. Mr. Neumayr joined the Airport staff as Associate Deputy Airport Director of Design and Construction in August 2011. Prior to that, he was Vice President of Operations of the Allen Group, LLC for 15 years. With the Allen Group, LLC, Mr. Neumayr served as the Project Manager for many of the Airport's construction projects. Prior to joining the Allen Group, LLC in 1995, Mr. Neumayr was an Associate with the architectural and engineering firm of the Watry Design Group where he served as a project manager. Mr. Neumayr is a licensed civil and structural engineer with over 30 years of experience in design and construction. Mr. Neumayr has announced that he plans to retire in August 2024. The Commission plans to conduct a nationwide search for his replacement.

Cathy Widener was appointed Chief External Affairs Officer in June 2023. As Chief External Affairs Officer, Ms. Widener oversees Government Affairs, Communications, Marketing, Reprographics, Protocol and International Trade and Commerce. In this capacity, Ms. Widener focuses on ensuring governmental actions benefit the Airport, leads the team that concentrates on ensuring internal and external stakeholders are well informed and helps drive the promotion of the Airport as a premier gateway to California and the United States. Prior to her current appointment, Ms. Widener served as Acting Chief External Affairs Officer from June 2021. Prior to joining Airport staff, Ms. Widener served as the Bay Area Field Representative for U.S. Senator Dianne Feinstein and in public policy positions at EMILY's List and the San Francisco Chamber of Commerce. Ms. Widener has worked in government and politics for more than 20 years.

Iyad Hindiyeh was appointed Chief Digital Transformation Officer in June 2023. Mr. Hindiyeh is driving the digital transformation and technology platforms across the airport. Prior to joining the Airport, Mr. Hindiyeh served in senior leadership positions within several organizations operating in the aviation industry with extensive experience leading technical, commercial and operations departments. Mr. Hindiyeh held CEO, COO, and SVP Strategy positions for global organizations operating in the aviation industry. He has over 25 years' experience in airports, airlines and industry regulatory bodies. Mr. Hindiyeh holds a bachelor's degree in electrical engineering from California Polytechnic State University.

Julie Veit was appointed Airport General Counsel in September 2021. Ms. Veit manages the on-site Airport Legal Division for the San Francisco City Attorney. The division provides a full range of in-house legal services to the Commission (leases and permits, environmental/land use regulations, construction, operations (security/safety),

contracts, labor, municipal finance, litigation, and general government). Ms. Veit joined the Office of the San Francisco City Attorney in 2014 as a Deputy City Attorney and advised San Francisco public agencies on public work projects, professional services contracts, permit programs, and ground transportation, and drafted legislation. Prior to joining the Office of the City Attorney, Ms. Veit was in private practice for over ten years litigating cases on behalf of public agencies.

Current Airport Facilities

Airfield

The Airport's runway and taxiway system occupies approximately 1,700 acres and includes four intersecting runways, three of which are equipped with instrument landing systems for arrivals. The two east-west runways are 11,870 and 11,381 feet long, respectively. The two north-south runways are 8,650 and 7,650 feet long, respectively. The current runway system can accommodate the arrival and departure at maximum loads of all commercial aircraft currently in service, including the Airbus A380. The runways are built on bay tidelands that were filled before, during, and after World War II. As a result, the runways continue to settle at various rates and require periodic repair and maintenance work. See "CERTAIN RISK FACTORS—Risks Associated with Global Climate Change" above and "—*Settlement, Subsidence and Liquefaction*" below. The Airport's ability to expand in the long-term may be constrained by the Airport's footprint and surrounding geography.

Terminals

International Terminal. The International Terminal Complex, or "ITC," which was completed in 2000, is a 2.5 million square foot facility located directly above an access roadway network and houses check-in, Federal Inspection Station (Customs and Border Protection) ("FIS") facilities, baggage facilities, concessions, and airline offices. The approximately 1.7 million square foot terminal connects to two boarding areas, which have a combined space of approximately 872,000 square feet. The ITC includes an approximately 239,000 square foot FIS facility capable of processing approximately 5,000 passengers per hour. The Airport owns and the airlines maintain the common use baggage system that supports all airlines in the ITC.

Other Airport Terminals. In addition to the ITC, the Airport has three other terminal buildings (together with the ITC, the "Terminal Complex") consisting of a total of approximately 3.2 million square feet of space.

Harvey Milk Terminal 1 ("Terminal 1"), Terminal 2 and Terminal 3 handle primarily domestic flights, flights to and from Canada, and some flights to Mexico. Terminal 1 improvements are currently in the final phase of construction. The first three phases, consisting of a total of 22 gates, opened in July 2019, April 2020 and May 2021. The fourth and final phase, consisting of the northern half of the terminal, was initially suspended as a result of the COVID-19 pandemic until March 2022, when Airport management reinstated the project. The remainder of the work in the final phase includes a new building envelope, check-in counters, secure and non-secure connectors between Boarding Area B and Boarding Area C, and two gates. The work is expected to be completed in the summer of 2024.

In April 2011, the Airport unveiled the renovated Terminal 2. In 2014 and 2016, parts of Terminal 3 were renovated to provide the same customer experience and environmental standards as Terminal 2. See "CAPITAL PROJECTS AND PLANNING—The Capital Improvement Plan—*Major Ascent Program—Phase 1.5 Capital Projects—Terminals*" for discussion of terminal projects in the CIP.

AirTrain System

The AirTrain System provides elevated automated rapid transit service over a "terminal loop" to serve the Terminal Complex and over a "north corridor loop" to serve the rental car facility, long-term parking, and other locations situated north of the Terminal Complex. AirTrain System stations are located at the north and south sides of the ITC, Terminals 1, 2 and 3, at the two short-term ITC parking garages at the Airport's BART station, at the On-Airport Hotel, on North McDonnell Road to serve the West Field area, on Lot "D" to serve the rental car facility, and at the newly constructed Lot "DD" between the long-term parking garages. The AirTrain System runs 24 hours per day, seven days per week. See "—*Public Parking and Rental Car Facilities.*"

Gates

The Airport has 106 operational gates, 46 of which can accommodate widebody aircraft and nine of which can accommodate “New Large Aircraft” (described in the following paragraph), as of April 2024. Of the 106 gates, 25 gates are located in the ITC, 22 in Terminal 1, 24 in Terminal 2, and 35 in Terminal 3. The Airport expects to open one additional gate in each of Terminal 1 and Terminal 2, and close one gate in Terminal 2 in June 2024. The ITC has one bus gate, where passengers are transported by bus between the terminal gate and a remote aircraft parking position located on the airfield. Bus gates count as operational gates. All 25 gates in the ITC and four of the gates in Terminal 1 are connected to the FIS and are capable of accepting international arrivals. These are known as “swing gates” because they can serve either domestic or international activity.

Generally, existing major airport facilities in the United States are designed for aircraft having a maximum wingspan of 213 feet. New Large Aircraft (such as the Airbus A380) (“NLAs”) have a wingspan of between 225 and 262 feet. The Airport currently has five operational gates in the ITC and four gates in Terminal 1 with sufficient clearance to accept NLAs.

From time to time, gates are taken out of service during periods of construction and renovation. The Commission expects to maintain at least 90 operational gates during ongoing terminal renovation projects.

Domestic contact gates are assigned to airlines on a preferential or common use basis while swing gates (gate connected to the Federal Inspection Station) and all remote gates (i.e., any gate where a passenger boarding bridge does not dock directly to an aircraft) are assigned on a common use basis. Gates assigned to an airline for preferential use are allocated on an annual basis in accordance with a formula taking into account each airline’s share of scheduled seats, although the first reallocation under the Lease and Use Agreements that became effective on and after July 1, 2023 will not take place until March 2025. Airlines with decreasing traffic may thus lose preferential-use gates, which can be allocated to other airlines with increasing traffic or reserved for common use. Any preferential-use gate can also be used by any airline when it is not actively being used by the airline to which it is allocated. See “–Airline Agreements–*Lease and Use Agreements*” and APPENDIX E–“SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS.”

Air Traffic Control Tower

Construction of a new 221-foot tall Air Traffic Control Tower was completed in August 2015. The FAA activated and commissioned the new Air Traffic Control Tower in October 2016. The Air Traffic Control Tower also includes an integrated building in the base of the tower, providing public space, public restrooms, a secure connector linking Boarding Area C with Boarding Area D, and a non-secure connector linking Terminal 1 and Terminal 2.

SFOTEC

The San Francisco Terminal Equipment Company, LLC (“SFOTEC”) is a consortium of airlines that was formed to use, operate and maintain certain Airport-owned equipment and systems related to handling flights and passengers at the ITC. This equipment includes computer check-in systems with baggage and boarding pass printers, baggage handling systems, passenger boarding bridges, systems for delivering preconditioned air to aircraft and ground power for aircraft. SFOTEC also manages the daily assignment of the ITC joint use gates, holdrooms, check-in counters and baggage systems for the airlines (including some domestic airlines) operating in the ITC in accordance with Airport-approved management protocols established under the Lease and Use Agreements between the Airport and its Signatory Airlines.

The Airport and SFOTEC entered into an International Terminal Equipment Maintenance and Operating Agreement in July 2012, which presently continues on a month to month holdover basis, pursuant to which SFOTEC is obligated to maintain and repair certain systems as well as operate and schedule the use of such equipment; pay the associated fees related to equipment support, utility and custodial costs; and provide nondiscriminatory access to such equipment for all ITC carriers, whether or not they are members of SFOTEC. The costs of operating and maintaining the equipment are shared by all airline users of the equipment. The user fees for airlines that are members of SFOTEC

are determined pursuant the terms of the SFOTEC Members Agreement. Nonmember airlines are subject to a separate rate based on use.

Jet Fuel Distribution System

The Airport leases its on-Airport jet fuel receiving, storage, distribution and other related facilities (collectively, the “Fuel System”) to SFO Fuel. Airlines providing substantially all of the regularly scheduled service to the Airport are members of SFO Fuel. Pursuant to an interline agreement governing the business relationship between SFO Fuel and its members, the members of SFO Fuel are jointly responsible, on a step-up basis, for all costs, liabilities and expenses of SFO Fuel. SFO Fuel, and not the Commission, is responsible for the management and operation of the Fuel System. Operation and management of the Fuel System is performed by Aircraft Services International, Inc., a wholly owned subsidiary of Menzies Aviation Inc., pursuant to an agreement with SFO Fuel.

The Fuel System currently includes a pipeline distribution system consisting of two 24” main distribution lines traveling from the SFO Fuel tank farm facility through a series of valves and vaults to the individual boarding areas. These lines provide redundancy in the event of any issues with the system. The Fuel System includes a fuel supply terminal loop around the Terminal Complex, and various hydrant systems from the pipeline loop to the gates, all of which are leased to SFO Fuel by the Airport; total above-ground storage tanks (owned by the Airport and leased to SFO Fuel and others owned by SFO Fuel) representing a total nominal storage capacity of just over 531,000 barrels, which represents more than seven days of operations based on consumption in the third quarter of 2023. All storage tanks are located on land leased by SFO Fuel from the Airport.

SFO Fuel has an arrangement with Kinder Morgan’s Brisbane Terminal for an additional 150,000 barrels of storage capacity (representing approximately two days of operations based on consumption in the third quarter of 2023) of off-Airport jet fuel storage capacity.

Airlines and fuel suppliers are responsible for the procurement and delivery of jet fuel to the Fuel System. Competitive into-plane service providers are responsible for delivery of jet fuel into-aircraft from the Fuel System.

On-Airport Hotel

The Airport owns a 351-room hotel, known as the Grand Hyatt at SFO, located on the Airport property with direct access to all of the terminals via the AirTrain System. The hotel opened in October 2019 and is operated by the Hyatt Corporation as a four-diamond hotel under a long-term management agreement between the Commission and Hyatt Corporation. This agreement currently expires in October 2031, unless terminated earlier by either party as further provided in the agreement, and the Airport has the right to extend the term for an additional five years.

Bay Area Rapid Transit (“BART”) Service to the Airport

BART has provided direct service to the Airport since 2003. This service provides a convenient connection between the Airport and the greater San Francisco Bay Area that is served by BART. BART service to the Airport travels directly through San Francisco from various points in the East Bay. Additionally, an intermodal station in the City of Millbrae provides a direct link between BART and Caltrain offering additional transit options and connection to the southern parts of the San Francisco Bay Area as well as the City. BART pays the Airport \$2.5 million per year in rent for the BART station in the ITC, plus an additional amount (which amount was approximately \$890,400 for Fiscal Year 2022-23) for custodial and electrical support services.

Public Parking and Rental Car Facilities

Public Parking. A 5,246 space (including employee parking spaces) hourly Domestic Parking Garage is connected to the three domestic terminals by seven pedestrian tunnels and three pedestrian bridges. The Domestic Parking Garage features ParkFAST, reserved covered parking with an automated entry and exit system, and ParkVALET, a valet service to all terminals (domestic and international). Valet services are currently suspended because of the COVID-19 pandemic. Two additional public garages located near the ITC and accessible by the

AirTrain System provide 2,990 spaces (including employee parking spaces) for short-term parking. Approximately 7,296 spaces are available for public long-term parking approximately 1.5 miles from the Terminal Complex.

Rental Car Facility. An approximately 5,000 space, full-service rental car facility (the “Rental Car Center”) for all on-Airport rental car companies is located approximately one mile north of the Terminal Complex and is accessed from the terminals by the AirTrain System.

Off-Airport Parking Facilities. Parking facilities located near the Airport and operated by private companies offer more than 6,000 public remote parking spaces for Airport patrons.

Maintenance and Cargo Facilities

Airlines have made various investments in facilities at the Airport. The United Airlines maintenance center, containing approximately three million square feet of building and hangar floor area, is one of the country’s largest private aircraft maintenance facilities. United Airlines also operates a large cargo facility at the Airport. Both of these facilities are located on land owned by the Airport but ground leased to the airline with title to the improvements vesting in the Airport upon the expiration of the leases. American Airlines also operates a major maintenance facility at the Airport, and certain other airlines and aviation support companies lease and operate significant cargo, maintenance and other facilities at the Airport.

West Field

The Airport’s West Field area includes air cargo, mail sortation, catering, and Airport support facilities, the Airport’s rental car center, ground service equipment and aircraft line maintenance facilities, aircraft parking, and employee vehicle parking. Given the limited physical footprint of the Airport, the West Field is already space constrained, but the West Field’s prime location near the terminal complex makes it a valuable site for further development. Some of the current CIP capital projects in this area include an administration campus building, a garage and cargo expansion buildings.

Seismic Design of Airport Facilities

The Airport’s facilities are assigned to Seismic Design Category (“SDC”) E or F under current building codes. An SDC is a classification assigned to a structure based on its occupancy and on the level of expected ground motion in the event of an earthquake. The SDCs range from Category A (corresponds to buildings that present a low hazard to human life located in areas with very little seismic vulnerability) to Category F (corresponds to essential facilities located near major active faults).

The ITC was designed as an “essential facility” (i.e., a facility that is immediately occupiable following a maximum credible seismic event), exceeding the minimum applicable design requirements for a building of its type. In addition, other buildings and facilities constructed by the Airport during the 1990s and early 2000s as part of the Airport’s Master Plan Expansion Program were designed to comply with, and in some cases exceed, the then-current seismic design standards. These facilities include the AirTrain System (guideway, stations, and maintenance building); the elevated circulation roads and inbound/outbound freeway ramps; international, long-term and employee parking garages; the Rental Car Center; the Communications Center located in a portion of the North Connector Building that links Terminal 2 to Terminal 3; and the on-Airport BART station and guideway. In the late 2000s, the Airport also completed a seismic retrofit of the Airport’s upper level viaduct, bringing it up to then-current seismic design standards. All new Airport projects are required to meet current pertinent building codes, which include seismic.

As part of the Airport’s Terminal 2 Renovations program, the Terminal 2/Boarding Area D facility received a seismic upgrade which allowed the facility to meet then-current (as of 2007) seismic standards.

The Air Traffic Control Tower, which was activated in 2016, was designed as an essential facility. The FAA has developed contingency plans for the operation of air traffic control functions from a temporary site in the event the Air Traffic Control Tower is rendered inoperable due to a seismic event. Such remote operations could result in a

reduction in air traffic control service levels and capabilities, and may have a significant impact on the airspace system supporting the Airport.

Terminals 1 and 3 and certain boarding areas in these terminals do not meet current seismic requirements. Improvements are currently in various stages of design and construction to bring these terminals and boarding areas into compliance. See “CAPITAL PROJECTS AND PLANNING–The Capital Improvement Plan.” Terminal 1/Boarding Area B, which opened in phases in 2019 and 2020, was built to then-current seismic design standards. The final phase of the Terminal 1 renovation is expected to open in the summer of 2024. Terminal 3 is being renovated in phases. In the first phase, Boarding Area E was renovated and reopened in 2014 and was upgraded to then-current seismic design standards. In the second phase, Terminal 3 East was renovated and reopened in 2015 and was upgraded to then-current seismic design standards. The third and fourth phases, the renovation of Terminal 3 West and East Addition, are currently under renovation and are anticipated to open in phases between 2027 and 2030. The final phase, the full renovation of Boarding Area F, is currently undergoing environmental review and is not yet in the current CIP. See “CAPITAL PROJECTS AND PLANNING–The Capital Improvement Plan.”

See “CERTAIN RISK FACTORS–Seismic and Other Natural Disasters or Emergencies” for further discussion of the seismic risks facing the Airport.

Settlement, Subsidence and Liquefaction

Portions of the Airport and other portions of the San Francisco Bay Area, including the City, are built on historic fill that was placed over saturated silty clay known as “Bay Mud.” This Bay Mud is soft and compressible, and the compression of the Bay Mud under the weight of the existing fill is ongoing, resulting in sinking or settling of the ground surface known as subsidence. Subsidence can be exacerbated by liquefaction when loosely packed, water-logged sediments compress rapidly from strong ground shaking, significantly lowering the ground surface, potentially causing significant structural damage. A significant majority of the Airport is within liquefaction hazard zones. The Airport has been monitoring ground settlement for decades. Over the years, the collected information shows very minor, localized settlement of well below one inch per year, with a trend of decreasing settlement rates over time. The Airport will continue to monitor ground settlement to determine if any mitigation is necessary to protect the Airport and its economic benefit to the region. The Airport mitigates such minor settlement through regular localized fill and repair. The Airport’s runway rehabilitation and overlay program keeps the runways and taxiways in safe operation.

A report issued in March 2018 by researchers at The University of California – Berkeley and the University of Arizona suggests that flooding risk from climate change could be exacerbated in the San Francisco Bay Area due to subsidence, particularly in certain parts of the City built on fill, including portions of the Airport. The report further estimates that subsidence at the Airport may cause half of the runways and taxiways to be underwater by 2100. While holes from localized subsidence have occurred on some runways, the Airport has not experienced the uniform subsidence that is described in this report. Also see “CERTAIN RISK FACTORS–Risks Associated with Global Climate Change.”

On-Time Performance and Congestion

On-time flights are defined by the U.S. DOT as any flight that arrives or departs within 15 minutes of the scheduled arrival or departure time. Arrival on-time performance is typically lower at the Airport than at the two other San Francisco Bay Area airports primarily due to the prevalence of low clouds and fog around the Airport at various times of the year. In good weather conditions (cloud ceiling of at least 3,600 feet), up to 60 planes per hour can land at the Airport. During adverse weather conditions (cloud ceiling of between 1,600 feet and 3,600 feet), up to 40 planes per hour can land at the Airport. 76% of domestic arrivals were on time at the Airport in the period from January 2023 through December 2023, as compared to 79% at Oakland Airport and 81% at San Jose Airport.

A runway “slot” is an authorization to either take-off or land at a particular airport on a particular day during a specified time period. “Slot control” involves imposing limits on planned aircraft operations, to limit scheduled air traffic at certain capacity constrained airports. It is a tool used in the United States and around the world to manage air traffic at airports which have been designated as Level 3.

Under the International Air Transport Association Worldwide Slot Guidelines, airports are designated at levels indicating their degree of congestion. Level 1 airports have sufficient capacity to meet demand. Level 2 airports have potential for congestion during some periods of the day, which can be managed through mutual cooperation of the carriers with a schedule facilitator. Level 3 airports have significant potential for delays and are under mandatory slot control, meaning that airlines must obtain advance approval to operate during slot controlled hours. In 2012, the FAA changed the Airport's designation to a Level 2 airport. If the FAA were to designate the Airport to be a Level 3 airport in the future, the FAA could cap airline operations at the Airport and airlines at the Airport could be subject to FAA-administered slot control, which could affect the Commission's ability to manage airline operations at the Airport.

The Airport expects one runway to be closed for approximately five months in early 2024 for a project that will result in the realignment of two taxiways to improve safety. This runway closure commenced in mid-January, 2024. This closure reduces flight arrival capacity at the Airport, potentially leading to increased delays. Although operational disruptions are anticipated, the Airport is actively working to mitigate potential delays with the FAA and airlines. Barring abnormal weather conditions, average delays of 15-30 minutes are expected, with no more than 60 minutes during peak hours.

Airport Security

The Airport continually evaluates its security policies, processes and systems to reduce vulnerabilities and mitigate risk and enhance its security profile. Pursuant to the Aviation and Transportation Security Act, the TSA operates security checkpoints at the Airport. The Airport is one of approximately 22 airports in the nation at which the TSA operates security through its Screening Partnership Program, under which security screening services at commercial airports to qualified private companies. The employees of the private security firm undergo the same training and are under the same TSA management as federal-employed security operating at other United States airports. The Screening Partnership Program at the Airport has been in operation since 2002. The Airport maintains a 7/24/365 Security Operations Center which has surveillance and mitigation capabilities across the Airport including the Airport's Water Perimeter Intrusion System, which protects the water perimeter around the airfield. The Airport also has a Safety Management System, which it implemented years ahead of the regulatorily required timeline, that proactively surfaces areas of concern and mitigates against safety risks at the Airport.

Airline Service

General

For the first seven months of Fiscal Year 2023-24, the Airport was served by 61 passenger airlines and five cargo-only airlines. Domestic passenger air carriers provided non-stop service to 82 destinations and scheduled one-stop service to an additional 15 destinations in the United States. Passenger airlines provided non-stop scheduled passenger service to 56 international destinations and scheduled one-stop service to one additional international destination.

For Fiscal Year 2022-23, the Airport was served by 56 passenger airlines and 5 cargo-only airlines (as compared to 60 passenger airlines and five cargo-only airlines in Fiscal Year 2019-20, which included a period before the COVID-19 pandemic, and as compared to 53 passenger airlines and 6 cargo-only airlines in Fiscal Year 2021-22). Domestic passenger air carriers provided non-stop service to 88 destinations and scheduled one-stop service to an additional 16 destinations in the United States. Passenger airlines provided non-stop scheduled passenger service to 52 international destinations. The figures in this and the preceding paragraph reflect service that was provided at any time during the applicable time period. For further discussion of airlines serving the airport and service from the Airport, see APPENDIX A—"REPORT OF THE AIRPORT CONSULTANT—AIRLINE TRAFFIC AND ECONOMIC ANALYSIS—Historical Airline Traffic and Service."

During Fiscal Year 2022-23, United Airlines (including SkyWest Airlines/United Express) handled 46.7% of the total enplaned passengers at the Airport; Alaska Airlines (including Horizon Air and SkyWest Airlines/Alaska Airlines) handled 12.3% of total enplaned passengers; and Delta Air Lines (including SkyWest Airlines/Delta Connection) handled 7.9% of total enplaned passengers.

Although United Airlines (including SkyWest Airlines/United Express) handled 46.7% of the Airport's total enplanements during Fiscal Year 2022-23, audited results for Fiscal Year 2022-23 indicate that payments by United Airlines accounted for 26.2% of the Airport's operating revenues.

Air Carriers Serving the Airport

The following table lists the air carriers reporting enplaned passengers and/or enplaned cargo at the Airport during the first seven months of Fiscal Year 2023-24.

**AIR CARRIERS REPORTING AIR TRAFFIC AT THE AIRPORT
First Seven Months of Fiscal Year 2023-24⁽¹⁾**

* Indicates a Signatory Airline (defined below) to a Lease and Use Agreement.

⁽¹⁾ Includes all airlines that served the Airport at any time during the first seven months of Fiscal Year 2023-24.

⁽²⁾ Provides international and domestic air passenger service at the Airport.

⁽³⁾ Level Airlines operates under Iberia's permit.

⁽⁴⁾ Norse Atlantic UK ceased service at the Airport as of October 2023.

⁽⁵⁾ Airlines designated as affiliates by Signatory Airlines per the Lease and Use Agreement. Affiliates may (i) be a wholly-owned subsidiary of a Signatory Airline, (ii) be a subsidiary of the same corporate parent of the Signatory Airline, (iii) share flight codes with a Signatory Airline, or (iv) operate cargo feeder flights under the direction and control of a Signatory Airline. Affiliates do not sell their own seats or flights at the Airport.

Source: Commission.

Low-Cost Carriers

During Fiscal Year 2022-23, domestic low-cost carriers serving the Airport included Frontier Airlines, jetBlue Airways, Southwest Airlines, Sun Country Airlines and Breeze. Four international low-cost carriers, French Bee, WestJet Airlines, Flair Airlines and ZIPAIR Tokyo, served the Airport in Fiscal Year 2022-23. A “low-cost carrier” is an airline that operates under a generally recognized low-cost business model, which may include a single passenger class of service, use of standardized aircraft, fewer in-flight services, use of less expensive airports, and lower employee wages and benefits.

Passenger Traffic

Overview

For calendar year 2022, the Airport was ranked the 14th most active airport in the United States in terms of total passengers, according to data from ACI-NA.

While the significant economic impacts from the pandemic have abated, due to the significant economic and demographic shifts that occurred during the pandemic and its aftermath, the Airport believes that ultimately levels of and trends in passenger traffic remain uncertain.

Passenger traffic data for the past ten Fiscal Years and the first seven months of Fiscal Years 2022-23 and 2023-24 is presented in the table below.

PASSENGER TRAFFIC

Fiscal Year	Scheduled Passenger Aircraft Arrivals and Departures ⁽¹⁾		Passenger Enplanements and Deplanements				Total	
	Total	% Change	Domestic	% Change	International	% Change	Total	% Change
<i>First Seven Months 2023-24</i>	223,309	12.5%	21,538,053	8.4%	8,772,276	24.7%	30,310,329	12.7%

⁽¹⁾ Includes air carrier and air taxi operations.

⁽²⁾ Data for Fiscal Year 2019-20 includes estimates for one airline for March 2020. That airline comprised less than 0.1% of enplanements in the first six months of Fiscal Year 2019-20.

Source: Commission.

Aircraft arrivals and departures and passenger traffic declined substantially in Fiscal Year 2019-20 and Fiscal Year 2020-21 as a result of the COVID-19 pandemic. Passenger traffic began to recover in early 2021 from its pandemic low. The passenger traffic recovery was mainly driven by domestic demand through the first half of the Fiscal Year 2021-22 and gained further strength in international travels following the easing of travel restrictions to Europe in the second quarter and Canada in the third quarter of the same Fiscal Year. With the lifting of COVID-19 restrictions in FY 2022-23, passenger traffic recovery gained more momentum especially in the international sector. During the first nine months of Fiscal Year 2023-24, overall international enplanements were 2.8% higher than during

the corresponding period in Fiscal Year 2018-19, though enplanements to Asia, Central America and Europe were lower than in the first nine months of Fiscal Year 2018-19. Domestic enplanements remain 14.8% lower than during the corresponding period in Fiscal Year 2018-19.

Scheduled aircraft arrivals and departures totaled 280,639 in the first nine months of Fiscal Year 2023-24, an increase of 6.4% from the corresponding period in Fiscal Year 2022-23. During the first nine months of Fiscal Year 2023-24, domestic passenger enplanements and deplanements were 26,837,434, up 7.3% from the corresponding period in Fiscal Year 2022-23, international enplanements and deplanements were 11,015,088, up 24.1% from the corresponding period in Fiscal Year 2022-23, and total enplanements and deplanements were 37,852,522, up 11.7% from the corresponding period in Fiscal Year 2022-23.

During Fiscal Year 2022-23, an estimated 81.8% of the passenger traffic at the Airport was “origin and destination” traffic, where San Francisco is the beginning or end of a passenger’s air trip. This relatively high percentage of origin and destination traffic is in contrast to many other major airports which have a higher percentage of connecting passengers, largely as a result of airline hubbing practices. Historically, when airlines have reduced or ceased operations at the Airport, other airlines have absorbed the passenger demand with no significant adverse impact on Airport revenues.

Enplanements

Total Enplanements.

Total enplanements for the Airport’s ten most active airlines for Fiscal Years 2018-19 through 2022-23 and for Fiscal Year 2022-23’s top ten airlines during the first seven months of Fiscal Year 2023-24 (with comparative data for the same period in Fiscal Year 2022-23) are shown in the table below, ranked in the order of the results from Fiscal Year 2022-23. Enplanements for airlines include enplanements by affiliates. Total enplanements for the first nine months of Fiscal Year 2023-24 were 18,855,430, up 11.8% from the corresponding period in Fiscal Year 2022-23.

Cargo Traffic and Landed Weight

Cargo Traffic

In Fiscal Year 2022-23, according to traffic reports submitted by the airlines, Airport air cargo volume (on and off) was approximately 454,121 metric tons, including U.S. mail, freight and express shipments, a decrease of 91,214 metric tons (-16.7%) compared to reported cargo volume for Fiscal Year 2021-22. A total of approximately 271,288 metric tons was international cargo, mail, freight and express shipments (a decrease of 16.8% compared to Fiscal Year 2021-22) and approximately 182,834 metric tons was domestic cargo, mail, freight and express shipments (a decrease of 16.6% compared to Fiscal Year 2021-22). The Airport was ranked 18th in the United States in terms of air cargo volume in calendar year 2022, according to data from ACI-NA. Cargo volume can vary depending on a number of factors including, but not limited to, the local and global economies, fuel prices, tariffs on shipments, personal and business consumption of goods, the sources of such goods, and labor issues at shipping ports. See “AIRLINE TRAFFIC AND ECONOMIC ANALYSIS—Historical Airline Traffic and Service—Cargo” in APPENDIX A for additional factors affecting cargo volume generally.

In the first seven months of Fiscal Year 2023-24, according to traffic reports submitted by the airlines, Airport air cargo volume (on and off) was approximately 302,187 metric tons, including U.S. mail and freight and express shipments, an increase of 36,220 metric tons (13.6%) compared to reported cargo volume for the corresponding period in Fiscal Year 2022-23. A total of approximately 185,084 metric tons was international cargo, mail, freight and express shipments (an increase of 16.9% compared to the corresponding period in Fiscal Year 2022-23) and approximately 117,103 metric tons was domestic cargo, mail, freight and express shipments (an increase of 8.8% compared to the corresponding period in Fiscal Year 2022-23).

The following table provides combined domestic and international cargo traffic information for the Airport for the last five Fiscal Years and the first seven months of Fiscal Years 2022-23 and 2023-24.

AIR CARGO ON AND OFF (in metric tons)

<u>Fiscal Year</u>	<u>Freight and Express</u>	<u>U. S. and Foreign Mail</u>	<u>Total Cargo⁽¹⁾</u>	<u>Percent Change</u>
<i>First Seven Months 2023-24</i>	290,623	11,564	302,187	13.6%
<i>First Seven Months 2022-23</i>	249,205	16,762	265,967	
2022-23	429,112	25,009	454,121	(16.7)
2021-22	512,268	33,068	545,335	15.6
2020-21	435,670	36,123	471,793	(3.7)
2019-20	435,887	54,185	490,073	(13.2)
2018-19	497,436	67,049	564,485	0.6

⁽¹⁾ Totals may not add due to rounding.

Source: Commission.

In the first nine months of Fiscal Year 2023-24, total cargo, including U.S. mail and freight and express shipments was 385,289 metric tons, up 13.7% compared to the corresponding period in Fiscal Year 2022-23.

Landed Weight

Landing fees paid by each airline are based on landed weights of aircraft operating at the Airport. The revenue landed weights for the Airport’s 10 most active airlines for Fiscal Years 2018-19 through 2022-23 and for Fiscal Year 2022-23’s top ten airlines during the first seven months of Fiscal Year 2023-24 (with comparative data for the same period in Fiscal Year 2022-23) are shown in the following table, ranked in the order of the results from Fiscal Year 2022-23. Landed weights for airlines include landed weight of affiliates.

TOTAL REVENUE LANDED WEIGHT BY AIRLINE
(in thousands of pounds)
(Fiscal Years)

Airline	2018-19	2019-20	2020-21	2021-22	2022-23	% of 2022-23 ⁽¹⁾	First Seven Months (July through January)

⁽¹⁾ Figures may not total due to rounding.

⁽²⁾ Air Canada served the Airport in Fiscal Year 2020-21, but was not among the top 10 most active airlines in terms of revenue landed weight for that period.

⁽³⁾ British Airways served the Airport in Fiscal Years 2018-19 and 2020-21 through 2021-22, but was not among the top 10 most active airlines in terms of revenue landed weight for those periods.

⁽⁴⁾ Lufthansa served the Airport during Fiscal Years 2019-20 through 2021-22, but was not among the top 10 most active airlines in terms of landed weight for those periods.

⁽⁵⁾ All Nippon served the Airport in Fiscal Years 2018-19 through 2019-20 and 2022-23, but was not among the top 10 most active airlines in terms of revenue landed weight for those periods.

⁽⁶⁾ China Airlines served the Airport in Fiscal Years 2018-19 through 2019-20 and 2022-23, but was not among the top 10 most active airlines in terms of revenue landed weight for those periods.

⁽⁷⁾ Air Transport served the Airport in Fiscal Years 2019-20, 2021-22 and 2022-23, but was not among the top 10 most active airlines in terms of revenue landed weight for those periods.

⁽⁸⁾ EVA Airways served the Airport in Fiscal Years 2018-19 and 2020-21 through 2022-23, but was not among the top 10 most active airlines in terms of revenue landed weight for those periods.

⁽⁹⁾ Cathay Pacific served the Airport in Fiscal Years 2019-20 through 2022-23, but was not among the top 10 most active airlines in terms of revenue landed weight for those periods.

⁽¹⁰⁾ Data for Fiscal Year 2019-20 includes estimates for one airline for March 2020. That airline comprised less than 0.1% of enplanements in the first six months of Fiscal Year 2019-20.

Source: Commission.

Revenue landed weight at the Airport in the first nine months of Fiscal Year 2023-24 was 26,479,155 thousand pounds, up 11.6% compared to the corresponding period in Fiscal Year 2022-23.

Competition

General

The Airport is the principal airport in the San Francisco Bay Area and one of three international gateways on the U.S. West Coast. The San Francisco Bay Area is also served by the Oakland Airport and the San Jose Airport. The other two international gateways on the U.S. West Coast are the Los Angeles Airport and the Seattle Airport. The passenger traffic data with respect to the Los Angeles Airport, the Oakland Airport, the San Jose Airport and the Seattle Airport discussed below was obtained from websites maintained by the Los Angeles Airport, the Oakland

Airport, the San Jose Airport and the Seattle Airport, respectively. On April 11, 2024, the City of Oakland’s Port Commission gave preliminary approval for the Oakland Airport to be renamed the “San Francisco Bay Oakland International Airport.” The Airport has publicly expressed its opposition to the proposed renaming over the confusion the Airport believes the proposed name is likely to cause some travelers in distinguishing between the Airport and Oakland Airport. On April 18, 2024, the City and County of San Francisco filed a lawsuit against the City of Oakland to prevent the proposed name change by Oakland Airport. It remains uncertain whether Oakland Airport will be renamed as currently proposed.

The Commission expects the Airport to continue to be the major air traffic center for the San Francisco Bay Area based on air traffic projections, the substantial investment by a number of major airlines at the Airport, terminal facility improvements and passenger preferences stemming from the Airport’s location, service and frequent flights to domestic and international destinations.

Substantially all of the international passenger traffic in the San Francisco Bay Area is at the Airport. Thus, the primary competitor of the Airport on the West Coast for international passengers is the Los Angeles Airport, rather than Oakland Airport or San Jose Airport. The Los Angeles Airport is approximately 383 miles south of the Airport. During Fiscal Year 2022-23, international passenger traffic (enplanements and deplanements) at the Airport totaled approximately 12.5 million (an increase of 100.7% over the prior Fiscal Year) compared to approximately 19.8 million at Los Angeles Airport (an increase of 62%). The choice by air carriers between the Airport and Los Angeles Airport for their international routes is affected by many factors, including the much larger population served by Los Angeles Airport, and the distance of each airport from various destinations. Seattle Airport had approximately 4.4 million international passengers in calendar year 2022, according to information available on the Port of Seattle website.

Passenger Traffic

Based on data in traffic reports released by the three San Francisco Bay Area airports, the Airport’s market share of total enplanements and deplanements among San Francisco Bay Area airports increased from 63.8% in Fiscal Year 2021-22 to 66.4% in Fiscal Year 2022-23, primarily due to the increase in international passenger activity.

The following table summarizes comparative passenger traffic data at the three San Francisco Bay Area airports for Fiscal Years 2018-19 through 2022-23.

COMPARISON OF SAN FRANCISCO BAY AREA AIRPORTS TOTAL PASSENGER TRAFFIC (Enplanements and Deplanements) (Fiscal Years)

Airport	2018-19	2019-20	2020-21	2021-22	2022-23	
					Number	% Change
San Francisco	57,446,488	40,542,936	13,674,730	34,812,040	46,905,174	34.7%
Oakland	13,615,771	9,493,637	5,182,912	9,976,766	11,567,269	15.9
San Jose	14,949,956	11,328,759	4,226,239	9,813,775	12,128,398	23.6
TOTAL SAN FRANCISCO BAY AREA	86,012,215	61,365,332	23,083,881	54,602,581	70,600,841	29.3%

Airline Agreements

As of March 1, 2024 the City and 46 of the airlines that served the Airport in the first seven months of Fiscal Year 2023-24 were party to Lease and Use Agreements that became effective on and after July 1, 2023 (the “Lease and Use Agreements”) following the expiration of prior lease and operating agreements with the airlines. The term of the Lease and Use Agreements is through June 30, 2033. The airlines that are party to a Lease and Use Agreement

are referred to as “Signatory Airlines.” Non-signatory airlines operate at the Airport under month-to-month operating permits or on an itinerant basis. A brief description of certain major terms of the Lease and Use Agreements follows. For a more detailed summary of the Lease and Use Agreements, see APPENDIX E –“SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS.” For information on which airlines currently serving the Airport are party to the Lease and Use Agreements, see the table entitled “Air Carriers Reporting Air Traffic at the Airport” under “–Airline Service.”

Lease and Use Agreements

Signatories. The Lease and Use Agreements took effect on and after July 1, 2023. Seventeen of the airlines that reported traffic on scheduled passenger flights in the first seven months of Fiscal Year 2023-24 were non-signatory as of March 1, 2024. Four are affiliates that report traffic under their respective signatories. The remaining thirteen airlines’ passengers comprised less than 2% of the Airport’s total passengers in the first seven months of Fiscal Year 2023-24. Airlines in addition to the current Signatory Airlines may sign a Lease and Use Agreement from time to time.

Residual Methodology. The Lease and Use Agreements govern the use of terminal, baggage claim, check-in, ramp and gate areas. Under the Lease and Use Agreements, the Signatory Airlines pay terminal rents and landing fees under a residual rate-setting methodology tied to specified cost centers. This methodology is designed to provide revenues to the Commission sufficient to pay operating expenses and debt service costs. Under the residual rate-setting methodology, landing fees and terminal rentals are established each year to produce projected revenues from the airlines (“airline payments” or “rates and charges”) equal to the difference between (i) the Airport’s non-airline revenues and (ii) the Airport’s total costs, including without limitation operating expenses, debt service costs, the annual ORCIF deposit, and the Annual Service Payment described under “AIRPORT’S FINANCIAL AND RELATED INFORMATION–Payments to the City–Annual Service Payment” (“net costs”). In other words, rates and charges are established each year to produce projected airline payments equal to projected net costs. Thus, increases in non-airline revenues, such as parking and concession revenues, generally result in decreases in airline landing fees and terminal rental rates, and vice versa.

Differences between actual revenues and expenditures and amounts estimated in the calculation of airline fees and charges for any Fiscal Year result in adjustments of terminal rentals and landing fees in subsequent Fiscal Years. Such differences are recorded on the statements of net position in the financial statements of the Airport in the Fiscal Year to which such differences pertain. Net overcharges are recorded as liabilities and net undercharges are recorded as assets.

Annual Adjustment of Terminal Rentals and Landing Fees. The Commission may adjust terminal rental rates and landing fees each year for the next Fiscal Year based on each Signatory Airline’s Commission-approved changes to its leased space, additions of new terminal space for lease, the forecast landed weight for the next Fiscal Year, and the Commission’s budgetary forecast of attributed non-airline revenues, operating expenses and debt service costs for the various Airport cost centers.

Mid-Year Adjustment of Terminal Rentals and Landing Fees. The Commission may increase terminal rental rates and/or landing fees at any time during the Fiscal Year if the actual expenses (including debt service) in one or more applicable cost centers are projected to exceed by 10% or more the actual revenues from such cost center. Prior to increasing terminal rental rates and/or landing fees, as applicable, the Commission must use commercially reasonable efforts to reduce expenses and provide a 60-day notice to, and consult with, the Signatory Airlines. The Signatory Airlines are required to pay such increased terminal rentals and/or landing fees sufficient to cover the projected deficiency for the remaining months of the then-current Fiscal Year. The Airport has not made any such mid-year adjustments since Fiscal Year 2000-01.

Terminal Rentals and Landing Fees. Airlines pay terminal rentals based on the square footage leased. Each Signatory Airline operating at the Airport, and other airlines and airfield users, are required to pay landing fees, the principal component of which is based upon landed weight. Airlines that are not Signatory Airlines or an Affiliate Airline (as defined in the Lease and Use Agreements) of a Signatory Airline pay a 25% premium on landing fees. Any shortfall in landing fees payable to the Commission by the Signatory Airlines and other airlines and airfield users in any Fiscal Year as a result of actual landed weights being less than those projected are made up either from a mid-

year rate adjustment, or from adjustments to landing fee rates in the succeeding Fiscal Years. If a Signatory Airline ceases or substantially reduces its operations at the Airport, it remains liable for certain terminal rentals calculated each year on a residual basis. Signatory Airlines are not permitted to return rented space to the Airport except by approval of the Commission, though they are permitted to reject allocations of preferential use gates; however, the Commission may recapture leased space from Signatory Airlines under certain circumstances, including failure to earn, or rejection of, the same number of Preferential Use gates as in the previous allocation year. These provisions allow the Airport to continue receiving terminal rentals on unused support facilities until they are needed by another airline.

Funding of Capital Improvements. The Commission, subject to the limited exception described below, must use commercially reasonable efforts to finance all capital improvements through grants, TSA funding, PFCs or the issuance of Airport revenue bonds. However, the Commission may annually budget for capital improvements from current revenues up to \$5,218,606 in Fiscal Year 2021-22 dollars adjusted for inflation, or a greater amount approved by a Majority-In-Interest of the Signatory Airlines (defined as more than 50% of the Signatory Airlines, which on the date of calculation represent more than 50% of the landed weight of such Signatory Airlines during the immediately preceding Fiscal Year).

Airline Review of Capital Improvements. The Commission is required to notify the Signatory Airlines in writing of most proposed capital improvements that exceed the Majority-In-Interest review dollar threshold established in the Lease and Use Agreements. Within 45 days of the receipt of such notice, if a Majority-In-Interest objects to a capital improvement, the Airport may not proceed with the capital improvement for a period specified by the Signatory Airlines, but not to exceed six months. During that time, the airlines may develop and present their opposition to the capital project to the Commission at a public hearing or otherwise. At the end of the specified period, the Commission may proceed with the capital improvement. Capital improvements are not subject to this process if they are (i) required by a federal or state agency having jurisdiction over Airport operations, or necessary to comply with any current or future law, rule, regulations, order of judgment or any Federal, state or local agency (excluding the Commission) or court, or any federal grant agreement or airport certification requirement, (ii) to improve the safe operations of the Airport, (iii) to protect essential infrastructure from storm events or relocate such infrastructure, (iv) is an Airfield Area project eligible for Federal funding for which the Commission has received the full level of eligible Federal funding, (v) is financed by the issuance of Special Revenue Bonds, (vi) is of an emergency nature which, if not made, would result in the closing of the Airport within 48 hours or otherwise substantially impair the current operation of the Airport, (vii) to repair or replace Airport property damaged or destroyed by fire or other casualty, or taken by condemnation, or otherwise for the restoration or replacement of Airport capacity, (viii) made to settle claims or lawsuits, satisfy judgments or comply with judicial or administrative orders against the City arising from or relating to its design, construction, ownership, maintenance or use of the Airport, (ix) financed by PFCs or PFC-backed bonds, unless those projects would result in a charge to Signatory Airlines in the Terminal Area Rentals or Landing Fees, (x) required to procure and install electrical infrastructure necessary to convert all ground service equipment to be powered by 100 percent electricity, (xi) undertaken to satisfy the increased requirements of any air carrier so long as such air carrier agrees to pay all increased charges, or (xii) related to special purpose facilities for which the user agrees to pay or reimburse the Commission. "Special Revenue Bonds" are obligations issued by the Commission or on behalf of the Airport, the debt service on which is payable from or secured in whole or substantial part by revenues other than Revenues and include Special Facility Bonds. While some projects in the current CIP still require airline review, the Commission has completed the airline review process for \$9.6 billion (approximately 88%) out of the total \$11 billion CIP. The Airport plans to seek the remaining Majority-In-Interest review once project schedules and scope are closer to being finalized. For additional detail on airline review of capital improvements and the exceptions thereto, see "Airline Review of Capital Improvements" in APPENDIX E—"SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS."

Joint Use of Space. Domestic contact gates are assigned to airlines on a preferential or common use basis while swing gates (gates connected to the Federal Inspection Station) and all remote gates (i.e., any gate where a passenger boarding bridge does not dock directly to an aircraft) are used on a common use basis. Gates assigned to an airline for preferential use are allocated annually according to a formula taking into account each airline's share of actual seats in the preceding year, excluding December, January, and February. Commencing March 1, 2025, gates can thus be reassigned by the Airport annually from airlines with decreasing traffic and allocated to other airlines with increasing traffic or reserved for common use. The Airport may reserve up to 10 percent of its domestic contact gates for common use to accommodate itinerant airlines and overflow domestic departures and arrivals. Any preferential

use gate can also be used by any airline when it is not actively being used by the airline to which it is allocated. Fees for common use facilities and for operations by another airline on an airline's preferential use gates are charged on a per-turn basis. With respect to the domestic terminals, the Airport may recapture unneeded support facilities from a Signatory Airline at any time if the number of preferential use gates allocated to such airline is reduced or if the Signatory Airline rejects its offered allocation of gates. With respect to the ITC, swing gates, holdrooms, check-in counters, and baggage systems are leased to airlines using the ITC on a joint use basis and allocated for use among the various airlines as needed during the day in accordance with management protocols. This arrangement facilitates the efficient use of these facilities and enables the Airport to accommodate new domestic or international carriers or other market changes within the industry. Rental charges for joint use facilities are based on a formula, with 80% of the charges allocated pro-rata to the airlines based on passenger levels, and 20% shared equally by the airlines in the group. Swing gate holdrooms are subject to a joint use adjustment formula, which may reduce the amount of space assigned to the international joint use holdroom fees based on anticipated international activity levels. Any space removed from the joint use holdroom calculation is considered public space and recovered from all terminal rentals on a residual basis.

ORCIF. The Lease and Use Agreements give the City the right to create and maintain an Operating Revenue and Capital Improvement Fund (the "ORCIF") within the Airport Revenue Fund to be held and invested by the City Treasurer. Funds on deposit in the ORCIF may be used for any lawful purpose for which Airport Revenues may be used. Amounts are deposited in the ORCIF from rates and charges. The City determines the amount, if any, to be deposited into the ORCIF each Fiscal Year in accordance with, and subject to the limitations in, the Lease and Use Agreements. See also APPENDIX E—"SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS—ORCIF."

Security Deposit. Each Signatory Airline is required to post security with the Commission to guarantee its performance and payment under the Lease and Use Agreement. Such security generally consists of a surety bond or an irrevocable letter of credit in an amount equal to two months of terminal area rentals, landing fees, and usage fees. Other forms of security deposit acceptable to the Commission, such as cash deposits, have on occasion been accepted in very limited amounts and circumstances, such as in the instance of an airline bankruptcy where other forms of security deposit are temporarily unavailable. Airlines operating at the Airport pursuant to 30-day permits are required to post security bonds or letters of credit in an amount equal to six months estimated rentals and fees.

Cross-Default Provisions. A Signatory Airline may have more than one agreement, lease or permit with the Airport. If a default occurs under any one of such other agreements, a cross-default is triggered under the Signatory Airline's Lease and Use Agreement. In addition, if a Signatory Airline is in default under its Lease and Use Agreement, the Airport may terminate any other agreement with such Signatory Airline.

Potential Effects of an Airline Bankruptcy

In the event a bankruptcy case is filed with respect to an airline operating at the Airport, the lease or permit governing such airline's use of Airport space would constitute an executory contract or unexpired lease pursuant to the United States Bankruptcy Code. A trustee in bankruptcy or the airline as debtor in possession may keep ("assume") or jettison ("reject") any executory contracts or unexpired leases of non-residential real property. Under the Bankruptcy Code, upon rejection of an unexpired lease, the airline debtor must surrender non-residential real property to the lessor. As a result, rejection of an unexpired lease by an airline debtor may result in the Commission regaining control of the applicable facilities (including gates and boarding areas), which the Commission could then lease or permit to other airlines. The Commission's ability to lease such facilities to other airlines may depend on the state of the airline industry in general, on the nature and extent of the increased capacity at the Airport resulting from the departure of the debtor airline, and on the need for such facilities. Alternatively, under the Bankruptcy Code an airline debtor may assume its executory contracts and leases (and in some circumstances, assign them), subject to certain conditions. If the bankruptcy trustee or the airline assumes an executory contract or unexpired lease as part of a reorganization, the airline debtor must "cure" or provide adequate assurance that its prepetition defaults will be promptly cured, including arrearages in amounts owed, as well as provide adequate assurance of future performance. Even if all such amounts owed are eventually paid, the Commission could experience delays of many months or more in collecting such amounts.

Section 525 of the Bankruptcy Code generally prohibits governmental authorities such as the Commission from discriminating against airline debtors solely on the basis of the filing of a bankruptcy petition or the discharge of a pre-petition debt owed to the governmental authority.

Amounts under a nonresidential lease arising from or after the filing of the bankruptcy petition must be paid when due unless the bankruptcy court extends the time for performance, but the court cannot extend such time more than 60 days from the date the petition is filed. In all events, amounts such as rents accruing during a case generally have administrative expense priority, but such priority does not ensure that such amounts will be paid. Under the Bankruptcy Code, an airline's failure to pay within the mandated period may give the Commission the right to apply for relief from the bankruptcy stay in order to terminate the lease, but does not ensure that such amounts will be paid.

In Chapter 11 cases, the debtor in possession or a trustee, if one is appointed, has 120 days from the date of filing of the bankruptcy petition to make a motion to assume or reject a nonresidential lease, such as a Lease and Use Agreement. The 120-day period may be extended by court order for an additional 90 days for cause. Any additional extensions are prohibited unless the debtor airline or trustee obtains the Airport's consent and a court order.

Under the Bankruptcy Code, any rejection of a lease could result in a claim by the Airport for lease rejection damages against the debtor airline. Such claim would be in addition to all pre-bankruptcy amounts owed by the debtor airline. A rejection damages claim is for the rent coming due under the lease in the future and is capped under the Bankruptcy Code at the greater of one year, or 15%, not to exceed three years, of the remaining term of the lease. Claims for rejection damages are generally treated as a general unsecured claim of the airline debtor. However, the Airport may have rights against any faithful performance bond or letter of credit required of an airline to secure its obligations under the Airport agreements or the right to set off against credits owed to the airline under the Airport agreements.

There can be no assurance that all claim amounts could be collected if an airline rejects its Lease and Use Agreement in connection with a bankruptcy proceeding. In addition, in the event an airline rejects its Lease and Use Agreement, the Airport may be required to repay landing fees and terminal rentals paid by the airline in the 90-day period prior to the date of the bankruptcy filing, since such payments may be treated as "preferential" and may be avoidable under the Bankruptcy Code. Such avoidance may be subject to defenses however, including that the payments were made in the ordinary course and that the Airport provided subsequent new value to the airline.

Even if a debtor airline assumes its lease while in Chapter 11 reorganization, a bankruptcy trustee could reject the assumed lease if the case were subsequently converted to a liquidation case under Chapter 7 of the Bankruptcy Code. In that event, the Airport's claim against the bankruptcy estate would be treated as an administrative expense claim limited to all sums due under the lease for the two-year period following the later of the rejection date or the date of the actual turnover of the premises. Any remaining amounts due under the lease would be treated as a general unsecured claim limited to the greater of one year of rent reserved under the lease or 15% of the rent for the remaining lease term, not to exceed three years of rent.

Also see "CERTAIN RISK FACTORS—Bankruptcy of Airlines Operating at the Airport or Other Airport Tenants."

Certain Federal and State Laws and Regulations

Federal Law Prohibiting Revenue Diversion

Federal law requires that all revenues generated by a public airport be expended for the capital or operating costs of the airport, the local airport system, or other local facilities which are owned or operated by the airport owner or operator, and directly and substantially related to the air transportation of passengers or property. In February 1999, the FAA adopted its "Policies and Procedures Concerning the Use of Airport Revenue" (the "Final Policy") clarifying the application of these principles to airport sponsors that receive federal grants for airport development from the FAA, including the City. The City is the "sponsor" of the Airport for purposes of these federal requirements.

The FAA conducted a financial compliance review of the Airport covering Fiscal Years 2011-12 through 2017-18. The purpose of the review was to verify that the City was in compliance with the Final Policy. The FAA provided its draft report from this review in August 2021 (the “Draft Audit”) for the Commission’s response, which the Commission timely provided. The Draft Audit noted that the FAA would continue to militate against discretionary grant funding for the Airport when the Annual Service Payment to the City’s General Fund exceeds the inflation-adjusted baseline amount. See “AIRPORT’S FINANCIAL AND RELATED INFORMATION–Payments to the City–*Annual Service Payment*” for further description of the Annual Service Payment. See also “CAPITAL IMPROVEMENTS AND PLANNING–Federal Grants” for additional discussion of discretionary grants and the impact thereon of the Annual Service Payment.

Other than this topic, no other material issues were noted. The Commission cannot predict the ultimate outcome of this review. In addition, in February 2021, the Commission received a letter from the FAA stating that the FAA had received a hotline complaint through the Office of Inspector General (“OIG”) of U.S. DOT alleging possible airport revenue diversion to the San Francisco Police Department. The FAA requested information to assist in the resolution of the complaint. The Commission responded timely to the FAA, and the FAA did not further address this issue in the Draft Audit. The Commission cannot predict the final outcome of this matter.

Examples of unlawful revenue diversion include using airport revenues for: (1) land rental to, or use of land by, the sponsor for non-aeronautical purposes at less than the fair market rate; (2) impact fees assessed by any governmental body that exceed the value of services or facilities provided to the airport; or (3) direct subsidies of air carrier operations. An otherwise unlawful revenue diversion may be “grandfathered” and therefore permissible if such use was instituted pursuant to a law controlling financing by the airport owner or operator, or a covenant or assurance in a debt obligation issued by the airport owner, prior to September 1982. The Final Policy acknowledges that the Commission’s Annual Service Payment to the City’s General Fund is “grandfathered” as a lawful revenue diversion. See “AIRPORT’S FINANCIAL AND RELATED INFORMATION–Payments to the City–*Annual Service Payment*” for further description of the Annual Service Payment. The U.S. Congress could, however, revoke the “grandfathering” of the Annual Service Payment. See also APPENDIX E–“SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS–Events of Default; Termination or Suspension of Lease and Use Agreement Provisions–*Commission’s Right to Suspend Part of Lease and Use Agreement.*”

The Commission also makes substantial payments to the City, separate from and in addition to its Annual Service Payment, for direct services provided to the Airport by other City departments. The FAA has authority to audit the payments and to order the City to reimburse the Airport for any improper payments made to the City, and the OIG has authority to audit the FAA’s oversight of the payments. The FAA may also suspend or terminate pending FAA grants to the Airport and/or any then-existing PFC authorizations as a penalty for any violation of the revenue diversion rules. In addition, the U.S. DOT may withhold non-aviation federal funds that would otherwise be made available to the City as a penalty for violation of the revenue diversion rules (for example, grants to the City’s municipal railway system). In April 2018, OIG concluded an audit to assess FAA’s oversight of “grandfathered” airports’ compliance with federal law related to airport revenue payments. The Airport was one of the airports included in this OIG audit. The OIG found inaccuracies in the FAA’s own records, including that the FAA over-reported total grandfathered payments by the Commission. The audit included findings and recommendations to improve the accuracy of FAA’s data regarding grandfathered payments, and the FAA concurred in OIG’s recommendations. See also “AIRPORT’S FINANCIAL AND RELATED INFORMATION–Payments to the City” and “CAPITAL PROJECTS AND PLANNING–Federal Grants.”

On November 7, 2014, the FAA amended the Final Policy to confirm that state and local taxes on aviation fuel, whether part of a general sales tax or otherwise, and whether imposed by an airport operator or by state or local taxing authorities, are subject to the federal restrictions on the uses of airport revenue. These restrictions do not apply to taxes in effect on or before December 30, 1987. The FAA’s policy amendment became effective on December 8, 2014, but the FAA provided a three-year transition period for state and local governments to comply. The FAA required taxing jurisdictions to submit a plan for compliance by December 8, 2015, and to implement the plan by December 8, 2017. The FAA’s policy amendment also required the Airport to inform state and local taxing entities, including the City, of these provisions and take reasonable actions within its power to influence state and local tax laws to conform to these requirements. The Airport made the required notifications. The City submitted its initial response to the FAA regarding the policy amendment on August 28, 2019 and the Airport is not aware of any additional correspondence on this topic received by the City from the FAA since that time.

The FAA and the State of California Department of Finance (the “State Department of Finance”) separately exchanged correspondence between November 2015 and September 2020 regarding the FAA’s policy amendment and the State’s approach to compliance. On May 17, 2019, the FAA sent a letter to the State indicating disapproval of the proposed approach and requiring that the State Department of Finance provide certain information to the FAA within 30 days. The FAA also stated that the State Department of Finance’s failure to comply could lead to penalties including the withholding of federal financial assistance to airports in the State. Although the State Department of Finance and FAA have engaged in further correspondence since that letter, FAA’s latest correspondence still indicates that it views the State’s response as incomplete and requiring further action. It does not appear that the parties have yet resolved this issue.

The Commission cannot predict the outcome of the dispute between the FAA and the State Department of Finance. However, any sales taxes on aviation fuel sold at the Airport and received by state and local governments that is not grandfathered and which is not used in accordance with the FAA’s revenue use policy, likely would be returned to the Airport, resulting in a modest amount of additional revenue that cannot be quantified at this time.

Federal Accessibility Law

The Office of Civil Rights of the FAA (“OCR”) periodically reviews airports’ compliance with federal civil rights laws and accessibility laws. OCR initiated a review of the Airport’s compliance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act in June 2017 and found certain areas of non-compliance. The Commission believes it has implemented all of OCR’s recommendations. The Commission is working to close out this audit with OCR.

State Tidelands Trusts

A substantial portion of the land on which the Airport’s facilities are located is held in trust by the City and administered by the Commission pursuant to tidelands grants from the State. These grants, accomplished by special State legislation, date to 1943 and 1947. Generally, the use of this land is limited to Airport purposes under the terms of the grants. The Commission may not transfer any of this land, nor lease it for periods of more than 50 years. There are also certain limitations on the use of funds generated from facilities located on this land. However, none of the various restrictions is expected to affect the operations or financial condition of the Airport. The grants may be subject to amendment or revocation by the State legislature, as grantor of the trust and as representative of the beneficiaries (the people of the State). Under the law, any such amendment or revocation could not impair the accomplishment of trust purposes, or abrogate the existing covenants and agreements between the City, acting by and through the Commission, as trustee, and the Airport’s bondholders. The Commission does not anticipate that the State will revoke the tidelands grants.

Current and Possible Regulation Related to Climate Change

Aviation in general, including the Airport, continues to face pressure to mitigate environmental and health and safety impacts, internally and externally, resulting in technological and operational advancements to “green” air travel. With increasing community, regulatory and staff focus on environmental, social, and governance measures, the Airport is taking action to mitigate the greenhouse gas (“GHG”) emissions of air travel, while managing risks and emerging legal challenges related to climate change as a whole.

There is now widespread acknowledgement of the urgent need for the nations of the world to transition from fossil fuels to cleaner energy sources that will allow the worst effects of global warming and climate change to be avoided. In October 2022, the International Civil Aviation Organization (“ICAO”) adopted a long-term goal of net-zero carbon emissions by 2050, aligning with those previously set by the Airport Council International, International Air Transport Association, Airlines for America and others. In February 2024, the FAA released a final rule known as Airplane Fuel Efficiency Certification, requiring incorporation of fuel-efficient technologies for most planes manufactured after January 1, 2028. This rule builds on the U.S. Aviation Climate Action Plan, published by the FAA in November 2021, which sets a goal to achieve net-zero GHG emissions from the U.S. aviation sector by 2050. The plan includes several other key initiatives to reduce aviation emissions, including the increased production of sustainable aviation fuels (“SAF”). Executive actions in September 2021 by the U.S. Departments of Energy, Transportation, Agriculture, Defense, the National Aeronautics and Space Administration, the General Services

Administration, and the Environmental Protection Agency attempt to increase production and use of billions of gallons of SAF to decrease aviation GHG emissions by 20% by 2030 when compared to business as usual. More broadly, this U.S. Aviation Climate Action Plan helps the aviation sector directly contribute to the broader United States' 2030 goal of economy-wide net GHG emissions reductions of 52 percent from a 2005 level, set by the White House in April 2021.

Federal and state regulations and international accords pertaining to mandatory and encouraged GHG emission reductions are expected to impact the Airport, air carriers, transportation service providers and other Airport tenants. Federal regulations have increased dramatically under the leadership of President Joseph Biden regarding climate change, including the U.S.'s reentry into the Paris Agreement in February 2021 and establishing a target of economy-wide net zero emissions by 2050, and are anticipated to continue to do so. The Airport continues to track and engage in federal level policy through its participation in industry associations and coalitions.

According to the United States Environmental Protection Agency ("EPA"), aircraft account for 12 percent of all U.S. transportation GHG emissions and approximately three percent of total U.S. GHG emissions. On January 11, 2021, the EPA issued a final rule titled "Control of Air Pollution From Airplanes and Airplane Engines: GHG Emission Standards and Test Procedures." Within this rule, the EPA adopted GHG emission standards applicable to certain classes of engines used by certain civil subsonic jet airplanes and certain civil larger subsonic propeller-driven airplanes. These standards are equivalent to the airplane carbon dioxide (CO₂) standards adopted by the ICAO in 2017 and apply to both new type design airplanes and in-production airplanes, effectuating alignment with the international community on GHG emissions from aviation. The fuel efficiency-based standards are designed by the EPA to achieve "the highest practicable degree" of international uniformity in aviation regulations and standards and meet the EPA's obligation under section 231 of the Clean Air Act.

Separate from the ICAO CO₂ standards discussed above, in October 2016, the ICAO also passed a global market-based mechanism to achieve carbon-neutral growth for international aviation after 2020, the Carbon Offsetting and Reduction Scheme for International Aviation ("CORSIA"), which can be achieved through airline purchases of carbon offset credits. These offsets are used to fund climate-friendly projects, including funding trees and solar panels, often in Asia, Africa and South America. CORSIA is comprised of 192 member countries, including the United States, and was designed to achieve carbon-neutral growth for international (but not domestic) civil aviation from 2020 onwards, in three phases: the pilot (2021-2023), first (2024-2026) and second (2027-2035) phases.

Originally, 2019 and 2020 were modeled to be the baseline years for the CORSIA emissions reductions; however, in July 2020, the ICAO decided to implement a change to the CORSIA emissions baseline, disregarding 2020 emissions, to account for the significant impact of the COVID-19 pandemic artificially reducing emissions compared to the 2016 levels. Despite emissions reduction arising from the abrupt decline of air traffic due to the COVID-19 pandemic in 2020 and 2021, the ICAO has continued to reinforce its commitment to the original phased timeline for the industry to achieve net zero carbon emissions by 2050. While the change in baseline did not change the timeline for the above implementation phases, the altered baseline delayed the effective date of the requirement for some international flights to purchase carbon offset credits until 2027. The United States is voluntarily participating in the CORSIA pilot, which commenced in 2021 as scheduled, and covers approximately 36% of international flights. Alongside the country's commitment, virtually all U.S.-based airlines agreed to participate in CORSIA. Additionally, participating nations are developing a monitoring, reporting and verification system for GHG emissions from international flights. At this stage of implementation, it remains unclear whether CORSIA will have any impact, economically or on climate. On a state level, California is also passing legislation to help curb climate change. The "California Global Warming Solutions Act of 2006" requires reduction of the statewide level of greenhouse gas equivalents (GHGs) to 1990 levels by 2020 and as part of the effort to achieve then-Governor Schwarzenegger's Executive Order S-3-05 goal of 80% below 1990 levels by 2050. This limit is an aggregated statewide limit and is not sector- or facility-specific. Also in 2016, the California legislature adopted as State law Governor Brown's 2015 Executive Order B-30-15, requiring a reduction of the Statewide level of GHGs to 40 percent below 1990 levels by 2030. The California Air Resources Board ("CARB") lists interstate and international aviation, military jet fuel use, and a portion of bunker fuel as contributing 32-44 million tons of GHG annually, representing approximately 63-70% of excluded emissions from the Executive Order's obligation. In Executive Order N-79-20 issued September 23, 2020 and Executive Order N-82-20 issued October 7, 2020, Governor Newsom stated that achieving air quality and climate goals hinge on transforming the state's transportation sector, indicating a potential increased emphasis and regulation of transportation infrastructure, including the Airport. In 2021, California announced the California Climate

Commitment, which allocated \$54 billion over 5 years to programs to help mitigate the impacts of climate change and transition California, including its transportation sector, to a more climate-friendly economy. More recently, California passed a series of climate action bills in 2022 dedicated to carbon neutrality and clean energy infrastructure to achieve, among other goals, a 60% reduction in air pollution and a 92% reduction in fossil fuel use in buildings and transportation over the next two decades. To date, the State focus is on four basic programs: the Low Carbon Fuel Standard (“LCFS”), the cap-and-trade program, the zero-emission vehicle mandate and the Renewables Portfolio Standard.

The California Cap-and-Trade Program (the “Program”) Mandatory Reporting Rule requires certain entities emitting 25,000 metric tons of carbon dioxide equivalent per year or more to participate, with non-covered entities allowed to voluntarily participate. Entities emitting between 10,000 and 25,000 metric tons (including the Airport) are required to report stationary source emissions, but are not required to participate in the Program. The Program, and additional State and local regulations related to climate change (including the LCFS), California’s State Implementation Plan, the Sustainable Freight Action Plan, Large Entity Reporting, Advanced Clean Trucks, and regional GHG Emissions Reduction Targets, and a new Executive Order banning combustion engine sales in 2035) may require the airlines serving the Airport, other Airport tenants, and on-Airport operations to meet new compliance obligations that increase operational, utility and fuel costs (such as those pending at CARB regarding ground support equipment and already adopted for airport shuttle buses). In some cases, these policies provide financial incentives for GHG reduction or air quality improvements through expanded or improved infrastructure and/or vehicle electrification or alternative fuels replacement, which the Airport continues to actively pursue through its 2020 registration to the LCFS for landside EV chargers and continued FAA grants for ground support equipment airside charging stations. In other cases, they prevent the airport, equipment owner, or operator from accessing grants where a key eligibility requirement is that an investment must be voluntary (including FAA’s Voluntary Airport Low Emissions Program). Additional regulations on a State and local level are pending and foreseeable (including expanding emissions mitigation measures aimed at commercial airports), many of which are outlined in the Airport Annual Environmental Compliance Report.

As additional requirements and recommendations related to climate change continue to emerge in guidance and law, including without limitation CARB’s 2022 Scoping Plan Update finalized in December 2022 (the “Update”). The Update identifies paths to both a 40% reduction in GHG emissions from a 1990 baseline by 2030 and carbon neutrality no later than 2045. The Update provides for the transition to 20% of aviation fuel demand for intrastate flights being met by electricity (batteries) or hydrogen (fuel cells) in 2045, and for sustainable aviation fuel to support most or the rest of the aviation fuel demand that has not already transitioned to hydrogen or batteries. It also identifies regulations to reduce fuel demand for petroleum. As the Update is implemented and additional regulations in pursuit of carbon neutral goals are pursued, emissions reduction pathways are likely to become more ambitious to align with new regulations and Executive Orders set by the State Governor, who has called for the Update to prioritize direct emission reductions without overreliance on carbon capture and sequestration and direct air capture. To that end, the Airport can give no assurance about the net effects of those changes, whether voluntary or mandatory. Such additional requirements and recommendations could require significant capital resources.

Mitigating emissions will require financial investments and changes to the operating economics of the airlines that serve the Airport. Changes will likely include the early retirement and replacement of inefficient aircraft; implementation of operational changes to airline networks and systems to fly more optimal trajectories for reduced fuel use and contrail impacts; investments in emission reduction projects at airports, including electrification of ground support equipment; the payment of carbon taxes and other regulatory charges designed to penalize or offset emissions; and the development of technologies and incentives to increase the supply and reduce the cost of sustainable aviation fuels derived from biomass and other renewable sources. As a global industry, airlines routes, fleets, and operations may also change to reflect regulatory obligations placed upon airlines abroad as well as domestically. The 2022 passage of the nearly two trillion-dollar H.R. 5376: The Inflation Reduction Act is anticipated to accelerate both nationwide and Airport-specific deployment of emission reduction technologies. Subsequently, the Infrastructure Investment and Jobs Act targets aviation emissions through the launch of the “White House Sustainable Aviation Fuel Grand Challenge” and aviation-focused hydrogen hubs to increase alternative aircraft service by 2030.

The Airport’s sustainability and emissions mitigation initiatives are described in “–Airport Commitment to Environmental Sustainability.”

State Proposition 218

In November 1996, the voters of the State approved Proposition 218, known as the “Right to Vote on Taxes Act.” Proposition 218 adds Articles XIIC and XIID to the California Constitution, and contains a variety of interrelated provisions concerning the ability of local governments, including the City, to impose both existing and future taxes, assessments, fees and charges.

Article XIIC removes limitations on the initiative power in matters of local taxes, assessments, fees and charges. Consequently, the voters of the City could, by future initiative, seek to repeal, reduce, or prohibit the future imposition or increase of, any local tax, assessment, fee or charge. “Assessment,” “fee,” and “charge” are not defined in Article XIIC and it is unclear whether the definitions of such terms contained in Article XIID (which are generally property-related as described below) are so limited under Article XIIC.

Article XIID conditions the imposition of a new or increased “fee” or “charge” on either voter approval or the absence of a majority protest, depending upon the nature of the fee or charge. The terms “fee” and “charge” are defined to mean levies (other than ad valorem taxes, special taxes and assessments) imposed by a local government upon a parcel or upon a person as an incident of the ownership or tenancy of real property, including a user fee or charge for a “property-related service.” No assurance can be given that the voters of the City will not, in the future, approve initiatives which seek to repeal, reduce, or prohibit the future imposition or increase of, assessments, fees, or charges, including the Commission’s fees and charges, which are the source of Net Revenues pledged to the payment of debt service on the Bonds. The Commission believes that Article XIID does not apply to Airport fees and charges imposed by the Commission.

The interpretation and application of Proposition 218 will ultimately be determined by the courts or through implementing legislation. The Commission is unable to predict the outcome of any such litigation or legislation.

State Proposition 26

In November 2010, the voters of the State approved Proposition 26, known as the “Supermajority Vote to Pass New Taxes and Fees Act.” Proposition 26, among other things, amended Article XIIC to the California Constitution principally to define what constitutes a “tax” under the limitations and requirements of that provision. Article XIIC imposes limitations on local governments like the City when imposing certain taxes, including a requirement that the local government submit certain taxes to the electorate for its approval. Before Proposition 26, Article XIIC did not define the term “tax” and the purpose of Proposition 26 is to broadly define what constitutes a tax under Article XIIC to include “any levy, charge, or exaction of any kind imposed by a local government.” Proposition 26 lists several exceptions to the definition of “tax,” which include (a) a charge for a specific benefit or privilege, which does not exceed the reasonable costs of providing the benefit or privilege, (b) a charge for a government service or product, which does not exceed the reasonable costs of providing the service or product, (c) a charge for the reasonable regulatory costs of issuing licenses and permits, performing investigations, inspections, and audits, and the administrative enforcement thereof, (d) a charge for entrance to or use of local government property, or the purchase, rental, or lease of local government property, and (e) a fine, penalty, or other monetary charge imposed as a result of a violation of law. If any of the Airport’s fees and charges were determined to be “taxes” that are “imposed” under Article XIIC, the Airport may no longer be able to impose or adjust those fees and charges without voter approval.

Employee Relations

The Commission budgeted 1,934 full-time equivalent positions for Fiscal Year 2023-24, as compared to 1,830 in Fiscal Year 2022-23. The Charter governs the Airport’s employment policies. The Charter authorizes the San Francisco Civil Service Commission to establish rules and procedures to implement those policies.

There are presently 15 collective bargaining agreements (also known as Memoranda of Understanding, or MOUs) between the City and labor unions representing Airport employees. The Charter requires collective bargaining. Labor unions representing City workers negotiate wages, hours, benefits and other conditions of employment through collective bargaining. All Airport employees are represented by labor unions, and all bargain collectively. Most MOUs

affecting Airport employees will expire June 30, 2024. In January 2024, the City and Airport commenced bargaining 15 successor MOUs with the unions representing Airport employees. The City and Airport expect successor agreements, which include wage increases, to be in effect on July 1, 2024. In the event collective bargaining reaches an impasse, remaining issues are resolved by an arbitrator whose decision is final and binding. There have been no strikes by City employees (including Airport employees) since at least 1976, when an amendment to the City’s Charter was approved which prohibits strikes and similar work actions by City employees. Recently, the California Public Employment Relations Board found this provision of the City’s Charter unlawful. The City has appealed this decision and the Charter provision remains effective during the appeal. However, the Airport cannot predict the outcome of such appeal or whether the provision of the Charter will remain enforceable.

For discussion of employee benefit plans, see “AIRPORT’S FINANCIAL AND RELATED INFORMATION—Payments to the City—*Employee Benefit Plans.*”

Hazardous Material Management

Environmental Staff

The Commission employs environmental staff responsible for managing hazardous materials and complying with environmental regulations.

Per- and Polyfluoroalkyl Substances

Per- and Polyfluoroalkyl Substances (“PFAS”) are a group of more than 3,000 synthetic chemicals that have been in use since the 1940s. PFAS are found in many products such as dental floss, food packaging materials, stain-resistant materials, non-stick products, water repellant textiles, and fire-fighting foams. The FAA currently requires airport operators to use Aqueous Film Forming Foam (“AFFF”) that can meet certain military performance specifications (“MILSPEC”) in their aircraft rescue and firefighting vehicles. Historically, all approved AFFFs contained PFAS. Congress directed the military to phase out its use of such PFAS-containing foams by October 2024. On January 6, 2023, the U.S. Department of Defense published a new fluorine-free foam (“F3”) MILSPEC to comply with the requirement to phase out the use of PFAS-containing AFFF. On May 8, 2023, the FAA published an Aircraft Firefighting Foam Transition Plan to ensure the orderly transition from current PFAS-containing AFFF to replacement F3 products as they are developed and manufactured. On September 13, 2023, the first FAA-approved F3 became available for purchase. As of March 2024, the FAA has approved an additional F3 product. Currently, under federal regulations airports may, but are not required to, transition to using F3 in their aircraft rescue and firefighting vehicles. The Airport has purchased one of the FAA-approved F3 products and upon receipt will initiate transition to use of this product in firefighting activities.

The EPA determined that, due to the widespread use and persistence in the environment of PFAS, most people in the United States have been exposed to PFAS. The EPA also found evidence that continued exposure to certain PFAS above specified levels may lead to adverse health effects. Currently, the key PFAS compounds of concern are perfluorooctanesulfonate (“PFOS”) and perfluorooctanoic acid (“PFOA”). The EPA released a statement in November 2016 summarizing available peer-reviewed studies on laboratory animals and epidemiological evidence in human populations as indicating that exposure to PFOA and PFOS over certain levels may result in adverse health effects including cancer, reproductive and developmental effects, liver effects, immune effects and other effects. In February 2019, the EPA issued a PFAS Action Plan. The PFAS Action Plan outlines EPA’s strategy to better understand the health risks associated with PFAS and to develop tools for characterizing PFAS in the environment, cleanup approaches, and enforcement mechanisms.

In May 2020, the California Regional Water Quality Control Board, San Francisco Bay Region (the “Regional Board”) issued a Technical Memorandum titled “Interim Final Environmental Screening Levels (ESLs) for Two Per- and Polyfluoroalkyl Substances (PFAS): Perfluorooctane Sulfonate (PFOS) and Perfluorooctanoate (PFOA),” which set groundwater and soil ESLs for direct exposure, aquatic habitat, terrestrial habitat, groundwater, and seafood ingestion risk levels for PFOS and PFOA (the “Interim ESLs”).

In September 2020, CA Senate Bill 1044 amended the California Health & Safety Code to prohibit the knowing sale, offer for sale, or distribution of Class B Firefighting Foam containing intentionally-added PFAS chemicals in California after January 1, 2022, as well as additional staggered compliance dates. It should be noted that this ban does not apply if the use of Class B Firefighting Foam is required by federal law (i.e., if required by the FAA).

In October 2021, the EPA announced its comprehensive national strategy to confront widespread PFAS pollution, broken down into a number of guiding strategies to focus on additional research and addressing existing contamination. This announcement included aggressive timelines to address PFAS in drinking water under the federal Safe Drinking Water Act by designating PFAS as a hazardous substance under the Comprehensive Environmental Response, Compensation, and Liability Act (“CERCLA”), and increases in monitoring, data collection, and research into PFAS to accurately characterize and develop remedial measures. As the characteristics of PFAS are still relatively unknown, the EPA continues to focus on data collection in its effort to further create and implement effective prevention and remediation measures. However, on September 6, 2022, the EPA published a proposed rule designating PFOS and PFOA as hazardous substances under CERCLA. On April 19, 2024, the EPA released a pre-publication version of the final rule designating PFOS and PFOA as hazardous substances under CERCLA. The final rule is expected to be published in the Federal Register shortly and will take effect 60 days after the Federal Register publication.

Potable Water PFAS Regulations

In March 2024, the California State Water Resources Control Board published Order DW 2024-0002-DDW, which requires public water systems to test drinking water samples for 25 PFAS chemicals, setting notification and response levels for four types of PFAS, including PFOS and PFOA, prior to August 2026. In April 2024, the EPA announced the first-ever national standards for PFAS in drinking water under the Safe Drinking Water Act. This rule sets health safeguards that require public water systems to monitor and reduce the levels of PFAS in drinking water, and notify the public of any exceedances of those levels. The rule sets drinking water limits for five individual PFAS, including PFOA and PFOS, as well as setting a limit for any combination of four PFAS, including what are known as “GenX Chemicals.”

Airport Site Investigation of PFAS

On March 20, 2019, the SWRCB issued an Order for the Determination of the Presence of PFAS to all airports in California, including the Airport. The Airport uses AFFF containing PFAS, as required to meet the military performance specifications required by the FAA. The SWRCB Order required the Airport to test soil, sediment and groundwater for 23 PFAS analytes, including PFOA and PFOS. The Airport completed the required testing and submitted the final report to Regional Board on June 1, 2022.

In March 2021, the SWRCB issued the Investigative Orders to Refineries and Bulk Fuel Terminals, which ordered certain facilities, including two facilities located at the Airport, to conduct a one-time sampling effort to determine whether soil, groundwater, surface water, and influent/effluent wastewater were impacted by PFAS. The Airport completed the required testing for these two facilities and submitted the final reports to the Regional Board in February and April 2023.

The Airport’s investigation identified the presence of PFAS in soil, sediment and groundwater at several locations at the Airport. The SWRCB and the Regional Board have not yet established cleanup standards for PFAS or otherwise indicated what actions will be required for PFAS found in soil, sediment and groundwater exceeding the Interim ESLs. Furthermore, the extent to which PFAS poses a risk to human health and the environment is not yet well understood. It is possible that the costs of remediation and third-party liability for PFAS could be extensive.

Remediation and Preventative Measures for Contamination and Hazardous Materials

The Commission and certain Airport tenants have discovered and remediated or are engaged in the process of remediating and managing contamination discovered on Airport property pursuant to current regulatory standards and oversight of the Regional Board. The contamination has primarily consisted of leaked fuel constituents that most likely resulted from fueling practices of the 1940s through the early 1960s, accidental spills of fuel hydrocarbons, or

releases from leaky pipes or underground tanks. The Commission has instituted regulations establishing fueling practices and facilities requirements to prevent hazardous materials from being discharged into the environment. Remediation activities at the Airport in the majority of cases have consisted of removal and offsite disposal of contaminated soil and extraction and treatment of contaminated groundwater and the use of *in situ* remediation methods approved by the regulatory agencies with jurisdiction. Substantial hazardous material management work in connection with projects under the Airport's Master Plan has been completed and continues to be undertaken in connection with remaining Master Plan projects and other projects included in the CIP.

Pursuant to requirements of the Regional Board, remediation activities have been and continue to be undertaken in specific locations at the Airport by tenants responsible for the contamination in those locations, and the Airport has cleaned up contamination, and expects to continue to clean up contamination, that it encounters during construction on Airport property. As a result of litigation initiated by the Commission in 1997 over contamination on Airport property, the Commission reached settlement agreements with a number of current and former tenants that require such tenants to pay a set percentage of future environmental clean-up costs incurred by the Airport to address any residual contamination caused by such tenants' activities. Since costs incurred by the Airport are not known until the Airport embarks on a construction project or undertakes operation and maintenance activities that encounter such residual contamination, the agreement with the settling tenants provides for compensation of relevant incurred expenses as the Airport incurs such costs. While the total clean-up costs that the Airport will incur are not presently known, the settlement agreements provide that the tenants' obligation terminates when clean-up costs exceed either \$75 million or \$98 million, depending on the tenant and the specific agreement. Some tenants' obligations also terminate after October 2048, regardless of the amount of incurred cost. In the event a settling tenant successfully disputes an invoice, is no longer in business or is otherwise unable to pay its percentage share, the Commission may become responsible for the remediation costs attributable to that tenant.

The Airport has a robust hazardous waste and spill management program to further its compliance with federal, state and local regulations. Under this program, spill remediation activities are managed and reported, and spills are cleaned, to standards that satisfy all regulatory requirements.

Airport Commitment to Environmental Sustainability

The Airport, with strong commitment of the Airport's senior management and the Commission, strives to be industry-leading in its protection of the environment, focusing on decarbonization, global and human health, through sustainability initiatives. In 2023, the Airport revised its mission statement to "delivering an airport experience where people and our planet come first," to further codify these priorities. The Airport has a long and active history of establishing specific goals, implementing through co-created action plans specific projects and specific actions to achieve collective success for people, the planet and profit, known as the "triple bottom line." The Commission utilizes the sustainability measures of the ACI-NA, focused on Economic Viability, Operational Efficiency, Natural Resource Conservation, and Social Responsibility, along with Airport-specific measures identified within the Airport's own Sustainability Planning, Design & Construction Standards, Social Equity Plan, Guiding Principles of Sustainability, Climate Action Plans and Strategic Plan. Implementation of these measures have been prioritized across Airport facilities, many of which have achieved or are planned to achieve the U.S. Green Building Council's Leadership in Energy and Environmental Designs (LEED®) program, ParkSmart, Fitwel®, and/or WELL® Building Standard certifications to demonstrate long-term sustainability and regenerative outcomes, such as energy and water efficiency, electrification, reduced environmental impacts through use of decarbonized building materials, reduced waste, and improved indoor environments to support improved human health.

The Commission previously established multiple sustainability-related goals, including: achieving net zero carbon and energy (through eliminating carbon emissions, generating at least as much energy at the Airport as the Airport consumes and/or balancing carbon emissions with carbon removal) for emissions from the Airport's own activities; reducing GHG emissions within its operational control by 50% (compared to 1990 baseline); diverting at least 90% of waste materials from landfills, incinerators and the environment ("Zero Waste"); achieving a 15% reduction in water usage per passenger (compared to 2013 baseline); reducing energy consumption by 25% (compared to 2013 baseline); and implementing a healthy building environments strategy for new and existing infrastructures.

The Commission's new 5-year Strategic Plan, approved in November 2023, builds on this by reinforcing the "path to Zero" and preparing for an uncertain climate future. The Strategic Plan includes the objective of adopting a

resilience capital plan and program for the Airport’s assets and services to respond and rebound from geologic, climatic, and human-caused hazards, shocks, and stressors. Additionally, the Strategic Plan includes motivating industry partners and passengers to take significant climate actions as an objective. This includes establishing a stakeholder emission reduction target and implementation plan and leveraging communication channels to drive consumer action toward the healthiest and lowest carbon impact food, retail, and aviation choices. The Strategic Plan also includes objectives of achieving net zero carbon for Airport-controlled emissions by 2030 and establishing a stakeholder emission reduction target and implementation plan by 2024, reaching net zero energy by 2030, becoming a zero-waste campus for airport-controlled solid waste and construction waste, and becoming a net zero water campus by achieving balance between water consumption and measures that conserve, replenish, and recycle water by 2030. While these goals are intended to be aspirational and may not be achieved or even achievable, the Airport is making significant strides towards each of them and is encouraging its tenants (airlines and others) to achieve these aims as well. The Airport publishes “Zero Annual Reports” to hold itself accountable to its goals.

In 2023, the Airport achieved a 15% reduction in energy consumption as compared to 2013, 60% diversion of waste from landfills, 38% reduction in GHG emissions within its operational control as compared to 1990, obtained 21 green building certifications from 2017 through 2023, and reduced water usage by 20% per passenger as compared to the 2013 baseline. Lower passenger traffic as a result of the COVID-19 pandemic contributed to some of these achievements, but such reductions also reflect direct efforts made by the Airport. Some of the actions that the Airport took to achieve this progress are discussed in the following sections.

Planning for Net Zero Carbon

The Airport has participated since 2016 in the Airport Carbon Accreditation (“ACA”) program created by Airports Council International. ACA is based on the World Resources Institute’s “Greenhouse Gas Protocol” and confirms rigorous third-party validation, certifying participating airports into six levels of carbon management: Mapping, Reduction, Optimization, Neutrality, Transformation and Transition. As of March 2024 there were more than 500 airports certified world-wide under the ACA framework, with the Airport achieving a Level 4 Transformation Accreditation, the highest level of carbon management without purchasing offsets. As the first large-hub airport in North America to achieve this accreditation, this level certifies that the Airport set an absolute emissions reduction target that includes all of Scope 1 and Scope 2 emissions and is aligned with the IPCC’s global 1.5-degree climate goal. It also recognized that the Airport has mapped its existing carbon footprint, calculated carbon emissions, provided evidence of effective carbon management procedures, met established carbon emission reduction targets, and engaged in actions to reduce the carbon emissions of third-party users of the airport, including airlines, ground transportation providers, and staff. In alignment with the Airport’s goal of reaching net zero carbon by 2030, the Airport will aim to achieve the next highest level of certification, Level 5, once the Airports Council International rolls out this level, which will signify that an airport has reached Net Zero GHG emissions and is working on stakeholder emission reductions. The Airport plans to achieve this by defining and implementing net zero requirements for new projects, establishing policies and programs to encourage Airport tenant, airline and passenger behavior change, retrofitting and fuel switching equipment in existing Airport facilities, electrifying its Central Utilities Plant (which accounts for 85% of the carbon emissions from the Airport’s own operations) and intermodal transportation assets, and sequestering residual emissions. The Airport conducted two electric Central Utilities Plant studies that remain subject to environmental review, which has been initiated. Airport teams are identifying appropriate capital investments to accomplish this goal through several concurrent studies and working groups. Another requirement of the ACA Level 5 certification is passenger awareness, for which the Airport completed and launched an Airport-wide passenger marketing campaign that continues its partnership with The Good Traveler program to offer passengers the ability to purchase carbon offsets. To achieve net zero emissions, the Commission also anticipates investing in local carbon capture and sequestration technologies by the end of 2030 to reduce the balance or “net” of emissions that cannot be reduced through the strategies described above. The timing for this achievement may be delayed by the COVID-19 pandemic.

The Commission’s zero carbon and GHG emission reduction goals are in addition to City and State goals and mandates – both of which the Airport continues to surpass. The State set statewide GHG reduction targets of 40% below 1990 emission levels by 2030 and 80% below such levels by 2050, as discussed under “–Certain Federal and State Laws and Regulations–*Current and Possible Regulation Related to Climate Change.*” The City’s Environment Code mandates certain GHG emission targets for the City, including reducing emissions by 40% below 1990 emission levels by 2025, 80% below such levels by 2050, and carbon neutrality by 2045.

In addition to the Airport's efforts to reduce GHG emissions from its own operations and onsite energy use, the Airport is working to reduce emissions from other sources, which generate 99% of emissions at the Airport. For example, since 2017, the Commission, in partnership with the City and San Mateo County, has sponsored the "The Airport Green Business Program," which offers no-cost support to all Airport tenants in areas of energy conservation, as well as water and waste reduction and pollution prevention. As of April 2024, 22 tenants were certified as Green Businesses under this program.

As another example, the Airport is encouraging airline use of SAF, which is derived from renewable materials, such as waste biomass or food scraps. The lifecycle GHG emissions from SAF are estimated by the ICAO and the FAA to be 80% lower than those of conventional aviation fuel. In 2017, the Commission adopted a Policy on the Advancement of Sustainable Aviation Fuels that, among other things, stated that the Airport would explore, in partnership with the airlines operating at the Airport, the mutual adoption and documentation of an aspirational target for SAF usage, emissions reduction, or both. In 2018, the Commission, a group of airlines (which represented approximately 70% of enplanements at the Airport that year) and fuel producers signed a first-of-its-kind Memorandum of Understanding to work cooperatively on expanding the use of SAF at the Airport through key strategies defined within an Infrastructure, Logistics, Supply Chain and Financing Study completed in 2019. The Airport hosted multiple SAF-fueled "gateway flights" in 2018 and 2019 intended to showcase SAF's viability, and SFO Fuel is now receiving a continuous SAF supply via pipeline from producer, Neste, and the Airport's hydrant system by tanker from World Energy. Airlines contracted for these deliveries include commercial airlines (Alaska, Jet Blue, American, and Lufthansa), cargo carriers (DHL, Amazon), and a business carrier (Signature Flight Support). Additionally, the Airport has set a goal of 5% SAF utilization by 2025. In the European Union ("EU"), in April 2023, legislation was passed requiring all aircraft at EU airports to have fuel blended with a minimum share of 2% of SAF starting in 2025, and rising every five years to 70% by 2050. It is unknown if this example will translate to the U.S. or influence the Airport's goals, however, there will likely be increasing pressure to utilize increased volumes of SAF.

The Airport has also provided fixed electrical ground power and pre-conditioned air at its gates and several remote parking locations, allowing aircraft power units to be switched off while at the gate or while undergoing cleaning, maintenance, repairs and testing, eliminating the need to burn jet fuel for these purposes, reducing noise and improving local outdoor air quality (and indirectly indoor air quality). Most boarding areas provide ground operator tenants with access to electric vehicle charging stations for ground support equipment. The Airport recently expanded its charging facilities at two boarding areas utilizing a grant from the Bay Area Air Quality Management District, and strives to complete an all-electric gate build out by 2025.

Projects that Deliver Zero (Net Energy)

The Airport reviews all commercial tenant design and construction projects for compliance with City, State and Airport sustainability and strategic requirements. Early in 2023, the Board of Supervisors amended the San Francisco Environment Code to require all municipal new construction and major renovation projects to include exclusively electric energy sources (rather than natural gas). The San Francisco Environmental Code was amended to include municipal construction projects in existing buildings, such as tenant improvement projects, must also be all-electric. The Airport is implementing this code update as part of its GHG reduction and decarbonization efforts and is requiring future building projects to be designed and constructed with electricity as the only energy source. In 2021, Airport staff wrote the first airport decarbonization strategy for all existing buildings and leaseholds and in 2022 audited field and terminal properties for gas equipment to replace via the current CIP.

The Airport switched its electricity supply to hydropower from the Hetch Hetchy reservoir in 2012, achieving a 100% decarbonized electricity supply. In addition, the Airport activated the first Zero Net Energy Certified Airport Operations Facility in the world; designed and built three new all-electric buildings; is placing photovoltaic systems on roofs of new buildings where feasible (4MW as of 2022); is converting all light-duty Airport Fleet vehicles and the Airport bus fleet to zero emissions vehicles; planted more than 2,000 trees; improved 558 acres of wetlands throughout the San Francisco Bay Area; provided more than 400 electric vehicle (EV) charging ports; and has completed the extension of the all-electric AirTrain System to the Long Term Parking Garages (including two LEED Gold Certified AirTrain System stations) to reduce shuttle bus usage. The Airport is currently delivering a load-managed proof-of-concept project for charging stations at four locations that will allow the efficient distribution of limited electrical power resources on campus and serve as a model for expanding to 2,000 EV stalls. The Airport also expects to welcome its first fast-charging (Level 3) parking lot and convenience store, to be located adjacent to the Airport's ride

hailing company staging lot in early 2026. The Request for Proposals process for this site will close in July 2024 and construction is anticipated to begin by February 2025.

Beginning in 2017, the Airport developed and implemented a standardized Airport-wide commissioning, activation, and simulation process through its Activation Planning Services project. Commissioning involves the planning and testing of all HVAC, electrical equipment, and photovoltaic systems in newly constructed buildings prior to occupancy to assure the Airport that they are designed and constructed to meet the Airport's requirements. Activation involves the training of the Airport, airline, and tenant personnel to be able to operate and maintain the new buildings and equipment in an energy and water efficient manner, and to maintain a healthy environment for the occupants. Simulation involves a live test of a new facility and involves all the Airport and airline personnel to assure the Airport that all building operators know how to operate the new facility on opening day. This program has provided a model for a new retro-commissioning pilot, that completed in 2021, to reduce Airport operating/utility expenses by improving how existing building equipment and systems function together.

Zero Waste and Water Conservation

The Airport's operations generate approximately 12,000 tons of material annually. This is equivalent to 24 million pounds primarily composed of recyclable and compostable materials. An average Airport guest generates a half pound of trash. The Airport's prior Strategic Plan developed the first scalable zero waste airport terminal strategy to divert at least 90% of solid waste from landfills and incinerators. In 2018, the Airport published its Zero Waste Plan, which outlines measures designed to achieve this goal and ideally to ultimately allow the Airport to become a "closed-loop circular campus," where waste is significantly reduced and that which cannot be reduced is managed for reuse, recycling, or composting. This Plan is expected to be updated and published with updated goals and metrics in 2024. The updated Airport's Zero Waste Plan will reflect the Airport's progress in materials diversion since the plan's initial publication and map specific steps to circularity, including conducting annual waste characterization studies, implementing reusable food ware, updating waste sorting training materials and methodologies, and exploring new refuse monitoring technology. The Airport has improved waste bin designs, and is updating and standardizing its signage and iconography to improve waste sorting. In addition, the Airport plans to pilot photo-based signage in select food courts to determine whether photo-based signage improves waste sorting outcomes as compared to the Airport's standard iconography. The Airport has introduced personalized back-of-house waste sorting trainings for tenants and their staff, as well as waste sorting audits to help the Airport improve waste sorting and meet composting and recycling requirements set by State and local policies, and recognized by the California Green Business Program. The Airport has installed water bottle refilling stations throughout the Airport and has plans to add more of these stations in select terminals. In 2017, the Airport launched a food donation program that enables concessionaires to donate surplus food, beverages, and ingredients to local charities and community donation programs. In 2022, with 40% enrollment, concessionaires donated 25,489 lbs. of surplus food, an amount expected to increase as the Airport works to enroll 100% of food & beverage tenants in the program as required by California Senate Bill 1383. In addition, through the Zero Waste Concessions Program initiated in 2019, the Airport has implemented several programs to reduce single use plastics by, among other things, requiring that all prepared food and beverages be served in and with reusable, recyclable or fiber-based compostable materials with no added fluorinated chemicals. Tenants have achieved 91% compliance with the Airport's plastic-free food ware policy and 96% compliance with plastic-free beverages. As of 2021, the Airport has made food ware accessories including straws, lids, cutlery and more available only upon request. As of 2021, the Airport obtained 96% material diversion from landfills for Airport construction using a new web-based tool. In alignment with City requirements, the Airport supports its contractors and tenants in diverting as much debris from landfill as possible, with a minimum requirement of 75% diversion. The Airport also continues to build out its training program and partnerships around sustainability and zero waste by providing increased online, pre-recorded, and in-person training opportunities for staff and contractors. The Airport is preparing a reusable dishware pilot in its pre-security International Terminal G food court to be launched in 2025 and is developing design and operational plans to implement reusable food ware across all Airport food courts by 2030.

The Airport's prior Strategic Plan also included a goal of reducing water use per passenger by 15% (compared to 2013 baseline) and the current Strategic Plan includes a goal of becoming a net zero water campus by achieving balance between water consumption and measures that conserve, replenish, and recycle water by 2030. In 2023, per passenger water usage was 20% below 2013 levels. Achieving consistent reductions in water use has required planning and advancements of innovative infrastructure projects through a water modernization program including, during 2022, upgrading 19 analog water meters to smart meters, and detecting and fixing three major leaks saving 7.9 million

gallons of water. Additionally, the Airport linked 187 building water meters to an energy monitoring program for compliance reporting; expanded routine sampling stations throughout the Airport campus to maximize water quality; and conducted water audits to evaluate potential leakage, flow rates and fixture upgrades for 31 tenants and restrooms in the International Terminal. The Airport's CIP includes the design and construction of the Advanced Water Treatment Facility Plant which would recycle wastewater from the terminals and provide recycled (grey) water back to the terminals for toilet flushing, cooling tower feed, and landscape irrigation. It also includes additional implementation of the leak detection program and smart meters, with real time feedback that can be accessed and analyzed remotely, on select buildings to increase water conservation, become more resilient in an increasingly drought-prone state and demonstrate water efficiency as a standard operating procedure.

Sustainability Components of the CIP

The Commission's commitment to sustainability is reflected in the Airport's capital projects and its capital planning efforts. As of 2023, the San Francisco Environment Code requires all new construction, major renovations and tenant improvements focus on decarbonization through providing all-electric facilities and using decarbonized (low embodied carbon) building materials. The Airport uses multiple third-party green building certification programs, including LEED, Fitwel, and the WELL Building Standard to verify that new buildings, major renovations, and tenant improvement projects meet high levels of energy and water efficiency, have reduced carbon and GHG emissions during construction and operation, and are using systems and materials that have minimal environmental impact and support improved indoor air quality. New facilities are new designed, constructed, and are operated to best protect people and the planet.

When it reopened in 2011, the renovated Terminal 2 was the first LEED Gold certified airport terminal in the United States. In February 2022, Terminal 1 became the first airport terminal in the world to earn LEED "Platinum" certification using the latest standards from the LEED program developed by the U.S. Green Building Council. This latest version, known as "LEED v4," raises the bar for the design, construction, and operation of high-performance structures. The Airport currently has fourteen certified LEED Gold buildings and interior fit outs such as interior partitions, furniture, etc. (most recently the two new AirTrain System stations) and six certified interior design and construction tenant improvement projects, with another three buildings and three tenant improvement projects designed to achieve LEED certification. In addition to these LEED certifications, the Airport Operating Facility was awarded a prestigious green building recognition of Net Zero certification by the Living Future Institute, and the Long-Term Parking Garage #2 achieved the ParkSmart gold certification. In 2022, the Airport became the first to achieve LEED Platinum certification for the entire Airport campus through the LEED for Communities certification program. Airport staff is analyzing and identifying ways to reduce annual energy and water consumption on an Airport-wide basis to promote the resilience of the campus.

The Terminal 1 Center project achieved yet another green building certification, the Fitwel 2-star, which indicates that this facility provides a healthy environment for passengers and the people who work there. Created jointly by the U.S. Centers for Disease Control and Prevention and the General Services Administration, Fitwel provides guidelines for designing, constructing and operating healthier buildings. In addition to Fitwel, the Terminal 1 Boarding Area B achieved LEED Platinum and the first airport WELL Building Standard Certification in the world demonstrating that it has met certain guidelines for designing, constructing, and operating healthier facilities for the building occupants, and the Courtyard 3 Connector Building is also targeting a WELL Building Standard certification.

The table below identifies the environmental awards granted to some recently completed or soon-to-be completed projects. The final phase of the Terminal 1 Center project is expected to open in the summer of 2024, followed by the Courtyard 3 Connector and International Terminal Building Phase 2 in calendar year 2025. The Airport also has the goal of receiving awards for other projects.

RECENT AND ANTICIPATED ENVIRONMENTAL GOALS AND AWARDS

Project	Environmental Goals or Awards	Project Cost (\$ in millions)	Completion or Estimated Completion
Fire House No. 3	LEED BD+C v4 Gold	39.2	January 2017
Ground Transport Unit (GTU) Relocation	LEED BD+C v4 Gold, targeted Zero Net Energy though ILFI in 2020/1	39.6	January 2018
Consolidated Administrative Campus Phase I (Building 674)	LEED BD+C v4 Gold	87.0	June 2018
Second Long-Term Parking Garage	Engineering News Record (ENR) California's Best Project ParkSmart Gold Certification	157.5	February 2019
Grand Hyatt Hotel	LEED Hospitality v4 Gold	240.0	October 2019
Terminal 2 Air Traffic Control Tower Demo & Buildback	LEED BD+C C+S v4 Gold	94.6	August 2020
AirTrain Extension Hotel Station	LEED BD+C v4 Gold	15.0	June 2021
AirTrain Extension Lot DD Station	LEED BD+C v4 Gold	259.0	July 2021
Terminal 1 Boarding Area B	LEED BD+C NC v4/4.1 Platinum WELL Building Standard Platinum	915.0	December 2021
SFO Airport (3.54 sq. miles)	LEED for Communities: Existing v4.1 Platinum	N/A	September 2022
Terminal 1 Center	Fitwel 2-Star Design Phase Fitwel "Best in Building Health® 2021" Award from the Center for Active Design Targeting LEED BD+C NC v4/4.1 Gold Targeting Fitwel Construction Phase Certification	1,638.3	Summer 2024
Courtyard 3 Connector	Targeting LEED BD+C C+S v4/4.1 Gold Targeting WELL Building Standard	401.0	Summer 2025
International Terminal Building Phase 2	Targeting LEED ID+C v4/4.1 Gold	289.5	Winter 2025
Terminal 3 West	Targeting LEED BD+C NC v4/4.1 Platinum	2,229.0	2029

In addition, in late 2022, Airports Going Green®, an aviation industry forum on sustainability led by the Chicago Department of Aviation and co-hosted by the American Association of Airport Executives, awarded the Airport the Outstanding Sustainability Program award for its Electrification Action Plan for Existing Buildings and the Outstanding Infrastructure Development award for Terminal 1, Boarding Area B. The Airport also received two honorable mentions within Outstanding Sustainability Program category for its Sustainable Planning, Design and Construction Guidelines, and for its Zero Waste Concessions plan. The Airport's sustainability director was awarded the Outstanding Individual Leadership Award by Airports Going Green® in October 2023.

The Airport's sustainability goals are also translated into specific, actionable "Planning, Design and Construction Standards." The Airport updated these standards in 2021 to add additional measures targeting electrification, decarbonization of building materials and improvement of indoor environmental and air quality for improved planetary and human health. These guidelines encourage the use of innovative strategies and cover multiple areas of building performance for long-term sustainability, adaptability and resilience. They provide a new focus on decarbonization through electrification of new facilities and major renovations, and using decarbonized building materials (e.g., concrete manufactured with sequestered waste carbon and with low embodied carbon during manufacture). In further support of the Airport Planning, Design, & Construction Standards and to continuously

improve these Standards, the Airport has initiated two new programs. The first is the “Airport Air Quality Framework” with a focus on identifying and implementing additional strategies to improve both outdoor and indoor environments and air quality. As these strategies are selected, they will be integrated into the Airport Planning, Design, & Construction Standards, as will be the case in a 2024 update already underway. Two pilot programs are being implemented to test the viability of using air quality monitors with sensors to measure and manage the indoor air quality in real time. The second new program is the “Smart Surfaces Program” focused on improving employee comfort and health in outdoor work environments through smart surface design strategies to reduce heat, improve air quality, reduce energy costs, manage stormwater runoff, and limit the Airport’s contribution to global warming.

Starting with Terminal 2, constructed in 2011, all new Airport buildings include new high performance air filtration systems designed to clean the outdoor air and any recirculated indoor air to remove odors, including from jet fuel, and particulates (e.g., from fire smoke) prior to the use of this air indoors. At the completion of each building project, air quality testing is performed in accordance with LEED requirements and State standards. All buildings constructed prior to 2011 include MERV 14 filters, that filter out the particulate matter from fire smoke and COVID-19 aerosolized particles. In 2018, the Airport installed air quality monitors in all terminals and began monitoring air quality regularly. The Airport is currently engaged in a study to determine the appropriate indoor and outdoor air quality monitoring and sensor devices that are intended to provide real-time air quality data and expected to use its related Plan for this in 2024 to inform broader equipment installations alongside new capital projects.

Limits of Airport’s Goals

While the Airport has made and is making significant strides towards achieving its environmental goals and reducing its negative impact on the environment, these goals and most of its efforts are focused on activities within the Airport’s direct operational control. Activities outside the Airport’s direct operational control, such as aircraft activity and transportation to and from the Airport, can be damaging to the environment. For example, in Fiscal Year 2021-22, activities outside the Airport’s direct operational control produced over 400 times as many GHG emissions as did the activities within the Airport’s direct operational control. While the Airport is working with airlines and others to reduce the environmental impact of their various activities at the Airport, such as encouraging the use of SAF and requiring the use of electrical power at the gate, its ability to do so is and will continue to be limited.

Social Responsibility and Strategic Plan

The Commission is committed to enhancing the Airport’s operational efficiency and competitiveness while simultaneously advancing the social conditions of the communities in which it operates and that it supports. Through a variety of efforts, the Commission ensures its surrounding communities have equitable access to the Airport’s economic opportunities, including contracting and employment opportunities. The 5-year Strategic Plan includes objectives and initiatives that embody the Airport’s equity core value and commitment to partner with our communities to create enduring and positive social impacts. Several aspects of the 5-year Strategic Plan are mentioned below and elsewhere in this Official Statement, and more information on the 5-year Strategic Plan can be found at <https://www.flysfo.com/about/about-sfo/strategic-plan>. The information on such website is not incorporated herein by reference.

Equity

The Commission strives for a work culture that is as diverse and inclusive as the region it represents and the passengers it serves. In 2021, the Commission adopted “Equity: we are antiracist, inclusive, and respectful (“AIR”); committed to equitable outcomes for all,” as one of its core values. The Commission also adopted Resolution No. 21-0002 condemning systemic racism and reinforcing the Airport’s commitment to address racial equity as a strategic priority. Women and people of color comprise 50% and 43%, respectively, of Airport senior leadership team as of March 1, 2024.

Racial Equity Action Plan

In 2020, the Airport strengthened its commitment to racial equity by developing its first ever Racial Equity Action Plan (“REAP”). The Airport’s REAP provides a blueprint for advancing racial equity in all aspects of the

Airport’s work over the period from 2021-2023. Both a process and a strategic plan, the REAP assesses seven key focus areas for all employees, with a focus for Black, Indigenous, and People of Color employees. The REAP also identifies resources needed to support change efforts and holds the Commission accountable by setting timely and measurable goals. The Airport’s REAP is being developed in two phases. Phase 1, which began in 2020, is primarily internal-facing, and includes a thorough review of the Commission’s history through an equity lens, and addresses workforce programs, policies, and practices. Phase 2, which is slated to be released in early 2025, will examine City procurement, contracting, grants and the delivery of Airport services. As a result of these efforts, the Airport was awarded the Overall Human Resources Program Award and was named Large Hub Inclusion Champion by the ACI-NA in 2022. The ACI-NA recognized the Airport with these awards based on the Airport’s equity and inclusion focused initiatives and overall commitment to racial equity through development of its REAP. For Fiscal Year 2023-24, the Airport has prioritized its racial equity efforts and resources in the following areas: 1) expanding opportunities for employee career development; 2) improving processes to address workplace concerns; and 3) developing racial equity tools and training for our team members.

Racial equity was elevated as a strategic priority by creating Goal 6 in the Airport’s Interim Strategic Plan: “Achieve racial equity and inclusive growth by uplifting and empowering Black, Indigenous, and People of Color and other underrepresented communities through equitable policies, programs, and practices.” The goal is supported by six objectives and nine indicators derived from the REAP.

Contracting

The Commission operates its Disadvantaged Business Enterprise (“DBE”) and Airport Concessions Disadvantaged Business Enterprise (“ACDBE”) Program in accordance with 49 CFR Parts 23 and 26 of the Code of Federal Regulations. The intent of these programs is to ensure non-discrimination in the award and administration of contracting and leasing opportunities and to remove barriers to the participation of small businesses in contracting marketplaces. The Commission acts as a certifying agency for DBEs and ACDBEs, making these certified small businesses more competitive in both the construction and concessions space. The Commission’s social responsibility section ensures that its DBE/ACDBE Programs are narrowly tailored and that only firms that fully meet the eligibility standards are permitted to participate as DBEs/ACDBEs, promotes the use of DBEs in all types of federally-assisted contracts, assists the development of firms that can compete successfully in the marketplace, and provides flexibility in providing opportunities for DBEs. The Commission also has implemented a robust outreach and technical assistance program to support small and local business owners who have been historically disadvantaged from working in the aviation sector. Since 2015, 21% of all capital plan dollars have been awarded to small, local business enterprises. In Fiscal Year 2022-23, 50% of the Airport’s concessions leases were fully or partially owned by certified ACDBEs.

Hiring

Airport tenants face various challenges in recruiting and retaining workers. The Commission works collaboratively with employers, employees, and the community-at-large, to creatively address the challenges unique to airport employment, including long hours of operations, lengthy security checks, and the overall costs of doing business at the Airport. Airport tenants are required to comply with San Francisco’s First Source Hiring Program, which requires tenants to provide qualified economically disadvantaged individuals priority for employment consideration in entry-level positions or apprenticeship positions. To support the staffing and operational needs of Airport tenants, the Commission partners with tenants to help maintain staffing levels for critical positions by providing Airport tenants with direct access to pre-screened candidates; coordinating recruitment events; and providing space and other resources for conducting interviews.

The majority of the Commission’s construction projects are also required to comply with San Francisco’s Local Hiring Policy (“LHP”), which requires a minimum percentage of work to be performed by San Francisco residents or disadvantaged workers. In Fiscal Year 2022-23, 27% of the construction hours on the Commission’s construction projects were performed by local hires, and of the 81,000 apprenticeship hours, 45% were performed by local hires. The Commission’s Social Responsibility section facilitates compliance of the First Source Hiring Program and LHP.

Economic Mobility and Sustainability

In 1999, the Commission adopted the Quality Standards Program (“QSP”), an industry-leading initiative designed to ensure that tenants safely deliver high quality service to the traveling public through the implementation of minimum standards for safety, equipment and vehicle maintenance, and employee hiring, training and compensation and benefits. The purpose of the QSP is to enhance safety and security at the Airport and applies to any tenant that employs personnel involved in performing services which directly impact safety and/or security at the Airport. Positions that fall under the QSP include those impacting safety, such as positions engaged in checkpoint security screening, passenger check-in activities, and skycap and baggage check-in and handling services; and those impacting security, such as employees providing ramp handling functions including aircraft cleaning, fueling, and baggage/cargo handling and employees who are directly involved in the preparation and/or transportation of food and beverage projects delivered directly onto aircraft. On November 10, 2020, the Board of Supervisors adopted the Healthy Airport Ordinance (“HAO”), which amended the City’s Health Care Accountability Ordinance (“HCAO”) to provide that firms subject to the QSP must offer QSP employees and their dependents premium health insurance coverage at no cost to the employee, or make a financial contribution to the City to establish and administer a medical reimbursement account for the employee. The HAO became operative March 21, 2021. See “LITIGATION MATTERS” herein for discussion of legal challenges related to the HAO and HCAO. The Commission’s social responsibility section regularly audits Airport tenants to determine whether they are in compliance with the QSP.

Other employee-specific supports promote the welfare and longevity for tenant employees to work at the Airport, helping Airport employers increase worker retention, avoid recruitment and turnover costs and enhance productivity. Long-term retention is a critical aspect of successful Airport operations, as the requirements for working at the Airport include extensive security background checks and training. As one example, the Commission’s social responsibility transportation initiative increased a transportation discount to employees, allowing them to reduce their out-of-pocket costs and choose a more sustainable way to commute. The Commission helps to mitigate the region’s living costs through the offering of various financial literacy resources, such as free financial coaching and tax preparation services. And because some essential and hard-to-fill Airport jobs (such as customs and border protection) require citizenship, the Commission has partnered with a non-profit dedicated to providing free legal help to apply for citizenship, which expands the pool for Airport employers to fill these positions.

CAPITAL PROJECTS AND PLANNING

This section provides a general overview of the Airport’s Capital Improvement Plan. Figures used in this section are approximate, and do not represent exact amounts allocated for such projects.

The Capital Improvement Plan Process

The Airport’s Capital Improvement Plan, or CIP, process is led by the CIP Oversight Committee (previously named the Capital Project Review Committee) and the Capital Improvement Plan Working Group (the “CIP Working Group”). The CIP Oversight Committee is comprised of senior management, and the CIP Working Group is comprised of management staff including a subcommittee that focuses solely on Utility and Infrastructure capital projects. The CIP Working Group evaluates and ranks capital projects according to a set of objective criteria that reflect the Airport’s strategic goals, which currently include nurturing a competitive and robust air service market, delivering exceptional business performance, revolutionizing the passenger experience, and being the industry leader in safety and security. The CIP Oversight Committee reviews the CIP Working Group’s ranked list of projects for funding in a Capital Improvement Plan. In reviewing the Capital Improvement Plan, the CIP Oversight Committee considers available funding and the projected financial impact of capital projects. The CIP Oversight Committee sends its recommendations to the Director who approves the final draft, which is then sent to the Commission for approval. Generally, capital projects require the approval of the Commission and the Board of Supervisors, certain actions of which are subject to approval by the Mayor. In most cases, an airline review is also required (see “SAN FRANCISCO INTERNATIONAL AIRPORT–Airline Agreements”). The Capital Improvement Plan is updated on an as-needed basis, and the most recent update was approved by the Commission in October 2023.

The Capital Improvement Plan

Overview

The current CIP was approved by the Commission on October 3, 2023. The CIP consists of a total of 46 project categories totaling \$11.0 billion from Fiscal Year 2023-24 to Fiscal Year 2032-33, of which \$2.4 billion of funding is reflected in the CIP as previously funded. The CIP has two components: (1) The Ascent Program – Phase 1.5 and (2) The Infrastructure Projects Plan, previously referred to as the Rolling Capital Improvement Plan. The Ascent Program – Phase 1.5 totals \$8.0 billion and consists of new projects, continuing projects, and a related program reserve (the “Ascent Program – Phase 1.5 Reserve”). While some individual project budgets remain subject to change, any changes within the Ascent Program – Phase 1.5 are expected to be managed within the overall \$8.0 billion Ascent Program – Phase 1.5 budget. The Infrastructure Projects Plan, totaling \$3.0 billion, is subject to adjustment on an as needed basis. It includes projects focused on maintaining the Airport facilities in a state of good repair, utilities, and infrastructure such as power & lighting improvements, runway and taxiway improvements, and water system improvements. The Ascent Program – Phase 1.5 and the Infrastructure Projects Plan are described in greater detail below.

In response to the COVID-19 pandemic in 2020, the Airport initially suspended a total of \$2.1 billion from its CIP, which consisted of \$1.8 billion in capital projects from Ascent Program – Phase 1 and the Rolling Capital Improvement Plan and \$300 million of the Ascent Program Reserve balance. From 2020 to 2023, the Airport reinstated the majority of those projects and decided to close out the first phase of the Ascent Program. The Airport’s new approved CIP consists of the next phase of Ascent programming called the Ascent Program – Phase 1.5 and also includes the Infrastructure Projects Plan. With passenger traffic now approaching pre-pandemic levels, the Airport is investing in capital projects and improvements to address several key objectives. One of the Commission’s highest CIP priority objectives is to position the Airport for projected passenger traffic growth and meeting demand-driven terminal gate needs. Prior to the traffic declines caused by the COVID-19 pandemic, the Airport experienced gate constraints during peak periods as a result of significant passenger traffic growth during the last decade. Between Fiscal Year 2008-09 and Fiscal Year 2018-19, enplaned passengers grew 57%. Other key CIP objectives include improving groundside access for passengers, enhancing safety and security, maintaining current assets in a state of good repair, promoting sustainability and resiliency, providing the information technology infrastructure necessary to meet passenger and tenant operational needs, improving the customer experience, and maintaining the Airport’s competitive position compared to other international gateways with respect to capacity and cost.

Anticipated Costs and Financing Sources

The \$11.0 billion approved CIP includes an estimated \$8.6 billion in project spending over the ten-year period of Fiscal Years 2023-24 through Fiscal Year 2032-33 and contemplates the following funding sources: \$7.8 billion through a combination of proceeds of the previously issued Bonds, the Series 2024A-C Bonds and additional Bonds expected to be issued in the future (see “CERTAIN RISK FACTORS–Risks Related to the Commission’s Capital Projects”), \$721 million of the CIP to be reimbursed with FAA AIP funds and other grants, and \$82 million funded with other funding sources. The CIP does not currently include spending beyond Fiscal Year 2032-33. The timing of issuance and amounts of additional Bonds may change depending on the timing of capital expenditures and market conditions. The Commission bases its bond issuance needs on capital project cash flows, which are updated regularly.

Capital Projects

The table below summarizes the CIP, and reflects information on costs, funding and implementation timing as reflected in the CIP that was approved by the Commission on October 3, 2023.

Capital Improvement Plan
(\$ in millions)

(\$ in millions)	Prior Funding ^(1, 4)	Future Funding	Total
Ascent Program - Phase 1.5			
Project Costs	\$1,938	\$5,367	\$7,305
Program Reserve ⁽²⁾	–	730	730
Subtotal – Ascent Phase 1.5 ⁽³⁾	\$1,938	\$6,098	\$8,035
Infrastructure Projects Plan	469	2,246	2,715
Project Costs			
Director’s Infrastructure Reserve	0	272	272
Infrastructure Projects Plan Subtotal	469	2,517	2,987
Total CIP ⁽³⁾	<u>\$2,407</u>	<u>\$8,615</u>	<u>\$11,022</u>

⁽¹⁾ Includes funding from proceeds of previously issued Bonds and other sources that have been secured, and allocated to projects. Reflects funding status in CIP as approved, not current funding status.

⁽²⁾ The new Ascent Program – Phase 1.5 Reserve of \$730 million is expected to be used only after considering other cost mitigation efforts.

⁽³⁾ Totals may not add due to rounding.

⁽⁴⁾ Figures do not include Bond and Commercial Paper Note proceeds that had not yet been allocated to projects in the approved CIP.

The Ascent Program – Phase 1.5 Overview

The \$8.0 billion Ascent Program – Phase 1.5 consists of both new projects and continuing projects that were previously included in the set budget Ascent Program – Phase 1 and the Rolling Capital Improvement Plan that preceded the current CIP. The Airport has successfully closed out Ascent Program – Phase 1 and completed many notable projects such as the new Boarding Area B in Terminal 1, AirTrain Extension, Terminal 3 East Improvements, On-Airport Hotel, and the Second Long-Term Parking Garage. Building on the program’s success, the new Ascent Program - Phase 1.5 has been created to complete some of the remaining Ascent Program – Phase 1 projects such as Terminal 1 Center and Terminal 3 West Renovation as well as construct brand new facilities including the second phase of the Consolidated Administration Campus, a new Courtyard 4 Connector, Boarding Area F refresh and the West Field Cargo expansion. Highlights of the Ascent Program – Phase 1.5’s capital projects are provided in the following sections.

The program includes a \$730 million Ascent Program – Phase 1.5 Reserve allocation, which represents 10% of the project budgets. The Ascent Program – Phase 1.5 Reserve will be used to address unanticipated needs of projects within the Program, and only projects in the Ascent Program – Phase 1.5 are eligible to receive supplementary budget allocations from this Reserve. The Airport Director only authorizes use of the Ascent Program – Phase 1.5 Reserve after consideration of other cost mitigation methods. The current Ascent Program – Phase 1.5 Reserve balance as of April 11, 2024 is \$684 million.

While there is no specific approved plan for a subsequent phase to the Ascent Program, in 2016 the Commission completed a recommended Airport Development Plan (“Recommended ADP”), which is currently undergoing environmental review. See “–Recommended Airport Development Plan (ADP).” The Recommended ADP, as modified during environmental review, will result in the identification of a range of potential additional capital projects, one or more of which may be designated as the “Ascent Program – Phase II” (or similar title) and added to future versions of the CIP, if and when the Commission deems that they are warranted to address traffic growth and other factors. The Recommended ADP is not included in the CIP.

A brief description of the largest projects in the Ascent Program – Phase 1.5 follows below, organized by the Airport’s cost centers: Terminals, Airport Support, Utilities, and Groundside. Note that some projects span multiple

cost centers; in such cases project totals reflect only the total for that cost center. Project budgets are as of October 2023 based on the approved CIP. Some individual project budgets remain subject to change, but any changes within the Ascent Program – Phase 1.5 are expected to be managed within the overall \$8.0 billion Ascent Program – Phase 1.5 budget.

Major Ascent Program – Phase 1.5 Capital Projects - Terminals

The largest terminal project spending in the CIP is for the modernization of Terminal 3 West (\$2.2 billion) and the renovation of Terminal 1 Center (\$1.6 billion). The reconfiguration and renovation of the western side of Terminal 3 is intended to increase gate flexibility, improve seismic stability, upgrade building and baggage handling systems, improve passenger flow, add a sterile connector to the ITC, and enhance passenger amenities. The Terminal 1 Center renovations include the construction of a new architectural building envelope, complete electrical, HVAC, special systems replacement, new check-in facilities and passenger screening checkpoint, a new baggage handling system, and construction of a post-security passenger connector and sterile connector from Terminal 1 to the ITC with enhanced passenger amenities.

Other major terminal spending in the CIP includes the Courtyard 3 Connector project, which constructed a post-security passenger connector between Terminal 2 and Terminal 3 in conjunction with a multi-story office block for Commission and tenant use (\$401 million); the International Terminal – Phase 2 project to upgrade and improve the operational efficiency within the departures level of the terminal (\$290 million); the Courtyard 4 Connector (\$265 million) providing a new 4 to 6 story multi-use building between the ITC and T3; and the Boarding Area G Gate Enhancement project to meet increased gate demands (\$143 million).

SFO has a strong desire to continue to broaden the mix of international carriers servicing the San Francisco Bay Area. Strengthening the Oneworld alliance will provide international carriers with deeper domestic penetration into the United States and improved access to other international markets. The Airport is planning certain airline relocations to reinforce and strengthen the Oneworld airline alliance. American Airlines currently operates from the newly renovated Terminal 1 and is part of the Oneworld alliance. Alaska Airlines joined the Oneworld alliance on March 31, 2021, and is planning to relocate from Terminal 2 to Terminal 1. Alaska Airlines also codeshares with American Airlines. American Airlines' and Alaska Airlines' locations in Terminal 1 will facilitate connections for passengers on international Oneworld alliance member airlines to domestic and international destinations.

Major Ascent Program – Phase 1.5 Capital Projects – Airport Support

Major airport support projects include: Cargo and Hangar Improvements in the West Field area (\$688 million), the second phase of the Consolidated Administration Campus (\$560 million), Parking & Garage Improvements (\$279 million), Support Facility Improvements (\$167 million), and Wayfinding projects (\$147 million).

Major Ascent Program – Phase 1.5 Capital Projects – Utilities and Groundside

Major utilities related projects include: the Energy Management Control System (\$44 million) and the Electrical Capacity Upgrade (\$35 million). The primary groundside-related project is the new Bus Maintenance Facility (\$30 million) which will be relocated to accommodate all staff including administration, bus crews, and the maintenance employees.

Infrastructure Projects Plan - Major Capital Projects

The Infrastructure Projects Plan (previously referred to as the Rolling Capital Improvement Plan) consists of infrastructure related projects and has a total approved project cost of \$3.0 billion including an Infrastructure Projects Plan Director's Reserve of \$272 million, which represents 10% of the project budgets. This \$3.0 billion reflects an increase of approximately \$1.4 billion compared to the capital plan adopted in January 2023 primarily attributable to both new projects added in the CIP as well as increases to existing project budgets. These projects are critical for meeting current safety and operational needs of the Airport and focus on addressing state of good repair and infrastructure. Major projects include taxiway improvements (\$411 million); runway improvements (\$370 million);

power and lighting improvements (\$312 million); ITC improvements (\$231 million); waste water system improvements (\$201 million); clean water system improvements (\$161 million); technology improvements (\$137 million); Superbay Renovation projects (\$136 million); miscellaneous terminal improvements (\$98 million); energy and efficiency improvements (\$76 million); and shoreline protection projects (\$60 million).

Implementation of Capital Projects

The Commission uses a variety of strategies to mitigate risk associated with the implementation of the projects in its CIP. The Commission has a Project Labor Agreement to minimize labor-related disruptions to project implementation. The Project Labor Agreement applies to most major Airport capital projects including Terminal 1 Center, Terminal 3 West renovations, the International Terminal Phase 2 project, and the Courtyard 3 Connector. The Project Labor Agreement expired in January 2022, and a new project labor agreement is expected to be adopted by the Commission in May 2024. Certain new projects and certain carryforward projects under the recently approved CIP, including the Terminal 1 Center and Terminal West renovations, the International Terminal Phase 2 project and the Courtyard 3 Connector, will be covered by the new agreement once it is approved by the Commission. The Airport works closely with stakeholders, including airlines, on development and implementation of the CIP.

The Commission has also developed a number of approaches to anticipate and mitigate construction cost escalation. At each design phase, if engineers' estimates exceed budget, staff may utilize value engineering to identify opportunities to reduce costs. Estimated project costs may also include a variety of contingencies depending on the risk profile of the project, including construction-escalation of 5% per year, to the mid-point of construction, applied to unawarded base bid scope (i.e., the estimated cost of trade bid packages, not including contingencies that have not yet been awarded to a subcontractor). Other contingencies may include a 0%-15% design contingency applied to base bid unawarded scope in a declining amount through final design, and a 5% bid contingency applied to unawarded base bid scope. The Commission may add a budgeted Airport contingency equal to 7.5% of the total budget of the prime construction contract. Furthermore, the Airport identifies 10% of discretionary scope in each project, as well as future projects that may be deferred or removed, if and as necessary, based on cost and demand considerations. The Airport has established the Ascent Program – Phase 1.5 Reserve and the Infrastructure Projects Plan Director's Reserve, which could be used after other cost management techniques have been considered.

Nevertheless, project development could be delayed, or the cost of completing projects included in the CIP could be higher than expected, due to various factors. See "CERTAIN RISK FACTORS–Risks Related to the Commission's Capital Projects."

Recommended Airport Development Plan (ADP)

The Airport completed the Recommended ADP in September 2016. The Recommended ADP includes a series of recommended projects that would accommodate potential growth up to approximately 71.1 million annual passengers, serve as a roadmap to guide long-term Airport development, and support the Airport's overarching strategic objectives. The Recommended ADP is not in the Airport's current Capital Improvement Plan. The Recommended ADP identifies potential projects that would accommodate forecast demand for landside facilities, including additional gates and airport and airline support facilities. The Recommended ADP includes a new boarding area with swing gates, replacement of the Central Garage, and expansion of the ITC. Since the Recommended ADP's completion, the Airport has been conducting detailed planning and programming to further refine long range development alternatives in the post-COVID-19 pandemic environment as the international aviation industry recovers.

The Recommended ADP will first undergo required environmental review under the California Environmental Quality Act ("CEQA"), and then individual projects will undergo further review as described below. The Airport initiated the City's process to implement CEQA review when it submitted an application to the San Francisco Planning Department in July 2017. Development of the draft environmental impact report ("Recommended ADP EIR") is ongoing. The San Francisco Planning Department published a notice of preparation of the Recommended ADP EIR in May 2019 and hosted two public scoping meetings. This notice initiated the public CEQA review process and solicited guidance from public agencies as to the scope and content of the Recommended ADP EIR. The Airport estimates completing CEQA review in Fiscal Year 2024-25, although it may take longer depending on the outcome of several required opportunities for public comment and any appeals. Once CEQA review of the Recommended ADP is completed, the Commission then could consider approval of the individual Recommended

ADP projects. Individual projects would still be subject to Board of Supervisors review, federal environmental review under the National Environmental Policy Act (“NEPA”), or both, where applicable, and further Commission review before they proceed. Projects included in the Recommended ADP will not necessarily be undertaken. Projects would be added to future capital improvement plans when and as they are warranted by passenger growth or failing condition. If projects are substantially refined in the future, further review under CEQA and/or NEPA may be required before the projects could proceed.

Other Anticipated Capital Needs

The Airport is studying other investments in addition to the CIP and the Recommended ADP, including investments related to the FEMA flood insurance rate map update and investments in utilities infrastructure and in shoreline protection.

FEMA Flood Insurance Rate Map Update

As part of the National Flood Insurance Program (“NFIP”), a federal program that enables businesses and individuals in participating communities to purchase flood insurance backed by the federal government, the Federal Emergency Management Agency (“FEMA”) has revised Flood Insurance Rate Maps (“FIRMs”) for San Francisco Bay Area communities. FIRMs identify special flood hazard areas (“SFHAs”) that are subject to inundation during a flood having a 1% chance of occurrence in a given year. FEMA has issued a final FIRM for the City, in accordance with the City’s participation in the NFIP. The final FIRM identifies the majority of the Airport as an SFHA, with zone designations generally of either AE (areas subject to inundation by the 1% annual chance flood event) or, in limited areas, VE (areas subject to inundation by the 1% annual chance flood event with additional hazards associated with storm-induced waves). The final FIRM became effective March 23, 2021. The City has adopted the final FIRM and made amendments to the City’s Floodplain Management Ordinance. New buildings or substantial improvements to existing buildings within zones AE or VE will be required to be elevated above the floodplain or implement flood proof construction adherent to the American Society of Civil Engineers (“ASCE”) ASCE 24-14 Flood Resistant Design and Construction. The Airport has been applying the flood protection building standards required under the zone designations in the final FIRM since 2019. The Airport’s review of building permits for compliance with these standards is ongoing. Compliance with the final FIRM will result in increases of the cost of some of the projects in the CIP and other capital projects. Also see “–Shoreline Protection Program.”

Master Utilities Infrastructure Study/Infrastructure Modernization Plan

The Commission completed a Master Utilities Infrastructure Study (“MUIS”) to identify utility infrastructure in need of replacement or upgrade. The MUIS provided a preliminary roadmap for future capital projects to either maintain and renovate existing utilities infrastructure or construct new utilities infrastructure to meet future anticipated Airport needs. Some of the projects identified in the MUIS are in the CIP. Concurrently, the Airport is also developing an Infrastructure Modernization Plan (“IMP”) to refine utility infrastructure planning for short, medium, and long-term needs, as well as incorporate resiliency and adaptation framework, and electrification studies. The IMP will holistically develop scopes, schedules, and budgets for implementable projects as well as serve as a singular authority for all utility infrastructure related scopes. The cost of future utility infrastructure projects may be substantial. The IMP is under contract and expected to be completed by the fall or winter of 2026.

Shoreline Protection Program

The Airport is adjacent to the San Francisco Bay, which, in turn, opens onto the Pacific Ocean. The Airport has constructed various types of seawalls since the 1980s. Currently, more than six of the eight miles of shoreline are protected by engineered earthen berms, concrete seawalls, and vinyl sheet piles. However, there are gaps of variable lengths along the shoreline that may allow water to enter the airfield and the Airport, as well as occasional wave overtopping of some flood protection structures. That water is captured in the storm drain system and is pumped back out to the San Francisco Bay. A report released by the San Francisco Bay Conservation and Development Commission in 2011 suggested that 72% of the Airport would be at risk from a 16-inch sea level rise.

Close to half of the Airport's existing perimeter shoreline meets FEMA 100-year flood standards. However, a study conducted by the Airport identified deficiencies in the Airport's shoreline protection system. Most of these deficiencies occur in the more vulnerable portions of the system, such as near the Airport's Wastewater Treatment Plant, and along the reach owned by the federal government and operating as a U.S. Coast Guard facility.

The Airport's Shoreline Protection Program was estimated to cost \$587 million (in 2018 dollars) per the Airport's Shoreline Protection Project Fiscal Feasibility Study conducted in 2019. However, the actual cost is currently expected to be significantly higher, though the actual cost remains uncertain and could vary depending on many factors including, among others, the results of the NEPA environmental review process, the timing of the project, and escalating costs. The 2019 Shoreline Protection Project Fiscal Feasibility Study assumed the program would protect the Airport's assets and runways until approximately 2085 by adopting design criteria to reduce flood risks and by providing protection against a 100-year storm and 42 inches of sea level rise. The recent draft Sea Level Rise Guidance document from the California Ocean Protection Council issued in February 2024 contains improved science and a better understanding of risk quantified as probabilities. The Airport's review of the draft guidance document reaffirmed that its proposed design is in line with these protection projection scenarios.

The CIP only includes \$60 million budgeted to focus only on the environmental review and permitting process for the Shoreline Protection Program as well as coordination with adjacent neighbors such as San Bruno, South San Francisco, Millbrae, Burlingame, San Mateo County, and the California Department of Transportation. The Shoreline Protection Program completed the CEQA process on June 1, 2023. The NEPA and permitting process remain ongoing and are expected to be complete by early 2025. Once complete, the Airport will then be able determine the full cost of this Shoreline Protection Program and when to begin construction.

Planning to Respond to Climate Change and Sea Level Rise

In addition to the Shoreline Protection Program discussed above, other potentially significant expenditures are likely to be undertaken by the Airport to mitigate and adapt to the impact of climate change and sea level rise. The Airport actively participated in the Adapting to Rising Tides Bay Area: Regional Sea Level Rise Vulnerability and Adaptation Study and is currently participating in the Extreme Precipitation Study by Lawrence Berkeley National Laboratory discussed under "CERTAIN RISK FACTORS – Risks Associated with Global Climate Change," to better predict and anticipate these impacts, but remains unable to guarantee the timing and extent of sea level rise, other adverse effects, or the confluence of these events or effects of climate change (e.g., the occurrence and frequency of extreme precipitation and king tides) or what resulting expenditures will be required. In addition to its coastal location and vulnerability to sea level rise and storm surges, the Airport also has obligations to provide drainage through its West of Bayshore property, which may be inundated by runoff from the surrounding hillsides in an extreme storm event, which may also increase these expenditures.

In addition to the direct expenditures related to global climate change and sea level rise itself, present, pending and possible regulations aimed at curbing the effects of climate change, including but not limited to those described under "SAN FRANCISCO INTERNATIONAL AIRPORT–Certain Federal and State Laws and Regulations–Current and Possible Regulation Related to Climate Change," may directly or indirectly trigger potentially significant expenditures related to the operations of the Airport, Airport tenants, the local economy and other infrastructure, including that which allows access to and support of the Airport. The Commission is unable to predict with certainty what additional laws and regulations with respect to climate change, GHG emissions or other environmental issues (including but not limited to air, water, hazardous substances and waste regulations) will be adopted, or what expenditures will be triggered by such laws and regulations. The effects, however, could be material.

In September 2017, the San Francisco City Attorney filed a lawsuit on behalf of the People of the State of California in San Francisco Superior Court against the five largest investor-owned oil companies seeking to have the companies pay into an abatement fund to help fund infrastructure for climate change adaptation. In July 2018, the United States District Court for the Northern District of California denied the People's motion for remand to State court and then dismissed the lawsuit, which the City had joined as a plaintiff. The plaintiffs appealed these decisions to the United States Court of Appeals for the Ninth Circuit, which in May 2020 vacated the District Court's order that found the case arose under federal law, remanding the case back to the District Court to determine if there were any other grounds for federal jurisdiction. In June 2021, the U.S. Supreme Court declined to review the Ninth Circuit's decision. In October 2022, the District Court ordered the case remanded to State court and stayed the remand pending

any appeals. In November 2022, the defendants appealed the District Court's decision to the Ninth Circuit. In November 2023, the Ninth Circuit rejected defendants' appeal of remand to state court. The City's case has been remanded to and coordinated with similar municipal lawsuits and the State of California's lawsuit in San Francisco Superior Court. While the City believes that the claims in this lawsuit are meritorious, it can give no assurance regarding whether the lawsuit will be successful and obtain the requested relief from the courts, or contributions to the abatement fund from the defendant oil companies.

While the effects of climate change may be mitigated by the Airport's past, current or future investments in mitigation and adaptation strategies and attempts to identify third party contribution and/or grant funding to finance mitigation and adaptation measures, the Airport can give no assurance about the net effects of those strategies, the feasibility of government or third party funding sources, and whether the Airport will be required to take additional adaptive mitigation or adaptation measures, increasing the anticipated expenditures. If necessary, such additional expenditures could be significant.

Federal Grants

The Airport receives federal funding from the FAA, the TSA, and other federal agencies. The CIP includes federal grants as a funding source, comprised of an estimated \$842.2 million, of which the Airport has executed funding agreements for approximately \$178.6 million. If grants are not received as expected, the Commission may find other funding sources, including additional Bonds, to finance projects in the CIP or may defer projects to which grants would have been applied. Federal, State, and local agency grants receivable of \$30.3 million and \$14.7 million as of June 30, 2023 and 2022, respectively, were based on actual costs incurred, subject to grant reimbursement limits.

CIP grant funding includes an estimated \$600.0 million in FAA discretionary grants and \$39.1 million in TSA funding. The AIP provides federal grants to support airport capital infrastructure through entitlement grants, which are determined by formulas based on passenger, cargo and general aviation activity levels, and discretionary grants, which are allocated on the basis of specific set-asides and the national priority ranking system. The FAA administers the Airport's AIP grants. When determining the distribution of discretionary grants, the FAA may consider, as a militating factor, whether the Airport uses its revenues for purposes other than capital or operating costs, when those revenues exceed the amount used by the Airport for such costs in the base year ending June 30, 1995 as adjusted for inflation. The Airport's Annual Service Payment to the City's General Fund in part as compensation for indirect services, management and facilities provided by the City to the Airport is considered to be a non-capital, non-operating cost for this purpose. With the exception of five fiscal years, the Annual Service Payment has exceeded the base year payment when adjusted for inflation since Fiscal Year 1995-96. See "SAN FRANCISCO INTERNATIONAL AIRPORT—Certain Federal and State Laws and Regulations—*Federal Law Prohibiting Revenue Diversion*" and "AIRPORT'S FINANCIAL AND RELATED INFORMATION—Payments to the City," and in the past, the Commission has received a lower amount of FAA discretionary grants than it requested as a result of the amount of the Annual Service Payments. For example, the FAA militated \$6.7 million in discretionary grants in the Federal Fiscal Year ended September 30, 2023, and the Commission received \$39.0 million in FAA discretionary grants. In January 2024, the FAA notified the Commission that the Annual Service Payment in fiscal year ended June 30, 2023 exceeded the inflation-adjusted base year amount by \$16.6 million. The FAA may reduce discretionary grants in the future as a result of the Annual Service Payments. The FAA may also reduce or deny discretionary grant awards as a result of changes in FAA policies or practices. Furthermore, AIP funding may be reduced in the future as a result of legislation or the failure of the U.S. Congress to pass an annual appropriation bill including such funding. Reduction in grants awarded to the Commission could result in the delay or cancellation of projects or the incurrence of additional debt by the Commission. Also see "CERTAIN RISK FACTORS—Risks Related to the Commission's Capital Projects."

The Infrastructure Investment and Jobs Act, which included direct aid for airports, among other things, became law on November 15, 2021. Under the Infrastructure Investment and Jobs Act, in Federal Fiscal Years 2021-22, 2022-23 and 2023-24, the Airport was allocated a total of approximately \$143.7 million in federal funds for capital projects and expects to be allocated additional federal funds in Federal Fiscal Years 2024-25 and 2025-26.

Project costs are subject to audit by the funding agencies to ensure that the costs are allowable under the grant agreements. If any project costs are disallowed, amounts recorded as grants receivable will be reduced or refunded to the respective funding agencies.

Grants received by the Airport are audited from time to time. The Airport has been audited by OIG and others with respect to grants and PFCs. In the past, audits have resulted in repayments of grants and reductions of other grant reimbursement requests. In addition, audits have resulted in changes to the Airport's internal controls and procedures. While the Airport may be required to repay grants it has received or take other remedial measures as a result of future audits, the Commission does not believe any required repayments will have any material adverse impact on the business operations or financial condition of the Airport.

AIRPORT'S FINANCIAL AND RELATED INFORMATION

General

The Airport generates its operating revenues primarily from airline terminal rentals and landing fees, concession revenues, parking management revenues, trip fees and Passenger Facility Charges. The Airport operates as a "residual" airport, which means in effect that the Signatory Airlines are obligated under the Lease and Use Agreements to pay amounts sufficient to cover all of the Airport's operating expenses and debt service costs less any non-airline revenues of the Airport. The Commission establishes terminal rental rates and landing fees in advance for each upcoming Fiscal Year based on the Airport's estimated revenues and expenses. Actual receipts and expenses in any Fiscal Year will be either more or less than estimated revenues and expenses. Due to the residual nature of the Lease and Use Agreements, to the extent there is an over-collection in any year (that is, receipts from the airlines exceed the Airport's net costs), the Airport is obligated to reduce future terminal rentals and landing fees by a corresponding amount. Similarly, if there is an under-collection in any year, the Airlines are obligated under the Lease and Use Agreements to pay such deficiency from future rates and charges. For a description of the Lease and Use Agreements, see "SAN FRANCISCO INTERNATIONAL AIRPORT—Airline Agreements" and APPENDIX E—"SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS." Also see "SECURITY FOR THE SERIES 2024A-C BONDS—Pledge of Net Revenues; Source of Payment—*Certain Adjustments to 'Revenues' and 'Operation and Maintenance Expenses'*—Unearned Aviation Revenues/Aviation Revenues Due."

The Airport's operating revenues depend significantly on the level of aviation activity and passenger traffic at the Airport, including origin and destination travel to and from the Airport, which have comprised approximately 81.5% of passenger traffic in recent years. This demand is driven, in turn, by local, national and global economic conditions, with the strength of the local San Francisco Bay Area economy as the most salient factor. See "CERTAIN RISK FACTORS—Local Economy" and APPENDIX A—"REPORT OF THE AIRPORT CONSULTANT—AIRLINE TRAFFIC AND ECONOMIC ANALYSIS—Economic Basis for Airline Traffic" and "—Airline Traffic Projections—Base Case—Underlying Assumptions." Furthermore, the connecting traffic at the Airport is primarily driven by United Airlines' hubbing activities, with the Airport being an important hub in that air carrier's network. Airport management pursues opportunities to grow revenues from non-airline sources, such as concessions, parking and ground transportation. The availability of these revenues is also largely driven by demand for passenger service at the Airport. Passenger traffic was dramatically affected by the COVID-19 pandemic. See APPENDIX A—"REPORT OF THE AIRPORT CONSULTANT."

Airport expenditures are comprised of operating and capital expenses. Operating expenses grow as passenger levels increase. The Lease and Use Agreements allow for minimal amounts of capital expenditures to be funded from operating revenues. As a result, debt service is a substantial and growing component of the Airport's expenditures each year.

In order to address the financial impacts of the COVID-19 pandemic, Airport management took a variety of actions, including, restructuring debt to reduce debt service on Bonds in Fiscal Years 2020-21, 2021-22 and 2022-23 by \$262 million, \$229 million and \$197 million, respectively. Revenues and expenses for Fiscal Years 2019-20 through 2022-23 were, and in Fiscal Year 2023-24 and future fiscal years may continue to be, impacted by the COVID-19 pandemic. For discussion of federal grants received as a result of the pandemic, most of which have been used to offset operating expenses, see "—Operating Expenses."

Summary of Financial Statements

Summary of Statement of Net Position. A summary of the Commission's Statement of Net Position as reported in the Commission's annual financial statements for Fiscal Years 2018-19 through 2022-23 is shown in the

following table. See APPENDIX B–“FINANCIAL STATEMENTS WITH SCHEDULE OF PASSENGER FACILITY CHARGE REVENUES AND EXPENDITURES, SCHEDULE OF CUSTOMER FACILITY CHARGE REVENUES AND EXPENDITURES, JUNE 30, 2023 (WITH INDEPENDENT AUDITORS’ REPORT THEREON).”

The Commission’s net position decreased by approximately \$162.7 million from Fiscal Year 2021-22 to Fiscal Year 2022-23, resulting in a negative total net position of approximately \$822.9 million. This reduction was primarily attributable to the cumulative effect of accounting changes from the implementation of the “Governmental Accounting Standards Board Statement No. 91 - Conduit Debt Obligations,” which resulted in the reclassification of capital assets of the SFO Fuel system with a net book value of \$106.6 million from revenue to deferred inflow of resources.

⁽¹⁾ For a description of the cash and investments of the Airport, see “Investment of Airport Funds.”

⁽²⁾ Net of allowance for doubtful accounts (in thousands): 2022-23: \$1,446; 2021-22: \$2,949; 2020-21: \$22,714; 2019-20: \$18,074; 2018-19: \$1,307.

⁽³⁾ Current unrestricted assets include aviation revenue due. If there is an under-collection in any Fiscal Year (“aviation revenue due”), the airlines are obligated under the Lease and Use Agreements to pay such deficiency from future rates and charges. See “SAN FRANCISCO INTERNATIONAL AIRPORT–Airline Agreements.” In Fiscal Year 2019-20 there was an aviation revenue due from airlines of \$23.8 million as a result of the COVID-19 pandemic.

⁽⁴⁾ Current liabilities include unearned aviation revenue (formerly referred to as deferred aviation revenue) of (in thousands): 2022-23: \$461,730; 2021-22: \$417,053; 2020-21: \$160,189; 2019-20: \$0; 2018-19: \$3,392. Unearned aviation revenues consist of the amount, in each Fiscal Year, that terminal rental rates and landing fees under the airline Lease and Use Agreements exceed the Airport’s net operating expenses. The Airport is obligated to reduce future rates and charges by a corresponding amount.

⁽⁵⁾ Amounts include compensated absences, accrued worker’s compensation, claims payable and long-term debt outstanding.

⁽⁶⁾ Amounts include the on-Airport Hotel’s assets and liabilities (including the Hotel trust accounts) except the Hotel Debt Service trust account, the Hotel Revenue Stabilization Fund trust account, the Hotel Capitalized Interest trust account, and the Hotel’s capital lease obligations.

⁽⁷⁾ If amount is negative, it is reclassified to Unrestricted Net Position.

Changes in Net Position⁽⁵⁾	\$91,805	\$(216,924)	\$(402,063)	\$(165,440)	\$(56,057)

⁽¹⁾ Also includes parking and transportation revenues and on-Airport Hotel operating revenues.

⁽²⁾ Includes depreciation expense in the amounts of \$268.8 million for Fiscal Year 2018-19, \$312.1 million for Fiscal Year 2019-20, \$331.1 million in Fiscal Year 2020-21 and \$356.6 million in Fiscal Year 2021-22, and includes depreciation and amortization expense in the amount of \$355.5 for Fiscal Year 2022-23. Includes on-Airport Hotel operating expenses in the amount of \$15.2 million for Fiscal Year 2019-20, \$14.4 million for Fiscal Year 2020-21, \$25.0 million for Fiscal Year 2021-22 and \$32.2 for Fiscal Year 2022-23.

⁽³⁾ Includes interest expense in the amount of \$228.9 million for Fiscal Year 2018-19; \$300.2 million for Fiscal Year 2019-20; \$272.8 million for Fiscal Year 2020-21; \$321.1 million for Fiscal Year 2021-22; and \$350.3 million for Fiscal Year 2022-23. Interest expense for Fiscal Year 2020-21 was adjusted to \$270.3 million in the Commission’s Fiscal Year 2021-22 audited financial statements as a result of \$2.5 million of unrealized investment losses being recharacterized as negative investment revenue.

⁽⁴⁾ Represents federal and state grant funds. In Fiscal Year 2020-21, includes \$36.3 million asset contributions from SFO Fuel. In Fiscal Year 2021-22, includes \$24.0 million asset contributions from SFO Fuel.

Available Financial Resources

The following table and accompanying footnotes describe some of the financial resources available to the Commission. All figures are as of June 30, 2023.

Contingency Account ⁽¹⁾	\$165.3 million
Unrestricted Cash: ⁽²⁾	\$832.8 million
PFC Fund balance: ⁽³⁾	\$566.0 million
Available Commercial Paper:	\$96.8 million ⁽⁵⁾

⁽¹⁾ See “SECURITY FOR THE SERIES 2024A-C BONDS–Contingency Account” for a description of the Contingency Account.

⁽²⁾ Unrestricted cash and investments are held by the City’s Treasurer. The amount of unrestricted cash changes frequently, sometimes substantially.

⁽³⁾ Amounts in the PFC Fund may be designated by the Commission as Revenues to offset debt service on Bonds. See “SECURITY FOR THE SERIES 2024A-C BONDS–Pledge of Net Revenues; Source of Payment.”

⁽⁴⁾ The Commission is authorized to have up to \$600 million in Commercial Paper Notes outstanding at any one time under its commercial paper program. Approximately \$503.2 million in Commercial Paper Notes was outstanding as of June 30, 2023, of which approximately \$498 million was repaid with the proceeds of the Series 2023CD Bonds. Approximately \$452.5 million of the Commercial Paper Notes are outstanding as of May 6, 2024. Proceeds of the Series 2024A-C Bonds are expected to be used to repay all such Commercial Paper Notes. See “PLAN OF FINANCE AND REFUNDING.”

Unrestricted cash totaled \$484.0 million as of fiscal year end in Fiscal Year 2020-21, \$787.6 million as of fiscal year end in Fiscal Year 2021-22 and \$832.8 million as of fiscal year end in Fiscal Year 2022-23. These amounts do not include amounts held in the Contingency Account. For further discussion of the Contingency Account, see “SECURITY FOR THE SERIES 2024A-C BONDS–Contingency Account.” The amount of unrestricted cash changes frequently, sometimes substantially.

Operating Revenues

The Commission receives operating revenues primarily from aviation-related activities, ground transportation, and concessions. Each of these categories of revenues is described below. The Commission also receives revenues from net sales and services, which consist of revenues derived from utility services, telecommunication access fees, badge and permit fees, rental car facility fees and cost-based reimbursement of various services.

Principal Revenue Sources

Set forth in the table below is a description of the Airport’s principal revenue sources. No single tenant accounted for more than 28% of total operating revenue in Fiscal Year 2022-23. For the purpose of this table, the term “revenues” includes all amounts paid to the Airport by a company, including Concession Revenues, rent, utilities, etc.

[Remainder of Page Intentionally Left Blank]

TOP TEN SOURCES OF REVENUE

Company/Source	Category	FY 2020-21 ⁽¹⁾	FY 2021-22 ⁽¹⁾	FY 2022-23 ⁽¹⁾		
		Revenues (\$ in thousands)	Revenues (\$ in thousands)	Revenues (\$ in thousands)	Percent of Operating Revenue ⁽²⁾	Percent of Total Revenue ⁽²⁾
United Airlines	Airline	\$224,630	\$307,228	\$292,641	28%	24%
On Airport Parking ⁽³⁾	Public Parking	34,237	94,111	127,715	12	10
American Airlines	Airline	38,589	47,535	42,778	4	3
Alaska Airlines	Airline	29,315	45,327	41,463	4	3
Delta Air Lines	Airline	29,324	45,836	38,251	4	3
The Hertz Corporation ⁽⁴⁾	Rental Car	13,987	25,722	35,281	3	3

Signature Flight Support		15,119	N/A	23,724	2	2
SkyWest Airlines	Airline	15,499	27,273	N/A		
Southwest Airlines	Airline	19,408	24,377	N/A		
Subtotal Ten Highest		\$435,643	\$666,361	\$698,270	66	56
Other Operating Revenue		79,773	154,892	365,834	34%	29%
Total Operating Revenue		\$515,416	\$821,253	\$1,064,104	100	86
Other Revenue ⁽⁵⁾		299,655	112,842	74,596		6%
PFC Collections		29,473	72,804	92,341		7
CFC Collections		-	-	11,441		1
Total Airport Revenue		\$844,544	\$1,006,899	\$1,242,482		100%

⁽¹⁾ Revenue is audited and includes operating and non-operating income and credit adjustments.

⁽²⁾ Numbers may not add due to rounding.

⁽³⁾ New South Parking-California manages the Airport's public short-term garages and long-term parking facility and collects parking revenues on behalf of the Airport.

⁽⁴⁾ The Hertz Corporation filed for bankruptcy relief in May 2020 and emerged from bankruptcy in June 2021.

⁽⁵⁾ Includes interest and other non-operating revenue. "Other Revenues" for Fiscal Year 2020-21 was adjusted to \$297,113 in the Commission's Fiscal Year 2021-22 audited financial statements as a result of \$2,542 of unrealized investment losses being recharacterized as "Other Revenue" rather than being included as interest expense (figures in thousands).

Source: Commission.

Aviation Revenues

Under the Lease and Use Agreements, the Airport's operating budget and non-airline revenue sources are projected for each new Fiscal Year. Then, using a residual cost methodology, airline landing fees and terminal rental rates are set such that estimated total Airport revenues each Fiscal Year are equal to estimated total Airport operating costs, which include debt service and certain capital items as well as general operation and maintenance expenses. Increases in non-airline revenue sources generally result in decreases in airline landing fees and terminal rental rates. See "SAN FRANCISCO INTERNATIONAL AIRPORT—Airline Agreements—*Lease and Use Agreements*." and APPENDIX E—"SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS."

Terminal Rental Rates and Landing Fees

For Fiscal Year 2023-24, annual terminal rental rates at the Airport range from \$391.28 per square foot for Category I space (check-in counters and hold rooms) to \$39.13 per square foot for Category V space (unenclosed or covered areas at ramp level), with an average rate per square foot of \$225.62. For Fiscal Year 2022-23, annual terminal rental rates at the Airport ranged from \$327.50 per square foot for Category I space (check-in counters and hold rooms) to \$32.75 per square foot for Category V space (unenclosed or covered areas at ramp level), with an average rate per square foot of \$187.47.

The landing fee rate for Fiscal Year 2023-24 is \$5.98 per thousand pounds of landed weight compared to \$7.73 per thousand pounds of landed weight for Fiscal Year 2022-23. Operators without a lease or operating permit pay a landing fee charge of \$7.48 per thousand pounds of landed weight. For Fiscal Year 2023-24, the minimum landing fee for fixed wing aircraft is \$514 compared to \$415 for Fiscal Year 2022-23.

Because of the variety of methodologies used by different airports to calculate airline landing fee and terminal rental rates, such fees and rates are not directly comparable between airports. Terminal rental rates and landing fees represent a small proportion of overall costs to the airlines per enplaned passenger at the Airport, and are not a primary consideration in the establishment and maintenance of routes and schedules. However, airline payments per passenger (for landing fees and terminal rental rates) is an index commonly used to compare the costs to the airlines to operate at different airports. Airline payments per enplaned passenger at the Airport are set forth in the table below. Overall, costs to the airlines are expected to rise in the short to medium term, primarily due to the issuance of additional Bonds to fund the construction of capital projects. See “CAPITAL PROJECTS AND PLANNING–The Capital Improvement Plan” and APPENDIX A—“REPORT OF THE AIRPORT CONSULTANT.”

AIRLINE PAYMENTS PER ENPLANED PASSENGER

Fiscal Year	Amount ⁽¹⁾
2022-23	\$22.19
2021-22	21.14
2020-21	36.62
2019-20	25.68
2018-19	16.46

⁽¹⁾ Reflects net aviation revenue due (undercollected) in Fiscal Year 2019-20. See “SECURITY FOR THE SERIES 2024A-C BONDS–Pledge of Net Revenues; Source of Payment–*Certain Adjustments to ‘Revenues’ and ‘Operation and Maintenance Expenses’*–Unearned Aviation Revenues/Aviation Revenues Due.” Reflects unearned aviation revenue (overcollected), also known as “deferred aviation revenue,” in all other Fiscal Years.
Source: Commission.

Terminal rental rates and landing fees are adjusted annually on July 1. The Lease and Use Agreements do not require the airlines, either individually or as a group, to maintain any minimum level of landed weight at the Airport. A summary of historical and current landing fees for scheduled aircraft with a lease or operating permit and average terminal rental rates for Fiscal Years 2019-20 through 2023-24 is set forth below.

HISTORICAL AND CURRENT LANDING FEES AND TERMINAL RENTALS (Fiscal Years)

	2019-20	2020-21	2021-22	2022-23	2023-24
Landing Fees (per 1,000 pounds)	\$5.80	\$7.29	\$11.40	\$7.73	\$5.98
Minimum Landing Fee (fixed wing)	393	393	393	415	514
Minimum Landing Fee (rotary)	196	196	196	208	257
Average Terminal Rental Rate (per square foot)	191.50	196.45	196.45	187.47	225.62

Source: Commission.

Airline Incentive and Stimulus Programs

The Airport has successfully developed new international route destinations and attracted new foreign-flag carriers with international marketing and incentive programs. In 2004, the Commission authorized the initial Air Carrier Incentive Program (“ACIP”) which provided a 100% waiver of landing fees for up to twenty-four (24) months for unserved nonstop international routes operated on an all-year basis (including Mexico and Canada). Between June 2004 and July 2023, the ACIP resulted in twenty-eight (28) new international destinations, twenty-three of which are still operating today offered by a combination of over twenty (20) foreign-flag carriers and United Airlines.

In September 2021, to incentivize new service to domestic destinations, the Commission created a Pandemic Recovery Air Carrier Incentive Program (the “Domestic ACIP”) for calendar year 2022. The Domestic ACIP includes a landing fee waiver for 24 consecutive months for flights landing at SFO with new non-stop air service to domestic destination(s) not served by any airline from SFO at any time during the period July 1, 2018, through the date that is

90 days prior to the commencement of the new air service. The Domestic ACIP commenced January 1, 2022, and was extended through June 30, 2024. Breeze Airways started operations at the Airport in May 2022 and currently serves four new domestic destinations from the Airport: Richmond, Virginia, Louisville, Kentucky, Provo, Utah, and San Bernardino, California. In addition, Southwest Airlines launched service to St. Louis, Missouri, on March 7, 2024, and now participates in the Domestic ACIP. The Domestic ACIP will be evaluated on a year-to-year basis at the end of each fiscal year until full domestic recovery.

Additionally, the Commission approved an enhanced Air Carrier Incentive Program in January 2023. Through this program, international destinations with seasonal service or nearly-all-year service that have previously been unserved at the Airport may choose from one of two options: (i) a one-time, minimum of four months and maximum of seven months of summer or winter seasonal service or (ii) a minimum period of twelve consecutive months and up to 24 consecutive months across both summer and winter seasons (with an allowance for up to a maximum of two consecutive months of reduced, limited or no service during low seasonal demand in each year, beginning from the start date of the new air service). Seasonal service to Rome, Italy, launched in May 2023 and represented the first participant in this seasonal ACIP allowance.

Ground Transportation Revenues

The Commission derives revenues from parking, rental cars and transportation network companies and other ground transportation. TNCs and other ground transportation revenues include fees collected from TNCs, taxis, limousines, shared-ride vans, hotel and off-airport parking shuttles, and other commercial modes of transportation. The Commission's total ground transportation revenue for Fiscal Year 2022-23 totaled \$238.4 million, up from \$174.9 million in Fiscal Year 2021-22. Prior to the COVID-19 pandemic, the relative share of these sources had shifted, with a growing share of ground transportation revenues coming from TNCs. During the COVID-19 pandemic, the share of ground transportation revenues coming from public parking and rental cars initially grew, but over time the demand for, and revenue share for, shared transportation modes has increased. The relative share of these sources of revenue may again shift.

Rental Cars

Currently, four on-Airport rental car companies representing nine brands operate at the Rental Car Center, which is located approximately one mile north of the Terminal Complex under leases that commenced on September 1, 2020. The agreements have five year terms and two 2-year extension options exercisable by the Commission. The agreements with the on-Airport rental car companies provide for payments to the Commission of concession revenues equal to the greater of a percentage of gross receipts or a minimum annual guarantee ("MAG"). The agreements provide for an aggregate MAG of \$49.2 million. The MAG was suspended from the effective date of the leases through November 1, 2022 due to the COVID-19 pandemic.

The on-Airport rental car companies generated aggregate concession revenue and building space rent to the Airport of \$76.0 million in Fiscal Year 2022-23 up from \$60.8 million in Fiscal Year 2021-22.

The Commission implemented a rental car customer facility charge ("CFC") in early 2022, at a rate of \$10.00 per rental car transaction in accordance with State law, for the purpose of making improvements to the Commission's rental car facilities. CFC revenues generally are not classified as Revenues of the Commission under the 1991 Master Resolution, except to the extent all or a portion of the CFC revenues is designated as Revenues by the Commission. No CFCs have been designated as Revenues by the Commission and CFCs may only be used for the purpose of making improvements to the rental car facilities.

SFO Transportation Fees

The rental car companies collect a per rental contract fee (\$16.00 in Fiscal Years 2022-23 and 2023-24) that is paid to the Commission for reimbursement of certain costs of operating and providing the AirTrain System facilities between the Terminal Complex and the rental car facility located one mile north of the Terminal Complex. The total collected in Fiscal Year 2022-23 was \$19.8 million, up from \$15.6 million in Fiscal Year 2021-22.

Parking

SP Plus SF Joint Venture provides management and operation services for the Airport's public and employee parking facilities under a contract with the Commission that commenced July 1, 2023, and has a term of five years. The guaranteed maximum price that the Airport would pay over the five years of this contract is \$215.0 million with \$30.0 million for the first year.

In Fiscal Year 2022-23, parking revenues increased by 35.7%, or \$33.6 million, to \$127.7 million, as compared to \$94.1 million in Fiscal Year 2021-22. Parking transactions increased by 19.4% in Fiscal Year 2022-23 as compared to the prior fiscal year and the average price per exit increased by 13.2% from \$37.48 in Fiscal Year 2021-22 to \$42.43 in Fiscal Year 2022-23. The increase in the average price per exit reflects longer average duration per parking transaction.

The daily long-term parking rate is \$25.00 per day. In comparison, the short-term parking rates are a maximum of \$36.00 per day and valet parking rates are a maximum of \$45.00 per day. Valet services were suspended because of the COVID-19 pandemic and will be restored at a to-be-determined future date.

On October 29, 2020, an online booking system was launched for all public parking facilities at the Airport. Through this booking system, Airport patrons are given the ability to prebook their parking and gain access to exclusive promotional offers and long-term parking special rates. From October 29, 2020 through January 31, 2024, the Airport generated over \$87 million in prebooking revenue. The revenue generated by the online booking system is anticipated to grow as passenger traffic recovers and the Airport's various marketing campaigns are implemented.

The Airport's parking facilities compete with off-airport facilities located near the Airport that are operated by private companies. See "SAN FRANCISCO INTERNATIONAL AIRPORT—Current Airport Facilities—*Public Parking and Rental Car Facilities.*"

TNCs and Other Ground Transportation

Revenue from commercial ground transportation totaled \$55.6 million in Fiscal Year 2022-23, an increase of \$17.7 million or 46.5% from Fiscal Year 2021-22, primarily driven by increase in passenger traffic. In Fiscal Year 2022-23, TNCs recorded nearly 8.2 million Airport pick-ups/drop-offs resulting in \$45.1 million in trip fee revenue as compared to 5.4 million Airport pick-ups/drop-offs and \$30.0 million in trip fee revenue in Fiscal Year 2021-22. Commercial modes of transportation experienced increases in trips in Fiscal Year 2022-23 as compared to the prior Fiscal Year, including hotel shuttles (12.1%), door-to-door pre-arranged vans (94.0%), limousines (35.6%), taxis (33.6%), scheduled buses (27.3%), charter buses (100.9%), and off-airport parking vans (8.4%).

For Fiscal Year 2023-24, the per trip fee for low occupancy commercial vehicle modes (including TNCs, limousines and taxi pickups; no charge for taxi drop-offs) is \$5.50, and the per trip fee for high occupancy vehicle modes (defined as seven or more passenger seats) is \$3.60. Rates are reviewed annually.

Concessions Revenues

Retail and Food and Beverage Program

As of March 1, 2024, the domestic terminals have 38 retail locations and 52 restaurants and the international terminal has 25 retail locations (including 15 duty free stores) and 19 restaurants. Some locations were temporarily closed as a result of the COVID-19 pandemic, however all locations have reopened, although a few are operating at reduced hours. See "*Temporary Closures and Relief as a Result of the COVID-19 Pandemic.*"

Renovations of Terminal 1 are well under way. A newly constructed portion of Terminal 1 referred to as Boarding Area B opened in phases starting in 2019. Currently Boarding Area B has 22 newly operating restaurants and retail stores with an additional ten locations planned to be opened in 2024. Overall concessions square footage has increased from 20,956 to 26,373 and is expected to grow to approximately 55,000 square feet when the entire Terminal 1 renovation is complete. See "SAN FRANCISCO INTERNATIONAL AIRPORT—Current Airport Facilities—

Terminals” and “CAPITAL PROJECTS AND PLANNING–The Capital Improvement Plan–*Major Ascent Program–Phase 1.5 Capital Projects-Terminals.*”

Fully renovated portions of Terminal 3 opened in 2014 and 2015. Renovation of the remainder of Terminal 3, referred to as “Terminal 3 West,” is expected to expand the terminal footprint to accommodate a substantial increase in concessions square footage. The project was initially suspended due to the effects from pandemic however resources have been recently remobilized as timing and scope of the Terminal 3 West project is currently being developed. (See “CAPITAL PROJECTS AND PLANNING–The Capital Improvement Plan.”)

A comprehensive renovation of the ITC concessions program has substantially been completed since December 2021 with 21 new food and beverage concepts, five new retail locations and 15 newly renovated retail stores have opened. The renovation of one remaining location in this program is projected to be completed in the summer of 2024.

In Fiscal Year 2022-23, food and beverage domestic terminal sales increased from the prior year by 37.9% and ITC sales increased from the prior year by 76.9% for an overall increase of 45.6%. In Fiscal Year 2022-23, food and beverage domestic terminal revenues to the Airport increased by 17.9% as compared to Fiscal Year 2021-22 and ITC revenues increased from the prior year by 64.8% for an overall increase of 26.1%. The overall rise in both sales and revenues to the Airport is mainly driven by the increase in passenger traffic. The difference between increases in sales and revenues to the Airport reflects how the Airport’s concessionaire leases are structured, the reinstatement of MAGs for most leases and the application of federal grant funds toward concessions revenues (see “–Operating Expenses”). Overall, the domestic terminal passenger food and beverage spend rate increased by 10.2% in Fiscal Year 2022-23 over the prior Fiscal Year from \$10.49 to \$11.57 and the ITC food and beverage spend rate increased by 3.3% from \$9.91 to \$10.23. The overall passenger food and beverage spend rate at the Airport in Fiscal Year 2022-23 was \$11.22, an 8.1% increase from Fiscal Year 2021-22.

In Fiscal Year 2022-23, retail sales, excluding duty free, increased 43.0% compared to the prior year, with a per passenger spend rate increase of 6.2% to \$4.27 from \$4.02. In Fiscal Year 2022-23, rent from retail concessions increased 49.8%. Both increase in sales and rent is primarily driven by the increase in passenger traffic.

Duty Free Program

In 2018, the Commission entered into a concession agreement with DFS Group, L.P. (“DFS Group”), which is exclusive for duty free sales and non-exclusive for duty paid sales. The lease is for 15 stores covering about 46,295 square feet, primarily in the ITC, with one location in Terminal 1. ITC renovations under this concession agreement have been mostly completed and the Terminal 1 location is expected to begin construction in 2024. The 14-year base term of the lease commenced April 1, 2020. The term will be extended if the Airport constructs a single centrally located security checkpoint in the ITC and an accompanying retail plaza necessitating reconstruction of much of the duty free program within five years of lease expiration. Base rent for the duty free lease commenced April 1, 2020 and was the greater of a MAG of \$42,000,000 or tiered percentage rent (45.8% for sales to \$100,000,000; 41.8% for sales between \$100,000,000 and \$160,000,000; and 30% for sales above \$160,000,000). The Airport and DFS Group agreed to modify the rent for the first Lease Year (April through December 2020) for DFS Group to be 33% of gross revenues only, with no MAG. As a result of the travel restrictions and the protracted recovery from the COVID-19 pandemic, the Airport agreed to further modify the rent structure for Lease Years 2, 3 and 4 (January 2021 through December 2023) to continue with 33% of gross revenues until the earlier to occur of the reinstatement of MAG (described under “–*Temporary Closures and Relief as a Result of the COVID-19 Pandemic*” herein) or the end of Lease Year 4. The MAG on duty free operations was reinstated in May 2023. However, in light of the ongoing changes in international travel patterns since the original agreement was entered into, the Commission and DFS Group agreed upon a further amendment to certain terms of the agreement. Specifically, under an amendment approved by the Commission in October 2023, the percentage of gross revenues has been set at 36% for calendar years 2024, 2025, and 2026, with a MAG of \$30 million per year (adjusting annually during that period in accordance with the terms of the original agreement). Commencing in calendar year 2027, the original rental structure and MAG terms, described in the paragraph above, are scheduled to be restored.

Advertising Program

Clear Channel Airports has held the advertising concession lease at the Airport since 2001. The Commission's current lease with Clear Channel commenced July 1, 2013, with a ten year term ending December 31, 2022. The lease requires Clear Channel Airports to pay the Commission a fixed annual rent amount of \$10.0 million (as adjusted pursuant to the lease). The fixed rent for calendar year 2022 was \$12.7 million. As a result of the market disruption from the COVID-19 pandemic at the time of the expiration of the lease term, the Airport placed the Clear Channel lease in month-to-month holdover status as of January 1, 2023. The Airport recently sought and obtained approval for its COVID-19 Pandemic Lease Extension program, and the Clear Channel lease is part of that program. The holdover period for the Clear Channel lease ended on April 30, 2024, and a new three and half year extension term commenced under such program, expiring on October 31, 2027. The fixed annual rent under the lease as of May 1, 2024 is \$13,874,357.

Temporary Closures and Relief as a Result of the COVID-19 Pandemic

Non-essential Airport concession operations, including duty free and non-newsstand retail and certain food and beverage concessions were temporarily closed beginning in March 2020 as a result of the COVID-19 pandemic. Currently all food & beverage and retail locations including all DFS stores have reopened.

As a result of the pandemic, the Commission offered relief to concessionaires including deferral or forgiveness of some rent payments and other fees in 2020. As a result, percentage rent for March 2020 and all other rent for April and May 2020 has been forgiven. The Airport estimates that the total amount of forgone revenue under the rent relief program is approximately \$21.8 million. In addition, the Airport has fully extended another \$5.9 million in Fiscal Year 2021-22 and \$23.8 million in Fiscal Year 2022-23 of additional rent relief to eligible concessionaires as required in connection with certain federal coronavirus relief grant programs discussed under "–Operating Expenses."

The majority of the Commission's retail and food and beverage leases are structured for the Commission to receive rent equal to a percentage of gross revenues or a minimum annual guarantee ("MAG"), whichever is higher. The Airport's concession agreements with tenants also generally provide that the MAG is temporarily suspended, and the tenant is required to pay only a percentage of revenues as rent, if monthly enplanements in the relevant boarding area of the Airport are less than 80% of the enplanements of the same month in the calendar year immediately prior to the year in which the concession is awarded (the "reference month"), and such shortfall continues for three consecutive months. The MAG is reinstated once monthly enplanements equal or exceed 80% of the enplanements of the reference month for two consecutive months. MAGs were suspended under most such agreements beginning in June 2020, so starting in June 2020, most concessionaires are only required to pay a percentage of revenues as rent. As passenger volumes continue to improve, approximately 67% of all concession leases have had MAGs reinstated as of December 2023.

Top Ten Sources of Concession Revenues

In Fiscal Year 2022-23, concession revenues, including revenues for parking and other ground transportation, were \$348.9 million, a 27.0% increase compared to the previous Fiscal Year's concession revenues of \$274.8 million.

The following table summarizes concession revenues for Fiscal Years 2020-21 through Fiscal Year 2022-23 attributable to the Airport's largest concession revenue sources. For the purpose of this table, "Concession Revenue" is defined as fees and rentals collected by the Commission for: (i) the right to provide and operate restaurants, bars, car rental services, newsstands, gift shops, specialty shops, advertising displays, public telephones and other merchandising concessions and consumer services in the Terminal Area; (ii) the right to provide and operate courtesy vehicles, ground transportation services, hotels, service stations and other concessions and services in the groundside area; and (iii) other activities and services in the groundside area of the Terminals such as public automobile parking and traffic fines. "Concession Revenues" for identified concessionaires/managers includes only revenues derived from percentage rent (including minimum annual guarantees where applicable), not fees for permits or facility rent.

TOP TEN SOURCES OF AIRPORT CONCESSION REVENUES*

Concessionaire/Manager	Concession Revenue Sources	Lease/Agreement Expiration Date	FY 2020-21 Concession Revenue (\$ in thousands)	FY 2021-22 Concession Revenue (\$ in thousands)	FY 2022-23 Concession Revenue (\$ in thousands)

Total Concession Revenue			\$113,914	\$274,765	\$348,916

* See also “—Concession Revenues,” and “—Ground Transportation Revenues – Rental Cars.”

(1) There are two concession leases for DFS Group: a duty paid lease and a duty free lease. In Fiscal Year 2022-23, the minimum annual guaranteed rent for the duty free lease was \$7.0 million. The duty paid lease expires January 31, 2028; the duty free lease expires March 31, 2034.

(2) The Commission receives multiple revenue streams from rental car companies (such as concessions rent, facilities rent, transportation and facilities fees). Revenue in this table reflects only the concession rent.

(3) The minimum annual guaranteed rent for Hertz Corporation was \$11.0 million in Fiscal Year 2022-23.

(4) Doing business as Enterprise Rent-A-Car, Alamo Rent-A-Car and National Car Rental. Tenant's minimum annual guaranteed rent was \$10.7 million in Fiscal Year 2022-23.

(5) Doing business as Avis Rent-A-Car and Budget Rent-A-Car. Tenant's minimum annual guaranteed rent was \$7.4 million in Fiscal Year 2022-23.

(6) The fixed rent for Clear Channel in Fiscal Year 2022-23 was \$12.7 million.

(7) Tastes on the Fly operates various locations within the Airport, each with a different expiration date. The total minimum annual guaranteed rent for Fiscal Year 2022-23 was \$2.2 million.

(8) The minimum annual guaranteed rent for Sixt Rent A Car was \$2.3 million in Fiscal Year 2022-23.

(9) The minimum annual guaranteed rent for Alclear, LLC. in Fiscal Year 2022-23 was \$1.7 million.

(10) American Express Travel Services rents space for its common use club at CAT II rate.

(11) WDFG North America, LLC (Formerly Host International Inc.) operates various locations within the Airport, each with a different expiration date. The total minimum annual guaranteed rent for Fiscal Year 2022-23 was \$2.4 million.

(12) Fox Rent A Car on-airport lease ceased August 31, 2020. Off-airport permit commenced September 2020. Tenant was not one of the top ten sources of concession revenue in Fiscal Year 2022-23.

(13) Tenant provides wireless network service. Tenant was not one of the top ten sources of concession revenue in Fiscal Year 2021-22 and Fiscal Year 2022-23.

(14) Tenant was not one of the top ten sources of concession revenue in Fiscal Year 2021-22 and Fiscal Year 2022-23.

(15) Represents the aggregate concession revenue received from approximately 85 additional concessionaires operating 125 concessions and ground transportation operators at the Airport, including TNC trip fee revenues of approximately \$8.3 million in Fiscal Year 2020-21, approximately \$30.0 million in Fiscal Year 2021-22, and approximately \$45.1 million in Fiscal Year 2022-23. The concession revenue for Fiscal Years 2021-22 and 2022-23 includes Concession Relief adjustments in connection with federal coronavirus relief grant programs. See – Concessions Revenues – Temporary Closures and Relief as a result of the COVID-10 Pandemic.”

Source: Commission.

Passenger Facility Charge

In 2001, the Airport received authorization from the FAA to commence collection and use of a PFC in the amount of \$4.50 per enplaning passenger to pay for certain eligible capital projects as approved by the FAA. The PFC revenues received by the Airport are subject to audit and final acceptance by the FAA and costs reimbursed with PFC revenues are subject to adjustment upon audit.

PFC Applications

The following is a summary of the Airport's approved PFC applications as amended through March 31, 2024.

SUMMARY OF AIRPORT PFC APPLICATIONS As of March 31, 2024^(a)

Application #	Date of Application	Date of FAA Approval	Original Amount (millions)	Revised Amount (millions)	Expiration Date ^(b)	Collected ^(c, e) (millions)	Remaining (millions)
1	March 2001	July 2001	\$113	\$ 0	June 2003	\$ 0	\$ 0
2	November 2001	March 2002	224	224	November 2005	224	0
3 ^(d)	July 2003	November 2003	539	609	November 2013	609	0
5	October 2010	October 2013	610	742	October 2024	742	0
6 ^(f)	July 2013	June 2015	141	0	March 2026	0	0
7 ^(f)	October 2016	May 2017	320	0	February 2030	0	0
8 ^(f)	June 2018	October 2018	537	537	March 2029	218	319
9	October 2020	January 2021	209	209	December 2030	0	209
TOTAL:			\$2,693 ^(g)	\$2,321 ^(g)		\$1,793 ^(f)	\$528 ^(f)

^(a) Reflects applications as amended.

^(b) The Report of the Airport Consultant projects that the Commission's current PFC authorization will be fully collected in Fiscal Year 2027-28.

^(c) Includes interest earnings on collections.

^(d) The Airport submitted, and later withdrew, PFC Application #4.

^(e) Preliminary. Accrual basis.

^(f) On October 4, 2018, the FAA approved the Airport's PFC Application #8, which combined PFC Application #6, as amended and PFC Application #7 for a new combined total of \$537 million of collection and spending authority, with an estimated expiration date of March 1, 2029. PFC Application #8 resulted in FAA administrative amendments for PFC Applications #6 and #7 to close out and transfer the collections and projects to PFC Application #8.

^(g) Totals may not add due to rounding.

Source: Commission.

The Report of the Airport Consultant projects that the Commission's current PFC authorization will be fully collected in Fiscal Year 2027-28. The Commission intends to submit further PFC applications to the FAA that would permit it to continue collecting PFCs at a \$4.50 rate and provide for increased PFC collection and use authority in the future, including requests for authorization to use PFC revenues to pay debt service associated with the Terminal 1 and Terminal 3 redevelopment projects.

Designation of PFC Collections as Revenues

PFC collections are not included in the definition of "Revenues" under the 1991 Master Resolution. The Commission, however, has the ability but not the obligation under the 1991 Master Resolution to designate all or some portion of such collections as "Revenues" for a given Fiscal Year. These amounts so designated thus contribute to the Airport's calculation of debt service coverage for purposes of its rate covenant. The actual amount of PFC collections to be designated as "Revenues" and used to pay debt service is dependent, in part, upon the amounts permitted for such use by PFC regulations and the Airport's PFC applications. To date, the Commission has determined the amount eligible to be designated as Revenues prior to the start of each Fiscal Year. The Commission authorizes the Airport Director to adjust this amount, depending upon actual PFC collections during the Fiscal Year, Airport net revenues relative to budget, and other factors. PFC collections that are not applied as "Revenues" and used to pay debt service on related Bonds are deposited and retained in a separate account and are available to be applied for such purposes in

future Fiscal Years. As of March 31, 2024, the Airport reported to the FAA a balance of \$669.5 million in such account, which may be used to pay debt service on related Bonds or for other purposes. Set forth in the table below is a summary of Airport PFC collections and amounts applied to pay debt service for the ten Fiscal Years through Fiscal Year 2022-23. The Commission has designated \$130 million of PFCs as Revenues in Fiscal Year 2023-24.

**PFC COLLECTIONS APPLIED BY THE COMMISSION
FOR PAYMENT OF DEBT SERVICE ON OUTSTANDING BONDS**

Applicable Fiscal Year	PFC Collections (millions) ⁽¹⁾	PFC Designated as Revenues (millions) ⁽²⁾	Amount Applied to Pay Debt Service (millions) ⁽³⁾
2022-23	\$99.4	\$137.0	\$0.0
2021-22	60.9	397.0	0.0
2020-21	29.3	0.0	0.0
2019-20	83.7	523.6	151.8
2018-19	124.8	67.9	63.3
2017-18	115.1	31.7	4.1
2016-17	105.9	44.9	23.4
2015-16	100.2	58.1	43.1
2014-15	93.2	62.6	47.6
2013-14	88.0	60.2	35.7

⁽¹⁾ Includes PFC collections and related interest earned for the year. Based on Audited Financial Statements for Fiscal Years 2013-14 through 2022-23.

⁽²⁾ Amount authorized to be designated as Revenues to be applied to pay debt service. Accumulated PFCs from prior years can be designated in future years. The Commission authorized the Director to designate up to \$397 million of PFCs as Revenues in Fiscal Year 2020-21 or Fiscal Year 2021-22. The Director did not designate any PFCs as Revenues in Fiscal Year 2020-21, leaving the full \$397 million available to be applied to pay debt service in Fiscal Year 2021-22.

⁽³⁾ Amount actually applied to pay debt service. Accumulated PFCs from prior years can be applied to pay debt service in future years.
Source: Commission.

The Commission's receipt of PFC revenues is subject to certain risks. A shortfall in PFC revenues or a decision by the Commission not to designate PFCs as Revenues may require the Commission to increase landing fees and terminal rentals to pay its debt service on the Bonds.

Collection of PFCs in the Event of Airline Bankruptcy

In order to ensure continuation of the PFC program, including the trust fund status of collected PFCs, Congress amended the PFC enabling legislation effective December 12, 2003, to provide additional specific obligations for an air carrier operating under bankruptcy protection in Chapter 7 or Chapter 11. The statute provides that (i) the air carrier must segregate in a separate account an amount of PFCs equal to its average monthly liability, (ii) PFCs are funds held in trust for each airport regardless of the ability to identify or trace precise funds, (iii) the air carrier may not pledge the PFCs to a third party, (iv) an airport is entitled to recover costs for enforcing an air carrier's compliance with the statute, (v) the air carrier may keep any interest income earned on the segregated PFCs if it is in compliance with the PFC enabling legislation, and (vi) PFCs may not be commingled with other air carrier revenues.

While the PFC enabling legislation provides that PFCs are trust funds both before and after an air carrier files for bankruptcy protection, there can be no assurance that, in the event of a bankruptcy, the air carrier will have collected, retained, segregated or properly accounted for its PFCs, or that the Airport would be able to collect from the air carrier the PFCs that the airline collected prior to the bankruptcy filing, or that any such collection would be timely.

Operating Expenses

Fiscal Year 2022-23 operating expenses increased \$93.0 million (11.5%) to \$902.8 million from \$809.8 million in Fiscal Year 2021-22. This increase was primarily attributable to increases in expenses for personnel,

contractual services, hotel, light, heat and power, services provided by other City departments, repairs and maintenance, and materials and supplies. Personnel expenses increased \$66.9 million (30.8%) primarily due to an increase in pension expenses as a result of investment losses. Depreciation and amortization decreased \$1.1 million (0.3%), primarily due to assets becoming fully depreciated. Contractual services increased \$16.3 million (20.0%), primarily due to increased expenses for various professional services contracts, such as parking, shuttle buses, and technology services. The on-Airport Hotel operating expenses increased \$7.2 million (28.8%) primarily due to a rise in departmental expenses and undistributed operating expenses. Light, heat and power expenses increased \$1.2 million (4.4%) primarily due to an increase in consumption and rates. Services provided by other City departments increased \$0.3 million (1.1%), primarily due to higher water usage and an increase in San Francisco Public Utilities Commission water rates. Repairs and maintenance expenses increased \$2.9 million (5.1%), primarily due to the return of pre-pandemic service levels in maintenance contracts. Materials and supplies expenses increased \$0.8 million (6.6%), primarily due to inflation as well as increased spending on cleaning supplies due to higher passenger traffic that occurred during fiscal year 2022-23. General and administrative expenses decreased \$0.7 million (15.0%), primarily due to a decrease in estimated bad debts expense related to the Airport COVID-19 Emergency Rent Relief Program for concession tenants and judgment claims. Environmental remediation expenses decreased \$0.7 million (36.0%), primarily due to fewer new capital projects.

The U.S. government provided federal assistance to airports as a result of the COVID-19 pandemic, including under the Coronavirus Aid, Relief, and Economic Security Act, the Coronavirus Response and Relief Supplemental Appropriations Act, and the American Rescue Plan Act (the “ARPA”). The Commission has applied approximately \$0.2 million, \$296.1 million, \$175.1 million, and \$23.8 million of these federal funds to offset Operation and Maintenance Expenses in Fiscal Years 2019-20, 2020-21, 2021-22 and 2022-23, respectively, and has applied approximately \$4.9 million and \$20.9 million to concessions rent relief in Fiscal Year 2021-22 and 2022-23.

Review and Adjustment to Operating Expenditures

Each quarter, the Airport produces a financial forecast for the operating budget. If this forecast were to project that the operating budget would be in a deficit by the end of the Fiscal Year, Airport management likely would implement cost control measures. These cost control measures have included, but are not limited to, workforce reductions or hiring freezes on positions except those that have a direct impact on safety and security, and cuts in discretionary expenditures, such as professional service contracts.

Payments to the City

Annual Service Payment

As provided by San Francisco Charter Section 16.104(b)(8) and the Lease and Use Agreements, the Commission makes an “Annual Service Payment” to the City in part to compensate the City for certain indirect services, management and facilities that it provides to the Airport and the Commission. See “SAN FRANCISCO INTERNATIONAL AIRPORT–Airline Agreements–Lease and Use Agreements” and “Payments from Commission to City” in APPENDIX E. The Annual Service Payment is equal to the greater of (i) \$5 million or (ii) 15% of “Concession Revenues” (as defined in APPENDIX E–“SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS–Payments from Commission to City”), and is paid by the Commission in quarterly installments based on estimates and reconciled at year-end. The Annual Service Payment is made only after the payment of Operation and Maintenance Expenses and debt service on outstanding revenue bonds of the Commission, including the Series 2024A-C Bonds, and certain other expenditures. See “SECURITY FOR THE SERIES 2024A-C BONDS–Flow of Funds.” The amount of Annual Service Payment for each of Fiscal Years 2018-19 through 2022-23 is set forth below.

The Annual Service Payment has been grandfathered under the Final Policy. However, the grandfathered status may not continue indefinitely. New federal legislation could change or revoke this status. The 2018 FAA Act included a provision that required the Comptroller General of the United States to initiate within 180 days of enactment of the Act a study of (1) the legal and financial challenges related to repealing such “grandfathering” for the Airport and other airports the FAA has identified as “grandfathered”; and (2) measures that may be taken to mitigate the impact of repealing the exception. The U.S. Government Accountability Office (“GAO”) published the required report, titled “Grandfathered Revenue Diversion and Potential Implications of Repeal,” on September 8, 2020. GAO analyzed FAA financial data on grandfathered airports’ revenue diversion for fiscal years 1995 through 2018 and

worked with officials from nine grandfathered airport sponsors, including the City, and representatives from bond rating agencies, airline and airport associations, and airlines that serve grandfathered airports in developing the report. The report discusses the complicated effects that would result from a repeal of the provisions that created these revenue diversion exemptions and the significant disruptions likely to result if a repeal were to be enacted. See “SAN FRANCISCO INTERNATIONAL AIRPORT–Certain Federal and State Laws and Regulations–*Federal Law Prohibiting Revenue Diversion.*” See also “CAPITAL PROJECTS AND PLANNING–Federal Grants” and APPENDIX E–“SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS–Events of Default; Termination or Suspension of Lease and Use Agreement Provisions–*Commission’s Right to Suspend Part of Lease and Use Agreement.*” No further action has been taken by Congress since the issuance of the report.

Payments for Direct Services

In addition to the Annual Service Payment, the Lease and Use Agreements permit the Commission to reimburse the City’s General Fund for the cost of direct services provided by other City departments to the Airport, such as those provided by the Police Department, the Fire Department, the City Attorney, the City Treasurer, the City Controller, the City Purchasing Agent and other City departments. This reimbursement to the City is an operating expense of the Airport. Set forth in the table below is a summary of the payments made by the Airport to the City for Fiscal Years 2018-19 through 2022-23. The Commission is otherwise prohibited under the Lease and Use Agreements from making any payments to the City, directly or indirectly. See APPENDIX E–“SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS.” Also see “SAN FRANCISCO INTERNATIONAL AIRPORT–Certain Federal and State Laws and Regulations–*Federal Law Prohibiting Revenue Diversion.*”

SUMMARY OF PAYMENTS MADE BY THE AIRPORT TO THE CITY*
(\$ in millions)

Fiscal Year	Annual Service Payment	Reimbursement for Direct Services				Subtotal	Total
		Police	Fire	Other ⁽¹⁾	Utility Costs		
2022-23	\$48.7	\$67.6	\$29.5	\$32.4	\$56.9 ⁽²⁾	\$186.4	\$235.1
2021-22	37.9	64.9	29.0	30.5	61.8 ⁽³⁾	186.2	224.1
2020-21	15.0	69.4	26.9	29.0	48.2 ⁽⁴⁾	173.5	188.5
2019-20	33.5	69.5	27.1	33.4	53.5 ⁽⁵⁾	183.5	217.0
2018-19	49.1	65.2	25.0	29.2	51.9 ⁽⁶⁾	171.3	220.4

* Summary of Payments Made by the Airport to the City is prepared in accordance with cash basis of accounting.
⁽¹⁾ Represents costs of direct services provided by the City Attorney, City Treasurer, City Controller, City Purchasing Agent and other City departments.
⁽²⁾ Approximately \$23.0 million in utility costs were recovered from Airport tenants.
⁽³⁾ Approximately \$22.5 million in utility costs were recovered from Airport tenants.
⁽⁴⁾ Approximately \$19.2 million in utility costs were recovered from Airport tenants.
⁽⁵⁾ Approximately \$23.6 million in utility costs were recovered from Airport tenants.
⁽⁶⁾ Approximately \$22.8 million in utility costs were recovered from Airport tenants.

Employee Benefit Plans

Retirement System. All of the employees of the Airport are members of the San Francisco City and County Employees’ Retirement System (the “Retirement System”), which is charged with administering a defined benefit pension plan that covers substantially all City employees and certain other public employees. The Retirement System was initially established by approval of City voters on November 2, 1920 and the State Legislature on January 12, 1921 and is currently codified in the City Charter. The Charter provisions governing the Retirement System may be revised only by a Charter amendment, which requires an affirmative public vote at a duly called election. The Retirement System is administered by the Retirement Board (the “Retirement Board”) consisting of seven members, three appointed by the Mayor, three elected from among the members of the Retirement System, at least two of whom must be actively employed, and a member of the Board of Supervisors appointed by the President of the Board of Supervisors.

Employer and employee (member) contributions are mandated by the Charter. Sponsoring employers are required to contribute 100% of the actuarially determined contribution approved by the Retirement Board. The Charter specifies that employer contributions consist of the normal cost (the present value of the benefits that the Retirement System expects to become payable in the future attributable to a current year's employment) plus an amortization of the unfunded liability over a period not to exceed 20 years. The Retirement Board sets the funding policy subject to the Charter requirements.

The Retirement Board adopts the economic and demographic assumptions used in the annual valuations. Demographic assumptions such as retirement, termination and disability rates are based upon periodic demographic studies performed by the consulting actuarial firm approximately every five years. Economic assumptions are reviewed each year by the Retirement Board after receiving an economic experience analysis from the consulting actuarial firm.

The Retirement Board adopted the current demographic assumptions at its December 9, 2020 Retirement Board meeting, the Retirement Board based on the experience study dated August 12, 2020. The current discount rate of 7.20% was adopted at the November 10, 2021 Retirement Board meeting, effective for the July 1, 2021 actuarial valuation. The Retirement Board voted to maintain these assumptions for the 2022 and 2023 actuarial valuations in November 2022 and November 2023, respectively. In the long term, the true cost of a pension plan is determined by actual results and not by assumptions.

While employee contribution rates are mandated by the Charter, sources of payment of employee contributions (i.e., City or employee) may be the subject of collective bargaining agreements with each union or bargaining unit. Since July 1, 2011, substantially all employee groups have agreed through collective bargaining for employees to contribute all employee contributions through pre-tax payroll deductions.

Prospective purchasers of the Series 2024A-C Bonds should carefully review and assess the assumptions regarding the performance of the Retirement System. Audited financials and actuarial reports may be found on the Retirement System's website, mysfers.org, under Publications. The information on such website is not incorporated herein by reference. There is a risk that actual results will differ significantly from assumptions. In addition, prospective purchasers of the Series 2024A-C Bonds are cautioned that the information and assumptions speak only as of the respective dates contained in the underlying source documents and are therefore subject to change.

The following table shows total Retirement System liabilities, assets and percent funded for the last five actuarial valuations as well as contributions for the Fiscal Years 2018-19 through 2022-23. Information is shown for all employers in the Retirement System. "Actuarial Liability" reflects the actuarial accrued liability of the Retirement System measured for purposes of determining the funding contribution. "Market Value of Assets" reflects the fair market value of assets held in trust for payment of pension benefits. "Actuarial Value of Assets" refers to the plan assets with investment returns different than expected smoothed over five years to provide a more stable contribution rate. The "Market Percent Funded" column is determined by dividing the market value of assets by the actuarial accrued liability. The "Actuarial Percent Funded" column is determined by dividing the actuarial value of assets by the actuarial accrued liability. "Employee and Employer Contributions" reflects the sum of mandated employee and employer contributions received by the Retirement System in the Fiscal Year ended June 30th prior to the July 1st valuation date. The Fund's last actuarial valuation was as of July 1, 2023 and was issued in February 2024.

Source: Retirement System Actuarial Valuation reports as of July 1, 2019, July 1, 2020, July 1, 2021, July 1, 2022 and July 1, 2023.

The employer contribution rate for Fiscal Year 2024-25 is 16.91% before any cost-sharing adjustments.

The actuarial accrued liability is measured by an independent consulting actuary in accordance with Actuarial Standards of Practice. In addition, an actuarial audit is conducted every five years in accordance with the Retirement Board policy.

The Airport is required to contribute at the actuarially recommended rate of contribution. The Airport's required contributions for Fiscal Years 2018-19 through 2023-24 are set forth below.

AIRPORT CONTRIBUTIONS TO THE RETIREMENT SYSTEM

Fiscal Year	Contribution Rate	Airport Contribution
2023-24	18.24%	\$39.9 million [†]
2022-23	21.35	39.6 million
2021-22	24.41	47.4 million
2020-21	26.90	52.6 million
2019-20	25.19	46.3 million
2018-19	23.31	38.3 million

[†] Budgeted.

Medical Benefits. Medical and COBRA benefits for eligible active Airport and City employees and eligible dependents, for retired Airport and City employees and eligible dependents, and for surviving spouses and domestic partners of covered City employees (the "City Beneficiaries") are administered by the City's Health Service System (the "Health Service System") pursuant to Charter Sections 12.200 et seq. and A8.420 et seq. Pursuant to such Charter Sections, the Health Service System also administers medical benefits to active and retired employees of the San Francisco Unified School District, San Francisco Community College District and the San Francisco Superior Court (collectively the "System's Other Beneficiaries"). However, the City is only required to fund medical benefits for City Beneficiaries. The contributions for health care benefits made by the Airport for Fiscal Years 2018-19 through 2022-23 and budgeted for 2023-24 are set forth in the following table:

AIRPORT CONTRIBUTIONS TO THE HEALTH SERVICE SYSTEM⁽¹⁾
(\$ in millions)

<u>Fiscal Year</u>	<u>Active Employees</u>	<u>Retirees</u>	<u>Total</u>
2023-24	\$35.2 [†]	\$17.4 [†]	\$52.6 [†]
2022-23	32.2	16.2	48.4
2021-22	32.9	16.9	49.8
2020-21	33.8	16.5	50.3
2019-20	33.4	15.7	49.1
2018-19	31.7	14.0	45.7

⁽¹⁾ Historical information has been restated to capture an updated comprehensive allocation of Health Service System costs, including contributions made for Fire and Police personnel allocable to the Airport, and to apply an updated methodology identifying direct and allocable costs prorated between active employees and retirees for each Fiscal Year.

[†] Budgeted.

Source: Commission.

The Health Service System is overseen by the City’s Health Service Board (the “Health Service Board”). The plans (the “HSS Medical Plans”) for providing medical care to the City Beneficiaries and the System’s Other Beneficiaries (collectively, the “HSS Beneficiaries”) are determined annually by the Health Service Board and approved by the Board of Supervisors pursuant to Charter Section A8.422.

The Health Service System oversees a trust fund (the “Health Service Trust Fund”) established pursuant to Charter Sections 12.203 and A8.428 through which medical benefits for the HSS Beneficiaries are funded. The Health Service System issues annually a publicly available, independently audited financial report that includes financial statements for the Health Service Trust Fund. This report may be obtained through the HHS website at sfhss.org or by writing to the San Francisco Health Service System, 1145 Market Street, Third Floor, San Francisco, California 94103. Audited annual financial statements for several years are also posted in the Health Service System website. The information available on the Health Service System website is not incorporated in this Official Statement by reference.

Under the Charter, the Health Service Trust Fund is not a fund through which assets are accumulated to finance post-employment healthcare benefits (an “OPEB trust fund”). Thus, Governmental Accounting Standards Board (“GASB”) Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions (“GASB 45”), and GASB 75, which apply to OPEB trust funds do not apply to the Health Service Trust Fund.

Post-Employment Health Care Benefits. The Airport participates in the City’s agent multiple employer defined benefit plan (the “Plan”), which operates as a cost-sharing multiple employer defined benefit plan for the Airport. Eligibility of former City employees for retiree health care benefits is governed by the Charter. In general, employees hired before January 10, 2009 and a spouse or dependent are potentially eligible for health benefits following retirement after age 50 and completing five years of City service. Employees hired on or after January 10, 2009 and a spouse or dependent are potentially eligible for gradually vesting health benefits following retirement after age 50 and completing 20 years of City service (for full benefits), subject to other eligibility requirements.

The benefits provided under the Plan are currently paid through “pay-as-you-go” funding. Active City officers and employees contribute a percentage of compensation that varies depending on their hire date.

As of June 30, 2023, the City reported net OPEB liabilities related to the Plan of \$3.7 billion. The Airport’s proportionate share of the City’s net OPEB liability as of June 30, 2023 was \$257.8 million. For the year ended June 30, 2023, the Airport’s proportionate share of the City’s OPEB expense was \$21.4 million. See Note 12(b) in APPENDIX B-“FINANCIAL STATEMENTS WITH SCHEDULE OF PASSENGER FACILITY CHARGE REVENUES AND EXPENDITURES, SCHEDULE OF CUSTOMER FACILITY CHARGE REVENUES AND EXPENDITURES, JUNE 30, 2023 (WITH INDEPENDENT AUDITORS’ REPORT THEREON).”

As of June 30, 2023, the Airport had set aside \$156.7 million in a separate fund (a sub-fund of the Airport's operating fund) for purposes of the OPEB obligations, and such amount is included in Unrestricted Cash and Investments in the Airport's audited financial statements for Fiscal Year 2022-23. The disposition of this fund is under management's discretion and has not been placed in a trust fund.

The Health Service System issues a publicly available financial report that includes financial statements for the health care benefits plan. The report may be obtained by writing to the City and County of San Francisco, Office of the Controller, 1 Dr. Carlton B. Goodlett Place, Room 316, San Francisco, California 94102, or by calling 415-554-7500.

Budget Process and Budget

The Airport budget is a part of the overall budget which is reviewed and approved according to the City's laws and policies. The City's enterprise departments, which include the Airport, submit two-year budget proposals for review and approval. The Airport's proposed two-year budget is approved by the Commission before being submitted to the Mayor. The Mayor's Office reviews and may amend the Airport's proposed budget, and then incorporates the proposed budget into the overall City budget that is submitted to the Board of Supervisors for approval. Under the Charter, the Board of Supervisors may increase or decrease any proposed expenditure in the Mayor's budget so long as the aggregate changes do not cause the expenditures to exceed the total amount of revenues proposed by the Mayor. The Charter further provides that the Mayor may reduce or reject any expenditure authorized by the Board of Supervisors except appropriations for bond interest, redemption or other fixed charges, subject to reinstatement of any such expenditure by a two-thirds vote of the Board of Supervisors. The budget may be amended through a supplemental appropriation request, which is prepared by the Controller, submitted by the Mayor's Office and reviewed and approved by the Board of Supervisors.

The budget development for Fiscal Year 2023-24 assumed higher levels of travel demand, responded to market conditions that are driving operational costs higher, focused on providing necessary funding to meet operational needs and support safety and security as we continue to recover from the COVID-19 pandemic.

The approved operating budget for the Airport for Fiscal Year 2023-24 is \$1.37 billion. Budgeted total revenues in the amount of \$1.37 billion include aviation revenues (\$707.3 million), parking and concessions (\$339.2 million), other non-aviation revenues (\$108.8 million) and non-operating revenues (\$216.7 million). Budgeted total expenditures for Fiscal Year 2023-24 are \$1.37 billion, including personnel costs (\$306.7 million), non-personnel services, materials and supplies, equipment, and contribution to surety bond fund (\$208.7 million), small capital outlay (\$5.4 million), debt service (\$575.0 million), utilities (\$55.1 million), services of other departments, including Fire and Police Departments (\$154.5 million), the Annual Service Payment (\$50.9 million), and facilities maintenance (\$15.8 million). This compares to an approved operating budget for the Airport for Fiscal Year 2022-23 of \$1.18 billion.

Risk Management and Insurance

Under the 1991 Master Resolution, the Commission is required to procure or provide and maintain insurance, or to self-insure, against such risks as are usually insured by other major airports in amounts adequate for the risk insured against, as determined by the Commission and to file with the Trustee each year a written summary of all insurance coverage then in effect. The Commission is not required to, nor does it, carry insurance or self-insure against any risks due to land movement or seismic activity.

The Airport carries aviation liability insurance coverage of \$1 billion with \$250 million in war perils liability, subject to a deductible of \$10,000 per occurrence.

The Airport also carries commercial property insurance coverage of \$1 billion per occurrence subject to a deductible of \$500,000 per occurrence. This policy includes flood coverage up to a \$10 million sub-limit. The Airport also carries business interruption and extra expenses insurance up to a \$100 million pooled sub-limit.

The Airport is self-insured as part of the City’s workers’ compensation program. The Airport carries public officials and employment practices liability coverage of \$5 million, subject to a deductible of \$100,000 per occurrence for Public Officials’ and Public Entity Liability matters, and \$250,000 per occurrence for Employment Practices Liability matters. The Airport also carries insurance for excess auto, public employee dishonesty, fine arts, cyber liability, watercraft liability for Airport fire and rescue vessels, and target range liability for the San Francisco Police Department’s firearm range located at the Airport.

Investment of Airport Funds

Under the Charter and the 1991 Master Resolution, the Revenue Fund and the accounts therein, including the Contingency Account, are held by the Treasurer. The 1991 Master Resolution further provides that moneys in all funds and accounts (including Revenues) established under the 1991 Master Resolution which are held by the Treasurer shall be invested in Permitted Investments in accordance with the policies and procedures of the Treasurer in effect from time to time. For definitions of “Revenues” and “Permitted Investments” under the 1991 Master Resolution, see APPENDIX D–“SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION–Certain Definitions.”

Under the Treasurer’s current investment procedures, amounts in the Airport’s Revenue Fund, Contingency Account, PFC Account and Construction Fund are invested in the City’s larger pooled investment fund (the “City Pool”). Payments due from the Revenue Fund and the Construction Fund are made from the City Pool. Among other purposes, the City Pool serves in effect as a disbursement account for expenditures from the City’s various segregated and pooled funds.

The Treasurer’s investment policy is updated periodically. The objectives of the Treasurer’s current investment policy, in order of priority, are preservation of capital, maintenance of liquidity and yield. The Treasurer calculated the current weighted average maturity of these investments as of March 31, 2024 to be 438 days.

Set forth in the table below are the approximate book values of amounts in the City Pool allocable to the Construction Fund, the Operating Fund, the Contingency Account, PFC Funds and the Special Revenue Fund. These amounts include certain minimum balances maintained in the City Pool for liquidity purposes. Also set forth below are the types of investments in the City Pool, and the percentage of total book value of the City Pool as of such date. As of March 31, 2024, the book value of the City Pool was approximately \$15.9 billion. A number of the Airport’s reserves are restricted to particular uses. Bondholders should not assume that funds other than the Contingency Account, the applicable reserve fund held under the 1991 Master Resolution, and amounts on deposit at any given time in the Revenue Fund will be available for the repayment of the Bonds.

Additional Bonds are expected to be a significant source of funding for the CIP. See “CERTAIN RISK FACTORS—Risks Related to the Commission’s Capital Projects” and “CAPITAL PROJECTS AND PLANNING—The Capital Improvement Plan.”

Credit Facilities

As of April 1, 2024, the Commission had outstanding \$276,340,000 of variable rate tender option Bonds, secured by bank letters of credit, as summarized in the table below. There was no scheduled principal amortization for the variable rate tender option Bonds on May 1, 2024. If amounts due on the Bonds are paid under a letter of credit, the obligation of the Commission to repay such amounts would constitute “Repayment Obligations” under the 1991 Master Resolution and would be accorded the status of Bonds. See “SECURITY FOR THE SERIES 2024A-C BONDS–Additional Bonds–*Repayment Obligations*.”

CREDIT FACILITIES SUPPORTING VARIABLE RATE BONDS (as of April 1, 2024)

	<u>Series 2018B</u>	<u>Series 2018C</u>
Outstanding Principal Amount	\$138,170,000	\$138,170,000
Type	LOC ⁽¹⁾	LOC ⁽¹⁾
Expiration Date	June 3, 2026	April 5, 2027
Credit Provider	Barclays ⁽²⁾	Sumitomo ⁽³⁾

⁽¹⁾ Letter of Credit.

⁽²⁾ Barclays Bank PLC.

⁽³⁾ Sumitomo Mitsui Banking Corporation acting through its New York Branch.

Source: Commission

In addition to the credit facilities described above, the Commission has in place six irrevocable direct-pay letters of credit to support its Commercial Paper Notes. Repayment of amounts drawn on these letters of credit are secured by a lien on Net Revenues that is subordinate to the lien of the 1991 Master Resolution securing the Bonds. See “SECURITY FOR THE SERIES 2024A-C BONDS–Other Indebtedness–*Subordinate Bonds*” for additional information concerning these letters of credit.

Interest Rate Swaps

Pursuant to the 1991 Master Resolution, the Commission may enter into one or more interest rate swaps in connection with one or more series of Bonds. The Commission is not currently party to any interest rate swap. The 1991 Master Resolution provides that, if and to the extent provided in any Supplemental Resolution authorizing the issuance of a series of Bonds, regularly scheduled swap payments may be paid directly out of the account or accounts in the Debt Service Fund established with respect to such series of Bonds, and thus on a parity with debt service on the Bonds.

The Commission has adopted a written Interest Rate Swap Policy (the “Swap Policy”), which establishes the Commission’s policies for entering into new interest rate swap agreements. The Swap Policy sets forth, among other things, criteria for qualified swap counterparties, maximum notional amounts of interest rate swap agreements and swap counterparty credit exposure limits. Any interest rate swap agreements into which the Commission enters in the future would entail risk to Commission.

Debt Service Requirements

The table on the following page presents the annual debt service requirements for the Series 2024A-C Bonds and the Outstanding Bonds, based upon monthly deposits.

[Remainder of Page Intentionally Left Blank]

DEBT SERVICE SCHEDULE⁽¹⁾

Fiscal Year Ending June 30	Debt Service on Outstanding Bonds ⁽²⁾	Series 2024A Bonds		Series 2024B Bonds		Series 2024C Bonds		Total Series 2024A-C Debt Service ⁽³⁾	Aggregate Debt Service ⁽³⁾

2059	22,805	-	-	-	-	-	-	-	22,805
Total⁽³⁾	\$15,116,769,067	\$782,535,000	\$629,019,624	\$123,590,000	\$121,482,786	\$18,540,000	\$900,967	\$1,676,068,377	\$16,792,837,443

⁽¹⁾ Net debt service. Does not include interest amounts expected to be paid from Bond proceeds.

⁽²⁾ Excludes debt service on the Refunded Bonds. Includes credit facility and other ancillary fees with respect to variable rate bonds. In calculating the debt service for Bonds issued at variable rates, the Commission has made assumptions about interest rates and ancillary fees.

⁽³⁾ Various totals do not add due to rounding.

Historical Debt Service Coverage

The following table reflects historical Net Revenues and the calculation of debt service coverage on the Bonds based on such Net Revenues for Fiscal Years 2018-19 through 2022-23.

HISTORICAL DEBT SERVICE COVERAGE (Fiscal Year) (\$ in thousands)

	2018-19	2019-20	2020-21	2021-22	2022-23
Net Revenues ⁽¹⁾	\$476,653	\$385,832	\$311,233	\$429,280	\$511,495
PFCs Treated as Revenues	63,260	151,810	-	-	-
Transfer from the Contingency Account ⁽²⁾	155,164	166,213	167,295	168,193	171,632
TOTAL AVAILABLE FOR DEBT SERVICE	\$695,076	\$703,855	\$478,528	\$597,474	\$683,127
Total Annual Debt Service ⁽³⁾	\$436,459	\$479,168	\$290,261	\$288,609	\$408,661
Historical Debt Service Coverage per the 1991 Master Resolution ⁽⁴⁾	159.3%	146.9%	164.9%	207.0%	167.2%
Historical Debt Service Coverage Excluding Transfer	123.7%	112.2%	107.2%	148.7%	125.2%

(1) Using the definition of Net Revenues contained in the 1991 Master Resolution, but excluding PFCs treated as “Revenues” pursuant to the 1991 Master Resolution. See “–Passenger Facility Charge.” For Fiscal Year 2022-23, the calculation of Net Revenues excluded \$23.8 million of revenue from the American Rescue Plan Act (ARPA) grant reimbursements received by the Airport, which are not includable as revenue, and excluded \$23.8 million of operating expenses that were reimbursed using the ARPA grant funds. For Fiscal Year 2021-22, the calculation of Net Revenues excluded \$175.1 million of revenue from certain federal grant reimbursements received by the Airport, which are not includable as Revenue, and excluded \$175.1 million of operating expenses that were reimbursed using such grant funds. For Fiscal Year 2020-21, the calculation of Net Revenues excluded \$296.1 million of revenue from certain federal grant reimbursements received by the Airport, which are not includable as Revenue, and excluded \$296.1 million of operating expenses that were reimbursed using such grant funds. In addition, this calculation excluded \$57.0 million of operating expenses that were paid using proceeds of Bonds that were issued in Fiscal Year 2020-21 to reimburse the Airport for prior years’ bond interest expense on capital projects; Bond proceeds are not includable as Revenue.

(2) Represents the Transfer from the Contingency Account to the Revenues Account in each such Fiscal Year. See “SECURITY FOR THE SERIES 2024A-C BONDS–Contingency Account.”

(3) Annual Debt Service net of accrued and capitalized interest. Calculated on a cash basis. Amendments to the 1991 Master Resolution that became effective in 2023 would permit the Commission to opt to calculate on a deposit basis instead.

(4) Net Revenues plus Transfer divided by total Annual Debt Service. Must not be less than 125% pursuant to the 1991 Master Resolution. See “SECURITY FOR THE SERIES 2024A-C BONDS–Rate Covenant.”

REPORT OF THE AIRPORT CONSULTANT

General

The Commission has retained LeighFisher (the “Airport Consultant”), as recognized experts in their field, to prepare a report on traffic, revenues, expenses, the CIP and financial analyses in connection with the issuance of the Series 2024A-C Bonds. The Airport Consultant has consented to the Report of the Airport Consultant, dated May 7, 2024, being included as APPENDIX A. This Report should be read in its entirety for an explanation of the assumptions and methodology used therein.

The Report of the Airport Consultant is divided into four sections. The first section provides general background information with respect to the Commission and the Airport; the second section describes the economic base for air traffic, airline service at the Airport and the air traffic projections; the third section provides a summary of the CIP and funding sources; and the fourth section describes the financial framework of the Airport, including the 1991 Master Resolution, the Annual Service Payment, the Lease and Use Agreements and various other agreements with Airport users, as well as provides the Airport Consultant’s projections of Net Revenues demonstrating compliance by the Commission with the rate covenant provisions contained in the 1991 Master Resolution in

connection with future Bond issuances projected during the projection period. The Report does not assume any debt service savings associated with the refunding portions of the Series 2024A-C Bonds.

In the preparation of the projections in its Report, the Airport Consultant has made certain assumptions with respect to conditions that may occur and the course of action that management expects to take in the future. The Airport Consultant has relied upon Commission staff for representations about its plans and expectations and for disclosure of significant information that might affect the realization of projected results. Commission staff has reviewed these assumptions and concur that they provide a reasonable basis for the projections. While the Commission and the Airport Consultant believe these assumptions to be reasonable for the purpose of the projections, they are dependent upon future events, and actual conditions may differ from those assumed in the analysis. To the extent actual future factors differ from those assumed by the Airport Consultant or provided to the Airport Consultant by others, the actual results could vary materially from those projected. The Airport Consultant has no responsibility to update its Report for events and circumstances occurring after the date of its Report. The projections are based on assumptions that may not be realized and actual results may differ materially from the projections. See “CERTAIN RISK FACTORS—Uncertainties of Projections, Forecasts and Assumptions.”

Projection of Debt Service Coverage

The following table reflects the projection of Net Revenues and the calculation of debt service coverage on the Bonds, including the Series 2024A-C Bonds associated with the portion of the Series 2024A-C Bonds used to repay Commercial Paper Notes (as well as to fund related capitalized interest, reserve fund deposits, and issuance costs), and future Bonds projected to be issued during the projection period (but not reflecting any debt service savings from the refunding of the Refunded Bonds or any other Bonds) based on such Net Revenues for Fiscal Year 2023-24 (estimated) through Fiscal Year 2029-30, as set forth in the Report of the Airport Consultant attached hereto as APPENDIX A. Such projections reflect substantially all of the impact on revenues and expenses associated with Bond issues projected to be undertaken to fully fund the CIP during the projection period. The projections do not reflect the impact on Commission finances of capital projects that are in the conceptual planning stage or any other projects that may be undertaken in the future (as described in the Report of the Airport Consultant), including projects in the Recommended ADP described under “CAPITAL PROJECTS AND PLANNING—Recommended Airport Development Plan (ADP)” and those described under “CAPITAL PROJECTS AND PLANNING—Other Anticipated Capital Needs.” Any additional future capital projects may be financed by future Bond issues.

TOTAL AVAILABLE FOR DEBT SERVICE	\$934,783	\$951,713	\$1,068,783	\$1,144,560	\$1,286,312	\$1,500,131	\$1,724,305
Debt Service Requirement ⁽¹⁾	\$480,054	\$603,425	\$704,467	\$767,753	\$883,208	\$1,053,902	\$1,232,911
Projected Debt Service Coverage per the Resolution ⁽²⁾	195%	158%	152%	149%	146%	142%	140%
Projected Debt Service Coverage Excluding Transfer ⁽²⁾	170%	133%	127%	124%	121%	117%	115%

⁽¹⁾ Includes certain PFC revenues projected to be designated as Revenues by the Commission as described in the Report of the Airport Consultant.

⁽²⁾ Deposit basis. Includes projected debt service on outstanding Bonds, Bonds the proceeds of which are used to repay Commercial Paper Notes (as well as to fund related capitalized interest, reserve fund deposits, and issuance costs), and future Bonds and excludes debt service savings related to the refunding of the Refunded Bonds as described in the Report of the Airport Consultant. The figures under "AIRPORT'S FINANCIAL AND RELATED INFORMATION—Historical Debt Service Coverage" are presented using the Debt Service Requirement calculated on a cash basis.

* Transfer reflects lesser of Contingency Account balance or 25% of Debt Service.

Source LeighFisher, Report of the Airport Consultant.

The Report of the Airport Consultant and the projection of Net Revenues and debt service coverage included therein incorporated assumptions of the debt service the Commission's outstanding variable rate Bonds and Bonds projected to be issued during each of the projected years based upon projections provided in March 2024 by PFM Financial Advisors LLC, co-Municipal Advisor of the Commission. The Report assumes a true interest cost on the portion of the Series 2024A-C Bonds reflected in the Report (assumed to be \$512.1 million) of 4.67%, with a portion of the interest capitalized through Fiscal Year 2027 and a term to final maturity of 25 years. The Report of the Airport Consultant also assumes the issuance of future bonds as described therein.

In addition, the projection is based on other assumptions that may not be realized and actual results may differ materially from the projections. The Report of the Airport Consultant should be read in its entirety for an explanation of the assumptions and methodology used in developing the projections. Also see "CERTAIN RISK FACTORS—Uncertainties of Projections, Forecasts and Assumptions."

AIRLINE INFORMATION

The Commission cannot and does not assume any responsibility for the accuracy or completeness of any information contained or referred to herein regarding the business operations or financial condition of any of the airlines serving the Airport.

Each of the principal domestic airlines serving the Airport, or their respective parent corporations, and foreign airlines serving the Airport with American Depositary Receipts ("ADRs") registered on a national exchange are subject to the information requirements of the Securities Exchange Act of 1934, and in accordance therewith files reports and other information with the SEC. Certain information, including financial information, concerning such domestic airlines or their respective parent corporations and such foreign airlines, is disclosed in certain reports and statements filed with the SEC. Such reports and statements can be inspected at the Public Reference Room of the SEC, 100 F Street, N.E., Room 1580, Washington, D.C. 20549; and the offices of The New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005 (for certain airlines whose stock or whose parent's stock is traded on the New York Stock Exchange). Copies of such reports and statements can be obtained from the Public Reference Room, at prescribed rates or from the SEC website at: <http://www.sec.gov> (the information on such web site is not incorporated by reference herein). In addition, each airline is required to file periodic reports of financial operating statistics with the U.S. DOT. Such reports can be inspected at the Bureau of Transportation Statistics, Research and Innovative Technology Administration, Department of Transportation, 1200 New Jersey Avenue, SE, Washington, D.C. 20590.

Airlines owned by foreign governments, or foreign corporations operating airlines (unless such airlines have ADRs registered on a national exchange), are not required to file information with the SEC. Airlines owned by foreign governments, or foreign corporations operating airlines, file limited information only with the U.S. DOT.

LITIGATION MATTERS

There is no litigation pending concerning the validity of the 1991 Master Resolution or the Series 2024A-C Bonds or the issuance or delivery thereof, the existence of the Commission, the title of the officers thereof who executed or will execute the Series 2024A-C Bonds to their respective offices, or the pledge of Net Revenues to the payment of the Series 2024A-C Bonds.

In the regular course of the Airport's business, the Commission and the City are parties to a variety of pending and threatened lawsuits and administrative proceedings with respect to the Airport's operations and other matters, in addition to those specifically discussed herein. The Commission does not believe that any such lawsuits or proceedings will have a material adverse effect on the Airport's business operations or financial condition.

Airlines for America

In 1999, the Commission adopted the QSP to enhance Airport safety and security. The HCAO, as amended by the HAO, requires firms subject to the QSP to offer covered employees and their dependents premium health insurance coverage at no cost to the employee, or make a financial contribution to the City to establish and administer a medical reimbursement account for the employee. The QSP, HCAO and HAO are described under "SAN FRANCISCO INTERNATIONAL AIRPORT — Social Responsibility and Strategic Plan." The City's Office of Labor Standards Enforcement has the authority to investigate alleged violations of the HCAO and make determinations of violation and order financial penalties and other remedies, subject to administrative appeal before a hearing officer appointed by the City Controller.

On March 31, 2021, plaintiff Airlines for America ("A4A"), a trade association and lobbying group that represents major North American airlines, filed a complaint in United States Federal District Court for the Northern District seeking declaratory and injunctive relief to stop the implementation and enforcement of the HAO. The primary basis of the challenge is federal preemption under the Airline Deregulation Act, the Employee Retirement Income Security Act of 1974, and the Railway Labor Act. The parties agreed to bifurcate the case, with initial discovery and dispositive motion practice focusing on the City's defense that it acted as a 'market participant' in enacting the HAO and that the HAO is thus not subject to preemption. In April, 2022, the District Court granted the City's motion for summary judgment and denied A4A's motion. The court found that the City acted within its authority as a market participant in enacting the HAO, which is a complete defense to A4A's federal preemption claims, and dismissed the case. A4A appealed the decision to the United States Court of Appeals for the Ninth Circuit. After briefing and oral argument, on August 29, 2023, the Ninth Circuit issued a decision reversing and remanding the District Court's decision. The Ninth Circuit agreed with A4A's argument that because violating the HAO can result in the imposition of civil fines under the QSP and under the liquidated damages clause in the HCAO, the City acted in a regulatory manner because a private party could not impose such fines, and therefore is not entitled to the market participant defense. The District Court held a case management conference on February 20, 2024 to discuss the schedule for the next phase of discovery, and scheduled another case management conference for August 6, 2024.

Turo

Turo, Inc. (f.k.a. RelayRides, Inc.) ("Turo") is a web and mobile application based peer to peer car sharing company that operates at the Airport. Turo matches individual car owners with prospective renters at the Airport, and it advertises and markets itself as a peer-to-peer car sharing company competing with traditional rental car companies at the Airport. For several years Turo held a valid off-Airport rental car permit, but in August 2017, it voluntarily relinquished its permit. Yet it continued to operate illegally at the Airport. In January 2018, the City Attorney, in the name of the People of the State of California, filed an action against Turo for unfair competition. Turo filed a cross-complaint claiming that Turo is merely a technology platform and a peer-to-peer car-sharing program – not a rental car company – and that it does not operate at the Airport. In April 2020, the court granted two motions for summary adjudication filed by the City, including one to dismiss Turo's cross-claim for declaratory relief that Turo is not a rental car company. Turo appealed the ruling that it is a rental car company under California law, which was initially

denied. After filing a successful petition for review with the California Supreme Court, the case was transferred back to the Court of Appeal for hearing. In June, 2022, the Court of Appeals held that the trial court erred in concluding that Turo is a rental car company under State law, and vacated the trial court's order granting summary adjudication on that issue. Settlement discussions between the Airport, the City Attorney and Turo were successful and a settlement was reached on April 12, 2024. The commencement date for Turo's operations at the Airport pursuant to a permit obtained in connection with the settlement was May 1, 2024.

RATINGS

Moody's has assigned a rating of "A1" (stable outlook) and Fitch Ratings, Inc. ("Fitch") has assigned a rating of "A+" (stable outlook) to the Series 2024A-C Bonds.

A rating reflects only the view of the agency giving such rating and is not a recommendation to buy, sell or hold the Series 2024A-C Bonds. An explanation of the significance of each rating may be obtained from the rating agencies at their respective addresses, as follows: Moody's, 7 World Trade Center, at 250 Greenwich Street, New York, New York 10007; and Fitch, One State Street Plaza, New York, New York 10004. Other Bonds of the Commission have received ratings from other rating agencies. Generally, a rating agency bases its rating on the information and materials furnished to it and on investigations, studies and assumptions of its own. There is no assurance that a rating will apply for any given period of time, or that the rating will not be revised downward or withdrawn if, in the judgment of the agency providing such rating, circumstances so warrant. The Commission undertakes no responsibility to maintain any rating or to oppose any revision or withdrawal of a rating. A downward revision or withdrawal of a rating may have a material adverse effect on the marketability or market price of the Series 2024A-C Bonds.

UNDERWRITING

Purchase of Series 2024A-C Bonds

Goldman Sachs & Co. LLC, on its own behalf and as representative of the other underwriters identified on the cover hereof (such other underwriters, together with Goldman Sachs & Co. LLC, the "Underwriters") has entered into a Bond Purchase Contract with the Commission (the "Bond Purchase Contract") that commits the Underwriters to purchase the Series 2024A-C Bonds, subject to the terms and conditions set forth in the Bond Purchase Contract. The Bond Purchase Contract provides that the Underwriters will purchase all of the Series 2024A-C Bonds if any such Series 2024A-C Bonds are purchased.

The Series 2024A-C Bonds are being purchased through negotiation by the Underwriters at a purchase price equal to \$1,011,152,314.62 (representing the principal amount of the Series 2024A-C Bonds, plus original issue premium equal to \$88,013,721.60 and less an underwriters' discount equal to \$1,526,406.98) pursuant to the Bond Purchase Contract.

The Underwriters may offer and sell the Series 2024A-C Bonds to certain dealers and others at prices lower than the public offering prices set forth on the pages immediately following the cover page to this Official Statement. The initial public offering prices may be changed from time to time by the related Underwriters. See "CERTAIN RELATIONSHIPS" below.

Distribution Agreements

The following paragraph has been provided by and is being included in this Official Statement at the request of the respective underwriters. The Commission does not assume any responsibility for the accuracy or completeness of such statements or information.

BofA Securities, Inc., an Underwriter of the Series 2024A-C Bonds, has entered into a distribution agreement with its affiliate Merrill Lynch, Pierce, Fenner & Smith Incorporated ("MLPF&S"). As part of this arrangement, BofA Securities, Inc. may distribute securities to MLPF&S, which may in turn distribute such securities to investors

through the financial advisor network of MLPF&S. As part of this arrangement, BofA Securities, Inc. may compensate MLPF&S as a dealer for their selling efforts with respect to the Series 2024A-C Bonds.

J.P. Morgan Securities LLC (“JPMS”), one of the Underwriters of the Series 2024A-C Bonds, has entered into negotiated dealer agreements (each, a “Dealer Agreement”) with each of Charles Schwab & Co., Inc. (“CS&Co.”) and LPL Financial LLC (“LPL”) for the retail distribution of certain securities offerings at the original issue prices. Pursuant to each Dealer Agreement, each of CS&Co. and LPL may purchase Series 2024A-C Bonds from JPMS at the original issue price less a negotiated portion of the selling concession applicable to any Series 2024A-C Bonds that such firm sells.

Wells Fargo Securities is the trade name for certain securities-related capital markets and investment banking services of Wells Fargo & Company and its subsidiaries, including Wells Fargo Bank, National Association, which conducts its municipal securities sales, trading and underwriting operations through the Wells Fargo Bank, NA Municipal Finance Group, a separately identifiable department of Wells Fargo Bank, National Association, registered with the Securities and Exchange Commission as a municipal securities dealer pursuant to Section 15B(a) of the Securities Exchange Act of 1934.

Wells Fargo Bank, National Association (“WFBNA”), acting through its Municipal Finance Group, one of the Underwriters of the Series 2024A-C Bonds, has entered into an agreement (the “WFA Distribution Agreement”) with its affiliate, Wells Fargo Clearing Services, LLC (which uses the trade name “Wells Fargo Advisors”) (“WFA”), for the distribution of certain municipal securities offerings, including the Series 2024A-C Bonds. Pursuant to the WFA Distribution Agreement, WFBNA will share a portion of its underwriting or remarketing agent compensation, as applicable, with respect to the Series 2024A-C Bonds with WFA. WFBNA has also entered into an agreement (the “WFSLLC Distribution Agreement”) with its affiliate Wells Fargo Securities, LLC (“WFSLLC”), for the distribution of municipal securities offerings, including the Series 2024A-C Bonds. Pursuant to the WFSLLC Distribution Agreement, WFBNA pays a portion of WFSLLC’s expenses based on its municipal securities transactions. WFBNA, WFSLLC, and WFA are each wholly-owned subsidiaries of Wells Fargo & Company.

CERTAIN RELATIONSHIPS

The Underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, advisory, investment management, principal investment, hedging, financing, brokerage services, providing credit and liquidity facilities, and providing swaps and other derivative products. Certain of the Underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, such services for the Commission for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities, which may include credit default swaps) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the Commission.

The Underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

In addition, the Underwriters may currently be serving as underwriters, remarketing agents, dealers or letter of credit providers in connection with the Commission’s other outstanding obligations, including the Commission’s Commercial Paper Notes and variable rate bonds. For a description of certain relationships of the Underwriters to the Commission, see “SECURITY FOR THE SERIES 2024A-C BONDS—Other Indebtedness—*Subordinate Bonds*” and “AIRPORT’S FINANCIAL AND RELATED INFORMATION—Credit Facilities.”

TAX MATTERS

Series 2024A Bonds and Series 2024B Bonds

In the opinion of Orrick, Herrington & Sutcliffe LLP, Special Tax Counsel to the Commission, based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Series 2024A Bonds and the Series 2024B Bonds (the “Series 2024AB Bonds”) is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 (the “Code”), except that no opinion is expressed as to the status of interest on any Series 2024A Bond for any period that such Series 2024A Bond is held by a “substantial user” of the facilities financed or refinanced by the Series 2024A Bonds or by a “related person” within the meaning of Section 147(a) of the Code. In the further opinion of Special Tax Counsel, interest on the Series 2024B Bonds is not a specific preference item for purposes of the federal individual alternative minimum tax. Special Tax Counsel observes that interest on the Series 2024A Bonds is a specific preference item for purposes of the federal individual alternative minimum tax, and that interest on the Series 2024AB Bonds included in adjusted financial statement income of certain corporations is not excluded from the federal corporate alternative minimum tax. Special Tax Counsel is also of the opinion that interest on the Series 2024AB Bonds is exempt from State of California personal income taxes. Special Tax Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual, or receipt of interest on, the Series 2024AB Bonds. A complete copy of the proposed form of opinion of Special Tax Counsel is set forth in APPENDIX G—“PROPOSED FORMS OF OPINIONS OF CO-BOND COUNSEL AND SPECIAL TAX COUNSEL” hereto.

To the extent the issue price of any maturity of the Series 2024AB Bonds is less than the amount to be paid at maturity of such Series 2024AB Bonds (excluding amounts stated to be interest and payable at least annually over the term of such Bonds), the difference constitutes “original issue discount,” the accrual of which, to the extent properly allocable to each Beneficial Owner thereof, is treated as interest on the Series 2024AB Bonds which is excluded from gross income for federal income tax purposes and exempt from State of California personal income taxes. For this purpose, the issue price of a particular maturity of the Series 2024AB Bonds is the first price at which a substantial amount of such maturity of the Series 2024AB Bonds is sold to the public (excluding bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). The original issue discount with respect to any maturity of the Series 2024AB Bonds accrues daily over the term to maturity of such Series 2024AB Bonds on the basis of a constant interest rate compounded semiannually (with straight-line interpolations between compounding dates). The accruing original issue discount is added to the adjusted basis of such Series 2024AB Bonds to determine taxable gain or loss upon disposition (including sale, redemption, or payment on maturity) of such Series 2024AB Bonds. Beneficial Owners of the Series 2024AB Bonds should consult their own tax advisors with respect to the tax consequences of ownership of Series 2024AB Bonds with original issue discount, including the treatment of Beneficial Owners who do not purchase such Series 2024AB Bonds in the original offering to the public at the first price at which a substantial amount of such Series 2024AB Bonds is sold to the public.

Series 2024AB Bonds purchased, whether at original issuance or otherwise, for an amount higher than their principal amount payable at maturity (or, in some cases, at their earlier call date) (“Premium Bonds”) will be treated as having amortizable bond premium. No deduction is allowable for the amortizable bond premium in the case of bonds, like the Premium Bonds, the interest on which is excluded from gross income for federal income tax purposes. However, the amount of tax-exempt interest received, and a Beneficial Owner’s basis in a Premium Bond, will be reduced by the amount of amortizable bond premium properly allocable to such Beneficial Owner. Beneficial Owners of Premium Bonds should consult their own tax advisors with respect to the proper treatment of amortizable bond premium in their particular circumstances.

The Code imposes various restrictions, conditions and requirements relating to the exclusion from gross income for federal income tax purposes of interest on obligations such as the Series 2024AB Bonds. The Commission has made certain representations and covenanted to comply with certain restrictions, conditions and requirements designed to ensure that interest on the Series 2024AB Bonds will not be included in federal gross income. Inaccuracy of these representations or failure to comply with these covenants may result in interest on the Series 2024AB Bonds being included in gross income for federal income tax purposes, possibly from the date of original issuance of the Series 2024AB Bonds. The opinion of Special Tax Counsel assumes the accuracy of these representations and compliance with these covenants. Special Tax Counsel has not undertaken to determine (or to inform any person)

whether any actions taken (or not taken), or events occurring (or not occurring), or any other matters coming to Special Tax Counsel's attention after the date of issuance of the Series 2024AB Bonds may adversely affect the value of, or the tax status of interest on, the Series 2024AB Bonds. Accordingly, the opinion of Special Tax Counsel is not intended to, and may not, be relied upon in connection with any such actions, events or matters.

Although Special Tax Counsel is of the opinion that interest on the Series 2024AB Bonds is excluded from gross income for federal income tax purposes and is exempt from State of California personal income taxes, the ownership or disposition of, or the accrual or receipt of amounts treated as interest on, the Series 2024AB Bonds may otherwise affect a Beneficial Owner's federal, state or local tax liability. The nature and extent of these other tax consequences depends upon the particular tax status of the Beneficial Owner or the Beneficial Owner's other items of income or deduction. Special Tax Counsel expresses no opinion regarding any such other tax consequences.

Current and future legislative proposals, if enacted into law, clarification of the Code or court decisions may cause interest on the Series 2024AB Bonds to be subject, directly or indirectly, in whole or in part, to federal income taxation or to be subject to or exempted from state income taxation, or otherwise prevent Beneficial Owners from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any such legislative proposals, clarification of the Code or court decisions may also affect, perhaps significantly, the market price for, or marketability of, the Series 2024AB Bonds. Prospective purchasers of the Series 2024AB Bonds should consult their own tax advisors regarding the potential impact of any pending or proposed federal or state tax legislation, regulations or litigation, as to which Special Tax Counsel expresses no opinion.

The opinion of Special Tax Counsel is based on current legal authority, covers certain matters not directly addressed by such authorities, and represents Special Tax Counsel's judgment as to the proper treatment of the Series 2024AB Bonds for federal income tax purposes. It is not binding on the U.S. Internal Revenue Service ("IRS") or the courts. Furthermore, Special Tax Counsel cannot give and has not given any opinion or assurance about the future activities of the Commission, or about the effect of future changes in the Code, the applicable regulations, the interpretation thereof or the enforcement thereof by the IRS. The Commission has covenanted, however, to comply with the requirements of the Code.

Unless separately engaged, Special Tax Counsel is not obligated to defend the Commission or the Beneficial Owners regarding the tax-exempt status of the Series 2024AB Bonds in the event of an audit examination by the IRS. Under current procedures, Beneficial Owners would have little, if any, right to participate in the audit examination process. Moreover, because achieving judicial review in connection with an audit examination of tax-exempt bonds is difficult, obtaining an independent review of IRS positions with which the Commission legitimately disagrees, may not be practicable. Any action of the IRS, including but not limited to selection of the Series 2024AB Bonds for audit, or the course or result of such audit, or an audit of bonds presenting similar tax issues may affect the market price for, or the marketability of, the Series 2024AB Bonds, and may cause the Commission or the Beneficial Owners to incur significant expense.

Payments on the Series 2024AB Bonds generally will be subject to U.S. information reporting and possibly to "backup withholding." Under Section 3406 of the Code and applicable U.S. Treasury Regulations issued thereunder, a non-corporate Beneficial Owner of Series 2024AB Bonds may be subject to backup withholding with respect to "reportable payments," which include interest paid on the Bonds and the gross proceeds of a sale, exchange, redemption, retirement or other disposition of the Series 2024AB Bonds. The payor will be required to deduct and withhold the prescribed amounts if (i) the payee fails to furnish a U.S. taxpayer identification number ("TIN") to the payor in the manner required, (ii) the IRS notifies the payor that the TIN furnished by the payee is incorrect, (iii) there has been a "notified payee underreporting" described in Section 3406(c) of the Code or (iv) the payee fails to certify under penalty of perjury that the payee is not subject to withholding under Section 3406(a)(1)(C) of the Code. Amounts withheld under the backup withholding rules may be refunded or credited against a Beneficial Owner's federal income tax liability, if any, provided that the required information is timely furnished to the IRS. Certain Beneficial Owners (including among others, corporations and certain tax-exempt organizations) are not subject to backup withholding. The failure to comply with the backup withholding rules may result in the imposition of penalties by the IRS.

Series 2024C Bonds

In the opinion of Special Tax Counsel, interest on the Series 2024C Bonds is exempt from State of California personal income taxes. Special Tax Counsel observes that interest on the Series 2024C Bonds is not excluded from gross income for federal income tax purposes under Section 103 of the Code. Special Tax Counsel express no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual, or receipt of interest on, the Series 2024C Bonds. Investors are urged to obtain independent tax advice regarding the Series 2024C Bonds based upon their particular circumstances. A complete copy of the proposed form of opinion of Special Tax Counsel is set forth in APPENDIX G—“PROPOSED FORMS OF OPINIONS OF CO-BOND COUNSEL AND SPECIAL TAX COUNSEL” hereto.

The following discussion summarizes certain U.S. federal income tax considerations generally applicable to holders of the Series 2024C Bonds that acquire their Series 2024C Bonds in the initial offering. The discussion below is based upon laws, regulations, rulings, and decisions in effect and available on the date hereof, all of which are subject to change, possibly with retroactive effect. Prospective investors should note that no rulings have been or are expected to be sought from the IRS with respect to any of the U.S. federal income tax considerations discussed below, and no assurance can be given that the IRS will not take contrary positions. Furthermore, the following discussion does not deal with U.S. tax consequences applicable to any given investor, nor does it address the U.S. tax considerations applicable to all categories of investors, some of which may be subject to special taxing rules (regardless of whether or not such investors constitute U.S. Holders), such as certain U.S. expatriates, banks, REITs, RICs, insurance companies, tax-exempt organizations, dealers or traders in securities or currencies, partnerships, S corporations, estates and trusts, investors that hold their Series 2024C Bonds as part of a hedge, straddle or an integrated or conversion transaction, investors whose “functional currency” is not the U.S. dollar, or certain taxpayers that are required to prepare certified financial statements or file financial statements with certain regulatory or governmental agencies. Furthermore, it does not address (i) alternative minimum tax consequences, (ii) the net investment income tax imposed under Section 1411 of the Code, or (iii) the indirect effects on persons who hold equity interests in a holder. This summary also does not consider the taxation of the Series 2024C Bonds under state, local or non-U.S. tax laws. In addition, this summary generally is limited to U.S. tax considerations applicable to investors that acquire their Series 2024C Bonds pursuant to this offering for the issue price that is applicable to such Series 2024C Bonds (i.e., the price at which a substantial amount of the Series 2024C Bonds are sold to the public) and who will hold their Series 2024C Bonds as “capital assets” within the meaning of Section 1221 of the Code.

As used herein, “U.S. Holder” means a beneficial owner of a Series 2024C Bond that for U.S. federal income tax purposes is an individual citizen or resident of the United States, a corporation or other entity taxable as a corporation created or organized in or under the laws of the United States or any state thereof (including the District of Columbia), an estate the income of which is subject to U.S. federal income taxation regardless of its source or a trust where a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons (as defined in the Code) have the authority to control all substantial decisions of the trust (or a trust that has made a valid election under U.S. Treasury Regulations to be treated as a domestic trust). As used herein, “Non-U.S. Holder” generally means a beneficial owner of a Taxable Bond (other than a partnership) that is not a U.S. Holder. If a partnership holds Series 2024C Bonds, the tax treatment of such partnership or a partner in such partnership generally will depend upon the status of the partner and upon the activities of the partnership. Partnerships holding Series 2024C Bonds, and partners in such partnerships, should consult their own tax advisors regarding the tax consequences of an investment in the Series 2024C Bonds (including their status as U.S. Holders or Non-U.S. Holders).

Prospective investors should consult their own tax advisors in determining the U.S. federal, state, local or non-U.S. tax consequences to them from the purchase, ownership and disposition of the Series 2024C Bonds in light of their particular circumstances.

U.S. Holders

Interest. Interest on the Series 2024C Bonds generally will be taxable to a U.S. Holder as ordinary interest income at the time such amounts are accrued or received, in accordance with the U.S. Holder’s method of accounting for U.S. federal income tax purposes.

To the extent that the issue price of any maturity of the Series 2024C Bonds is less than the amount to be paid at maturity of such Series 2024C Bonds (excluding amounts stated to be interest and payable at least annually over the term of such Series 2024C Bonds) by more than a de minimis amount, the difference may constitute original issue discount (“OID”). U.S. Holders of Series 2024C Bonds will be required to include OID in income for U.S. federal income tax purposes as it accrues, in accordance with a constant yield method based on a compounding of interest (which may be before the receipt of cash payments attributable to such income). Under this method, U.S. Holders generally will be required to include in income increasingly greater amounts of OID in successive accrual periods.

Series 2024C Bonds purchased for an amount in excess of the principal amount payable at maturity (or, in some cases, at their earlier call date) will be treated as issued at a premium. A U.S. Holder of a Series 2024C Bond issued at a premium may make an election, applicable to all debt securities purchased at a premium by such U.S. Holder, to amortize such premium, using a constant yield method over the term of such Series 2024C Bond.

Sale or Other Taxable Disposition of the Series 2024C Bonds. Unless a nonrecognition provision of the Code applies, the sale, exchange, redemption, retirement (including pursuant to an offer by the Commission) or other disposition of a Series 2024C Bond will be a taxable event for U.S. federal income tax purposes. In such event, in general, a U.S. Holder of a Series 2024C Bond will recognize gain or loss equal to the difference between (i) the amount of cash plus the fair market value of property received (except to the extent attributable to accrued but unpaid interest on the Series 2024C Bond, which will be taxed in the manner described above) and (ii) the U.S. Holder’s adjusted U.S. federal income tax basis in the Series 2024C Bond (generally, the purchase price paid by the U.S. Holder for the Series 2024C Bond, decreased by any amortized premium, and increased by the amount of any OID previously included in income by such U.S. Holder with respect to such Series 2024C Bond). Any such gain or loss generally will be capital gain or loss. In the case of a non-corporate U.S. Holder of the Series 2024C Bonds, the maximum marginal U.S. federal income tax rate applicable to any such gain will be lower than the maximum marginal U.S. federal income tax rate applicable to ordinary income if such U.S. holder’s holding period for the Series 2024C Bonds exceeds one year. The deductibility of capital losses is subject to limitations.

Defeasance of the Series 2024C Bonds. If the Commission defeases any Series 2024C Bond, the Series 2024C Bond may be deemed to be retired and “reissued” for U.S. federal income tax purposes as a result of the defeasance. In that event, in general, a U.S. Holder will recognize taxable gain or loss equal to the difference between (i) the amount realized from the deemed sale, exchange or retirement (less any accrued qualified stated interest which will be taxable as such) and (ii) the U.S. Holder’s adjusted U.S. federal income tax basis in the Series 2024C Bond.

Information Reporting and Backup Withholding. Payments on the Series 2024C Bonds generally will be subject to U.S. information reporting and possibly to “backup withholding.” Under Section 3406 of the Code and applicable U.S. Treasury Regulations issued thereunder, a non-corporate U.S. Holder of the Series 2024C Bonds may be subject to backup withholding at the current rate of 24% with respect to “reportable payments,” which include interest paid on the Series 2024C Bonds and the gross proceeds of a sale, exchange, redemption, retirement or other disposition of the Series 2024C Bonds. The payor will be required to deduct and withhold the prescribed amounts if (i) the payee fails to furnish a U.S. taxpayer identification number (“TIN”) to the payor in the manner required, (ii) the IRS notifies the payor that the TIN furnished by the payee is incorrect, (iii) there has been a “notified payee underreporting” described in Section 3406(c) of the Code or (iv) the payee fails to certify under penalty of perjury that the payee is not subject to withholding under Section 3406(a)(1)(C) of the Code. Amounts withheld under the backup withholding rules may be refunded or credited against the U.S. Holder’s federal income tax liability, if any, provided that the required information is timely furnished to the IRS. Certain U.S. holders (including among others, corporations and certain tax-exempt organizations) are not subject to backup withholding. A holder’s failure to comply with the backup withholding rules may result in the imposition of penalties by the IRS.

Non-U.S. Holders

Interest. Subject to the discussions below under the headings “Information Reporting and Backup Withholding” and “Foreign Account Tax Compliance Act (“FATCA”)—U.S. Holders and Non-U.S. Holders,” payments of principal of, and interest on, any Series 2024C Bond to a Non-U.S. Holder, other than (1) a controlled foreign corporation described in Section 881(c)(3)(C) of the Code and (2) a bank which acquires such Series 2024C Bond in consideration of an extension of credit made pursuant to a loan agreement entered into in the ordinary course

of business, will not be subject to any U.S. federal withholding tax provided that the beneficial owner of the Taxable Bond provides a certification completed in compliance with applicable statutory and regulatory requirements, which requirements are discussed below under the heading “Information Reporting and Backup Withholding,” or an exemption is otherwise established.

Disposition of the Series 2024C Bonds. Subject to the discussions below under the headings “Information Reporting and Backup Withholding” and “Foreign Account Tax Compliance Act (“FATCA”)—U.S. Holders and Non-U.S. Holders,” any gain realized by a Non-U.S. Holder upon the sale, exchange, redemption, retirement (including pursuant to an offer by the Commission or a deemed retirement due to defeasance of the Series 2024C Bond) or other disposition of a Series 2024C Bond generally will not be subject to U.S. federal income tax, unless (i) such gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business within the United States; or (ii) in the case of any gain realized by an individual Non-U.S. Holder, such holder is present in the United States for 183 days or more in the taxable year of such sale, exchange, redemption, retirement (including pursuant to an offer by the Commission) or other disposition and certain other conditions are met.

Information Reporting and Backup Withholding. Subject to the discussion below under the heading “Foreign Account Tax Compliance Act (“FATCA”)—U.S. Holders and Non-U.S. Holders,” under current U.S. Treasury Regulations, payments of principal and interest on any Series 2024C Bonds to a holder that is not a United States person will not be subject to any backup withholding tax requirements if the beneficial owner of the Series 2024C Bond or a financial institution holding the Series 2024C Bond on behalf of the beneficial owner in the ordinary course of its trade or business provides an appropriate certification to the payor and the payor does not have actual knowledge that the certification is false. If a beneficial owner provides the certification, the certification must give the name and address of such owner, state that such owner is not a United States person, or, in the case of an individual, that such owner is neither a citizen nor a resident of the United States, and the owner must sign the certificate under penalties of perjury. The current backup withholding tax rate is 24%.

Foreign Account Tax Compliance Act (“FATCA”) —U.S. Holders and Non-U.S. Holders

Sections 1471 through 1474 of the Code impose a 30% withholding tax on certain types of payments made to foreign financial institutions, unless the foreign financial institution enters into an agreement with the U.S. Treasury to, among other things, undertake to identify accounts held by certain U.S. persons or U.S.-owned entities, annually report certain information about such accounts, and withhold 30% on payments to account holders whose actions prevent it from complying with these and other reporting requirements, or unless the foreign financial institution is otherwise exempt from those requirements. In addition, FATCA imposes a 30% withholding tax on the same types of payments to a non-financial foreign entity unless the entity certifies that it does not have any substantial U.S. owners or the entity furnishes identifying information regarding each substantial U.S. owner. Under current guidance, failure to comply with the additional certification, information reporting and other specified requirements imposed under FATCA could result in the 30% withholding tax being imposed on payments of interest on the Series 2024C Bonds. In general, withholding under FATCA currently applies to payments of U.S. source interest (including OID) and, under current guidance, will apply to certain “passthru” payments no earlier than the date that is two years after publication of final U.S. Treasury Regulations defining the term “foreign passthru payments.” Prospective investors should consult their own tax advisors regarding FATCA and its effect on them.

The foregoing summary is included herein for general information only and does not discuss all aspects of U.S. federal taxation that may be relevant to a particular holder of Series 2024C Bonds in light of the holder’s particular circumstances and income tax situation. Prospective investors are urged to consult their own tax advisors as to any tax consequences to them from the purchase, ownership and disposition of Series 2024C Bonds, including the application and effect of state, local, non-U.S., and other tax laws.

CONSIDERATIONS FOR ERISA AND OTHER U.S. BENEFIT PLAN INVESTORS

The Employee Retirement Income Security Act of 1974, as amended (“ERISA”), imposes certain fiduciary obligations and prohibited transaction restrictions on employee pension and welfare benefit plans subject to Title I of ERISA (“ERISA Plans”). Section 4975 of the Code imposes essentially the same prohibited transaction restrictions on tax-qualified retirement plans described in Section 401(a) and 403(a) of the Code, which are exempt from tax under Section 501(a) of the Code, other than governmental and certain church plans as defined herein (“Qualified Retirement

Plans”), and on Individual Retirement Accounts (“IRAs”) described in Section 408(b) of the Code (collectively, “Tax-Favored Plans”). Certain employee benefit plans such as governmental plans (as defined in Section 3(32) of ERISA) (“Governmental Plans”), and, if no election has been made under Section 410(d) of the Code, church plans (as defined in Section 3(33) of ERISA) (“Church Plans”), are not subject to ERISA requirements. Additionally, such Governmental and Church Plans are not subject to the requirements of Section 4975 of the Code but may be subject to applicable federal, state or local law (“Similar Laws”) which is, to a material extent, similar to the foregoing provisions of ERISA or the Code. Accordingly, assets of such plans may be invested in the Series 2024A-C Bonds without regard to the ERISA and Code considerations described below, subject to the provisions of Similar Laws.

In addition to the imposition of general fiduciary obligations, including those of investment prudence and diversification and the requirement that a plan’s investment be made in accordance with the documents governing the plan, Section 406 of ERISA and Section 4975 of the Code prohibit a broad range of transactions involving assets of ERISA Plans and Tax-Favored Plans and entities whose underlying assets include plan assets by reason of ERISA Plans or Tax-Favored Plans investing in such entities (collectively, “Benefit Plans”) and persons who have certain specified relationships to the Benefit Plans (“Parties In Interest” or “Disqualified Persons”), unless a statutory or administrative exemption is available. The definitions of “Party in Interest” and “Disqualified Person” are expansive. While other entities may be encompassed by these definitions, they include, most notably: (1) fiduciary with respect to a plan; (2) a person providing services to a plan; (3) an employer or employee organization any of whose employees or members are covered by the plan; and (4) the owner of an IRA. Certain Parties in Interest (or Disqualified Persons) that participate in a prohibited transaction may be subject to a penalty (or an excise tax) imposed pursuant to Section 502(i) of ERISA (or Section 4975 of the Code) unless a statutory or administrative exemption is available. Without an exemption an IRA owner may disqualify his or her IRA.

Certain transactions involving the purchase, holding or transfer of the Series 2024A-C Bonds might be deemed to constitute prohibited transactions under ERISA and Section 4975 of the Code if assets of the Commission were deemed to be assets of a Benefit Plan. Under final regulations issued by the United States Department of Labor (the “Plan Assets Regulation”), the assets of the Commission would be treated as plan assets of a Benefit Plan for the purposes of ERISA and Section 4975 only of the Code if the Benefit Plan acquires an “equity interest” in the Commission and none of the exceptions contained in the Plan Assets Regulation is applicable. An equity interest is defined under the Plan Assets Regulation as an interest in an entity other than an instrument which is treated as indebtedness under applicable local law and which has no substantial equity features. Although there is little guidance on this matter, it appears that the Bonds should be treated as debt without substantial equity features for purposes of the Plan Assets Regulation. This determination is based upon the traditional debt features of the Bonds, including the reasonable expectation of purchasers of the Series 2024A-C Bonds that the Series 2024A-C Bonds will be repaid when due, traditional default remedies, as well as the absence of conversion rights, warrants and other typical equity features.

However, without regard to whether the Series 2024A-C Bonds are treated as an equity interest for such purposes, though, the acquisition or holding of Series 2024A-C Bonds by or on behalf of a Benefit Plan could be considered to give rise to a prohibited transaction if the Commission or the issuing and paying agent, or any of their respective affiliates, is or becomes a Party in Interest or a Disqualified Person with respect to such Benefit Plan. The fiduciary of a Benefit Plan that proposes to purchase and hold any Series 2024A-C Bonds should consider, among other things, whether such purchase and holding may involve (i) the direct or indirect extension of credit to a Party in Interest, (ii) the sale or exchange of any property between a Benefit Plan and a Party in Interest, or (iii) the transfer to, or use by or for the benefit of, a Party in Interest, of any Plan assets.

Most notably, ERISA and the Code generally prohibit the lending of money or other extension of credit between an ERISA Plan or Tax-Favored Plan and a Party in Interest or a Disqualified Person, and the acquisition of any of the Series 2024A-C Bonds by a Benefit Plan would involve the lending of money or extension of credit by the Benefit Plan. In such a case, however, certain exemptions from the prohibited transaction rules could be applicable depending on the type and circumstances of the plan fiduciary making the decision to acquire a Series 2024A-C Bond. Included among these exemptions are: Prohibited Transaction Class Exemption (“PTCE”) 96-23, regarding transactions effected by certain “in-house asset managers”; PTCE 90-1, regarding investments by insurance company pooled separate accounts; PTCE 95-60, regarding transactions effected by “insurance company general accounts”; PTCE 91-38, regarding investments by bank collective investment funds; and PTCE 84-14, regarding transactions effected by “qualified professional asset managers.” Further, the statutory exemption in Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provides for an exemption for transactions involving “adequate consideration”

with persons who are Parties in Interest or Disqualified Persons solely by reason of their (or their affiliate's) status as a service provider to the Benefit Plan involved and none of whom is a fiduciary with respect to the Benefit Plan assets involved (or an affiliate of such a fiduciary). There can be no assurance that any class or other exemption will be available with respect to any particular transaction involving the Bonds, or that, if available, the exemption would cover all possible prohibited transactions.

By acquiring a Series 2024A-C Bond (or interest therein), each purchaser and transferee (and if the purchaser or transferee is a plan, its fiduciary) is deemed to represent and warrant that either (i) it is not acquiring the Bond (or interest therein) with the assets of a Benefit Plan, Governmental plan or Church plan; or (ii) the acquisition and holding of the Series 2024A-C Bond (or interest therein) will not give rise to a nonexempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or Similar Laws. A purchaser or transferee who acquires Bonds with assets of a Benefit Plan represents that such purchaser or transferee has considered the fiduciary requirements of ERISA, the Code or Similar Laws and has consulted with counsel with regard to the purchase or transfer.

Because the Commission, the Trustee, the Underwriters or any of their respective affiliates may receive certain benefits in connection with the sale of the Series 2024A-C Bonds, the purchase of the Series 2024A-C Bonds using plan assets of a Benefit Plan over which any of such parties has investment authority or provides investment advice for a direct or indirect fee may be deemed to be a violation of the prohibited transaction rules of ERISA or Section 4975 of the Code or Similar Laws for which no exemption may be available. Accordingly, any investor considering a purchase of Bonds using plan assets of a Benefit Plan should consult with its counsel if the Commission, the Trustee or the Underwriters or any of their respective affiliates has investment authority or provides investment advice for a direct or indirect fee with respect to such assets or is an employer maintaining or contributing to the Benefit Plan.

Any ERISA Plan fiduciary considering whether to purchase the Series 2024A-C Bonds on behalf of an ERISA Plan should consult with its counsel regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code to such an investment and the availability of any of the exemptions referred to above. Persons responsible for investing the assets of Tax-Favored Plans that are not ERISA Plans should seek similar counsel with respect to the prohibited transaction provisions of the Code and the applicability of Similar Laws.

VERIFICATION OF MATHEMATICAL COMPUTATIONS

Upon delivery of the Series 2024A-C Bonds, the arithmetical accuracy of certain computations included in the schedules provided by the Co-Municipal Advisors on behalf of the Commission relating to sufficiency of the escrows to defease the Refunded Bonds and the Defeased Commercial Paper Notes, will be verified by Causey Demgen & Moore P.C. (the "Verification Agent"). Such verification shall be based solely upon information and assumptions supplied to the Verification Agent by the Co-Municipal Advisors. The Verification Agent has not made a study or evaluation of the information and assumptions on which such computations are based and, accordingly, has not expressed an opinion on the data used, the reasonableness of the assumptions or the achievability of the forecasted outcome.

APPROVAL OF LEGAL PROCEEDINGS

Certain legal matters incident to the authorization, issuance and sale of the Series 2024A-C Bonds are subject to the approval of Squire Patton Boggs (US) LLP and Amira Jackmon, Attorney at Law, Co-Bond Counsel to the Commission. Certain legal matters will be passed upon for the Commission by the City Attorney, by Nixon Peabody LLP, Disclosure Counsel, and by Orrick, Herrington & Sutcliffe LLP, Special Tax Counsel to the Commission, and for the Underwriters by Hawkins Delafield & Wood LLP, Underwriters' Counsel. Co-Bond Counsel expect to deliver separate opinions at the time of issuance of the Series 2024A-C Bonds each substantially in the forms of opinions of Co-Bond Counsel set forth in APPENDIX G—"PROPOSED FORMS OF OPINIONS OF CO-BOND COUNSEL AND SPECIAL TAX COUNSEL," which Co-Bond Counsel opinions will not address any of the tax aspects of the Series 2024A-C Bonds. Special Tax Counsel expects to deliver an opinion on the tax aspects of the Series 2024A-C Bonds at the time of issuance of the Series 2024A-C Bonds in substantially the form of the opinion of Special Tax Counsel set forth in APPENDIX G—"PROPOSED FORMS OF OPINIONS OF CO-BOND COUNSEL AND SPECIAL TAX COUNSEL."

Co-Bond Counsel and Special Tax Counsel are not passing upon and undertake no responsibility for the accuracy, completeness or fairness of the information contained in this Official Statement.

PROFESSIONALS INVOLVED IN THE OFFERING

The Commission has retained Backstrom McCarley Berry & Co., LLC, PFM Financial Advisors LLC and Robert Kuo Consulting, LLC to serve as Co-Municipal Advisors with respect to the issuance of the Series 2024A-C Bonds.

The Co-Municipal Advisors, Co-Bond Counsel, Disclosure Counsel, Special Tax Counsel and Underwriters' Counsel will receive compensation with respect to the Series 2024A-C Bonds, which compensation is contingent upon the sale and delivery of the Series 2024A-C Bonds.

FINANCIAL STATEMENTS

The audited financial statements of the Commission for Fiscal Year 2022-23 prepared in accordance with GASB guidelines, are included as APPENDIX B attached hereto. The financial statements referred to in the preceding sentence have been audited by Crowe LLP, independent certified accountants, whose report with respect thereto also appears in APPENDIX B. Crowe LLP, the Commission's independent auditor for Fiscal Year 2022-23, has not been engaged to perform and has not performed, since the date of its report included herein, any procedures on the financial statements addressed in that report. Crowe LLP also has not performed any procedures relating to this Official Statement.

The 1991 Master Resolution requires the Commission to have its financial statements audited annually by independent certified public accountants with knowledge and experience in the field of governmental accounting and auditing, and it is the policy of the City to select the independent auditor periodically through a competitive selection process. Crowe LLP was appointed as independent auditor for a four-year term beginning with the Fiscal Year 2022-23 audit pursuant to a regular request for proposals process conducted by the City. The City has the option to extend the agreement for up to three years in its sole and absolute discretion.

The 1991 Master Resolution previously provided that audited financial statements prepared by the Commission each Fiscal Year were required to be provided to the Trustee within 120 days after the end of each such year (by October 28 following the end of the Fiscal Year). The Commission's audited financial statements for Fiscal Years 2017-18, 2018-19, 2019-20, 2020-21, 2021-22 and 2022-23 were not completed until January 25, 2019, November 27, 2019, November 13, 2020, January 7, 2022, January 25, 2023 and December 22, 2023, respectively, for a variety of reasons including remote working conditions due to COVID-19 and a delay in calculations required under GASB 75. The 1991 Master Resolution was amended May 17, 2022 such that the audited financial statements are to be provided to the Trustee by January 26 (210 days after the end of the fiscal year).

CONTINUING DISCLOSURE

The Commission will covenant for the benefit of the Holders and Beneficial Owners (as defined in the Continuing Disclosure Certificate) of the Series 2024A-C Bonds to provide certain financial information and operating data relating to the Commission (the "Annual Disclosure Report") by not later than 270 days following the end of each Fiscal Year, and to provide notices of certain enumerated events. The Annual Disclosure Report and notices of these enumerated events will be filed by the Commission with the means of the Electronic Municipal Market Access site ("EMMA") maintained by the Municipal Securities Rulemaking Board. The specific nature of the information to be contained in the Annual Disclosure Report or the notices of enumerated events is summarized in APPENDIX F—"SUMMARY OF CERTAIN PROVISIONS OF THE CONTINUING DISCLOSURE CERTIFICATE." These covenants have been made in order to assist the Underwriters of the Series 2024A-C Bonds in complying with SEC Rule 15c2-12(b)(5).

The Commission believes that it has complied in all material respects with its undertakings to provide Annual Disclosure Reports and notices of enumerated events. However, the Commission has become aware of certain facts that it does not consider to be material but that are disclosed below for the benefit of the Holders and Beneficial Owners of its Bonds.

In October, 2020, S&P lowered its rating on the SFO Fuel Bonds. SFO Fuel made a timely filing disclosing the rating change that was linked to the CUSIP numbers for the SFO Fuel Bonds. While the Commission also made a timely filing disclosing the rating change, the Commission's filing was not linked to the correct CUSIP numbers.

The Commission has enhanced its continuing disclosure filing procedures to help ensure that information that is filed on EMMA in the future contains all required information and is linked to the appropriate CUSIP numbers.

[Remainder of Page Intentionally Left Blank]

MISCELLANEOUS

This Official Statement has been duly authorized, executed and delivered by the Commission.

The summaries and descriptions of provisions of the 1991 Master Resolution, the Continuing Disclosure Certificate, the Lease and Use Agreements, the purchase contract pursuant to which the Underwriters are purchasing the Series 2024A-C Bonds, and all references to other materials not purporting to be quoted in full are qualified in their entirety by reference to the complete provisions of the documents and other materials summarized or described. Copies of such documents may be obtained from the Trustee or, during the offering period, from the Underwriters. The Appendices are integral parts of this Official Statement and must be read together with all other parts of this Official Statement.

So far as any statements made in this Official Statement involve matters of opinion, forecasts or estimates, whether or not expressly stated, they are set forth as such and not as representations of fact.

Mr. Malcolm Yeung, President
Airport Commission of the
City and County of San Francisco
San Francisco International Airport
P.O. Box 8097
San Francisco, California 94128

Re: Report of the Airport Consultant
Airport Commission of the City and County of San Francisco
San Francisco International Airport
Second Series Revenue Refunding Bonds, Series 2024A (AMT),
Second Series Revenue Refunding Bonds, Series 2024B (Non-AMT/Governmental Purpose), and
Second Series Revenue Refunding Bonds, Series 2024C (Federally Taxable)

Dear Mr. Yeung:

We are pleased to submit this Report of the Airport Consultant (the Report) on certain aspects of the proposed issuance of Second Series Revenue Refunding Bonds, Series 2024A (AMT), Second Series Revenue Refunding Bonds, Series 2024B (Non-AMT/Governmental Purpose), and Second Series Revenue Refunding Bonds, 2024C (Federally Taxable) (collectively, the 2024ABC Bonds) by the Airport Commission (the Airport Commission or the Commission) of the City and County of San Francisco (the City) with an aggregate principal amount of approximately \$924.7 million.*

The Commission intends to use the net proceeds of the 2024ABC Bonds to refund certain currently outstanding Second Series Revenue Bonds, to repay the Commission's outstanding Commercial Paper balances, to fund a Bond reserve account, pay capitalized interest, and pay costs of issuance. For purposes of the financial analysis and financial projections documented herein only debt service associated with the portions of the Series 2024ABC Bonds used to repay Commercial Paper Note balances (as well as to fund related capitalized interest, reserve fund deposits, and issuance costs) is included – that is, \$512.1 million principal amount of Series 2024ABC Bonds. No annual debt service savings associated with the refunding portions of the 2024ABC Bonds were assumed.

Currently outstanding Second Series Revenue Bonds, the 2024ABC Bonds, and future Second Series Revenue Bonds are defined herein as "Bonds". Bonds issued by the Commission are not general indebtedness of the City, but are special limited obligations of the Commission payable solely from net revenues received by the Commission from the operation of San Francisco International Airport (the Airport or SFO). The Commission has no taxing power. This letter and the accompanying attachment and exhibits constitute the Report.

*Preliminary, subject to change.

Mr. Malcolm Yeung
May 7, 2024

The City owns and operates the Airport through its Airport Commission as a financially self-sufficient enterprise. Located approximately 14 miles south of downtown San Francisco, the Airport is the largest airport serving the San Francisco Bay Area and serves as a major connecting hub for United Airlines. The region's stable and affluent population base, strong economy, advanced levels of educational attainment, and relatively high per capita income contribute to historically strong demand for air travel. Between FY 2005 and FY 2019, enplaned passenger totals increased from 16.2 million to 28.6 million – a compound annual growth rate (CAGR) of 4.1%. Following the reduction of aviation activity resulting from the COVID-19 pandemic, enplaned passenger totals recovered to 23.4 million in FY 2023, and are projected to further increase to 26.5 million in FY 2024.

AIRPORT CAPITAL IMPROVEMENT PLAN

Airport Commission staff periodically develops and updates a plan for the redevelopment, improvement, and expansion of Airport facilities, which is approved by the Airport Commission. The plan is submitted to the Airport Commission, and evaluated and approved based on anticipated facility needs, current and expected future airline traffic, available funding sources, airline feedback, and project priority. The Commission-approved plan is included in the City's two-fiscal-year capital budget, which is approved by the City's Board of Supervisors.

On October 3, 2023, the Airport Commission approved an updated capital improvement plan (CIP) totaling \$11.02 billion of capital spending through FY 2033. This total incorporates approximately \$2.41 billion that has been previously funded through the date of this Report (not including \$452.5 million that was or is expected to be funded with commercial paper balances; these balances are expected to be refunded with the proceeds of the 2024ABC Bonds). Additional CIP spending is expected to total approximately \$8.16 billion between FY 2024 and FY 2033.

The CIP reflects the combination of two distinct categories of projects:

- "Ascent Program – Phase 1.5", which represents \$8.03 billion of capital spending through FY 2033. The Ascent Program – Phase 1.5 encompasses projects that address existing infrastructure around the Airport, as well as anticipated passenger and airline growth-related needs of the Airport.
- "Infrastructure Projects Plan", which represents \$2.99 billion of spending on support systems, miscellaneous airfield improvements, terminal improvements, energy and efficiency improvements, and equipment projects, through FY 2033.

The Ascent Program – Phase 1.5 represents a continuation and evolution of the Airport Commission's "Ascent Program – Phase 1" which was originally approved by the Commission in 2016. Elements of the original program that have been fully completed and are in service have been excluded from the new Ascent Program – Phase 1.5, and a range of additional related facility improvements have been added. Among the completed projects are the development of a second long-term parking garage, the Airport hotel, Terminal 3 East improvements, the AirTrain extension, and Terminal 1 Boarding Area B redevelopment. Ongoing elements of the Ascent Program – Phase 1 are included in the Ascent Program – Phase 1.5.

Mr. Malcolm Yeung
May 7, 2024

The table below reflects the Commission’s updated CIP. After (and not including) the planned issuance of the 2024ABC Bonds, the Airport Commission is projecting CIP spending of \$8.16 billion from FY 2024 to FY 2033, including \$5.70 billion of Ascent Program – Phase 1.5 project spending and \$2.46 billion of Infrastructure Projects Plan spending. The projected spending of \$8.16 billion includes \$1.00 billion of contingency reserves (in addition to individual project construction and development contingencies and reserves).

Airport Commission management will continue to undertake the process of reevaluating and revising the CIP for the Airport. The scope, phasing, and timing of implementation of projects in the updated CIP are subject to further modification depending on aviation activity trends and other Airport operational factors. Actual project schedules and costs may be different from what is assumed in this Report.

Anticipated funding sources for the CIP include Commission Bonds, commercial paper for interim funding needs, federal grants, Airport cash, and other miscellaneous sources. Bond proceeds are by far the largest funding source for the CIP, equivalent to approximately 91% of the remaining CIP spending of \$8.62 billion (including amounts to be funded as part of the 2024ABC Bond issue).

SUMMARY OF THE CAPITAL IMPROVEMENT PLAN						
<i>(\$ millions)</i>	Prior Funding (a)	2024ABC Bonds (b)	Future Funding (FY 2024-33)			Total
			Future Bonds	Other Funding	FY 2024-33 Total	
			[C]	[D]	[E=C+D]	
	[A]	[B]			[E=C+D]	[F=A+B+E]
Ascent Phase 1.5						
Project costs	\$ 1,937.6	\$ 393.8	\$ 4,844.1	\$ 129.4	\$ 4,973.6	\$ 7,305.0
Ascent Phase 1.5 reserve	-	-	730.5	-	730.5	730.5
Subtotal - Ascent Phase 1.5	\$ 1,937.6	\$ 393.8	\$ 5,574.6	\$ 129.4	\$ 5,704.1	\$ 8,035.4
Infrastructure CIP						
Project costs	\$ 469.4	\$ 58.7	\$ 1,513.4	\$ 673.7	\$ 2,187.2	\$ 2,715.2
Infrastructure Reserve	-	-	271.5	-	271.5	271.5
Subtotal - Infrastructure CIP	\$ 469.4	\$ 58.7	\$ 1,785.0	\$ 673.7	\$ 2,458.7	\$ 2,986.7
CIP total	\$ 2,407.0	\$ 452.5	\$ 7,359.6	\$ 803.2	\$ 8,162.8	\$ 11,022.2

(a) Approximate funding amounts already secured, including proceeds of previously issued Bonds and other funding sources.

(b) Reflects the new money portion of the 2024ABC Bonds, which is expected to be used to pay down approximately \$452.5 million of currently outstanding commercial paper.

Note: Total spending of \$11.02 billion reflects the CIP for the Airport as approved by the Airport Commission on October 3, 2023. The financial projections documented later in this Report assume that all of the Future Bonds for the CIP are issued between FY 2025 and FY 2029, and therefore the projections for FY 2030 reflect substantially all of the impact of the CIP on annual revenues and expenses. (There is projected to be approximately \$6 million of debt service paid from capitalized interest in FY 2030; less than 0.5% of total debt service in that year).

The Ascent Program – Phase 1.5 includes the completion of the comprehensive redevelopment of Terminal 1, the completion of the redevelopment of Terminal 3, International Terminal refresh projects, the development of a new parking garage in the West Field area of the Airport, cargo and hangar developments, a consolidated administration campus, and a range of support projects. In

Mr. Malcolm Yeung
May 7, 2024

addition, the Ascent Program – Phase 1.5 spending total includes a contingency reserve of \$730 million which, for purposes of the financial analysis described in this Report, is assumed to be fully Bond funded, drawn down, and applied to project costs.

The Infrastructure Projects Plan component of the overall CIP includes a range of airfield area improvements including runway and taxiway rehabilitation, various terminal area rehabilitation projects, and ground transportation and parking, and utilities improvements around the Airport. The Infrastructure Projects Plan program spending total includes a contingency reserve of \$272 million which, for purposes of the financial analysis described in this Report, is assumed to be fully Bond funded, drawn down and applied to project costs.

THE 2024ABC BONDS AND FUTURE BONDS

The City (acting through the Airport Commission) intends to issue the 2024ABC Bonds to:

- Refund certain of the Commission’s previously issued Bonds,
- Refund all of the Commission’s outstanding Commercial Paper balances of approximately \$452 million, and
- Fund a Bond reserve account, pay capitalized interest, and pay issuance costs associated with the 2024ABC Bonds.

Projects for which Commercial Paper that is expected to be repaid as part of this transaction was used include, among others: Terminal 1 improvements, Terminal 3 improvements, the Courtyard 3 Connector project, International Terminal refresh projects, and the Taxiways D and T Reconstruction project.

Subsequent to the issuance of the 2024ABC Bonds, this Report assumes the issuance of approximately \$8.9 billion in principal amount of additional Bonds in Fall 2024 through 2029 (the Future Bonds), to fund approximately \$7.4 billion of capital costs to complete the funding of the CIP through FY 2033 (as well as to fund capitalized interest, deposits to a Bond reserve account, deposits to the Commission’s Contingency Account, and Bond issuance costs).

Our study was undertaken to evaluate the ability of the Airport Commission to generate sufficient Net Revenues to meet the requirements of the Bond Resolution (further discussed below), taking into account Annual Debt Service on the current outstanding Bonds, the commercial paper refunding and new money portions of the 2024ABC Bonds, and the projected Future Bonds. The projection period extends to FY 2030. For purposes of this Report it was assumed that all of the Bonds needed to complete the CIP are issued through FY 2029, so the projections for FY 2030 reflect substantially all of the impact on revenues and expenses of the entire CIP.

The Airport Commission may issue additional Second Series Revenue Refunding Bonds during the projection period. The impact of debt service savings related to the issuance of the refunding portions of the 2024ABC Bonds and any such future refunding bonds, and any debt service savings associated with such refundings, is not reflected in the financial analysis discussed in this Report.

Mr. Malcolm Yeung
May 7, 2024

THE BOND RESOLUTION*

The 2024ABC Bonds are being issued under the terms and conditions of Resolution No. 91-0210 adopted by the Airport Commission on December 3, 1991, as amended and supplemented (collectively, the Bond Resolution), authorizing the issuance of San Francisco International Airport Second Series Revenue Bonds. The Bonds are secured by an irrevocable pledge of the Net Revenues of the Airport Commission. The Airport Commission has covenanted in the Bond Resolution not to issue any debt with a pledge of or lien on Net Revenues senior to that of the Bonds.

As defined in the Bond Resolution, Net Revenues are Revenues less Operation and Maintenance Expenses. Revenues include substantially all rentals, fees, and charges associated with possession, management, supervision, operation, and control of the Airport as determined in accordance with generally accepted accounting principles (GAAP), but do not include grants-in-aid, nor do they include:

- Revenues derived from passenger facility charges (PFCs) unless designated as such by the Airport Commission
- Revenues from rental car Customer Facility Charges (CFCs) unless designated as such by the Airport Commission, and
- Federal Subsidy Payments unless designated as such by the Airport Commission

Since 2002, when the Airport Commission was first authorized to apply PFC revenues to the payment of debt service, the Airport Commission has designated a portion of its PFC revenues as Revenues each year for the purpose of paying part of its Annual Debt Service. The Airport Commission expects to continue to designate certain PFC revenues as Revenues on an annual basis during the projection period considered in this Report. (The Commission designated, but did not subsequently apply, PFC revenues as Revenues during FY 2021, FY 2022, or FY 2023.)

Operation and Maintenance Expenses are defined to include substantially all expenses incurred for the operation and maintenance of the Airport, as determined in accordance with GAAP. Operation and Maintenance Expenses do not include, among other costs, the Annual Service Payment to the City, depreciation, amortization, debt service on Bonds or commercial paper, or expenses for which the Commission is paid or reimbursed from sources other than the Revenues of the Airport Commission.

Rate Covenant

The Airport Commission has covenanted in Section 6.04(a) of the Bond Resolution (the Rate Covenant) that, so long as any of the Bonds are outstanding, it shall establish and at all times maintain rates, rentals, charges, and fees for the use of the Airport and for services rendered by the Airport Commission such that:

*References in this Report to the Bond Resolution, the airline lease and use agreements, and various leases and agreements entered into by the City and the Airport Commission are not intended to be comprehensive or definitive. Capitalized terms have the same meaning as defined in the Bond Resolution, except as otherwise noted herein.

Mr. Malcolm Yeung
May 7, 2024

1. Net Revenues in each Fiscal Year will be at least sufficient (i) to make all required debt service payments and deposits in such Fiscal Year with respect to the Bonds, any Subordinate Bonds and any general obligation bonds issued by the City for the benefit of the Airport (there have been no such general obligation bonds outstanding for more than 30 years), and (ii) to make the Annual Service Payment to the City; and
2. Net Revenues, together with any Transfer from the Contingency Account to the Revenue Account, in each Fiscal Year will be at least equal to 125% of aggregate Annual Debt Service with respect to the Bonds for such Fiscal Year. For purposes of this provision of the 1991 Master Resolution, "Annual Debt Service" may, at the Commission's option, be calculated based on required deposits to pay Annual Debt Service.

A Transfer is defined as (a) the amount deposited on the last Business Day of any Fiscal Year from the Contingency Account into the Revenue Account, plus (b) any amounts withdrawn from the Contingency Account during such Fiscal Year for certain specified purposes, less (c) any amounts deposited in the Contingency Account from Revenues during such Fiscal Year.

For purposes of this Report, it was assumed that the Contingency Account balance will increase gradually during the projection period due to the use of Future Bond proceeds to fund deposits to the Contingency Account. The lesser of the Contingency Account balance or 25% of Annual Debt Service is used as the amount of the Transfer for the purpose of projecting compliance with the Rate Covenant in this Report.

Additional Bonds

To issue additional Bonds that are not refunding Bonds, the Airport Commission must meet the requirements of Section 2.11 of the Bond Resolution, which states that the Trustee must be provided with a certificate of either an Airport Consultant or an Independent Auditor, with specific requirements for each. The certificate of the Airport Consultant must state, among other things, that the Airport Commission is expected to be able to produce Net Revenues, together with any Transfer, at least sufficient to meet the requirements of the Rate Covenant in each Fiscal Year during the required projection period. For purposes of the certificate, the Transfer amount used for any given Fiscal Year of the projection period may not exceed 25% of Maximum Annual Debt Service.

In addition to \$512 million of new money 2024ABC Bonds which is assumed to be used to repay \$452 million of currently outstanding commercial paper (and related capitalized interest, Bond reserve funding, and issuance costs), this Report assumes the issuance of Future Bonds with a principal amount of approximately \$8.87 billion to fund elements of the CIP through FY 2033, as described more fully later in the Report. The issuance amounts and timing of the Future Bonds are subject to change as aviation activity levels, facility needs, and the Airport operating environment evolve over time, and depending on financial market conditions, but for purposes of this Report the Future Bonds are assumed to be issued during Fall 2024 through 2029.

The financial analysis section of this Report does not reflect debt service savings associated with the refunding portions of the 2024ABC Bonds (or any other potential Bond refundings that may be undertaken during the projection period), but does include the impact of debt service on the new

Mr. Malcolm Yeung
May 7, 2024

money portion of the Series 2024ABC Bonds and Future Bonds on Revenues, Operation and Maintenance Expenses, Debt Service, and Net Revenues of the Airport Commission.

THE AIRLINE LEASE AND USE AGREEMENTS

The City (acting through the Airport Commission) has entered into new lease and use agreements (Airline Agreements) with certain airlines serving the Airport; such signatory airlines accounting for substantially all of the airline traffic at the Airport. The Airline Agreements are effective as of July 1, 2023 (or after that date, depending on when individual airlines executed them), and expire on June 30, 2033. Under the Airline Agreements, the signatory airlines have agreed to pay terminal rentals and landing fees calculated under a residual airline rate-making methodology, whereby the signatory airlines agree to pay the amounts necessary to enable the Airport Commission to fully recover its net Airport-related costs as defined in the Airline Agreements.

The Airline Agreements retain a residual ratemaking approach similar to that in effect through June 30, 2023, in accordance with the prior lease and use agreements. They incorporate the build-up of a discretionary cash fund for use by the Commission, the Operating Revenue and Capital Improvement Fund (ORCIF), funded through the airline rate base, which would enhance available liquidity, potentially provide an additional funding source for capital projects, and can be used for any lawful Airport purpose.

PASSENGER FACILITY CHARGE PROGRAM

The Airport Commission is currently authorized to impose a \$4.50 PFC at the Airport pursuant to approvals from the Federal Aviation Administration (FAA). The Airport Commission's PFC collection and spending authorization as of the date of this Report totals \$2.32 billion at the \$4.50 level, and with an expiration date no later than December 1, 2030.

As of December 31, 2023, a total of approximately \$1.76 billion in PFC revenues (including restricted interest income) had been collected, including \$637.1 million of PFC revenues collected but not yet expended. Based on the aviation activity projection included in this Report, the Airport Commission is expected to collect the full authorized amount during FY 2028, towards the end of the projection period described in the Report. The Airport Commission intends to submit further PFC applications and application amendment requests to the FAA for increased PFC collection and use authority in the future, including requests for authorization to collect and use PFC revenues to pay debt service associated with the Terminal 1 and Terminal 3 redevelopment projects.

SCOPE OF STUDY

As noted earlier, our study was undertaken to evaluate the ability of the Airport enterprise to generate sufficient Net Revenues to meet the requirements of the Rate Covenant, taking into account Annual Debt Service on the Outstanding Bonds, the new money portion of the 2024ABC Bonds, and the anticipated Future Bonds to be issued to complete capital spending at the Airport through FY 2030.

Mr. Malcolm Yeung
May 7, 2024

In conducting the study, we reviewed and analyzed:

- Historical airline traffic demand at the Airport, giving consideration to the demographic and economic characteristics of the San Francisco Bay Area, historical trends in airline traffic, and other key factors that may affect future airline traffic.
- Debt service requirements on all current Outstanding Bonds, and estimated debt service requirements on the 2024ABC Bonds and projected Future Bonds that are assumed to be issued during the projection period.
- Historical relationships among Revenues, Operation and Maintenance Expenses, PFC revenues, and airline traffic at the Airport and other factors that may affect future Revenues and Operation and Maintenance Expenses.
- Audited financial statements of the Airport Commission for FY 2019 through FY 2023.
- The Airport Commission’s FY 2024 annual budget, preliminary FY 2025 and FY 2026 budgets, and internal airline rates and charges model, as well as other considerations related to the business operations of the Airport.
- Airport Commission’s approved CIP for the Airport, and its estimates of project costs, funding sources, and implementation schedules for projects included in the CIP.
- The Airport Commission’s policies and contractual arrangements relating to the use and occupancy of Airport facilities, including the calculation of airline rentals, fees, and charges; the operation of concession privileges; and the leasing of buildings and grounds.
- The Airport Commission’s approved PFC program, PFC-eligible enplaned passengers, and historical PFC revenues (including restricted interest income).

We also identified key factors upon which the future financial results of the Airport may depend and, with Airport Commission management, formulated assumptions about those factors. On the basis of those assumptions, we assembled the financial projections presented in the exhibits provided at the end of this Report:

- J Summary of Financial Projections – Sensitivity Case

SUMMARY OF PROJECTED RESULTS

As indicated in Exhibit H and further discussed in the Report, it is projected that the Airport Commission would meet the requirements of the Rate Covenant in each Fiscal Year of the projection period under the base case scenario.

The table summarizes historical and projected enplaned passengers, Net Revenues, Transfers, debt service on Bonds issued under the terms of the Bond Resolution (including the 2024ABC Bonds and the anticipated Future Bonds), debt service coverage (including Transfers), and airline cost per enplaned passenger.

SUMMARY OF PROJECTIONS – BASE CASE										
	Historical			Estimated		Projected				
	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030
Enplaned passengers	6,925	17,396	23,420	26,611	28,698	30,188	31,490	32,571	33,589	34,561
<i>Percentage change</i>	-65.7%	151.2%	34.6%	13.6%	7.8%	5.2%	4.3%	3.4%	3.1%	2.9%
Net Revenues (a)	\$ 311,233	\$ 429,280	\$ 511,495	\$ 814,769	\$ 800,857	\$ 892,667	\$ 952,622	\$1,065,510	\$1,236,656	\$1,416,077
Transfer (b)	167,295	168,193	171,632	120,014	150,856	176,117	191,938	220,802	263,475	308,228
Total amount available	\$ 478,528	\$ 597,474	\$ 683,127	\$ 934,783	\$ 951,713	\$1,068,783	\$1,144,560	\$1,286,312	\$1,500,131	\$1,724,305
Annual Debt Service (c)	290,261	288,609	408,661	480,054	603,425	704,467	767,753	883,208	1,053,902	1,232,911
Debt Service Coverage	165%	207%	167%	195%	158%	152%	149%	146%	142%	140%
Passenger airline payments	\$ 431,751	\$ 616,190	\$ 556,675	\$ 560,348	\$ 725,657	\$ 830,166	\$ 900,673	\$1,119,374	\$1,304,792	\$1,491,766
Airline cost per enplaned passenger	\$ 62.35	\$ 35.42	\$ 23.77	\$ 21.06	\$ 25.29	\$ 27.50	\$ 28.60	\$ 34.37	\$ 38.85	\$ 43.16

Note: The Fiscal Year of the City ends June 30. Amounts in thousands, except the airline cost per enplaned passenger, percentages and ratios. Totals may not add due to rounding.

(a) Net Revenues reflect the designation and application of a portion of the Commission’s PFC cash balances and PFC revenues as Revenues.

(b) For purposes of the projected years shown in this table, the Transfer was assumed to be the lesser of the balance in the Contingency Account as of the end of the Fiscal Year, or 25% of annual debt service on the Bonds for that Fiscal Year.

(c) Debt service is expressed on a “deposit basis” (reflecting the timing of when moneys are set aside by the Commission to pay the bondholders).

ASSUMPTIONS UNDERLYING THE FINANCIAL PROJECTIONS

The financial projections described in this Report are based on information and assumptions that were provided by, or reviewed with and agreed to by, Airport management. Accordingly, the projections reflect the Airport Commission’s expected course of action during the projection period and, in Airport management’s judgment, present fairly the expected financial results of the Airport enterprise under that hypothetical aviation activity recovery scenario.

The key factors and assumptions that are significant to the projections are set forth in the attachment, “Background, Assumptions, and Rationale for the Financial Projections.” The attachment should be read in its entirety for an understanding of the projections and the underlying assumptions.

In our opinion, the underlying assumptions provide a reasonable basis for the projections. However, any projection is subject to uncertainties. Inevitably, some assumptions will not be realized, and unanticipated events and circumstances may occur. Therefore, there are likely to be differences between the projected and actual results, and those differences may be material. Neither LeighFisher nor any person acting on our behalf makes any warranty, expressed or implied, with respect to the information, assumptions, projections, opinions, or conclusions disclosed in the Report. We have no responsibility to update this Report for events and circumstances occurring after the date of the Report.

* * * * *

We appreciate the opportunity to serve as the Airport Consultant for the Airport Commission of the City and County of San Francisco on this proposed financing.

Respectfully submitted,

LEIGHFISHER

INTRODUCTION

THE AIRPORT COMMISSION

The City and County of San Francisco (the City), through its Airport Commission (the Airport Commission, or the Commission), owns and operates San Francisco International Airport (the Airport) as a financially self-sufficient enterprise.

The Airport Commission was created in 1970 pursuant to an amendment to the City Charter. Under the City Charter, the Airport Commission has control over the “construction, management, supervision, maintenance, extension, operation, use and control of all property, as well as the real, personal and financial assets which are under the Commission’s jurisdiction.” The City Charter further provides that “subject to the approval, amendment or rejection of the Board of Supervisors [of the City and County of San Francisco] of each issue, the Commission shall have exclusive authority to plan and issue revenue bonds for airport-related purposes.” Bonds issued by the Commission are not general indebtedness of the City, but are special limited obligations of the Commission payable solely from Net Revenues received by the Commission from the operation of the Airport. The Commission has no taxing power.

The Airport Commission consists of five members who are appointed for four-year terms by the Mayor of San Francisco. All appointments are subject to rejection by a two-thirds vote of the Board of Supervisors and any member may be removed by a three-fourths vote of the Board of Supervisors, but only for official misconduct. Under the City Charter, the Airport Director is appointed by the Mayor from a list of candidates submitted by the Commission. The Airport Director is empowered to appoint or remove senior management staff. The City Attorney serves as the legal advisor to the Commission.

THE AIRPORT

The Airport is located 14 miles south of downtown San Francisco, in San Mateo County, adjacent to the San Francisco Bay. The Airport occupies approximately 2,383 acres on a 5,171-acre site; the remaining 2,788 acres are undeveloped tidelands. Figure 1 shows the layout of the Airport from an aerial view, and Table 1 provides a summary of key Airport facilities.

Total space	1.1 million square feet

- (a) Reflects gates that are in use on a common use basis or are preferentially allocated. Includes one gate in Boarding Area A that has apron-level boarding, accessed by bus; and one gate in Boarding Area F that has apron-level boarding, accessed by ramp. Gate count and airline allocation as of February 2024.
- (b) Terminals 1, 2, and 3 also handle flights to and from Canada, and flights to Mexico.
- (c) Breeze also operates from Terminal 2.
- (d) All international flights requiring customs and immigration arrive at either the International Terminal or four gates in Boarding Area B capable of accessing the Federal Inspection Station (FIS).
- (e) Including Air Transat, Alaska (international arrivals), Flair, Frontier, Hawaiian, Porter, Sun Country, and WestJet.
- (f) Runway 28L has available standard Instrument Landing System Category I approaches and Special Authorization Category II approaches that require special aircrew and aircraft certification.

Source: San Francisco Airport Commission, February 2024.

Airfield Facilities

The runway and taxiway system at the Airport occupies approximately 1,700 acres and provides four intersecting runways, three of which are equipped with an instrument landing system (ILS) for arrivals. The east-west runways are 11,870 and 11,381 feet long, respectively. The north-south runways are 8,650 and 7,650 feet long, respectively. Each of the four runways is 200 feet wide. The current runway system can accommodate the arrivals and departures at the maximum loads of all commercial aircraft currently in service, including large aircraft such as the Airbus A380. The Airport runways are built on Bay tidelands that were filled before, during, and after World War II and, as a result, the runways continue to settle at various rates, requiring periodic repair and maintenance.

Terminal Facilities

The Airport currently has 104 operational contact gates plus two remote gates, 46 of which can accommodate widebody aircraft. An additional narrowbody gate is expected to be available in Terminal 1 on June 11, 2024. The domestic passenger terminal complex at the Airport consists of approximately 3.2 million square feet of total space divided among three terminals in a five-pier configuration. The domestic terminals (which also accommodate flights to Mexico and Canada) are located around two-thirds of the outer perimeter of the roadway that encircles the central parking garage, as follows:

- Terminal 1 comprises Boarding Area B (22 gates)
- Terminal 2 comprises Boarding Area C (9 gates) and Boarding Area D (15 gates)
- Terminal 3 comprises Boarding Area E (13 gates) and Boarding Area F (22 gates)

The International Terminal Complex (ITC) straddles the main Airport entrance roadway and consists of 2.5 million square feet configured as a main hall and two piers (Boarding Areas A and G, which include 13 gates and 12 gates, respectively). In addition to serving as the point of departure and arrival for flights requiring Federal Inspection Services (FIS) clearance, the ITC is also used for certain domestic flights.

As of March 1, 2024, the three domestic terminals had 52 food and beverage outlets and 38 retail outlets. The ITC has 19 restaurants and 25 retail outlets (including 15 duty free stores).

Parking

The Airport Commission owns the short- and long-term public parking facilities at the Airport. Table 2 provides details of the number of spaces currently available in these parking facilities. The Domestic Parking Garage, which is adjacent to the domestic terminal complex, provides approximately 4,609 short-term public parking spaces. Two parking garages, located adjacent to the ITC, provide 2,118 short-term parking spaces. Two long-term parking garages and an adjacent surface lot located approximately 1.5 miles from the terminal complex provide an additional 7,735 spaces. A total of 8,295 employee parking spaces are also provided.

Table 2
Parking Facilities
San Francisco International Airport

Automobile Parking	Spaces
Public parking	
Domestic Parking Garage	4,609
International Terminal Garages A & G	2,118
Long-Term Garages and surface lot	7,735
Total public parking spaces	14,462
Employee parking	8,295
Total parking spaces	22,757

Source: San Francisco Airport Commission, February 27, 2024.

Additionally, several independent companies offer parking facilities off Airport property and provide Airport access to their patrons via shuttle buses. The capacity of these off-Airport parking facilities is estimated to be approximately 6,000 spaces.

Airport Access

Access to the Airport is provided by a roadway system and by the San Francisco Bay Area Rapid Transit (BART) District rail system.

The Airport is located on the east side of the Bayshore Freeway (U.S. Highway 101) between Millbrae Avenue to the south and Interstate 380 (I-380) to the north. The Bayshore Freeway is a major north-south artery that serves the San Francisco Peninsula, providing direct access to the Airport via four exits—Millbrae Avenue, Terminal Access Road, San Bruno Avenue, and North Access Road.

I-380, north of the Airport, connects with the North Access Road and the Terminal Access Road. I-380 is an east-west freeway that serves as a connector between the Bayshore Freeway and Interstate 280 (I-280), the other major north-south freeway serving the Peninsula.

BART is an automated rapid transit system serving Alameda, Contra Costa, and San Francisco counties, as well as northern San Mateo County. A total of 50 BART stations are located along five lines. BART operation was extended directly to the Airport in 2003.

AirTrain System

The AirTrain system provides transportation for travelers and others around and among key Airport facilities. The AirTrain system has 11 stations and operates on two lines (Red and Blue). Both lines connect to all Airport terminals, garages, and the Airport BART station, while the Blue line also connects to the consolidated rental car facility and certain support facilities. Three AirTrain stations are located adjacent to the domestic terminal complex atop the Domestic Parking Garage. These

stations are accessed from their terminals via pedestrian “skybridges” over the loop road. AirTrain stations are also located in the ITC and in the adjacent parking facilities. One AirTrain station connects directly with the Airport BART station.

Consolidated Rental Car Facility

The Commission developed a consolidated rental car facility at the Airport which opened in 1998. The facility is a five-level structure containing approximately 1.5 million square feet, approximately 5,000 parking spaces, a quick turnaround area, a rental car operator staging area, rental car fueling and cleaning facilities, ticket counter space, and administrative offices. Companies representing nine rental car brands currently operate from the consolidated rental car facility.

Aircraft Maintenance and Cargo Facilities

Several airlines operate maintenance and cargo facilities at the Airport. United Airlines’ Maintenance Operations Center at the Airport encompasses approximately 3 million square feet and is one of the country’s largest private aircraft maintenance facilities. Additionally, American Airlines operates a major maintenance facility at the Airport, and several other airlines operate line maintenance facilities.

There are 11 cargo facilities at the Airport, providing approximately 1.1 million square feet of warehouse and office space. Services offered by cargo tenants include refrigeration/cooler facilities, dangerous goods handling, valuable goods handling, and bonded storage.

AIRLINE TRAFFIC AND ECONOMIC ANALYSIS

AIRPORT SERVICE REGION

The development of the economic base of an airport service region is important to passenger traffic growth over the long term. This is particularly true where the industries in the region rely on the airport for passenger and cargo service. The region served by the Airport consists of the 13-county San Jose-San Francisco-Oakland Combined Statistical Area (the San Francisco CSA or the Bay Area),* as shown in Table 3 and on Figure 2, as well as surrounding areas for which the Airport is the most convenient or attractive option. The San Francisco CSA, the fifth most populous in the United States, is a national and international travel destination as well as a center of business and trade in California and the nation.

**Table 3
San Francisco CSA Population in 2023**

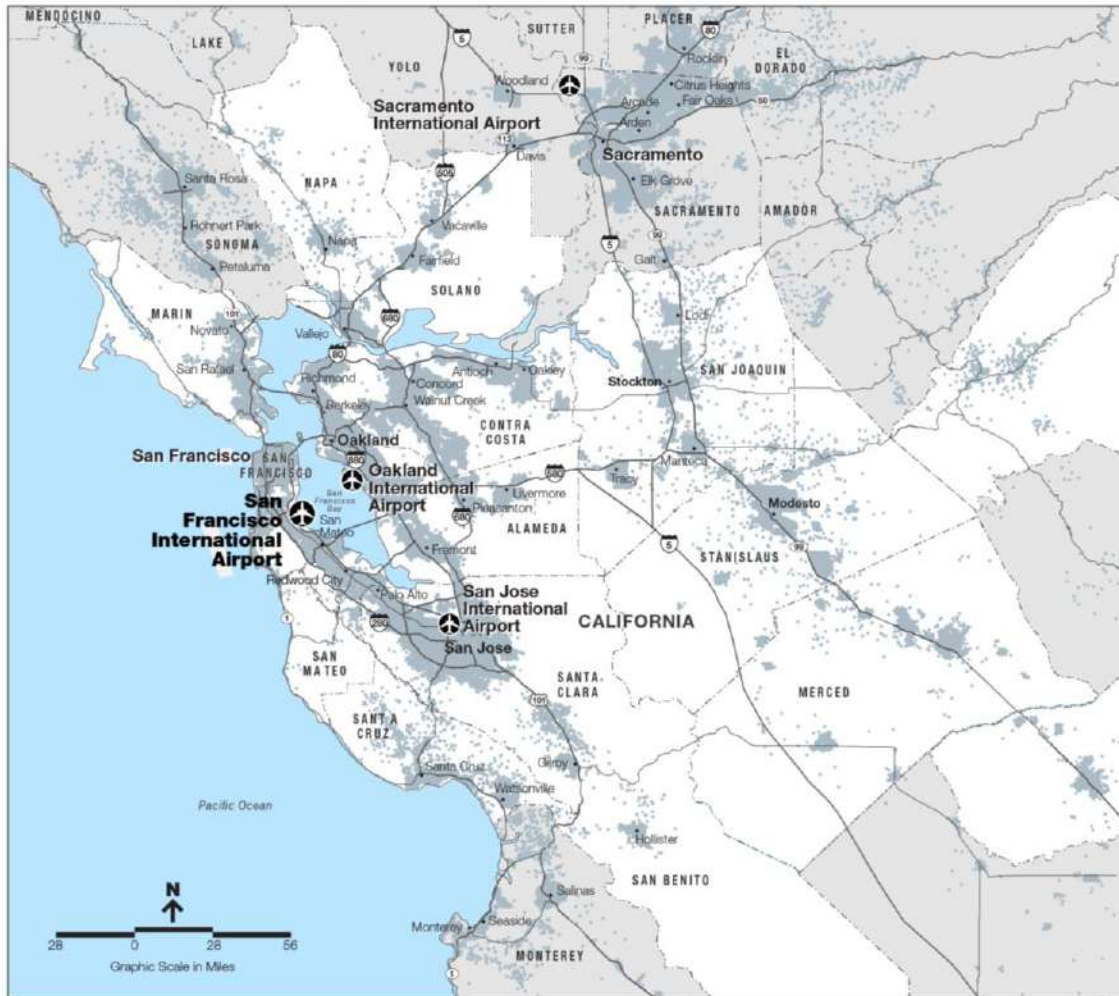

MSA	County	Population	Percent of total
San Francisco-Oakland- Berkeley MSA	Alameda	1,622,188	18.0%
	Contra Costa	1,155,025	12.8%

SFO025 F-0001

According to the U.S. Department of Commerce, Bureau of the Census, the population of the San Francisco CSA was 9.0 million in 2023, accounting for 23% of California’s total population of 39.0 million. The San Francisco-Oakland-Berkeley Metropolitan Statistical Area (MSA) includes the City of San Francisco (equivalent to San Francisco County), which accounted for 9.0% of the population of the San Francisco CSA, as shown in Table 3. Because economic growth and activity within this area is an important determinant of passenger demand at the Airport, statistics for the San Francisco CSA were used to evaluate airline traffic trends at the Airport.*

AIRLINE SERVICE AT BAY AREA AIRPORTS

The Bay Area is served by three primary passenger-service airports – San Francisco (SFO), Oakland (OAK), and Mineta San Jose (SJC) international airports. SFO is the busiest airport in the Bay Area and Northern California and is scheduled to account for the largest share of total scheduled departing seats (domestic and international) at Bay Area airports in FY 2019 through FY 2024 (59%-66%, per year, on average), as shown in Table 4. OAK and SJC are medium-hub airports and provide primarily short- and medium-haul domestic service.**

Domestic Airline Service. As shown in Table 4, SFO dominates long-haul domestic service, with approximately 80% of long-haul domestic scheduled departing seats in the Bay Area in FY 2019 through FY 2024. During FY 2024, SFO is scheduled to account for 83% of long-haul domestic scheduled departing seats in the Bay Area, the same as during the prior year. OAK and SJC provide primarily short- and medium-haul domestic service.

SFO has service to 80 domestic non-stop destinations in July 2024, compared to 82 non-stop destinations in July 2019. The equivalent domestic service at OAK is 39 non-stop destinations in July 2024 and 51 such destinations in July 2019; and for SJC is 33 non-stop destinations in July 2024 and 43 such destinations in July 2019.

International Airline Service. SFO is the Bay Area’s international gateway and dominates international service, accounting for approximately 90% of Bay Area international scheduled departing seats in FY 2019 through FY 2024, as shown in Table 4. During FY 2024, SFO is scheduled to account for 93% of international scheduled departing seats in the Bay Area, the same as during the prior year.

In recent years, prior to the onset of the pandemic, limited long-haul and international service was added at OAK and SJC, as discussed in the section “International Gateway” that follows. Historically, each airport has drawn passengers primarily from its closest surrounding geographical area for short- and medium-haul service, while SFO has captured most of the demand for longer domestic trips and international service from the entire Bay Area.

* Data are presented for the most recent period available and, for internet sources, dated when accessed. Published airline schedule data for July 2024 (unless otherwise noted) are used throughout this Report to represent the peak month of passenger airline activity, which includes daily and seasonal service, and to be consistent with previous Reports of the Airport Consultant, which reported July data. Published airline schedules represent the number of flights airlines expected to provide rather than the actual number flown.

** The San Francisco CSA also includes three non-hub airports (enplane less than 0.05% of nationwide passenger boardings) with limited commercial passenger airline service in July 2024: Merced Regional Airport, Charles M. Shultz Sonoma County Airport and Sacramento Stockton Metropolitan Airport.

Table 4
Departing Seats By Sector and Length of Haul

AIRPORT ROLE

The Airport's role as one of the primary international gateways in the United States and the world is related to the strength of the San Francisco CSA economy, the location of global companies in the San Francisco CSA and Northern California, its proximity to expanding markets in Asia and the South Pacific, and its wide reach to markets in Canada, Europe, Mexico, and the Middle East. SFO's ranking among world and U.S. airports reflects its standing as a global and national transportation hub. SFO is the only airport in the San Francisco CSA and Northern California with substantial levels of international service and connecting traffic.

Large-Hub Origin-Destination Airport

SFO was the fourteenth busiest airport in the United States in terms of total enplaned passengers in FY 2023, up from fifteenth in FY 2022 and, due to the impacts of the pandemic on passenger traffic, down from seventh in FY 2019, according to the U.S. Department of Transportation (DOT).*

SFO's O&D ranking has also been impacted by the pandemic and the associated restrictions on international and corporate business travel. In FY 2023, the Airport ranked ninth among U.S. airports in terms of domestic and international revenue origin-destination (O&D) passengers, up from fourteenth in FY 2022, but down from fifth in FY 2019, as shown on Figure 3. Notwithstanding the decreases in passenger traffic related to the pandemic, SFO's large O&D passenger base reflects, in part, the San Francisco CSA's population of 9.0 million in 2023, which is the fifth most populous CSA in the nation (following the New York, Los Angeles, Washington DC/Baltimore, and Chicago CSAs).

Role as a Connecting Hub

In addition to its role as a large O&D airport, the Airport serves as a major connecting hub for United as discussed in the following section. In FY 2023, SFO ranked seventeenth among U.S. airports in terms of domestic and international revenue connecting passengers, up from twentieth in FY 2022, but down from thirteenth in FY 2019. During FY 2023, connecting passengers accounted for 19% of SFO's revenue enplaned passengers and 32% of United's passengers at the Airport (down from 36% of United's enplaned passengers in FY 2019).

*Data reported to the U.S. DOT excludes nonrevenue passengers and may differ from data reported by the airlines to the Airport.

Figure 3
Revenue Enplaned Passengers
at the 20 Busiest U.S. Airports in FY 2023
 Ranked by origin-destination passengers

Notes:

O&D = Origin-Destination passengers

Due to reporting anomalies, O&D passengers include passengers making a connection from one international flight to another international flight on foreign-flag airlines.

The percent of O&D passengers for SFO in FY 2023 (81%) excludes non-revenue passengers and differs from the estimate in Table 13 (81.8%) which is based on total (revenue and non-revenue) enplaned passengers.

Sources: U.S. Department of Transportation, *Air Passenger Origin-Destination Survey*, reconciled to Schedule T100, and Schedule T100, accessed March 2024.

United Airlines Network Strategy

SFO plays an important role in United's system as a domestic connecting hub and international gateway and ranks fifth among United's seven U.S. connecting hubs, annually, in FY 2019 through FY 2024 in terms of scheduled departing seats, as shown in Table 5.

Table 5
Scheduled Departing Seats at United Airlines Connecting Hubs
Ranked by FY 2024 Seats

Connecting hub	In millions						Compound annual growth rate FY'19-FY'24
	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024

Sources: Airline Data Inc, Schedules database, accessed March 2024.

United's seven U.S. connecting hubs (including SFO) account for more than 60% of its systemwide departing seats, annually, in FY 2019 through FY 2024. As shown in Table 5, United's Denver hub experienced the largest change in its share of systemwide seats, increasing from 9.3% in FY 2019 to 11.8% in FY 2024. While Denver's share hasn't changed materially since FY 2022, SFO's share of United's departing seats has increased, following a drop in FY 2021, reaching 7.6% in FY 2024, reflecting recent strong recovery in international service.

The Airport is United's largest Asian-Pacific gateway and accounted for 43.1% of United passengers (1.1 million passengers) connecting between the United States and Asian-Pacific countries in FY 2019. In FY 2023, the Airport's share of United's Asian-Pacific traffic increased to 57.8%, and the number of passengers connecting between the United States and Asian-Pacific countries was only 11% lower than in FY 2019, as international traffic recovered following the lifting of many travel restrictions in these countries (including to Japan and China, two of United's largest international markets at San Francisco, pre-pandemic). United offers more service between the United States and Asian-Pacific countries than any other airline.

International Gateway

According to Airports Council International, SFO was the 24th busiest airport in the world in 2022 in terms of total passengers, up from its ranking of 40th in 2021 but down from its ranking of 23rd in 2019 due to impact of the pandemic on passenger traffic, particularly international traffic. International gateway airports with large numbers of international passengers like SFO were disproportionately affected by the closure of country borders, quarantine requirements, and other restrictions on international air travel. As shown on Figure 4, SFO was the sixth busiest U.S. gateway airport in the United States during FY 2023, in terms of international revenue enplaned passengers, down from its fourth-place ranking in FY 2019.

International Regions Served. During FY 2023, SFO enplaned 6.1 million international revenue enplaned passengers, down from 7.2 million in FY 2019 due to the closure of country borders and restrictions on international travel related to the pandemic. In FY 2019, Asia and Europe accounted for 65% of SFO's international passengers, with the Caribbean, Mexico, and Central America accounting for an additional 11%. During FY 2023, the share of SFO's international passengers to Asia and Europe had decreased to 58%, while the share of passengers to the Caribbean, Mexico, and Central America had increased to 14% of SFO's international passengers, reflecting less restrictive travel policies by the countries in those regions and increased demand for leisure beach destinations.

Airports with higher than average shares of international passengers to the Caribbean, Mexico, and Central America in FY 2019 such as Charlotte, Dallas/Fort Worth, Fort Lauderdale, Houston Intercontinental, and Miami, have generally recovered international passenger traffic more quickly.

International passengers traveling from SFO to Asia, the largest international region served from SFO, were 84% of pre-pandemic levels during CY 2023 (as compared to CY 2019), despite uncertainty about the strength of China’s economy, geopolitical relations, and lagging China travel recovery. Total international passenger volumes at SFO were 93% of pre-pandemic levels during the same period.

West Coast Gateways. SFO is one of three West Coast gateways, in addition to Los Angeles (LAX) and Seattle (SEA) international airports, that play an important strategic role in U.S. airline networks by providing access to markets in Asia and the South Pacific and facilitating connections to domestic and other international destinations. In July 2024, SFO is scheduled to provide an average of 119 daily international departures, up from 116 in July 2019, as shown in Table 6.

Table 6
West Coast International Passenger Airline Service
July 2019 and July 2024
Ranked by July 2024 seats

All airports			430	421	95,536	92,687

Note: The airports listed serve many of the same destinations; therefore, the number of destinations served aren't additive.
Totals may not add due to rounding.

Source: Airline Data Inc, Schedules database, accessed March 2024.

SFO, LAX, and SEA serve as the primary West Coast gateways because of their geographical locations, passenger demand characteristics, international facility infrastructure, and established international routes.

- SFO is United’s primary West Coast gateway and complements its other connecting hubs and gateways. In July 2024, United is scheduled to account for 38% of international departing seats at SFO and provide service to 31 international destinations with an average of 45 daily international departures (compared with 39 in July 2019). International service is also provided from SFO by one other U.S. airline, Alaska, and by 43 foreign-flag airlines.
- Five U.S. airlines are scheduled to provide international service at LAX in July 2024, together accounting for 24% of international departing seats; 56 foreign-flag airlines also provide service, accounting for the remaining 76%.
- Two U.S. airlines are scheduled to provide international service at SEA in July 2024, together accounting for 40% of international departing seats; 22 foreign-flag airlines also provide service, accounting for the remaining 60%.

Limited international service is also provided at 9 West Coast airports in Fresno, Oakland, Ontario, Palm Springs, Portland, Sacramento, San Diego, San Jose, and Santa Ana. U.S. mainline, foreign-flag, and low-cost carrier (LCC)* service is provided from these 9 airports primarily to airports in Canada and Mexico. In July 2024, service is provided to Asia from Ontario and San Diego, to Europe from Portland, San Diego, and Oakland, and to Central America from Ontario and Oakland. Airline service at these 9 West Coast airports is focused primarily on point-to-point O&D travel and typically generates lower-than-average airline yields.

Primary Bay Area Airport

As described in section “Airline Service at Bay Area Airports”, SFO is the busiest airport in the Bay Area and Northern California in terms of outbound domestic O&D passengers, as shown on Figure 5. In FY 2023, SFO accounted for 58% of all Bay Area outbound domestic O&D passengers, compared to 57% in FY 2019, prior to the pandemic.

*As defined by the U.S. Department of Transportation, a “low-cost carrier” is an airline that operates under a generally recognized low-cost business model, which may include a single passenger class of service, use of standardized aircraft utilization, limited in-flight services, use of smaller and less expensive airports, and lower employee wages and benefits.

Figure 5
Origin-Destination Domestic Passenger Trends at Bay Area Airports

Notes: For Fiscal Years ended June 30.
O&D = Origin-Destination passengers

Source: U.S. Department of Transportation, *Air Passenger Origin-Destination Survey*, reconciled to Schedule T100, accessed March 2024.

Low-Cost Carrier Service

SFO’s LCC service is competitive with that provided at OAK and SJC, reflecting the introduction and development of LCC service at SFO by JetBlue, Southwest, and Virgin America since FY 2007. In 2018 Virgin America was rebranded as Alaska, following the merger of the two airlines. Southwest Airlines, the busiest U.S. LCC (in terms of numbers of passengers), provides service at all three Bay Area airports and connects SFO to its domestic network. Breeze, Frontier, JetBlue, and Sun Country also provide LCC service at SFO. SFO accounted for 24% of LCC passengers at Bay Area Airports in FY 2023, down slightly from its 2019 share of 25%, as shown on Figure 6. In addition to LCC domestic service, in July 2024, LCC international service is scheduled to be provided by five foreign-flag airlines at SFO, including Air Premia, Flair, French Bee, WestJet, and Zipair.*

* International Civil Aviation Organization (ICAO), List of Low-Cost-Carriers (LCCs), June 13, 2017. ICAO defines an LCC as “an air carrier that has a relatively low-cost structure in comparison with other comparable carriers and offers low fares and rates. Such an airline may be independent, the division or subsidiary of a major network airline or, in some instances, the ex-charter arm of an airline group.”

Figure 6
**Low-Cost Carrier Shares of Domestic Origin-Destination Passengers
at Bay Area Airports**

Notes: For Fiscal Years ended June 30.
O&D = Origin-Destination passengers
Includes the LCC activity of Allegiant, Breeze, Frontier, JetBlue, Southwest, Spirit, Sun Country, and Virgin America.
Data for Virgin America in FY 2018 are for July 2017 through April 2018 when it was rebranded as Alaska Airlines following their merger. The decrease in SFO’s share of LCC domestic O&D passengers in the Bay Area since FY 2018 reflects the classification of Virgin America’s activity as Alaska Airlines (which is not an LCC).

Source: U.S. Department of Transportation, *Air Passenger Origin-Destination Survey*, reconciled to Schedule T100, accessed March 2024.

Notwithstanding these trends in LCC service, industry analysts suggest that the distinction between major network airlines and traditional LCCs is less clear than it once was. As LCCs have increased service at airports in major metropolitan areas and have faced increased labor costs (e.g., unionized labor and maturing crews with increased pay), the cost base of traditional LCCs has trended upwards. At the same time, the network carriers have been striving to adopt some of the practices and operational efficiencies of LCCs to reduce their operating costs.

ECONOMIC BASIS FOR AIRLINE TRAFFIC

The economy of the San Francisco CSA is an important determinant of long-term passenger demand at the Airport. The development of the economic base of an airport service region is important to passenger traffic growth. This is particularly true where the industries in the region rely on the airport for passenger and cargo service. The San Francisco CSA, the fifth most populous in the United States, is a national and international travel destination as well as a center of business and trade in California and the nation.

The economic infrastructure and strengths of the San Francisco CSA are reflected in the diversity of its industries, including the high technology businesses in Silicon Valley and businesses in the energy, financial, healthcare, professional, education, and transportation sectors throughout the Bay Area.

The following sections present a discussion of the economic basis for airline traffic at the Airport, including:

- Primary metrics related directly to passenger traffic, including historical and projected population, employment, and per capita personal income of the San Francisco CSA
- Secondary factors providing descriptive information about the San Francisco CSA economy such as major employers, industry clusters, the housing market, and the visitor industry
- A summary of the economic outlook for the United States, California, and the San Francisco CSA

Population, Nonagricultural Employment, and Per Capita Personal Income

Table 7 presents comparative historical and projected trends in population, nonagricultural employment, and per capita personal income in the San Francisco CSA, the State of California (the State), and the United States in 2000, 2005, 2010, and from 2015 through 2023, where available. Also presented are projected growth rates between 2023 and 2030.

Population. As shown in Table 7, from 2010 through 2023, the population of the San Francisco CSA increased an average of 0.5% per year, faster than the State of California (an average increase of 0.4% per year) but slower than as the nation (an average increase of 0.6% per year). In 2023, the population of the San Francisco CSA decreased 0.1%, but at a slower rate than in 2021 and 2022 (decrease of 1.8% and 0.4%, respectively). In its May 2023 report, the Demographic Research Unit of the California Department of Finance noted that “Stable births, fewer deaths, and a rebound in foreign immigration slowed California’s recent population decline in 2022.”*

The California Department of Transportation (Caltrans) projects population in the San Francisco CSA to increase an average of 0.1% between 2023 and 2030, while the State population is forecast to decrease an average of 0.3% per year due to expected out-migration of residents to other states.** The U.S. Census Bureau forecasts the U.S. population to increase an average of 0.4% per year during this period.

* California Department of Finance, Demographic Research Unit, State’s Population Decline Slows While Housing Grows, May 1, 2023, www.dof.ca.gov.

** Caltrans manages six primary programs: Aeronautics, Highway Transportation, Mass Transportation, Transportation Planning, Administration, and the Equipment Service Center. Caltrans’ Transportation Economics Branch (formerly the Economic Analysis Branch) manages the California Economic Forecasts project.

Table 7

U.S. Department of Commerce, Bureau of Economic Analysis, www.bea.gov, accessed March 2024. Adjusted to constant 2023 dollars using the U.S. Department of Labor, Consumer Price Index for Urban Consumers (1982-84 = 100), www.bls.gov.

Projected: California Department of Transportation, *California County-Level Economic Forecast 2023-2050, The California Economic Forecast*, January 2024. U.S. Department of Commerce, Bureau of the Census, *2017 National Population Projections*, September 2018, www.census.gov. U.S. Department of Labor, Bureau of Labor Statistics, *Employment Projections: 2022-2032*, September 2023, www.bls.gov. IHS Markit as reported by Federal Aviation Administration, *FAA Aerospace Forecast, Fiscal Years 2023-2043*, June 2023, www.faa.gov.

Nonagricultural Employment. As shown in Table 7, nonagricultural employment in the San Francisco CSA increased an average of 2.1% per year between 2010 and 2023, faster than that for the State of California (an average increase of 1.8% per year), the nation (an average increase of 1.4% per year), and eight of the most populous metropolitan areas in the United States as shown in Table 8. In 2023, employment in the San Francisco CSA increased 2.1% year-over-year, the same as the State of California, but slightly slower than the nation (an increase of 2.3%). Caltrans projects nonagricultural employment in the San Francisco CSA to increase 1.1% per year, between 2023 and 2030, the same as the growth rate for the State, but faster than the growth rate for the nation forecast by the U.S. Department of Labor.

Gross Domestic Product. In 2022 (the most recent year available for CSAs), Gross Domestic Product (GDP) for the San Francisco CSA was \$1,318 billion (in 2022 dollars) and accounted for 36% of California GDP and 5% of U.S. GDP. When ranked among countries, the San Francisco CSA economy was the 11th largest in the world in terms of GDP. Of the most populous metropolitan areas in the United States as shown in Table 8, the San Francisco CSA ranked third behind New York and Los Angeles in terms of GDP.

Per Capita Personal Income. Per capita income (in constant dollars) in the San Francisco CSA increased an average of 3.5% between 2010 and 2022, faster than that for the other nine most populous metropolitan areas, the State of California (an average increase of 2.4% per year), and the nation (an average increase of 1.6% per year). In 2022 (the most recent year available), per capita income in the San Francisco CSA averaged \$112,402, 40% higher than California and 65% higher than the national average. Caltrans projects per capita personal income (in constant dollars) in the San Francisco CSA and the State to increase an average of 3.2% and 2.7% per year, respectively, between 2022 and 2030, faster than for the nation (an average increase of 1.4% per year).

Educational Attainment. The San Francisco CSA's higher-than-average per capita income reflects the higher-than-average levels of education attained by Bay Area residents. In 2022, 46.5% of the San Francisco CSA residents over the age of 25 had earned a Bachelor's degree or higher, greater than that for 8 of the other 10 most populous U.S. metropolitan areas, the State of California (37.0%), and the nation (35.7%), according to the U.S. Department of Commerce, Bureau of the Census.

Comparative Socioeconomic Trends. Table 8 presents comparative socioeconomic trends for the 10 most populous U.S. metropolitan areas in 2010, 2022, and 2023. The San Francisco CSA ranked first among the 10 CSAs in terms of:

- Per capita income—an average of \$112,402 in 2022, followed by the New York CSA with an average per capita income of \$87,358 in 2022, 22% lower than the San Francisco CSA.
- Per capita income growth—an average increase of 3.5% per year between 2010 and 2022, followed by the Los Angeles CSA with per capita income growth averaging 2.0% per year and an average per capita income 35% lower than the San Francisco CSA in 2022.

Table 8
Comparative Socioeconomic Trends for the 10 Most Populous U.S. Metropolitan Areas
Ranked by 2022 population

Combined Statistical Area	Population (thousands)			Total employment (thousands)			Per capita personal income (2023 dollars)			Percent of population with bachelor's degree or higher in 2022

State of California	37,320	39,041	0.4	14,283	18,065	1.8	60,279	80,207	2.4	37.0
United States	309,327	333,271	0.6	130,345	156,050	1.4	56,673	68,165	1.6	35.7

CSA = Combined Statistical Area

Sources: U.S. Department of Commerce, Bureau of the Census, www.census.gov, U.S. Department of Labor, Bureau of Labor Statistics, www.bls.gov, U.S. Department of Commerce, Bureau of Economic Analysis, www.bea.gov, accessed March 2024. Adjusted to constant 2023 dollars using the U.S. Department of Labor, Consumer Price Index for Urban Consumers (1982-84 = 100), www.bls.gov.

The San Francisco CSA ranked second among the 10 CSAs in terms of nonagricultural employment growth between 2010 and 2023—an average increase of 2.1% per year, lower than that for the Dallas-Fort Worth CSA (an average increase of 2.6% per year).

In addition to the metrics summarized in Table 8, the San Francisco CSA economy is supported by:

- The diversity of economic activity among the Bay Area’s major employers, including 12 listed on the Fortune 500 list of largest U.S. companies.
- The availability of venture capital funds for new and expanding businesses—In 2023, the Bay Area accounted for 22% of venture capital transactions and nearly 40% of venture capital transaction value (\$51.7 billion) in the United States.*
- The Bay Area receives more venture capital funding for artificial intelligence than other region in the nation, accounting for 55% of the United States. Artificial intelligence accounts for 25% of all venture capital funding.**
- A diverse visitor industry reflecting the popularity of the San Francisco CSA as a U.S. and overseas travel destination and a leading business and conference destination.

Nonagricultural Employment by Industry Sector. Figure 7 shows a comparative distribution of nonagricultural employment by industry sector for the San Francisco CSA in 2010 and 2023 as well as for the State and the nation in 2023.

Between 2010 and 2023, business and financial services, other services, and education and health services sectors in the San Francisco CSA experienced the strongest growth, increasing an average of 2.9%, 2.6%, and 2.5% per year, respectively, faster than the overall growth rate for all sectors (1.9%). The San Francisco CSA’s business and financial services sector (inclusive of technology) accounted for the largest share of employment in 2023 with 28.5%, more than the share for the State (23.3%) and the nation (22.5%). The share of government employment decreased between 2010 and 2023. The largest four sectors—business and financial services, education and health services, trade, and government—accounted for 72.7% of the San Francisco CSA’s nonagricultural employment in 2023.

Caltrans projects San Francisco CSA employment to increase in all sectors between 2023 and 2030, as shown on Figure 8. The leisure and hospitality sector is projected to have the fastest growth at 1.3% as the sector continues to recover from the pandemic and the economic recession. Education and health services and business and financial services are projected to be the next fastest growing sectors, with forecast growth of approximately 0.9% per year, followed by trade with forecast growth of 0.5% per year. Overall, employment is forecast to increase an average of 0.7%, per year between 2023 and 2030.

Unemployment Rates. In addition to the employment trends cited above, the unemployment rate is also indicative of the general economic climate. Figure 9 shows comparative monthly unemployment rates in the San Francisco CSA, the State, and the nation as a whole, and the ten most populous metropolitan areas in the country during 2023. Although the unemployment rate in the San Francisco CSA increased from 3.2% in 2022 to 3.9% in 2023, amidst widespread technology layoffs, it has generally followed trends in the nation. The San Francisco CSA had the fourth highest unemployment rate of the 10 most populous metropolitan areas.

In its April 2024 report, the San Francisco Federal Reserve Bank reported that since late February 2024, "Economic activity continued to grow at a slight pace, employment levels were little changed, and prices and wages rose slightly. Retail sales were unchanged, and demand for services grew modestly. Demand for manufactured products changed little, and conditions in agriculture were mixed. Real estate activity was slightly down. Financial sector conditions were largely unchanged."*

Bay Area Major Employers. Table 9 lists the top 20 private sector employers in the San Francisco Bay Area (based on the number of Bay Area employees). The table indicates a diversity of economic activity, as well as a strong presence of health care and high-technology employers. Many of the companies listed are involved in national and international operations that rely on airline travel. Of these 20 employers, 12 are listed on the Fortune 500 list of largest U.S. companies, ranked based on 2023 revenues.

While not shown in Table 9, the Bay Area contains a substantial amount of public sector employment, including the City and County of San Francisco (approximately 36,800 employees), the University of California campuses and medical centers (approximately 56,600 employees), and the State of California (approximately 15,200 employees).

Over the past year, major technology and biotechnology industry employers in the Bay Area, including Meta Platforms and Oracle, which are among the largest employers in the Bay Area, have announced staff layoffs to their global workforces in response to softening economic conditions around the world, including Meta Platforms and Oracle, which are among the largest employers in the Bay Area.

Table 9
Major Private Sector Employers in the San Francisco Bay Area

Company	Type of business	Employment
Kaiser Permanente	Health care	46,352
Alphabet (Google) <i>(a)</i>	Information technology	36,000

(a) Ranked in 2024 Fortune 500 list of largest U.S. companies (based on 2023 revenue).

Source: San Francisco Business Times, 2024 Bay Area Book of Lists; Silicon Valley Business Journal, 2024 Book of Lists; and 2023 East Bay Book of Lists. Fortune Magazine, Fortune 500 Companies, 2023, www.fortune.com.

Industry Clusters

The economy of the Bay Area is driven, in part, by companies that export goods and services nationally and globally, thereby generating new investment and job creation that will, in turn, help to spur air travel demand. The Bay Area is home to several “industry clusters,” which are a coalescence of companies in the same industry operating in the same region. Industry clusters draw competitive advantage from their proximity to customers, suppliers, competitors, and a skilled workforce, and from a shared base of sophisticated knowledge about a given industry.

The industries in the San Francisco Bay Area are diverse. In addition to the high technology businesses in Silicon Valley, the Bay Area economy is supported by businesses in the energy, financial, healthcare, professional, and transportation sectors. The San Francisco Center for Economic Development describes seven key industry clusters in the Bay Area, each of which is a substantial user of air travel:

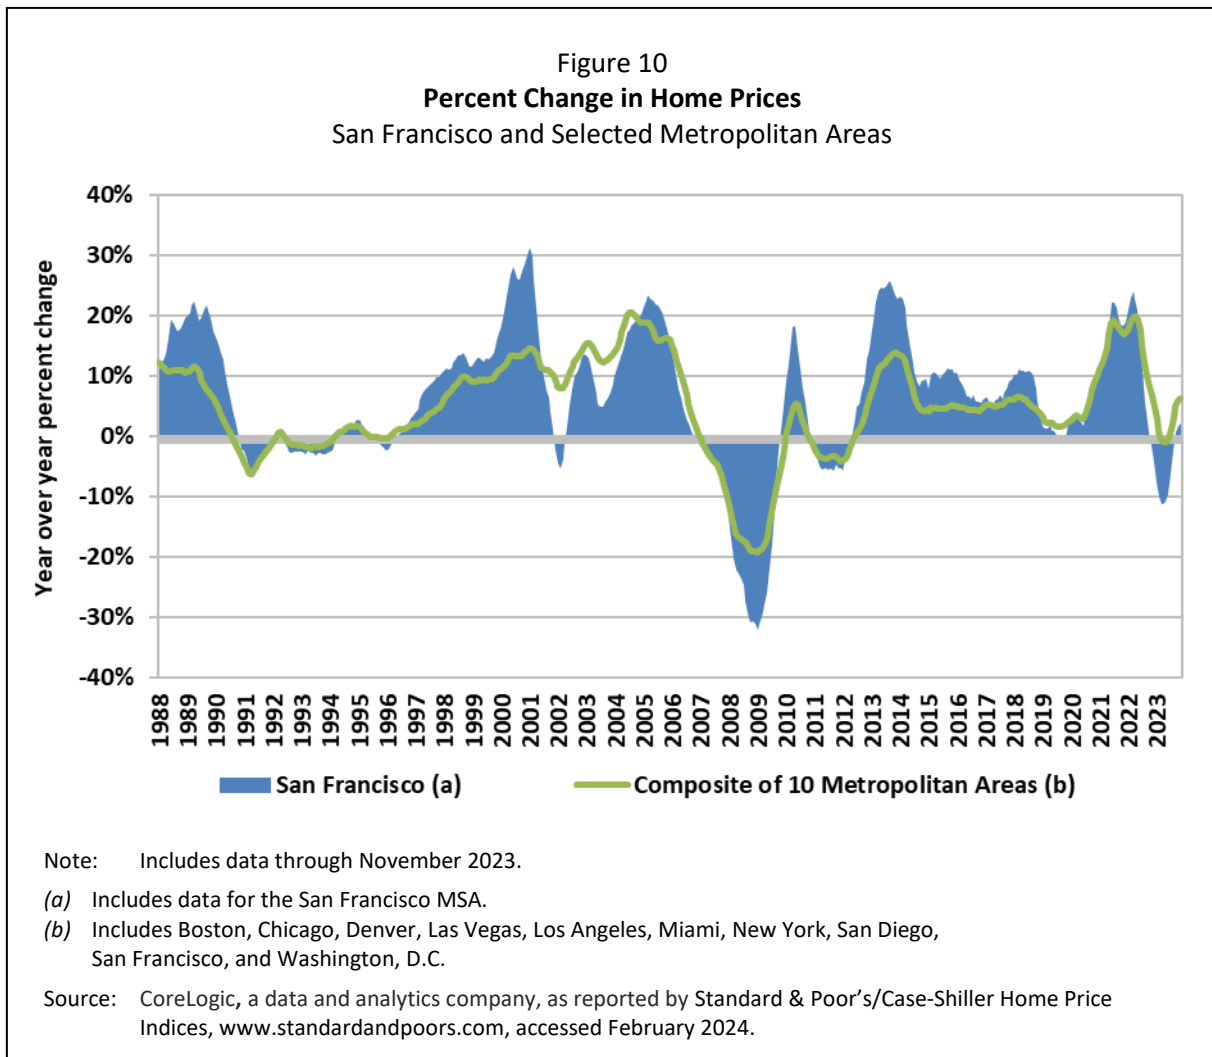

- **Information Technology and Software.** The Bay Area is home to more than 6,700 information technology (IT) and computer software companies (e.g., Cisco, Apple, Salesforce, and Oracle), together supporting a workforce of nearly 273,000.
- **Artificial Intelligence.** Artificial intelligence and machine learning are increasingly becoming a dominant part of the technology industry. According to Forbes annual AI50 list*, the Bay Area is home to 30 of the most promising, privately held 50 artificial intelligence companies in the nation, including OpenAI and Anthropic, for AI model development; Databricks, for data storage and forecasting; and Figure AI for autonomous humanoid robots.
- **Social and Digital Media.** Closely related to IT and software, the field of online social and digital media supports more than 300 companies with substantial employment in the Bay Area (e.g., Google, Facebook, LinkedIn, Twitter, and Pixar). San Francisco State University is considered an educational leader in the area of digital media as well.
- **Life Sciences and Biotechnology.** The Bay Area is a global leader in life sciences and biotech—home to nearly 1,400 companies (e.g., Applied Biosystems, Chiron Corporation, Genentech, and Gilead Sciences) employing a workforce of more than 90,000—supported by industry-leading programs at Stanford University and University of California campuses at Berkeley, Santa Cruz, and San Francisco, as well as numerous private research centers.
- **Environmental and “Clean” Technology.** The Bay Area is home to more than 635 clean technology companies (e.g., Amyris Biotechnologies, Clean Edge, and Tesla Motors)—one of the nation’s largest concentrations of environmental and clean technology companies. Moreover, the region is a leading adopter of clean and sustainable energy practices.

* Forbes, “The AI 50 2024”, April 11, 2024, www.forbes.com.

- **Professional Services.** The Bay Area is home to a myriad of companies falling under the umbrella of professional services: financial advisory, management consulting, legal services, and other specialized and high value-added businesses.
- **International Business.** Home to more than 80 consulates and foreign trade offices, large exporting and financial companies, and numerous foreign banking institutions (e.g., Barclays Bank of the United Kingdom, Hong Kong and Shanghai Banking Corporation (now HSBC), Sumitomo Bank of California, and Industrial and Commercial Bank of China), the Bay Area has substantial infrastructure supporting international business and trade.

Bay Area Housing Market

Trends in the housing market in a region generally follow economic cycles and are an indicator of overall economic activity and personal income levels. Figure 10 presents the percent change in home prices for San Francisco and composites for 10 selected metropolitan areas from January 1988 through November 2023, based on the Standard & Poor’s/Case-Shiller Home Price Index.*

Historically, San Francisco home prices have generally followed the trends for other major metropolitan areas, with somewhat larger peaks and valleys in certain years. During the 2008-2009 economic recession, housing prices in the Bay Area decreased more than 30%, reflecting the effects of the U.S. subprime mortgage crisis and the financial credit crisis. Since then, housing prices in the Bay Area have generally increased (notwithstanding decreases averaging about 4% in 2011) to reach all-time highs. In 2013 through 2022, growth in Bay Area home prices generally exceeded growth for the 10 Metropolitan Area Composite Index. During the first 11 months of 2023 (the most recent data available), growth in Bay Area home prices decreased 6.2% compared with the previous year in response to a doubling of interest rates, while home prices for the 10 selected metropolitan areas included in the composite index increased 1.9%. The San Francisco Federal Reserve Bank reported that during the first six weeks of 2024 “Residential real estate activity rose some-what, while that for commercial real estate was largely unchanged.”

Some reduction in Bay Area housing prices may be favorable in terms of making homes more attainable for those wishing to purchase them.

Visitor Industry

The visitor industry is an important driver of the San Francisco CSA economy and passenger traffic at the Airport. According to the San Francisco Travel Association, a total of 23.1 million people visited San Francisco in 2023, an increase of 5% from 21.9 million visitors in 2022.* The San Francisco Travel Association reported increases in hotel room occupancy and revenues in San Francisco of 3.2% and 10.6%, respectively, during 2023.

In 2024, the San Francisco Travel Association forecasts visitor volume to increase 2.6% to 23.7 million and visitor spending to increase 8.0% to \$9.5 billion and noted that “Visitor spending is expected to surpass 2019’s levels by 2025, while visitor volume is expected to reach 2019’s 26 million in 2026. The impact of San Francisco’s visitor economy is expected to be back in volume and spending by early 2027.”

In 2023, the Moscone Center held 34 events (compared with 33 in 2022 and five conventions in 2021) and 618,298 hotel room nights were occupied by convention attendees. In 2024, the Moscone Center is scheduled to hold 25 events accounting for 480,000 hotel room nights, the San Francisco Travel Association noted that events would be lower in 2024 than in past years and stated “The diminished impact of meetings and conventions is the direct impact of being unable to sell Moscone Center for two years during the pandemic... San Francisco’s ethos of innovation continues to be a strong magnet for business and technology meetings, with events such as the Game Developers Conference, RSA Conference, Dreamforce, and Data + AI Summit taking place at Moscone Center this year.”

Remote Work and Business Travel

The emergence of remote work during the pandemic has led to the formation of hybrid work models that combine remote work days and days in the office. According to Gallup, a global research and consulting firm, hybrid work (defined as 10% to 100% remote) showed little change over the past year, accounting for 52% of the U.S. labor force in November 2023, compared to 53% in November 2022, and is expected to increase to 60% by the beginning of 2025.*** The Bay Area’s concentration

* The San Francisco Travel Association, San Francisco Travel Association Announces 2023 Visitor Impact Results and 2024 Forecast, March 28, 2024, www.sftravel.com.

*** Gallup, Indicators: Hybrid Work, accessed April 2024, www.gallup.com.

of businesses in technology and finance sectors where employees can easily work from any location has sustained levels of remote work. Office occupancy rates in the San Francisco and San Jose metro areas averaged 46% and 44%, respectively, in March 2024 and were among the lowest for major metro areas (Austin and Dallas ranked first and second with 62% and 58%, respectively).****

The flexibility of hybrid or remote work has also contributed to changes in business travel, i.e., the emerging trend of combining business and leisure travel, referred to as blended or “bleisure” travel. In its January 2024 Business Travel Outlook Poll, the Global Business Travel Association (GBTA) noted that “The global business travel industry has put the pandemic behind it and is riding a wave of momentum at the start of 2024. A majority of travel buyers report increases in bookings and spending for 2023 and expect this year-over-year growth trend to continue as they also prioritize sustainable travel in their organizations. Nearly 60% of travel buyers expect more travel in the coming year, with two-thirds anticipating increases in business travel spending. Industry professionals also expect challenges ahead, however, citing rising travel costs, overall economic uncertainties, lagging corporate budgets and travel disruptions among their top concerns.”****

Economic Outlook

The economic outlook for the United States and the San Francisco CSA forms a basis for anticipated growth in airline traffic at the Airport. Economic activity in the San Francisco CSA is directly linked to the production of goods and services in the United States and the world. Both airline travel and the movement of cargo through the Airport depend on the economic linkages between and among the regional, national, and global economies. The economic and other assumptions underlying the forecasts of enplaned passengers are based on a review of global, national, and regional economic outlooks as well as an analysis of historical socioeconomic trends and airline traffic trends.

The COVID-19 pandemic that began in February 2020 disrupted historical trends in economic and passenger traffic growth. Economic growth, measured in terms of U.S. real GDP (adjusted for inflation), decreased 2.8% in 2020, compared with a 60.6% decrease in U.S. passenger traffic. In 2021, economic and U.S. passenger traffic growth rebounded with increases of 5.9% and 77.7%, respectively. In 2022, U.S. real GDP and U.S. passenger traffic increased 1.9% and 0.6%, respectively. During 2023, U.S. real GDP increased 3.1%, compared with an increase of 10.3% in U.S. passenger traffic. The Congressional Budget Office forecasts real GDP growth of 1.8% in 2024, 2.0% in 2025, and an average of 2.1% per year through 2030.

Passenger traffic at the Airport during the first 6 months of 2024 increased 13.3% compared with the same period in 2023, reflecting more robust conditions in the overall Bay Area job market and increased business and leisure visitor activity. During July 2023 through December 2023, San Francisco CSA total nonagricultural employment increased 1.5% (an increase of 438,700 jobs) compared with the same period of 2022.

HISTORICAL AIRLINE TRAFFIC AND SERVICE

Airlines serving the Airport, enplaned passenger trends, airline shares of passengers, origin-destination markets, airline service at the Airport, and airline fares and yields are discussed in this section.

Airlines Serving the Airport

As of July 2024, 12 U.S. passenger airlines are scheduled to provide service at the Airport, including 5 network airlines, 2 regional airlines, and 5 low-cost carriers, as shown in Table 10. International passenger service is provided by 46 foreign-flag airlines (including Jazz Aviation and Level, which operate under their respective parent companies Air Canada and Iberia), including airlines from Asia (17), Europe (15), Canada (6), the South Pacific (3), Latin America and the Caribbean (2), the Middle East (2), and Mexico (1). In addition, 6 airlines provided all-cargo service as discussed in the section “Cargo”.

Table 11 presents a summary of the trends in average daily scheduled passenger airline departures at SFO before (July 2019) and after (July 2024) the start of the pandemic. July was used for comparison because it is the peak travel month at the Airport.

Due to the restrictions on international travel, many of which have since been relaxed or lifted completely (in October 2022, Japan lifted travel restrictions and in January 2023, China reopened its borders and lifted travel restrictions), SFO has experienced changes in international service, particularly by foreign-flag airlines. Between July 2019 and July 2024, international service at SFO has been discontinued by 10 airlines, including 6 European, 1 Asian, 2 Middle Eastern, and 1 Central American. Five of the 10 airlines—Air Italy, Interjet, Norwegian Air,* Thomas Cook, and XL Airways—ceased operations after filing for bankruptcy or financial restructuring. Several other airlines that also discontinued service during the pandemic, have since resumed service. Between July 2019 and July 2024, 1 new airline will have initiated domestic service at SFO and 9 new airlines will have initiated international service at SFO, including 2 European, 3 Canadian, 3 Asian, and 1 Middle Eastern. The number of average daily scheduled international departures will increase from 116 in July 2019 (before the pandemic) to 119 in July 2024, as shown in Table 11.

* Operated as Norwegian Air UK and Norwegian Long Haul (a division of Norwegian Air Shuttle) which provided long-haul service between Europe, Asia, and the United States with an all-Boeing 787 fleet.

Since August 2023, the U.S. DOT and the Chinese government have gradually increased the number of weekly flights permitted between the two countries, bringing the total from 24 weekly flights as of July 2023 to 68 as scheduled for July 2024 (compared to 370 weekly flights in July 2019, prior to the pandemic). Since July 2023, United, has increased its San Francisco-China frequency from 4 weekly flights to 14 weekly flights, and Air China, China Eastern, and China Southern airlines have resumed some of the service that had been suspended during the pandemic. Between January 2024 and July 2024, total departing seats from SFO to China are scheduled to account for 10.1% of total seats between SFO and Asia, compared to 22.3% for the same period of 2019, and up from 2.5% in 2023. Prior to the onset of the pandemic, Air China, China Eastern, China Southern, and United all provided service between SFO and China, offering an average of 53 weekly flights in July 2019, compared to an average of 20 weekly flights as scheduled for July 2024.

Table 10
Passenger Airlines Providing Scheduled Service at SFO
As of July 2024

U.S. airlines		
Network airlines	Regional airlines (a)	Low-cost carriers
Alaska	Horizon (AS)	Breeze
American	SkyWest (AA, AS, DL, UA)	Frontier
Delta		JetBlue

Enplaned Passenger Trends

Between FY 2019 and FY 2020, total scheduled departing seats at SFO decreased 21%, compared with a 15% decrease at U.S. airports overall, reflecting the impact of the first 4 months of the pandemic. Between FY 2020 and FY 2021, total scheduled departing seats at SFO decreased 55%, compared with a 28% decrease at U.S. airports overall. In FY 2022 and FY 2023, total scheduled departing seats at SFO increased 80% and 26%, respectively, year-over-year, compared with 48% and 10% increases at U.S. airports overall, respectively. During the first 9 months of FY 2024 (July 2023 through March 2024), total departing seats are scheduled to increase 5% at SFO, compared to an increase of 8% at U.S. airports overall.

Table 12 presents historical trends in enplaned passengers at the Airport from FY 2005 through FY 2023. The number of enplaned passengers increased an average of 4.1% annually between FY 2005 and FY 2019, with stronger growth between FY 2010 and FY 2019 (an average increase of 4.6% per year). In comparison, total enplaned passengers at U.S. airports increased an average of 1.9% annually between FY 2005 and FY 2019 and an average increase of 3.3% per year between FY 2010 and FY 2019. International passenger traffic at the Airport increased an average of 4.5% per year between FY 2005 and FY 2019, compared with an average increase of 4.0% per year in domestic passengers.

Passenger traffic decreased 29.4% in FY 2020 and 65.7% in FY 2021 due to the COVID-19 pandemic and the governmental actions to slow the spread of the virus, which contributed to a recession in the global economy and widespread job losses. In FY 2022 and FY 2023, passenger traffic increased 151.2% and 34.6%, year-over-year, respectively, as restrictions lifted and travel resumed. Domestic traffic initially recovered more quickly than international traffic due to international travel restrictions, including country border closures and COVID-19 testing requirements, many of which were lifted in fall 2021. However, international traffic has recovered more quickly at SFO since then, and in FY 2023, was 85.3% of 2019 levels, while domestic traffic was 80.6%.

During the first 9 months of FY 2024 (July 2023 through March 2024) enplaned passengers at SFO increased 11.8%, as compared to the same period of FY 2023. International enplanements increased 24.2% while domestic enplanements increased 7.5%. International enplanements exceeded pre-pandemic levels, reaching 102.8% of FY 2019 levels, while domestic enplanements were 85.2% of FY 2019 levels.

O&D passenger shares, which decreased slightly between FY 2019 and 2021, increased in FY 2022, accounting for 82.7% of total (revenue and non-revenue) enplaned passengers at the Airport, while connecting passengers accounted for the remainder. This shift was due to quicker recovery in domestic passengers, as previously mentioned, particularly in domestic O&D passengers. In FY 2023 the O&D share decreased to 81.8%, with connections accounting for the remaining 18.2%. Gateway connections (those to or from international flights) increased substantially during this period and exceeded pre-pandemic levels, following the lifting of international travel restrictions.

As shown on Figure 11, the distribution of passenger traffic at the Airport has changed since FY 2005, following the introduction of service by Southwest, Virgin America, and JetBlue in 2007 and the merger of Alaska and Virgin America in 2016.

Notes: For Fiscal Years ended June 30

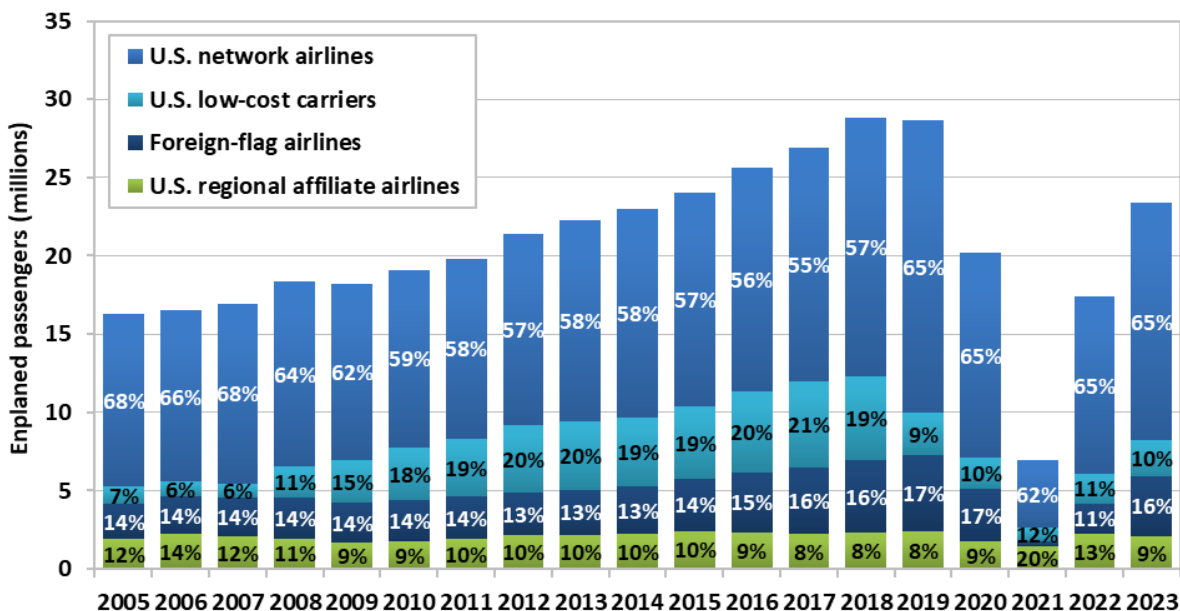

O&D = Origin-destination. n.a. = not available.

Data include revenue and non-revenue passengers.

The percent of O&D passengers in FY 2023 (81.8%) includes revenue and non-revenue passengers and differs from the estimate in Figure 3 (81%) which is based on revenue enplaned passengers only.

Sources: San Francisco Airport Commission records and U.S. DOT, *Air Passenger Origin-Destination Survey*, reconciled to Schedule T100, accessed March 2024.

Figure 11
Historical Enplaned Passengers
 San Francisco International Airport

Note: For Fiscal Years ended June 30.

From FY 2005 through FY 2023, U.S. LCCs include AirTran, Allegiant, ATA, Breeze, Frontier, Independence Air, JetBlue, Southwest, Spirit, Sun Country, and Virgin America. On April 25, 2018, Virgin America moved to a single reservations system and rebranded as Alaska Airlines and is no longer classified as an LCC. Data for Virgin America in FY 2018 are for July 2017 through April 2018.

U.S. airlines includes network, low-cost, and regional affiliate airlines that are U.S. domiciled.

Source: San Francisco Airport Commission records.

U.S. LCC’s share of total enplaned passengers at SFO increased from 7% in FY 2005 to a high of 21% in FY 2017 with the development of LCC service and decreased to 9% in FY 2019 following the merger and rebranding of Virgin America as Alaska Airlines.* Over that same period, U.S. network airlines’ passenger shares at SFO decreased from 68% in FY 2005 to a low of 55% in FY 2017 and then increased to 65% in FY 2019. The share of enplaned passengers on U.S. regional affiliate airlines at SFO has gradually decreased from 12% in FY 2005 to 8% in FY 2019. Foreign-flag airlines’ share at SFO increased to 17% in FY 2019, up from 14% in 2005. Shares in FY 2020 remained relatively unchanged from FY 2019 shares, however in FY 2021 and FY 2022 shares shifted due to COVID-19 and international travel restrictions. In FY 2023 and the first 9 months of FY 2024 (July 2023 through March 2024), enplaned passengers shares at SFO had generally returned close to pre-pandemic levels.

*Data for U.S. LCC passengers includes data for Virgin America through April 2018.

Enplaned Passenger Market Shares

Compared with other U.S. large-hub airports, the Airport has only a moderate degree of airline concentration. As shown on Figure 12 and in Table 13, United and United Express together accounted for the largest share of enplaned passengers at SFO in FY 2023, with 46.7%, less than the hubbing airline share at other selected U.S. large-hub airports with one hubbing airline such as American at Charlotte (87%) and Dallas-Fort Worth (81%) and Delta at Atlanta (76%).

(e) Southwest and AirTran merged in February 2013. Includes AirTran in 2010.

Source: San Francisco Airport Commission records.

United’s share of total enplaned passengers at the Airport was 46.7% in FY 2023, compared to 44.0% in FY 2010 and 45.7% in FY 2019 (where the FY 2010 figure includes Continental and its regional affiliates). In FY 2023, Alaska ranked second with 12.3% of the total, followed by Delta with 7.9%, and American with 6.3%. In FY 2023 and the first 9 months of FY 2024 (July 2023 through March 2024), airline shares were largely consistent with pre-pandemic levels.

In FY 2023 United and United Express together accounted for 50.5% of all domestic enplaned passengers at the Airport (nearly the same as in FY 2019). Alaska and Delta ranked second and third, respectively, with 15.9% (15.3% in FY 2019) and 10.8% (10.4% in FY 2019). Southwest and JetBlue accounted for a combined 9.9% of all domestic enplaned passengers at the Airport during FY 2023 (11.5% in FY 2019).

United also enplaned the most passengers on international flights at the Airport during FY 2023, with 36.3% of the total (compared to 31.7% in FY 2019). Air Canada ranked second in terms of international enplaned passengers in FY 2023, with 8.3% (up from 7.8% in FY 2019).

Destinations Served at SFO

In July 2024, there were a total of 80 domestic destination airports served at SFO (compared to 82 in July 2019, pre-pandemic) and 50 international destination airports (compared to 52 in July 2019), as shown in Figure 13. In July 2024, a total of 130 destination airports were served from SFO, down from 134 in July 2019.

Domestic Origin-Destination Markets: In CY 2023 the top 20 domestic passenger markets accounted for 74.2% of domestic O&D passengers at the Airport, as shown in Table 14. New York and Los Angeles were the top two destination markets for O&D passengers at the Airport, accounting for 11.8% and 11.4%, respectively, of domestic O&D passengers at the Airport in CY 2023. Other major destinations included Chicago, Boston, and Washington D.C. In July 2024, each of the top 20 domestic destinations were served nonstop from the Airport by two or more airlines, with service provided by three or more airlines to 17 of the top 20 markets, as shown in Table 14. Having a large number of markets with service from multiple airlines helps keep airfares competitive.

International Origin-Destination Markets: In CY 2023, the top 20 international passenger markets at SFO in terms of international O&D passenger bookings* accounted for 49.1% of the total international O&D passenger bookings, as shown in Table 15. Passenger bookings included data for U.S. and foreign-flag airlines and are used as a proxy for international passengers due to the reporting limitations of U.S. DOT O&D passenger data. London, England was the largest international O&D market with 5.8% of international O&D passenger bookings. The next four largest international O&D markets accounted for 12.3% of bookings (compared to 12.4% in CY 2019): Vancouver, Canada (3.5%), Tokyo, Japan (3.1%); Manila, Philippines (2.9%); and Taipei, Taiwan (2.9%). In FY 2019, the top 20 international passenger markets at SFO in terms of international O&D passenger bookings accounted for 50.2% of the total international O&D passenger bookings. London, England, was the largest O&D market with 5.5% of international O&D passenger bookings, followed by Hong Kong, China (3.7%); Taipei, Taiwan (3.3%); Vancouver, Canada (3.3%); and Toronto, Canada (3.1%). All of the top 20 international destinations were served nonstop from the Airport in July 2024, with service provided by two or more airlines to 17 of the top 20 markets, as shown in Table 15.

*As defined by the International Air Transport Association (IATA), a passenger airline “booking,” equivalent to the term “reservation,” means the allotment in advance of seating accommodation for a passenger. IATA, Passenger Glossary of Terms, www.iata.org.

Airline Airfares

Table 16 provides a comparison of average domestic one-way airfares paid at the Airport in CY 2023 with the airfares at OAK and SJC.* Average airfares tend to be higher at SFO than at OAK and SJC airports due to longer trips and a larger share of premium fares. In short- and medium-haul markets, SFO airfares tend to be more competitive, except for markets such as Dallas/Fort Worth, Denver, Phoenix, and Las Vegas where Southwest Airlines accounts for a large number of discount seats at OAK and SJC. As shown previously in Table 15, all of the top 20 domestic O&D markets at SFO are served by 2 airlines or more, ensuring competitive airline service and airfares.

SFO accounted for three-quarters or more of domestic O&D passengers at the three Bay Area airports in eight of its nine long-haul markets (1,500 miles or more) in CY 2023, reflecting its role in providing service for longer domestic trips in the San Francisco CSA, as shown in Table 16. In comparison, SFO accounted for considerable but smaller shares of domestic O&D passengers in medium- and short-haul markets in CY 2023, with 45% to 65% of medium-haul domestic passengers (SFO accounted for 86% at Minneapolis-St. Paul Airport, an outlier as compared with the rest of the medium-haul airport group) and 34% to 42% of short-haul passengers.

As shown in Table 16, SFO accounted for 97.4% of first and business class domestic fare revenue at the three primary airports in the San Francisco CSA in CY 2023, an increase from 89.9% in FY 2019. OAK and SJC accounted for 0.5% and 2.1%, respectively, in CY 2023. SFO's share of first and business class domestic fare revenue increased in nearly all of the largest 20 markets, indicating that premium passengers (i.e., those paying the highest fares) are recovering more quickly at SFO than at OAK or SJC. SFO accounted for more than 90% of first and business class domestic fare revenue in eight of the busiest nine long-haul markets and more than 70% in the remaining one.

Premium Class Fare Revenue

U.S. airports with large numbers of business travelers are typically characterized by large shares of premium class revenue which includes first class, business class, and premium economy cabins. SFO ranked second in CY 2023 among large-hub U.S. airports in terms of the percent of total domestic revenues (excluding ancillary fees) accounted for by premium class fare revenue, as shown on Figure 14. In CY 2023, premium fare class revenue accounted for 39% of total domestic fare revenue at SFO, up from 35% in FY 2019. The share of premium class fare revenue at large-hub U.S. airports averaged 23% in CY 2023. In contrast, premium class revenue at OAK and SJC accounted for 8% and 11%, respectively, of total domestic fare revenue in CY 2023 at each airport. The ability of an airport service region to support a large share of premium class fare passengers is attractive to airlines and supports the continued development of airline service.

*The fares that airlines report to the U.S. DOT are exclusive of many ancillary charges (fees for checked baggage and preferred aircraft seating, for example) and, given the rapid rise in such fees beginning in 2008, increasingly understate the consumer's real cost of airline travel.

Table 16
Comparison of Airfares in SFO's Top Domestic Origin-Destination Markets in CY 2023
Bay Area Airports

Rank	Market	Length of haul	SFO percent of domestic O&D passengers for three Bay Area airports	Average one-way domestic airfare paid			SFO percent of first/business class fare revenue for three Bay Area airports

Bay Area-Los Angeles Area Corridor

Airline service in the Bay Area-Los Angeles Area Corridor (the “Corridor” linking the three Bay Area airports with the five Los Angeles area airports) is highly competitive. In July 2024, the nine airlines providing scheduled service in the Corridor (according to published flight schedules)* operated an average of 133 daily nonstop departures, the equivalent of approximately six departures per hour during a 24-hour period, including two flights per hour from SFO; in July 2019, an average of 187 nonstop departures were operating in the Corridor. Two of the nine airlines—Delta and Southwest—provide service at each of the three Bay Area airports. Southwest is the only airline to provide service at each of the five Los Angeles Area airports. As shown in Table 16, SFO accounted for 41.8% of the O&D passengers in the Corridor in CY 2023. In comparison, Oakland and SJC accounted for 30.2% and 27.9%, respectively, of O&D passengers in the Corridor in CY 2023. The highly competitive nature of airline service in the Corridor results in competitive airfares and airline service options that are not dominated by a single airline or airport.

Airline Service

In July 2024, SFO is scheduled to provide a total of 518 scheduled daily nonstop departures, including 399 domestic departures and 119 international departures (compared to 518 domestic and 116 international departures in July 2019). SFO provides nonstop international service to seven international regions—Asia, Canada, Europe, Latin America/the Caribbean, Mexico, the Middle East, and the South Pacific.

*Alaska, American, Delta, Frontier, JetBlue, JSX, Southwest, Spirit, and United.

From FY 2007 through FY 2019, scheduled departing seats at the Airport increased an average of 3.9% per year, compared with an average increase of 0.8% per year for all U.S. airports during this period. Strong growth in seats at the Airport in recent years (prior to the pandemic) reflects, in part, the buildup of low-cost carrier service, including JetBlue, Southwest/AirTran, and Virgin America.

In FY 2020 and FY 2021, domestic seats decreased 19.8% and 50.6%, respectively, while international seats decreased 24.2% and 68.5%, respectively, due to the COVID-19 pandemic. Overall, scheduled departing seats decreased 20.9% in FY 2020 and 55.1% in FY 2021. In FY 2022 and FY 2023, domestic seats increased 72.0% and 16.8%, respectively, year-over-year, while international seats increased 119.7% and 61.1%, respectively, and total seats increased 80.3% and 26.2%, respectively.

In FY 2024, domestic seats are scheduled to show little net change, while international seats are scheduled to increase 15.5%, and total seats are scheduled to increase 4.4%, compared to FY 2023.

Cargo

Since 2000, the cargo industry nationwide and at SFO has experienced significant changes related to a number of factors, including air cargo security regulations by the FAA and Transportation Security Administration (TSA), consolidation in the air cargo industry, an increasing trend in the volume of cargo transported by truck, the national and global economic recessions, and the COVID-19 pandemic.

Between FY 2000 and FY 2010, total air cargo tonnage at SFO decreased an average of 6.8% per year, including an average decrease of 9.6% and 4.5% per year, respectively, in domestic and international air cargo. As shown in Table 17, total air cargo tonnage at SFO increased an average of 0.4% per year between FY 2010 and FY 2023, with considerable year-to-year variation.

Total air cargo tonnage at SFO decreased 13.2% in FY 2020 and 3.7% in FY 2021, due to a reduction in available belly cargo capacity as passenger airline service was discontinued during the COVID-19 pandemic and the large share of air cargo handled by passenger airlines (76.2% in FY 2019). In FY 2022, total air cargo tonnage at SFO increased 15.6% from FY 2021. However, in FY 2023, total air cargo tonnage at SFO decreased 16.7%, mainly due to declines in shipments. By comparison, air cargo revenue ton-miles for the U.S. overall decreased 5.2%, year-over-year, in FY 2020, and increased 13.3% and 6.0% in FY 2021 and FY 2022, respectively. In FY 2023 and the first 7 months of FY 2024 (July 2023 through January 2024, the most recent data available), air cargo revenue ton-miles for the U.S. decreased 10.0% and 1.7%, respectively, year-over-year.

In FY 2023, tonnage carried on all-cargo aircraft at the Airport decreased 1.8% from FY 2022 volumes, while tonnage carried by passenger aircraft increased 1.3%. As a result, in FY 2023 passenger airlines accounted for 71.5% of total air cargo at the Airport (down from 76.2% in FY 2019) and cargo airlines accounted for the remaining 28.5% (up from 23.8% in FY 2019).

Table 17
Trends in Air Cargo

Notes: For Fiscal Years ended June 30. Sum of enplaned and deplaned freight and mail.

CAGR = Compound annual growth rate

All-cargo airlines serving SFO in FY 2023 include 21 Air, ABX Air, Air Transport International, Atlas Air, FedEx, and Kalitta Air. In addition, cargo service was provided by the subsidiaries of four passenger airlines (Asiana, China, Korean, and Sun Country).

Source: San Francisco Airport Commission records.

Domestic air cargo accounted for 40.3% of total air cargo in FY 2023. Of this total, passenger airlines handled 48% of domestic cargo volumes and cargo airlines handled the remainder. International air cargo accounted for 59.7% of total air cargo in FY 2023. Passenger airlines carried 88% of international air cargo and cargo airlines handled the remainder. Two world regions—Asia and the South Pacific and Europe—accounted for 57% of total air cargo in FY 2023.

In the first 9 months of FY 2024 (July 2023 through March 2024), total air cargo tonnage at SFO increased 13.7%, due largely to an increase in cargo handled by international passenger airlines.

SFO accounted for 57.0% of air cargo tonnage at the three Bay Area airports in the first six months of FY 2024. Oakland International Airport, a regional hub for Federal Express, handled 39.7%, while Mineta San Jose handled 3.3%.*

*Totals may not add to 100% due to rounding.

KEY FACTORS AFFECTING FUTURE AIRLINE TRAFFIC

In addition to the demographics and economy of the San Francisco Bay Area, as discussed earlier, key factors that will affect future airline traffic at the Airport in the long term include:

- National economic conditions
- International economic and geopolitical conditions
- Financial health of the airline industry
- Airline consolidation
- Airline service and routes at the Airport and other regional airports
- Airline competition and airfares
- Availability and price of aviation fuel
- Aviation safety and security concerns
- Public health concerns
- Climate change concerns
- Capacity of the national air traffic control system, and
- Capacity of San Francisco International Airport

National Economic Conditions

Historically, airline passenger traffic nationwide has correlated closely with the state of the U.S. economy and levels of real disposable income. As illustrated in Figure 15, recessions in the U.S. economy in 2001, 2008-2009, and 2020, and associated high unemployment, reduced discretionary income and airline travel demand.

The 2020 economic recession brought about by the COVID-19 pandemic and the related government actions to slow the spread of the disease was short-lived but caused the largest ever decrease in real GDP (31.2% in the second quarter of 2020), with an associated sharp increase in unemployment. The second quarter decrease was followed by strong GDP growth in the third and fourth quarters, with GDP in the fourth quarter of 2020 at close to the pre-pandemic level. Economic growth continued in 2021 through 2023. GDP increased 5.9%, 1.9%, and 3.1% in 2021, 2022, and 2023, respectively.

Future increases in domestic passenger traffic at the Airport will depend on the continuation of national economic growth.

Figure 15
Historical Enplaned Passengers on U.S. Airlines

Note: Data shown are 12-month moving averages of monthly enplaned passengers on scheduled and non-scheduled service to domestic and international destinations. Shaded quarters indicate economic recession during all or part of a quarter.

Sources: Bureau of Transportation Statistics, T100 Market and Segment, www.rita.gov, accessed March 2024; National Bureau of Economic Research, U.S. Business Cycle Expansions and Contractions, www.nber.org.

International Economic and Geopolitical Conditions

International passenger traffic at U.S. airports is influenced by the globalization of business, international trade and tourism, international economics, trade balances, currency exchange rates, government policies, and geopolitical relationships. Concerns about hostilities, terrorist attacks, other perceived security risks, and associated travel restrictions also affect travel demand to and from particular international destinations from time to time.

Future increases in international passenger traffic at the Airport will partly depend on global economic growth, a stable and secure travel environment, and government policies that do not unreasonably restrict or deter travel.

Russia's invasion of Ukraine in February 2022 and the continuing war have caused widespread destruction, loss of life, and a refugee crisis in eastern Europe. The invasion prompted the United States, the European Union, and other nations to impose economic and financial sanctions that are causing economic disruption beyond Russia's and Ukraine's borders by increasing energy and commodity prices, worsening inflation, disrupting international commerce, and slowing economic growth.

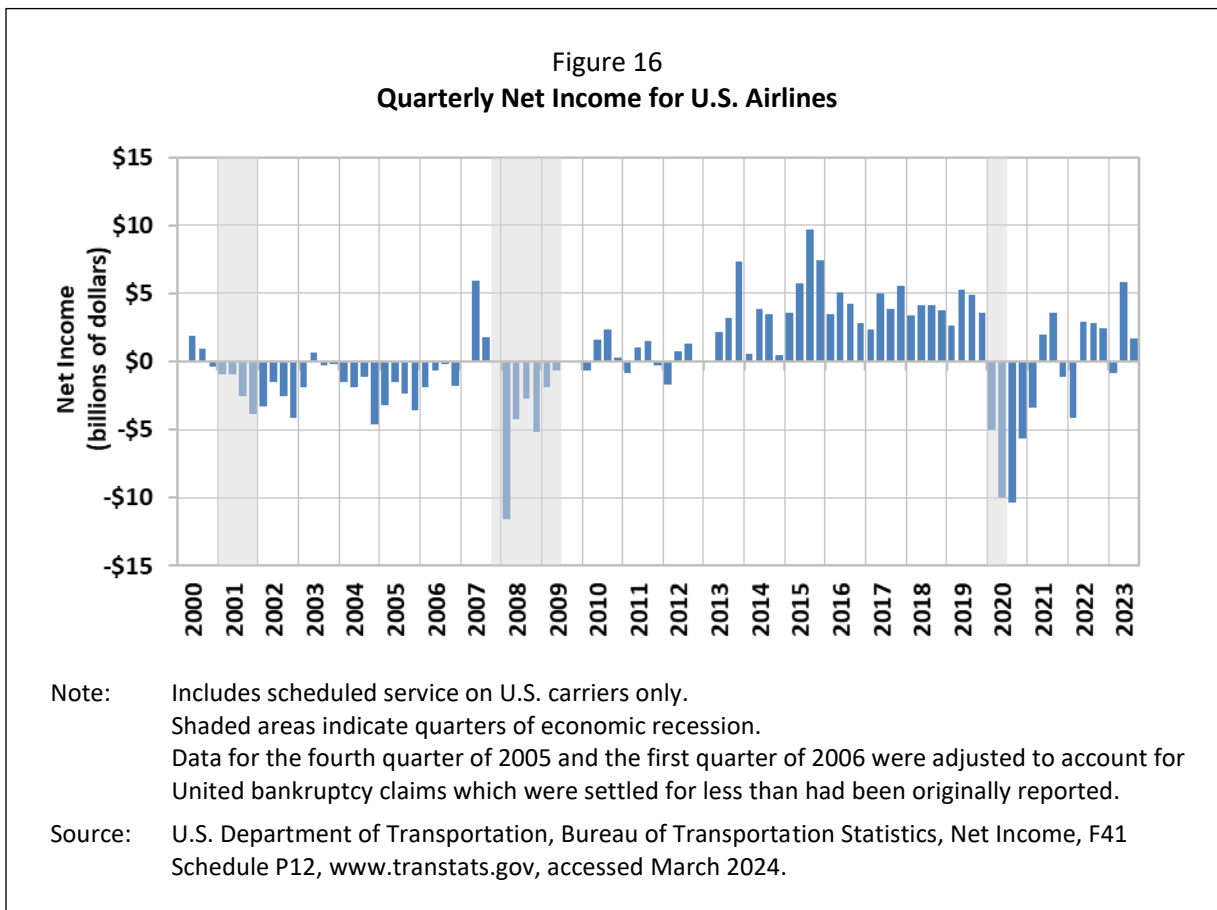

In October 2023, in response to attacks on Israel by Hamas from the Gaza Strip and the abduction of Israelis as hostages, Israel launched a bombardment and then a full-scale military invasion of the Gaza territory with the stated objective of destroying Hamas and freeing the hostages. While the

fighting has to date been largely been confined to Gaza, there are concerns that the conflict could spread and cause economic disruption throughout the region.

Financial Health of the Airline Industry

The number of passengers using the Airport will depend partly on the profitability of the U.S. airline industry and the associated ability of the industry and individual airlines to make the necessary investments to provide service. Figure 16 shows historical net income for U.S. airlines.

Largely as a result of the 2001 economic recession and the disruption of the airline industry that followed the September 2001 attacks, the industry experienced large financial losses between 2001 and 2006. During this period, Delta, Northwest, United, and US Airways all filed for bankruptcy protection and restructured their operations.

In 2007, the U.S. passenger airline industry was profitable, but in 2008, as oil and aviation fuel prices increased to unprecedented levels and the U.S. economy contracted, the industry again experienced large net losses. The industry responded by grounding less fuel-efficient aircraft, eliminating unprofitable routes and hubs, reducing seat capacity, and increasing airfares.

From 2010 to 2013, after recovery from the 2008-2009 recession, the U.S. passenger airline industry generally recorded positive net income, notwithstanding sustained high fuel prices, by controlling

capacity and nonfuel expenses, increasing airfares, achieving high load factors, and increasing ancillary revenues. American filed for bankruptcy protection in 2011.

From 2014 to 2019, the U.S. passenger airline industry reported a succession of profitable years as fuel prices were low, demand was strong, and control of capacity allowed fares and ancillary charges to remain high, even as agreements between the major airlines and their unionized employees resulted in increased labor costs.

Beginning in 2020, reductions in air travel demand caused by the COVID-19 pandemic resulted in unprecedented airline industry losses. These losses were partially mitigated by federal aid provided under the Coronavirus Aid, Relief, and Economic Security (CARES) Act enacted in March 2020; the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSA) enacted in December 2020; and the American Rescue Plan Act of 2021 (ARPA) enacted in March 2021.

In response to the pandemic-induced losses, airlines took various actions to reduce costs and maintain liquidity, including reducing staffing, accelerating the retirement of older aircraft, and deferring the acquisition of new aircraft.

As shown in Figure 16, the U.S. airline industry returned to profitability in the second quarter of 2022.

Sustained industry profitability will depend on, among other factors, economic growth to support airline travel demand, stable fuel prices, the ability of airlines to hire and retain enough qualified employees, particularly pilots and mechanics, and acquire enough fuel-efficient aircraft to support increased flight operations.

SFO is less susceptible to the potential impacts of an airline bankruptcy due to its relatively low degree of airline concentration compared with many other large U.S. hub airports and its large population and O&D passenger traffic base which would likely be served by other airlines at the Airport if an airline were to cease operations.

Airline Consolidation

Consolidation of the U.S. airline industry has resulted from the acquisition of Trans World by American (2001), the merger of US Airways and America West (2005), the merger of Delta and Northwest (2009), the merger of United and Continental (2010), the acquisition of AirTran by Southwest (2011), the merger of American and US Airways (2013), and the acquisition of Virgin America by Alaska (2016).

In October 2022, JetBlue and Spirit announced plans to merge, which would have created the nation's fifth largest airline by enplaned passengers with a market share of approximately 10%. In March 2024, JetBlue announced it was terminating its merger agreement with Spirit.

In December 2023, Alaska announced plans to acquire Hawaiian. The two airlines together account for approximately 5.7% of passengers enplaned on U.S. airlines and have only 12 overlapping routes systemwide. The merger has been approved by Hawaiian's stockholders but is still subject to regulatory approvals. In FY 2023, Alaska (the Airport's second largest airline in terms of passenger share) and Hawaiian accounted for 12.3% and 0.7%, respectively, of enplaned passengers at the Airport. Hawaiian provides daily nonstop service from the Airport to Honolulu and Maui (for a total

of 2 flights per day). By comparison, Alaska offers a total of 72 daily departing nonstop flights from SFO (as of March 2024) and provides twice daily nonstop service to Honolulu and daily nonstop service to Maui.

Airline industry consolidation has resulted in four airlines (American, Delta, Southwest, and United) and their regional affiliates now accounting for approximately 75% of overall domestic seat-mile capacity. Consolidation has contributed to recent airline industry profitability, but any resumption of financial losses could cause one or more U.S. airlines to seek bankruptcy protection or liquidate. The liquidation of any of the large network airlines could drastically affect airline service at certain connecting hub airports and change airline travel patterns nationwide. As a primarily O&D airport, it is expected that in the unlikely event any of the large network carriers are liquidated, the air service provided by such airline at SFO would eventually be replaced by another airline.

As discussed earlier, the Airport serves as a primary connecting hub and international gateway for United. As a result, much of the connecting passenger traffic at the Airport results from the route networks and flight schedules of United rather than the economy of the region. If United were to reduce connecting service at the Airport, such service would not necessarily be replaced by other airlines, although reductions in service by any airline would create business opportunities for others.

Airline Service and Routes at the Airport and Other Regional Airports

Most large airports serve as gateways to their communities and as connecting points. Historically, SFO, OAK, and SJC have drawn passengers primarily from the closest surrounding geographical area for short- and medium-haul service, while SFO has captured most of the demand for longer domestic trips and international service from the entire Bay Area, as discussed in the section “Airline Service at Bay Area Airports”.

The number of origin and destination passengers at an airport depends primarily on the intrinsic attractiveness of the region as a business and leisure destination, the propensity of its residents to travel, and the airline fares and service provided. The number of connecting passengers, on the other hand, depends entirely on the airline service provided at an airport and at other competing airports. In FY 2023, 81.8% of enplaned passengers at SFO were originating their journeys, with the remaining 18.2% connecting between flights.

The large network airlines have developed hub-and-spoke systems that allow them to offer high-frequency service to many destinations. Because most connecting passengers have a choice of airlines and intermediate airports, connecting traffic at an airport depends on the route networks and flight schedules of the airlines serving that airport and competing hub airports. Since 2003, as the U.S. airline industry has consolidated, airline service has been reduced at many former connecting hub airports, including those serving St. Louis (American 2003-2005), Dallas-Fort Worth (Delta 2005), Pittsburgh (US Airways 2006-2008), Las Vegas (US Airways 2007-2010), Cincinnati (Delta 2009-2011), Memphis (Delta 2011-2013), and Cleveland (United 2014). As mentioned earlier, SFO serves as a hub for United Airlines.

Airline Competition and Airfares

Airline fares have an important effect on passenger demand, particularly for short trips for which the automobile and other travel modes are potential alternatives, and for price-sensitive “discretionary” travel. The price elasticity of demand for airline travel increases in weak economic conditions when

the disposable income of potential airline travelers is reduced. Airfares are influenced by airline capacity and yield management; passenger demand; airline market presence; labor, fuel, and other airline operating costs; taxes, fees, and other charges assessed by governmental and airport agencies; and competitive factors. Future passenger numbers, both nationwide and at the Airport, will depend partly on the level of airfares.

Figure 17 shows the historical average domestic yield (airfare per passenger-mile) for U.S. airlines. After the 2008-2009 recession, the average yield increased through 2014 as airline travel demand strengthened, the airlines collectively reduced available seat capacity, and were able to sustain airfare increases. Between 2014 and 2016, the average yield was reduced as a result of airline competition, and, through 2019 was fairly stable. The average yield decreased in 2020 and 2021 as travel demand was depressed during the pandemic; then increased in 2022 and 2023 as demand rebounded and airline seat capacity was constrained.

Beginning in 2006, ancillary charges were introduced by most airlines for optional services such as checked baggage, preferred seating, in-flight meals, and entertainment, thereby increasing the effective price of airline travel more than yield figures indicate.

Availability and Price of Aviation Fuel

The price of aviation fuel is a critical and uncertain factor affecting airline operating economics. Figure 18 shows the historical fluctuation in fuel prices caused by the many factors influencing the global demand for and supply of oil.

Between 2011 and 2014, aviation fuel prices were relatively stable, partly because of increased oil supply from U.S. domestic production made possible by the hydraulic fracturing of oil-bearing shale deposits and other advances in extraction technologies. Beginning in mid-2014, an imbalance between worldwide supply and demand resulted in a precipitous decline in the price of oil and aviation fuel through the end of 2015. Fuel prices then increased, but the average price of aviation fuel at the end of 2019 was still approximately 30% below the price at mid-2014.

As the pandemic drastically reduced the demand for aviation fuel in early 2020, the price of aviation fuel fell sharply, before rebounding in 2021 as pandemic restrictions were eased, economies recovered, and demand exceeded supply. The economic disruption and sanctions resulting from the Russian invasion and war in Ukraine have exacerbated the worldwide imbalance of demand and supply and caused a spike in oil and aviation fuel prices, peaking in June 2022. Higher fuel prices have a negative effect on airline profitability as well as far-reaching implications for the global economy.

Aviation Safety and Security Concerns

Concerns about the safety of airline travel and the effectiveness of security precautions influence passenger travel behavior and airline travel demand.

Safety concerns in the aftermath of the September 2001 terrorist attacks were largely responsible for the steep decline in airline travel nationwide in 2002. Since 2001, government agencies, airlines, and airport operators have upgraded security measures to guard against changing threats and maintain confidence in the safety of airline travel. Measures have included strengthened aircraft cockpit doors, increased presence of armed federal air marshals, federalization of airport security functions under the Transportation Security Administration (TSA), more intensive screening of passengers and baggage, and deployment of improved screening technologies.

Following the fatal crashes of B-737 MAX aircraft caused by the malfunction of the aircraft's automated flight control system, all B-737 MAX aircraft were grounded in March 2019. Among North American airlines, Air Canada, American, Southwest, United, and WestJet were affected. In November 2020, following the approval of modifications to the flight control system software and pilot training, the FAA rescinded its order grounding the aircraft, allowing it to be reintroduced into service.

During the pandemic, anxieties about the safety of flying and the inconveniences and delays associated with testing, mask mandates, and vaccination requirements, led to both the avoidance of travel and the switching from air to surface modes of transportation for short trips. Quarantine requirements and other restrictions created additional impediments for international travelers. Such impediments have now largely been removed.

In January 2024, B 737 MAX 9 aircraft were temporarily grounded following an incident where a panel in an aircraft fuselage blew out in flight. An investigation found that bolts meant to hold the panel in place had not been installed. Following inspections, the aircraft type was returned to service. As a result of the incident, the FAA announced increased oversight of Boeing's manufacturing processes and stated that it will not permit the company to increase aircraft production rates until the FAA is satisfied that adequate manufacturing quality controls are in place. Such restriction will constrain Boeing's ability to deliver aircraft as planned and could delay the ability of some airlines to upgrade their fleets with more fuel-efficient aircraft and increase capacity.

In March 2024, United Airlines suffered several safety-related incidents, including an aircraft runway incursion at Houston Intercontinental Airport, and an aircraft that lost a tire on takeoff from SFO. In response, the FAA announced that it is increasing its oversight of United "to ensure that it is complying with safety regulations; identifying hazard and mitigation risk; and effectively managing safety".

Historically, airline travel demand has recovered after temporary decreases stemming from terrorist attacks or threats, hijackings, aircraft crashes, and other aviation safety concerns. Provided that precautions by government agencies, airlines, and airport operators serve to maintain confidence in the safety of commercial aviation without imposing unacceptable inconveniences for airline travelers, future demand for airline travel at the Airport will depend primarily on economic, not safety or security, factors.

Public Health Concerns

Public health concerns and associated restrictions on travel periodically reduce airline travel demand to and from various parts of the world. Examples are Severe Acute Respiratory Syndrome (SARS) in 2002-2003, the H1N1 influenza virus in 2009, Middle East Respiratory Syndrome (MERS) in 2013, Ebola Virus Disease (EVD) in 2014-2016, and the Zika virus in 2016-2017. In all these historical examples, reductions in airline travel were geographically localized and fairly short-lived, with travel soon recovering to pre-health-scare trends.

By comparison, the COVID-19 pandemic had far more serious and widespread effects on airline travel worldwide. In late 2019, the novel coronavirus that causes the COVID-19 respiratory illness emerged, soon spreading through most parts of the world. COVID-19 was declared a global pandemic by the World Health Organization in March 2020.

During the early months of the pandemic, governmental actions to slow the spread of the disease, including the mandated closure of businesses and offices, work-at-home requirements, prohibitions of public gatherings, quarantines, and travel restrictions contributed to a recession in the global economy and widespread job losses. The economic recession, combined with fears about contagion, resulted in a severe reduction in the demand for air travel, the grounding of much of the world's airline fleets, and cuts in airline service.

In December 2020, the first COVID-19 vaccines were administered in the United States. The success of the vaccines in preventing the transmission of the virus and reducing its effects resulted in a steady recovery in domestic air travel through the summer of 2021, although new variants of the virus then emerged and resulted in new waves of cases in the fall and winter of 2021.

By 2022, the availability and acceptance of vaccines and treatments had allowed the pandemic to be largely brought under control in the United States and other developed countries. As quarantine, testing, and other travel restrictions were relaxed, COVID-19 was no longer an important factor affecting airline travel. By 2023, domestic airline travel at many U.S. airports had approached or exceeded pre-pandemic levels.

Questions also remain about how some determinants of travel demand may not fully return to those existing pre-pandemic. Some observers expect that there will be permanent reductions in some business travel for in-person meetings as a result of the widespread adoption of videoconferencing. Many companies have reduced travel by their employees and thereby achieved cost savings that may become a permanent feature of their financial operations. Offsetting that effect, there may be an increase in travel by workers who relocated during the pandemic and work remotely, and who will need to regularly visit a central office location. Remote working and travel for a combination of business and leisure purposes are also changing travel demand patterns.

Climate Change Concerns

There is now widespread acknowledgement of the urgent need for the nations of the world to transition from fossil fuels to cleaner energy sources that will allow the worst effects of global warming and climate change to be avoided.

Much like the way that the pandemic appears to have changed some airline travel behavior and demand patterns, concerns about the contribution of airline travel to the emission of carbon dioxide and other greenhouse gases into the atmosphere may influence future airline travel demand. For example, there may be increased societal pressures to avoid or reduce travel perceived as wasteful, particularly long-haul international travel; to favor or require the use of lower-emission travel modes, such as train over airplane for short trips; and for corporations to limit employee travel to “reduce their carbon footprint” and achieve environmental, social, and governance objectives.

Pre-pandemic, the aviation industry accounted for approximately 10% of anthropogenic greenhouse gas emissions from the U.S. transportation sector and 3% of total U.S. emissions. Alternatives to petroleum-derived jet fuel are unlikely to be economically available at large scale for the foreseeable future, so aviation’s share of emissions will likely increase and attract more scrutiny. Consequently, it will be imperative for the industry to achieve efficiencies if growth in airline travel is to be sustained.

Achieving those efficiencies and mitigating emissions will require financial investments and changes to the operating economics of the aviation industry. Changes will likely include the early retirement and replacement of inefficient aircraft; the payment of carbon taxes and other regulatory charges designed to penalize or offset emissions; and the development of technologies and incentives to increase the supply and reduce the cost of sustainable aviation fuels derived from biomass and other renewable sources. In the longer term, investments will be required to develop new aircraft propulsion technologies using fuels such as hydrogen or electric power generated from renewable sources.

Increased direct governmental regulation of greenhouse gas emissions from aircraft is also possible. In 2020, the U.S. Environmental Protection Agency adopted emission standards that apply to new commercial aircraft and align with standards adopted by the International Civil Aviation Organization. More stringent emission standards may apply in the future.

Inevitably, some of the costs required to reduce greenhouse gas emissions and combat climate change will be passed on to passengers in the form of higher fares or surcharges, and thereby may inhibit airline travel demand.

Capacity of the National Air Traffic Control System

Demands on the national air traffic control system have, in the past, caused delays and operational restrictions affecting airline schedules and passenger traffic. The FAA is gradually implementing its Next Generation Air Transportation System (NextGen) air traffic management programs to modernize and automate the guidance and communications equipment of the air traffic control system and enhance the use of airspace and runways through improved air navigation aids and procedures.

Since 2007, airline traffic delays nationwide have decreased because of reduced numbers of aircraft operations (down approximately 9% between 2007 and 2023) but, as airline travel increases in the future, flight delays and restrictions can be expected. The operational reliability of the national air traffic control system may also be affected by a shortage of air traffic controllers to guide aircraft between and around airports.

Capacity of the Airport

In addition to any future constraints that may be imposed by the capacity of the national air traffic control and national airport systems, future growth in airline traffic at the Airport will depend on the capacity of the Airport itself. The projections presented later in this section were based on the assumption that neither available airfield capacity nor demand management initiatives will constrain traffic growth at the Airport. Furthermore, it was assumed that the projected increases in enplaned passengers can be accommodated by existing terminal capacity in conjunction with the completion of the Capital Improvement Plan planned through the end of the projection period.

AIRLINE TRAFFIC PROJECTIONS – BASE CASE

The projection of enplaned passengers at the Airport through FY 2030 was developed taking into account travel demand to and from the Bay Area, economic projections, trends in historical enplaned passengers, recovery from the COVID-19 pandemic, and other key factors likely to affect future passenger levels, all discussed in earlier sections.

Underlying Assumptions

In developing the passenger projections for this Report, it was assumed that, over the long term, airline traffic at the Airport will increase as a function of growth in the economy of the San Francisco CSA and continued airline competition. It was assumed that airline service at SFO will not be constrained by the availability of aviation fuel, the capacity of the air traffic control system or the Airport, charges for the use of aviation facilities, or government policies or actions that restrict growth. As noted in “Capacity of the Airport”, it was assumed that the projected increases in enplaned passengers could be accommodated by existing terminal capacity in conjunction with the completion of the CIP planned through the end of the projection period.

From FY 2024 through FY 2030, passenger numbers at the Airport are projected to increase gradually based on the following assumptions:

- The economy of the Bay Area will increase at a rate comparable to or greater than that of the State and nation as a whole, although uncertainty related to geopolitical events and the global economy may moderate short-term economic growth.
- The U.S. economy will experience sustained GDP growth averaging approximately 2.0% per year in 2024 and thereafter.
- Airline seating capacity is expected to be constrained in the short-term due to the shortage of airline staff, particularly pilots, the availability of pilot training facilities and the lead-time necessary for pilot certification, and delays in the delivery of new aircraft.
- Passenger traffic growth to the Asia-Pacific region is expected to lag overall international passenger traffic growth, reflecting the delayed reopening of country borders in Asia starting in late 2022 and a slower than expected recovery in China’s economy and scheduled seat capacity to/from China and the United States.
- Aviation fuel prices will remain roughly at levels experienced in 2023, following recent crude oil price increases (averaging \$78 per barrel) but remain higher than pre-pandemic levels (\$57 per barrel in 2019) amid uncertainty about the war in Ukraine, the conflict in the

Middle East, and its impact on global oil prices.* From FY 2025 through FY 2030, aviation fuel prices will increase at moderate rates but remain below the record prices of approximately \$134 per barrel reached in June 2008, reflecting reduced consumption levels, technological advances, and the availability of previously unexplored resources.

- Annualized inflation, as measured by changes in the Consumer Price Index, is expected to continue to moderate in 2024, following a high of 9.1% in June 2022 to 3.2% in February 2024, and fall to 2.5% in the fourth quarter of calendar year 2024, approaching the Federal Reserve's long-run annual inflation goal of 2.0%. From FY 2025 through FY 2030, inflation will return to pre-pandemic levels, averaging 2.2% to 2.5% per year.*
- United will continue to use the Airport as its primary West Coast connecting hub and international gateway. United will gradually increase the number of destinations served and the frequency of flights from the Airport. Other airlines will continue to provide competitive nonstop service to and from large travel markets.
- Any airline consolidation that may occur during the projection period will not have a material impact on the level of passenger activity at the Airport.
- Neither Oakland nor Mineta San Jose international airports will attract sufficient domestic feeder traffic to support international gateway operations on more than a very limited scale, and international airline travel demand to and from the Bay Area will continue primarily through the Airport.
- Competition among the airlines serving the Airport will ensure the continued availability of competitive airfares, and SFO will continue to be served by a broad array of U.S. and foreign-flag airlines, with no significant increase in airline concentration.
- There will be no major disruption of airline service or airline travel behavior as a result of airline bankruptcies or liquidations, international hostilities, terrorist acts or threats, or public health crises.
- The high-speed rail system currently under construction in central California will not impact aviation activity at the Airport.

Enplaned Passengers

Between FY 2022 and FY 2023, the numbers of passengers enplaned at the Airport increased 34.6% to 23.4 million (from 17.4 million in FY 2022), reflecting continuing recovery from the impact of the pandemic. Above-trend growth is expected to continue in FY 2024 through FY 2027, before falling to longer-term trend growth during the remaining years of the projection period. Growth is expected to average 5.7% per year between FY 2023 and FY 2030 as traffic continues to recover from the COVID-19 pandemic in the early years of this period and revert to the long-term underlying growth

*In its March 12, 2024, *Short-Term Energy Outlook*, the U.S. Energy Information Administration projected crude oil prices, in terms of the Brent crude oil spot price, to average \$87.00 per barrel in 2024 and \$84.80 in 2025, down from \$100.94 per barrel in 2022.

* Congressional Budget Office, Budget and Economic Outlook, February 2024.

trend in the later years. Between FY 2019 and FY 2030, SFO’s passenger traffic is projected to increase an average 1.7% per year as traffic returns to long-term growth rates, as shown on Figure 19 and in Table 18. Total enplaned passengers are projected to increase to 34.6 million in FY 2030. In its most recent *Terminal Area Forecast* for the Airport (published online in January 2024), the FAA forecasts SFO’s enplaned passengers to increase an average of 5.8% per year between FY 2023 and FY 2030.

Between FY 2024 and FY 2030, domestic passengers are projected to increase an average of 5.1% per year, compared with an average increase of 7.3% per year in international passengers. The projections of domestic passengers reflect the socioeconomic forecasts for the Bay Area and airline plans for domestic service at the Airport presented earlier. The international passenger projections at SFO are driven by the continued development of airline service to markets in Asia, Australia/Oceania, Europe, and the Middle East.

As shown in Table 18, O&D passengers at SFO are projected to increase an average of 5.7% per year between FY 2023 and FY 2030. The base of connecting passengers reflects the ongoing role of the Airport as a primary connecting hub and international gateway in United’s system. As shown in Table 18, the percent of connecting passengers at the Airport is projected to average approximately 18.4% per year through FY 2030.

Landed Weight and Landings

From FY 2023 through FY 2030, aircraft landed weight at the Airport is projected to increase an average of 6.2% per year to 49.2 million 1,000-pound units in FY 2030, as shown in Table 18. The projected rate of growth in landed weight is slightly higher than that for enplaned passengers, reflecting the lagged recovery of international service operated with widebody aircraft with higher than average landed weights.

In recent years, the aircraft fleet mix at the Airport has changed, reflecting the cessation of United's service with 30-seat turbo prop aircraft and replacement with larger capacity regional jets, thereby increasing the overall aircraft size and reducing the number of landings and the potential for Airport congestion. Total airline landings at the Airport are projected to increase at a slower rate of growth than landed weight—an average of 5.8% per year between FY 2023 and FY 2030, from 167,400 to 249,100.

SENSITIVITY ANALYSIS PROJECTION

The recovery from the pandemic has been prolonged and uncertainties remain about the number of passengers that will enplane at the Airport in the future. To test the sensitivity of the financial forecasts to hypothetical levels of passenger activity, a sensitivity analysis projection was developed in addition to the base case projection. The sensitivity analysis projection is presented in Table 19 and should not be considered as a forecast of expected future results. For the purposes of this hypothetical scenario, it was assumed that the recovery of domestic passenger traffic is slower than expected which contributes to overall slower growth in enplaned passengers at the Airport.

Under the sensitivity case, total enplanements are projected to increase at a cumulative average growth rate of 1.2% between FY 2019 and FY 2030, compared to 1.7% under the base case (with international traffic increasing 2.6% annually over the same period under the sensitivity case, compared to 3.1% annually under the base case).

AIRPORT CAPITAL IMPROVEMENT PLAN AND FUNDING

This section includes summaries of the Airport Commission’s Capital Improvement Plan (CIP) and the funding sources for the CIP.

SUMMARY OF THE CAPITAL IMPROVEMENT PLAN

Airport Commission staff periodically develops and updates a plan for the redevelopment, improvement, and expansion of Airport facilities, which is approved by the Airport Commission. The plan is submitted to the Airport Commission, and evaluated and approved based on anticipated facility needs, current and expected future airline traffic, available funding sources, airline feedback, and project priority. The Commission-approved plan is included in the City’s two-fiscal-year capital budget, which is approved by the City’s Board of Supervisors.

On October 3, 2023, the Airport Commission approved an updated CIP totaling \$11.02 billion of capital spending through FY 2033. This total incorporates \$2.41 billion that has been previously funded through the date of this Report (not including \$452.5 million that was or is expected to be funded with commercial paper that is expected to be refunded with the proceeds of the 2024ABC Bonds). Additional CIP spending is expected to total approximately \$8.16 billion between FY 2024 and FY 2033 (i.e., approximately \$7.00 billion between FY 2024 and FY 2028, and approximately \$1.16 billion between FY 2029 and FY 2033).

The CIP reflects the combination of two distinct categories of projects:

- “Ascent Program – Phase 1.5”, which represents \$8.03 billion of capital spending through FY 2033. The Ascent Program – Phase 1.5 encompasses projects that address existing infrastructure around the Airport, as well as anticipated passenger and airline growth-related needs of the Airport.
- “Infrastructure Projects Plan”, which represents \$2.99 billion of spending on support systems, miscellaneous airfield improvements, terminal improvements, energy and efficiency improvements, and equipment projects, through FY 2033.

The Ascent Program – Phase 1.5 represents a continuation and evolution of the Airport Commission’s “Ascent Program – Phase 1” which was originally approved by the Commission in 2016. Elements of the original program that have been fully completed and are in service have been excluded from the new Ascent Program – Phase 1.5, and a range of additional related facility improvements have been added. Among the completed projects are the development of a second long-term parking garage, the Airport hotel, Terminal 3 East improvements, the AirTrain extension, and Terminal 1 Boarding Area B redevelopment. Ongoing elements of the Ascent Program – Phase 1 are included in the Ascent Program – Phase 1.5 and include further Terminal 1 and Terminal 3 improvements, among other projects.

Table 20 reflects the Commission’s updated CIP. After (and not including) the planned issuance of the 2024ABC Bonds, the Airport Commission is projecting CIP spending of \$8.16 billion from FY 2024 to FY 2033, including \$5.70 billion of Ascent Program – Phase 1.5 project spending and \$2.46 billion of Infrastructure Projects Plan spending. The projected spending of \$8.16 billion includes \$1.00 billion

of contingency reserves (which is included in addition to individual project construction and development contingencies and reserves).

Airport Commission management continues to undertake the process of reevaluating and revising the CIP for the Airport. The scope, phasing, and timing of implementation of projects in the updated CIP are subject to further modification depending on aviation activity trends, Airport operational factors, capital cost escalation, and financial market conditions, among other factors. Actual project schedules and costs may be different from what is assumed in this Report.

Before implementing a capital project, Airport Commission management is required to:

- Obtain approvals from the Airport Commission
- Obtain, for certain projects, a finding of fiscal feasibility by the City Board of Supervisors (certain actions of which are subject to approval or veto by the Mayor of San Francisco)
- Obtain applicable environmental approvals, which may include actions by the Airport Commission, the City Board of Supervisors, or both, and
- Conduct a consultation with the airlines signatory to the Airline Agreements when required by the terms of those agreements (see further discussion in the next section of the Report)

Proceeds of the new money portion of the 2024ABC Bonds are assumed to be used to repay currently outstanding commercial paper balances related to certain project costs associated with construction spending on projects that either do not require environmental review or have already undergone all necessary environmental review and received Commission approval to proceed. Where applicable, the Commission has also presented these projects to the airlines for formal MII review in accordance with the new lease and use agreements with the airlines. (See the next section of the Report for a detailed discussion of the Airline Agreements.)

For purposes of this Report, it was assumed that all approvals necessary for the implementation of the projects in the CIP would be obtained by the Commission in accordance with the project implementation schedules reflected in Exhibit A-1.

The projection period described in this Report extends through FY 2030, and assumes that all of the Bonds needed to complete the CIP are issued through FY 2029. Therefore substantially all of the impact of the CIP is reflected in the revenue and expense projections shown for FY 2030.

Table 20
Summary of the Capital Improvement Plan
San Francisco International Airport

<i>(\$ millions)</i>	Prior Funding (a)	2024ABC Bonds (b)	Future Funding (FY 2024-33)			Total
			Future Bonds	Other Funding	FY 2024-33 Total	
	[A]	[B]	[C]	[D]	[E=C+D]	[F=A+B+E]
Ascent Phase 1.5						
Project costs	\$ 1,937.6	\$ 393.8	\$ 4,844.1	\$ 129.4	\$ 4,973.6	\$ 7,305.0
Ascent Phase 1.5 reserve	-	-	730.5	-	730.5	730.5
Subtotal - Ascent Phase 1.5	\$ 1,937.6	\$ 393.8	\$ 5,574.6	\$ 129.4	\$ 5,704.1	\$ 8,035.4
Infrastructure CIP						
Project costs	\$ 469.4	\$ 58.7	\$ 1,513.4	\$ 673.7	\$ 2,187.2	\$ 2,715.2
Infrastructure Reserve	-	-	271.5	-	271.5	271.5
Subtotal - Infrastructure CIP	\$ 469.4	\$ 58.7	\$ 1,785.0	\$ 673.7	\$ 2,458.7	\$ 2,986.7
CIP total	\$ 2,407.0	\$ 452.5	\$ 7,359.6	\$ 803.2	\$ 8,162.8	\$ 11,022.2

- (a) Approximate funding amounts already secured, including proceeds of previously issued Bonds and other funding sources.
- (b) Reflects the new money portion of the 2024ABC Bonds, which is expected to be used to pay down approximately \$452.5 million of currently outstanding commercial paper.

Note: Total spending of \$11.02 billion reflects the CIP for the Airport as approved by the Airport Commission on October 3, 2023. The financial projections documented later in this Report assume that all of the Future Bonds for the CIP are issued between FY 2025 and FY 2029, and therefore the projections for FY 2030 reflect substantially all of the impact of the CIP on annual revenues and expenses. (There is projected to be approximately \$6 million of debt service paid from capitalized interest in FY 2030; less than 0.5% of total debt service in that year).

In 2016 the Commission completed a recommended Airport Development Plan (ADP), which is currently undergoing environmental review. The recommended ADP provides a long-term planning framework to guide future Airport development to cost-effectively accommodate up to approximately 71 million annual passengers (enplaned plus deplaned). The recommended ADP, as modified during environmental review, will result in the identification of a range of potential additional capital projects, one or more of which may be designated as the “Ascent Program – Phase 2” (or similar title) and added to future versions of the Commission’s capital improvement plan, if and when the Airport Commission deems that they are warranted to address traffic growth and other factors. The recommended ADP is not included in the Ascent Program – Phase 1.5 or the Infrastructure Projects Plan as described herein, nor is it reflected in the financial projections included in this Report.

PROJECTS IN THE CAPITAL IMPROVEMENT PLAN

Ascent Program – Phase 1.5

The major projects in the Ascent Program – Phase 1.5 portion of the CIP are summarized as follows:

- **Terminal Projects:** The largest terminal project spending in the CIP is for the modernization of Terminal 3 West (\$2.23 billion) and the renovation of Terminal 1 Center (\$1.65 billion). The reconfiguration and renovation of the western side of Terminal 3 is intended to increase gate flexibility (i.e., allowing the same gate to be used by both international and domestic arrivals, as well as different aircraft types), improve seismic stability, upgrade building and baggage handling systems, improve passenger flow, add a sterile connector to the ITC, and enhance passenger amenities. The Terminal 1 Center renovations include the construction of a new architectural building envelope, complete electrical, HVAC, special systems replacement, new check-in facilities and passenger screening checkpoint, a new baggage handling system, and construction of a post-security passenger connector and sterile connector from Terminal 1 to the ITC with enhanced passenger amenities.

Other major terminal spending in the CIP includes the Courtyard 3 Connector project, which will construct a post-security passenger connector between Terminal 2 and Terminal 3 in conjunction with a multi-story office block for Commission and tenant use (\$401 million); the International Terminal – Phase 2 project to upgrade and improve the operational efficiency within the departures level of the terminal (\$290 million); the Courtyard 4 Connector (\$265 million) providing a new 4 to 6 story multi-use building between the ITC and T3; and the Boarding Area G Gate Enhancement project to meet increased gate demands (\$143 million).

- **Airport Support:** Major airport support projects include: Cargo and Hangar Improvements in the West Field area including the development of Cargo Building 626 - Phase 1 and Cargo Building 720, and the development of a ground support equipment facility (\$688 million), the second phase of the Consolidated Administration Campus (\$560 million), Parking & Garage Improvements (\$279 million), Support Facility Improvements (\$167 million), and Wayfinding projects (\$147 million).
- **Utilities:** Major utilities-related projects include: the Energy Management Control System (\$44 million) and the Electrical Capacity Upgrade (\$35 million).
- **Groundside:** The primary groundside-related project is the new Bus Maintenance Facility (\$30 million) which will be relocated to Plot 700 to accommodate all staff including administration, bus crews, and the maintenance employees.

In addition, the Ascent Program – Phase 1.5 spending total through FY 2033 includes a contingency reserve of \$730 million which, for purposes of the financial analysis described in the Report, is assumed to be fully Bond funded, drawn down, and applied to project costs.

Infrastructure Projects Plan

The Infrastructure Projects Plan component of the CIP consists of projects that are critical for meeting current safety and operational needs of the Airport and focus on addressing state of good repair and infrastructure. Major projects in this category include:

- Taxiway improvements (\$411 million)
- Runway improvements (\$370 million)
- Power and lighting improvements (\$312 million)
- International terminal improvements (\$231 million)
- Wastewater system improvements (\$201 million)
- Clean water system improvements (\$161 million)
- Technology improvements (\$107 million)
- Superbay Renovation projects (\$136 million)
- Miscellaneous terminal improvements (\$98 million)
- Energy and efficiency improvements (\$76 million), and
- Airport shoreline protection projects preliminary work (\$60 million)

In addition, the Infrastructure Projects Plan program spending total through FY 2033 includes a contingency reserve of \$272 million which, for purposes of the financial analysis described in this Report, is assumed to be fully Bond funded, drawn down, and applied to project costs.

MITIGATION FACTORS

Where possible, the Commission implements capital projects using a modular and phased approach, so that future project phases could be deferred (or cancelled) if unanticipated events occur, such as significant declines in aviation activity at the Airport. The Commission's design-build and design-bid-build contracts allow the Commission to change, suspend, or delay the work, or terminate an entire contract for the Commission's convenience, while allowing the contractor to seek compensation for costs, if any, associated with a change order, or with the work's suspension, delay, or termination.

If unanticipated events such as a material reduction in aviation activity were to occur at the Airport (as was actually experienced during the COVID-19 pandemic), the Commission has a range of options at its disposal for addressing a more constrained financial environment, such as:

- Deferring or cancelling a variety of projects (or elements of projects) in the CIP.
- Reducing, or limiting the increase in, Airport Operation and Maintenance Expenses.
- Increasing certain non-airline fees and charges that are not subject to agreements with Airport tenants and users (such as automobile parking rates and ground transportation fees).
- Adjusting airline rates and charges in accordance with the terms of the Airline Agreements (including the provision to implement mid-year rate adjustments if needed).
- Adjusting the debt structure for Future Bond issues to better correlate with the debt maturities for Bonds currently outstanding; as described later, for purposes of this Report it was assumed that all Future Bond issuance after the 2024ABC Bonds would be undertaken on a level annual debt service basis.
- Applying available ORCIF balances to stabilize airline rates and charges.
- Increasing the amount of PFCs designated and applied as Revenues, to the extent such PFC cash balances are available.

SUMMARY OF CAPITAL IMPROVEMENT PLAN FUNDING

Several funding sources are expected to be available to finance the improvements in the CIP, including the following sources, as shown in more detail in Exhibit A-2.

Grants

For purposes of this Report, the financial analysis assumed that grants totaling \$842.2 million would be available to fund the CIP (including \$121.1 million of grants for project costs previously funded).

Grants available to the Commission primarily consist of federal Airport Improvement Program (AIP) grants, including both AIP entitlement and AIP discretionary grants, State of California grants, and TSA grants. AIP entitlement grants are determined on a formula based on passenger and cargo numbers, while discretionary grants are determined by the FAA based on the nature of the specific project in comparison with projects at other airports in the FAA region. The Commission intends to apply the majority of its AIP discretionary and entitlement grants to airfield related projects.

When determining the distribution of discretionary grants, the FAA may consider, as a mitigating factor, whether the Airport Commission uses its revenues for purposes other than its capital or operating costs when those revenues exceed the amount used by the Commission for such costs in the base year ending June 30, 1995, as adjusted for inflation. The Commission's Annual Service Payment to the City's General Fund, in part for indirect services, management, and facilities provided by the City to the Commission (as further discussed later in the Report), is considered to be a non-capital, non-operating cost for this purpose. For more than ten fiscal years through FY 2020 (and the onset of the COVID-19 pandemic), the Annual Service Payment exceeded the inflation-adjusted base year payment. Growing levels of Annual Service Payments are a direct result of the Airport Commission's success in increasing concession revenues at the Airport over the past decade.

In recent years, AIP discretionary grants requested by the Airport Commission have been reduced by the FAA because of the growing Annual Service Payments being made to the City's General Fund. For example, the FAA militated \$6.7 million in discretionary grants in the federal fiscal year ended September 30, 2023, and the Commission received \$39.0 million in FAA discretionary grants. In January 2024, the FAA notified the Commission that the Annual Service Payment in fiscal year ended June 30, 2023 exceeded the inflation-adjusted base year amount by \$16.6 million. There may be similar reductions in AIP discretionary grants in the future for the same reason.

Any reductions in grant funding amounts below the total assumed for this analysis would instead necessitate the Airport Commission to issue additional Bonds to make up for the shortfall (and include the associated debt service in the airline rate base), or fund those shortfalls with PFCs on a pay-as-you-go basis, or with other available Airport Commission funds such as unrestricted cash balances.

Under the federal Infrastructure Investment and Jobs Act enacted on November 15, 2021 ("Bipartisan Infrastructure Law", or BIL), the Commission was allocated federal grants totaling \$143.7 million for Airport capital purposes during the three federal fiscal years 2022, 2023, and 2024, and expects to receive additional grants in the following two federal fiscal years.

Bonds

This Report assumes remaining Bond funding for \$7.81 billion of CIP project costs expected to be incurred through FY 2033, including \$452 million of which is assumed to be provided by the 2024ABC Bonds. Proceeds of the Future Bonds are expected to be used to fund a number of projects in the CIP, or to repay future commercial paper issued to pay these costs*. For future CIP spending (excluding previously funded amounts, but including costs to be funded with proceeds of the 2024ABC Bonds), Bonds are expected to finance approximately 91% of the total.

Passenger Facility Charges

The Airport Commission is currently authorized to impose a \$4.50 PFC at the Airport pursuant to approvals from the Federal Aviation Administration (FAA). The Airport Commission's PFC collection and spending authorization as of the date of this Report totals \$2.32 billion at the \$4.50 level, and with an expiration date no later than December 1, 2030. In FY 2023, PFC revenues on a cash basis totaled \$91.4 million, including restricted interest income.

The majority of the Commission's PFC revenues have been and will continue to be applied to pay a portion of the debt service on outstanding Bonds. PFC revenues are not included in the definition of Revenues pursuant to the Bond Resolution, unless specifically designated as such by the Airport Commission. Annually since 2002, the Commission has designated and applied a certain amount of PFC revenues as Revenues, and used those amounts to pay debt service on Outstanding Bonds. (The Commission may elect to actually apply fewer PFCs as Revenues during a given fiscal year than it had earlier designated.) During FY 2020, \$151.8 million in PFC revenues were applied as Revenues pursuant to the Bond Resolution and applied to Bond debt service. During FY 2021, FY 2022, and FY 2023, no PFCs were applied as Revenues; and \$130 million of PFCs are projected to be applied during FY 2024. The Commission does not currently anticipate using PFCs to fund project costs on a pay-as-you-go basis.

The PFC revenues received by the Commission are subject to audit and final acceptance by the FAA and costs reimbursed with PFC revenues are subject to adjustment upon audit. As of December 31, 2023, a total of \$1.76 billion in PFC revenues (including restricted interest income) had been collected, including \$637.1 million of PFC revenues collected but not yet expended.

Exhibit B shows the projected collection of PFC revenues during the projection period, and the projected application of those PFC revenues. Annual PFC revenues are projected to increase from \$84.5 million in FY 2023 to \$129.0 million in FY 2030 (not including associated interest income). PFC revenues are projected to total \$132.3 million in FY 2030, including interest income. The Airport Commission plans to adjust the amount of PFC revenues included as Revenues to manage realized airline payments in each future year. For purposes of this Report it was assumed that \$130 million of PFCs would be included as Revenues in FY 2024, \$185 million in FY 2025, and \$200 million annually between FY 2026 and FY 2030, totaling \$1.32 billion over that period. The full PFC collection authorization is projected to be collected before the end of the projection period (during FY 2029), assuming the base case passenger projection described earlier in the Report.

*A portion of the Future Bond proceeds are also expected to be used to fund deposits to the Commission's Contingency Account, capitalized interest, and debt service reserve.

The Commission intends to submit future PFC applications seeking PFC funding for the Terminal 1 and Terminal 3 projects, including approval to pay associated Bond debt service with PFC revenues.

Other Funding Sources

Additional sources of funds available to the Airport Commission to finance capital improvements at the Airport include the Airport's unrestricted or available cash balances, and funds deposited to ORCIF (see discussion of the ORCIF in the next section of the Report). Unrestricted cash balances are those amounts that are primarily generated from the day-to-day operation of the Airport (i.e., operating cash flow, net of Bond debt service and reserve funding requirements). Third-party funding sources may also be used for certain types of projects in the CIP. The current CIP includes the planned use of \$82.1 million to be funded by the San Francisco Public Utilities Commission for Airport-related electrical projects.

OTHER POTENTIAL AIRPORT CAPITAL IMPROVEMENTS

As noted earlier, the Airport Commission expects to continue to develop and finance needed capital improvements at the Airport, including repair and rehabilitation of existing facilities, fortification of Airport facilities as needed to respond to the impact of climate change (including implementing a shoreline protection program to strengthen the seawalls that abut portions of the Airport property adjacent to San Francisco Bay), and development of new facilities to accommodate anticipated airline traffic demand at the Airport.

These projects would only be undertaken as needed, based on market demand for airfield facilities, terminal facilities, gates, and landside facilities. Such projects are outside the current CIP and have not been reflected in the financial projections described in this Report.

FINANCIAL FRAMEWORK AND ANALYSIS

The framework for the Airport Commission's financial operation is discussed in this section, which contains descriptions of the Bond Resolution, the Annual Service Payment, Airline Agreements, commercial agreements and leases, and Special Facility Obligations. This section also describes the projection of Revenue, Operation and Maintenance Expenses, debt service, and debt service coverage.

Our study was undertaken to evaluate the ability of the Airport Commission to generate sufficient Net Revenues to meet the requirements of the Bond Resolution, taking into account Annual Debt Service on the currently Outstanding Bonds, the 2024ABC Bonds, and Future Bonds. The projection period for this Report extends to FY 2030.

The financial data for FY 2019 through FY 2023 reflects the actual operating results of the Airport Commission; data for FY 2024 are projected based on the Airport Commission's annual budget reflecting adjustments for the most current estimates of annual debt service and certain adjustments to expenses. Data for FY 2025 through FY 2030 were projected by taking into consideration historical operating results, the Commission's approved FY 2024 budget and preliminary FY 2025 budget, and the aviation activity projections under the base case described earlier, among other factors. Exhibit A through Exhibit I showing the projections for the base case are included at the back in this Report.

FRAMEWORK FOR FINANCIAL OPERATIONS

The Bond Resolution*

Pursuant to the City Charter, the City (acting through the Airport Commission) is authorized to issue airport revenue bonds subject to approval by the Board of Supervisors of the City. Bonds issued by the Commission are not general indebtedness of the City, but are limited, special indebtedness of the Commission payable solely from revenues received by the Commission from its airport facilities. The Commission has no taxing power.

On December 3, 1991, the Commission adopted Resolution No. 91-0210 (together with amendments and supplemental resolutions, the Bond Resolution) authorizing the issuance of San Francisco International Airport Second Series Revenue Bonds.

These Bonds are called "second series" Bonds to distinguish them from bonds of the Commission issued prior to December 1991. All bonds issued under prior bond resolutions are no longer outstanding, and the Airport Commission has covenanted not to issue additional bonds under the terms of those prior resolutions. The Commission's Second Series Revenue Bonds have the most senior lien on the revenues of the Commission of any outstanding debt, and the Commission has covenanted in the Bond Resolution not to issue any debt with a pledge of, or lien on, Net Revenues senior to that of the Second Series Revenue Bonds.

*References in this Report to the Bond Resolution, the Airline Agreements, and various leases and agreements entered into by the City and the Airport Commission are not intended to be comprehensive or definitive. Capitalized terms have the same meaning as defined in the Bond Resolution, except as otherwise noted herein.

Rate Covenant

The Commission has covenanted in Section 6.04(a) of the Bond Resolution that it shall establish and at all times maintain rentals, rates, fees, and charges for the use of the Airport, and for services rendered by the Commission in connection with the Airport, so that:

1. Net Revenues in each Fiscal Year will be at least sufficient (i) to make all required debt service payments and deposits in such Fiscal Year with respect to the Bonds, any Subordinate Bonds and any general obligation bonds issued by the City for the benefit of the Airport (there have been no such general obligation bonds outstanding for more than 30 years), and (ii) to make the Annual Service Payment to the City; and
2. Net Revenues, together with any Transfer from the Contingency Account to the Revenues Account, in each Fiscal Year will be at least equal to 125% of aggregate Annual Debt Service with respect to the Bonds for such Fiscal Year. For purposes of this provision of the 1991 Master Resolution, "Annual Debt Service" may, at the Commission's option, be calculated based on required deposits to pay Annual Debt Service.

Net Revenues are defined in the Bond Resolution as Revenues less Operation and Maintenance Expenses. Revenues are defined as substantially all revenues of the Commission associated with possession, management, supervision, operation, and control of the Airport as determined in accordance with generally accepted accounting principles (GAAP), with the exception Special Facility Revenues, grants-in-aid, and certain other excluded revenue categories including:

- Revenues derived from passenger facility charges (PFCs) unless designated as such by the Airport Commission
- Revenues from rental car Customer Facility Charges (CFCs) unless designated as such by the Airport Commission, and
- Federal Subsidy Payments unless designated as such by the Airport Commission

Operation and Maintenance Expenses are defined as substantially all expenses of operating the Airport as defined under GAAP, but exclude the Annual Service Payment to the City, depreciation, amortization, debt service on Bonds and commercial paper, expenses for which the Commission is paid or reimbursed from sources other than Revenues, and other miscellaneous costs.

The Transfer, for any given Fiscal Year, is the amount withdrawn from the Airport Commission's Contingency Account and deposited into the Revenues Account on the last day of the Fiscal Year (plus withdrawals for certain purposes from the Contingency Account during the Fiscal Year, net of deposits to the Account made from Revenues during the Fiscal Year).

Application of Revenues

The City Charter caused the creation of the Commission's Airport Revenue Fund. The Bond Resolution established a Revenues Account and five other accounts within the Airport Revenue Fund. In addition to the accounts created within the Airport Revenue Fund, a Debt Service Fund and a Reserve Fund were also established for Bonds issued under the Bond Resolution. The Airport Revenue Fund is held by the City Treasurer, while the Debt Service Fund and the Reserve Fund are held by the Trustee.

On the first business day of each month, moneys in the Revenues Account are applied in the following order to accounts within the Airport Revenue Fund:

- (a) Into the Operation and Maintenance Account, an amount equal to one-twelfth (1/12) of the estimated Operation and Maintenance Expenses for the then current Fiscal Year or such other amount as may be required to provide for the payment of Operation and Maintenance Expenses due (the O&M Account is not pledged and shall not be applied to Bond payments).
- (b) Into the Revenue Bond Account, the amount necessary:
 - (i) To make all payments and deposits required to be made during such month into the Debt Service Fund and the Reserve Fund and the accounts therein in the amounts and at the times required by the Bond Resolution and by supplemental resolutions with respect to Bonds; and
 - (ii) To make all payments and deposits required to be made during such month into any funds and accounts created to pay or secure the payment of the principal or purchase price of or interest or redemption premium on any Subordinate Bonds in the amounts and at the times required by the resolutions and other agreements authorizing the issuance and providing the terms and conditions thereof.
- (c) Into the General Obligation Bond Account, amounts, if any, required with respect to general obligation bonds of the City issued for Airport purposes. (The City does not have General Obligation Bonds outstanding for Airport purposes, nor does it anticipate issuing General Obligation Bonds for Airport purposes in the future.)
- (d) Into the General Purpose Account, an amount at least equal to the payments estimated to be made from the account during such month. Moneys in the General Purpose Account may be used for any lawful purpose of the Commission.
- (e) Into the Contingency Account, such amounts, if any, as the Commission may determine from time to time. Contingency Account balances may be used to pay Operation and Maintenance Expenditures, to pay Bond debt service, and to fund Airport capital expenditures; but only when monies from other sources for such purposes are not available.

The application of Revenues in accordance with the Bond Resolution is illustrated on Figure 20.

Additional Bonds

Whenever the Commission wishes to issue additional Bonds that are not refunding Bonds, the Commission is required by Section 2.11 of the Bond Resolution to file with the Bond Trustee either:

- (a) A certificate of an Airport Consultant dated within 30 days prior to the date of delivery of the Bonds stating that:
 - (i) For the period, if any, from and including the first full Fiscal Year following the issuance of such Bonds through and including the last Fiscal Year during any

part of which interest on such Bonds is expected to be paid from the proceeds thereof, projected Net Revenues, together with any Transfer, in each such Fiscal Year will be at least equal to 1.25 times Annual Debt Service; and

- (ii) For the period from and including the first full Fiscal Year following the issuance of such Bonds during which no interest on such Bonds is expected to be paid from the proceeds thereof through and including the later of: (A) the fifth full Fiscal Year following the issuance of such Bonds, or (B) the third full Fiscal Year during which no interest on such Bonds is expected to be paid from the proceeds thereof, projected Net Revenues, together with any Transfer, if applicable, in each such Fiscal Year will be at least sufficient to satisfy the rate covenants set forth in subsection (a) of Section 6.04 of the Bond Resolution;

or

- (b) A certificate of an Independent Auditor stating that Net Revenues together with any Transfer, in the most recently completed Fiscal Year were at least equal to 125% of the sum of (i) Annual Debt Service on the Bonds in such Fiscal Year, plus (ii) Maximum Annual Debt Service on the Bonds proposed to be issued.

For the purpose of paragraphs (a) and (b) above, the amount of any Transfer shall not exceed 25% of Maximum Annual Debt Service in such Fiscal Year. For purposes of paragraphs (a) and (b) above, the “Additional Bonds Test” provision of the 1991 Master Resolution, “Annual Debt Service” and “Maximum Annual Debt Service” may, at the Commission’s option, be calculated based on required deposits to pay Annual Debt Service.

Refunding Bonds may be issued by the Commission under Section 2.12 of the Bond Resolution, but:

...only (i) upon compliance with the conditions set forth in Section 2.11 of the Bond Resolution, or (ii) if the Commission shall deliver to the Trustee a certificate of an Airport Consultant or Financial Consultant to the effect that (A) aggregate Annual Debt Service in each Fiscal Year with respect to all . . . [Bonds] to be Outstanding after the issuance of such refunding Bonds shall be less than aggregate Annual Debt Service in each such Fiscal Year in which . . . [Bonds] are Outstanding prior to the issuance of such refunding Bonds, and (B) Maximum Annual Debt Service with respect to all . . . [Bonds] to be Outstanding after issuance of such refunding Bonds shall not exceed Maximum Annual Debt Service with respect to all . . . [Bonds] Outstanding immediately prior to such issuance.

The Commission intends to meet the requirements of Section 2.11 prior to issuing the 2024ABC Bonds (as well as the Future Bonds).

Subordinate Debt

Section 2.13 of the Bond Resolution permits issuance of “. . . Subordinate Bonds with a pledge of, lien on, and security interest in Net Revenues which are junior and subordinate to those of the Bonds, whether then issued or thereafter to be issued.”

On May 20, 1997, the Commission adopted Resolution No. 97-0146 (the Subordinate Debt Resolution) authorizing the issuance of San Francisco International Airport Second Series Subordinate

Revenue Bonds (the Subordinate Bonds). The Commission is authorized, pursuant to the Subordinate Debt Resolution as amended, to issue Subordinate Commercial Paper Notes in an amount not to exceed a total outstanding principal balance of \$600 million.

Letters of Credit Supporting the Commercial Paper Program

The Commission has obtained six Letters of Credit for a total of \$600 million in principal amount to support the Subordinate Commercial Paper program issued under the terms of the Subordinate Debt Resolution, which expire on various dates between May 2026 and June 2028. The Airport Commission expects to either renew these Letters of Credit when necessary or, if not renewed, obtain replacement Letters of Credit. The Commission currently has approximately \$452 million of Commercial Paper Notes outstanding and expects to repay all of this amount with proceeds of the 2024ABC Bonds.

The Commission intends to continue to issue Commercial Paper Notes in the future to fund capital expenditures on a short-term basis. Those Notes would subsequently be refunded as part of Future Bond issuance.

Outstanding Bonds

The Commission had approximately \$8.6 billion of Second Series Revenue Bonds outstanding as of April 1, 2024. Of this amount, \$276.3 million bears interest at variable rates pursuant to the Bond Resolution. The last maturity date on the Outstanding Bonds is in FY 2053, except for the 2018B/C Bonds, which bear interest at variable rates and have mandatory sinking fund requirements that commence in FY 2027 and extend through FY 2058.

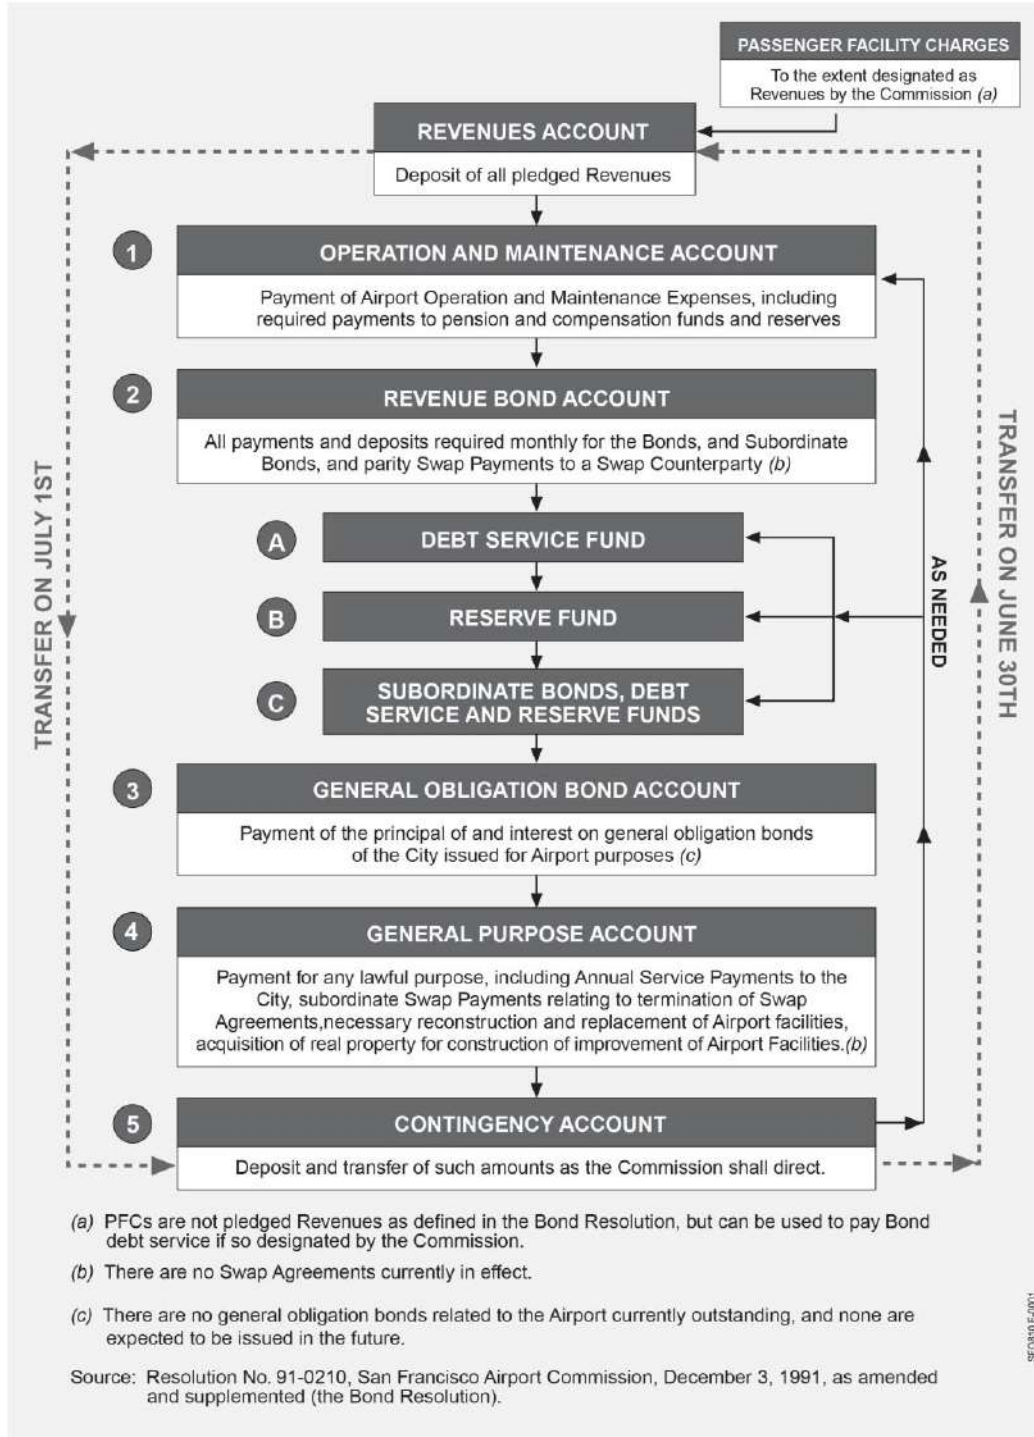

Proposed and Future Bonds

The Airport Commission is assumed to issue approximately \$512 million in principal amount of new money 2024ABC Bonds as part of this financing transaction, which would provide approximately \$452 million of net proceeds for the repayment of all outstanding Commercial Paper Notes and for directly funding certain CIP project costs (with the balance to provide for reserve funding, capitalized interest, and issuance costs).

As described earlier, the Commission expects to issue Future Bonds to fund the remaining CIP costs expected to be expended through FY 2033. The financial analysis presented in this Report reflects the projected effect on the Commission's finances of the proposed 2024ABC Bonds and the Future Bonds.

Additionally, the Commission may refund other currently outstanding Bonds during the projection period, depending on financial market conditions and the ability of the Commission to lower its debt service payments. The Commission may pursue refundings for debt service savings or for other reasons in compliance with the Commission's debt policy. The effect of such potential Bond refundings (including any other refunding Bonds that are issued as part of the current transaction) has not been included in the financial analysis.

Figure 20
Application of Revenues
 Airport Revenue Fund

The Annual Service Payment

The City Charter provides that a portion of the nonairline revenues generated at the Airport each Fiscal Year can be transferred into the General Fund of the City. This transfer, the Annual Service Payment, is computed under the Airline Agreements (described below) as the greater of: (a) 15% of “Concession Revenues” as defined in the new lease and use agreements, or (b) \$5 million. The new lease and use agreements provide that the Annual Service Payment to the City constitutes full satisfaction of all obligations of the Airport and the Commission for any and all indirect services provided each year by the City to the Airport and the Commission. Direct services provided by the City to the Airport are paid for as received and are reflected in the financial statements of the Commission as an operating expense.

The document titled “Policies and Procedures Concerning the Use of Airport Revenue”, adopted by the FAA in 1999, cites the Commission’s Annual Service Payment to the City’s General Fund as an example of a lawful revenue diversion that is “grandfathered”, as such term is defined in that document. As described later, for purposes of the financial projections described in this Report, it was assumed that the Annual Service Payment will continue to be grandfathered and that the Commission will continue to make the Annual Service Payment.

Airline Lease and Use Agreements

The City (acting through the Airport Commission) has entered into new Airline Agreements with certain airlines serving the Airport; such signatory airlines accounting for substantially all of the airline traffic at the Airport. The Airline Agreements became effective on July 1, 2023 (or after that date, depending on when individual airlines executed them), and expire on June 30, 2033. Similar to the prior agreements which expired on June 30, 2023, under the Airline Agreements, the signatory airlines have agreed to pay terminal rentals and landing fees calculated under a residual airline rate-making methodology, whereby the signatory airlines agree to pay the amounts necessary to enable the Airport Commission to fully recover its net Airport-related costs as defined in the Airline Agreements.

The airline ratemaking methodology in the Airline Agreements reflects a fully residual system; providing that, among other things, the airlines are to pay landing fees and terminal rentals each year to allow the Commission to recover the difference between Commission expenses and Commission nonairline revenues (i.e., a residual airline rate-making methodology).

The Commission’s expenses for any given Fiscal Year under the Airline Agreements include Operation and Maintenance Expenses, Equipment and Small Capital Outlays, debt service requirements, certain fund deposits (including ORCIF), the Annual Service Payment to the City, and any other amounts to ensure compliance with the Rate Covenant.

The Commission’s nonairline revenues include, among other sources, concession revenues, parking revenues, rental car revenues, other ground transportation revenues, revenues from other sales and fees, fixed or cost-recovery rentals, revenues from the Grand Hyatt Hotel located on-Airport (the SFO Hotel), interest income, and those PFC revenues designated as Revenues.

The Commission computes, in accordance with procedures set forth in the Airline Agreements, the landing fee rates and the terminal rental rates for the ensuing Fiscal Year using budgeted and

estimated operating, maintenance, debt service expenses, and ORCIF contributions, allocated to the Airfield Area and Terminal Area cost centers, respectively.

Airport Cost Centers

The Commission allocates both costs and revenues to eight Airport Cost Centers to calculate the landing fee rate and terminal rental rates to be charged to the airlines in the ensuing Fiscal Year:

- **Access and Roadways Area Center**, which includes all roadways and parkways, walks, bridges and culverts on the Airport.
- **Administration Area Center**, which means the revenues and maintenance and operation expenses that are not directly chargeable to other cost centers, including but not limited to costs associated with the overall administration of the Airport.
- **Airfield Area Center**, which includes all runways, taxiways, ramps, aprons, landing areas, adjacent infield areas, and related support facilities (e.g., perimeter dike, drainage pumping stations, field lighting, navigational aids, aircraft rescue and fire-fighting (ARFF) support facilities, fire and rescue watercraft, boathouses and related support facilities, and cart roads).
- **AirTrain Area Center**, which includes all areas of the AirTrain system including pedestrian bridges to terminals and other facilities.
- **Terminal Area Center**, which includes all areas within the passenger terminals of the Airport (e.g., concourses, boarding areas, public circulation space, pedestrian bridges, entrance areas to the underground walkways to the parking garages, mechanical/utility areas, lobbies, offices, concession areas, Commission facilities, baggage facilities, and storage areas).
- **Ground Transportation and Parking Area Center**, which includes all public parking lots, garages, service stations, shuttle bus services (non-airline), and rental car facilities.
- **Other Leased Areas Center**, which includes all areas and facilities which support airline functions (e.g., hangars, aircraft maintenance facilities, cargo facilities, fuel farms, flight kitchens), Airport support, and City/State/federal installations, fixed base operators, airline offices outside the Terminal Area, airline employee parking, Airport-maintained employee parking, Airport support facilities with related parking, sewage/waste treatment plants, detention ponds, Coast Guard, FAA, FBI, and other related facilities, hotels, and all leased and unleased land not included in another Cost Center.
- **West of Bayshore Area Center**, which includes all of the property located west of U.S. Highway 101 currently under the jurisdiction of the Commission.

The net expenses of three indirect cost centers (AirTrain Area Center, Access and Roadways Area Center, and Administration Area Center) are fully allocable to the remaining five direct cost centers. In addition:

- Net expenses or revenues of the Other Leased Area Center and the West of Bayshore Area Center are allocable to the Airfield Area Center for the calculation of landing fee rates.
- Net revenues of Ground Transportation and Parking Area, if any, are allocable to the Airfield Area Center for the calculation of landing fee rate; while if there are net deficits they are allocable to Terminal Area Center for the calculation of terminal rental rate.

Therefore, the calculation methodology of the landing fee rate and terminal rental rate ensures a full cost recovery, and thus compliance with the Rate Covenant.

Operating Revenue and Capital Improvement Fund

The Airline Agreements retain a residual ratemaking approach, and incorporate the build-up of a discretionary cash fund – the Operating Revenue and Capital Improvement Fund (ORCIF) – for use by the Commission, funded through the airline rate base, which can be used for any lawful purpose for which Airport Revenues may be used. The initial \$250 million deposit to the ORCIF in FY 2024 is offset with unearned aviation revenue balances available at the end of FY 2023. Annual deposits to the ORCIF in FY 2025 and thereafter are generated through airline rates and charges (landing fees and terminal rentals), given that these amounts are included as an element of the Airport cost base for the calculation of airline rates and charges. The ORCIF enhances available liquidity and could potentially be used for rate stabilization purposes as well as to provide an additional funding source for capital projects.

The Commission can make annual deposits to the ORCIF up to the Maximum Annual ORCIF Deposit amount, so long as the unencumbered and unallocated balance remains below \$650 million at the start of a fiscal year, adjusted for inflation (projected to be \$753.8 million in FY 2030). The annual deposit amount includes:

- ***Minimum Annual ORCIF Deposit:*** The minimum annual deposit amount is \$25 million for FY 2025 through FY 2028, and \$30 million for FY 2029 through FY 2033, adjusted for inflation.
- ***Additional Annual ORCIF Deposit:*** The deposit amount for FY 2024 is \$250 million. The future annual limits are \$70 million for FY 2025, \$60 million for FY 2026, \$50 million for FY 2027, \$40 million for FY 2028, \$30 million for FY 2029, \$25 million for FY 2030 and \$25 million for FY 2031 (with zero in both FY 2032 and FY 2033), adjusted for inflation and limited to be no more than the sum of (a) PFCs estimated to be included as Revenues, and (b) surplus from prior Fiscal Years (i.e., the unearned aviation revenue balance) estimated to be applied to offset airline rates and charges for such Fiscal Year.

The additional deposit amount would be offset by a corresponding increase in the amount of PFCs used to pay debt service (highlighting the importance of Commission management’s efforts to build up the PFC balance during recent years) and/or the use of unearned aviation revenue, the effect of which would be to lower the total amount that would need to be recovered through airline fees and charges.

Table 21 summarizes the annual minimum and additional deposits to the ORCIF, as outlined in the Airline Agreements.

Table 21
Annual ORCIF Deposits per the Airline Agreements

FY	Minimum deposit	Additional deposit	Total
2024	\$ -	\$ 250	\$ 250
2025	25	70	95
2026	25	60	85
2027	25	50	75
2028	25	40	65
2029	30	30	60
2030	30	25	55
2031	30	25	55
2032	30	-	30
2033	30	-	30

Note: Expressed in millions of constant 2023 dollars, not including adjustments for inflation. Subject to a maximum ORCIF balance of \$650 million, not including adjustments for inflation. The initial \$250 million deposit in FY 2024 is offset with unearned aviation revenue balances available at the end of FY 2023.

Source: Airline Agreements, Section 5.6.

The financial projections included in this Report include a projection of PFC revenues applied as Revenues, which are higher than the annual limits for FY 2025 through FY 2030. Therefore, it was assumed that the annual limits, adjusted for inflation, will be the Additional Annual ORCIF Deposit.

The Commission may use the ORCIF funds for any lawful purpose, including reduction of airline rates and charges or CIP funding, neither of which is assumed to occur in this Report for the period through FY 2030.

As of March 1, 2024, the Commission had on hand the FY 2024 initial deposit of \$250 million and expects to transfer those funds into the ORCIF by June 30, 2024. Airport management continues to consider the best and most effective use of ORCIF funds, but has not yet reached a decision on how such funds will be used. Consequently, the financial projections included in this Report assume no draws on ORCIF balances for any purpose during the projection period.

Terminal Rentals and Landing Fees

The City Administrative Code states that the Commission has the power to fix, change, and adjust rates and charges for the furnishing of services at the Airport. This includes landing fees and terminal rentals, which are set following the methodology agreed upon in the Airline Agreements.

The Airline Agreements provide that, among other things, the airlines are to pay landing fees and terminal rentals each year to allow the Commission to recover the difference between Commission expenses and Commission nonairline revenues (i.e., a residual airline rate-making methodology).

The Commission expenses for any given Fiscal Year include the sum of the following:

- Allocated direct and indirect Operation and Maintenance Expenses
- Equipment and Small Capital Outlay
- Debt service related requirements, including amounts required:
 - For debt service on Bonds
 - To be paid under credit and liquidity facilities, interest rate swaps, and other agreements entered into in connection with Airport debt
 - For debt service on Special Facility Bonds, to the extent such Special Facility Bonds are further secured by and payable from Revenues, which must be authorized by a Majority-in-Interest (MII) of the airlines (none of the Commission’s currently outstanding Special Facility Bonds are further secured by Revenues)
 - For other subordinate contractual or debt-related payments
 - To ensure compliance with the Rate Covenant (if any)
- The Annual Service Payment to the City
- Amounts required to fund or replenish funds in the Contingency Account (if needed)
- The annual deposit to the ORCIF

The Commission’s nonairline revenues include, among other sources, concession revenues, parking revenues, rental car revenues, other ground transportation revenues, revenues from other sales and fees, fixed or cost-recovery rentals, revenues from the SFO Hotel, interest income, and those PFC revenues designated as Revenues.

The Commission computes, in accordance with procedures set forth in the Airline Agreements, the landing fee rates and the terminal rental rates for the ensuing Fiscal Year using budgetary and estimated information for the Airport Cost Centers (noted above). Not less than 60 days prior to the start of a Fiscal Year, the airlines are notified of the proposed rates, rentals, and fees for the ensuing year. These proposed rates, rentals, and fees are subject to review by, but not the approval of, the airlines at a meeting with representatives of the Commission, as provided for in the Airline Agreements. Rates, rentals, and fees become effective July 1 each year – the first day of the City’s Fiscal Year.

Additionally, if at any time during a Fiscal Year, the actual expenses (including debt service) are projected by the City to exceed by 10% or more the actual revenues in certain areas as defined in the Airline Agreements, then the Commission may, after consultation with the airlines and after using commercially reasonable efforts to reduce expenses, increase landing fees and/or terminal rental rates following a 60-day notification period. The airlines are required to pay such additional landing fees and/or terminal rentals, which shall equal the projected deficiency, over the remaining months of the then-current Fiscal Year.

At the end of each Fiscal Year, the amount the airlines should have paid in landing fees and terminal rentals to meet the requirement of the Rate Covenant is compared with the amount actually paid in such Fiscal Year. If there is an over-collection, as provided for in the Airline Agreements the Airport Commission can apply such unearned aviation revenue balances to reduce future airline rates and charges, and when used for this purpose in future years will be recognized as part of Revenues. If there is an under-collection, the Airport Commission can recover under-collected amounts through airline rates and charges over future years.

Airline Review of Capital Improvements

The Airline Agreements provide for review of proposed Airport capital improvements by the airlines that are signatory to the agreements. A “capital improvement” is defined as any item of capital expenditure with a cost exceeding \$778,140 in FY 2022 dollars (as adjusted annually pursuant to the Airline Agreements) and a useful life of more than 3 years.

An MII of the airlines signatory to the Airline Agreements may require the Commission to defer a capital improvement for six months so that such airlines can present their opposition to the improvement. Even in the absence of MII concurrence by the airlines, the Commission may undertake such capital improvement after the end of the six-month period. Several types of capital improvements are not subject to the MII review process, including those required by a federal or State agency having jurisdiction over Airport operations; those financed by Special Facility Bonds; an emergency expenditure that, if not made, would result in the closing of the Airport within 48 hours; and those funded with PFCs; among other exceptions.

Pursuant to the terms of the Airline Agreements, the Commission is to use commercially reasonable efforts to finance all capital improvements through grants, TSA funding, passenger facility charges, or the issuance of airport revenue bonds. The Commission may budget and spend up to \$5,218,606 (measured in FY 2022 dollars, as adjusted pursuant to the Airline Agreements) per year from its revenues on capital improvements, or a greater amount, as may be agreed to by an MII of the airlines.

While some projects in the CIP still require airline review, the Commission has completed the airline review process for \$9.6 billion (approximately 88%) out of the total \$11.0 billion CIP. The Airport plans to undertake additional MII reviews once project schedules and scopes are closer to being finalized.

Commercial Agreements, Leases, and Permits

The Airport Commission enters into commercial agreements and leases for automobile parking operations, rental car facilities, duty free operations, general merchandise concessions, and food and beverage operations, among other services, and issues permits for ground transportation providers, among other services.

Special Facility Obligations

The Commission, pursuant to Section 2.16 of the Bond Resolution, may designate an existing or planned facility as a “Special Facility,” and provide that revenues earned by the Commission from such Special Facility are “Special Facility Revenues” and are not included in Revenues. Under certain conditions, the Commission may issue Special Facility Bonds to fund such Special Facilities. Debt service on Special Facility Bonds is payable from and secured by the associated Special Facility Revenues and not from or by Net Revenues of the Commission.

As of April 1, 2024, \$87.7 million in principal amount of SFO Fuel Special Facility Bonds were outstanding. These bonds financed and refinanced certain fuel storage and delivery facilities at the Airport. Rent payable by SFO Fuel Company LLC is pledged to repay these bonds.

The Commission also has outstanding Special Facility Bonds related to the SFO Hotel as discussed later in the Report.

ANNUAL DEBT SERVICE REQUIREMENTS

Exhibit C presents a summary of estimated sources and uses of funds for the 2024ABC Bonds as prepared by PFM Financial Advisors LLC (PFM), the Airport Commission’s co-municipal adviser, based on certain data and information provided by the Commission.

For purposes of this Report, it was assumed that approximately \$512.1 million of principal amount of new money 2024ABC Bonds (i.e., Bonds issued for the purpose of repaying commercial paper balances, as well as to fund related capitalized interest, reserve fund deposits, and issuance costs) are to be issued as fixed-rate securities with an estimated all-in true interest cost of 4.67% and a term to final maturity of 25 years. Interest on various portions of the new money 2024ABC Bonds is capitalized through the in-service dates of the respective projects that are being funded with 2024ABC Bond proceeds (FY 2027 at the latest).

Exhibit C also presents a summary of the estimated sources and uses of funds for the anticipated Future Bonds, which are expected to be issued during the projection period, although the timing and amount of this issue may change based on future events and circumstances. The estimated sources and uses of funds for the Future Bonds were also provided by PFM, based on certain data and information provided by the Commission. These Future Bonds were assumed to have a term to final maturity of 30 years with approximately level annual debt service (after the respective capitalized interest periods), and to be issued at an all-in true interest cost of 6.1%.

While for purposes of this Report a level annual debt service structure was assumed for the Future Bonds, the Commission intends to investigate alternative structures that would smooth total annual debt service (taking both currently Outstanding Bonds, the proposed 2024ABC Bonds, and the Future Bonds into account) and better enable the Commission to achieve its financial targets, such as smoothing the future annual airline cost per enplaned passenger metric.

In addition to providing funds for the Capital Improvement Plan, for purposes of this Report it was assumed that the Airport Commission would use a portion of the proceeds of the Future Bonds to increase the balance of the Contingency Account. A summary of the new money portions of the 2024ABC Bonds and the Future Bond issues assumed for purposes of this Report is shown in Table 22.

Exhibit D shows annual debt service for all current* and anticipated Future Bonds to be issued under the Bond Resolution during the projection period, including the 2024ABC Bonds. The estimated reduction in debt service associated with certain currently outstanding Bonds expected to be refunded with 2024ABC Bond proceeds is not reflected in the projections shown in Exhibit D. Annual debt service on a deposit basis is projected to increase from \$408.7 million in FY 2023 to \$1.23 billion in FY 2030.

Table 22
Summary of 2024ABC Bonds and Future Bond Assumptions
 San Francisco International Airport

	Principal Amount (\$ millions)	Project Costs (\$ millions)	Final Maturity	All-in True Interest Cost	Interest Capitalized through
2024 Bonds (new money portion)	\$ 512	\$452	2049	4.67%	FY 2027
Future Bonds					
2024 Fall Bonds	1,068	909	2054	6.1%	FY 2027
2025 Spring Bonds	1,531	1,242	2055	6.1%	FY 2028
2026 Bonds	1,968	1,571	2055	6.1%	FY 2029
2027 Bonds	1,829	1,490	2056	6.1%	FY 2029
2028 Bonds	1,257	1,067	2057	6.1%	FY 2030
2029 Bonds	1,212	1,080	2058	6.1%	FY 2030
Subtotal - Future Bonds	<u>\$8,865</u>	<u>\$7,360</u>			
Total: 2024 Bonds & Future Bonds	<u>\$9,377</u>	<u>\$7,812</u>			

Source: PFM Financial Advisors LLC, March 2024.

The Airport Commission intends to closely monitor aviation activity levels at the Airport, the Airport Commission’s financial position, Airport operational factors, and general financial market conditions; and make adjustments as needed to its CIP phasing, overall debt levels, and airline payments per enplaned passenger levels to ensure that needed Airport facilities are provided on a timely basis and in a manner that will not impede the Airport’s competitive position or financing capability.

Additionally, the Airport Commission intends to use commercial paper as interim financing for the CIP, and to repay the principal amount of commercial paper using the proceeds of Future Bonds. The interest payments on the commercial paper, as well as related expenses, are subordinate debt service of the Airport Commission.

*Debt service for currently outstanding variable rate Bonds was projected based on the requirements of each individual variable rate Bond series, assuming annual costs ranging between 3.96% and 5.12% for interest payments, remarketing fees and liquidity fees.

OPERATION AND MAINTENANCE EXPENSES

Under the Bond Resolution, Operation and Maintenance (O&M) Expenses are defined as substantially all operating and maintenance expenses of the Airport, excluding among other things depreciation and amortization expenses, and also excluding expenses paid from non-Revenue sources.

Projected O&M Expenses for FY 2024 through FY 2030 are based on the Commission's FY 2023 financial results, estimated data for FY 2024 (i.e., budgeted data for the fiscal year, adjusted for actual results for the first six months of FY 2024), and preliminary budgeted data for FY 2025 and FY 2026, as well as its plan for operating Airport facilities through the projection period. O&M Expenses for FY 2025 through FY 2030 take into consideration assumed inflationary increases in the cost of labor, services, utilities, and supplies, as well as the effect of new facilities coming into service during the projection period.

Exhibit E (and Table 23) shows O&M Expenses for the projection period, as determined in accordance with the Bond Resolution. In total, O&M Expenses are projected to increase from \$579.0 million in FY 2023 (actual) to \$1,103.1 million in FY 2030 (projected), representing an average increase of 9.1% per year.

Preliminary FY 2025 and FY 2026 Budgets

The single biggest increase in total O&M Expenses during the projection period is from \$658.2 million (estimated) in FY 2024 to \$850.4 million (budgeted, excluding costs of utilities sold) in FY 2025, a 29.2% year-on-year increase. The Commission expects to start a number of new initiatives and programs in FY 2025 aligned with its Strategic Plan, and address facility maintenance efforts that were delayed during the period of the pandemic. It also reflects the addition of 99 new Commission staff (approximately a 6% increase in Commission staffing levels) to support more efficient and effective Commission operations, support passenger growth, and support the implementation of the CIP, among other factors, as well as cost-of-living adjustments in staff compensation. Nearly half of the additional staff numbers would be for the new Airport Integrated Operations Center.

Historically, the Commission's actual O&M Expenses have been below budgeted levels for the same year. Between FY 2015 and FY 2023, actual expenses have ranged from 86.1% to 94.3% of the original budgeted expenses for that year, and averaged 90.2% of the budgeted amounts over that period. In FY 2023, actual O&M Expenses were 86.2% of the budgeted amount (\$579 million before certain adjustments, compared to a budget of \$672 million).

The Commission's O&M Expenses increased an average of 5.3% per year from FY 2015 to FY 2019 (pre-pandemic), and increased by an annual average of 3.9% per year from FY 2015 to FY 2023.

The Commission's full budgeted O&M Expenses amount of \$850.4 million for FY 2025 was assumed for purposes of the analysis described in this Report, although actual results are likely to differ from this

amount, and could be lower based on the observed historical relationship between actual and budgeted O&M Expenses discussed above.

Projection of O&M Expenses

For the purposes of this Report, the following assumptions were used to project O&M Expenses:

- The cost of labor (salaries) and benefits for the Commission will increase on average 7.3% per year from FY 2023 to FY 2030, which reflects assumed inflation and a real (net of inflation) increase.
- Contractual services will increase on average 15.8% per year, reflecting the Commission’s FY 2025 budget, followed by inflationary increases in the following years.
- Other expenses, including services provided by other City departments, repairs and maintenance, utilities, materials and supplies, general and administration, and environmental expenses, will increase on average 7.3% per year, reflecting the Commission’s FY 2025 budget, followed by inflationary increases in the following years.
- Incremental operating expenses are expected to be cumulatively up to \$43.0 million on an annualized basis by FY 2030 associated with completion of additional facilities in the CIP.

The allocation of O&M Expenses to Airport Cost Centers as shown in Exhibit E was based on the Airport Commission’s procedures and cost accounting system, as described in the Airline Agreements.

Table 23
Operation and Maintenance Expense Summary
For Fiscal Years Ending June 30; dollars in thousands

<u>Categories</u>	<u>Historical</u>		<u>Estimated</u>		<u>Projected</u>	
	<u>FY 2023</u>		<u>FY 2024</u>		<u>FY 2030</u>	
	<u>Amount</u>	<u>% of total</u>	<u>Amount</u>	<u>% of total</u>	<u>Amount</u>	<u>% of total</u>
Salaries and benefits	\$343,010	59.2%	\$369,417	56.1%	\$563,240	51.1%
Contractual services	99,300	17.1%	122,637	18.6%	277,343	25.1%
Services provided by other City departments	28,141	4.9%	40,662	6.2%	49,532	4.5%
Repairs and maintenance	61,018	10.5%	64,759	9.8%	99,620	9.0%
Utilities	29,715	5.1%	40,106	6.1%	45,107	4.1%
Materials and supplies	13,823	2.4%	14,303	2.2%	25,205	2.3%
General administration	4,011	0.7%	6,311	1.0%	4,872	0.4%
Incremental expenses for new facilities	0	0.0%	0	0.0%	38,161	3.5%
O&M Expenses before adjustments (a)	\$579,017	100.0%	\$658,195	100.0%	\$1,103,082	100.0%

(a) The adjustments to O&M Expenses include the application of federal COVID-19 relief grants for FY 2023.

Net of adjustments, the FY 2023 total is \$555.2 million.

Note: Numbers may not add to totals due to rounding.

Sources: Historical - Airport Commission; estimated and projected - LeighFisher.

REVENUES

Airport Revenues consist of substantially all airline revenues and nonairline revenues generated from the operation of the Airport, as shown in Table 24. Exhibit F presents Revenues of the Airport Commission for FY 2021, FY 2022, and FY 2023 (actual), FY 2024 (estimated), and FY 2025 through FY 2030 (projected).

Operating revenues included as Revenues are prepared based on Generally Accepted Accounting Principles (GAAP). Revenues for FY 2023 (actual) reflect a reduction of \$8.8 million due to the implementation of Governmental Accounting Standards Board Statement No. 87 (GASB 87) related to accounting for leases for governmental entities, and a reduction of \$23.8 million due to the allocation of federal ARPA grants to certain concession activities. Interest income was increased by \$13.1 million due to GASB 87 adjustments.

Airline Revenues

Airline revenues are derived from landing fees and terminal rentals paid by airlines to the Airport Commission pursuant to the Airline Agreements. Airline revenues, taken in the aggregate, are equivalent to the airline revenue requirement in the residual rate-making methodology used at the Airport.

The airline revenue requirement is calculated by subtracting nonairline revenues from the total revenue requirement as determined pursuant to the Airline Agreements. Nonairline revenues are discussed in more detail below.

As of June 30, 2023, the Airport Commission had recorded unearned aviation revenues of \$461.7 million, which are revenues over-collected from airlines in prior fiscal years (and therefore not recognized as revenues in the prior years). The unearned aviation revenue balance offsets the costs to fund the initial \$250 million deposit to the ORCIF during FY 2024.

Landing Fee Revenues. The calculation of the landing fee rate and landing fee revenues is shown in Exhibit F-1. Allocated costs of the Airfield Area (including O&M Expenses and allocable debt service) are calculated first. Then, certain adjustments are made, as follows:

- The annual ORCIF deposit allocated to the Airfield Area is added
- Nonairline revenues generated from airfield activities, including allocated PFC revenues, are deducted
- Other Leased Areas and West of Bayshore Area cost center deficits are added (or surpluses are subtracted), as applicable
- Adjustments for prior year Airfield Area surpluses (or deficits) are added (or subtracted, as applicable)

The resulting net amount is then divided by the projected landed weight of the scheduled airlines to calculate a basic landing fee rate.

Subsequently, a landing fee surcharge is collected to recover 50% of the Rental Surcharge (described below) net of surplus in the Ground Transportation and Parking Area, if any. The sum of the basic

landing fee rate and the surcharge rate, if any, is the effective landing fee rate to be paid by the airlines.

The effective landing fee rate is projected to increase from \$5.98 per 1,000 pounds of landed weight charged in FY 2024 to \$14.96 per 1,000 pounds of landed weight in FY 2030. Landing fee revenues are projected to increase from \$251.9 million to \$736.0 million over the same period.

Table 24
Operating Revenue Summary
For Fiscal Years Ending June 30; dollars in thousands

<u>Categories</u>	<u>Historical</u>		<u>Estimated</u>		<u>Projected</u>	
	<u>FY 2023</u>		<u>FY 2024</u>		<u>FY 2030</u>

Total operating revenues	\$ 1,026,727	100.0%	\$ 1,317,916	100.0%	\$ 2,262,366	100.0%

(a) Revenues from taxi cabs are included in the "Other Concession Revenue" category in this table.

Note: Numbers may not add to totals due to rounding.

Sources: Historical - Airport Commission; estimated and projected - LeighFisher.

Terminal Rentals. The calculation of the terminal rental rate and terminal rental revenues are shown in Exhibit F-2. Allocated costs of the Terminal Area (including allocable O&M Expenses and debt service) are calculated first. Then, certain adjustments are made as follows:

- The annual ORCIF deposit allocated to the Terminal Area is added
- The Annual Service Payment to the City is added
- Adjustments to prior year surpluses (or deficits) in the Terminal Area are added (or subtracted, as applicable)

The resulting amount is divided by the gross square footage of the Terminal Area to calculate the basic terminal rental rate per square foot.

Subsequently, a terminal Rental Surcharge is calculated, as follows:

- The cost of public space in the Terminal Area (the basic rental rate multiplied by total public space) is calculated
- Nonairline revenues generated in the Terminal Area, including allocated PFC revenues, are deducted
- Deficits in the Ground Transportation and Parking Area (if any) are added

If the resulting net amount is a deficit, it is allocated 50% to the Terminal Area (and 50% to the Airfield Area, as noted above), with the 50% share allocated to the Terminal Area divided by airline leased space to calculate the terminal Rental Surcharge rate per square foot. If the resulting net amount is a surplus, it is allocated 100% to the Terminal Area and results in a downward adjustment to the basic terminal rate. The effective terminal rental rate paid by the airlines is the sum of the basic rental rate and the Rental Surcharge rate, if any.

The effective average terminal rental rate is projected to increase from \$225.62 per square foot charged in FY 2024 to \$459.10 per square foot in FY 2030. Airline terminal rental revenues are projected to increase from \$495.3 million to \$774.1 million over the same period.

Total Airline Revenues and Airline Payments per Enplaned Passenger. As shown in Exhibit F-3, passenger airline payments per enplaned passenger increased from \$17.70 in FY 2019 (the last full fiscal year before the onset of the COVID-19 pandemic) to \$23.80 in FY 2023. Before a projected decrease to \$21.08 in FY 2024 (caused by a projected marginal increase in the airline revenue requirement compared to a 13.6% projected increase in enplaned passengers in that year). Airline payments per enplaned passenger are projected to increase to \$43.16 in FY 2030.

The enplaned passenger projections used to calculate these figures are described in an earlier section. The projected level of airline costs per enplaned passenger would not be expected to impede the attainment of these enplanement projections. (These figures reflect airline payments made by the passenger airlines only; landing fees paid by the cargo airlines are excluded from the numerator for the calculation.)

Other Aviation Revenues

The Commission generates revenues from aviation sources in addition to fees and charges paid by the airlines. It was assumed that the Airport Commission's current operating practices related to the

other aviation revenue items would remain generally unchanged during the projection period; and where applicable, expiring contracts and agreements would be renewed or replaced on generally the same terms as the current contracts and agreements.

Other Rental Revenue. This revenue category represents monies collected from the aviation-related activities of Airport tenants. It consists primarily of (1) rental revenue from ground leases, cargo building leases, and aircraft parking area leases, and (2) fees for parking by airline employees. Other rental revenue totaled \$58.5 million in FY 2023 and is projected to increase to \$76.8 million in FY 2030.

Other Miscellaneous Aviation Revenue. This revenue category consists primarily of rentals, fees, and charges related to the sale of aviation fuel, servicing of airline and general aviation aircraft, and for the use and occupancy of general aviation facilities. Other aviation revenue totaled \$52.0 million in FY 2023 and is projected to increase to \$73.3 million in FY 2030.

Nonairline Revenues

Nonairline revenues include revenues generated from automobile parking, automobile rentals, TNCs, duty free, retail, food and beverage, telephone and other services, and other concessions. Additionally, nonairline revenues include certain interest earnings of the Commission. It was assumed that the Airport Commission's current operating practices related to nonairline revenue items would remain generally unchanged during the projection period unless otherwise noted; and where applicable, expiring contracts and agreements would be renewed or replaced on generally the same terms as the current contracts and agreements (unless otherwise noted below).

Minimum annual guarantees (MAGs) for concessions, where applicable, were suspended in June 2020 and were reinstated in conjunction with passenger traffic recovery during FY 2022 and FY 2023. MAGs for most concessions have been fully reinstated by now, where applicable. However, for purposes of the projections described in this Report, projected revenues are calculated based on per passenger spend rates and passenger levels rather than being based on the MAGs. Concession revenues in total are likely to be higher when calculated based on MAGs than when based on spend rates. These revenues are described below and shown in Exhibit F.

Automobile Parking. The public automobile parking facilities at the Airport are operated for the Commission by SP Plus SF Joint Venture under a management contract with a term that expires on June 30, 2028. The Commission periodically reviews and adjusts parking rates, receives all revenues, and pays all costs of operation and maintenance of the facilities. The Commission does not impose a privilege fee on the off-Airport parking operations of private companies, but does impose a trip fee for the shuttle bus operations of off-Airport parking companies.

Automobile parking revenues consist of all revenues derived from public parking at the Airport. The remote long-term parking facilities are served by shuttle bus.

The parking rates are \$2 per 15-minute increment up to a maximum of \$36 for each 24 hours in the Domestic Parking Garage and in the ITC garages, and a daily maximum parking rate of \$25 in the long term parking lots. Revenues from valet parking, the sale of impounded vehicles, and parking for employees of concession operators are also included in parking revenues. As shown in Exhibit F, revenues from the Commission's parking operation totaled \$127.7 million in FY 2023.

Parking revenues were projected as a function of projected numbers of originating passengers, parking transactions per passenger, and revenue per transaction. The parking revenue projection for FY 2030 is \$164.6 million, which reflects the projected increase in enplaned passengers and the anticipated completion of an additional long-term parking garage in FY 2028. For purposes of this Report, it was assumed that parking rates would not be adjusted during the projection period.

Rental Cars. By resolution of the Commission, all on-Airport rental car transactions must take place at the consolidated rental car facility, and all off-Airport rental car companies must pick up and drop off their customers at that facility. No rental car counters are located in the terminal complex.

In September 2020, the Commission executed five-year rental car agreements with four companies that operate nine rental car brands on-Airport. These nine rental car brands are Alamo, Avis, Budget, Dollar, Enterprise, Hertz, National, Sixt, and Thrifty. The agreements have a two-year extension option exercisable by the Commission. The rental car agreements provide for a concession fee equal to the greater of 10% of gross receipts or a stated minimum annual guarantee (MAG). Additionally, the on-Airport rental car companies pay facility rent at the consolidated rental car facility, which is presented as “rental car facility fees” under the Net Sales and Services category of Exhibit F.

Rental car concession fee revenues from on-Airport operators totaled \$48.7 million in FY 2023, and are projected to increase to \$68.5 million in FY 2030, driven by recovering passenger activity. It was assumed that the terms and conditions governing the use of the Airport by off-Airport rental car operators, which represents a minimal amount of revenue, would not change materially during the projection period.

The Commission imposes a fee on rental car customers per rental contract for transportation between the terminal complex and the consolidated rental car facility on the AirTrain system. The rental car companies collect this transportation fee (which is currently \$16.00 per rental car contract) to reimburse the Commission for a portion of the cost of operating and maintaining the AirTrain system. Revenues from the transportation fee are presented as “rental car transportation fees” under the Net Sales and Services category of Exhibit F.

The Airport Commission implemented a rental car customer facility charge (CFC) in 2022, at a rate of \$10.00 per rental car transaction in accordance with California law, for the purpose of making improvements to the Commission’s rental car facilities. CFC revenues are not classified as Revenues of the Commission under the Bond Resolution (unless designated as such by the Commission) in accordance with a recently approved Bond Resolution amendment. CFC revenues have not been so designated by the Commission.

TNCs and Ground Transportation. This category consists of ground transportation and TNC trip fees. The Commission has entered into non-exclusive operating permits with transportation network companies (TNCs) operating at the Airport, including Uber and Lyft. Under the terms of these permits, TNC operators pay a \$5.50 per-trip fee for each pick-up and drop-off transaction at the Airport.

The Commission’s ground transportation fee structure is updated annually and reflects cost recovery principles, whereby the Commission seeks to recover allocable costs of these activities through revenues from ground transportation users of the Airport.

The Commission generated \$51.5 million in TNC trip fees and other ground transportation fees in FY 2023. Revenues in this category are projected to increase to \$73.3 million in FY 2030.

New business models and technologies such as car-sharing services and autonomous vehicles are currently being developed, which may impact the Airport Commission's ability to increase or maintain ground transportation revenues. However, safety and regulation remain the major obstacles for those business models and technologies to be publicly adopted, and the impact of public adoption cannot be evaluated as of the date of this Report.

Duty Free. In 2018, the Commission entered into a concession agreement with DFS Group L.P. (DFS) covering 42,581 square feet of space in the ITC for the exclusive right to sell duty free merchandise and the non-exclusive right to sell luxury merchandise on a duty paid basis*. The agreement extends for a development term during which tenant facilities were refurbished and developed, plus an operating term of up to 14 years. This lease will be automatically extended in the event that the Airport opens a single consolidated security checkpoint in the International Terminal during the 14-year lease term, by an amount of time sufficient to ensure that DFS will have five years of operation in the reconfigured retail plaza located past the consolidated checkpoint.

The agreement with DFS originally provided for the payment of concession fees equal to the greater of a MAG or a percentage of gross sales. The initial MAG was set at \$42 million, and was subject to annual upward adjustment. The percentage rent according to the agreement was to be calculated as 45.8% of the first \$100 million in gross sales from the duty free operations, 41.8% of the next \$60 million of sales, and 30% of gross sales in excess of \$160 million. DFS was required to make a minimum investment of \$46.3 million in the development of retail facilities.

The base term for the agreement commenced on April 1, 2020. The MAG on duty free operations was suspended in June 2020 and reinstated in May 2023. However, in light of the ongoing changes in international travel patterns since the original agreement was entered into, the Airport Commission and DFS agreed upon an amendment to certain terms of the agreement. Specifically, under Amendment No. 4 to the agreement with DFS approved by the Commission in October 2023, the percentage of gross revenues has been set at 36% for calendar years 2024, 2025, and 2026, with a MAG of \$30 million per year (adjusting annually during that period in accordance with the terms of the original agreement). Commencing in calendar year 2027, the original rental structure and MAG terms, described in the paragraph above, are scheduled to be restored.

For purposes of this Report, it was assumed that the terms of Amendment No. 4 would apply, and that gross sales per international enplaned passenger would be \$12.70 in FY 2024, compared to \$12.66 in FY 2023.

The percentage fee paid by DFS to the Airport Commission was \$26.1 million in FY 2023. After a GASB 87 adjustment and the application of ARPA concession grants, duty free revenues of \$14.1 million were recognized by the Commission as Revenue in FY 2023. Duty free revenues are projected to increase to \$58.1 million in FY 2030 due to the reinstatement of the original agreement terms in 2027.

*The DFS agreement also includes 3,714 square feet of duty free retail space in Terminal 1, which may also have some items for sale on a duty paid basis. The DFS agreement encompasses 46,295 square feet in total.

Retail. The Commission provides for retail concessions on a duty paid basis through agreements with multiple vendors, including DFS, as noted above. All of these agreements have a MAG provisions, which were temporarily suspended but the majority of these have been fully reinstated by now. For the purposes of this Report, the retail revenues are projected to change based on activity levels and average passenger spending, without specific adjustments to reflect the MAG. The Commission continues to review and improve its retail concession activities as opportunities arise. The domestic terminals currently have 38 retail outlets and the International Terminal has 25 retail outlets (including 15 duty free outlets).

Retail revenues consist of concession fees paid by gift and retail concessionaires in both the ITC and the domestic terminals. Revenues in this category totaled \$12.5 million in FY 2023. They are projected to increase to \$24.9 million in FY 2030.

Food and Beverage. Food and beverage operations are provided by multiple vendors throughout the terminals under different agreements. These agreements provide for a rental payment equal to the greater of a MAG or a percentage of gross sales. The MAG provisions were temporarily suspended due to the pandemic but the majority of these have been fully reinstated by now. For the purposes of this Report, the food and beverage revenues are projected to change based on activity levels and average passenger spending, without specific adjustments to reflect the MAGs. The domestic terminals currently have 52 restaurants and the International Terminal has 19 restaurants.

Food and beverage revenues consist mainly of rents and fees paid by food and beverage concessionaires for in-terminal operations. Food and beverage revenues totaled \$20.5 million in FY 2023. Revenues in this category are projected to increase to \$44.8 million in FY 2030, reflecting recovery in passenger numbers and inflationary growth.

Other Services. The Commission has entered into other terminal area concession agreements for advertising, banking, foreign currency exchange, and vending machines, among other services. These agreements provide for a rental payment equal to the greater of a MAG or a percentage of gross sales.

The Commission also has numerous leases, agreements, and permits with airlines and others for various types of rentals and other activities at the Airport, including, among others, ground transportation, hangar rentals, cargo handling, FBO facilities, aviation support, airline employee parking, and federal government activities.

Other services revenues consist of rents and privilege fees paid by banks, an advertising company, and several other miscellaneous concessionaires. Revenues in this category totaled \$21.0 million in FY 2023 and are projected to increase to \$37.5 million in FY 2030.

Other Concession Revenues. Other concession revenues consist of nonairline revenues from terminal and other building space, taxicab trip fees, miscellaneous fees and charges, privilege fees assessed off-Airport rental car companies, and rents from on-Airport rental car companies for unimproved land. Other concession revenues totaled \$15.6 million for FY 2023 and are projected to increase to \$19.6 million in FY 2030.

Net Sales and Services Revenues. Net sales and services revenues consist primarily of revenues from utilities, BART District payments, rental car facility fees, rental car transportation fees,

and other miscellaneous sales and services. Revenues in this category totaled \$84.9 million in FY 2023. Such revenues are projected to increase to \$110.8 million in FY 2030. Among the individual revenue items in this category are the following:

Utilities. The Commission sells gas and electricity to Airport tenants. Revenues from such sales, net of the cost to purchase the gas and electricity from suppliers, are recorded as utility revenues.

BART District Payments. The BART District pays the Commission a fixed rental amount of \$2.5 million per year and a fee for recovery of certain O&M expenses, which totaled \$2.6 million in FY 2023 (net of a GASB 87 adjustment of \$770,393).

Rental Car Facility Fees. This category represents revenues derived under facility leases with the on-Airport rental car companies for the use and occupancy of the consolidated rental car facility. This is in addition to the concession fees paid by these companies.

Rental Car Transportation Fees. Rental car companies collect a per rental car contract fee, which is paid to the Commission for reimbursement of certain costs of operating and providing the AirTrain facilities. The Transportation and Facilities Fee is currently \$16.00 per rental car contract, and is projected to stay at that level through the end of the projection period.

Other Sales and Services. This category represents, among other sources of revenue, cost-based reimbursements paid by San Francisco Terminal Equipment Company, LLC for equipment and operating expenses in the ITC, revenues from a telecommunications access fee, and revenues from fees for licenses, permits, and security badges.

SFO Hotel

The Airport Commission has designated the new SFO Hotel as a Special Facility, and issued \$260 million of Special Facility Bonds in June 2018* to finance the construction of the SFO Hotel. Simultaneously, the Airport Commission issued Second Series Revenue Bonds (the Series 2018B/C Bonds) to purchase those Special Facility Bonds and to finance the construction of the adjacent AirTrain station. The full principal amount of the Special Facility Bonds issued for the SFO Hotel remains outstanding.

With continued recovery from the COVID-19 pandemic, it is expected that the SFO Hotel will provide a stream of cash flows that will be included in Revenues of the Commission as defined in the Bond Resolution. Specifically, these Revenues will be the sum of: (1) an amount equivalent to the annual debt service on the Commission's SFO Hotel-related Special Facility Bonds (because the Commission, through a separate trust entity created by the Commission, is the sole holder of such bonds), plus (2) a portion of the annual net operating cash flow for the SFO Hotel, but only to the extent the Commission elects to transfer such monies to the Airport Revenue Fund.

During FY 2023, the SFO Hotel generated \$37.4 million of operating revenue, and had positive operating cash flow of \$3.9 million.

*The Commission issued \$260.0 million of Special Facility Bonds for the SFO Hotel at interest rates that step up over time, with a final term of 40 years.

While the financial performance of the SFO Hotel can be expected to improve generally in line with the recovery in aviation activity at the Airport, for purposes of this Report it was assumed that no monies from the SFO Hotel would be recognized as Revenues of the Commission during the projection period.

According to a report from the Board of Supervisors' Budget and Legislative Analyst to the Budget and Finance Committee of the Board, dated October 30, 2015, in connection with the Board's approval of the financing structure for the project, the contribution to the Annual Service Payment from the SFO Hotel is expected to be equivalent to 15% of the gross revenues of the SFO Hotel less hotel operating expenses and scheduled debt service on the Special Facility Bonds. For purposes of this Report, no such monies from the SFO Hotel were assumed to be included in the Annual Service Payment during the projection period.

Interest Earnings

Certain categories of interest earnings of the Commission are categorized as Revenues in accordance with the Bond Resolution. Specifically, interest earnings on operating funds and accounts, the Debt Service Fund, the Debt Service Reserve Fund, and the Contingency Account are classified as Revenues. Interest earnings totaled \$40.0 million in FY 2023, and are projected to increase to \$56.8 million in FY 2030, assuming interest earning rates of 2.0% annually, and increases in the Debt Service Reserve Fund and Contingency Account balances related to the Future Bonds assumed to be issued during the projection period.

PFCs Designated and Applied as Revenues

As described earlier, the Commission has used, and intends to continue to use, a portion of its PFC revenues to pay debt service on certain FAA-approved and PFC-eligible costs associated with the development of certain terminal and other projects. When designated and applied as such by the Commission, PFC revenues used to pay debt service are classified as Revenues under the terms of the Bond Resolution, which also serve to reduce the amount of the airline revenue requirement under the terms of the Airline Agreements. In any given period, the Commission may decide to apply an amount of PFCs less than the amount it earlier designated for such purpose.

For the purposes of this Report, it was assumed that the Airport Commission would designate and apply a portion of its PFC fund balance annually as Revenues during the projection period, including \$130 million in FY 2024, \$185 million in FY 2025, and \$200 million annually between FY 2026 and FY 2030. While the amount of PFCs designated as Revenues exceeds the annual PFC collections in most years of the projection period, the PFC fund balance at the end of FY 2030 is projected to be \$136.7 million.

APPLICATION OF REVENUES

Exhibit G presents the projected application of Airport Commission Revenues for FY 2024 through FY 2030 in accordance with the provisions of the Bond Resolution, as well as historical data for FY 2021 through FY 2023.

After fulfillment of the higher priority funding obligations described in Section 5.06 of the Bond Resolution, all remaining amounts are deposited into the General Purpose Account.

DEBT SERVICE COVERAGE

Exhibit H presents Revenues; O&M Expenses; debt service requirements for current Outstanding Bonds, estimated debt service requirements on the 2024ABC Bonds, and anticipated debt service on the Future Bonds assumed to be issued during the projection period; and debt service coverage.

Transfer Amount Available

The projection of the amount available for deposit by the Commission into the Revenues Account from the Contingency Account in each Fiscal Year of the projection period is shown in Exhibit H. Based upon the plans of, and actions taken by, the Commission, it was assumed that the Commission will maintain a balance in the Contingency Account and increase the amount when needed; however, the Commission is not required to do so. It was further assumed that, as provided for in the Bond Resolution, the amount in the Contingency Account will be deposited into the Revenues Account at the end of such Fiscal Year and that such amount will be re-deposited into the Contingency Account from the Revenues Account at the beginning of the following Fiscal Year.

For the purposes of this Report, as noted above it was assumed that the Airport Commission would retain interest earnings of the Contingency Account, at approximately \$3 million to \$7 million annually, and deposit a total of \$168.2 million of Future Bond proceeds into the Contingency Account, as shown in Exhibit C.

While the amount used for the Transfer in the additional bond test calculations is limited to the lesser of (1) the amount available in the Contingency Account for such Fiscal Year, or (2) an amount equal to 25% of Maximum Annual Debt Service as calculated for such Fiscal Year, there is no such restriction for Rate Covenant calculation purposes. However, for purposes of this Report, it was assumed that in any given year the Transfer would be equivalent to the lesser of the Contingency Account balance or 25% of Annual Debt Service for that year. In each year of the projection period the amount of the annual Transfer is less than the Contingency Account balance, and by the end of FY 2030 the projected balance in the Contingency Account is \$339.8 million.

Projected Debt Service Coverage

In each year of the projection period, Net Revenues (together with Transfers) are projected to exceed the requirements of the Rate Covenant contained in the Bond Resolution. The projected debt service coverage reflects the effects of the Commission's Bond issuances during the projection period, specifically the 2024ABC Bonds and the anticipated Future Bonds to be issued during the projection period. Debt service coverage is projected to range from 140% to 195% in each year between FY 2024 and FY 2030.

The projected coverage exceeds 125% in each year of the projection period primarily because certain categories of expenses are included in the airline rate base for the calculation of airline rentals, fees, and charges, but are "below the line" items, and are to be paid after the payment of Bond debt service and the calculation of debt service coverage. These expense items include the Annual Service Payment to the City which is assumed to be paid in accordance with current practices throughout the projection period, the annual ORCIF deposit which is included as a component of the Airport cost base for airline rates and charges calculations, and equipment and small capital outlays.

Further, Net Revenues in each Fiscal Year are projected to be at least sufficient to make all required payments and deposits to the Revenue Bond Account, as well as to make the Annual Service Payment to the City.

Thus, the Rate Covenant provision of the Bond Resolution is projected to be met in each Fiscal Year of the projection period.

SUMMARY OF BASE CASE FINANCIAL PROJECTIONS

Exhibit I summarizes the projected financial results of the Airport Commission presented in Exhibits A through H, as discussed in the preceding sections, and includes the calculation of airline payments (costs) per enplaned passenger based on such data. Revenues and O&M Expenses were projected using the base case aviation activity projection of enplaned passengers and aircraft landed weight presented earlier in the Report.

After the initial \$250 million deposit into the ORCIF in FY 2024, annual deposits thereafter are projected to range between \$97.4 million and \$63.8 million between FY 2025 and FY 2030. The ORCIF balance at the end of FY 2030 is projected to be \$720.9 million, measured in escalated dollars. This is less than the projected allowable maximum balance of \$758.3 million in FY 2030 (i.e., the \$650 million cap in constant dollars, as adjusted for projected inflation). This assumes that no draws are made from the ORCIF through FY 2030.

SENSITIVITY CASE

Exhibit J is an identical presentation of financial projections for a hypothetical sensitivity scenario. The hypothetical sensitivity scenario is based on the same assumptions described in the sections above, except:

- It was assumed that the recovery of domestic passenger traffic is slower than expected which contributes to overall slower growth in enplaned passengers at the Airport.
- Projections of those categories of nonairline and commercial revenues that are variable based on passenger activity were decreased proportionately.
- The debt service profile reflects the base case – the annual debt service profile for the 2024ABC Bonds shown in Exhibit D, and approximately level annual debt service for the Future Bonds.
- The amount of PFCs classified as Revenues the same than that shown in the base case.

Airline payments were calculated under the residual cost rate-setting methodology of the Airline Agreements. Under this hypothetical scenario, the Commission would generate sufficient Net Revenues to meet the requirements of the Rate Covenant, and debt service coverage would be approximately the same as under the base case projections, given the residual airline ratemaking system. Passenger airline payments per enplaned passenger would increase to \$46.68 in FY 2030, compared to \$43.16 in FY 2030 under the base case.

In the event that enplaned passenger levels are less than those reflected in the base case, the Airport Commission would have a range of options at its disposal to mitigate the impact of such an eventuality. Among them would be the ability to reduce Operation and Maintenance Expenses,

apply ORCIF balances, or undertake a mid-year airline rate adjustment in the event that there is a significant drop in aviation activity at the Airport during the course of a fiscal year.

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Board of Supervisors
City and County of San Francisco

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Airport Commission, City and County of San Francisco, San Francisco International Airport, an enterprise fund of the City and County of San Francisco, California, (the "Airport"), as of and for the year ended June 30, 2023 and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Airport as of June 30, 2023, and the changes in financial position and its cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards (Government Auditing Standards)*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Airport, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matters

As discussed in Note 1, the financial statements present only the Airport and do not purport to, and do not, present fairly the financial position of the City and County of San Francisco, California, as of June 30, 2023, and the changes in its financial position, or, where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Airport's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Airport's financial statements. The accompanying schedule of passenger facility charge revenues and expenditures and the schedule of customer facility charge revenues and expenditures, are presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of passenger facility charge revenues and expenditures and the schedule of customer facility charge revenues and expenditures are fairly stated in all material respects in relation to the financial statements as a whole. The information marked "unaudited" has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2023 on our consideration of the Airport's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Airport's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Airport's internal control over financial reporting and compliance.

Management's Discussion and Analysis

June 30, 2023

The management of the Airport Commission (Commission), City and County of San Francisco, San Francisco International Airport (the Airport or SFO), an enterprise department of City and County of San Francisco (the City), presents the following narrative overview and analysis of the financial activities of the Airport for the fiscal year ended June 30, 2023.

The Airport's financial statements comprise the following components: (1) Financial Statements and (2) Notes to Financial Statements. The Airport's financial statements include:

The *Statement of Net Position* presents information on the Airport's assets, deferred outflows of resources, liabilities, and deferred inflows of resources as of the year end, with the difference between the amounts as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the Airport is improving or weakening.

While the statement of net position provides information about the nature and amount of resources and obligations at the year end, the *Statement of Revenues, Expenses, and Changes in Net Position* presents the results of the Airport's operations over the course of the fiscal year and information as to how the net position changed during the fiscal year. The statement can be used as an indicator of the extent to which the Airport has successfully recovered its costs through user fees and other charges. All changes in net position are reported during the period in which the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

The *Statement of Cash Flows* presents changes in cash and cash equivalents resulting from operating, noncapital financing, capital financing, and investing activities. The statement summarizes the annual flow of cash receipts and cash payments, without consideration of the timing of the event giving rise to the obligation or revenue and exclude noncash accounting measures of depreciation or amortization of assets.

The *Notes to Financial Statements* provide information that is not displayed on the face of the financial statements but is essential to a full understanding of the financial statements.

Highlights of Airline Operations at the Airport

Fiscal year 2022-23 passenger traffic at SFO concluded with approximately 47.1 million passengers, an increase of 34.9% compared to the prior fiscal year (FY). Domestic enplaned passengers increased by 20.2%, and international enplaned passengers increased by 101.0%. The year-over-year recovery was predominately due to increased travel demand. Total cargo and U.S. mail tonnage decreased by 16.7%.

Published scheduled departing seats for SFO, Oakland (OAK) and Mineta San Jose International (SJC) were 26.1%, 17.4%, and 22.9% higher, respectively, for fiscal year 2022-23 compared to prior fiscal year. Total scheduled departing seats for the Bay Area were 23.9% higher than the prior fiscal year.

Management's Discussion and Analysis

June 30, 2023

Passenger and Other Traffic Activity

The number of flight operations (takeoffs and landings) increased by 12.7% fiscal year over year. Aircraft revenue landed weight, which affects revenue generated by landing fees, increased by 22.1% in comparison to the prior fiscal year. Total airport passengers, which are comprised of enplaned, deplaned and in transit passengers (defined as passengers who fly into and out of SFO on the same aircraft), were close to 47.1 million, which was 34.9% above last fiscal year. Overall enplaned passengers increased by 34.6% over the prior fiscal year to 23.4 million. Domestic enplanements increased by 20.2% to 17.2 million, and international enplanements increased by 101.0% to 6.2 million passengers. Total cargo and U.S. mail tonnage decreased by 16.7%.

The following table¹ presents a comparative summary of passenger and other traffic at the Airport for fiscal years ended June 30, 2023 and 2022:

	<u>FY 2023</u>	<u>FY 2022</u>
Flight operations (takeoffs and landings)	369,974	328,183
Landed weight (in 000 lbs.)	32,350,429	26,496,685
Total Airport passengers	47,052,180	34,890,102
Enplaned passengers	23,419,568	17,396,249
Domestic enplaned passengers	17,177,004	14,290,034
International enplaned passengers	6,242,564	3,106,215
Cargo and U.S. mail tonnage (in metric tons)	454,121	545,335

Passenger Traffic

Passenger enplanements in fiscal year 2022-23 increased by 34.6% from 17.4 million to 23.4 million. Domestic passenger enplanements increased by 20.2%, and international enplanements increased by 101.0%. Overall enplanements increased by 6.0 million passengers, comprised of 2.9 million in domestic and 3.1 million in international enplanements. Passenger traffic continues to close the gap to pre-pandemic levels, and has recovered 81.8%, with domestic and international recoveries of 80.6% and 85.3% respectively, compared to fiscal year 2018-19 (pre-pandemic).

Except for Asia where COVID-19 restrictions were in place for a longer period of time, international sector passenger traffic recovery was robust following the lifting and relaxation of COVID-19 restrictions worldwide, with recovery of over 90.0% for all international regions. For fiscal year 2022-23, enplanements to Asia increased by 199.6%, Europe increased by 84.0%, Latin America increased by 21.7%, Canada increased by 114.2%, Middle East increased by 44.4%, and Australia/Oceania increased by 272.4%, compared to fiscal year 2021-22.

Management's Discussion and Analysis

June 30, 2023

On a quarterly basis, enplanements increased by 55.7%, 35.5%, 39.0%, and 16.6%, relative to the same quarter in fiscal year 2021-22.

Overall airline seat capacity increased by 26.1% during fiscal year 2022-23 as compared to fiscal year 2021-22, with a domestic increase of 16.9% and an international increase of 59.7%. The overall load factor (the percentage of seats filled on flights) increased by 5.3 percentage points to 84.4%. The domestic load factor increased by 2.3 percentage points to 85.1%, while the international load factor increased by 17.0 percentage points to 82.8%.

Flight Operations

During fiscal year 2022-23, the number of aircraft operations (takeoffs and landings) increased by 41,791 flights (12.7%) as compared to fiscal year 2021-22. Scheduled passenger aircraft arrivals and departures increased by 42,858 flights (13.5%). Civil and military traffic decreased by 1,067 flights (9.0%). The total number of scheduled airline passenger and cargo landings increased by 14.3%, with an increase in revenue landed weight of 22.1%. Domestic passenger landings increased by 10.6%, while domestic landed weight increased by 14.4%. International passenger landings increased by 38.7%, while international landed weight increased by 45.1%. Average passenger aircraft size increased from approximately 153 to 167 seats per flight. Domestic scheduled seats per flight increased from 141 to 149, while international scheduled seats per flight increased from 227 to 243. The overall balance between mainline passenger aircraft (wide body and narrow body) and commuter aircraft (regional jets and turbo props) shifted 6.6% towards mainline aircraft, which increased to 78.1% for domestic and international operations combined. Mainline landings increased by 26,213 and commuter landings decreased by 4,853.

Cargo Tonnage

Fiscal year 2022-23 cargo and mail tonnage decreased by 91,214 metric tons (16.7%). Domestic cargo and mail decreased by 36,513 metric tons (16.6%), while international cargo and mail decreased by 54,701 metric tons (16.7%). Tonnage shares of cargo-only carriers decreased by 2.6% to 20.2%. Tonnage on cargo-only carriers decreased by 26.1%, while tonnage on passenger carriers decreased by 14.0%, due to overall decline in shipments.

Financial Highlights

- Liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources at the close of the fiscal year by \$822.9 million.
- Total revenue bonds payable by the Airport decreased by \$81.4 million.
- Operating revenues were \$1.1 billion.
- Operating expenses were \$902.8 million.
- Nonoperating expenses, net of revenues from nonoperating sources were \$197.4 million (including revenues of \$92.3 million from Passenger Facility Charges (PFC), \$11.4 million from Customer Facility Charges (CFC), and \$23.8 million from the American Rescue Plan Act (ARPA)). Total Federal awards received were \$24.6 million. The Airport has \$0.08 million remaining in Coronavirus Response and Relief

SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

Supplemental Appropriations Act (CRRSAA) and \$3.9 million in ARPA funds remaining available for use in fiscal year 2023-24.

- Capital contributions consist of grants from the Federal Aviation Administration's (FAA) Airport Improvement Program (AIP) of \$28.7 million.
- Transfers to the City and County of San Francisco for the annual service payments were \$48.7 million.
- Net position decreased by \$162.7 million mainly due to the cumulative effect of accounting change from the implementation of the Governmental Accounting Standards Board (GASB) Statement No. 91 - *Conduit Debt Obligations* and the recognition of capital assets for the SFO Fuel System.

SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

Total net position serves as an indicator of the Airport's financial position. The Airport's liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$822.9 million and \$660.2 million as of June 30, 2023 and 2022, respectively, representing a decrease of \$162.7 million (24.6%).

Unrestricted current assets consist primarily of cash and investments available to meet the Airport's current obligations. Unrestricted current assets increased by \$118.9 million (10.8%), primarily due to higher operating revenues as the Airport begins its recovery from the pandemic. As of June 30, 2023, the Airport has set aside \$156.7 million in a separate fund for purposes of its Other Postemployment Benefit (OPEB) obligations and such amount is included in unrestricted cash and investments held in the City Treasury in the statement of net position. The disposition of this fund is under management's discretion and has not been placed in a trust fund.

Restricted current assets consist of cash and investments held in the City Treasury and outside the City Treasury. Cash and investments held in the City Treasury consist primarily of PFCs collected, CFCs collected, debt service funds held by the bond trustee, grants receivable, and PFCs receivable. Restricted current assets increased by \$150.1 million (25.4%). The increase was primarily due to the new CFCs collected, higher investment earnings, increase of grants receivable and PFCs receivable.

Unrestricted noncurrent assets increased by \$589.3 million (243.7%) due to the increase in lease receivable.

Restricted noncurrent assets increased by \$182.7 million (19.6%), primarily due to the increase in interest receivable and less capital project spending which increased the cash and investments held in the City Treasury.

The net pension asset decreased by \$153.9 million (100.0%). The decrease was primarily due to investment losses that resulted in a net pension liability compared to a net pension asset in fiscal year 2021-22. See additional information in note 12a.

Capital assets consist of land, buildings, structures, improvements, equipment, and intangible assets. Capital assets, net of depreciation and amortization, decreased by \$42.6 million (0.6%), primarily due to the depreciation of assets.

Unamortized loss on refunding of debt decreased by \$5.6 million (15.6%). The decrease was primarily due to the amortization of the bond refunding gain/loss.

Deferred outflows on derivative instruments decreased by \$10.2 million (100.0%), representing deferred outflows of resources offsetting interest rate swap liabilities in accordance with GASB Statement No. 53 – *Accounting and Financial Reporting for Derivative Instruments* (GASB Statement No. 53) and GASB Statement No. 72 – *Fair Value Measurement and Application* (GASB Statement No. 72). The last remaining interest rate swaps were terminated in fiscal year 2022-23.

Deferred outflows related to OPEB increased by \$3.2 million (9.1%) primarily due to investment losses offset by experience gains. See additional information in note 12b.

Deferred outflows related to pensions increased by \$23.9 million (29.1%) primarily due to changes in the discount rate, the Airport's proportionate share, and actuarial assumptions. See additional information in note 12a.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

Current liabilities payable from unrestricted assets increased by \$120.5 million (22.8%), primarily due to an increase in unearned aviation revenue and current maturities of long-term debt.

Current liabilities payable from restricted assets decreased by \$12.2 million (5.7%), primarily due to the reclassification from a short-term liability to a long-term liability of commercial paper notes that were refinanced with the proceeds of the Series 2023C/D bond issued on November 15, 2023. See note 17.

Noncurrent liabilities before net OPEB liability, net pension liability, and derivative instruments increased by \$338.4 million (3.7%), primarily due to the reclassification of commercial paper notes as described in the preceding paragraph. See note 17.

Net OPEB liability increased by \$6.4 million (2.5%) primarily due to investment losses offset by the actual experience gain. See additional information in note 12b.

Net pension liability (NPL) increased by \$162.2 million (100.0%) primarily due to investment losses resulting in a net pension liability in fiscal year 2022-23. See additional information in note 12a.

Derivative instruments liabilities decreased by \$10.2 million (100.0%) due to the termination of interest rate swaps in fiscal year 2022-23.

Deferred inflows related to OPEB increased by \$0.3 million (0.6%) primarily due to investment losses and the amortization of deferrals. See additional information in note 12b.

Deferred inflows related to pensions decreased by \$343.1 million (90.1%) primarily due to investment losses which caused a reduction in deferred inflow of earnings. See additional information in note 12a.

Deferred inflows related to leases increased by \$756.3 million (264.4%) due to the addition of new leases and the adoption of GASB Statement No. 91 in fiscal year 2022-23.

The Airport's net investment in capital assets decreased by \$276.4 million (20.8%), primarily due to the residual effect of the Airport depreciating its capital assets faster than repaying its bonded debt.

Net position restricted for debt service increased by \$13.9 million (22.5%), primarily due to more cash and investments held outside City Treasury for debt service.

Net position restricted for capital projects increased by \$160.3 million (32.5%), primarily due to higher PFC generated from the growth in air traffic and new CFC revenue.

Net position restricted for other purposes increased by \$2.7 million (135.6%), primarily due to the Hotel's operating revenues exceeding the Hotel's operating expenses due to higher occupancy levels.

Unrestricted net position decreased by \$63.2 million (57.3%), primarily due to the cumulative effect of accounting change from the implementation of GASB Statement No. 91 and the recognition of capital assets for the SFO Fuel system. See note 10.

Highlights of Changes in Net Position

The following table shows a condensed summary of changes in net position for fiscal years 2023 and 2022 (in thousands):

	<u>FY 2023</u>	<u>FY 2022</u>
Operating revenues	\$ 1,064,104	821,253
Operating expenses	<u>902,750</u>	<u>809,830</u>
Operating income	161,354	11,423
Non-Operating Expenses, net	<u>197,389</u>	<u>179,955</u>
Loss before capital contributions and transfers	(36,035)	(168,532)
Capital contributions	28,679	40,998
Transfers to City and County of San Francisco	<u>(48,701)</u>	<u>(37,906)</u>
Changes in net position (deficit)	<u>(56,057)</u>	<u>(165,440)</u>
Total net position (deficit) – beginning of year	(660,243)	(494,803)
Cumulative effect of accounting change	<u>(106,617)</u>	<u>—</u>
Total net position (deficit) – end of year	<u>\$ (822,917)</u>	<u>(660,243)</u>

Operating Revenues

The Airport derives its operating revenues from rates, fees, and charges assessed to the airlines; the operation of public and employee parking facilities; rents and fees assessed to concessionaires and ground transportation operators; and fees assessed for telecommunication access services. Landing fees and demised premise rental rates assessed to airlines are set periodically based on formulas and procedures described in the Lease and Use Agreement (Agreement).²

² In fiscal year 2009-10, the Airport and airlines reached agreement on a new, ten-year 2011 Lease and Use Agreement that became effective on July 1, 2011, that originally expired June 30, 2021, and that was mutually extended to June 30, 2023. The 2011 Lease and Use Agreement and the 2-Year Extension of said agreement are referred to generally as the "Lease and Use Agreement," and the airlines that are parties to those agreements are referred to as "Signatory Airlines". See note 2(i) and note 17 for a brief description of the new, ten-year 2023 Lease and Use Agreement.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

A brief summary of the underlying rate-setting methodology under this Agreement is presented below:

The Agreement establishes a residual rate-setting methodology for the calculation of the landing fees and demised premise rental rates using certain cost centers. Using this methodology, Rates and Charges (that includes landing fees, demised premise rental rates, and other fees) are established each fiscal year to produce projected revenues from the airlines equal to the difference between the Airport's estimated nonairline revenues and the Airport's budgeted total costs, including operating expenses, debt service expenses and the Annual Service Payment (ASP) to the City's General Fund for that year. The Agreement provides for matching revenues each fiscal year to the Airport's expenditures by adjusting payments from the airlines. Differences between actual revenues and expenditures and amounts estimated in the calculation of airline fees and charges for that fiscal year result in adjustments of demised premise rental rates and landing fees in subsequent years. Such differences are recorded on the statement of net position in the financial statements of the Airport in the fiscal year to which such differences pertain. Net overcharges are recorded as liabilities and net undercharges are recorded as assets.

The overcharge balance of \$417.1 million as of June 30, 2022, increased to \$461.7 million as of June 30, 2023, and was recorded as unearned aviation revenue in the statement of net position. See note 2i.

SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

The following table shows a comparison of terminal rental rates and airline landing fees for fiscal years 2022-23 and 2021-22:

	<u>FY 2023</u>	<u>FY 2022</u>
Effective average terminal rental rate (per sq. ft.)	\$ 187.47	196.45
Signatory Airline – landing fee rate (per 1,000 lbs.)	7.73	11.40
Non-Signatory Airline – landing fee rate (per 1,000 lbs.)	9.66	14.25
General aviation and itinerant aircraft – landing fee rate (per 1,000 lbs.)	9.66	14.25

During fiscal years ended June 30, 2023 and 2022, revenues realized from the following source equaled or exceeded 5.0% of the Airport's total operating revenues:

	<u>FY 2023</u>	<u>FY 2022</u>
United Airlines	26.2 %	28.4 %

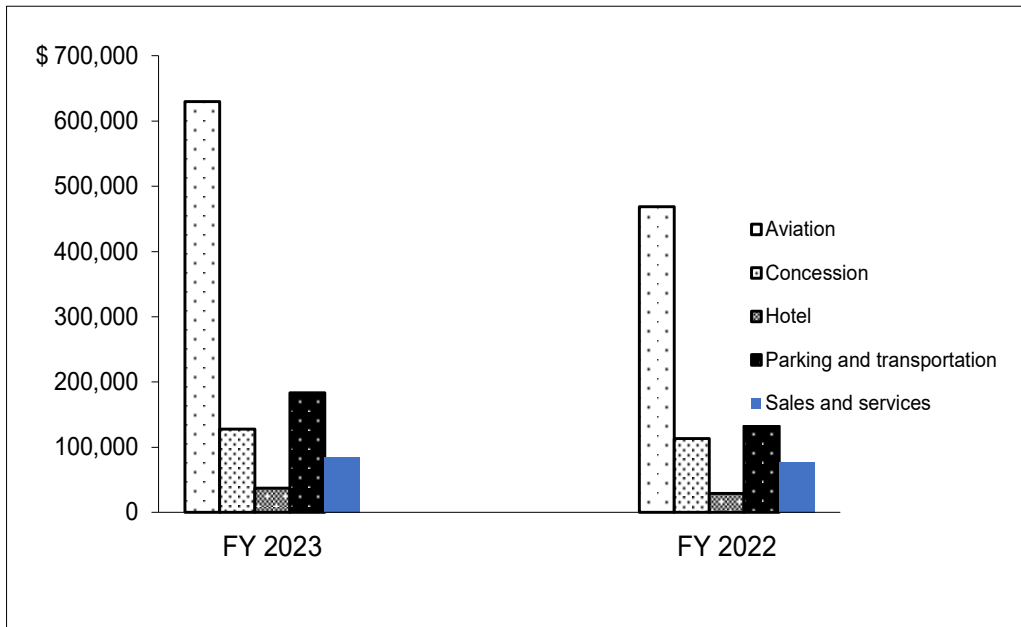

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

The following shows a comparative summary of operating revenues for fiscal years 2022-23 and 2021-22 (in thousands):

	<u>FY 2023</u>	<u>FY 2022</u>
Aviation	\$ 630,250	468,840
Concession	128,019	113,261
Hotel	37,377	29,251
Parking and transportation	183,520	132,253
Sales and services	84,938	77,648
Total operating revenues	<u>\$ 1,064,104</u>	<u>821,253</u>

Operating revenues increased by 29.6%, from \$821.3 million in fiscal year 2021-22 to \$1.1 billion primarily due to increased passenger traffic.

Aviation revenues increased from \$468.8 million in fiscal year 2021-22 to \$630.3 million primarily due to rebounding passenger traffic.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

As determined by the calculation method in the Agreement, scheduled airline landing fees per thousand pounds decreased from \$11.40 in fiscal year 2021-22 to \$7.73 in fiscal year 2022-23. The airline average annual terminal rent per square foot decreased from \$196.45 in fiscal year 2021-22 to \$187.47 in fiscal year 2022-23, due to a 6.2% decrease in residual terminal rental revenue requirement combined with a 1.7% decrease in airline leased space to 1.72 million square feet.

Before the unearned aviation revenue adjustment of \$44.7 million, revenues from landing fees decreased by \$51.7 million (17.3%) due to a landing fee rate decrease partly offset by landed weight increase. Terminal rentals decreased by \$8.4 million (2.6%), due to decreases in terminal rental rates combined with changes in airline leased space. In aggregate, all other aviation revenues increased by \$9.3 million (9.2%), from \$101.2 million in fiscal year 2021-22 to \$110.5 million in fiscal year 2022-23, with net aviation rental revenue and activity-based fees including aircraft parking, parking employees, common use gate fees and fixed base operations (FBO) all showing increases.

Concession revenues, consisting of rentals and fees derived from food and beverage concessions, duty free, retail merchandise (gifts, candy, tobacco, and news), rental car concessions, and other concession revenue increased by 13.0%, from \$113.3 million in fiscal year 2021-22 to \$128.0 million in fiscal year 2022-23. The higher revenues resulted mainly from a 44.9% increase in airport food & beverage and retail sales. Food and beverage revenues increased by \$4.3 million (26.1%) due to higher passenger volumes and the average spend rate per passenger. The passenger food and beverage spend rate increased by 8.3% from \$10.40 in fiscal year 2021-22 to \$11.26 in fiscal year 2022-23. Retail merchandise revenues excluding duty free revenues increased by \$4.2 million (49.8%) for the same reasons. The Airport-wide per passenger spend rate for such merchandise increased by 6.2% from \$4.02 in fiscal year 2021-22 to \$4.27 in fiscal year 2022-23. As of June 2023, all Duty Free and Luxury Stores (DFS) locations have reopened, including the newly renovated DFS Duty Free Galleria in boarding Areas A and G, and this, combined with the recovery of international passenger volumes, resulted in a \$0.9 million (6.6%) increase in revenues from duty free merchandise sales. On- and off-Airport rental car revenues increased by \$12.3 million (28.8%) as a result of increased passenger volumes. Other concession revenues decreased by \$1.5 million (4.6%), primarily due to lower rental revenue from an on-Airport COVID testing site. During the pandemic, the Minimum Annual Guarantee (MAG) rent had been suspended due to severe decline in enplanements. Through June 2023, MAG rent has been reinstated for approximately 63.0% of all concession leases.

The on-Airport hotel operating revenues increased by 27.8% from \$29.3 million in fiscal year 2021-22 to \$37.4 million primarily due to the increase in high-end leisure travelers, individual business travelers, and the return of group meetings.

Public parking and transportation revenues, consisting of rentals and fees derived from parking facilities and ground transportation operations, increased by 38.8%, from \$132.3 million in fiscal year 2021-22 to \$183.5 million in fiscal year 2022-23. The combined net effect of a 13.2% increase in the average revenue per ticket, from \$37.48 in fiscal year 2021-22 to \$42.43 in fiscal year 2022-23, and a 19.4% increase in parking transactions resulted in a parking revenue increase of \$33.6 million (35.7%). Ground transportation revenues, including taxi trip fee revenue, increased by \$17.7 million (46.5%) primarily due to increased passenger levels. Transportation Network Company (TNC) operations at the Airport (including Uber Technologies Inc., Lyft, Inc., and Tickengo, Inc., d/b/a/ Wingz) increased by 50.4%. TNC Airport pick-ups/drop-offs totaled nearly 8.2 million resulting in \$45.1 million in trip fee revenue. Other modes of transportation also experienced increased activity

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

levels compared to fiscal year 2021-22, including hotel shuttles (up 12.1%), door to door pre-arranged vans (up 94.0%), limousines (up 35.6%), taxis (up 33.6%), scheduled buses (up 27.3%), charter buses (up 100.9%) and off-airport parking vans (up 8.4%). The Airport continues to see a shift in passenger behavior where parking is preferred over single or high occupancy mode transportation (such as taxis, TNCs, and buses), as compared to relative market share of ground transportation options prior to the pandemic.

Sales and service revenues consist of revenue derived from utility services, telecommunication access fees, badge and permit fees, rental car facility fees, and cost-based reimbursement of various services. Revenues from sales and services increased by 9.4%, from \$77.6 million in fiscal year 2021-22 to \$84.9 million in fiscal year 2022-23. Revenue from the sale of water sewage disposal increased by \$1.5 million (29.3%). Telecommunication fees were lower by \$0.2 million (3.0%) due to decreased demand for telecommunication access services. Licenses and permit fees increased by \$0.4 million (19.2%) as a result of higher badging activity by tenant employees and contractors. The transportation and facility fee (AirTrain fee charged on rental car contracts) increased by \$4.2 million (27.0%) due to a 26.6% increase in the number of rental car contracts. Fees collected for the cost of the Rental Car Center increased by \$2.3 million (14.7%) primarily due to lower fiscal year 2021-22 fees resulting from credits provided through the Federal CRRSAA concession relief grant and the Rental Car Center structure and surface rent annual Consumer Price Index (CPI) adjustments. Revenue from penalties from the enforcement of airfield safety rules and regulations decreased by \$0.5 million (22.8%) due to the lower level of activity. Miscellaneous terminal fees increased by \$1.1 million (11.7%), reflecting billings per lease and permit terms. Governmental agency rent revenue decreased by \$1.4 million (22.3%) primarily due to the expiration of the U.S. Postal Service ground lease. Miscellaneous Airport Revenues decreased by \$0.1 million (32.0%) reflecting billings per lease and permit terms. Net revenue from all other sales and services including sale of electricity, sale of natural gas, food court infrastructure/cleaning fees, refuse disposal, collection charges and settlements decreased by \$0.7 million (4.0%).

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

Operating Expenses

The following table shows a comparative summary of operating expenses for fiscal years 2023 and 2022 (in thousands):

	<u>FY 2023</u>	<u>FY 2022</u>
Personnel	\$ 283,669	216,842
Depreciation and amortization	355,475	356,649
Contractual services	97,718	81,424
Hotel	32,161	24,969
Light, heat and power	28,771	27,554
Services provided by other City departments	27,247	26,949
Repairs and maintenance	59,081	56,189
Materials and supplies	13,384	12,560
General and administrative	3,883	4,567
Environmental remediation	1,361	2,127
Total operating expenses	<u>\$ 902,750</u>	<u>809,830</u>

Operating expenses increased from \$809.8 million to \$902.8 million primarily due to increases in expenses for personnel, contractual services, hotel, light, heat and power, services provided by other City departments, repairs and maintenance, and materials and supplies. In fiscal year 2022-23, the Airport capitalized \$16.9 million of indirect costs related to construction of capital projects as overhead, compared to \$14.0 million in fiscal year 2021-22. The variances in the different categories are discussed below.

Personnel expenses increased by \$66.9 million (30.8%), from \$216.8 million to \$283.7 million. The increase was primarily due to an increase in pension expenses as a result of investment losses.

Depreciation and amortization decreased by \$1.1 million (0.3%), from \$356.6 million to \$355.5 million. The decrease was primarily due to assets becoming fully depreciated.

Contractual services increased by \$16.3 million (20.0%), from \$81.4 million to \$97.7 million. The increase was primarily due to increased expenses for various professional services contracts, such as parking, shuttle buses, and technology services.

The on-Airport hotel operating expenses increased by \$7.2 million (28.8%), from \$25.0 million to \$32.2 million. The increase was primarily due to a rise in departmental expenses and undistributed operating expenses.

Light, heat and power expenses increased by \$1.2 million (4.4%), from \$27.6 million to \$28.8 million. The increase was primarily due to an increase in consumption and rates.

Management's Discussion and Analysis

June 30, 2023

Expenses of services provided by other City departments increased by \$0.3 million (1.1%), from \$26.9 million to \$27.2 million. The increase was primarily due to higher water usage and an increase in San Francisco Public Utilities Commission (SFPUC) water rates.

Repairs and maintenance expenses increased by \$2.9 million (5.1%), from \$56.2 million to \$59.1 million. The increase was primarily due to the return of pre-pandemic service levels in maintenance contracts such as from Airport-wide Emergency, SFO Checkpoint and Screening Room Sanitary, and Superbay Hose Reel.

Materials and supplies expenses increased by \$0.8 million (6.6%), from \$12.6 million to \$13.4 million. The increase was a result of inflation as well as increased spending on cleaning supplies due to higher passenger traffic that occurred during fiscal year 2022-23.

General and administrative expenses decreased by \$0.7 million (15.0%), from \$4.6 million to \$3.9 million. The decrease was primarily due to a decrease in estimated bad debts expense related to the Airport COVID-19 Emergency Rent Relief Program for concession tenants and judgment claims.

Environmental remediation expenses decreased by \$0.7 million (36.0%), from \$2.1 million to \$1.4 million. The decrease was primarily due to fewer new capital projects.

Management's Discussion and Analysis

June 30, 2023

Nonoperating Revenues and Expenses

The following summary shows a comparison of nonoperating revenues and expenses in fiscal years 2023 and 2022 (in thousands):

	<u>FY 2023</u>	<u>FY 2022</u>
Nonoperating revenues:		
Passenger facility charges (PFC)	\$ 92,341	72,804
Customer facility charges (CFC)	11,441	—
Investment income (loss)	42,540	(64,113)
Other	32,056	176,955
	<u>178,378</u>	<u>185,646</u>
Total nonoperating revenues		
Nonoperating expenses:		
Interest expense	350,349	321,132
Write-offs and gain (loss) on disposal	70	11,672
Other	25,348	32,797
	<u>375,767</u>	<u>365,601</u>
Total nonoperating expenses		
Total nonoperating expenses, net	<u>(197,389)</u>	<u>(179,955)</u>
Capital contributions	28,679	40,998
Transfers to City and County of San Francisco	<u>(48,701)</u>	<u>(37,906)</u>
Total	<u>\$ (217,411)</u>	<u>(176,863)</u>

Nonoperating revenues consist primarily of PFC, CFC, and investment income, while nonoperating expenses consist of interest expense, and write-offs and gain (loss) on the disposal of capital assets. Write-offs include capital improvement costs that did not meet capitalization requirements. PFCs, which became effective in October 2001, generated \$92.3 million during fiscal year 2022-23, an increase of 26.8% compared to the \$72.8 million received in fiscal year 2021-22. The increase in PFC revenues was primarily due to an increase in passenger traffic and the easing of the COVID-19 restriction. CFCs, which became effective in July 2022, generated \$11.4 million during fiscal year 2022-23.

Investment income (loss) increased by \$106.6 million (166.4%), from \$(64.1) million to \$42.5 million primarily due to the investment fair value adjustments. Excluding the fair value adjustments, the actual investment income (loss) increased by \$40.4 million, from \$22.7 million to \$63.1 million.

Other nonoperating revenues decreased by \$144.9 million (81.9%), from \$177.0 million to \$32.1 million primarily due to the Federal CRRSAA grant award of \$5.9 million and the Federal ARPA grant award of \$169.0 million. The Federal ARPA grant was fully expended in fiscal year 2021-22.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

Interest expense increased by \$29.2 million (9.1%), from \$321.1 million to \$350.3 million primarily due to an increase in debt issued to fund capital improvement projects.

Write-offs and gain (loss) on disposal decreased by \$11.6 million (99.4%), from \$11.7 million to \$0.1 million primarily due to the sale of equipment.

Other nonoperating expenses decreased by \$7.5 million (22.7%), from \$32.8 million to \$25.3 million primarily due to a reduction in capital improvement projects costs under the capitalization threshold.

Capital contributions received from federal grants and other sources decreased by \$12.3 million (30.0%), from \$41.0 million to \$28.7 million. The decrease in capital contributions was primarily due to assets transferred from SFO Fuel to the Airport in the prior year, which did not occur in fiscal year 2022-23. Capital contributions received from federal grants and other grants increased by \$11.7 million (68.8%), from \$17.0 million to \$28.7 million. The increase was primarily due to the increase in the Airport Improvement Program grant-funded expenditures attributed to the rehabilitation of one of the airport runways.

The annual service payments transferred to the City increased by \$10.8 million (28.5%), from \$37.9 million to \$48.7 million. The increase was due to higher concession, hotel, and parking and transportation revenues attributable to an increase in passenger traffic.

Capital Acquisitions and Construction

Under the Lease and Use Agreement, the Airport Commission is obligated to use commercially reasonable efforts to finance all capital improvements (above certain de minimis amounts) through the issuance of Airport revenue bonds, grants, Transportation Security Administration (TSA) funding, and Passenger Facility Charges (PFCs). The Agreement also provides for airline review of capital projects that exceed the dollar thresholds established within the Agreement.

The Airport maintains a Capital Improvement Plan to build new facilities, improve existing facilities, renovate buildings, repair or replace infrastructure, preserve assets, enhance safety and security, develop systems functionality, and perform needed maintenance.

Management's Discussion and Analysis

June 30, 2023

Expenses incurred during fiscal year 2022-23 with respect to major capital projects are listed below. The figures below do not reflect the total project budget. Most major capital projects at the Airport are implemented over multiple fiscal years (in thousands).

		Amount
Terminal 1 Redevelopment	\$	131,756
Runway Improvements		43,708
Terminal 3 Renovation		27,096
International Terminal Refresh Program		19,163
Waste Water System Improvements		18,859
Net Zero Energy Program		9,843
Courtyard 3 Connector		9,746
Energy and Efficiency Improvements		7,268
Miscellaneous Terminal Improvements		6,250
Capital Improvement Plan Support		4,995
AirTrain Improvements		4,335
Technology Improvement		4,286
Parking and Garage Improvements		3,930
Taxiway Improvements		3,764
Capital Equipment		3,657
Support Facility Improvements		3,341
International Terminal Improvements		3,190
Power & Lighting Improvements		2,465
Storm Drain Improvements		2,380
Noise Insulation Program		2,256
Miscellaneous Airfield Improvements		1,923
Shoreline Protection		1,840
Airport Support Miscellaneous Improvements		1,773
Utility Improvements		1,749
Wayfinding		1,233
All Other Projects		1,536
COVID		(5,428)

Total	\$	316,914

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

Due to COVID-19 pandemic and the reduction in travel demand, the Airport initially reprioritized its Capital Improvement Plan to focus on projects that were essential to Airport operations and resiliency priorities given the present-day recovery landscape. Passenger enplanements and deplanements at the Airport were approximately 57.4 million in fiscal year 2018-19, before dropping to 40.5 million in fiscal year 2019-20 and 13.7 million in fiscal year 2020-21, then recovering to 34.8 million in fiscal year 2021-22 and 46.9 million in fiscal year 2022-23. This recovery has allowed construction activity to continue on major projects such as the Terminal 1 (T1) Redevelopment Program, the Courtyard 3 Connector project, and the International Terminal Phase 2 project, which will make improvements to the building and expand both departures level security checkpoints.

The T1 Redevelopment Program completed the Harvey Milk Boarding Area B, for a total of 22 operational gates, in May 2021. Construction activity continues in the Terminal 1 North area, and this work is forecasted to complete in fiscal year 2023-24.

Notable projects that were completed in fiscal year 2022-23 included the completion of the Noise Insulation Program 2019-2023 Phase and the 12KV Cable Replacement and System Upgrade.

Additional information about the Airport's capital acquisitions and construction is presented in note 5 to the financial statements.

Debt Administration

Refunding Bonds: On March 1, 2023, the Airport issued its fixed rate Second Series Revenue Bonds, Series 2023A (AMT) and Second Series Revenue Bonds, Series 2023B (Non-AMT/Governmental Purpose (collectively, the "2023A/B Bonds"), in aggregate principal amount of \$241.9 million to refund a combined \$261.5 million of its Series 2010A Bonds, Series 2013A Bonds, and Series 2013B Bonds, to fund the termination payment of an interest rate swap, and to pay costs of issuance.

Cash Defeasance: On June 28, 2023, the Airport legally defeased \$28.8 million of its Series 2019D Bonds, using monies previously deposited by the Commission in the Debt Service Fund.

Subordinate Commercial Paper Notes: During fiscal year 2022-23, the Airport issued \$417.3 million in commercial paper notes to fund capital improvement projects. As of June 30, 2023, the Airport had \$503.2 million in outstanding commercial paper notes including \$497.8 million that was refunded by the Series 2023C/D bonds that were issued on November 15, 2023. The \$497.8 million has been reclassified to long-term commercial paper notes on the financial statements as of June 30, 2023. See note 17.

Interest Rate Swaps: The Airport terminated interest rate swaps in fiscal year 2022-23.

More detailed information about the Airport's subordinate commercial paper notes, long-term debt, and interest rate swaps is presented in notes 6 and 7 to the financial statements.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

1991 Master Bond Resolution Covenant Compliance: During fiscal year 2022-23, the Airport's operating revenues, together with the permitted transfers from the Airport's Contingency Account, were sufficient to meet the rate covenant requirements under the Airport's 1991 Master Bond Resolution. See "Debt Service Reserve and Covenants; Contingency Account" in note 7.

Credit Ratings and Bond Insurance

Credit Ratings: During fiscal year 2022-23, Moody's Investors Service Inc. (Moody's) and Fitch Ratings Inc. (Fitch) affirmed their underlying long-term credit ratings on the outstanding debt of the Airport of "A1" and "A+", respectively. S&P Global Ratings (S&P) raised its underlying long-term credit ratings on the outstanding debt of the Airport to "A+". Refer to the notes below.

Ratings on each subseries of the Airport's commercial paper notes reflect the short-term credit ratings of the bank whose letter of credit supports that subseries.

On January 12, 2023, Moody's affirmed the "A1" rating with a stable outlook and Fitch affirmed the "A+" rating with a stable outlook for the outstanding fixed rate bonds and assigned these ratings to the Series 2023A/B Bonds, which were issued on March 1, 2023. S&P did not provide a rating for the Series 2023A/B Bonds.

On July 20, 2022, S&P raised the rating for outstanding fixed rate bonds to "A+" with a stable outlook except for those bonds that do not carry an S&P rating. Each individual bond's rating is accessible through the Electronic Municipal Market Access (EMMA) website.

Bond Insurance: There were no insured Airport bonds outstanding at the end of fiscal year 2022-23.

Fiscal Year 2023-24 Airline Rates and Charges

Terminal rental rates and airline landing fees for fiscal year 2023-24 have been developed as part of the annual budget process that started in October 2022. The Lease and Use Agreement between the Airport and the Signatory Airlines provides the rate-setting methodology for calculating the terminal rental rates and airline landing fees. Not less than 60 days prior to the start of the fiscal year, the Signatory Airlines are notified of the proposed rates and fees. These fees are subject to review by, but not the approval of, the Signatory Airlines. The terminal rental rates and airline landing fees for fiscal year 2023-24, which became effective on July 1, 2023, are as follows:

Effective average terminal rental rate (per sq. ft)	\$	225.62
Signatory Airline – landing fee rate (per 1,000 lbs.)		5.98
Non-Signatory Airline – landing fee rate (per 1,000 lbs.)		7.48
General aviation – landing fee rate (per 1,000 lbs.)		7.48

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Management's Discussion and Analysis

June 30, 2023

The effective average terminal rental rate increased from \$187.47 per sq. ft. in fiscal year 2022-23 to \$225.62 per sq. ft. in fiscal year 2023-24. The fiscal year 2023-24 landing fee rate for Signatory Airlines decreased by 22.6%, from \$7.73 per 1,000 pounds in fiscal year 2022-23 to \$5.98 per 1,000 pounds in fiscal year 2023-24, and the Non-Signatory Airline landing fee rate decreased by 22.6%, from \$9.66 per 1,000 pounds in fiscal year 2022-23 to \$7.48 per 1,000 pounds in fiscal year 2023-24. The fiscal year 2023-24 landing fee rate for general aviation aircraft decreased by 22.6%, from \$9.66 per 1,000 pounds in fiscal year 2022-23 to \$7.48 per 1,000 pounds in fiscal year 2023-24.

Requests for Information

This report is designed to provide a general overview of the San Francisco International Airport's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Chief Financial Officer, San Francisco International Airport, P.O. **AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

(1) Definition of Reporting Entity

The accompanying financial statements reflect the net position and changes in net position of the Airport Commission (the Commission), City and County of San Francisco, San Francisco International Airport (the Airport or SFO), a commercial service airport owned and operated as an enterprise department of the City and County of San Francisco (the City). The Airport is a major origin and destination point and one of the nation's principal gateways for Pacific traffic. A five-member Airport Commission is responsible for its operation, development, and maintenance. Airport Commission members are appointed by the City's Mayor for terms of four years.

The Airport is an integral part of the City and is reported as a major enterprise fund in the City's Annual Comprehensive Financial Report. There are no component units considered for inclusion in the Airport's financial reporting entity. The accompanying financial statements present only the financial operations of the Airport and do not purport to, and do not, present the financial position of the City, or the results of its operations and the cash flows of its other proprietary fund types.

(2) Significant Accounting Policies

(a) Measurement Focus and Basis of Accounting

The Airport's financial activities are accounted for on a flow of economic resources measurement focus, using the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

The Airport distinguishes operating revenues and expenses from nonoperating revenues and expenses. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an organization's principal ongoing operations. The principal operating revenues of the Airport are charges to airlines, concessionaires, and parking and transportation charges. Operating expenses of the Airport include personnel costs, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

As prescribed under the Governmental Accounting Standards Board (GASB) Statement No. 68 – *Accounting and Financial Reporting for Pensions* – an amendment of GASB Statement No. 27, net pension asset/liability, deferred outflows/inflows of resources related to pensions, pension expense, information about the fiduciary net position of the San Francisco Employees Retirement System (SFERS) plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Contributions are recognized in the period in which they are due pursuant to legal requirements. Benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

As prescribed under GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions (OPEB)*, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions (OPEB), net OPEB liability, deferred outflows/inflows of resources related to OPEB, and OPEB expense are actuarially determined on a citywide basis. For purposes of measuring the net OPEB liability and deferred outflows/inflows of resources related to OPEB, and

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

OPEB expense, information about the fiduciary net position of the Retiree Health Care Trust Fund (RHCTF) and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Plan member contributions are recognized in the period in which the contributions are due. Investments are reported at fair value.

As prescribed under GASB Statement No. 87 – *Leases*, a lessor is required to recognize, for each lease, a lease receivable and a deferred inflow of resources. The lease receivable is measured at the present value of lease payments expected to be received during the term of the lease. The deferred inflow of resources is measured at the value of the lease receivable plus any payments received at or before the commencement of the lease term that relates to future periods. Interest revenue is recognized on the lease receivable and inflow of resources (revenue) is recognized from the deferred inflows of resources in a systematic and rational manner over the term of the lease.

(b) Effects of New Accounting Pronouncements

GASB Statement No. 91

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*. GASB Statement No. 91 clarifies the definition of conduit debt and establishes new recognition, measurement, and disclosure requirements. The new standard is effective for periods beginning after December 15, 2021. Prior to that, the Airport received contributed capital assets including two tanks, pump pad and control replacements from the SFO Fuel Company LLC. Due to the implementation of GASB Statement No. 91, the Airport reclassified the assets' net book value of \$106.6 million from revenue to the deferred inflow of resources, and will amortize over the bond term through 2047. See note 10.

GASB Statement No. 94

In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. GASB Statement No. 94 establishes standards of accounting and financial reporting for public-private and public-public partnerships (PPPs) and availability payment arrangements. A PPP is an arrangement in which a government contracts with an operator to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. An availability payment arrangement is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The new standard requires reporting of related assets and deferred inflows that currently are not reported and is effective for periods beginning after June 15, 2022. Application of this statement did not have a significant impact on the Airport for the year ended June 30, 2023.

GASB Statement No. 96

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. GASB Statement No. 96 defines such arrangements as contracts that convey control of the right to use another party's information technology software, alone or in combination with tangible capital assets, as specified in the contract for a period of time in an exchange or exchange-like transaction. The standard clarifies measurement and recognition of capitalizable costs, intangible

CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

assets, and subscription liabilities for such arrangements and also requires additional disclosures related to such arrangements. The implementation of GASB Statement No. 96 resulted in recognition of \$2.7 million in a right-to-use asset and a corresponding subscription liability in fiscal year 2022-23. See note 11.

GASB Statement No. 99

In April 2022, the GASB issued Statement No. 99, *Omnibus 2022*. GASB Statement No. 99 addresses a variety of topics. The requirements related to extension of the use of the London Interbank Offered Rate, accounting for Supplemental Nutrition Assistance Program distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement No. 34, and terminology updates related to Statement No. 53 and Statement No. 63 were adopted by the City for the year ended June 30, 2022. The requirements related to leases, public-public and public-private partnerships, and subscription-based information technology arrangements are effective for fiscal years beginning after June 15, 2022 and did not have a significant impact on the Airport's financial statements for the year ended June 30, 2023. The Airport is currently analyzing its accounting practices to determine the potential impact of the requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement No. 53 which are effective for fiscal years beginning after June 15, 2023 and effective for the Airport's fiscal year ending June 30, 2024.

GASB Statement No. 100

In June 2022, the GASB issued Statement No. 100, *Accounting Changes and Error Corrections*. GASB Statement No. 100 defines various types of accounting changes and prescribes accounting, reporting, and disclosure requirements for accounting changes and error corrections. The new standard is effective for periods beginning after June 15, 2023. Application of this statement is effective for the Airport's year ending June 30, 2024.

GASB Statement No. 101

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. GASB Statement No. 101 requires that liabilities for compensated absences be recognized if the leave is attributable to services already rendered and the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means and establishes definitions, guidance, and disclosure requirements related to compensated absences. The new standard is effective for periods beginning after December 15, 2023. Application of this statement is effective for the Airport's year ending June 30, 2025.

(c) Cash, Cash Equivalents, and Investments

The Airport maintains its cash, cash equivalents, investments, and a significant portion of its restricted cash and investments as part of the City's pool of cash and investments. The Airport's portion of this pool is displayed on the statement of net position as "Cash and investments held in City Treasury." Income earned or losses arising from pooled investments are allocated on a monthly basis to appropriate funds and entities based on their average daily cash balances.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements
Year ended June 30, 2023

The City reports certain investments at fair value in the statement of net position and recognizes the corresponding change in fair value of investments in the year in which the change occurred.

The Airport considers its pooled deposits held with the City Treasurer to be demand deposits and therefore cash for financial reporting. The City considers highly liquid investments with original maturities of three months or less to be cash equivalents. Restricted cash and investments held by the bond trustees that meet these criteria are considered to be cash and cash equivalents.

The debt service fund, the debt service reserve fund, the costs of issuance fund, the debt service holding fund, and the variable rate demand bond fee account for the Airport's revenue bonds are held and invested at the Airport's direction by an independent bond trustee.

Certain accounts relating to the Hotel Special Facility Bonds are held and invested at the Airport's direction by an independent bond trustee.

(d) Capital Assets

Capital assets are stated at historical cost, or if donated, at acquisition value at the date of donation. The capitalization threshold for real property is \$100,000 and \$5,000 for personal property with a useful life greater than one year.

Depreciation and amortization are computed using the straight-line method over the following estimated useful lives:

	Years
Buildings, structures, and improvements	5–50
Equipment	5–20
Leases and SBITA	Various
Intangible assets	3–20

Maintenance, repairs, and minor replacements are charged against operations in the year performed. Major replacements that extend the useful life of the related assets are capitalized. No depreciation is provided on construction in progress until construction is substantially completed and the asset is placed in service. The Airport begins depreciation on capital assets the month following the date in which assets are placed in service. Additionally, the Airport commenced allocating indirect costs on self-constructed assets starting fiscal year 2006-07. The indirect cost rate applied is based on a cost allocation plan developed in accordance with the terms of 2 CFR Part 200 *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the Uniform Guidance)*, as applicable. See note 5.

(e) Derivative Instruments

The Airport has entered into certain derivative instrument agreements, which it values at fair value, in accordance with GASB Statement No. 53 – *Accounting and Financial Reporting for Derivative Instruments* and GASB Statement No. 72 – *Fair Value Measurement and Application*. The Airport applies hedge accounting for changes in the fair value of hedging derivative instruments, in accordance with GASB Statement No. 64 – *Derivative Instruments: Application of Hedge Accounting Termination*

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

Provisions, an amendment of GASB Statement No. 53. Under hedge accounting, if the derivatives are determined to be effective hedges, the changes in the fair value of hedging derivative instruments are reported as either deferred inflows or deferred outflows in the statement of net position, otherwise changes in fair values are recorded within the investment revenue classification. As of June 30, 2023, the Airport did not have any outstanding derivative instruments. The Airport will implement the provisions of GASB Statement No. 99 in the future if it is applicable.

(f) Bond Issuance Costs, Discounts, and Premiums

Bond issuance costs related to prepaid insurance costs are capitalized and amortized using the effective interest method. Other bond issuance costs are expensed when incurred. Original issue bond discount or premium are offset against the related debt and are also amortized using the effective interest method. Deferred outflows/inflows of resources from refunding of debt are recognized as a component of interest expense using the effective interest method over the remaining life of the old debt or the life of the new debt, whichever is shorter.

(g) Compensated Absences

Vested vacation, sick leave, and related benefits are accrued when incurred for all Airport employees.

(h) Net Position

Net position consists of the following:

Net Investment in Capital Assets – consists of capital assets, including restricted capital assets, reduced by accumulated depreciation and amortization and by any outstanding debt incurred to acquire, construct, or improve those assets (including any unamortized original issue discounts or premiums related to the debt). Deferred outflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt (such as deferred losses on refunding of debt) are also included in this component of net position.

Restricted for Debt Service and Capital Projects – consists of restricted assets and deferred outflows of resources reduced by liabilities related to those assets and deferred outflows of resources. Restricted assets are those assets with restrictions on their use that are externally imposed (by creditors, grantors, contributors, or the laws or regulations of other governments).

Restricted for Other Purposes – consists of the on-Airport Hotel's assets and liabilities (including the Hotel Trust accounts) except the Hotel Debt Service Fund trust account, the Hotel Revenue Stabilization Fund trust account, the Hotel Capitalized Interest trust account, and the Hotel's capital lease obligations.

Unrestricted Net Position – consists of the net amount of the assets, deferred outflows of resources, and liabilities, of the Airport that are not restricted for any project or other purposes.

A significant portion of the Airport's net position is restricted by the 1991 Master Bond Resolution and 1997 Note Resolution (the "Master Bond Resolutions") and the Lease and Use Agreement with the airlines for the purpose of capital improvements and contingencies.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

(i) Aviation Revenue, Unearned Revenue and Aviation Revenue Due

Aviation revenue is based on reimbursable expenditures as defined in the Lease and Use Agreement with the airlines. Under the Lease and Use Agreement, the airlines are required to pay terminal rents and landing fees in amounts that, when aggregated with certain other Airport revenues, will be equal to the Airport's expenditures for: operating expenses other than depreciation and amortization, principal and interest on outstanding debt, annual service payments to the City's General Fund, and certain acquisitions of capital assets. Airline payments are also required to cover expenses treated as "Operation and Maintenance Expenses" under the Master Bond Resolutions. Airport expenses that are funded with sources not includable as "Revenues" under the Master Bond Resolutions are not treated as "Operation and Maintenance Expenses" under the Master Bond Resolutions. Other capital asset additions are funded with proceeds of revenue bonds for which the airlines are required to fund debt service. During fiscal year 2022-23, the Airport and airlines reached an agreement on a new, ten-year 2023 Lease and Use Agreement that expires on June 30, 2033. Airlines that are not signatories to this agreement operate under month-to-month permits. As of July 1, 2023, the signatory airlines to the Agreement, 42 passenger airlines and 5 cargo airlines, represented over 96.9% of enplaned passengers in fiscal year 2023-24.

Amounts billed to airlines are based on budgeted revenues and expenditures, including debt service, pension charges and proportionate payments to such compensation and other insurances or outside reserve funds as the Commission may establish or the Board of Supervisors may require with respect to employees of the Commission. Noncash accrued pension obligations other than those actually paid or budgeted to be paid during the fiscal year are excluded. Noncash accrued Other Postemployment Benefit obligations are included. Unanticipated sources of Revenues, or unanticipated grant funding available to apply to offset Airport expenses, can result in aviation revenue collected in advance. Aviation revenue collected in advance will be applied to reduce future billings and is recorded as a liability in the financial statements. Aviation revenue due to be collected will be reduced by increases in future billings and is recorded as an asset in the financial statements. Pursuant to the terms of the Lease and Use Agreement, the Airport has a net aviation revenue collected in advance of \$461.7 million as of June 30, 2023.

(j) Concession Revenues

Concession revenues consist of rentals and fees derived from food and beverage concessions, duty free, retail merchandise and rental car concessions. Revenues are based on terms of lease agreements entered into between the Airport and concessionaires and are the greater of a percentage of tenant's gross revenues or, where applicable, MAG amount.

(k) Hotel Revenues

Hotel revenues consist of rooms, food and beverage, garage, meeting and special event, and parking services.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

(l) *Parking and Transportation Revenues*

Parking and transportation revenues consist of fees derived from parking facilities and ground transportation operations. Parking revenues are parking fees collected from all public parking facilities at the Airport. Transportation revenues are ground transportation trip fees assessed to commercial vehicles that service the Airport.

(m) *Sales and Services Revenues*

Sales and services revenues are collected for utility, security, and miscellaneous services provided to the tenants. Utility services are provided by the City. See note 13.

(n) *Environmental Remediation Expenses and Recoveries*

The Airport incurs costs associated with environmental remediation activities, which arise during the normal course of business. These costs are recorded as a liability when the Airport is required to perform the remediation and if the costs can be reasonably estimated. The Airport records environmental remediation cost recoveries as nonoperating revenues in the financial statements.

(o) *Capital Contributions*

The Airport receives grants for the purpose of acquisition or construction of property and equipment. These grants are recorded as capital contributions when earned generally upon expenditures of the funds.

(p) *Use of Estimates*

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(q) *Reclassification*

Certain amounts have been reclassified to conform to the current year's presentation.

(3) *Cash, Cash Equivalents, and Investments*

Pooled Cash and Investments

The Airport maintains operating cash, cash equivalents, investments, and certain restricted cash and investments as part of the City's investment pool. The City's investment pool is an unrated pool pursuant to investment policy guidelines established by the City Treasurer and is treated as a cash equivalent for financial reporting purposes as the Airport is able to withdraw amounts from the pool on demand without notice or penalty. The objectives of the City Treasurer's investment policy are, in order of priority, preservation of capital, liquidity, and yield. The policy addresses soundness of financial institutions in which the City will deposit funds, types of investment instruments as permitted by the California Government Code and the City Treasurer policy, and the percentage of the portfolio that may be invested in certain instruments with longer terms to maturity. The Airport's unspent bond and commercial paper note proceeds are also generally invested as part of the City's investment pool.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

The Airport's cash and investments, at fair value, held in the City's pool as of June 30, 2023 (in thousands):

	Amount
Pooled cash and investments:	
Cash and investments held in City Treasury – unrestricted	\$ 998,115
Cash and investments held in City Treasury – restricted current	575,751
Cash and investments held in City Treasury – restricted noncurrent	545,745
Total cash and investments held in City Treasury	\$ 2,119,611

The following table shows the percentage distribution of the City's pooled investments by maturity:

Investment maturities (in months)			
Under 1	1 – less than 6	6 – less than 12	12 – 60
21.5%	18.0%	14.5%	46.0%

(b) Cash and Investments with Fiscal Agent

The restricted assets for revenue bond reserves, debt service and costs of issuance are held by an independent bond trustee for the Airport's senior lien bonds (the Senior Trustee) and a separate independent bond trustee for the Airport's subordinate lien bonds (the Subordinate Trustee, and collectively with the Senior Trustee, the Trustees). In addition, restricted assets relating to the Hotel Special Facility Bonds are held by an independent bond trustee for the Hotel Special Facility Bonds. The unrestricted assets in the debt service holding fund and the variable rate demand bond fee account are not pledged to the payment of the Airport Commission's bonds, but are held by the Senior Trustee for the convenience of the Airport Commission in the administration and investment of monies delivered to the Senior Trustee prior to the time the Airport Commission is required to make deposits into the Debt Service Fund or pay the fees of the remarketing agents for the Airport Commission's variable rate bonds, respectively.

Custodial Credit Risk - Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Airport will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

The California Government Code requires California banks and savings and loan associations to secure the Airport's deposits not covered by FDIC insurance by pledging government and/or local agency securities as collateral. The fair value of such pledged securities must equal at least 110% and be of the type authorized in California Government Code, Section 53651 (a) through (i). The collateral must be held at the pledging bank's trust department or another bank, acting as the pledging bank's agent, in the Airport's name. At June 30, 2023, all banks with funds deposited by the Treasurer secured deposits with sufficient collateral or FDIC insurance.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in interest rates. Information about the sensitivity to the fair values of the Airport's investments to interest rate fluctuations is provided by the following tables, which shows the distribution of the Airport's investments by maturity.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to pay the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The S&P Global Ratings (S&P) rating for each of the investment types are provided by the following tables.

Custodial Credit Risk – Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Airport will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments; however, it is the practice of the City Treasurer that all investments are insured, registered or held by the Treasurer's custodial agent in the Airport's name. The Airport also has investments with trustees related to the issuance of bonds that are uninsured, unregistered and held by the counterparty's trust departments but not in the Airport's name. These amounts are included in the investments outside City Treasury and are provided by the following tables.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

Concentration of Credit Risk

The City's investment policy contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code and/or its investment policy. U.S. Treasury and agency securities explicitly guaranteed by the U.S. government are not subject to single issuer limitation.

The Airport holds investments with trustees that represent 5.0% or more of the Airport's investments outside City Treasury as of June 30, 2023:

Federal National Mortgage Association	6.59%
---------------------------------------	-------

Fair Value Hierarchy

The City categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure fair value of the assets. The inputs and techniques used for valuing securities are not necessarily an indication of risk associated with investing in those securities.

- Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.
- Level 2 Inputs: Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date.

The following is a summary of the fair value hierarchy of the Airport's cash and investments with fiscal agent as of June 30, 2023 (in thousands):

	Fair value June 30, 2023	Investments exempt from fair value	Fair value measurement using		
			Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Unobservable inputs (Level 3)
Investments outside City Treasury:					
State and local agencies	\$ 4,177	—	—	4,177	—
Suprationals	2,382	—	—	2,382	—
U.S. agencies	96,493	—	—	96,493	—
U.S. corporate bonds/notes (medium term notes)	1,563	—	—	1,563	—
U.S. treasury securities	547,250	—	547,250	—	—
Cash and cash equivalents	15,477	15,477	—	—	—
Money market funds*	33,023	33,023	—	—	—
Total	\$ 700,365	48,500	547,250	104,615	—

* Investments exempt from fair value

Investments outside the City Treasury pool may consist of U.S. Treasury securities, U.S. Government Agency securities, and other investments such as commercial paper, money market funds, negotiable certificates of deposit, supranational securities, and other investments permitted under the applicable bond documents. U.S. Treasury securities are valued using quoted prices in active markets and classified in Level 1 of the fair value hierarchy. U.S. Government Agency securities are valued using mid pricing and classified in Level 2 of the fair value hierarchy. Investments exempt from fair value treatment consist of money market mutual funds with investment holdings having maturities of one year or less at the time of purchase.

CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

The primary objectives of the Airport's policy on investment of debt service reserve funds and debt service funds (including principal and interest accounts) held by the Trustees are, in order of priority, safety, liquidity, and yield.

Safety of principal is the foremost objective of the investment program. Investments undertaken seek to ensure the preservation of capital in the overall portfolio. As one strategy to attain this objective, investments are diversified.

The term of any investment is based on the cash flow needed to meet the Airport's debt service requirements. Consequently, investment of any debt service reserve funds is limited to seven years or less, and all monies invested in any principal and interest payment accounts are to mature no later than the dates on which the principal or interest payments are due.

The Airport will maximize the retainable earnings of all bond proceeds after meeting the requirements of safety and liquidity. After these objectives are met, the Airport's investment policy will attempt to achieve net investment yield as close as practicable to each bond fund's arbitrage yield, if any.

Funds held by the Senior Trustee in funds and accounts established under the Airport Commission's Resolution No. 91-0210 adopted on December 3, 1991 (as amended and supplemented, the "1991 Master Bond Resolution"), are invested in "Permitted Investments" as defined in the 1991 Master Bond Resolution.

Funds held by the Subordinate Trustee in funds and accounts established under the Airport Commission's Resolution No. 97-0146 adopted on May 20, 1997, as amended and supplemented (the 1997 Note Resolution) are invested in "Permitted Investments" as defined in the 1997 Note Resolution.

The Airport had approximately \$700.4 million in investments held by, and in the name of, the Senior Trustee and the Subordinate Trustee, collectively, as of June 30, 2023.

All other funds of the Airport are invested in accordance with (1) the City Treasurer's policy and, if applicable, (2) the 1991 Master Bond Resolution or the 1997 Note Resolution, as appropriate.

(4) Grants Receivable

The Airport receives federal funding from the FAA, the TSA, and other federal agencies. Grants receivable of \$30.3 million as of June 30, 2023, were based on actual costs incurred, subject to federal reimbursement limits.

When determining the distribution of discretionary grants, the Secretary of Transportation may consider, as a mitigating factor, whether the Airport uses its revenues for purposes other than capital or operating costs, when those revenues exceed the amount used by the Airport for such costs in the base year ending June 30, 1995, as adjusted for inflation. The Airport Commission pays a portion of the Airport's revenues to the City's General Fund as an annual service payment, in part as compensation for indirect services, management and facilities provided by the City to the Airport. The annual service payment is considered to be a noncapital, nonoperating cost for this purpose. With the exception of five fiscal years, the annual service payment has exceeded the base year payment when adjusted for inflation since fiscal year 1995-96.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

In the past, the Commission has received a lower amount of FAA discretionary grants than it requested as a result of the amount of the annual service payments. The FAA militated \$6.7 million in discretionary grants in the federal fiscal year ended September 30, 2023, and the Commission received \$39.0 million in FAA discretionary grants, which included Bipartisan Infrastructure Law Airport Terminal Program funding. The FAA may reduce discretionary grants in the future. Furthermore, AIP funding may be reduced in the future as a result of legislation or the failure of the U.S. Congress to pass an annual appropriation bill including such funding. Reduction in grants awarded to the Commission could result in the delay or cancellation of projects or the incurrence of additional debt by the Commission.

Grant-funded project costs are subject to audit by the funding agencies to ensure that the costs are allowable under the grant agreements. If any project costs are disallowed, amounts recorded as grants receivable will be reduced or refunded to the respective funding agencies.

Intangible assets	37,610	740	(479)	37,871
Total capital assets being depreciated/amortized	<u>10,202,555</u>	<u>84,679</u>	<u>(22,377)</u>	<u>10,264,857</u>
Less accumulated depreciation/amortization:				
Buildings, structures, and improvements	(3,587,917)	(263,191)	16,504	(3,834,604)
Equipment	(413,799)	(88,100)	5,321	(496,578)
Right to use asset	(278)	(1,524)	—	(1,802)
Intangible assets	(32,093)	(2,660)	478	(34,275)
Total accumulated depreciation/amortization	<u>(4,034,087)</u>	<u>(355,475)</u>	<u>22,303</u>	<u>(4,367,259)</u>
Total capital assets being depreciated/amortized, net	<u>6,168,468</u>	<u>(270,796)</u>	<u>(74)</u>	<u>5,897,598</u>
Total capital assets, net	<u>\$ 6,977,073</u>	<u>39,696</u>	<u>(82,271)</u>	<u>\$ 6,934,498</u>

In fiscal year 2006-07, the Airport adopted a cost allocation plan to capture indirect costs as a component of a building or other capital asset to reflect the full and true cost of a capital asset. In accordance with the Uniform Guidance, the indirect costs capitalized for the fiscal year ended June 30, 2023, were \$16.9 million.

For details on leases for Airport as lessee, see note 9.

SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

(6) Subordinate Commercial Paper Notes

On May 20, 1997, the Airport Commission adopted Resolution No. 97-0146 (as amended and supplemented, the 1997 Note Resolution). The 1997 Note Resolution authorizes the issuance of subordinate commercial paper (CP) notes in an aggregate principal amount not to exceed the lesser of \$600.0 million or the stated amount of the letter(s) of credit securing the CP notes.

The Airport issues CP notes in series based on tax status that are divided into subseries according to the bank providing the applicable direct-pay letter of credit. In addition to the applicable letter of credit, the CP notes are further secured by a pledge of the Net Revenues of the Airport, subject to the prior payment of the Commission's San Francisco International Airport Second Series Revenue Bonds (the Senior Bonds) outstanding from time to time under Resolution No. 91-0210, adopted by the Commission on December 3, 1991 (as amended and supplemented, the 1991 Master Bond Resolution).

Net Revenues are generally defined in the 1997 Note Resolution as all revenues earned by the Commission from or with respect to its construction, possession, management, supervision, maintenance, extension, operation, use and control of the Airport (not including certain amounts specified in the 1997 Note Resolution), less Operation and Maintenance Expenses (as defined in the 1997 Note Resolution). See note 8.

The CP notes are special, limited obligations of the Commission, and the payment of the principal of and interest on the CP notes is secured by a pledge of, lien on and security interest in the Net Revenues and amounts in the funds and accounts as provided in the 1997 Note Resolution, subject to the prior payment of principal of and interest on the Senior Bonds. The CP notes are secured on a parity with any other bonds or other obligations from time to time outstanding under the 1997 Note Resolution.

Events of default for the CP notes include nonpayment events, bankruptcy events, noncompliance with covenants, and default under the 1991 Master Bond Resolution. The CP notes are not subject to acceleration.

Events of default with respect to the letters of credit supporting the CP notes include nonpayment events (both on CP notes and Senior Bonds), bankruptcy events, noncompliance with covenants, default on debt in excess of a specified threshold amount, default under the 1997 Note Resolution, or a determination of taxability of interest on the tax-exempt CP notes. A downgrade of the Commission's Senior Bonds to below "Baa1" by Moody's or "BBB+" by S&P or Fitch is an event of termination with respect to all of the letters of credit supporting the CP notes. In addition, the State Street Bank and Trust letter of credit supporting \$100.0 million of CP notes includes certain changes in law affecting the Commission's payment obligations to the bank as events of termination. Remedies include the letter of credit bank's ability to stop issuance of the CP notes it supports and to require a final drawing on the letter of credit. If not repaid when due, drawings under the respective letters of credit supporting the CP notes are amortized over a three-, four-, or five-year period.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

As of June 30, 2023, the CP program was supported by six direct-pay letters of credit with a combined maximum stated principal amount of \$600.0 million, from State Street Bank and Trust Company (\$100.0 million, expires May 2, 2024), Sumitomo Mitsui Banking Corporation, acting through its New York Branch (\$100.0 million, expires April 7, 2027), Barclays Bank PLC (\$100.0 million, expires May 24, 2024), Sumitomo Mitsui Banking Corporation, acting through its New York Branch (\$100.0 million, expires June 6, 2028), Barclays Bank PLC (\$125.0 million, expires April 23, 2027), and Bank of America, N.A. (\$75.0 million, expires May 4, 2026). Each of the letters of credit supports a separate subseries of CP notes.

As of June 30, 2023, there were no obligations other than the CP notes outstanding under the 1997 Note Resolution.

During fiscal year 2022-23, the Airport issued new money CP notes in the aggregate principal amount of \$392.0 million (AMT), \$22.5 million (Non-AMT), and \$2.8 million (Taxable) to fund capital improvement projects.

The following table summarizes CP activity during the fiscal year ended June 30, 2023 (in thousands):

	<u>Interest rate</u>	<u>July 1, 2022</u>	<u>Increases</u>	<u>Decreases</u>	<u>June 30, 2023</u>
Commercial paper (Taxable) - short term	3.50%-5.45%	\$ 2,700	2,750	—	5,450
Commercial paper (AMT) - long term	2.32%-3.42%	65,225	392,000	—	457,225
Commercial paper (Non-AMT) - long term	2.42%-3.35%	18,050	22,500	—	40,550
Total		<u>\$ 85,975</u>	<u>417,250</u>	<u>—</u>	<u>503,225</u>

The table presents the commercial paper notes' net increase and decrease activities during fiscal year FY2022-23. This excludes the issuance of commercial paper notes to repay maturing commercial paper notes.

As of June 30, 2023, the Airport had \$503.2 million in outstanding commercial paper notes including \$497.8 million that was refunded by the Series 2023C/D bonds issued on November 15, 2023. The \$497.8 million has been reclassified to long-term commercial paper notes on the financial statements as of June 30, 2023. See note 17.

Net pension liability (asset) (see note 12a)	(153,872)	—	316,072	162,200	—
Derivative instruments	10,192	—	(10,192)	—	—
Total	<u>\$ 9,232,205</u>	<u>789,910</u>	<u>(57,940)</u>	<u>9,964,175</u>	<u>103,724</u>

Bond Transactions and Balances

On December 3, 1991, the Commission adopted Resolution No. 91-0210 (as amended and supplemented, the 1991 Master Bond Resolution). The 1991 Master Bond Resolution authorizes the issuance from time to time of San Francisco International Airport Second Series Revenue Bonds to finance and refinance capital projects at the Airport. The maximum principal amount of such bonds is not limited by the 1991 Master Bond Resolution, but the Commission must satisfy an additional bonds test prior to the issuance of any such bonds. The 1991 Master Bond Resolution constitutes a contract between the Commission and the registered owners of the bonds under which the Commission has irrevocably pledged the Net Revenues of the Airport to the payment of the principal of and interest on the bonds.

Net Revenues are generally defined in the 1991 Master Bond Resolution as all revenues earned by the Commission from or with respect to its possession, management, supervision, operation, and control of the Airport (not including certain amounts specified in the 1991 Master Bond Resolution), less Operation and Maintenance Expenses (as defined in the 1991 Master Bond Resolution). See note 8. Net Revenues generally exclude revenues from Airport facilities that have been designated by the Commission as "Special Facilities" and expenses of Special Facilities payable from such excluded revenues.

The bonds are special, limited obligations of the Commission, and the principal of and interest on the bonds are payable solely from and secured by a pledge of, lien on and security interest in the Net Revenues and amounts in the funds and accounts provided in the 1991 Master Bond Resolution. The payment of the

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

principal of and interest on all previously issued bonds under the 1991 Master Bond Resolution is secured by a pledge of, lien on and security interest in Net Revenues on a parity with the pledge, lien and security interest securing any additional bonds issued thereunder.

Events of default for the bonds include nonpayment events, bankruptcy events, and noncompliance with covenants, including the rate covenant described below. The bonds are not subject to acceleration.

Payment of principal, interest and purchase price of bonds that bear interest at variable interest rates are supported by letters of credit. Events of default with respect to the letters of credit supporting the bonds include nonpayment events, bankruptcy events, noncompliance with covenants, default on debt in excess of a specified threshold amount, default under the 1991 Master Bond Resolution, or a determination of taxability of interest on tax-exempt bonds supported by the letter of credit. A downgrade of the Commission's Senior Bonds to below "Baa1" or "BBB+" or withdrawal or suspension of a bond rating for credit-related reasons by any rating agency is an event of termination under the letters of credit supporting the bonds. Remedies include the letter of credit bank's ability to cause a mandatory tender of the supported bonds or to accelerate amounts due and payable to the bank; provided that payments made on a parity with the bonds are capped based on provisions in the 1991 Master Bond Resolution. If there are no default events pending, drawings under the respective letters of credit supporting the bonds are amortized over a three- or five-year period; provided that payments made on a parity with the bonds are capped based on provisions in the 1991 Master Bond Resolution.

Interest Rate Swaps

The Airport entered into forward starting interest rate swaps in connection with the anticipated issuance of its Second Series Variable Rate Revenue Refunding Bonds, Series 2010A, on February 10, 2010. The swap structure was intended as a means to increase the Airport's debt service savings by setting a low synthetic fixed rate in advance of the first date that tax-exempt variable rate refunding bonds could be issued in the future to refinance callable bonds.

The Airport terminated these interest rate swaps on August 9, 2019 and March 1, 2023.

As of June 30, 2023, all swaps had been terminated.

Debt Service Reserve and Covenants; Contingency Account

The Airport Commission issues its senior lien San Francisco International Airport Second Series Revenue Bonds under the 1991 Master Bond Resolution, which provides, among other things, the general terms and conditions of the bonds, the funds and accounts relating to the bonds, and certain covenants made by the Airport Commission for the benefit of bondholders. Such covenants include not creating or allowing creation of liens on the Revenues or disposing of any property necessary to maintaining revenues or operating the Airport and maintaining specified levels of insurance or self-insurance. The Airport Commission may establish one or more reserve accounts with different reserve requirements to secure one or more series of bonds. Accordingly, the Airport Commission has established three reserve accounts in the Reserve Fund: the Issue 1 Reserve Account, the 2009 Reserve Account, and the 2017 Reserve Account, all of which are held by the Senior Trustee. In conjunction with the defeasance of the Series 2010D Bonds on August 20, 2020, the 2009 Reserve Account was closed. As permitted under the 1991 Master Bond Resolution, the Airport Commission may establish separate reserve accounts for individual series of bonds or may issue bonds without a reserve account.

Issue 1 Reserve Account – The Issue 1 Reserve Account is the Airport's original parity reserve account established in connection with the first issuance of bonds under the 1991 Master Bond Resolution and which now secures most of the Airport Commission's outstanding bonds. Specifically, as of June 30, 2023, the Issue 1 Reserve Account secures all outstanding bonds except the series listed below as being secured by the 2017 Reserve Account, and except for Series 2018B and Series 2018C. The Airport Commission may designate any series of bonds as a "participating series" secured by the Issue 1 Reserve Account. The reserve requirement is equal to the maximum annual debt service on the outstanding bonds secured by the Issue 1 Reserve Account accruing in any year during the life of all participating series of bonds secured by the Issue 1 Reserve Account.

2017 Reserve Account – The Airport Commission has established an additional pooled reserve account identified as the 2017 Reserve Account in the Reserve Fund, as security for each series of bonds (a 2017 Reserve Series) that is designated as being secured by the 2017 Reserve Account. As of June 30, 2023, only the Series 2017D, 2019B, and 2019D Bonds are secured by the 2017 Reserve Account. The reserve requirement for the 2017 Reserve Account is equal to the lesser of: (i) the maximum amount of aggregate annual debt service for all 2017 Reserve Series Bonds in any fiscal year during the period from the date of calculation to the final scheduled maturity of the 2017 Reserve Series Bonds, (ii) 10.0% of the outstanding aggregate principal amount of all 2017 Reserve Series Bonds (provided that the issue price of a Series of 2017 Reserve Series Bonds will be used in this calculation if such Series was sold with an original issue

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

discount that exceeded 2% of the principal of such Series on its original date of sale), and (iii) 125% of the average aggregate annual debt service for all 2017 Reserve Series Bonds.

Reserve Policies – Under the 1991 Master Bond Resolution, the Airport Commission may satisfy a portion of a reserve requirement by depositing with the Senior Trustee one or more reserve policies issued by a credit provider meeting specified rating requirements. However, the 1991 Master Bond Resolution does not require that those ratings be maintained after the date of deposit. As of June 30, 2023, the Issue 1 Reserve Account contains reserve policies. Each of the providers of the reserve policies in the reserve accounts was rated “AAA” at the time the policies were deposited. However, as a result of the financial crisis that began in 2007, all of the major municipal bond insurance companies have been downgraded, and several are no longer providing current financial and operating information. In addition, under the terms of several of the reserve policies, the value of the policies is adjusted downward from time to time as related bonds are refunded and such policies have experienced a reduction in value and may have experienced a reduction in value to zero. The policies in the Issue 1 Reserve Account with remaining value have termination dates. The Airport has periodically deposited additional cash in the Issue 1 Reserve Account to satisfy the reserve requirement and compensate for the diminished value or downgraded providers of these reserve policies.

Contingency Account – Under the 1991 Master Bond Resolution, the City Treasurer holds the Contingency Account as an account within the Revenue Fund, and the Commission may deposit in the Contingency Account such amounts, if any, as the Commission may determine from time to time. Monies in the Contingency Account may be applied (i) to pay Operation and Maintenance Expenses; (ii) to make any required payments or deposits to pay or secure the payment of the principal or purchase price of or interest or redemption premium on the 1991 Resolution Bonds; and (iii) to pay the cost of any additions, improvements, repairs, renewals or replacements to the Airport, in each case only if and to the extent that monies otherwise available to make such payments or deposits are insufficient.

Rate Covenant – Under the terms of the 1991 Master Bond Resolution, the Airport has covenanted that it will establish and at all times maintain rentals, rates, fees, and charges for the use of the Airport and for services rendered by the Airport so that:

- (a) Net Revenues (as defined in the 1991 Master Bond Resolution) in each fiscal year will be at least sufficient (i) to make all required debt service payments and deposits in such fiscal year with respect to the bonds, any subordinate bonds, and any general obligation bonds issued by the City for the benefit of the Airport (there have been no such general obligation bonds outstanding for more than 30 years), and (ii) to make the annual service payments to the City, and
- (b) Net Revenues, together with any transfer from the Contingency Account to the Revenue Account (both held by the City Treasurer), in each fiscal year will be at least equal to 125% of aggregate annual debt service with respect to the bonds for such fiscal year.

The methods required by the 1991 Master Bond Resolution for calculating debt service coverage differ from those required under GAAP, which are used to determine amounts reported in the Airport’s financial statements. For example, the 1991 Master Bond Resolution includes in the definition of Operating and Maintenance Expenses (which is used to calculate Net Revenues) “the *payment* of pension charges ... with respect to employees of the Commission...” (emphasis added) and excludes a number of noncash accrual

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

items. Accordingly, the Commission excludes from its rate covenant calculations any noncash accrued pension obligations and includes only pension obligations actually paid during the fiscal year. As another example, the 1991 Master Bond Resolution excludes from the definition of Operating and Maintenance Expenses “any expense for which, or to the extent to which, the Commission is or will be paid or reimbursed from or through any source that is not included or includable as Revenues,” and excludes from the definition of Revenues “grants-in-aid, donations and/or bequests.” Accordingly, the Commission excludes from its rate covenant both grant funds used toward operating costs (such as the CRRSAA and ARPA grant funds) and the operating costs reimbursed using such grant funds.

Post-Issuance Compliance with Federal Tax Law

The Airport follows certain federal tax law post-issuance compliance procedures that are intended to ensure that proceeds of its tax-exempt bonds are invested and expended consistent with applicable federal tax law, including the Internal Revenue Code of 1986, the Regulations promulgated thereunder, and other applicable guidance from the U.S. Treasury Department and the Internal Revenue Service (IRS).

(a) Second Series Revenue Bonds (Capital Plan Bonds)

Pursuant to resolutions adopted between fiscal years 2008 and 2022, as of June 30, 2023, the Airport Commission has authorized the issuance of up to \$10.8 billion of San Francisco International Airport Second Series Revenue Bonds (Capital Plan Bonds) to finance and refinance the construction, acquisition, equipping, and development of capital projects undertaken by the Airport, including retiring all or a portion of the Airport’s outstanding subordinate commercial paper notes issued for capital projects, funding debt service reserves, funding capitalized interest, and for paying costs of issuance. As of June 30, 2023, \$4.2 billion of the authorized capital plan bonds remained unissued.

(b) Second Series Revenue Refunding Bonds

Pursuant to resolutions adopted between fiscal years 2005 and 2023, as of June 30, 2023, the Airport Commission has authorized the issuance of up to \$17.1 billion of San Francisco International Airport Second Series Revenue Refunding Bonds for the purposes of refunding outstanding 1991 Master Bond Resolution Bonds and outstanding subordinate commercial paper notes, funding debt service reserves, and paying costs of issuance, including any related bond redemption premiums. As of June 30, 2023, \$7.2 billion of the authorized refunding bonds remained authorized but unissued.

During fiscal year 2022-23, the Airport issued the following bonds for refunding and other purposes under the 1991 Master Bond Resolution:

On March 1, 2023, the Airport issued its fixed rate Second Series Revenue Refunding Bonds, Series 2023A (AMT) and Second Series Revenue Refunding Bonds, Series 2023B (Non-AMT/Governmental Purpose), in an aggregate principal amount of \$241.9 million to refund a combined \$261.5 million of its Series 2010A Bonds, Series 2013A Bonds, and Series 2013B Bonds, to fund the termination payment of an interest rate swap, and to pay costs of issuance.

The proceeds of the Series 2023A and Series 2023B Bonds (consisting of \$241.9 million par amount and original issue premium of \$21.6 million, less an underwriters’ discount of \$0.5 million), together with \$8.6 million accumulated in the debt service fund were used to deposit \$265.0 million into redemption accounts and escrow funds with the Senior Trustee to refund \$261.5 million in revenue

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

bonds as described below (in thousands), \$5.5 million to fund the swap termination payment, and \$1.1 million to pay costs of issuance.

The Series 2010A bonds were redeemed on March 31, 2023, and Series 2013A bonds and Series 2013B bonds identified in the table below were redeemed on May 1, 2023.

The following table (in thousands) shows the outstanding balance after the bonds were refunded with the issuance of Series 2023A/B bonds:

Second Series Revenue Bonds Issue:	Interest Rate	June 30, 2022	Amount Refunded	June 30, 2023
Series 2010A1 (AMT)	variable	\$ 71,845	71,845	-
Series 2010A2 (AMT)	variable	47,900	47,900	-
Series 2013A (AMT)	5.00%-5.50%	295,650	53,860	241,790
Series 2013B (Non-AMT/Governmental Purpose)	5.00%	87,860	87,860	-
Total		<u>\$ 503,255</u>	<u>261,465</u>	<u>241,790</u>

In aggregate, the Series 2023A/B refundings resulted in the recognition of a deferred accounting loss of \$3.5 million for the fiscal year ended June 30, 2023. The Series 2023A/B refundings decreased the Airport's aggregate gross debt service payments by approximately \$23.9 million over the life of the bonds and obtained an economic gain (the difference between the present values of the debt service on the old debt and the new debt) of \$10.6 million.

(c) Variable Rate Demand Bonds

As of June 30, 2023, the Airport Commission had an outstanding aggregate principal amount of \$276.3 million, consisting of Second Series Variable Rate Revenue Refunding Bonds, Series 2018B and Series 2018C, (collectively, the "Variable Rate Bonds") with final maturity dates of May 1, 2058 (Series 2018B and 2018C). The Variable Rate Bonds are long-term, tax-exempt bonds that currently bear interest at a rate that is adjusted weekly, and that are subject to tender at par at the option of the holder thereof on seven days' notice. Any tendered Variable Rate Bonds are remarketed by the applicable remarketing agent in the secondary market to other investors. The interest rate on the Variable Rate Bonds can be converted to other interest rate modes, including a term rate or fixed rates to maturity, upon appropriate notice by the Airport.

The scheduled payment of the principal of and interest on, and payment of purchase price of, the Variable Rate Bonds is secured by separate irrevocable letters of credit issued to the Senior Trustee for the benefit of the applicable bondholders by the banks identified in the table below.

Amounts drawn under a letter of credit that are not reimbursed by the Airport constitute "Repayment Obligations" under the 1991 Master Bond Resolution and are accorded the status of other outstanding

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

bonds to the extent provided in the Resolution. The commitment fees for the letters of credit range between 0.34% and 0.37% per annum. As of June 30, 2023, there were no unreimbursed draws under these facilities.

The letters of credit securing the Variable Rate Bonds included in long-term debt as of June 30, 2023, are as follows (in thousands):

	<u>Series 2018B</u>	<u>Series 2018C</u>
Principal amount	\$ 138,170	138,170
Expiration date	June 3, 2026	April 5, 2027
Credit provider	Barclays ⁽¹⁾	SMBC ⁽²⁾

(1) Barclays Bank PLC

(2) Sumitomo Mitsui Banking Corporation, acting through its New York branch

(d) Hotel Special Facility Bonds

Pursuant to resolutions adopted in fiscal years 2017, 2018, and 2019, the Airport Commission authorized the issuance of \$260.0 million of Special Facility Bonds to finance an on-Airport Hotel. These resolutions also designated the on-Airport Hotel as a “Special Facility” under the 1991 Master Bond Resolution, which allows the hotel revenues to be segregated from the Airport’s other revenues and used to pay hotel operating expenses and debt service on the Hotel Special Facility Bonds through the Hotel Special Facility Bond trustee. On June 6, 2018, the Airport issued its fixed rate Special Facility Revenue Bonds (San Francisco International Airport Hotel), Series 2018 (the “Hotel Special Facility Bonds”), in the aggregate principal amount of \$260.0 million to finance the on-Airport Hotel and to fund a capitalized interest account.

The Hotel Special Facility Bonds are issued pursuant to a Trust Agreement (the “Hotel Trust Agreement”). On February 26, 2021, the Hotel Special Facility Bonds and the trust agreement pursuant to which they were issued were amended and restated, including to delay the initial principal repayment until April 1, 2025 (instead of April 1, 2022) and temporarily reduce the interest rate on the Hotel Special Facility Bonds from 3.00% to 0.086% from April 1, 2020 through September 30, 2023. The interest rate will then increase incrementally until it is restored to 3.00% beginning on April 1, 2029. In addition, the amendments provided that October 1, 2020 is no longer an interest payment date, and there is no requirement to pay interest accrued on the Hotel Special Facility Bonds until October 1, 2023. The maximum principal amount of the Hotel Special Facility Bonds is not limited by the Hotel Trust Agreement, but the Commission must satisfy an additional bonds test prior to the issuance of any such bonds.

The Hotel Special Facility Bonds are limited obligations of the Commission. Under the Hotel Trust Agreement, the Commission has pledged the Revenues of the on-Airport Hotel, together with other assets, to the payment of the principal of and interest on the Hotel Special Facility Bonds. Revenues are generally defined in the Hotel Trust Agreement as all revenue and income of any kind derived directly or indirectly from operations at the on-Airport Hotel (not including certain amounts specified in the Hotel Trust Agreement). Operating expenses of the on-Airport Hotel are payable prior to payment

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

of principal of and interest on the Hotel Special Facility Bonds. The Commission does not maintain a reserve account for the Hotel Special Facility Bonds. The Hotel Special Facility Bonds are subject to acceleration upon the occurrence of an event of default. Events of default include nonpayment events, bankruptcy events, noncompliance with covenants, condemnation of the hotel, or a failure by the Commission to maintain a third-party manager for the hotel. The Hotel Special Facility Bonds are not payable from or secured by the Airport's Net Revenues (as defined under the 1991 Master Bond Resolution). However, because the Airport is the owner of the on-Airport Hotel, the Airport is obligated to repay the Hotel Special Facility Bonds from the net revenues of the hotel.

Because the Airport is the issuer of the Hotel Special Facility Bonds and the sole beneficiary of the trust entity serving as holder of the Hotel Special Facility Bonds, neither the Hotel Special Facility Bonds debt service payments nor the Airport's receipts from the trust are included in the accompanying financial statements. The financial statements net the interest income received from the trust against the combined interest expenses of the Hotel Special Facility Bonds and the Series 2018B/C Bonds.

As of June 30, 2023, the Airport Commission had \$260.0 million of outstanding Hotel Special Facility Bonds.

(e) Derivative Instruments

As of June 30, 2023, the Airport did not have any outstanding derivative instruments.

(f) Debt Service Reserves and Requirements

Issue 1 Reserve Account

As of June 30, 2023, the reserve requirement for the Issue 1 Reserve Account was \$534.9 million, which was satisfied by \$539.5 million of cash and investment securities, and reserve fund surety policies in the initial principal amount of \$108.6 million. All of the providers of such reserve policies have one or more credit ratings below the Airport's rating or are no longer rated. In addition, \$27.5 million of such surety policies have likely experienced a reduction in value in accordance with their terms.

2017 Reserve Account

As of June 30, 2023, the reserve requirement for the 2017 Reserve Account was \$40.6 million, which was satisfied by \$57.1 million in cash and investment securities.

Series Not Secured by Reserve Accounts

The Airport Commission does not maintain reserve accounts for its Second Series Variable Rate Revenue Refunding Bonds, Series 2018B/C, all of which are secured by letters of credit.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

(g) Cash Defeasance of Bonds

On June 28, 2023, the Airport defeased \$28.8 million of its Series 2019D Bonds, using monies previously deposited by the Commission in the Debt Service Fund.

The outstanding balance for Series 2019D Bonds for the year ended June 30, 2023 is as follows (in thousands):

Bond Series	June 30, 2022	Cash Defeasance Amount	June 30, 2023
2019D	\$ 402,115	28,820	373,295

(8) Pledged Revenue

The Airport Commission has pledged all of the Net Revenues of the Airport to repay the following obligations when due, in order of priority, (1) the San Francisco International Airport Second Series Revenue Bonds and Revenue Refunding Bonds (collectively, Senior Bonds) issued and to be issued under the Commission's Resolution No. 91-0210 adopted on December 3, 1991 (as amended and supplemented, the "1991 Master Bond Resolution"), and amounts due with respect to the letters of credit supporting the Senior Bonds to the extent provided in the 1991 Master Bond Resolution, (2) the San Francisco International Airport Subordinate Commercial Paper Notes and any other obligations (Subordinate Bonds) issued and to be issued under the Commission's Resolution No. 97-0146 adopted on May 20, 1997 (as amended and supplemented, the "1997 Note Resolution") and amounts due to reimburse drawings under the letters of credit supporting the Commercial Paper Notes, (3) remaining amounts due to reimburse drawings under the letters of credit securing the Senior Bonds, and (4) interest rate swap termination payments. The Senior Bonds and Commercial Paper Notes are issued to finance capital projects at the Airport (including the funding of reserves) and to refund previously issued Senior Bonds and Commercial Paper Notes. The pledges of Net Revenues described above are in force so long as the secured obligations are outstanding. As of June 30, 2023, the final maturities of the obligations secured by the Net Revenues are Senior Bonds that mature in fiscal year 2057-58.

Net Revenues are defined in the 1991 Master Bond Resolution and the 1997 Note Resolution as Revenues less Operation and Maintenance Expenses. Revenues are defined to include all revenues earned by the Commission with respect to the Airport, as determined in accordance with GAAP. Revenues do not include:

- (a) Investment income from monies in (i) the Construction Fund, (ii) the Debt Service Fund which constitute capitalized interest, or (iii) the Reserve Fund if and to the extent there is any deficiency therein.
- (b) Interest income on, and any profit realized from, the investment of the proceeds of any Special Facility Bonds (as defined in the 1991 Master Bond Resolution).
- (c) Special Facility Revenues (as defined in the 1991 Master Bond Resolution) and any income realized from the investment thereof unless designated as Revenues by the Commission.
- (d) Any passenger facility or similar charge levied by or on behalf of the Commission unless designated as Revenues by the Commission.
- (e) Grants-in-aid, donations and bequests.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

- (f) Insurance proceeds not deemed to be Revenues in accordance with GAAP.
- (g) The proceeds of any condemnation award.
- (h) The proceeds of any sale of land, buildings or equipment.
- (i) Any money received by or for the account of the Commission from the levy or collection of taxes upon any property of the City and, with respect to the 1991 Master Bond Resolution only.
- (j) Any Customer Facility Charge (as defined in the 1991 Master Resolution) or similar charge levied by or on behalf of the Commission against customers unless designated as Revenues by the Commission.
- (k) Any Federal Subsidy Payments (as defined in the 1991 Master Resolution) unless designated as Revenues by the Commission.

Operation and Maintenance Expenses are defined in the 1991 Master Bond Resolution and the 1997 Note Resolution to include all expenses of the Commission incurred for the operation and maintenance of the Airport, as determined in accordance with GAAP. Operation and Maintenance Expenses do not include:

- (a) The principal of, premium, if any, or interest on the Senior Bonds or Subordinate Bonds (including Commercial Paper Notes).
- (b) Any allowance for amortization, depreciation or obsolescence of the Airport.
- (c) Any expense for which, or to the extent to which, the Commission will be paid or reimbursed from or through any source that is not included or includable as Revenues.
- (d) Any extraordinary items arising from the early extinguishment of debt.
- (e) Annual Service Payments to the City.
- (f) Any costs, or charges made therefor, for capital additions, replacements or improvements to the Airport which, under GAAP, are properly chargeable to a capital account or reserve for depreciation.
- (g) Any losses from the sale, abandonment, reclassification, revaluation or other disposition of any Airport properties. Operation and Maintenance Expenses include the payment of pension charges and proportionate payments to such compensation and other insurance or outside reserve funds as the Commission may establish or the Board of Supervisors may require with respect to Commission employees.

Notes to Financial Statements

Year ended June 30, 2023

For fiscal year 2022-23, the calculation of Net Revenues excluded \$23.8 million of revenue from the American Rescue Plan Act (ARPA) grant reimbursements received by the Airport, which are not includable as revenue, and excluded \$23.8 million of operating expenses that were reimbursed using the ARPA grant funds.

	Amount
Bonds issued with revenue pledge	\$ 241,915
Bond principal and interest remaining due at the end of the fiscal year	14,950,425
Commercial paper issued with subordinate revenue pledge	417,250
Commercial paper principal and interest remaining due at the end of the fiscal year	504,135
Net revenues	511,495
Bond principal and interest paid in the fiscal year	400,509
Commercial paper principal, interest and fees paid in the fiscal year	6,291

Pledged Revenue of the On-Airport Hotel

Pursuant to the Hotel Trust Agreement, the Airport Commission has pledged all of the Revenues of the on-Airport Hotel and certain other assets pledged under the Amended and Restated Hotel Trust Agreement to repay the Hotel Special Facility Bonds, all in accordance with the Hotel Trust Agreement. This pledge is in force so long as the Hotel Special Facility Bonds are outstanding. The Hotel Special Facility Bonds will mature in fiscal year 2057-58 and are subject to mandatory sinking fund redemption each year starting in 2025.

Revenues are defined in the Hotel Trust Agreement as the Total Operating Revenues, including any insurance proceeds, condemnation proceeds, performance bonds and guaranties and all interest, profits or other income derived from the investment of amounts in any fund or account established pursuant to the Hotel Trust Agreement (except any subaccounts of the Construction Fund that are otherwise pledged and the Rebate Fund).

Total Operating Revenues are defined in the Hotel Trust Agreement as all revenue and income of any kind derived directly or indirectly from operations at the on-Airport Hotel, whether or not arranged by, for or on behalf of another person or at another location, properly attributable to the period under consideration (including rentals or other payments from licensees or concessionaires of retail space in the hotel, but not gross receipts of such licensees or concessionaires), determined in accordance with the Uniform System of Accounts and, to the extent consistent therewith, Generally Accepted Accounting Principles, but do not include:

- (a) Certain excluded taxes (such as sales tax) and other charges.
- (b) Receipts from the financing, sale or other disposition of capital assets and other items not in the ordinary course of the hotel's operations and income derived from securities and other property acquired and held for investment.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

- (c) Receipts from awards or sales in connection with any taking, from other transfers in lieu of and under the threat of any taking, and other receipts in connection with any taking, but only to the extent that such amounts are specifically identified as compensation for alterations or physical damage to the hotel.
- (d) Proceeds of any insurance or sureties, including the proceeds of any business interruption insurance.
- (e) Rebates, discounts, or credits of a similar nature (not including charge or credit card discounts, which shall not constitute a deduction from revenues in determining Total Operating Revenues, but shall constitute an Operating Expense of the hotel).
- (f) Consideration received at the hotel for hotel accommodations, goods and services to be provided at other hotels although arranged by, for or on behalf of, the hotel manager; provided, that such consideration is recognized by such other hotels.
- (g) Consideration received at other hotels for hotel accommodations, goods and services to be provided at the Hotel arranged by, for or on behalf of, such other hotels; provided, that such consideration is recognized by such other hotels.
- (h) Notwithstanding any contrary requirements of Generally Accepted Accounting Principles, all gratuities collected for the benefit of and paid directly to hotel personnel.
- (i) Proceeds of any financing.
- (j) The initial operating funds and working capital loans and any other funds provided by the Commission to the hotel manager whether for hotel Operating Expenses or otherwise.
- (k) Other income or proceeds that do not result from: (i) the use or occupancy of the hotel, or any part thereof, or (ii) the sale of goods, services or other items by or from the hotel in the ordinary course of business.
- (l) Interest earned on funds held in any fund or account under the Hotel Trust Agreement.
- (m) The value of any complimentary rooms, goods or services.
- (n) Refunds to hotel guests of any sums or credits to any hotel customers for lost or damaged items.
- (o) Refunds to parking customers of any sums or credits to any parking customers for lost or damaged items.

Generally, the Hotel Special Facility Bonds are paid after provision for the Operating Expenses of the hotel and payment of taxes and insurance premiums have been made. The Hotel Special Facility Bonds are not payable from Net Revenues, as that term is defined in the 1991 Master Bond Resolution.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

Pledged Facilities Rent from Fuel System Lease with SFO FUEL COMPANY LLC

The Commission entered into a Fuel System Lease dated as of September 1, 1997, as amended, with SFO FUEL COMPANY LLC (SFO Fuel), a special purpose limited liability company formed by certain airlines operating at the Airport. The facilities rent payable by SFO Fuel has been pledged and assigned to the bond trustee to secure the repayment of the Commission's San Francisco International Airport Special Facilities Lease Revenue Bonds (SFO FUEL COMPANY LLC), Series 2019A and 2019B (the "Fuel Bonds"), which were outstanding in the aggregate principal amounts of \$96.7 million as of June 30, 2023. The Fuel bonds were issued primarily to finance and refinance improvements to the jet fuel storage and distribution system at the Airport. The pledge of the facilities rent will be in effect until the maturity of the Fuel bonds on January 1, 2047. This date may be extended in the event additional bonds (including refunding bonds) with a later maturity are issued.

(9) Leases

Airport as Lessor

As a lessor, the Airport leases terminal space (except for regulated leases), non-terminal buildings, and land to tenants under various operating leases, a majority of which are non-cancellable and terminate at various dates as late as 2053. In total, the Airport recognized lease revenue of \$86.0 million and interest revenue of \$13.3 million for the year ended June 30, 2023, related to these leases. Due to refinements in the methodology for the calculation of the annual payment, \$1.5 million of lease revenue attributable to fiscal year 2021-22 was recorded in fiscal year 2022-23.

Certain provisions of the Airport's leases provide for variable rental payments that are not included in the measurement of the lease receivable. Certain rental agreements with concessionaires specify that rental payments are to be based on a percentage of tenant sales, but no less than a fixed minimum amount. Concession percentage rents in excess of minimum guarantees (to the extent applicable) for the leases subject to GASB Statement No. 87 were approximately \$10.4 million for the year ended June 30, 2023.

Additionally, several leases include terms that allow for an adjustment of the rents to market at determined intervals and at least upon renewal. As a result, variable rent revenue is recognized for the rent increases due to CPI adjustments. During fiscal year 2022-23, the Airport recognized \$1.8 million in total variable lease revenue.

Information about lease revenues and interest revenues recognized during the year ended June 30, 2023, is presented below (in thousands):

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Buildings	\$ 83,539	13,274	96,813
Land	2,497	23	2,520
Total Revenue	<u>\$ 86,036</u>	<u>13,297</u>	<u>99,333</u>

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

Below is a schedule of future principal and interest payment receipts that are included in the measurement of the lease receivable, for each of the five subsequent fiscal years and in five-year increments thereafter as of June 30, 2023 (in thousands):

Fiscal Year(s)	Principal	Interest	Total
2024	\$ 114,523	26,454	140,977
2025	113,953	23,350	137,303
2026	112,953	20,175	133,128
2027	112,262	16,974	129,236
2028	114,649	13,709	128,358
2029 - 2033	306,703	30,988	337,691
2034 - 2038	39,255	4,745	44,000
2039 - 2043	9,265	3,235	12,500
2044 - 2048	10,445	2,055	12,500
2049 - 2053	11,713	725	12,438
	\$ 945,721	142,410	1,088,131

Regulated Leases

Certain regulated leases are subject to external laws, regulations or legal rulings and are exempted from recognition under GASB Statement No. 87, subject to the conditions that:

- (a) Lease rates cannot exceed a reasonable amount.
- (b) Lease rates should be similar for similar situated lessees, and
- (c) The lessor cannot deny potential lessees if facilities are available.

Such regulated leases at the Airport include:

- (a) The Lease and Use Agreements with certain airlines regarding the use of terminal building and equipment on an exclusive or preferential use basis, among other uses, which expired on June 30, 2023.
- (b) Non-terminal aeronautical buildings and land leases. Based on the airlines' operation needs, an airline may lease terminal space such as office space, ticket counter space, baggage makeup space, baggage claim space, and other operation spaces on a combination of exclusive, preferential, and common use basis. The Commission provides holdrooms on a preferential or common use basis to the airlines and adjusts the preferential assignment from time to time pursuant to the Lease and Use Agreements. For the fiscal year ending June 30, 2023, United Airlines accounted for 46.7 percent of total enplaned passengers at the Airport, followed by Alaska

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

Airlines (12.3%), Delta Air Lines (7.9%), and American Airlines (6.3%), with no other airlines accounting for more than 5 percent of enplaned passengers. Non-terminal buildings and lands are leased on an exclusive basis. The Airport has entered new Lease and Use Agreements that became effective on July 1, 2023 and expire on June 30, 2033.

The payments under the Lease and Use Agreements are recalculated at the end of each fiscal year and therefore are variable payments. Total inflow of resources for regulated leases during fiscal year ending June 30, 2023, was \$215.6 million, including approximately \$47.3 million of fixed payments and \$168.3 million of variable payments. The additional exclusive and preferential use payments are the actual billed amount during fiscal year 2022-23, which was adjusted down \$14.5 million during year-end true-up process.

Below is a summary of the total number of regulated leases for fiscal year 2022-23, including which assets are subject to preferential or exclusive use by counterparties:

	<u># of Leases</u>
AULA (a)	
Preferential and exclusive rental	7
Exclusive rental only	28
Non-space rental, only common use	3
Subtotal - AULA	38
Other Regulated (b)	8
Total	46

Notes:

(a) Airline-airport use and lease agreements

(b) Includes cargo, fuel, fixed-base facility leases, hangar leases, ground leases, and flight support services lease.

2024	\$ 145	2	147
2025	125	-	125
	\$ 270	2	272

(10) Conduit Debt

On February 26, 2019, the Airport issued San Francisco International Airport Special Facilities Lease Revenue Bonds (SFO FUEL COMPANY LLC), Series 2019A (AMT) and Series 2019B (Federally Taxable) (the "Fuel Bonds"), in an aggregate principal amount of \$125.0 million to refund all of the then-outstanding special facilities lease revenue bonds previously issued by the Commission for the benefit of SFO FUEL COMPANY LLC (SFO Fuel), finance capital improvements to the jet fuel distribution and related facilities at San Francisco International Airport, pay capitalized interest on a portion of the Series 2019A Bonds, make a deposit to a reserve account for the Fuel Bonds, and pay costs of issuance. As of June 30, 2023, the outstanding balance was \$96.7 million. The 2019 Fuel Bonds have a final maturity of January 1, 2047.

SFO Fuel, a special purpose limited liability company formed by certain airlines operating at the Airport, is required to pay facilities rent to the Airport pursuant to a lease agreement between the Commission and SFO Fuel with respect to the on-Airport jet fuel distribution facilities in an amount equal to debt service payments on the Fuel Bonds and any required bond reserve account deposits. The principal and interest on the Fuel Bonds are paid solely from the facilities rent payable by SFO Fuel to the Airport. The lease payments, and therefore the Fuel Bonds, are payable from charges imposed by SFO Fuel on air carriers for into-plane fueling at the Airport and are not payable from or secured by the Net Revenues of the Airport. The Airport assigned its right to receive the facilities rent to the Fuel Bonds trustee to pay and secure the payment of the Fuel Bonds. Neither the Airport nor the City is obligated in any manner for the repayment of the Fuel Bonds other than from the facilities rent received from SFO Fuel. The Fuel Bonds are therefore not reported in the accompanying financial statements.

A summary of change in deferred inflows – capital asset during the year ending in June 30, 2023, is presenting below (in thousands):

	7/1/2022 *	Additions	Deductions	June 30, 2023
Deferred Inflows - Capital Asset \$	106,617	-	(4,352)	102,265

*Restated due to the implementation of GASB 91.

CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements
Year ended June 30, 2023

(11) Subscription-Based Information Technology

The Airport frequently procures IT products and services through the City’s technology marketplace arrangements, which use substantially similar contracts, and issues purchase orders to specify the details of desired products or services. Some purchases that cover a period of multiple years are subject to the provisions of GASB Statement No. 96. There is typically no variable payment. The implementation of GASB Statement No. 96 resulted in recognition of \$2.7 million in a right-to-use asset and a corresponding subscription liability in fiscal year 2022-23.

The total subscription asset and related accumulated amortization at June 30, 2023, is as follows (in thousands):

Subscription Asset	\$ 2,697
Accumulated Amortization	<u>(1,385)</u>
	<u>\$ 1,312</u>

A summary of change in the related subscription liability during the year ended June 30, 2023, is as follows (in thousands):

	<u>7/1/2022</u>	<u>Additions</u>	<u>Remeasurements</u>	<u>Deductions</u>	<u>6/30/2023</u>	<u>Amounts Due Within One Year</u>
Subscription Liability \$	-	2,697	-	(1,805)	892	671

The future principal and interest payments as of June 30, 2023, are as follows (in thousands):

Fiscal Year	Principal	Interest	Total
2024	\$ 671	23	694
2025	221	5	226
	<u>\$ 892</u>	<u>28</u>	<u>920</u>

(12) Employee Benefit Plans

(a) San Francisco City and County Employee’s Retirement System Plan

The San Francisco City and County Employee’s Retirement System (Retirement System) administers a cost-sharing multiple-employer defined benefit pension Plan (SFERS Plan). For purposes of measuring the net pension liability, deferred outflows/inflows of resources related to pensions, pension expense, information about the fiduciary net position of the SFERS Plan, and additions to/deductions from the SFERS Plan’s fiduciary net position have been determined on the same basis as they are reported by the SFERS Plan. Contributions are recognized in the period in which they are due pursuant to legal

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

requirements. Benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Replacement Benefits Plan

The Replacement Benefits Plan (RBP) is a qualified excess benefit plan established in October 1989. Internal Revenue Code Section 415(m) provides for excess benefit arrangements that legally permit benefit payments above the Section 415 limits, provided that the payments are not paid from the SFERS Plan. The RBP allows the City to pay SFERS retirees any portion of the Charter-mandated retirement allowance that exceeds the annual Section 415(b) limit. The RBP plan does not meet the criteria of a qualified trust under GASB Statement No. 73 because RBP assets are subject to the claims of the employer's general creditors under federal and state law in the event of insolvency.

GASB Statement No. 68 and 73 require that the SFERS Plan and RBP reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used.

Valuation Date (VD)	June 30, 2021 updated to June 30, 2022
Measurement Date (MD)	June 30, 2022
Measurement Period (MP)	July 1, 2021 to June 30, 2022

SFERS Plan

The City is an employer of the plan with a proportionate share of 94.87% as of June 30, 2022 (measurement date), 0.23% increased from prior year. The Airport's allocation percentage was determined based on the Airport's employer contributions divided by the City's total employer contributions for fiscal year 2021-22. The Airport's net pension asset/liability, deferred outflows/inflows of resources related to pensions, amortization of deferred outflows/inflows and pension expense is based on the Airport's allocated percentage. The Airport's allocation of the City's proportionate share was 6.20% as of the measurement date.

Replacement Benefits Plan

The Airport's allocation percentage was determined based on the Airport's total pension liabilities divided by the City's total pension liabilities for fiscal year 2021-22. The Airport's total pension liability, deferred outflows/inflows of resources related to pensions, amortization of deferred outflows/inflows and pension expense is based on the Airport's allocated percentage. The Airport's allocation of the City's proportionate share was 2.47% as of the measurement date.

SFERS Plan Description

The Plan provides basic service retirement, disability, and death benefits based on specified percentages of defined final average monthly salary and provides annual cost-of-living adjustments after retirement. The Plan also provides pension continuation benefits to qualified survivors. The San Francisco City and County Charter and the Administrative Code are the authorities which establish and amend the benefit provisions and employer obligations of the Plan. The Retirement System issues a

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

publicly available financial report that includes financial statements and required supplementary information for the Plan. That report may be obtained on the Retirement System's website or by writing to the San Francisco City and County Employees' Retirement System, 1145 Market Street, 5th Floor, San Francisco, CA 94103 or by calling (415) 487-7000.

SFERS Benefits

The Retirement System provides service retirement, disability and death benefits based on specified percentages of defined final average monthly salary and annual cost of living adjustments (COLA) after retirement. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. The Retirement System pays benefits according to the category of employment and the type of benefit coverage provided by the City and County. The four main categories of Plan members are:

- Miscellaneous Non-Safety Members – staff, operational, supervisory, and all other eligible employees who are not in special membership categories.
- Sheriff's Department and Miscellaneous Safety Members – sheriffs assuming office on and after January 7, 2012, and undersheriffs, deputized personnel of the sheriff's department, and miscellaneous safety employees hired on and after January 7, 2012.
- Firefighter Members – firefighters and other employees whose principal duties are in fire prevention and suppression work or who occupy positions designated by law as firefighter member positions.
- Police Members – police officers and other employees whose principal duties are in active law enforcement or who occupy positions designated by law as police member positions.

The membership groups and the related service retirement benefits are included in the Notes to the Basic Financial Statements of San Francisco Employees' Retirement System.

All members are eligible to apply for a disability retirement benefit, regardless of age, when they have 10 or more years of credited service, and they sustain an injury or illness that prevents them from performing their duties. Safety members are eligible to apply for an industrial disability retirement benefit from their first day on the job if their disability is caused by an illness or injury that they receive while performing their duties.

All retired members receive a benefit adjustment each July 1, which is the Basic COLA. The majority of adjustments are determined by changes in CPI with increases capped at 2%. The Plan provides for a Supplemental COLA in years when there are sufficient "excess" investment earnings in the Plan. The maximum benefit adjustment each July 1 is 3.5% including the Basic COLA. Effective July 1, 2012, voters approved changes in the criteria for payment of the Supplemental COLA benefit, so that Supplemental COLAs would only be paid when the Plan is also fully funded on a market value of assets basis. Certain provisions of this voter-approved proposition were challenged in the Courts. A decision by the California Courts modified the interpretation of the proposition. Effective July 1, 2012, members who retired before November 6, 1996 will receive a Supplemental COLA only when the Plan is also fully funded on a market value of assets basis. However, the "full funding" requirement does not apply to members who retired on or after November 6, 1996 and were hired before January 7, 2012. For all members hired before January 7, 2012, all Supplemental COLAs paid to them in retirement benefits will continue into the future even where an additional Supplemental COLA is not payable in

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

any given year. For members hired on and after January 7, 2012, a Supplemental COLA will only be paid to retirees when the Plan is fully funded on a market value of asset basis and in addition for these members, Supplemental COLAs will not be permanent adjustments to retirement benefits. That is, in years when a Supplemental COLA is not paid, all previously paid Supplemental COLAs will expire.

Funding and Contribution Policy

SFERS Plan

Contributions are made by both the City and other participating employees. Employee contributions are mandatory as required by the Charter. Employee contribution rates varied from 7.5% to 12.0% and 7.5% to 13.0%, as a percentage of gross covered salary in fiscal year 2022-23 and fiscal year 2021-22, respectively. Most employee groups agreed through collective bargaining for employees to contribute the full amount of the employee contributions on a pretax basis. The City is required to contribute at an actuarially determined rate. Based on the July 1, 2021 actuarial report, the required employer contribution rate for fiscal year 2022-23 range from 17.85% to 21.35%. Based on the July 1, 2020 actuarial report, the required employer contribution rate for fiscal year 2021-22 range from 19.91% to 24.41%.

Employer contributions and employee contributions made by the employer to the Plan are recognized when due and the employer has made a formal commitment to provide the contributions. The City's proportionate share of employer contributions recognized by the Retirement System in fiscal year ended June 30, 2022 (measurement year) was \$729.6 million. The Airport's allocation of employer contributions for fiscal year 2021-22 was \$47.4 million, and \$52.6 million for fiscal year 2020-21.

At June 30, 2023, the Airport reported \$39.6 million as deferred outflows of resources related to contributions subsequent to the measurement date, which will be recognized as an adjustment to net pension liability/(asset) in the reporting year ended June 30, 2024.

Replacement Benefits Plan

The RBP is and will remain unfunded and the rights of any participant and beneficiary are limited to those specified in the RBP. The RBP constitutes an unsecured promise by the City to make benefit payments in the future to the extent funded by the City. The City paid \$4.5 million replacement benefits in the fiscal year ended June 30, 2023 and Airport's allocation portion for fiscal year FY2022-23 was \$277.4 thousands.

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

SFERS Plan – As of June 30, 2023, the City reported net pension liability for its proportionate share of the net pension liability of the Plan of \$2.6 billion. The City's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2022 (measurement date), and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021 rolled forward to June 30, 2022 using standard update procedures. The City's proportion of the net pension liability for the Plan was based on a projection of the City's long-term share of contributions to the

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

pension plan relative to the projected contributions of all participating employers, actuarially determined.

Replacement Benefits Plan – As of June 30, 2023, the City reported total pension liability of \$156 million. The measurement date for the RBP is June 30, 2022. City’s total pension liability for the RPB measurements is based on the total pension liability as of the valuation date, June 30, 2021 rolled forward to June 30, 2022 using standard update procedures.

As of June 30, 2023, the SFO’s proportionate share and net pension liability/ (net pension asset) of each plan were as follows:

	June 30, 2022 (Measurement Date)		June 30, 2021 (Measurement Date)		Change
	SFO Proportionate Share	Share of Net Pension Liability (Asset)	SFO Proportionate Share	Share of Net Pension Liability (Asset)	
SFERS Plan	6.20%	\$ 158,341	6.50%	(158,952)	\$ 317,293
Replacement Benefits Plan	2.47%	3,859	2.31%	5,081	(1,222)
Total		<u>\$ 162,200</u>		<u>(153,871)</u>	<u>\$ 316,071</u>

For the year ended June 30, 2023, the City’s recognized pension expense/(benefit) was \$1.8 million including amortization of deferred outflows/inflows related pension items. The Airport’s allocation of pension expense/(benefit) including amortization of deferred outflows/inflows related pension items was \$(11.3) million. Pension expense/(benefit) increased from the prior year, largely due to the amortization of deferrals. At June 30, 2023, the Airport’s reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources.

Schedule of Deferred Inflows and Outflows of Resources

**Fiscal Year 2022-23
(in thousands)**

	SFERS Plan		Replacement Benefits Plan	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 39,570	—	—	—
Difference between expected and actual experience	14,453	—	509	488
Changes in assumptions	41,143	12,345	621	834
Net difference between projected and actual earnings on pension plan investments	—	19,683	—	—
Change in employer’s proportion	9,661	2,718	—	1,624
Total	<u>\$ 104,827</u>	<u>34,746</u>	<u>1,130</u>	<u>2,946</u>

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

Amounts reported as deferred outflows, exclusive of contributions made after the measurement date, and deferred inflows of resources will be amortized annually and recognized in pension expense as follows (in thousands):

	SFERS Plan	Replacement Benefits Plan
Year ended June 30:		
2024	\$ (8,460)	(307)
2025	(8,967)	(477)
2026	(21,308)	(654)
2027	69,246	(378)
Total	\$ 30,511	(1,816)

At June 30, 2023, the SFO reported \$39.6 million as deferred outflows of resources related to contributions subsequent to the measurement date, which will be recognized as an adjustment to net pension liability/(asset) in the reporting year ended June 30, 2024.

Actuarial Assumptions

A summary of the actuarial assumptions and methods used to calculate the Total Pension Liability for both SFERS Plan and RBP as of June 30, 2022 (measurement year) is provided below, including any assumptions that differ from those used in the July 1, 2021 actuarial valuation. Refer to the July 1, 2021 actuarial valuation report for a complete description of all other assumptions, which can be found on the Retirement System's website <http://mysfers.org>.

Key Actuarial Assumptions:	SFERS Plan
Valuation Date	June 30, 2021 updated to June 30, 2022
Measurement Date	June 30, 2022
Actuarial Cost Method	Entry-Age Normal Cost
Expected Rate of Return	7.20% net of investment expenses
Municipal Bond Yield	2.16% as of June 30, 2021 3.54% as of June 30, 2022
Inflation	Bond Buyer 20-Bond GO Index, June 24, 2021 and June 30, 2022 2.50%
Projected salary increases	3.25% plus merit component based on employee classification and years of service
Discount Rate	7.40% as of June 30, 2021 7.20% as of June 30, 2022
Administrative Expenses	0.60% of payroll as of June 30, 2021 0.60% of payroll as of June 30, 2022

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

	Old Miscellaneous and all New Plans	Old Police & Fire Pre 7/1/75	Old Police & Fire Charters A8.595 and A8.596	Old Police & Fire Charters A8.559 and A8.585
Basic COLA:				
June 30, 2021	2.00 %	1.90 %	2.50 %	3.60 %
June 30, 2022	2.00 %	1.90 %	2.50 %	3.60 %

Changes of Assumptions SFERS Plan – For the measurement period ended June 30, 2022, the discount rate was decreased from 7.40% to 7.20%. The municipal bond yield increased from 2.16% to 3.54%.

Key Actuarial Assumptions	Replacement Benefit Plan
Valuation Date	June 30, 2021 updated to June 30, 2022
Measurement Date	June 30, 2022
Actuarial Cost Method	Entry-Age Normal Cost
Municipal Bond Yield	3.54% as of June 30, 2022
Inflation	Bond Buyer 20-Bond GO Index, June 24, 2021 and June 30, 2022 2.50%
Projected salary increases	3.25% plus merit component based on employee classification and years of service
Discount Rate	3.54% as of June 30, 2022
Administrative Expenses	0.60% of payroll as of June 30, 2022

	Old Miscellaneous	Old Police & Fire	Old Police & Fire Charters	Old Police & Fire Charters
Basic COLA:				
June 30, 2021	2.00 %	1.90 %	2.50 %	3.60 %
June 30, 2022	2.00 %	1.90 %	2.50 %	3.60 %

Changes of Assumptions RBP – For the measurement period ended June 30, 2022, the discount rate and the municipal bond yield increased from 2.16% to 3.54%.

Mortality rates for health Miscellaneous members were based upon adjusted PubG-2010 Employee and Retiree tables for non-annuitants and retirees, respectively. Mortality rates were then projected generationally from the base year using the MP-2019 projection scale.

The actuarial assumptions used at the June 30, 2022 measurement date was based upon the result of a demographic experience study for the period July 1, 2014 through June 30, 2019 and an economic experience study as of July 1, 2021.

SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

Discount Rate

SFERS Plan

The beginning and end of year measurements are based on different assumptions and contribution methods that may result in different discount rates. The discount rate was 7.20% as of June 30, 2022 (measurement date).

The discount rate used to measure the Total Pension Liability as of June 30, 2022 was 7.20%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will continue to be made at the rates specified in the Charter. Employer contributions were assumed to be made in accordance with the contribution policy in effect for July 1, 2021 actuarial valuation. That policy includes contributions equal to the employer portion of the entry age normal costs for members as of the valuation date, a payment for the expected administrative expenses, and an amortization payment on the unfunded actuarial liability.

The amortization payment is based on closed periods that vary in length depending on the source. Charter amendments prior to July 1, 2014 are amortized over 20 years. After July 1, 2014, any Charter changes to active member benefits are amortized over 15 years and changes to inactive member benefits, including Supplemental COLAs, are amortized over 5 years. The remaining unfunded actuarial liability not attributable to Charter amendments as of July 1, 2013 is amortized over a 19-year period commencing July 1, 2014. Experience gains and losses and assumption or method changes on or after July 1, 2014 are amortized over 20 years. The full amortization payment for the 2015 assumption changes is phased in over a period of 5 years. For the July 1, 2016 valuation, the increase in the unfunded actuarial liability attributable to the Supplemental COLAs granted on July 1, 2013 and July 1, 2014 are amortized over 17-years and 5-years respectively. All amortization schedules are established as a level percentage of payroll so payments increase 3.25% each year. The unfunded actuarial liability is based on an actuarial value of assets that smooths investment gains and losses over five years and a measurement of the actuarial liability that excludes the value of any future Supplemental COLAs.

While the contributions and measure of actuarial liability in the funding valuation do not anticipate any future Supplemental COLAs, the projected contributions for the determination of the discount rate include the anticipated future amortization payments on future Supplemental COLAs for current members when they are expected to be granted. For members who worked after November 6, 1996 and before Proposition C passed (Post 97 Retirees), a Supplemental COLA is granted if the actual investment earnings during the year exceed the expected investment earnings on the actuarial value of assets. For members who did not work after November 6, 1996 and before Proposition C passed, the market value of assets must also exceed the actuarial liability at the beginning of the year for a Supplemental COLA to be granted. When a Supplemental COLA is granted, the amount depends on the amount of excess earnings and the basic COLA amount for each membership group. The large majority of members receive a 1.50% Supplemental COLA when granted.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements
Year ended June 30, 2023

Because the probability of a Supplemental COLA depends on the current funded level of the Retirement System for certain members, an assumption was developed as of June 30, 2022 for the probability and amount of Supplemental COLA for each future year. A full Supplemental COLA will be paid to all retired members, and their beneficiaries, who were retired effective July 1, 2022. The table below shows the net assumed Supplemental COLA for members with a 2.00% Basic COLA for sample years.

**Assumed Supplemental COLA
for Members with a 2.00% Basic COLA**

<u>FYE</u>	<u>96 - Prop C</u>	<u>Before 11/6/96 or After Prop C</u>
2024	0.75%	0.70%
2025	0.75%	0.60%
2026	0.75%	0.60%
2027+	0.75%	0.50%

The projection of benefit payments to current members for determining the discount rate includes the payment of anticipated future Supplemental COLAs.

Based on these assumptions, the Retirement System's fiduciary net position was projected to be available to make projected future benefit payments for current members for all future years. Projected benefit payments are discounted at the long-term expected return on assets of 7.20% to the extent the fiduciary net position is available to make the payments and at the municipal bond rate of 3.54% to the extent they are not available. The single equivalent rate used to determine the Total Pension Liability as of June 30, 2022 is 7.20%.

The long-term expected rate of return on pension plan investments was 7.20%. It was set by the Retirement Board after consideration of both expected future returns and historical returns experienced by the SFERS Retirement System. Expected future returns were determined by using a building-block method in which best-estimate ranges of expected future real rates of return were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Target allocation and best estimates of geometric long-term expected real rates of return (net of pension plan investment expense and inflation) for each major asset class are summarized in the following table.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Real Assets	10.0%	4.7%
Hedge Funds/Absolute Return	10.0%	3.4%
Leverage	-3.0%	0.6%
	100.0%	

Replacement Benefits Plan

The beginning and end of year measurements are based on different assumptions that result in different discount rates. The discount rate was 3.54% as of June 30, 2022. This reflects the yield for a 20-year, tax-exempt general obligation municipal bond with an average rating of AA/Aa or higher. The Municipal Bond Yields are the Bond Buyer 20-Year GO Index as of June 24, 2021 and June 30, 2022. These are the rates used to determine the total pension liability as of June 30, 2022.

The inflation assumption of 2.50% compounded annually was used for projecting the annual IRC Section 415(b) limitations. The actual IRC Section 415(b) limitations published by the IRS of \$245 was used for the 2022 measurement date.

The SFERS assumptions about Basic and Supplemental COLA previously discussed also apply to the Replacement Benefits Plan, including the impact of the State Appeals Court determination that the full funding requirement for payment of Supplemental COLA included in Proposition C was unconstitutional and the impact is accounted for as a change in benefits.

On June 30, 2023, City's membership in the RBP had a total of 327 active members and 160 retirees and beneficiaries currently receiving benefits. The Airport has 7 active members and 2 retirees and beneficiaries currently receiving benefits.

(b) Other Postemployment Benefits (OPEB)

The Airport participates in a single-employer defined benefit other postemployment benefits plan (the Plan). The Plan is maintained by the City and is administered through the City's Health Service System. It provides postemployment medical, dental and vision insurance benefits to eligible employees, retired employees, surviving spouses, and domestic partners. Health benefit provisions are established and may be amended through negotiations between the City and the respective bargaining units. The City does not issue a separate report on its other postemployment benefit plan.

GASB Statement No. 75 requires that reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used.

Fiscal year 2023

Valuation Date (VD)	June 30, 2022
Measurement Date (MD)	June 30, 2022
Measurement Period (MP)	July 1, 2021 to June 30, 2022

The Airport's proportionate share percentage of the Plan was determined based on its percentage of citywide "pay-as-you-go" contributions for the year ended June 30, 2022. The Airport's net OPEB liability, deferred outflows/inflows of resources related to OPEB, amortization of deferred outflows/inflows and OPEB expense is based on the Airport's allocated percentage. The Airport's proportionate share of the City's OPEB elements was 6.88% as of the measurement date.

Benefits

Permanent full-time and elected employees are eligible to retire and receive postretirement health insurance benefits when they are eligible for retirement benefits from the City and County of San Francisco's Retirement System. The eligibility requirements are as follows:

Normal Retirement	Miscellaneous	Age 50 with 20 years of credited service ¹ Age 60 with 10 years of credited service
	Safety	Age 50 with 5 years of credited service
Disabled Retirement ²		Any age with 10 years of credited service
Terminated Vested		5 years of credited service at separation

¹ Age 53 with 20 years of credited service, age 60 with 10 years of credited service, or age 65 for Miscellaneous members hired on or after January 7, 2012 under Charter Section 8.603.

² No service requirement for Safety members retiring under the industrial disability benefit or for surviving spouses / domestic partners of those killed in the line of duty.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

Retiree healthcare benefits are administered by the San Francisco Health Service System and include the following:

Medical:	PPO – Blue Shield (self-insured) and UHC Medicare Advantage (fully insured) HMO – Kaiser (fully-insured) and Blue Shield (flex-funded) and Health Net (flex-funded)
Dental:	Delta Dental, DeltaCare USA, and UnitedHealthcare Dental
Vision:	Vision benefits are provided under the medical insurance plans and are administered by Vision Service Plan

Projections of the sharing of benefit related costs are based on an established pattern of practice.

Contributions

Benefits provided under the Plan are currently paid through “pay-as-you-go” funding. Additionally, under the City Charter, active officers and employees of the City who commenced employment on or after January 10, 2009, shall contribute to the Retiree Health Care Trust Fund (Trust Fund) a percentage of compensation not to exceed 2% of pre-tax compensation. The City shall contribute 1% of compensation for officers and employees who commenced employment on or after January 10, 2009 until the City’s GASB Actuary has determined that the City’s portion of the Trust Fund is fully funded. At that time, the City’s 1% contribution shall cease, and officers and employees will each contribute 50% of the maximum 2% of pre-tax compensation.

Starting July 1, 2016, active officers and employees of the City who commenced employment on or before January 9, 2009, shall contribute 0.25% of pre-tax compensation into the Trust Fund. Beginning on July 1st of each subsequent year, the active officers and employees of the City who commenced employment on or before January 9, 2009, shall contribute an additional 0.25% of pre-tax compensation up to a maximum of 1%. Starting July 1, 2016, the City shall contribute 0.25% of compensation into the Trust Fund for each officer and employee who commenced employment on or before January 9, 2009. Beginning on July 1st of each subsequent year, the City shall contribute an additional 0.25% of compensation, up to a maximum of 1% for each officer and employee who commenced employment on or before January 9, 2009. When the City’s actuary has determined that the City’s portion of the Trust Fund is fully funded, the City’s 1% contribution shall cease, and officers and employees will each contribute 50% of the maximum 1% of pre-tax compensation.

Additional or existing contribution requirements may be established or modified by amendment to the City’s Charter.

For the fiscal year ended June 30, 2023, the City’s funding was based on “pay-as-you-go” plus a contribution of \$45.2 million to the Retiree Healthcare Trust Fund. The “pay-as-you-go” portion paid by the City was \$215.4 million for a total contribution of \$260.6 million for the fiscal year ended June 30, 2023. The Airport’s proportionate share of the City’s contributions for fiscal year 2022-23 was \$17.9 million.

SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

OPEB Liabilities, OPEB Expenses and Deferred Outflows/Inflows of Resources Related to OPEB

As of June 30, 2023, the City reported net OPEB liabilities related to the Plan of \$3.7 billion. The Airport's proportionate share of the City's net OPEB liability as of June 30, 2023 was \$257.8 million.

For the year ended June 30, 2023, the City's recognized OPEB expense was \$257.0 million. Amortization of the City's deferred outflows and inflows is included as a component of OPEB expense. The Airport's proportionate share of the City's OPEB expense/(income) was \$21.4 million.

As of June 30, 2023, the Airport reported its proportionate share of the City's deferred outflows and inflows of resources related to OPEB from the following sources (in thousands):

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Contributions subsequent to measurement date	\$ 17,934	—
Differences between expected and actual experience	5,723	42,915
Changes in assumptions	11,005	—
Net difference between projected and actual earnings on plan investments	4,149	—
Change in proportion	<u>120</u>	<u>8,033</u>
Total	<u>\$ 38,931</u>	<u>50,948</u>

Amounts reported as deferred outflows, exclusive of contributions made after the measurement date, and deferred inflows of resources will be amortized annually and recognized in OPEB expense as follows (in thousands):

Fiscal Year:	
2024	\$ (7,610)
2025	(7,542)
2026	(4,953)
2027	(5,645)
Thereafter	<u>(4,201)</u>
Total	<u>\$ (29,951)</u>

At June 30, 2023, the SFO reported \$17.9 million as deferred outflows of resources related to contributions subsequent to the measurement date, which will be recognized as an adjustment to net OPEB liability/(asset) in the reporting year ending June 30, 2024.

Discount Rate

The discount rate used to measure the Total OPEB Liability as of June 30, 2022 was 7.0%. Based on the assumption that plan member contributions will continue to be made at the rates specified in the Charter, it was determined that the Plan's projected fiduciary net position will be greater than or equal to the benefit payments projected for each future period. As such, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

The long-term expected rate of return on OPEB plan investments was 7.0% based on expected future returns and historical returns experienced by the Trust Fund. Expected future returns were determined based on 10-year and 20-year capital market assumptions for the Trust Fund's asset allocation. Target allocation for each major asset class and best estimates of geometric real rates of return are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Equities		
U.S. Large Cap	28.0%	6.8%
U.S. Small Cap	3.0%	7.4%
Developed Market Equity (non-U.S.)	15.0%	7.5%

The report may be obtained by writing to the City and County of San Francisco, Office of the Controller, 1 Dr. Carlton B. Goodlett Place, Room 316, San Francisco, California 94102, or by calling (415) 554-7500.

(13) Related-Party Transactions

The Airport receives services from various other City departments that are categorized in the various operating expense line items in the statement of revenues, expenses, and changes in net position. The cost of all services provided to the Airport through the City's work order system totaled approximately \$186.4 million. These services included \$56.9 million in utilities provided to tenants (see note 2m) and the Airport. Included in personnel operating expenses were approximately \$97.2 million related to police and fire services and \$5.5 million in worker's compensation claims. The remaining expenses were categorized as Repair and Maintenance or capitalized with construction projects.

The Lease and Use Agreement with the airlines provides for continuing annual service payments to the City equal to 15.0% of concession revenues (net of certain adjustments), but not less than \$5.0 million per fiscal year. The annual service payments to the City were \$48.7 million in fiscal year 2022-23. The annual service payments are reported as transfers in the statement of revenues, expenses, and changes in net position.

Notes to Financial Statements

Year ended June 30, 2023

(14) Passenger Facility Charges

As of June 30, 2023, the FAA has approved several Airport applications to collect and use PFCs (from PFC #2 to PFC #9) in a total cumulative collection amount of \$2.3 billion and the cumulative use amount of \$2.3 billion, with a final charge expiration date estimated to be December 1, 2030. During the fiscal years ended from June 30, 2014 to June 30, 2023, the following changes occurred to the Airport's PFC collection authorizations.

In October 2013, the FAA approved the Airport's fifth PFC application (PFC #5) for \$610.5 million to pay for debt service related costs associated with the reconstruction and reopening of Terminal 2 and Boarding Area D. The earliest charge effective date was January 1, 2017 and was based upon the estimated charge expiration date of PFC #3. The FAA estimated the charge expiration date for PFC #5 to be June 1, 2023. In November 2014, the FAA approved an amendment to PFC #5 that increased the impose and use authority by \$131.2 million from \$610.5 million to \$741.7 million. The estimated expiration date for PFC #5 was changed from June 1, 2023 to October 1, 2024. The Airport worked with the FAA to change the expiration date for PFC #3 and the charge effective date for PFC #5 from January 1, 2017 to November 1, 2013, because PFC #3 was fully collected earlier than originally anticipated due to increased passenger levels.

In June 2015, the FAA approved the Airport's sixth PFC application (PFC #6) for \$141.1 million to pay for debt service related to the Runway Safety Area Program and the installation of ten passenger boarding bridges at Boarding Area E. The FAA estimates the charge expiration date for PFC #6 to be March 1, 2026.

In May 2017, the FAA approved the Airport's seventh PFC application (PFC #7) for \$319.7 million to pay for debt service associated with the AirTrain Extension and Improvements Project at the Airport. FAA estimates the charge expiration date for PFC #7 to be February 1, 2030.

In February 2018, the FAA approved the Airport's amendment to PFC #6 for an additional \$76.0 million of impose and use authority for a new total PFC #6 authority of \$217.1 million.

In October 2018, the FAA approved the Airport's eighth PFC application (PFC #8), which combined PFC #6, as amended, and PFC #7, for a new combined total of \$536.8 million of impose and use authority. The estimated charge expiration date is March 1, 2029. PFC #6 and PFC #7 were closed, and the projects and collections in those applications were transferred to PFC #8.

In October 2019, the FAA accepted the closeout documents, as amended, and closed PFC #3. This application was authorized to impose and use \$609.1 million of PFC revenue on the Boarding Areas A and G and International Terminal Building Projects. The Commission certified that all collections were identified as received and expended on the approved projects, in accordance with the Acknowledgement Letter and any subsequent amendments to the Acknowledgement Letter.

In January 2021, the FAA approved the Airport's ninth PFC application (PFC #9) with a total impose and use authority of \$208.6 million. The estimated charge expiration date is December 1, 2030. The PFC revenues will be used to pay principal and interest on bonds issued for certain eligible costs associated with the Design and Construction of Interim Boarding Area B at the Airport.

Notes to Financial Statements

Year ended June 30, 2023

PFC collections and related interest earned (loss) for the year ended June 30, 2023, are as follows (in thousands):

		<u>2023</u>
Amount collected	\$	92,341
Interest earned (loss)		<u>7,075</u>
Total	\$	<u><u>99,416</u></u>

Interest earned (loss) on PFC revenues is included in investment income in the accompanying financial statements.

(15) Customer Facility Charges

A Customer Facility Charge (CFC) is a user fee imposed on rental car users. There are no federal regulations that govern the collection of CFCs, so CFC collection is regulated by each state.

On March 1, 2022, the Airport Commission adopted Resolution No. 22-0031. This resolution allowed for the implementation of a CFC at a rate of \$10.0 per rental car transaction. The CFC was imposed by the Commission in accordance with Sections 50474.21 and 50474.3 of the California Government Code, as they may be amended or supplemented. The Commission started to collect CFCs on July 1, 2022.

CFC collections and related interest earned (loss) for the year ended June 30, 2023, are as follows (in thousands):

		<u>2023</u>
Amount collected	\$	11,441
Interest earned (loss)		<u>(204)</u>
Total	\$	<u><u>11,237</u></u>

Interest earned (loss) on CFC revenues is included in investment income in the accompanying financial statements.

Notes to Financial Statements

Year ended June 30, 2023

(16) Commitments, Litigation, and Contingencies

(a) Commitments

Purchase commitments for construction, material, and services as of June 30, 2023, are as follows (in thousands):

Construction	\$	40,615
Operating		47,693
		88,308
Total	\$	88,308

The Airport's Noise Insulation Program was implemented to mitigate the aircraft noise impact in the surrounding communities. This involved execution of a Memorandum of Understanding in 1992 with neighboring communities to insulate eligible properties and acquire easements for noise, vibration, and other effects resulting from aircraft operations at the Airport, and implementation of a supplemental program in 2000 to complete the work. This program was managed by the local communities with Airport funds (using bond proceeds, operating and other internally generated funds), as well as federal grants.

In fiscal year 2007-08, these components of the program were finalized, and a new phase was started, with the Airport managing all new noise insulation work directly. In fiscal year 2022-23, the Airport disbursed approximately \$2.4 million in the new phase of the program (\$1.4 million in federal grants and \$1.0 million in Airport funds). As of June 30, 2023, the cumulative disbursements of Airport funds under this program were approximately \$130.0 million.

(b) Security Deposits

Each Signatory Airline is required to post security with the Commission to guarantee its performance and payment. Such security generally consists of a surety bond or a letter of credit in an amount equal to two months of terminal area rentals, landing fees, and usage fees. Other forms of security deposits acceptable to the Commission, such as cash deposits, have on occasion been accepted in very limited amounts and circumstances, such as when an airline bankruptcy occurs or where other forms of security deposits are temporarily unavailable. Airlines operating at the Airport pursuant to 30-day permits are required to post security bonds or letters of credit in an amount equal to six months of its estimated rentals and fees under such agreements.

(c) Litigation

The Airport is a defendant in various legal actions and claims that arise during the normal course of business. Insurance policies cover certain liabilities and defense costs. Only those potential liabilities not covered by insurance are included in the financial statements, and they have been estimated and reported in conformity with GAAP.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

(d) Risk Management

Under the 1991 Master Bond Resolution, the Airport is required to procure or provide and maintain insurance, or to self-insure, against such risks as are usually insured by other major airports in amounts adequate for the risk insured against, as determined by the Airport. The Airport is not required to nor does it carry insurance or self-insure against any risks due to land movement or seismic activity.

The Airport has an ongoing loss prevention program, a safety officer, property loss control, and ongoing employee training programs. The Airport has instituted an Enterprise Risk Management Program by implementing a comprehensive risk identification, assessment, and treatment protocol to address key risks that may adversely affect the Airport's ability to meet its business goals and objectives. The Airport carries aviation liability insurance coverage of \$1.0 billion with \$250.0 million in War Perils Liability, subject to a deductible of \$10,000 per occurrence. Immediately following the events of September 11, 2001, insurers canceled the coverage for war, terrorism, and hijacking for all airports, including the Airport. A number of insurers now provide this coverage through the Federal Government Terrorism Risk Insurance Act. However, the scope of the coverage is limited and the premiums are high. Due to these factors, the Commission, in consultation with the City's Director of Risk Management, has elected not to secure such coverage but to purchase War Perils Liability Coverage as part of its aviation liability program.

The Airport also carries commercial property insurance coverage for full replacement value on all facilities at the Airport owned by the Airport, subject to a limit of \$1.0 billion per occurrence subject to a deductible of \$500,000 per occurrence. This policy includes flood coverage up to a \$10.0 million sub-limit. The Airport also carries business interruption and extra expenses insurance up to a \$100.0 million pooled sub-limit.

Additionally, tenants and contractors on all contracts are required to carry commercial general and automobile liability insurance in various amounts, naming the Airport as additional insured. The Airport is self-insured as part of the City's workers' compensation program. From current revenues, the Airport pays losses from workers' compensation claims of Airport employees, the deductible portion of insured losses, and losses from other uninsured risks. The Airport carries public officials and employment practices liability coverage of \$5.0 million, subject to a deductible of \$100,000 per occurrence for Public Officials' and Public Entity Liability matters, and \$250,000 per occurrence for Employment Practices Liability matters. The Airport also carries insurance for excess auto, public employee dishonesty, fine arts, cyber liability, and watercraft liability for Airport fire and rescue vessels, and target range liability for the San Francisco Police Department's firearms range located at the Airport.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

The estimated claims payable are actuarially determined as part of the City's self-insurance program. Changes in the reported amount resulted from the following activity (in thousands):

Balance as of June 30, 2022	\$	2,158
Claim payments		(22)
Claims and changes in estimates		<u>2,136</u>
Balance as of June 30, 2023	\$	<u><u>4,272</u></u>

The Airport is self-insured as part of the City's program for workers' compensation. All self-insurance claims are processed by the City. Liability and risk are retained by the Airport. Accrued workers' compensation includes provisions for claims reported and claims incurred but not reported. This accrued workers' compensation liability is actuarially determined as part of the City's program and is as follows (in thousands):

Balance as of June 30, 2022	\$	12,093
Claim payments		(5,455)
Claims and changes in estimates		<u>5,929</u>
Balance as of June 30, 2023	\$	<u><u>12,567</u></u>

(e) Grants

Grants that the Airport receives are subject to audit and final acceptance by the granting agency. Current and prior year costs of such grants are subject to adjustment upon audit.

(f) Financial Guarantees

The Airport participates in the City and County of San Francisco's contractor development program, previously referred to as the surety bond program, which provides training, support and City-funded surety bond guaranties for local business enterprise (LBE) contractors who want to bid on construction contracts for City departments (including the Airport), but cannot qualify for the required surety bonds on their own. If program parameters are met, the Airport may guarantee the lesser of \$750,000 or 40% of the face amount of the surety bond, which would enable the LBE contractor to bid on Airport construction work. There were no outstanding Airport guaranties under the program as of June 30, 2023.

**AIRPORT COMMISSION
CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

(g) Concentration of Credit Risk

The Airport leases facilities to the airlines pursuant to the Lease and Use Agreement (see note 2i) and to other businesses to operate concessions at the Airport. For fiscal year ended June 30, 2023, revenues realized from the following source exceeded 5.0% of the Airport's total operating revenues:

United Airlines	26.2 %
-----------------	--------

(h) Per- and Polyfluoroalkyl Substances (PFAS)

For its aircraft rescue and firefighting vehicles and fire suppression operating systems, the Airport uses Aqueous Film Forming Foam that contains Per- and Polyfluoroalkyl Substances (PFAS), as required by the FAA. PFAS are a group of more than 3,000 synthetic chemicals. The U.S. Environmental Protection Agency (EPA) determined that, due to the widespread use and persistence in the environment of PFAS, most people in the United States have been exposed to PFAS. The EPA also found evidence that continued exposure to certain PFAS above specified levels may lead to adverse health effects.

On March 20, 2019, the California State Water Resources Control Board (the "State Board") issued an order pursuant to California Water Code Section 13267, for the Determination of the Presence of PFAS to all airports in California (the "Order"), including the Airport. The Order identifies the Airport as a facility that accepted, stored, or used materials that may contain PFAS. The Order requires the Airport to test soil, sediment, and groundwater for 23 types of PFAS. The Airport has completed the sampling required under this Order, which identified the presence of PFAS in soil, sediment, and groundwater at several locations at the Airport.

In March 2021, the State Board issued the Investigative Orders to Refineries and Bulk Fuel Terminals, which ordered certain facilities, including two facilities located at the Airport, to conduct a one-time sampling effort to determine whether soil, groundwater, surface water, and influent/effluent wastewater were impacted by PFAS. The Airport completed the required testing for these two facilities and submitted the final reports to the San Francisco Bay Regional Water Quality Control Board (the Regional Board) in February and April 2023. The Airport anticipates that additional orders will be issued requiring further testing and/or delineation of the presence of PFAS at the Airport.

The State Board and the Regional Board have not yet established cleanup standards for PFAS or otherwise indicated what actions will be required for PFAS found in soil, sediment, and groundwater exceeding the levels they specify. As of June 30, 2023, it is uncertain whether and to what extent the levels of PFAS discovered at the Airport will trigger a remediation obligation. It is possible that the ultimate costs of remediation and third-party liability for PFAS could be extensive.

CITY AND COUNTY OF SAN FRANCISCO
SAN FRANCISCO INTERNATIONAL AIRPORT**

Notes to Financial Statements

Year ended June 30, 2023

(17) Subsequent Events

A new ten-year 2023 Lease and Use Agreement became effective on July 1, 2023 and is set to expire on June 30, 2033.

On November 15, 2023, the Airport issued \$794.3 million of its Series 2023C and Series 2023D Bonds, for the purpose of refunding \$497.8 million in outstanding commercial paper notes, refunding \$241.8 million in outstanding Series 2013A bonds, funding deposits to a debt service reserve account, and paying costs of issuance. The financial statements reflected the refunded amounts as noncurrent liabilities. Moody's and Fitch assigned credit ratings of "A1" and "A+" to these bonds.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Honorable Mayor and Board of Supervisors
City and County of San Francisco

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Airport Commission, City and County of San Francisco, San Francisco International Airport (the "Airport"), an enterprise fund of the City and County of San Francisco (the "City") as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Airport's financial statements, and have issued our report thereon dated December 22, 2023. As discussed in Note 1, the financial statements present only the Airport and do not purport to, and do not, present fairly the financial position of the City, the changes in its financial position, or where applicable, its cash flows in accordance with accounting principles generally accepted in the United States of America.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Airport's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Airport's internal control. Accordingly, we do not express an opinion on the effectiveness of the Airport's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Airport's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
THE PASSENGER FACILITY CHARGE PROGRAM; REPORT ON INTERNAL CONTROL OVER
COMPLIANCE; AND REPORT ON THE SCHEDULE OF REVENUES AND EXPENDITURES OF
PASSENGER FACILITY CHARGES

The Honorable Mayor and Board of Supervisors
City and County of San Francisco

Report on Compliance of Passenger Facility Charges

Opinion on Passenger Facility Charge Program

We have audited the Airport Commission, City and County of San Francisco, San Francisco International Airport (the "Airport") compliance with the types of compliance requirements identified as subject to audit in the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration ("Guide"), that could have a direct and material effect on its passenger facility charge program for the year ended June 30, 2023.

In our opinion, the Airport complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its passenger facility charge program for the year ended June 30, 2023.

Basis for Opinion on Passenger Facility Charge Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of the Guide. Our responsibilities under those standards and the Guide are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Airport and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the passenger facility charge program. Our audit does not provide a legal determination of the Airport's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Airport's passenger facility charge program.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Airport's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Guide will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Airport's compliance with the requirements of the passenger facility charge program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Guide, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Airport's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the Airport's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Guide, but not for the purpose of expressing an opinion on the effectiveness of the Airport's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Guide. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Revenues and Expenditures of Passenger Facility Charges

We have audited the financial statements of the Airport as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Airport's financial statements. We issued our report thereon dated December 22, 2023, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the financial statements. The accompanying schedule of revenues and expenditures of passenger facility charges is presented for purposes of additional analysis as required by the Guide and is not a required part of the financial statements. Such information is the responsibility of management and, except for that portion marked "unaudited," was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. That information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, schedule of revenues and expenditures of passenger facility charges is fairly stated in all material respects in relation to the financial statements as a whole. The information marked "unaudited" has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
THE CUSTOMER FACILITY CHARGE PROGRAM; REPORT ON INTERNAL CONTROL OVER
COMPLIANCE; AND REPORT ON THE SCHEDULE OF REVENUES AND EXPENDITURES OF
CUSTOMER FACILITY CHARGES

The Honorable Mayor and Board of Supervisors
City and County of San Francisco

Report on Compliance of Customer Facility Charges

Opinion on Customer Facility Charge Program

We have audited the Airport Commission, City and County of San Francisco, San Francisco International Airport (the "Airport") compliance with the types of compliance requirements described in the California Civil Code Chapter 1.5 (commencing with Section 1939.01) to Title 5 of Part 4 of Division 3, and California Government Code Section 50474.1 through Section 50474.3 ("CFC Code"), that could have a direct and material effect on its customer facility charge program for the year ended June 30, 2023.

In our opinion, the Airport complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its customer facility charge program for the year ended June 30, 2023.

Basis for Opinion on Customer Facility Charge Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of the Guide. Our responsibilities under those standards and the Guide are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Airport and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the customer facility charge program. Our audit does not provide a legal determination of the Airport's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or agreements applicable to the Airport's customer facility charge program.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Airport's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the CFC Code will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Airport's compliance with the requirements of the customer facility charge program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the CFC Code, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Airport's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the Airport's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Guide, but not for the purpose of expressing an opinion on the effectiveness of the Airport's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the CFC Code. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Revenues and Expenditures of Customer Facility Charges

We have audited the financial statements of the Airport as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Airport's financial statements. We issued our report thereon dated December 22, 2023, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the financial statements. The accompanying schedule of revenues and expenditures of customer facility charges is presented for purposes of additional analysis as required by the CFC Code and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. That information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, schedule of revenues and expenditures of customer facility charges is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Schedule of Customer Facility Charge Revenues and Expenditures
Year ended June 30, 2023

(1) General

California Government Code Section 50474.21 and Section 50474.3 permit an airport sponsor to require rental car companies to collect from a renter a Customer Facility Charge (CFC) to finance, design, and construct consolidated airport rental car facilities; to finance, design, construct, and operate common-use transportation systems that move passengers between airport terminals and those consolidated car rental facilities, and acquire vehicles for use in that system; and to finance, design, and construct terminal modifications solely to accommodate and provide customer access to common-use transportation systems. The fees designated as a CFC shall not otherwise be used to pay for terminal expansion, gate expansion, runway expansion, changes in hours of operation, or changes in the flights arriving or departing from the airport.

SFO began imposing a CFC of \$10.00 per rental contract on July 1, 2022.

(2) Basis of Accounting – Schedule of Customer Facility Charge Revenues and Expenditures

The accompanying Schedule of Customer Facility Charge Revenues and Expenditures (the Schedule) has been prepared on the accrual basis of accounting which is described in note 2a of the Airport's basic financial statements.

APPENDIX C

INFORMATION REGARDING DTC AND THE BOOK-ENTRY ONLY SYSTEM

Introduction

The information below concerning DTC and DTC's book-entry system has been obtained from DTC, and the Commission assumes no responsibility for the accuracy or completeness thereof. DTC has established a book-entry depository system pursuant to certain agreements between DTC and its participants (the "Participants"). The Commission is not a party to those agreements. The Commission and the Trustee do not have any responsibility or obligation to DTC Participants, to the persons for whom they act as nominees, or to any other person who is not shown on the registration books as being an owner of the Series 2024A-C Bonds, with respect to any matter including (i) the accuracy of any records maintained by DTC or any of its Participants, (ii) the payment by DTC or its Participants of any amount in respect of the principal of, redemption price of, or interest on the Series 2024A-C Bonds; (iii) the delivery of any notice which is permitted or required to be given to registered owners under the 1991 Master Resolution; (iv) the selection by DTC or any of its Participants of any person to receive payment in the event of a partial redemption of the Series 2024A-C Bonds; (v) any consent given or other action taken by DTC as registered owner; or (vi) any other matter. The Commission and the Trustee cannot and do not give any assurances that DTC, its Participants or others will distribute payments of principal of or interest on the Series 2024A-C Bonds paid to DTC or its nominee, as the registered owner, or give any notices to the Beneficial Owners or that they will do so on a timely basis or will serve and act in a manner described in this Official Statement.

General

The Depository Trust Company ("DTC"), New York, New York, will act as securities depository for the Series 2024A-C Bonds. The Series 2024A-C Bonds will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered Series 2024A-C Bond certificate will be issued for each maturity and series of Series 2024A-C Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com. The information contained in such website is not incorporated by reference herein.

Purchases of the Series 2024A-C Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2024A-C Bonds on DTC's records. The ownership interest of each actual purchaser of each Series 2024A-C Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well

as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2024A-C Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Series 2024A-C Bonds, except in the event that use of the book-entry system for the Series 2024A-C Bonds is discontinued.

To facilitate subsequent transfers, all Series 2024A-C Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2024A-C Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2024A-C Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2024A-C Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of the Series 2024A-C Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2024A-C Bonds, such as redemptions, tenders, defaults, and proposed amendments to the authorizing documents. For example, Beneficial Owners of the Series 2024A-C Bonds may wish to ascertain that the nominee holding the Series 2024A-C Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Series 2024A-C Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Series 2024A-C Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Commission as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Series 2024A-C Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the Series 2024A-C Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Commission or the Trustee, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Trustee or the Commission, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

SO LONG AS CEDE & CO. IS THE REGISTERED OWNER OF THE SERIES 2024A-C BONDS, AS NOMINEE OF DTC, REFERENCES HEREIN TO THE OWNERS OR OWNERS OF THE SERIES 2024A-C BONDS SHALL MEAN CEDE & CO., AS AFORESAID, AND SHALL NOT MEAN THE BENEFICIAL OWNERS OF THE SERIES 2024A-C BONDS.

Discontinuance of DTC Services

DTC may discontinue providing its services as depository with respect to the Series 2024A-C Bonds at any time by giving reasonable notice to the Commission or the Trustee. Under such circumstances, in the event that a successor depository is not obtained, Series 2024A-C Bond certificates will be printed and delivered as described in the 1991 Master Resolution.

The Commission may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, Series 2024A-C Bond certificates will be printed and delivered as described in the 1991 Master Resolution.

(THIS PAGE INTENTIONALLY LEFT BLANK)

APPENDIX D

SUMMARY OF CERTAIN PROVISIONS OF THE 1991 MASTER RESOLUTION

The following is a summary of certain provisions contained in Resolution No. 91-0210, adopted by the Commission on December 3, 1991, as subsequently amended and supplemented (the "1991 Master Resolution"), and is not to be considered as a full statement thereof. See also "DESCRIPTION OF THE SERIES 2024A-C BONDS." Taken together, the 1991 Master Resolution, as amended and supplemented (collectively, the "Supplemental Resolutions"), and certificates of additional terms are herein called the "Resolution," to which certain references below are made. Furthermore, reference is made to the Resolution for full details of the terms of the Series 2024A-C Bonds, the application of revenues therefor, and the security provisions pertaining thereto. Capitalized terms used herein and not otherwise defined herein have the meanings assigned to them in the Resolution.

Certain Definitions

Act means the Charter of the City and County of San Francisco, as supplemented and amended, all enactments of the Board adopted pursuant thereto, and all laws of the State of California incorporated therein by reference.

Aggregate Maximum Annual Debt Service means the maximum amount of Annual Debt Service on all Participating Series in any Fiscal Year during the period from the date of calculation to the final scheduled maturity of the Participating Series.

Airport means the San Francisco International Airport, located in San Mateo County, State of California, together with all additions, betterments, extensions and improvements thereto. Unless otherwise specifically provided in any Supplemental Resolution, the term shall include all other airports, airfields, landing places and places for the take-off and landing of aircraft, together with related facilities and property, located elsewhere, which are hereafter owned, controlled or operated by the Commission or over which the Commission has possession, management, supervision or control.

Airport Consultant means a firm or firms of national recognition with knowledge and experience in the field of advising the management of airports as to the planning, development, operation and management of airports and aviation facilities, selected and employed by the Commission from time to time.

Amortized Bonds means the maximum principal amount of any existing or proposed Commercial Paper Program authorized by the Commission to be Outstanding at any one time.

Annual Debt Service means the amount scheduled to become due and payable on the Outstanding Bonds or any one or more Series thereof in any Fiscal Year as (i) interest, plus (ii) principal at maturity, plus (iii) mandatory sinking fund redemptions. For purposes of calculating Annual Debt Service, the following assumptions shall be used:

- (a) All principal payments and mandatory sinking fund redemptions shall be made as and when the same shall become due;
- (b) Outstanding Variable Rate Bonds shall be deemed to bear interest during any period after the date of calculation at a fixed annual rate equal to the average of the actual rates on such Bonds for each day during the 365 consecutive days (or any lesser period such Bonds have been Outstanding) ending on the last day of the month next preceding the date of computation, or at the effective fixed annual rate thereon as a result of an interest rate swap with respect to such Bonds;
- (c) Variable Rate Bonds proposed to be issued shall be deemed to bear interest at a fixed annual rate equal to the estimated initial rate or rates thereon, as set forth in a certificate of a Financial Consultant dated within 30 days prior to the date of delivery of such Bonds, or at the effective fixed annual rate thereon as a result of an interest rate swap with respect to such Bonds;

- (d) Amortized Bonds shall be deemed to be amortized on a level debt service basis over a 30-year period beginning on the date of calculation at the Index Rate;
- (e) Payments of principal of and interest on Repayment Obligations shall be deemed to be payments of principal of and interest on Bonds to the extent provided in the Resolution;
- (f) Capitalized interest on any Bonds and accrued interest paid on the date of initial delivery of any Series of Bonds shall be excluded from the calculation of Annual Debt Service if cash and/or Permitted Investments have been irrevocably deposited with and are held by the Trustee or other fiduciary for the Owners of such Bonds sufficient to pay such interest;
- (g) Interest on or principal of any Bonds paid or to be paid during such Fiscal Year from Federal Subsidy Payments shall be excluded from the calculation of Annual Debt Service except to the extent all or a portion of such Federal Subsidy Payments are designated as Revenues by the Commission.

Annual Service Payments means amounts paid to the City pursuant to the Charter (pursuant to the Lease and Use Agreements, this amount is limited to the greater of \$5 million or approximately 15% of concession revenues at the Airport).

Authorized Denominations means with respect to the Series 2024A-C Bonds, \$5,000 or any integral multiple thereof.

Bond Insurance Policy means a municipal bond insurance policy insuring the payment of principal of and interest on all or a portion of a Series of Bonds.

Bond Insurer means the provider of a Bond Insurance Policy.

Bonds means any evidences of indebtedness for borrowed money issued from time to time by the Commission by the Resolution or by Supplemental Resolution, including but not limited to bonds, notes, bond anticipation notes, commercial paper, lease or installment purchase agreements or certificates of participation therein and Repayment Obligations to the extent provided in the Resolution.

Business Day means a day on which the principal office of the Trustee, any Paying Agent, the Remarketing Agent, the Credit Provider, if any, with respect to that Series of Bonds, the Liquidity Provider, if any, with respect to that Series of Bonds, or banks or trust companies in New York, New York, are not authorized or required to remain closed and on which the New York Stock Exchange is not closed.

Closing Date means the date upon which a Series of Bonds is initially issued and delivered in exchange for the proceeds representing the purchase price of such Series of Bonds paid by the original purchaser thereof.

Code means the Internal Revenue Code of 1986, as amended, and the applicable Treasury Regulations, rulings and procedures proposed or promulgated thereunder or under the Internal Revenue Code of 1954, as amended.

Costs of Issuance means payment of, or reimbursement of the Commission for, all reasonable costs incurred by the Commission in connection with the issuance of a Series of Bonds, including, but not limited to: (a) counsel fees related to the issuance of such Series of Bonds (including bond counsel, co-bond counsel, disclosure counsel, Trustee's counsel and the City Attorney); (b) financial advisor fees incurred in connection with the issuance of such Series of Bonds; (c) rating agency fees; (d) the initial fees and expenses of the Trustee, the Registrar, the Authenticating Agent and the Underwriters; (e) fees of any Credit Provider for the provision of a Credit Facility, as applicable; (f) accountant fees related to the issuance of such Series of Bonds; (g) printing and publication costs; (h) costs of engineering and feasibility studies necessary to the issuance of such Series of Bonds; and (i) any other cost incurred in connection with the issuance of the Bonds that constitutes an "issuance cost" within the meaning of Section 147(g) of the Code.

Credit Facility means a letter of credit, line of credit, standby purchase agreement, municipal bond insurance policy, surety bond or other financial instrument which obligates a third party to pay or provide funds for the payment

of the principal or purchase price of and/or interest on any Bonds and which is designated as a Credit Facility in the Supplemental Resolution authorizing the issuance of such Bonds.

Credit Provider means the person or entity obligated to make a payment or payments with respect to any Bonds under a Credit Facility and which is designated a Credit Provider in a Series Sale Resolution relating to such Series of Bonds or an alternate credit provider if an alternate credit facility is in effect with respect to such Series of Bonds.

Customer Facility Charge means a customer facility charge imposed by the Commission in accordance with Sections 50474.21 and 50474.3 of the California Government Code, as they may be amended or supplemented, or any other applicable state law.

Electronic Means means telecopy, telegraph, telex, facsimile transmission, e-mail transmission or other similar electronic means of communication of a written image, and shall include a telephonic communication promptly confirmed in writing or by electronic transmission of a written image.

Event of Default means any one or more of the events described hereinafter under the caption "Events of Default."

Federal Subsidy Payments means amounts payable by the Federal government to the Commission under direct-pay subsidy programs substantially similar to the Build America Bond program under Section 54AA of the Code.

Financial Consultant means a firm or firms of financial advisors of national recognition with knowledge and experience in the field of municipal finance selected or employed by the Commission.

Fiscal Year means the one-year period beginning on July 1 of each year and ending on June 30 of the succeeding year, or such other one-year period as the Commission shall designate as its Fiscal Year.

Government Certificates means evidences of ownership of proportionate interests in future principal or interest payments of Government Obligations, including depository receipts thereof. Investments in such proportionate interests are required to be limited to circumstances wherein (i) a bank or trust company acts as custodian and holds the underlying Government Obligations; (ii) the owner of the investment is the real party in interest and has the right to proceed directly and individually against the obligor of the underlying Government Obligations; and (iii) the underlying Government Obligations are held in a special account, segregated from the custodian's general assets, and are not available to satisfy any claim of the custodian, or any person claiming through the custodian, or any person to whom the custodian may be obligated.

Government Obligations means direct and general obligations of, or obligations the timely payment of principal of and interest on which are unconditionally guaranteed by, the United States of America.

Holder, Bondholder, Owner and Bondowner mean the person or persons in whose name any Bond or Bonds are registered on the records maintained by the Registrar or, in the case of bearer obligations, who hold any Bond or Bonds, and shall include any Credit Provider to which a Repayment Obligation is then owed, to the extent that such Repayment Obligation is deemed to be a Bond pursuant to the Resolution.

Independent Auditor means a firm or firms of independent certified public accountants with knowledge and experience in the field of governmental accounting and auditing selected or employed by the City.

Index Rate means, unless otherwise provided in a Series Sale Resolution for a Variable Rate Bond in the Index Rate mode, the SIFMA Rate plus the Applicable Spread determined pursuant to the Resolution.

Insolvent is used in the Resolution to describe the Trustee, any Paying Agent, Authenticating Agent, Registrar, other agent appointed under the 1991 Master Resolution or any Credit Provider, if (a) such person has instituted proceedings to be adjudicated a bankrupt or insolvent, has consented to the institution of bankruptcy or

insolvency proceedings against it, has filed a petition or answer or consent seeking reorganization or relief under the federal Bankruptcy Code or any other similar applicable federal or state law, or has consented to the filing of any such petition or to the appointment of a receiver, liquidator, assignee, trustee or sequestrator or other similar official of itself or of any substantial part of its property, or fails to timely controvert an involuntary petition filed against it under the federal Bankruptcy Code, or consents to the entry of an order for relief under the federal Bankruptcy Code or makes an assignment for the benefit of creditors or admits in writing its inability to pay its debts generally as they become due; or (b) a decree or order by a court having jurisdiction in the premises adjudging such person as bankrupt or insolvent, or approving as properly filed a petition seeking reorganization, arrangement, adjustment or composition of or in respect of such person under the federal Bankruptcy Code or any other similar applicable federal or state law or for relief under the federal Bankruptcy Code after an involuntary petition has been filed against such person, or appointing a receiver, liquidator, assignee, trustee or sequestrator or other similar official of such person or of any substantial part of its property, or ordering the winding up or liquidation of its affairs, has been entered and has continued unstayed and in effect for a period of 90 consecutive days.

Interest Payment Date means with respect to the Series 2024A-C Bonds, May 1 and November 1 of each year, commencing November 1, 2024.

Issue 1 Reserve Account or *Original Reserve Account* means the Issue 1 Reserve Account established in the Reserve Fund pursuant to the 1991 Master Resolution as security for the Issue 1 Bonds and any other Participating Series of Bonds designated by Supplemental Resolution as being secured by the Issue 1 Reserve Account, including the Series 2024A-C Bonds.

Mandatory Sinking Fund Payment means a principal amount of Bonds of a Series which is subject to mandatory redemption on a Mandatory Sinking Fund Redemption Date.

Mandatory Sinking Fund Redemption Date means each May 1 upon which Bonds of a Series are subject to mandatory redemption under the applicable Supplemental Resolutions.

Maximum Annual Debt Service means the maximum amount of Annual Debt Service in any Fiscal Year during the period from the date of calculation to the final scheduled maturity of the Bonds.

Maximum Series Annual Debt Service means the maximum amount of Annual Debt Service in any Fiscal Year during the period from the date of calculation to the final scheduled maturity of a single Series of Bonds.

Net Revenues means Revenues less Operation and Maintenance Expenses.

Operation and Maintenance Expenses means, for any period, all expenses of the Commission incurred for the operation and maintenance of the Airport, as determined in accordance with generally accepted accounting principles. Operation and Maintenance Expenses does not include: (a) the principal of, premium, if any, or interest on any Bonds, Subordinate Bonds or general obligation bonds issued by the City for Airport purposes; (b) any allowance for amortization, depreciation or obsolescence of the Airport; (c) any expense for which, or to the extent to which, the Commission is or will be paid or reimbursed from or through any source that is not included or includable as Revenues; (d) any extraordinary items arising from the early extinguishment of debt; (e) Annual Service Payments; (f) any costs, or charges made therefor, for capital additions, replacements, betterments, extensions or improvements to the Airport which, under generally accepted accounting principles, are properly chargeable to the capital account or the reserve for depreciation; and (g) any losses from the sale, abandonment, reclassification, revaluation or other disposition of any Airport properties. Operation and Maintenance Expenses shall include the payment of pension charges and proportionate payments to such compensation and other insurance or outside reserve funds as the Commission may establish or the Board of Supervisors may require with respect to employees of the Commission, as now provided in the Charter.

Original Reserve Account means the Issue 1 Reserve Account. See definition of “*Issue 1 Reserve Account*” above.

Outstanding means, as of any date of determination, all Bonds of such Series which have been executed and delivered under the 1991 Master Resolution except: (a) Bonds cancelled by the Trustee or delivered to the Trustee for cancellation; (b) Bonds which are deemed paid and no longer Outstanding as provided in the 1991 Master Resolution or in any Supplemental Resolution authorizing the issuance thereof; (c) Bonds in lieu of which other Bonds have been issued pursuant to the provisions of the 1991 Master Resolution or of any Supplemental Resolution authorizing the issuance thereof; and (d) for purposes of any consent or other action to be taken under the 1991 Master Resolution by the Holders of a specified percentage of Principal Amount of Bonds of a Series or all Series, Bonds held by or for the account of the Commission.

Participating Series means the Issue 1 Bonds and any other Series of Bonds designated pursuant to a Supplemental Resolution as being secured by the Issue 1 Reserve Account, including the Series 2024A-C Bonds.

Permitted Investments means and includes any of the following, if and to the extent the same are at the time legal for the investment of the Commission's money:

- (a) Government Obligations and Government Certificates.
- (b) Obligations issued or guaranteed by any of the following:
 - (i) Federal Home Loan Banks System;
 - (ii) Export-Import Bank of the United States;
 - (iii) Federal Financing Bank;
 - (iv) Government National Mortgage Association;
 - (v) Farmers Home Administration;
 - (vi) Federal Home Loan Mortgage Corporation;
 - (vii) Federal Housing Administration;
 - (viii) Private Export Funding Corporation;
 - (ix) Federal National Mortgage Association;
 - (x) Federal Farm Credit System;
 - (xi) Resolution Funding Corporation;
 - (xii) Student Loan Marketing Association; and
 - (xiii) any other instrumentality or agency of the United States.
- (c) Pre-refunded municipal obligations rated in the highest rating category by at least two Rating Agencies and meeting the following conditions:
 - (i) such obligations are: (A) not subject to redemption prior to maturity or the Trustee has been given irrevocable instructions concerning their calling and redemption, and (B) the issuer of such obligations has covenanted not to redeem such obligations other than as set forth in such instructions;
 - (ii) such obligations are secured by Government Obligations or Government Certificates that may be applied only to interest, principal and premium payments of such obligations;
 - (iii) the principal of and interest on such Government Obligations or Government Certificates (plus any cash in the escrow fund with respect to such pre-refunded obligations) are sufficient to meet the liabilities of the obligations;
 - (iv) the Government Obligations or Government Certificates serving as security for the obligations have been irrevocably deposited with and are held by an escrow agent or trustee; and
 - (v) such Government Obligations or Government Certificates are not available to satisfy any other claims, including those against the trustee or escrow agent.

(d) Direct and general long-term obligations of any State of the United States of America or the District of Columbia (a “State”) to the payment of which the full faith and credit of such State is pledged and that are rated in either of the two highest rating categories by at least two Rating Agencies.

(e) Direct and general short-term obligations of any State to the payment of which the full faith and credit of such State is pledged and that are rated in the highest rating category by at least two Rating Agencies.

(f) Interest-bearing demand or time deposits with, or interests in money market portfolios rated in the highest rating category by at least two Rating Agencies issued by, state banks or trust companies or national banking associations that are members of the Federal Deposit Insurance Corporation (“FDIC”). Such deposits or interests must either be: (i) continuously and fully insured by FDIC; (ii) if they have a maturity of one year or less, with or issued by banks that are rated in one of the two highest short term rating categories by at least two Rating Agencies; (iii) if they have a maturity longer than one year, with or issued by banks that are rated in one of the two highest rating categories by at least two Rating Agencies; or (iv) fully secured by Government Obligations and Government Certificates. Such Government Obligations and Government Certificates must have a market value at all times at least equal to the principal amount of the deposits or interests. The Government Obligations and Government Certificates must be held by a third party (who shall not be the provider of the collateral), or by any Federal Reserve Bank or depository, as custodian for the institution issuing the deposits or interests. Such third party must have a perfected first lien in the Government Obligations and Government Certificates serving as collateral, and such collateral must be free from all other third party liens.

(g) Eurodollar time deposits issued by a bank with a deposit rating in one of the two highest short-term deposit rating categories by at least two Rating Agencies.

(h) Long-term or medium-term corporate debt guaranteed by any corporation that is rated in one of the two highest rating categories by at least two Rating Agencies.

(i) Repurchase agreements with maturities of either (A) 30 days or less, or (B) longer than 30 days and not longer than one year provided that the collateral subject to such agreements are marked to market daily, entered into with financial institutions such as banks or trust companies organized under State or federal law, insurance companies, or government bond dealers reporting to, trading with, and recognized as a primary dealer by, the Federal Reserve Bank of New York and a member of the Security Investors Protection Corporation, or with a dealer or parent holding company that is rated investment grade (“A-” or “A3” or better) by at least two Rating Agencies. The repurchase agreement must be in respect of Government Obligations and Government Certificates or obligations described in paragraph (b) of this definition. The repurchase agreement securities and, to the extent necessary, Government Obligations and Government Certificates or obligations described in paragraph (b), exclusive of accrued interest, shall be maintained in an amount at least equal to the amount invested in the repurchase agreements. In addition, the provisions of the repurchase agreement shall meet the following additional criteria:

(1) the third party (who shall not be the provider of the collateral) has possession of the repurchase agreement securities and the Government Obligations and Government Certificates;

(2) failure to maintain the requisite collateral levels will require the third party having possession of the securities to liquidate the securities immediately; and

(3) the third party having possession of the securities has a perfected, first priority security interest in the securities.

(j) Prime commercial paper of a corporation, finance company or banking institution rated in the highest short-term rating category without regard to any numerical modifier, plus or minus sign or other modifier by at least two Rating Agencies.

(k) Public housing bonds issued by public agencies which are either: (i) fully guaranteed by the United States of America; or (ii) temporary notes, preliminary loan notes or project notes secured by a requisition or payment

agreement with the United States of America; or (iii) state or public agency or municipality obligations rated in the highest credit rating category by at least two Rating Agencies.

(l) Shares of a diversified open-end management investment company, as defined in the Investment Company Act of 1940, as amended, or shares in a regulated investment company, as defined in Section 851(a) of the Code, that is a money market fund that has been rated in the highest rating category by at least two Rating Agencies.

(m) Money market accounts of any state or federal bank, or bank whose holding parent company is, rated in the top two short-term or long-term rating categories by at least two Rating Agencies.

(n) Investment agreements the issuer of which is rated in one of the two highest rating categories by at least two Rating Agencies.

(o) Shares in a California common law trust established pursuant to Title 1, Division 7, Chapter 5 of the Government Code of the State of California which invests exclusively in investments otherwise permitted in paragraphs (a) through (m) above.

(p) Any other debt or fixed income security specified by the Commission (except securities of the City and any agency, department, commission or instrumentality thereof other than the Commission) and rated in the highest category by at least two Rating Agencies.

(q) Bankers acceptances of a banking institution rated in the highest short-term rating category by at least two Rating Agencies, not exceeding 270 days maturity or 40% of moneys invested pursuant to the 1991 Master Resolution. No more than 20% of moneys invested pursuant to the 1991 Master Resolution shall be invested in the bankers acceptances of any one commercial bank pursuant to this paragraph (q).

(r) Any other obligations or investments in which the Treasurer is permitted to invest Commission funds.

Principal Amount means, as of any date of calculation, (i) with respect to any capital appreciation Bond or compound interest Bond, the accreted value thereof, and (ii) with respect to any other Bonds, the stated principal amount thereof.

Principal Payment Date means, with respect to any Series of Bonds, each date specified in the 1991 Master Resolution or in the Supplemental Resolution authorizing the issuance thereof for the payment of the principal of such Bonds either at maturity, or upon prior redemption from Mandatory Sinking Fund Payments.

Rating Agency means Fitch, Moody's and S&P or any other nationally recognized credit rating agency specified in a Supplemental Resolution; provided, however, that the term "Rating Agency" shall in any event include Fitch, Moody's or S&P, respectively, during such time that such rating agency maintains a credit rating on any Series of Bonds Outstanding under the 1991 Master Resolution.

Repayment Obligation means an obligation under a written agreement between the Commission and a Credit Provider or Liquidity Provider to reimburse such Credit Provider or Liquidity Provider for amounts paid under or pursuant to a Credit Facility or Liquidity Facility, as applicable, for the payment of the principal or purchase price of and/or interest on any Bonds.

Revenues means all revenues earned by the Commission from or with respect to its possession, management, supervision, operation and control of the Airport, as determined in accordance with generally accepted accounting principles. Revenues does not include: (i) interest income on, and any profit realized from, the investment of moneys in (A) the Construction Fund or any other construction fund funded from proceeds of any Subordinate Bonds, or (B) the Debt Service Fund which constitute capitalized interest, to the extent required to be paid into the Debt Service Fund, or (C) the Reserve Fund if and to the extent there is any deficiency therein; (ii) interest income on, and any profit realized from, the investment of the proceeds of any Special Facility Bonds; (iii) Special Facility Revenues and any interest income or profit realized from the investment thereof, unless such receipts are designated as Revenues by

the Commission; (iv) any passenger facility charge or similar charge levied by or on behalf of the Commission against passengers, unless all or a portion thereof are designated as Revenues by the Commission; (v) grants-in-aid, donations and/or bequests; (vi) insurance proceeds which are not deemed to be Revenues in accordance with generally accepted accounting principles; (vii) the proceeds of any condemnation award; (viii) the proceeds of any sale of land, buildings or equipment; (ix) any money received by or for the account of the Commission from the levy or collection of taxes upon any property in the City; (x) any Customer Facility Charge or similar charge levied by or on behalf of the Commission against customers, except to the extent all or a portion thereof is designated as Revenues by the Commission; and (xi) any Federal Subsidy Payments, except to the extent all or a portion thereof is designated as Revenues by the Commission.

Series 2017D Bonds means the Airport Commission of the City and County of San Francisco, San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2017D.

Series 2018A Bonds means the Airport Commission of the City and County of San Francisco, San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2018A.

Series 2018B Bonds means the Airport Commission of the City and County of San Francisco, San Francisco International Airport Second Series Revenue Bonds, Series 2018B.

Series 2018C Bonds means the Airport Commission of the City and County of San Francisco, San Francisco International Airport Second Series Revenue Bonds, Series 2018C.

Series 2019B Bonds means the Airport Commission of the City and the County of San Francisco, San Francisco International Airport Second Series Revenue Bonds, Series 2019B.

Series 2019D Bonds means the Airport Commission of the City and the County of San Francisco, San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2019D.

Series 2023CD Bonds means, collectively, the Airport Commission of the City and the County of San Francisco, San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2023C and Second Series Revenue Bonds, Series 2023D.

Series 2024A-C Bonds means, collectively, the Airport Commission of the City and the County of San Francisco, San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024A, Second Series Revenue Refunding Bonds, Series 2024B and Second Series Revenue Refunding Bonds, Series 2024C.

Series of Bonds or Bonds of a Series or Series means a series of Bonds issued pursuant to the 1991 Master Resolution.

Series Sale Resolution means one or more resolutions of the Commission, (i) in the case of a competitive sale, awarding or providing for the award of a Series of Bonds to the successful bidder in accordance with the terms of the official notice of sale, or in the case of a negotiated sale, providing for the sale of a Series of Bonds to an underwriter or underwriters in accordance with the terms of a bond purchase contract, and (ii) determining or providing for the determination of the interest rates, the mode, the maturity date and the maximum rate (if such Series of Bonds are secured by a Credit Facility, other than a Bond Insurance Policy or reserve fund surety policy) to be borne by such Series of Bonds, whether principal payments in any given year are to be serial maturities or Mandatory Sinking Fund Payments, the purchase price of such Series of Bonds, providing for a Credit Facility securing any or all of such Series of Bonds and naming the Credit Provider, and remarketing agent, if any, and determining or providing for the determination of such other matters relating to the Series of Bonds as may be permitted or authorized to be determined by the Commission in accordance with the 1991 Master Resolution. A certificate signed by the President and the Secretary of the Commission or by the Airport Director may be deemed to be a Series Sale Resolution; provided, that such certificate does not impose additional material obligations on or surrender material rights of the Commission.

Special Facility means any existing or planned facility, structure, equipment or other property, real or personal, which is at the Airport or a part of any facility or structure at the Airport and designated as such by the Commission pursuant to the Resolution.

Special Facility Bonds means any revenue bonds, notes, bond anticipation notes, commercial paper or other evidences of indebtedness for borrowed money issued by the Commission to finance a Special Facility, the principal of, premium, if any, and interest on which are payable from and secured by Special Facility Revenues derived from such Special Facility, and not from or by Net Revenues.

Special Facility Revenues means the revenues earned by the Commission from or with respect to any Special Facility and designated as such by the Commission.

Subordinate Bonds means any evidences of indebtedness for borrowed money issued from time to time by the Commission pursuant to the 1991 Master Resolution, including but not limited to bonds, notes, bond anticipation notes, commercial paper, lease or installment purchase agreements or certificates of participation therein, with a pledge of, lien on, and security interest in Net Revenues which are junior and subordinate to those of the Bonds whether then issued or thereafter to be issued.

Supplemental Resolution means a resolution supplementing or amending the provisions of the 1991 Master Resolution which is adopted by the Commission pursuant to Article IX of the 1991 Master Resolution.

Transfer means (i) the amount deposited on the last Business Day of any Fiscal Year from the Contingency Account into the Revenues Account, plus (ii) any amounts withdrawn from the Contingency Account during such Fiscal Year for the purposes specified in the 1991 Master Resolution, less (iii) any amounts deposited in the Contingency Account from Revenues during such Fiscal Year.

Treasurer means the Treasurer of the City, and any successor to his or her duties under the Resolution.

Trustee means, with respect to the Series 2024A-C Bonds, The Bank of New York Mellon Trust Company, N.A., and its successors and assigns and any other person or entity which may at any time be substituted for it, as successor trustee and paying agent under the Resolution.

2017 Reserve Account means the 2017 Reserve Account established in the Reserve Fund pursuant to the Series Sale Resolution for the Series 2017C Bonds, Series 2017D Bonds and Series 2018A Bonds as security for the 2017 Reserve Account Series Bonds.

2017 Reserve Account Maximum Annual Debt Service means the maximum amount of aggregate Annual Debt Service for all 2017 Reserve Account Series Bonds in any Fiscal Year during the period from the date of calculation to the final scheduled maturity of the 2017 Reserve Account Series Bonds.

2017 Reserve Account Series Bonds means, collectively, the Series 2017C Bonds, the Series 2017D Bonds, the Series 2018A Bonds, the Series 2019B Bonds, and the Series 2019D Bonds, and any other Series of Bonds designated by a Supplemental Resolution, a capital plan bonds Sale Resolution or a Series Sale Resolution as participating in and being secured by the 2017 Reserve Account.

2017 Reserve Requirement means, with respect to the 2017 Reserve Account, an amount equal to the lesser of: (a) 2017 Reserve Account Maximum Annual Debt Service, (b) 10% of the outstanding aggregate principal amount of all 2017 Reserve Account Series Bonds (provided that the issue price of a Series of 2017 Reserve Account Series Bonds shall be used in this calculation if such Series was sold with an original issue discount that exceeded 2% of the principal of such Series on its original date of sale), and (c) 125% of the average aggregate Annual Debt Service for all 2017 Reserve Account Series Bonds.

Variable Rate Bonds means one or more Series of variable rate bonds authorized by the Supplemental Resolutions to be issued under the 1991 Master Resolution, in the aggregate principal amounts specified in one or more

Series Sale Resolutions. Variable Rate Bonds may bear interest at Daily Rates, Weekly Rates, Index Rate, Commercial Paper Rates, Term Rates or a Fixed Rate, as such terms are defined in the 1991 Master Resolution.

Pledge of Net Revenues and Other Moneys

The Bonds are revenue bonds, are not secured by any taxing power of the Commission (which has no taxing power) and are payable as to both principal and interest, and any premium exclusively from, and are secured by a pledge of, lien on and security interest in Net Revenues of the Airport. Net Revenues constitute a trust fund for the security and payment of the principal of, purchase price, if any, premium, if any, and interest on, the Bonds. The Commission has assigned to the Trustee for the benefit of the Bondholders all of its right, title and interest in, the following:

- (a) Amounts on deposit from time to time in the funds and accounts created pursuant to the 1991 Master Resolution, including the earnings thereon, subject to the provisions of the 1991 Master Resolution permitting the application thereof for the purposes and on the terms and conditions set forth therein; provided, however, that there expressly is excluded from any pledge, assignment, lien or security interest created by the 1991 Master Resolution, Revenues appropriated, transferred, deposited, expended or used for the payment of Operation and Maintenance Expenses;
- (b) Amounts constituting Net Revenues; and
- (c) Any and all other property of any kind from time to time by delivery or by writing of any kind specifically conveyed, pledged, assigned or transferred, as and for additional security for the Bonds, by the Commission or anyone on its behalf or with its written consent in favor of the Trustee, which is authorized to receive any and all such property at any and all times and to hold and apply the same subject to the terms of the 1991 Master Resolution.

The pledge of Net Revenues and other moneys and property made in the 1991 Master Resolution is irrevocable until all of the Bonds have been paid and retired.

All Bonds issued and Outstanding under the 1991 Master Resolution are and will be equally and ratably secured with all other Outstanding Bonds, with the same right, lien, preference and priority with respect to Net Revenues, without preference, priority or distinction on account of the date or dates or the actual time or times of the issuance or maturity of the Bonds or otherwise. All Bonds of a particular Series will in all respects be equally and ratably secured and will have the same right, lien and preference established under the 1991 Master Resolution for the benefit of such Series of Bonds, including, without limitation, rights in any related account in the Construction Fund, the Debt Service Fund or the Reserve Fund. Amounts drawn under a Credit Facility with respect to particular Bonds and all other amounts held in funds or accounts established with respect to such Bonds pursuant to the provisions of the 1991 Master Resolution and of any Supplemental Resolution with respect thereto will be applied solely to make payments on such Bonds.

Revenue Fund; Allocation of Net Revenues

The Revenue Fund has heretofore been created and is held by the Treasurer. The 1991 Master Resolution established the following accounts within the Revenue Fund:

- Revenues Account
- Operation and Maintenance Account
- Revenue Bond Account
- General Obligation Bond Account
- General Purpose Account
- Contingency Account

All Revenues are required to be set aside and deposited in the Revenues Account in the Revenue Fund as received. On the first Business Day of each month, moneys in the Revenues Account will be set aside and applied for

the following purposes in the following amounts and order of priority, each priority to be fully satisfied before the next priority in order:

First: Operation and Maintenance Account. In the Operation and Maintenance Account an amount equal to one-twelfth (1/12th) of the estimated Operation and Maintenance Expenses for the then-current Fiscal Year as set forth in the budget of the Airport for such Fiscal Year as finally approved by the Commission. In the event that the balance in the Operation and Maintenance Account at any time is insufficient to make any required payments therefrom, additional amounts at least sufficient to make such payments will immediately be deposited in the Operation and Maintenance Account from the Revenues Account, and may be credited against the next succeeding monthly deposit upon the written direction of the Commission to the Treasurer.

Second: Revenue Bond Account. In the Revenue Bond Account such amount as is necessary:

- (a) to make all payments and deposits required to be made during such month into the Debt Service Fund and the Reserve Fund and the accounts therein in the amounts and at the times required by the 1991 Master Resolution and by any Supplemental Resolution with respect to the Bonds; and
- (b) to make all payments and deposits required to be made during such month into any funds and accounts created to pay or secure the payment of the principal or purchase price of or interest or redemption premium on any Subordinate Bonds in the amounts and at the times required by the resolutions and other agreements authorizing the issuance and providing the terms and conditions thereof.

Third: General Obligation Bond Account. In the General Obligation Bond Account an amount equal to one-sixth (1/6) of the aggregate amount of interest coming due on the next succeeding interest payment date, plus one-twelfth (1/12) of the aggregate amount of principal coming due on the next succeeding principal payment date, with respect to general obligation bonds of the City issued for Airport purposes.

Fourth: General Purpose Account. In the General Purpose Account an amount at least equal to the payments estimated to be made therefrom during such month.

Fifth: Contingency Account. In the Contingency Account such amount, if any, as shall be directed by the Commission from time to time.

Construction Fund

The 1991 Master Resolution created the Construction Fund as a separate fund to be maintained and accounted for by the Treasurer. Moneys in the Construction Fund will be used for the purposes for which Bonds are authorized to be issued, including but not limited to the payment of principal and purchase price of and interest and redemption premium on the Bonds and the costs of issuance and sale thereof. A separate account will be created within the Construction Fund with respect to each Series of Bonds. Amounts in the Construction Fund may be invested in any Permitted Investment, in accordance with the policies and procedures of the Treasurer.

Costs of Issuance Fund

The 1991 Master Resolution created the Costs of Issuance Fund as a separate fund to be maintained and accounted for by the Trustee. A separate account will be created within the Costs of Issuance Fund with respect to each Series of Bonds. Monies deposited in each Costs of Issuance Account shall be used only for the authorized Costs of Issuance such Series of Bonds. Any balance remaining in any Costs of Issuance Account is to be transferred to the appropriate account in the Construction Fund, no later than one year following the date of issuance of each such Series of Bonds. Amounts in the Costs of Issuance Fund may be invested in any Permitted Investment.

Debt Service Holding Fund

The 1991 Master Resolution created the Debt Service Holding Fund as a separate fund, which is not pledged to the payment of the Bonds, but is established for the convenience of the Commission in the administration and investment of monies delivered to the Trustee prior to the time the Commission is required to make deposits into the Debt Service Fund and the series principal and interest accounts therein as required by the 1991 Master Resolution. The Commission may at any time, deliver to the Trustee monies for deposit in the Debt Service Holding Fund, to be held and invested therein as directed by an authorized Commission representative. Upon the order of an Authorized Commission Representative, monies in the Debt Service Holding Fund and investment earnings thereon may be invested in any Permitted Investment, transferred to the Debt Service Fund and the series principal and interest accounts therein, or returned to the Commission.

Debt Service and Reserve Funds

The 1991 Master Resolution establishes the following funds and accounts to be held by the Trustee:

Debt Service Fund
Reserve Fund

The Commission will establish separate accounts within the Debt Service Fund with respect to any or all of the Bonds of one or more Series. Moneys in the Debt Service Fund and the accounts therein will be held in trust and applied to pay principal and purchase price of and interest and redemption premium on such Bonds, in the amounts, at the times and in the manner set forth in the 1991 Master Resolution and in the Supplemental Resolutions with respect thereto; provided, however, that each Supplemental Resolution must require to the extent practicable that amounts be accumulated in the applicable accounts in the Debt Service Fund so that moneys sufficient to make any regularly scheduled payment of principal of or interest on the Bonds are on deposit therein at least one month prior thereto. Moneys in the accounts in the Debt Service Fund may also be applied to pay or reimburse a Credit Provider for Repayment Obligations to the extent provided in the 1991 Master Resolution or in the Supplemental Resolutions with respect thereto.

If and to the extent provided in any Supplemental Resolution authorizing the issuance of a Series of Bonds, interest rate swap payments may be paid directly out of, and interest rate swap receipts paid directly into, the account or accounts in the Debt Service Fund established with respect to such Series of Bonds.

The Commission may establish a separate account or accounts in the Reserve Fund with respect to any or all of the Bonds of one or more Series. Moneys in the Reserve Fund and the accounts therein will be held in trust for the benefit and security of the Holders of the Bonds to which such accounts are pledged, and will not be available to pay or secure the payment of any other Bonds. Each account in the Reserve Fund will be funded and replenished in the amounts, at the times and in the manner provided in the 1991 Master Resolution or in the Supplemental Resolutions with respect thereto, including without limitation through the use of a Credit Facility. Moneys in the respective accounts in the Reserve Fund will be applied to pay and secure the payment of such Bonds as provided in the 1991 Master Resolution or in the Supplemental Resolutions with respect thereto. Moneys in an account in the Reserve Fund may also be applied to pay or reimburse a Credit Provider for Repayment Obligations to the extent provided in the 1991 Master Resolution or in the Supplemental Resolutions with respect thereto.

Issue 1 Reserve Account (Original Reserve Account)

The 1991 Master Resolution established the “Issue 1 Reserve Account” as security for the Issue 1 Bonds and any other Participating Series of Bonds designated by Supplemental Resolution as being secured by the Issue 1 Reserve Account. ***The Series 2024A-C Bonds are each a Participating Series secured by the Issue 1 Reserve Account.***

2017 Reserve Account

The Series Sale Resolution for the Series 2017C Bonds, Series 2017D Bonds and Series 2018A Bonds established the “2017 Reserve Account” as security for the Series 2017C Bonds, the Series 2017D Bonds, the Series

2018A Bonds and any other 2017 Reserve Account Series Bonds designated by a Supplemental Resolution or by a Series Sale Resolution as being secured by the 2017 Reserve Account. ***None of the Series 2024A-C Bonds is a 2017 Reserve Account Series, and the Series 2024A-C Bonds are not secured by the 2017 Reserve Account.*** The 2017 Reserve Account is required to be funded at the 2017 Reserve Requirement. The moneys in said account will be used solely for the purpose of paying principal, interest or mandatory sinking fund payments on the 2017 Reserve Account Series Bonds whenever any moneys then credited to the accounts within the Debt Service Fund for 2017 Reserve Account Series Bonds are insufficient for such purposes.

Separate Reserve Accounts for Bonds not Designated as Participating Series or 2017 Reserve Account Series Bonds

Unless otherwise provided in a Series Sale Resolution, each Series of Bonds will be a Participating Series or 2017 Reserve Account Series, or may be secured by a separate Series Reserve Account. The amount in each Series Reserve Account will be established and maintained at an amount equal to the applicable Series Reserve Requirement, which will be Maximum Series Annual Debt Service, or such other amount as shall be set forth in a Series Sale Resolution.

Application and Valuation of Issue 1 Reserve Account and 2017 Reserve Account

The moneys in the Issue 1 Reserve Account, the 2017 Reserve Account and any separate Series Reserve Account (each a "Reserve Account") are to be used solely for the purposes of paying interest, principal or mandatory sinking fund payments on the Bonds to which such accounts are pledged whenever any moneys then credited to the accounts within the Debt Service Fund for the applicable Series of Bonds are insufficient for such purposes and to pay one or more Credit Providers principal due with respect to any Credit Facility deposited in the Reserve Account for the applicable Series of Bonds to the extent that such payment will cause the amount available to be drawn under the related Credit Facility or Credit Facilities to be reinstated in an amount at least equal to the amount of such payment. In the event that the Trustee is required to apply amounts in a Reserve Account to pay interest, principal or mandatory sinking fund payments on the Series of Bonds to which such Reserve Account is pledged, the Trustee will apply all amounts (the "Cash Amount") in such Reserve Account, other than amounts available pursuant to draws on Credit Facilities deposited in such Reserve Account, to such payments before drawing on any such Credit Facility. If after exhausting the Cash Amount, the Trustee has insufficient moneys to pay interest, principal or mandatory sinking fund payments on the applicable Series of Bonds, the Trustee will draw on the Credit Facilities deposited in the Reserve Account on a pro rata basis to the extent required to remedy the remaining deficiency.

If at any time the balance in any Reserve Account is for any reason diminished below the amount required to be on deposit therein, the Trustee is required to immediately notify the Commission of such deficiency, and the Commission is required to cause the applicable Reserve Account to be replenished by transfers from available Net Revenues over a period not to exceed 12 months from the date the Commission receives notice from the Trustee of such deficiency.

Subject to the terms and conditions of the 1991 Master Resolution, each Reserve Account is to be replenished from available Net Revenues in the following order of priority, each requirement to be satisfied in full before the next requirement in priority: (1) on a pro rata basis, payments to Credit Providers of principal then due with respect to any Credit Facility deposited in such Reserve Account to the extent that such payments will cause the amounts available to be drawn under such Credit Facility or Credit Facilities to be reinstated in an amount at least equal to such payments; and (2) other amounts required to be deposited in such Reserve Account to increase the amount therein to the Aggregate Maximum Annual Debt Service on the then Outstanding Bonds to which such Reserve Account is pledged.

Under the 1991 Master Resolution, the Trustee is required to determine the amount in each Reserve Account from time to time but not less frequently than annually. Permitted Investments in each Reserve Account are to be valued at cost plus accreted value. In the event that the Trustee determines on any valuation date that the amount in a Reserve Account exceeds Aggregate Maximum Annual Debt Service (with respect to the Issue 1 Reserve Account) or the 2017 Reserve Requirement (with respect to the 2017 Reserve Account) on all then Outstanding Bonds to which such Reserve Account is pledged, upon the request of the Commission, the Trustee will transfer the amount of such excess to the Treasurer for deposit in the applicable Revenues Account.

In the event Bonds of a Series are to be redeemed in whole or in part pursuant to the 1991 Master Resolution, or the Commission notifies the Trustee in writing of its intention to refund Bonds of a Series in whole or in part, the Trustee is required to value the amount in the Reserve Account applicable to such Bonds, and, if the Trustee determines that the amount in the applicable Reserve Account exceeds Aggregate Maximum Annual Debt Service (with respect to the Issue 1 Reserve Account) or the 2017 Reserve Requirement (with respect to the 2017 Reserve Account) on the Bonds to which such Reserve Account is pledged to remain Outstanding after such redemption or refunding, upon the request of the Commission, the Trustee will transfer the amount of such excess in accordance with such request.

At its option, the Commission may at any time substitute a Credit Facility meeting the requirements of the 1991 Master Resolution for amounts on deposit in each Reserve Account. The 1991 Master Resolution requires that the substitution of a Credit Facility for amounts on deposit in each Reserve Account will not cause the then-current ratings on the Bonds to which such accounts are pledged to be downgraded or withdrawn. In the event that after the substitution of a Credit Facility for all or any part of the amount on deposit in a Reserve Account, the amount in such Reserve Account is greater than the amount required to be on deposit therein, upon the request of an authorized Commission representative, the Trustee will transfer such excess to the Commission to be used solely for Airport purposes. The 1991 Master Resolution further requires that any such Credit Facility provided in the form of a surety bond is to be issued by an institution then rated in the highest rating category, without regard to subcategories, by Moody's and S&P, and that any such Credit Facility provided in the form of a letter of credit is to be issued by an institution whose (i) short-term rating is then rated either "P1" by Moody's or "A-1" by Standard & Poor's, or (ii) long term rating is then rated in at least the second highest rating category, without regard to subcategories, by Moody's and S&P.

Any draw on any Credit Facility on deposit in a Reserve Account shall be made only after all the funds in such Reserve Account have been expended. In such event, draws on each Credit Facility shall be made on a pro rata basis to fund the insufficiency. The 1991 Master Resolution provides that a Reserve Account shall be replenished in the following priority: (i) principal of each Credit Facility shall be paid from first available Net Revenues on a pro rata basis to the extent that such payments will cause the amounts available to be drawn under each Credit Facility to be reinstated in an amount at least equal to such payments; and (ii) after all such amounts are paid in full, amounts necessary to fund a Reserve Account to the required level, after taking into account the amounts available under each Credit Facility shall be deposited from next available Net Revenues.

Permitted Investments

Amounts in the Series Debt Service Accounts for the Series 2024A-C Bonds shall be invested in Permitted Investments or any other obligations or investments in which the Treasurer is permitted to invest Commission funds maturing on or before the related Payment Date on which the proceeds of such Permitted Investments are intended to be applied for the purposes of the related Series Debt Service Account for the Series 2024A-C Bonds. Amounts in the 2017 Reserve Account shall be invested by the Trustee in accordance with instructions provided by the Commission (or such third parties appointed by the Commission) or, in the absence of instructions from the Commission (or such third parties appointed by the Commission), pursuant to the Commission's standing instructions, in Permitted Investments or any other obligations or investments in which the Treasurer is permitted to invest Commission funds. Amounts in the Series 2024A Construction Account and the 2024B Construction Account may be invested in any Permitted Investment or any other obligations or investments in which the Treasurer is permitted to invest Commission funds.

Issuance of Additional Series of Bonds

General Requirements

Whenever the Commission determines to issue any additional Series of Bonds, the Commission is required to adopt a Supplemental Resolution authorizing the issuance of such Series of Bonds and to deliver to the Trustee: (i) a certificate to the effect that the Commission is not then in default under the terms and provisions of the 1991 Master Resolution or any Supplemental Resolution; (ii) an opinion of bond counsel to the effect that such Series of Bonds has been duly authorized in conformity with law and all prior proceedings of the Commission, and such Bonds constitute valid and binding obligations of the Commission; and (iii) certain other items specified by the 1991 Master Resolution or the Supplemental Resolution or which may be reasonably requested by the Commission or the Trustee.

Additional Bonds Test

The Commission is not permitted to issue any additional Series of Bonds (other than refunding Bonds, described below under “—Refunding Bonds”) unless the Trustee has been provided with either:

- (a) a certificate of an Airport Consultant dated within 30 days prior to the date of delivery of the Bonds stating that:
 - (i) for the period, if any, from and including the first full Fiscal Year following the issuance of such Bonds through and including the last Fiscal Year during any part of which interest on such Bonds is expected to be paid from the proceeds thereof, projected Net Revenues, together with any Transfer, in each such Fiscal Year will be at least equal to 1.25 times Annual Debt Service; and
 - (ii) for the period from and including the first full Fiscal Year following the issuance of such Bonds during which no interest on such Bonds is expected to be paid from the proceeds thereof through and including the later of: (A) the fifth full Fiscal Year following the issuance of such Bonds, or (B) the third full Fiscal Year during which no interest on such Bonds is expected to be paid from the proceeds thereof, projected Net Revenues, together with any Transfer, if applicable, in each such Fiscal Year will be (1) at least sufficient to make all required payments and deposits in such Fiscal Year into the Revenue Bond Account and the General Obligation Bond Account pursuant to the 1991 Master Resolution, and to make the Annual Service Payment to the City and (2) at least equal to 125% of aggregate Annual Debt Service with respect to the Bonds for such Fiscal Year; or
- (b) a certificate of an Independent Auditor stating that Net Revenues, together with any Transfer, in the most recently completed Fiscal Year were at least equal to 125% of the sum of (i) Annual Debt Service on the Bonds in such Fiscal Year, plus (ii) Maximum Annual Debt Service on the Bonds proposed to be issued.

For purposes of (a) and (b) above, the amount of any Transfer taken into account shall not exceed 25% of Maximum Annual Debt Service in such Fiscal Year. In determining projected Net Revenues for purposes of (a) above, the Airport Consultant may take into account reasonably anticipated changes in Revenues and Operation and Maintenance Expenses over such period. In determining Annual Debt Service for purposes of (a) or (b) above, Bonds that will be paid or discharged immediately after the issuance of the Series of Bonds proposed to be issued from the proceeds thereof or other moneys will be disregarded, and Variable Rate Bonds will be deemed to bear interest during any period after the date of calculation at a fixed annual rate equal to 1.25 times the rate determined pursuant to paragraphs (b) and (c), as the case may be, of the definition of “Annual Debt Service” of the Resolution.

In the event that the Commission proposes to assume any indebtedness for borrowed money in connection with assuming the possession, management, supervision and control of any airport or other revenue-producing facilities, such indebtedness may constitute additional Bonds under the 1991 Master Resolution entitled to an equal pledge of and lien on Net Revenues as the Bonds provided that the requirements of the 1991 Master Resolution relating to additional Bonds are satisfied with respect to the assumption of such indebtedness.

For purposes of the “*Additional Bonds Test*” provision of the 1991 Master Resolution, “Annual Debt Service” and “Maximum Annual Debt Service” may, at the Commission’s option, be calculated based on required deposits to pay Annual Debt Service.

Refunding Bonds

The Commission may issue Bonds for the purpose of refunding any Bonds or Subordinate Bonds on or prior to maturity or thereafter. The Commission is permitted to issue such refunding Bonds only (i) upon compliance with the additional Bonds test established by the 1991 Master Resolution as described above under “—Issuance of Additional Series of Bonds—*Additional Bonds Test*,” or (ii) if the Commission delivers to the Trustee a certificate of

an Airport Consultant or Financial Consultant to the effect that (A) aggregate Annual Debt Service in each Fiscal Year with respect to all Bonds to be Outstanding after the issuance of such refunding Bonds will be less than aggregate Annual Debt Service in each such Fiscal Year in which Bonds are Outstanding prior to the issuance of such refunding Bonds, and (B) Maximum Annual Debt Service with respect to all Bonds to be Outstanding after issuance of such refunding Bonds will not exceed Maximum Annual Debt Service with respect to all Bonds Outstanding immediately prior to such issuance. For purposes of the “Refunding Bonds” provision of the 1991 Master Resolution, “Annual Debt Service” and “Maximum Annual Debt Service” may, at the Commission’s option, be calculated based on required deposits to pay Annual Debt Service.

Repayment Obligations

If so provided in the applicable Supplemental Resolution and in the written agreement between the Commission and the Credit Provider or Liquidity Provider, as applicable, a Repayment Obligation may be accorded the status of a Bond solely for purposes of the 1991 Master Resolution, provided, however, that the Credit Facility or Liquidity Facility, as applicable, with respect thereto shall not constitute a bond for any other purpose, including without limitation for purposes of the Charter. The Credit Provider or Liquidity Provider, as applicable, shall be deemed to be the Holder of such Bond, and such Bond shall be deemed to have been issued as of the original date of the Bond or Bonds for which such Credit Facility or Liquidity Facility, as applicable, was provided. Notwithstanding the stated terms of the Repayment Obligation, the Bond deemed to be held by the Credit Provider or Liquidity Provider, as applicable, shall be deemed to be amortized on a level debt service basis at the Index Rate over a period equal to the lesser of (a) 20 years, or (b) the period ending on the later of (i) the final maturity date of the Bonds payable from or secured by such Credit Facility or Liquidity Facility, as applicable, or (ii) the date the Repayment Obligation is due under the terms of the written agreement with respect thereto, with principal payable annually commencing on the next Principal Payment Date with respect to such Bonds and interest payable semiannually commencing on the next Interest Payment Date with respect to such Bonds. Such Bond shall be deemed to bear interest at the rate provided in the written agreement with respect to the Repayment Obligation. Any amount which becomes due and payable on the Repayment Obligation under the written agreement with respect thereto and which is in excess of the amount deemed to be principal of and interest on a Bond shall be junior and subordinate to the Bonds. The rights of a Credit Provider or Liquidity Provider, as applicable, under the 1991 Master Resolution shall be in addition to any rights of subrogation which the Credit Provider or Liquidity Provider, as applicable, may otherwise have or be granted under law or pursuant to any Supplemental Resolution. Notwithstanding anything in the 1991 Master Resolution to the contrary, a Bond and an unreimbursed Repayment Obligation arising with respect to such Bond shall not be deemed to be Outstanding at the same time.

Subordinate Bonds

The Commission may issue, at any time while any of the Bonds are Outstanding, Subordinate Bonds with a pledge of, lien on, and security interest in Net Revenues junior and subordinate to the pledge of, lien on, and security interest in Net Revenues in respect of the Bonds. The principal and purchase price of and interest, redemption premium and reserve fund requirements on such Subordinate Bonds will be payable from time to time out of Net Revenues only if all amounts then required to have been paid or deposited under the Resolution from Net Revenues with respect to principal, purchase price, redemption premium, interest and reserve fund requirements on the Bonds then Outstanding or thereafter to be Outstanding have been paid or deposited as required in the 1991 Master Resolution and any Supplemental Resolution.

Special Facility Bonds

The Commission from time to time, subject to the conditions described in this section captioned “—Special Facility Bonds” may (a) designate an existing or planned facility, structure, equipment or other property, real or personal, which is at the Airport or part of any facility or structure at the Airport as a “Special Facility,” (b) provide that revenues earned by the Commission from or with respect to such Special Facility shall constitute “Special Facility Revenues” and shall not be included as Revenues, and (c) issue Special Facility Bonds primarily for the purpose of acquiring, constructing, renovating, or improving such Special Facility, or providing financing to a third party for such purposes. Principal, purchase price, if any, redemption premium, if any, and interest with respect to Special Facility Bonds shall be payable from and secured by the Special Facility Revenues with respect thereto, and not from or by

Net Revenues. The Commission from time to time may refinance any such Special Facility Bonds with other Special Facility Bonds.

No Special Facility Bonds shall be issued by the Commission unless there has been filed with the Trustee a certificate of an Airport Consultant that (i) the estimated Special Facility Revenues with respect to the proposed Special Facility will be at least sufficient to pay the principal, or purchase price, interest, all costs of operating and maintaining such Special Facility not paid by a party other than the Commission, and all sinking fund, reserve fund and other payments required with respect to such Special Facility Bonds when due; (ii) estimated Net Revenues calculated without including the Special Facility Revenues and without including any operation and maintenance expenses of the Special Facility as Operation and Maintenance Expenses will be sufficient so that the Commission will be in compliance with the rate covenant (see “—Certain Covenants—*Rate Covenant*” below) during each of the five Fiscal Years immediately following the issuance of such Special Facility Bonds; and (iii) no Event of Default exists.

Upon the payment in full or other discharge of the Special Facility Bonds, including Special Facility Bonds issued to refinance such Special Facility Bonds, Special Facility Revenues with respect to such Special Facility shall be included as Revenues.

Certain Covenants

Punctual Payment

The Commission has covenanted that it will promptly pay or cause to be paid the principal and purchase price of, premium, if any, and interest to become due in respect of all the Bonds, in strict conformity with the terms of the Bonds and of the 1991 Master Resolution and any applicable Supplemental Resolution, but solely from the sources pledged to such payment or from such other sources or revenues as may be used for such payment, and the Commission has covenanted that it will faithfully observe and perform all of the conditions, covenants and requirements of the 1991 Master Resolution and all Supplemental Resolutions and of the Bonds.

Negative Pledge

The Commission has covenanted that it will not create any pledge, lien on, security interest in or encumbrance upon, or permit the creation of any pledge of, lien on, security interest in or encumbrance upon, Revenues or Net Revenues except for a pledge, lien, security interest or encumbrance subordinate to the pledge, lien and security interest granted by the 1991 Master Resolution for the benefit of the Bonds.

Rate Covenant

The Commission has covenanted that it will establish and at all times maintain rentals, rates, fees and charges for the use of the Airport and for the services rendered by the Commission in connection with the Airport so that:

- (a) Net Revenues in each Fiscal Year will be at least sufficient (i) to make all required payments and deposits in such Fiscal Year into the Revenue Bond Account and the General Obligation Bond Account pursuant to the 1991 Master Resolution, and (ii) to make the Annual Service Payment to the City; and
- (b) Net Revenues, together with any Transfer, in each Fiscal Year will be at least equal to 125% of aggregate Annual Debt Service with respect to the Bonds for such Fiscal Year. For purposes of this provision of the 1991 Master Resolution, “Annual Debt Service” may, at the Commission’s option, be calculated based on required deposits to pay Annual Debt Service.

The Commission has covenanted that if Net Revenues, together with any Transfer, in any Fiscal Year are less than the amount specified in clause (b) above, the Commission will retain and direct an Airport Consultant to make recommendations as to the revision of the Commission’s business operations and its schedule of rentals, rates, fees and charges for the use of the Airport and for services rendered by the Commission in connection with the Airport,

and after receiving such recommendations or giving reasonable opportunity for such recommendations to be made the Commission will take all lawful measures to revise the schedule of rentals, rates, fees and charges as may be necessary to produce Net Revenues, together with any Transfer, in the amount specified in clause (b) above in the next succeeding Fiscal Year.

In the event that Net Revenues for any Fiscal Year are less than the amount specified in clause (b) above, but the Commission promptly has taken prior to or during the next succeeding Fiscal Year all lawful measures to revise the schedule of rentals, rates, fees and charges as required by the 1991 Master Resolution and described in the previous paragraph, such deficiency in Net Revenues will not constitute an Event of Default under the 1991 Master Resolution as described in clause (d) under the caption “—Events of Default” below. Nevertheless, if after taking the measures required in the previous paragraph to revise the schedule of rentals, rates, fees and charges, Net Revenues in the next succeeding Fiscal Year (as evidenced by the audited financial statements of the Commission for such Fiscal Year) are less than the amount specified in clause (b) above, such deficiency in Net Revenues will constitute an Event of Default under the 1991 Master Resolution as described in clause (e) under the caption “—Events of Default” below.

Operation and Maintenance of the Airport

The Commission has covenanted that it will operate and maintain the Airport as a revenue producing enterprise in accordance with the Act. The Commission will make such repairs to the Airport as are necessary or appropriate in the prudent management thereof. The Commission also has covenanted that it will operate and maintain the Airport in a manner which will entitle it at all times to charge and collect fees, charges and rentals in accordance with Airport use agreements, if any, or as otherwise permitted by law, and the Commission will take all reasonable measures permitted by law to enforce prompt payment to it of such fees, charges and rentals when and as due. The Commission will, from time to time, duly pay and discharge, or cause to be paid and discharged, any taxes, assessments or other governmental charges lawfully imposed upon the Airport or upon any part thereof, or upon the revenues from the operation thereof, when the same become due, as well as any lawful claim for labor, materials or supplies which, if unpaid, might by law become a lien or charge upon the Airport or such revenues, or which might impair the security of the Bonds. Notwithstanding the foregoing, the Commission need not pay or discharge any tax, assessment or other governmental charge or claim for labor, materials or supplies, if and so long as the Commission contests the validity or application thereof in good faith. The Commission will continuously operate the Airport so that all lawful orders of the FAA and any other governmental agency or authority having jurisdiction in the premises will be complied with, but the Commission is not required to comply with any such orders so long as the validity or application thereof is being contested in good faith.

Maintenance of Powers; Retention of Assets

The Commission has covenanted that it will use its best efforts to keep the Airport open for landings and takeoffs of commercial aircraft using facilities similar to those at the Airport and to maintain the powers, functions, duties and obligations now reposed in it pursuant to law, and will not at any time voluntarily do, suffer or permit any act or thing the effect of which would be to hinder, delay or imperil either the payment of the indebtedness evidenced by any of the Bonds or any other obligation secured by the 1991 Master Resolution or the performance or observance of any of the covenants contained therein. The Commission also has covenanted that it will not dispose of assets necessary to operate the Airport in the manner and at the levels of activity required to enable it to perform its covenants contained in the 1991 Master Resolution.

Insurance

Subject in each case to the condition that insurance is obtainable at reasonable rates from responsible insurers and upon reasonable terms and conditions:

- (a) The Commission will procure or provide and maintain, at all times while any of the Bonds shall be outstanding, insurance or qualified self-insurance on the Airport against such risks as are usually insured by other major airports. Such insurance or qualified self-insurance shall be in an adequate amount as to the risk insured against as determined by the Commission. The Commission is not required to carry insurance or qualified self-insurance against losses caused by land movement, including but not limited to seismic activity.

- (b) Any qualified self-insurance is required to be established in accordance with applicable law; is required to include reserves or reinsurance in amounts which the Commission determines to be adequate to protect against risks assumed under such qualified self-insurance, including without limitation any potential retained liability in the event of the termination of such qualified self-insurance; and is required to be reviewed at least once every 12 months by an insurance consultant who will deliver to the Commission a report on the adequacy of the reserves established or reinsurance provided thereunder. If the insurance consultant determines that such reserves or reinsurance are inadequate, it will make a recommendation as to the amount of reserves or reinsurance that should be established and maintained, and the Commission will comply with such recommendation unless it can establish to the satisfaction of, and receive a certification from, the insurance consultant that a lower amount is reasonable to provide adequate protection to the Airport and the Commission.
- (c) The Commission will secure and maintain adequate fidelity insurance or bonds on all officers and employees handling or responsible for funds of the Commission, except to the extent that such insurance is provided by the City.
- (d) Within 120 days after the close of each Fiscal Year, the Commission will file with the Trustee a certificate of an authorized Commission representative containing a summary of all insurance policies and qualified self-insurance then in effect with respect to the Airport and the Commission.
- (e) The proceeds of any insurance are required to be applied solely for Airport purposes.

Financial Records and Statements

The Commission will maintain, or cause to be maintained, proper books and records in which full and correct entries are required to be made in accordance with generally accepted accounting principles, of all its business and affairs. The Commission is required to have an annual audit made by an independent auditor and will within 210 days after the end of each of its Fiscal Years furnish to the Trustee copies of the audited financial statements of the Commission for such Fiscal Year.

Tax Covenants

The Commission has covenanted that, except as otherwise provided in the 1991 Master Resolution or in any Supplemental Resolution, it will make no use of the proceeds of any Series of Bonds or take any other action or permit any other action to be taken that would affect adversely the exclusion from gross income of, interest on such Series of Bonds for federal income tax purposes or, if applicable, the non-preference status of such interest for federal alternative minimum income tax purposes.

Events of Default

The 1991 Master Resolution provides that “Event of Default” with respect to a Series of Bonds means any one of the following events:

- (a) if payment by the Commission in respect of any installment of interest on any Bond of such Series is not made in full when the same becomes due and payable;
- (b) if payment by the Commission in respect of the principal or Accreted Value of any Bond of such Series is not made in full when the same becomes due and payable, whether at maturity or by proceedings for redemption or otherwise;
- (c) if payment of the purchase price of any Bond tendered for optional or mandatory purchase in accordance with the provisions of the Supplemental Resolution providing for the issuance of such Bond is not made in full when due;

- (d) if the Commission fails to observe or perform any other covenant or agreement on its part under the 1991 Master Resolution (other than the covenant or agreement to maintain rentals, rates, fees and charges sufficient to meet the rate covenant with respect to the Bonds), for a period of 60 days after the date on which written notice of such failure, requiring the same to be remedied, have been given to the Commission by the Trustee, or to the Commission and the Trustee by the Holders of at least 25% in aggregate Principal Amount of Bonds of such Series then Outstanding; provided, however, that if the breach of covenant or agreement is one which cannot be completely remedied within the 60 days after written notice has been given, it shall not be an Event of Default with respect to such Series as long as the Commission has taken active steps within the 60 days after written notice has been given to remedy the failure and is diligently pursuing such remedy;
- (e) if the Commission is required pursuant to the rate covenant contained in the 1991 Master Resolution to take measures to revise the schedule of rentals, rates, fees and charges for the use of the Airport and Net Revenues, together with any Transfer, for the Fiscal Year in which such adjustments are made are less than the amount required by the rate covenant with respect to the Bonds (See “—Certain Covenants—*Rate Covenant*”);
- (f) if either the Commission or the City institutes proceedings to be adjudicated a bankrupt or insolvent, or consents to the institution of bankruptcy or insolvency proceedings against it, or files a petition or answer or consent seeking reorganization or relief under the federal Bankruptcy Code or any other similar applicable federal or state law, or consents to the filing of any such petition or to the appointment of a receiver, liquidator, assignee, trustee or sequestrator (or other similar official) of the Commission or of any substantial part of its property, or fails to timely controvert an involuntary petition filed against it under the federal Bankruptcy Code, or consents to entry of an order for relief under the federal Bankruptcy Code or makes an assignment for the benefit of creditors, or admits in writing its inability to pay its debts generally as they become due; and
- (g) the occurrence of any other Event of Default with respect to such Series of Bonds as is provided in a Supplemental Resolution.

An Event of Default with respect to one Series of Bonds will not in and of itself constitute an Event of Default with respect to any other Series of Bonds unless such event or condition on its own constitutes an Event of Default with respect to such other Series of Bonds pursuant to the 1991 Master Resolution.

No Acceleration

The Bonds are not subject to acceleration under any circumstance or for any reason, including without limitation upon the occurrence and continuance of an Event of Default under the 1991 Master Resolution or any Supplemental Resolution. Moreover, the Bonds will not be subject to mandatory redemption or mandatory purchase or tender for purchase as a result of the occurrence and continuance of an Event of Default to the extent the redemption or purchase price is payable from Net Revenues.

Remedies Upon Default

Subject to the terms of the 1991 Master Resolution described below in this section captioned “—Remedies Upon Default”, upon the occurrence and continuance of an Event of Default with respect to one or more Series of Bonds, the Trustee may, or upon the written request of the Holders of not less than a majority in aggregate Principal Amount of the Bonds of such Series together with indemnification of the Trustee to its satisfaction therefor shall, proceed forthwith to protect and enforce its rights and the rights of the Bondholders under the 1991 Master Resolution and under the Act and such Bonds by such suits, actions or proceedings as the Trustee, being advised by counsel, deems expedient, including but not limited to:

- (a) Actions to recover money or damages due and owing;

- (b) Actions to enjoin any acts or things, which may be unlawful or in violation of the rights of the Holders of such Bonds; and
- (c) Enforcement of any other right of such Bondholders conferred by law, including the Act, or by the 1991 Master Resolution, including without limitation by suit, action, injunction, mandamus or other proceedings to enforce and compel the performance by the Commission of actions required by the Act or the 1991 Master Resolution, including the fixing, changing and collection of fees or other charges.

Subject to the terms of the 1991 Master Resolution described below in this section captioned “—Remedies Upon Default”, regardless of the happening of an Event of Default, the Trustee, if requested in writing by the Holders of not less than 25% in aggregate Principal Amount of the Bonds of one or more Series, shall upon being indemnified to its satisfaction therefor, institute and maintain such suits and proceedings as it may be advised shall be necessary or expedient (i) to prevent any impairment of the security under the 1991 Master Resolution by any acts or omissions to act which may be unlawful or in violation of the 1991 Master Resolution, or (ii) to preserve or protect the interests of the Holders, provided that such request is in accordance with law and the provisions of the 1991 Master Resolution and, in the sole judgment of the Trustee, is not unduly prejudicial to the interests of the Holders of Bonds of each Series not making such request.

Notwithstanding anything else in the 1991 Master Resolution to the contrary, the remedies provided for with respect to obtaining moneys on deposit in funds or accounts shall be limited to the funds or accounts under the Resolution pledged to the applicable Series of Bonds with respect to which an Event of Default exists.

Furthermore, while a Credit Facility with respect to any Bonds is in effect, a Supplemental Resolution may provide that so long as the Credit Provider is not Insolvent and is not in default under the Credit Facility, no right, power or remedy under the 1991 Master Resolution with respect to such Bonds may be pursued without the prior written consent of the Credit Provider.

If an Event of Default with respect to one or more but not all Series of Bonds Outstanding has occurred and is continuing, the Holders of a majority in aggregate Principal Amount of the Bonds of such one or more Series then Outstanding have the right at any time, by an instrument or instruments in writing executed and delivered to the Trustee, to direct the method and place of conducting any proceeding to be taken with respect to funds or assets solely securing such one or more Series in connection with the enforcement of the terms and conditions of the 1991 Master Resolution; provided, that such direction is in accordance with law and the provisions of the 1991 Master Resolution (including any indemnity to the Trustee as provided in the 1991 Master Resolution) and, in the sole judgment of the Trustee, is not unduly prejudicial to the interests of Bondholders of each Series of Bonds not joining in such direction; and provided further, that the Trustee shall have discretion to take any other action under the 1991 Master Resolution which it may deem proper and in accordance with the 1991 Master Resolution and which is not inconsistent with such direction by Bondholders.

If an Event of Default with respect to all Series of Bonds has occurred and is continuing, the Holders of a majority in aggregate Principal Amount of all Bonds then Outstanding shall have the right, at any time, by an instrument in writing executed and delivered to the Trustee to direct the method and place of conducting any proceeding to be taken with respect to Net Revenues or other assets securing all Bonds in connection with the enforcement of the terms and conditions of the 1991 Master Resolution; provided, that such direction is in accordance with law and the provisions of the 1991 Master Resolution (including indemnity to the Trustee as provided in the 1991 Master Resolution) and, in the sole judgment of the Trustee, is not unduly prejudicial to the interests of Holders of Bonds not joining in such direction; and provided further, that the Trustee shall have discretion to take any other action under the Resolution which it may deem proper and in accordance with the 1991 Master Resolution and which is not inconsistent with such direction by Holders of Bonds.

The 1991 Master Resolution provides that no Holder of any Bond of a Series shall have any right to institute any suit, action or proceeding in equity or at law for the enforcement of the 1991 Master Resolution unless:

- (a) an Event of Default has occurred with respect to such Series and the Trustee is deemed to have notice of such Event of Default, the Trustee has actual knowledge of such Event of Default or the

Trustee has been notified in writing of such Event of Default by the Commission or by the Holders of at least 25% in aggregate Principal Amount of all such Series of Bonds with respect to which an Event of Default has occurred;

- (b) the Holders of at least a majority in aggregate Principal Amount of Bonds of all such Series then Outstanding with respect to which an Event of Default has occurred have made written request to the Trustee to proceed to exercise the powers granted under the 1991 Master Resolution or to institute such action, suit or proceeding in its own name;
- (c) such Holders of Bonds have offered the Trustee indemnity as provided under the 1991 Master Resolution; and
- (d) the Trustee has failed or refused to exercise the powers granted under the 1991 Master Resolution or to institute such action, suit or proceedings in its own name for a period of 60 days after receipt by it of such request and offer of indemnity.

No one or more Holders of Bonds of such Series shall have any right in any manner whatsoever to affect, disturb or prejudice the security of, or to enforce any right under, the 1991 Master Resolution except for in the manner provided under the Resolution and for the equal benefit of the Holders of all Bonds of such Series then Outstanding.

No Holder of any Bond of such Series may institute or prosecute any such suit or enter judgment therein if, and to the extent that, the institution or prosecution of such suit or the entry of judgment therein would, under applicable law, result in the surrender, impairment, waiver or loss of the lien of the 1991 Master Resolution on the moneys, funds and properties pledged thereunder for the equal and ratable benefit of all Holders of Bonds of such Series.

Defeasance

Payment of any Bonds may be provided for by the deposit with the Trustee, in trust, of moneys, noncallable Government Obligations, noncallable Government Certificates, certain types of pre-refunded municipal obligations described in the definition of Permitted Investments or any combination thereof. Provided that the moneys and the maturing principal and interest income on any securities so deposited will be sufficient and available without reinvestment to pay when due the principal, whether at maturity or upon fixed redemption dates, or purchase price and premium, if any, and interest on such Bonds, and provision for any required notice of redemption prior to maturity has been made, such Bonds will no longer be deemed Outstanding under the 1991 Master Resolution. No Bond may be so provided for if, as a result thereof or of any other action in connection with which the provision for payment of such Bond is made, the interest payable on any tax-exempt Bond is made subject to federal income taxes.

Modification or Amendment of the 1991 Master Resolution

The 1991 Master Resolution and the rights and obligations of the Commission and of the Holders of the Bonds may be modified or amended at any time by a Supplemental Resolution with the written consent, without a meeting, of the Holders of a majority in aggregate Principal Amount of the Outstanding Bonds of all Series affected. No such modification or amendment may (i) extend the stated maturity of or time or change the currency for paying the principal or purchase price of, premium, if any, or interest on any Bond or reduce the Principal Amount or purchase price of or the redemption premium or rate of interest payable on any Bond without the consent of the Holder of such Bond; (ii) except as expressly permitted by the 1991 Master Resolution, prefer or give a priority to any Bond over any other Bond without the consent of the Holder of each Bond then Outstanding not receiving such preference or priority; or (iii) permit the creation of a lien not expressly permitted by the 1991 Master Resolution upon or pledge of Net Revenues ranking prior to or on a parity with the lien of the 1991 Master Resolution or reduce the aggregate Principal Amount of Bonds then Outstanding the consent of the Holders of which is required to authorize such Supplemental Resolution, without the consent of the Holders of all Bonds then Outstanding.

The 1991 Master Resolution and the rights and obligations of the Commission and of the Holders of the Bonds may also be modified or amended at any time by a Supplemental Resolution, without the consent or notice to of any Bondholders, for one or more of the following purposes:

- (a) to cure any ambiguity or formal defect or omission in the 1991 Master Resolution;
- (b) to correct or supplement any provision of the 1991 Master Resolution which may be inconsistent with any other provision of the 1991 Master Resolution or to make any other provisions with respect to matters or questions arising thereunder that will not have a material adverse effect on the interests of the Holders;
- (c) to grant or confer upon the Holders any additional rights, remedies, powers or authority that may lawfully be granted or conferred upon them;
- (d) to secure additional revenues or provide additional security or reserves for payment of any Bonds;
- (e) to preserve the excludability of interest on any Bonds from gross income for purposes of federal income taxes, or to change the tax covenants set forth in the 1991 Master Resolution, pursuant to an opinion of nationally recognized bond counsel that such action will not affect adversely such excludability;
- (f) to provide for the issuance of, and to set the terms and conditions of, each additional Series of Bonds, including covenants and provisions with respect thereto which do not violate the terms of the 1991 Master Resolution;
- (g) to add requirements the compliance with which is required by a Rating Agency in connection with issuing a rating with respect to any Series of Bonds;
- (h) to confirm, as further assurance, any interest of the Trustee in and to Net Revenues or in and to the funds and accounts held by the Trustee or in and to any other moneys, securities or funds of the Commission provided pursuant to the 1991 Master Resolution;
- (i) to comply with the requirements of the Trust Indenture Act of 1939, as amended, to the extent applicable;
- (j) to provide for uncertificated Bonds or for the issuance of coupon or bearer Bonds or Bonds registered only as to principal;
- (k) to accommodate the use of a Credit Facility for specific Bonds or a Series of Bonds;
- (l) to designate any other airports, airfields, landing places or places for the take-off and landing of aircraft, together with related facilities or property, which are hereafter owned, controlled or operated by the Commission or over which the Commission has possession, management, supervision or control as not a part of the Airport; and
- (m) to make any other change or addition to the 1991 Master Resolution which, in the opinion of nationally recognized bond counsel, will not have a material adverse effect on the interests of the Holders of the Bonds.

Certain Rights and Duties of the Trustee

The Trustee may resign at any time. Written notice of such resignation must be given to the Commission and such resignation will take effect upon the later of the date 90 days after receipt of such notice by the Commission and the date of the appointment, qualification and acceptance of a successor Trustee. In the event a successor Trustee has not been appointed and qualified within 60 days after the date notice of resignation is given, the Trustee or the

Commission may apply to any court of competent jurisdiction for the appointment of a successor Trustee to act until such time as a successor is appointed.

In addition, the Trustee may be removed at any time by the Commission so long as (i) no Event of Default has occurred and is continuing and (ii) the Commission determines that the removal of the Trustee will not have an adverse effect upon the rights or interests of the Holders of Bonds. Subject to clause (ii) of the preceding sentence, in the event the Trustee becomes Insolvent, the Commission may remove the Trustee by written notice effective immediately upon the appointment, qualification and acceptance of a successor Trustee.

In the event the Trustee resigns, is removed, is dissolved, becomes Insolvent or otherwise becomes incapable to act as the Trustee, the Commission is entitled to appoint a successor Trustee. In any event, no removal or resignation of the Trustee will be effective until a successor trustee has accepted appointment by the Commission.

Unless otherwise ordered by a court or regulatory body, or unless required by law, any successor Trustee will be a trust company or bank having the powers of a trust company as to trusts, qualified to do and doing trust business within the State of California and having an officially reported combined capital, surplus, undivided profits and reserves aggregating at least \$50,000,000; provided, such an institution is willing, qualified and able to accept the trust upon reasonable or customary terms.

The recitals, statements and representations contained in the 1991 Master Resolution or in any Bond are to be taken and construed as made by and on the part of the Commission and not by the Trustee, and the Trustee neither assumes nor has any responsibility for the correctness of the same other than the Trustee's certification of authentication of any Bonds as to which it is authenticating agent.

Except as otherwise provided in the 1991 Master Resolution, the Trustee is under no duty of inquiry with respect to any default which constitutes, or with notice or lapse of time or both would constitute, an Event of Default without actual knowledge of the Trustee or receipt by the Trustee of written notice of such default from the Commission or any Holder of Bonds.

Except as expressly required under the 1991 Master Resolution, the Trustee is not required to institute any suit or action or other proceeding in which it may be a defendant, nor is it required to take any steps to enforce its rights and expose it to liability, unless and until it has been indemnified, to its satisfaction, against any and all reasonable costs and against all liability and damages. The Trustee nevertheless, may begin suit, or appear in and defend suit, or do anything else which in its judgment is proper to be done by it as the Trustee, without prior assurance of indemnity, and in such case the Commission is required to reimburse the Trustee for all reasonable costs and for all liability and damages suffered by the Trustee in connection therewith, except for the Trustee's own negligent action, its own negligent failure to act, its own willful misconduct or self-dealing constituting a breach of trust under applicable law.

In the absence of bad faith on the part of the Trustee, the Trustee may conclusively rely upon and will be protected in acting or refraining from acting in reliance upon any document reasonably believed by it to be genuine and to have been signed or presented by the proper officials of the Commission, the Treasurer, the City, an Airport Consultant, a Financial Consultant, an Independent Auditor or the Holders of Bonds or agents or attorneys of such Holders; provided, in the case of any such document specifically required to be furnished to the Trustee under the 1991 Master Resolution, the Trustee shall be under a duty to examine the same to determine whether it conforms to the requirements of the 1991 Master Resolution. The Trustee is not bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, facsimile transmission, bond or other paper or document submitted to the Trustee.

Certain Rights of Bond Insurers

With respect to Bonds or the portion thereof the payment of which has been insured under a Bond Insurance Policy (the "Insured Bonds"), and so long as (i) such Bond Insurance Policy is in effect, (ii) the Bond Insurer has not asserted that its Bond Insurance Policy is not in effect, (iii) the Bond Insurer is not in default thereunder, (iv) the Bond

Insurer is not Insolvent, and (v) the Bond Insurer has not waived any rights granted to it, the Bond Insurer will have the following rights:

(a) Any amendment to the 1991 Master Resolution requiring the consent of Owners of Bonds which are Insured Bonds also requires the prior written consent of the Bond Insurer with respect to such Insured Bonds;

(b) any amendment not requiring the consent of Owners of the Insured Bonds will require the prior written consent of the Bond Insurer with respect to such Insured Bonds if its rights would be materially and adversely affected by such amendment;

(c) the prior written consent of the Bond Insurer with respect to the Insured Bonds will be a condition precedent to the deposit by the Commission of any Credit Facility in lieu of a cash deposit into the Issue 1 Reserve Account or the Series Reserve Account relating to such Insured Bonds (which consent may not be unreasonably withheld);

(d) for purposes of Article VII of the 1991 Master Resolution (regarding defaults and remedies), if an Event of Default shall have occurred and be continuing, the Bond Insurer with respect to the Insured Bonds will be deemed to be the Owner of such Insured Bonds in connection with any consent or direction, appointment, request or waiver to be provided thereunder;

(e) each Bond Insurer with respect to the Insured Bonds shall have the right to institute any suit, action or proceeding at law or in equity under the same terms as an Owner of such Insured Bonds in accordance with the 1991 Master Resolution;

(f) each Bond Insurer will, to the extent it makes any payment of principal or Purchase Price of or interest on the Insured Bonds it insures, become subrogated to the rights of the recipients of such payments in accordance with the terms of its Bond Insurance Policy;

(g) principal, interest and/or Purchase Price paid by a Bond Insurer under its Bond Insurance Policy will not be deemed paid for purposes of the 1991 Master Resolution, and the Insured Bonds with respect to which such payments were made will remain Outstanding and continue to be due and owing until paid by the Commission in accordance with the 1991 Master Resolution;

(h) in the event of any defeasance of the Insured Bonds, the Commission is to provide the applicable Bond Insurer with copies of all documents required by Article X of the 1991 Master Resolution to be delivered to the Trustee which documents, including any escrow or trust agreement used in connection with such defeasance, are to be acceptable in form and substance to the Bond Insurer;

(i) the Commission may not discharge the 1991 Master Resolution unless all amounts due or to become due to each Bond Insurer have been paid in full or duly provided for; and

(j) in determining whether any amendment, consent, waiver or other action to be taken, or any failure to take action under the 1991 Master Resolution would adversely affect the security for the Bonds or the rights of the Bondholders, the Trustee is to consider the effect of any such amendment, consent, waiver, action or inaction as if there were no Bond Insurance Policy.

In addition, the Commission is required to send or cause to be sent to each Bond Insurer copies of notices required to be sent to Owners or the Trustee pursuant to the 1991 Master Resolution, and the Commission, the Trustee and each Paying Agent, as appropriate, are to observe and perform any payment procedures under the Bond Insurance Policy required by each Bond Insurer.

SUMMARY OF CERTAIN SUPPLEMENTAL RESOLUTIONS

The following is a summary of certain provisions contained in the Supplemental Resolutions, as the same may have been subsequently amended or supplemented, and is not to be considered as a full statement thereof. Reference is made to each of these Supplemental Resolutions and to the 1991 Master Resolution for full details of the terms of the Bonds, the application of revenues therefor, and the security provisions pertaining thereto. See also "DESCRIPTION OF THE SERIES 2024A-C BONDS" in the front portion of this Official Statement for a summary of the provisions related to the Series 2024A-C Bonds.

Funds and Accounts

The Resolution establishes the following funds and accounts:

Within the Costs of Issuance Fund:

- Series 2024A Costs of Issuance Account
- Series 2024B Costs of Issuance Account
- Series 2024C Costs of Issuance Account

Within the Construction Fund:

- Series 2024A Construction Account
- Series 2024B Construction Account

Within the Debt Service Fund:

- Series 2024A Capitalized Interest Account
- Series 2024B Capitalized Interest Account
- Series 2024A Interest Account
- Series 2024B Interest Account
- Series 2024C Interest Account
- Series 2024A Principal Account
- Series 2024B Principal Account
- Series 2024C Principal Account
- Series 2024A Redemption Account
- Series 2024B Redemption Account
- Series 2024C Redemption Account

Within the Rebate Fund:

- Series 2024A/B Rebate Account

The 1991 Master Resolution established the Issue 1 Reserve Account as security for the Issue 1 Bonds and any other Participating Series of Bonds designated by Supplemental Resolution or by the Director as being secured by the Issue 1 Reserve Account. The Series 2024A Bonds, the Series 2024B Bonds and the Series 2024C Bonds have each been designated as a Participating Series of Bonds with respect to the Issue 1 Reserve Account.

Application of Series 2024A-C Bonds Costs of Issuance Accounts

The 1991 Master Resolution requires the Trustee to apply moneys in the Series 2024A Costs of Issuance Account, the Series 2024B Costs of Issuance Account and the Series 2024C Costs of Issuance Account to the payment of costs of issuance of the Series 2024A-C Bonds. Amounts in the Series 2024A-C Costs of Issuance Accounts may be invested in any Permitted Investment.

Application of Series 2024A and Series 2024B Construction Accounts

The 1991 Master Resolution requires the Trustee to disperse moneys in the Series 2024A Construction Account and the Series 2024B Construction Account to the payment of Capital Improvement Plan Projects.

Application of Series 2024A-C Debt Service Accounts

The Series 2024A Interest Account, the Series 2024A Principal Account and the Series 2024A Redemption Account are sometimes referred to herein as the “Series 2024A Debt Service Accounts.” The Series 2024B Interest Account, the Series 2024B Principal Account and the Series 2024B Redemption Account are sometimes referred to herein as the “Series 2024B Debt Service Accounts.” The Series 2024C Interest Account, the Series 2024C Principal Account and the Series 2024C Redemption Account are sometimes referred to herein as the “Series 2024C Debt Service Accounts.” The Supplemental Resolutions require the Trustee to apply moneys in the Series 2024A Interest Account (including moneys transferred thereto from the Series 2024A Capitalized Interest Account), the Series 2024B Interest Account and the Series 2024C Interest Account (including moneys transferred thereto from the Series 2024C Capitalized Interest Account) to the payment of interest on the related Series 2024A-C Bonds when due, including accrued interest on any of the related Series 2024A-C Bonds purchased or redeemed prior to maturity. The Supplemental Resolutions require the Trustee to apply moneys in the Series 2024A Principal Account, the Series 2024B Principal Account and the Series 2024C Principal Account to the payment of the Principal Amount of the related Series 2024A-C Bonds when due.

The Commission may, from time to time, purchase any Series 2024A-C Bonds out of available moneys of the Commission at such prices as the Commission may determine plus accrued interest thereon. All Series 2024A-C Bonds purchased under the provisions of the 1991 Master Resolution will be delivered to, and cancelled and destroyed by, the Trustee and shall not be reissued.

The Trustee is required to apply moneys in the Series 2024A Redemption Account, the Series 2024B Redemption Account and the Series 2024C Redemption Account to the payment of the redemption price of applicable Series of Bonds called for redemption. Accrued interest on the Series 2024A Bonds, the Series 2024B Bonds and the Series 2024C Bonds, redeemed pursuant to the 1991 Master Resolution will be paid from the Series 2024A Interest Account, the Series 2024B Interest Account or the Series 2024C Interest Account, as applicable.

In the event that the amount on deposit in any Series 2024A Debt Service Account is insufficient to pay the interest or Principal Amount or redemption price coming due on the Series 2024A Bonds, the 1991 Master Resolution requires the Trustee to transfer the amount of such deficiency from the Issue 1 Reserve Account to the Series 2024A Interest Account, the Series 2024A Principal Account or the Series 2024A Redemption Account, as the case may be, not later than five days prior to the date on which such payment is required.

In the event that the amount on deposit in any Series 2024B Debt Service Account is insufficient to pay the interest or Principal Amount or redemption price coming due on the Series 2024B Bonds, the 1991 Master Resolution requires the Trustee to transfer the amount of such deficiency from the Issue 1 Reserve Account to the Series 2024B Interest Account, the Series 2024B Principal Account or the Series 2024B Redemption Account, as the case may be, not later than five days prior to the date on which such payment is required.

In the event that the amount on deposit in any Series 2024C Debt Service Account is insufficient to pay the interest or Principal Amount or redemption price coming due on the Series 2024C Bonds, the 1991 Master Resolution requires the Trustee to transfer the amount of such deficiency from the Issue 1 Reserve Account to the Series 2024C Interest Account, the Series 2024C Principal Account or the Series 2024C Redemption Account, as the case may be, not later than five days prior to the date on which such payment is required.

Rebate; Series 2024A/B Rebate Account

The Commission will pay or cause to be paid to the United States Government the amounts required by Section 148(f) of the Code and any Regulations promulgated thereunder at the times required thereby. The 1991 Master Resolution requires the Trustee to hold any payments received from the Commission for deposit into the Series 2024A/B Rebate Account for purposes of paying rebate to the United States. Pending payment to the United States, moneys held in the Series 2024A/B Rebate Account are pledged to secure such payments to the United States as provided in the 1991 Master Resolution and in the Tax Certificate for the Series 2024A Bonds and the Series 2024B Bonds (the “Series 2024A/B Tax Certificate”), and neither the Commission, the Bondholders nor any other person shall have any rights in or claim to such moneys. The 1991 Master Resolution requires the Trustee to invest

all amounts held in the Series 2024A/B Rebate Account in Nonpurpose Investments (as defined in the Series 2024A/B Tax Certificate), as directed by the Commission in the Series 2024A/B Tax Certificate.

Permitted Investments

Amounts in the Series Debt Service Accounts for the Series 2024A-C Bonds shall be invested in Permitted Investments or any other obligations or investments in which the Treasurer is permitted to invest Commission funds maturing on or before the related Payment Date on which the proceeds of such Permitted Investments are intended to be applied for the purposes of the related Series Debt Service Account for the Series 2024A-C Bonds. Amounts in the Issue 1 Reserve Account shall be invested in Permitted Investments described in clauses (a) or (b) of the definition of Permitted Investments maturing no later than seven years after the date of purchase of said Permitted Investment. Amounts in the 2017 Reserve Account shall be invested by the Trustee in accordance with instructions provided by the Commission (or such third parties appointed by the Commission) or, in the absence of instructions from the Commission (or such third parties appointed by the Commission), pursuant to the Commission's standing instructions, in Permitted Investments or any other obligations or investments in which the Treasurer is permitted to invest Commission funds.

Deposits of Net Revenues in Series Debt Service Accounts

In accordance with the 1991 Master Resolution, the Treasurer is required, on the second Business Day of each month, to allocate and transfer to the Trustee for deposit in the Series Debt Service Accounts for Series 2024A-C Bonds amounts from Net Revenues, as follows:

- (a) In each Series Interest Account associated with the related Series 2024A-C Bonds, in approximately equal monthly installments, an amount equal to at least one-sixth ($1/6$) of the aggregate amount of interest becoming due and payable on the Series 2024A-C Bonds on the next succeeding semiannual interest payment date; provided, however, that no moneys need be deposited in the Series Interest Account except to the extent that such moneys are required for the payment of interest to become due on the Series 2024A-C Bonds on the next succeeding semiannual interest payment date, after the application of the moneys then on deposit in the applicable Series Interest Account; and provided, further, that subject to the preceding proviso, during the period preceding the first interest payment date on the Series 2024A-C Bonds, the amount of each monthly installment shall be equal to the product of a fraction the numerator of which is one and the denominator of which is the number of whole calendar months from the Closing Date to the first interest payment date on the Series 2024A-C Bonds minus one, and the aggregate amount of interest becoming due and payable on the Series 2024A-C Bonds on said interest payment date.
- (b) In each Series Principal Account in approximately equal monthly installments, commencing on the second Business Day of the month determined pursuant to a Series Sale Resolution or Bond Purchase Contract, an amount equal to at least one twelfth ($1/12$) of the aggregate Principal Amount becoming due and payable on any Outstanding serial Bonds of the Series 2024A-C Bonds on the next succeeding Principal Payment Date (such fractional amount to be adjusted for any interest accrual period of fewer than twelve (12) months, as in the case of the Series 2024C Bonds), until there shall have been accumulated in the applicable Series Principal Account an amount sufficient to pay the Principal Amount of all serial Series 2024A-C Bonds maturing by their terms on the next Principal Payment Date.

APPENDIX E

SUMMARY OF CERTAIN PROVISIONS OF THE LEASE AND USE AGREEMENTS

The City and County of San Francisco (the “City”), acting by and through its Airport Commission (the “Commission”), has entered into a form of Lease and Use Agreement (the “Lease and Use Agreement”) with a majority of the airlines (“Signatory Airlines”) operating at the Airport. The following summary of the Lease and Use Agreements does not purport to be complete and reference is hereby made to the complete text of the documents, copies of which are on file and are available for examination at the offices of the Commission.

Term of Lease

The Lease and Use Agreements took effect on and after July 1, 2023 and expire on June 30, 2033.

Signatory Airlines, Non-Signatory Airlines and Affiliates

Any air carrier that is certified by the Secretary of Transportation, is engaged in the business of scheduled or non-scheduled commercial transportation by air of persons, property, mail, parcels and/or cargo, and signs a Lease and Use Agreement, is considered a “Signatory Airline.”

Any air carrier that does not qualify as a Signatory Airline, may operate at the Airport under a month-to-month operating permit or as an itinerant airline. Airlines that are not Signatory Airlines or an Affiliate Airline of a Signatory Airline will pay a 25% premium on landing fees.

An “Affiliate Airline” is a non-Signatory Airline that is operating at the Airport under a month-to-month operating permit and either (i) is a wholly owned subsidiary of a Signatory Airline, (ii) is a subsidiary of the same corporate parent of the Signatory Airline, (iii) shares flight codes with a Signatory Airline at the Airport, or (iv) operates cargo feeder flights at the Airport under the direction and control of a Signatory Airline. If the non-Signatory Airline is able to sell its own seats for flights at the Airport, however, it will not be classified as an Affiliate Airline of any Signatory Airline even if it may satisfy one of the criteria described above. Each Lease and Use Agreement constitutes an agreement by a Signatory Airline to guarantee the performance of all reporting and payment obligations of its Affiliate Airline(s) to the Commission. An Affiliate Airline has no Majority-in-Interest voting rights, but is included with its Signatory Airline’s revenue aircraft arrivals for purposes of determining a Majority-in-Interest.

Lease of Premises

The Commission leases terminal space under the Lease and Use Agreements on an exclusive use basis, a preferential use basis, a joint use basis, and a common use basis, each with the following characteristics:

Exclusive use space, which includes back offices, clubs and lounges, check-in counters, and baggage handling space in domestic terminals, is leased to one Signatory Airline and is charged on a per-square-foot basis. Gates cannot be leased exclusively to one airline.

Preferential use space, which includes only domestic gates and holdrooms, is assigned annually to one Signatory Airline based on a formula taking into account the Signatory Airline’s share of traffic at the Airport. See “–Preferential Use Gate Allocation Methodology” below. Rent for preferential use space is charged on a per-square-foot basis, with the rent for holdrooms being calculated based on the average size of all holdrooms in the applicable boarding area. The Signatory Airline to which a gate has been assigned has a preferential right to use the gate during its scheduled operations, but the Airport retains the right to let other airlines use the gate when not in scheduled, active use by the assigned Signatory Airline. See “Airport Scheduling Rights at Preferential Use Gates” below.

Joint use space and facilities applies primarily to gates, holdrooms, check-in counters and baggage facilities in the ITC and at swing gates in other terminals, although joint use baggage systems are also located in Terminals 1 and 2. Joint use space and facilities are made available on a common use basis to Signatory Airlines and non-Signatory Airlines for their collective use in accordance with resource management protocols approved by the Airport. Joint use

charges are based on a formula, in accordance with which 80% of the charges are allocated pro rata to the Signatory Airlines in the group based on their passenger levels, and 20% of the charges are shared equally by the Signatory Airlines in the group. Non-Signatory Airlines using joint use facilities are subject to the common use turn fee. Swing gate holdrooms are subject to a joint use adjustment formula, which may reduce the amount of space assigned to the international joint use holdrooms based on anticipated international activity levels. Any space removed from the joint use holdroom calculation is considered public space and recovered from all terminal rentals on a residual basis.

Common use space and facilities include certain gates in the domestic terminals, as well as certain check-in counters and baggage handling facilities in the domestic terminals. The Airport Director is permitted under the Lease and Use Agreements annually to designate up to 10% of the domestic contact gates for common use by any airline. All remote gates are designated as common use, and all swing gates are allocated on a common use basis although they are charged to airlines based on a joint use formula. Common use facilities are not leased to any airline, but are used as needed by airlines which pay per-use fees. Common use fees are calculated annually based on the cost of the applicable facilities divided by an average number of “turns” (i.e., periods of use).

As defined in the Lease and Use Agreement, a “gate” includes the passenger holdroom, together with any or all of the following equipment, if present: a passenger loading bridge, a ground power unit, a pre-conditioned air unit, and related equipment. The related ramp (apron) is not included in the gate, but is retained by the Commission and used by the air carrier using the related gate.

Leased premises as used in this Appendix includes space used on an exclusive use, preferential use and joint use basis.

Designation of Common Use Gates and Facilities

Common Use Gates

The Lease and Use Agreements provide that, no later than November 1 of each year, the Commission is to present to the Resource Management Advisory Committee (“RMAC”) (a committee composed of three representatives of the Commission and three representatives of the Signatory Airlines) for review and discussion a preliminary plan indicating the number of Allocable Gates (domestic contact gates which are to be available for the entire Allocation Year) proposed to be reserved for use as common use gates in the following Allocation Year. Although the Director has sole discretion, after taking into consideration any recommendations by the RMAC, to determine the total number of Allocable Gates to be reserved as common use gates effective March 1, 2025 and July 1 of each Allocation Year thereafter, such number may not exceed 10% of the total number of domestic contact gates as rounded to the nearest whole gate. Allocable Gates remaining available after such determination shall be offered by the Commission to Signatory Airlines for use as preferential use gates to be allocated in accordance with the procedure described below. The Commission is to notify in writing all Signatory Airlines of its determination with respect to common use gates no later than December 10 of each Fiscal Year. “Allocation Year” means March 1 during each year of the term of the Lease and Use Agreements through the last day in February of the following year.

Common Use Check-In Counters and Support Facilities

Certain check-in counters and support facilities were designated as common use facilities as of the effective date of the Lease and Use Agreement. Thereafter, if in the Director’s reasonable discretion an adjustment to the location or number of common use check-in counters and common use support facilities would be desirable, the Director may designate additional check-in counters and support facilities for common use. The Director may also change check-in counters and support facilities from common use to joint use or exclusive use for lease to Signatory Airlines. The Commission retains exclusive control of the use of all common use gates, common use check-in counters and common use support facilities, provided that common use facilities are to be managed and scheduled in accordance with the applicable resource management protocols.

Preferential Use Gate Allocation Methodology

After determination by the Airport Director of the total number of common use gates as described above, the Commission is to apply the following methodology to determine the total number of preferential use gates that are to be offered to each Signatory Airline during each Allocation Year (with “Allocation Year” for purposes of this summary meaning March 1 of each year during the term of the Lease and Use Agreement through the last day in February of the following year), effective March 1, 2025 and March 1 of each Allocation Year thereafter:

(a) The Commission will first determine the pool of Eligible Signatory Airlines which are eligible for allocation of a preferential use gate. As used in this summary, an “Eligible Signatory Airline” means an air carrier that is a signatory airline which has averaged at least eight departing flights per day during the Allocation Review Period. An “Allocation Review Period” means the nine-month review period occurring during the twelve months prior to September 30th immediately preceding any allocation of preferential use gates, but excluding the months of December, January and February during such period.

The Commission will then divide the number of Scheduled Seats for each Signatory Airline, including its Affiliate Airline(s), by the total number of Scheduled Seats for all Eligible Signatory Airlines to determine the Airline’s percentage share of all Scheduled Seats (“Scheduled Seats Percentage”). “Scheduled Seats” means the total number of departing seats on the scheduled operations of a Signatory Airline (including its Affiliate Airlines) to destinations in the United States or Canada and on international flights allowed by the Commission to operate from a domestic terminal during the Allocation Review Period.

(b) The Commission will calculate the number of preferential use gates to be offered to a Signatory Airline by multiplying the Signatory Airline’s Scheduled Seats Percentage by the total number of Allocable Gates, rounding the product to the nearest whole number; provided that a product less than X.5 (with X being a whole number) will not be eligible for rounding during this step. Based on this rounding, the Commission shall determine the preliminary number of preferential use gates to be offered to all Eligible Signatory Airlines (the “Rounded Preferential Use Gate Number”).

(c) If the Rounded Preferential Use Gate Number is less than the Allocable Preferential Use Gate Number (the number of gates available for preferential use allocation), the Commission will allocate such remaining preferential use gates to Eligible Signatory Airlines based on the unrounded results of the computations described in paragraph (b) (the “Unrounded Preferential Use Gate Number”). The remaining preferential use gates will be allocated in priority order by first increasing by one the number of preferential use gates to be offered to the Eligible Signatory Airline whose unrounded product is nearest to X.5 (with X being a whole number) without equaling or exceeding X.5 and next proceeding to increase by one the number of preferential use gates to be offered to the Eligible Signatory Airline whose unrounded product is second nearest to X.5 without equaling or exceeding X.5 and so on until the total number of preferential use gates to be made available to all Eligible Signatory Airlines by the Commission is reached.

(d) If the Rounded Preferential Use Gate Number exceeds the Allocable Preferential Use Gate Number, the Commission will reduce the number of calculated preferential use gates to be offered to Eligible Signatory Airlines based on the Unrounded Preferential Use Gate Number. The number of over-allocated preferential use gates will be reduced in priority order by first reducing by one the number of allocated preferential use gates to the Eligible Signatory Airline whose Unrounded Preferential Use Gate Number is nearest to X.5 without being less than X.5 and next proceeding to reduce by one the number of preferential use gates to be offered to the Eligible Signatory Airline whose Unrounded Preferential Use Gate Number is second nearest X.5 without being less than X.5 and so on until the total number of preferential use gates to be made available to all Eligible Signatory Airlines by the Commission is reached.

(e) Commencing no later than December 10, 2024, and then annually on December 10 of each Allocation Year thereafter during the Term, the Commission will provide written notice to all Eligible Signatory Airlines, offering to Eligible Signatory Airlines its annual allocation of preferential use gates as described. Each Eligible Signatory Airline will provide written notice to the Commission no later than January 15 following such notice either accepting or rejecting any or all of the gates offered to it by the Commission for preferential use. In the event that an Eligible Signatory Airline fails to respond by January 15, then the Commission will provide one additional written notice of its annual allocation of preferential use gates and in the event that the Eligible Signatory

Airline fails to reply to such additional notice within three days of such Airline's deemed receipt of such notice, the Airline will be deemed to have rejected its allocation of preferential use gates.

(f) If any Signatory Airline does not accept the allocation of a preferential use gate, the Commission may elect to reallocate such gate to another Signatory Airline if the Commission determines the number of common use gates is adequate to accommodate all airline operations needing to use gates at the Airport. Notwithstanding the foregoing, any Gate rejected for allocation as a preferential use gate by any Eligible Signatory Airline during the reallocation process or at any other time during the Allocation Year (if consented to by the Commission) may be deactivated or used during such Allocation Year as the Commission sees fit, including, without limitation, as a common use gate, notwithstanding the Common Use Gate Cap, which is no more than 10% of the total number of allocable gates as rounded to the nearest whole gate. Only gates leased to an Eligible Signatory Airline as a preferential use gate in such Allocation Year and included as part of its leased premises for such Allocation Year are included in the determination of Airline Leased Space for the Allocation Year.

(g) By February 1, 2025 and then annually on February 1 of each Allocation Year thereafter during the Term, City shall provide all Eligible Signatory Airlines, if applicable, that validly accepted their allocation of Preferential Use Gates, final notice of the assignments of preferential use gates and the locations of common use gates, to be first effective March 1, 2025 and then annually on March 1 of each Allocation Year thereafter during the Term.

(h) The Commission will, in its sole discretion, determine the locations of any preferential use gates to be offered to each Eligible Signatory Airline, after taking into consideration: (i) the passenger experience; (ii) the compatibility of such Eligible Signatory Airline's aircraft with the gate being assigned; (iii) the desirability of assigning contiguous gates for preferential use by any given Eligible Signatory Airline; (iv) minimizing the frequency of changes in the locations of preferential use gates, and (v) any recommendations by the RMAC.

Airport Scheduling Rights at Preferential Use Gates

A Signatory Airline will have scheduling preference during a period of use at its preferential use gates only for an operation (arrival or departure) that occurs in accordance with a published schedule. The Commission will have the right, upon reasonable notice to a Signatory Airline, to schedule arrivals and departures by a requesting airline at a preferential use gate at all periods of time other than the Signatory Airline's periods of use of that assigned preferential use gate. In accommodating the Commission in its right to schedule such operations at a preferential use gate, the Signatory Airline will allow for use of its facilities or equipment (not including ground service equipment) at the preferential use gate or permit use of the Commission's equipment and podiums as may be required for the efficient use of the preferential use gate by a requesting airline.

Airport's Rights to Accommodate Other Airlines and Recapture Space

Accommodation of Other Air Carriers in a Signatory Airline's Exclusive Use Space

To facilitate the entry of new airlines and to maximize the utilization of facilities at the Airport, the Commission will first attempt to accommodate airlines needing space with common use facilities, joint use space, or uncommitted space available in the applicable terminal. If such facilities cannot adequately accommodate the requesting airline's needs, the Commission will have the right to require accommodation of a requesting airline in a Signatory Airline's exclusive use space as follows: Signatory Airlines agree, upon request by the Commission, to make all reasonable efforts to facilitate the temporary accommodation of an airline's operations, including use of space for a ticket counter area, use of a Signatory Airline's baggage facilities and the rendering of customary ground services, if (i) the Signatory Airline has adequate capabilities, capacity, facilities and personnel for its own needs and the needs of the requesting airline, and (ii) the two airlines enter into an agreement and satisfy certain documentary requirements, such as fees, indemnification and insurance.

Recapture of Exclusive Use Space Following Reduction in Number of Preferential Use Gates

If the number of preferential use gates assigned to a Signatory Airline is reduced, the Commission may at any time thereafter and from time to time, after taking into account any recommendations of the RMAC, at the

Commission's sole discretion and upon 60 days written notice to the Signatory Airline, terminate the Signatory Airline's rights to use all or a portion of its exclusive use space, including check-in counters and support facilities, that is reasonably required to support the operations of other airlines using the preferential use gates no longer assigned to the Signatory Airline. The Commission will not terminate rights to exclusive use space that, in the Director's reasonable discretion, is required to support the Signatory Airline's continued operations at its remaining preferential use gate(s), if any.

Recapture of Exclusive Use Space Following Rejection of Preferential Use Gates

Whenever a Signatory Airline declines to accept a preferential use gate following the annual allocation of gates described above, the Commission may at any time thereafter and from time to time, after taking into account any recommendations of the RMAC, at the Commission's sole discretion and upon 60 days' notice, reclaim all or a portion of the Signatory Airline's exclusive use space associated with the rejected preferential use gate, including, but not limited to, check-in counters and support facilities, as follows:

(a) If there is another Signatory Airline that is willing to lease the reclaimed space, the two Signatory Airlines will attempt to negotiate an agreement as to any changes to the condition or layout of the space, any required sharing of support facilities, any associated costs, and any other provisions required to permit the other Signatory Airline to use the reclaimed space for its intended purpose.

(b) If the two Signatory Airlines cannot reach agreement, the Commission will join the negotiations and attempt to mediate an agreement.

(c) If the Commission is unable to mediate an agreement, the Airport Director will formulate a reasonable solution and notify both Signatory Airlines.

(d) If there is no other Signatory Airline willing to lease the reclaimed space, the space will revert to the possession and control of the Commission.

Relocation of Signatory Airline Operations

(a) Involuntary Airline Relocation. Under the Lease and Use Agreements, the Commission has the right upon 60 days' notice, to require a Signatory Airline to relocate its operations at the Airport in order to improve Airport facilities, accommodate the traveling public, maximize the use of the terminals and related facilities by all users thereof, or accommodate the voluntary airline relocation of another Signatory Airline to which the Commission has consented to, or the involuntary airline relocation of another Signatory Airline (each an "Involuntary Airline Relocation").

All reasonable moving costs resulting from an Involuntary Airline Relocation of a Signatory Airline, including reasonable costs of relocating a Signatory Airline's furniture, movable fixtures, equipment, and signage, as well as reasonable costs of a Signatory Airline's third party construction costs relating to tenant improvements in the relocated premises that are of substantially similar level of fit and finish as to the leased premises being vacated when finally constructed and completed (subject to the consent of the Director), shall be funded by the Commission. However, if the removal and reinstallation of the Signatory Airline's trade fixtures and other movable property is possible and not unreasonable, the Signatory Airline will not be entitled to a replacement of such fixtures or property. Nor will a Signatory Airline be entitled to receive reimbursement for the value of any unamortized improvements. In addition, a Signatory Airline will not be entitled to reimbursement for relocation of or within joint use space, or preferential use space resulting from the annual reallocation, acceptance or rejection of gates.

(b) Voluntary Airline Relocation. Under the Lease and Use Agreements, Signatory Airlines can request that all or part of its leased premises and operations be relocated to other areas of the Airport (a "Voluntary Airline Relocation").

Any and all costs relating to a Voluntary Airline Relocation, as well as all other relocations, temporary moves and other direct impacts to other Signatory Airlines, tenants, permittees, or other Airport users otherwise made

necessary as a result of the Voluntary Airline Relocation, shall be the sole responsibility of the Signatory Airline responsible for the initial Voluntary Airline Relocation.

Rates and Charges

Airport Cost Centers and Space Categories

The Lease and Use Agreements set forth the following five direct cost centers based on functional areas of the Airport to be used in accounting for revenues, expenses and debt service: Airfield Area Center, Terminal Area Center, GT and Parking Area Center, Other Leased Areas Center and West of Bayshore Area Center. Total expenses of these five direct cost centers include the re-allocation of the net expenses and non-airline revenues of the following three indirect cost centers: AirTrain Area Center, Access and Roadways Area Center and Administration Area Center. Direct and indirect expenses are recorded and allocated to the appropriate cost centers. Different Terminal Area spaces, such as check-in counters and kiosks, airline ticket offices, VIP clubs and lounges, baggage claim lobbies and service offices, curbside check-in areas, and equipment rooms are classified into one of five space categories, each with a different rental rate.

The “Access and Roadways Area Center” is the cost center that includes all roadways and parkways, walks, bridges and culverts.

“Administration Area Center” is the cost center that includes the Revenues and specified expenses that are not directly chargeable to other cost centers, including, but not limited to costs associated with the overall administration of the Airport.

The “Airfield Area Center” is the cost center that includes all runways, taxiways, ramps, aprons, landing areas, adjacent infield areas, and related support facilities (e.g., perimeter dike, drainage pumping stations, field lighting, navigational aids, ARFF support facilities, fire and rescue watercraft, boathouses and related support facilities, and cart roads).

The “AirTrain Area Center” means the cost center that includes all areas of the AirTrain system including pedestrian bridges to terminals and other facilities.

The “GT and Parking Area Center” is the cost center that includes all public parking lots, garages, service stations, shuttle bus service (non-airline), and rental car facilities.

The “Other Leased Areas Center” is the cost center that includes all areas and facilities which support airline functions (e.g., hangars, aircraft maintenance facilities, cargo facilities, fuel farms, flight kitchens), Airport support, and City/State/federal installations, fixed base operators, airline offices outside the Terminal Area, airline employee parking, Airport-maintained employee parking, Airport support facilities with related parking, sewage/waste treatment plants, detention ponds, Coast Guard, FAA, FBI, and other related facilities, hotels, and all leased and unleased land not included in another Cost Center.

The “Terminal Area Cost Center” means the cost center that includes all areas within the terminals, including concourses, boarding areas, pedestrian bridges, tunnel lobbies to garages, mechanical/utility areas, lobbies, offices, Commission facilities, baggage facilities and storage areas.

The “West of Bayshore Area Center” is the cost center that includes means all of the property located west of U.S. Highway 101 currently under the jurisdiction of the Commission.

Rentals and Landing Fees and their Adjustment

The Lease and Use Agreements provide for the residual rate setting methodology at the Airport, in order to match revenues each year to the Commission’s expenditures by adjusting aviation revenues. Differences between actual receipts and expenditures result in adjustment of Terminal Area rentals and landing fees in subsequent years. The Commission’s financial statements reflect such adjustments in the year in which the difference occurs.

The Lease and Use Agreements provide a methodology for computing the landing fee rate and Terminal Area rental rates to ensure that revenues equal expenditures. Airlines that are not Signatory Airlines will pay a 25% premium on landing fees. Affiliate Airlines of Signatory Airlines will pay the same landing fees that are paid by the Signatory Airlines.

Landing fees and Terminal Area rental rates are adjusted annually. Not fewer than 90 days before the end of each fiscal year, each Signatory Airline is required to submit to the Commission the landed weight forecast for itself and its Affiliate Airlines, and notice of any proposed additions to the space in the Terminal Area it leases, for the next fiscal year. Concurrently, the Commission submits to the airlines its budgetary forecast for the various cost centers for the next fiscal year, together with the portion of the Annual ORCIF Deposit allocable to each cost center. (See "The ORCIF" below for a description of the ORCIF.) The Commission then computes and forwards to the Signatory Airlines not fewer than 60 days before the end of the Fiscal Year its computations made in accordance with the requirements of the Lease and Use Agreements of the landing fee rate and the Terminal Area rental rates for the next fiscal year. The Signatory Airlines and the Commission may meet to discuss the proposed rates and charges, and the Commission will give due regard to any comments offered by the Signatory Airlines on the proposed calculations. Within 30 days after the meeting, or the forwarding of the rentals and fees to the Signatory Airlines if no meeting is held, the rentals and fees, as calculated by the Commission in accordance with Lease and Use Agreements and the 1991 Master Resolution, will become effective.

If at any time during the Fiscal Year, the actual expenses (including debt service) of the Terminal Area Center and GT and Parking Center are projected by the Commission to exceed by ten percent or more the actual revenues in the Terminal Area Center and GT and Parking Area Center, the Commission may, after using commercially reasonable efforts to reduce expenses, and upon 60 days' notice to, and in consultation with, the Signatory Airlines, increase the Terminal Area rentals. The Lease and Use Agreements require the Signatory Airlines to pay such increased rentals or such lesser amount which equals the projected deficiency for the remaining months of the then-current fiscal year. Landing fees may similarly be increased in the event the actual expenses (including debt service) of the Airfield Area Center and Other Leased Areas Center are projected to exceed by ten percent or more the actual revenues in such areas.

Airline Review of Capital Improvements

Under the Lease and Use Agreements, the Commission is limited in any Fiscal Year to appropriating from current revenues up to \$5,218,606 in Fiscal Year 2021-22 dollars, as adjusted, to finance capital improvements. A Majority-in-Interest of the Signatory Airlines may approve the use of additional current revenues to fund capital improvements. The Commission must otherwise use commercially reasonable efforts to finance capital improvements in excess of such amount through the use of grants, funding from the Transportation Security Administration, and passenger facility charges, and through the issuance of Airport revenue bonds. A "capital improvement" is a single Airport addition or improvement, including equipment, which is purchased, leased or constructed at a cost of \$778,140 in Fiscal Year 2021-22 dollars or more, and a useful life of more than three years. The dollars amounts are to be adjusted annually by the Implicit Price Deflator Index for Gross Domestic Product published by the U.S. Department of Commerce, Bureau of Economic Analysis.

Proposed capital improvements with a cost in excess of \$778,140 in Fiscal Year 2021-22 dollars that would result in a charge to Signatory Airlines in the terminal area rentals or landing fees are subject to certain review procedures established under the Lease and Use Agreements. A Majority-in-Interest of the Signatory Airlines (defined as more than 50% in number of the Signatory Airlines who, on the date in question, also account for more than 50% of the aggregate revenue aircraft landed weight landed by the Signatory Airlines at the Airport during the immediately preceding fiscal year) may require the Commission to defer a proposed capital improvement for up to six months to give the airlines time to present their views regarding the capital improvement. Certain capital improvements are not subject to this process. Such capital improvements include those that are:

- (i) required by a federal or State agency having jurisdiction over Airport operations (including, without limitation, the FAA), or necessary to comply with any current or future law, rule, regulations, order of judgment of any Federal, state or local agency (excluding the Commission) or court, or any Federal grant agreement or airport certification requirement, including any required modification or replacement of any air traffic control facilities;

- (ii) to improve the safe operations of the Airport;
- (iii) to protect essential infrastructure from storm events or relocate such infrastructure;
- (iv) an Airfield Area project eligible for Federal funding for which City has received the full level of eligible Federal funding;
- (v) financed by the issuance of Special Revenue Bonds;
- (vi) of an emergency nature, which, if not made, would result in the closing of the Airport within forty-eight (48) hours, or otherwise substantially impair the current operation of the Airport;
- (vii) to repair or replace Airport property damaged or destroyed by fire or other casualty, or taken by condemnation, or otherwise for the restoration or replacement of Airport capacity;
- (viii) made to settle claims or lawsuits, satisfy judgments or comply with judicial or administrative orders against City arising from or relating to its design, construction, ownership, maintenance or use of the Airport;
- (ix) As provided by 49 U.S.C. § 40117(f), any portion of a capital improvement financed by PFCs or PFC-backed bonds; provided, however, that any portion of a capital improvement that would result in a charge to a Signatory Airline in the Terminal Area Rentals or Landing Fees may be subject to Majority-in-Interest voting or approval of such costs, unless such costs have already been approved or are exempt from such voting or approval;
- (x) required to procure and install electrical infrastructure necessary to reach City's and the Signatory Airlines' mutual goal of converting all ground service equipment operating at the Airport to be powered by 100% electricity;
- (xi) undertaken to satisfy the increased requirements of any air carrier so long as such air carrier agrees to pay all increased rentals, fees and charges that are sufficient to cover the annual Debt Service and operating expenses associated with the project; or
- (xii) related to special purpose facilities for which the user agrees to pay or reimburse City.

“Special Revenue Bonds” are taxable and tax-exempt obligations (such as special facility bonds) issued by the Commission, the principal of, premium, if any, and interest on which are payable from or secured in whole or substantial part by revenues other than Airport “Revenues,” as defined under the 1991 Master Resolution. The Commission may pledge Revenues as further security for Special Revenue Bonds, or issue general Airport revenue bonds to refund Special Revenue Bonds in accordance with the 1991 Master Resolution, if (i) the Signatory Airlines are notified in writing of the proposed pledge or issuance, and (ii) the Majority-in-Interest approves the pledge or issuance within 45 days of the mailing of the notice. The Commission may not proceed with any such pledge or issuance that is not so approved by a Majority-in-Interest.

The ORCIF

The Lease and Use Agreements give the City the right to create and maintain an Operating Revenue and Capital Improvement Fund (the “ORCIF”) within the Airport’s revenue fund to be held and invested by the City Treasurer. Funds on deposit in the ORCIF may be used for any lawful purpose for which Airport Revenues may be used.

Amounts are deposited in the ORCIF from rates and charges (see “Rates and Charges” above). The City determines the amount, if any, to be deposited into the ORCIF each Fiscal Year. Such amount must be greater than or equal to the Minimum Annual ORCIF Deposit and may not exceed the Maximum Annual ORCIF Deposit. No deposit shall be made to the ORCIF in any Fiscal Year when the unencumbered and unallocated balance of the ORCIF at the start of the Fiscal Year (excluding any interest earned on the amounts on deposit) exceeds \$650,000,000, as adjusted for inflation commencing in Fiscal Year 2024-25, as provided in the Lease and Use Agreements.

Minimum Annual ORCIF Deposits are \$0 in Fiscal Year 2023-24, \$25,000,000 in Fiscal Years 2024-25 through 2027-28 and \$30,000,000 in Fiscal Years 2028-29 through 2032-33, in each case as adjusted for inflation subject to a 4% cap commencing with Fiscal Year 2024-25, as provided in the Lease and Use Agreements.

The Maximum Annual ORCIF Deposit is the sum of the Minimum Annual ORCIF Deposit and the Additional Annual ORCIF Deposit for such Fiscal Year. The “Additional Annual ORCIF Deposit” for each Fiscal Year is the lesser of (a) a specified amount (\$250,000,000 for Fiscal Year 2023-24, \$70,000,000 for Fiscal Year 2024-25, \$60,000,000 for Fiscal Year 2025-26, \$50,000,000 for Fiscal Year 2026-27, \$40,000,000 for Fiscal Year 2027-28, \$30,000,000 for Fiscal Year 2028-29, \$25,000,000 for Fiscal Years 2029-30 and 2030-31, and \$0 for Fiscal Years 2031-32 and 2032-33), as adjusted for inflation beginning in Fiscal Year 2024-25 as provided in the Lease and Use Agreements and (b) the combined amount of (i) PFCs estimated to be designated and applied as Revenues for such Fiscal Year pursuant to the 1991 Master Resolution, and (ii) any surplus from prior Fiscal Years’ airline rates and charges estimated to be applied to offset airline rates and charges for such Fiscal Year.

Public Liability and Property Damage Insurance

Each Signatory Airline, at its own cost and expense, must obtain and maintain certain public liability and property damage insurance during the term of its Lease and Use Agreement, including (i) an aircraft liability policy with coverage of at least \$500 million combined single limit for bodily injury and property damage, (ii) at least \$100 million War and Named (Allied) Perils coverage for bodily injury and property damage, (iii) a workers’ compensation and employers’ liability policy, (iv) a commercial automobile liability insurance with a limits not less than \$10 million each occurrence, combined single limit for bodily injury, property damage, owned, non-owned hired auto coverage, (v) property insurance in an amount equal to the value of airline improvements and betterments during the course of any construction and after completion of construction, (vi) if applicable to any provided operations, technology errors and omissions liability coverage with limited of \$1,000,000 for each claim and each loss, (vii) cyber and privacy insurance with limits of not less than \$1,000,000 per claim covering liability arising from theft, dissemination, and/or use of confidential information, and (viii) pollution liability insurance with limits not less than \$10,000,000 each occurrence combined single limit, including coverage for on-site third party claims for bodily injury and property damage. The Commission has the right at any time to review the coverage, form and amount of insurance and may require a Signatory Airline to obtain additional insurance, provided it is commercially reasonable.

Security Deposit

A Signatory Airline’s faithful performance of its Lease and Use Agreement will be secured by a security deposit equal to two months of Terminal Area rentals, landing fees, and usage fees in the amounts established by the Commission in the rates and charges. The security deposit may be in the form of a surety bond or an irrevocable letter of credit to be renewed annually at the Signatory Airline’s cost, and kept in full force and effect at all times. If the Signatory Airline fails to pay any amounts due or otherwise defaults under the Lease and Use Agreement, the Commission may draw on the Signatory Airline’s security deposit for the payment of any delinquent amounts, or to compensate the Commission for any loss or damages suffered by the Commission. The Signatory Airline is required to replenish its security deposit within ten days.

Assignment and Subletting

A Signatory Airline is not permitted to transfer, assign or encumber its leased premises, its Lease and Use Agreement, or any right thereunder without the Director’s prior written consent. Any transfer made without the Director’s consent constitutes an event of default hereunder and will be voidable at the Director’s election. The merger of a Signatory Airline with any other entity or the transfer of any controlling ownership interest in a Signatory Airline, or the assignment or transfer of a substantial portion of the assets of a Signatory Airline, whether or not located on the leased premises will be deemed a transfer to which the consent requirements are applicable. In addition, a Signatory Airline’s entering into any operating agreement, license or other agreement where a third party, other than a subsidiary, Affiliate Airline, or code share partner of the Signatory Airline, is given rights or privileges to utilize portions of the leased space will be considered an attempted transfer which requires Airport consent.

However, the restrictions on asset transfers in the Lease and Use Agreements will not apply to stock or limited liability company interest transfers of corporations or limited liability companies the stock or interests of which are

traded through an exchange or over the counter. A Signatory Airline will also have the right, without first obtaining the Director's written consent, to assign or transfer its Lease and Use Agreement, to an entity controlling, controlled by or under common control with such Signatory Airline, or to a successor by merger, consolidation or acquisition to all or substantially all of the assets of the Signatory Airline, if such entity or successor operates at the Airport and assumes all rights and obligations under the Lease and Use Agreement. Signatory Airlines also may grant a no-fee license to use a portion of the Demises Premises to a ground handler or other service provider as part of a ground handling or services agreement if certain conditions are met.

Damage and Destruction; Condemnation/Eminent Domain

Damage and Destruction

If any part of the Terminal in which a Signatory Airline occupies leased premises is partially damaged by fire, earthquake or other casualty but is not rendered untenable, the damaged space will be repaired by the Commission. If the damage renders the leased premises unfit for use by the Signatory Airline, and if the damage is repairable using reasonable diligence within four months from the date of the occurrence, the leased premises will be repaired by the Commission subject to certain conditions as described below. If any part of the leased premises is completely destroyed by fire, earthquake or other casualty, or damaged to such extent that such damage cannot be repaired within four months from the date of occurrence, the Commission has the option to terminate the applicable Lease and Use Agreement to the extent that it applies to the affected leased premises. If the Commission elects to repair or reconstruct the leased premises, subject to restrictions with respect to a Signatory Airline's repair of its alterations as described below, it will begin any work necessary to do so and will use reasonable efforts to provide the Signatory Airline with temporary substitute space while the repairs are being completed.

Allocation of Responsibility for Reconstruction; Abatement of Rent

In the event any Signatory Airline's alterations in its exclusive or preferential use space are to be reconstructed or repaired following damage by a casualty, the Signatory Airline will use commercially reasonable efforts to repair its alterations, at its sole cost and expense, within 90 days for space that is open to the public and within 180 days for space that is not open to the public, and its Lease and Use Agreement will continue in full force and effect.

If Signatory Airline's leased premises is wholly or partially destroyed or damaged, the Signatory Airline will have no claim against the Commission for any damage suffered by reason of any such damage, destruction or repair. For the period from the occurrence of any damage to the leased premises to the date of completion of the repairs to the leased premises (or to the date of termination of the Agreement as to such portions of the leased premises if the Commission elects not to restore them), the rental allocable to the particular leased premises involved will be abated in the same proportion as the unusable portion of the leased premises bears to the whole, or, if the damage or destruction has rendered the entire leased premises unusable, the rental shall be abated entirely. Upon termination of the applicable Lease and Use Agreement as to such damaged or destroyed leased premises, Signatory Airlines will have no further obligation to pay the rental allocable thereto.

Condemnation/Eminent Domain

If all or a substantial part of a Signatory Airline's leased premises is taken or condemned through eminent domain, the Signatory Airline may terminate its Lease and Use Agreement upon 30 days' notice if the Commission does not notify the Signatory Airline in writing within 60 days before the date of taking that it will provide the Signatory Airline with mutually acceptable substitute facilities. If only a portion of the leased premises will be taken, the Signatory Airline will have the right to amend its Lease and Use Agreement to remove the leased premises so taken

upon 30 days' notice, if the Commission does not notify the Signatory Airline in writing within 60 days before the date of taking that it will provide the Signatory Airline with mutually acceptable substitute facilities.

Payments from Commission to City

The Lease and Use Agreements provide for payments from the Commission to the City consisting of the Annual Service Payments and reimbursement for the costs of direct services provided by City departments to the Commission. See "AIRPORT'S FINANCIAL AND RELATED INFORMATION—Payments to the City" in the forepart of this Official Statement.

"Annual Service Payments" are to be paid from the Airport Revenue Fund to the City's General Fund for each fiscal year beginning with Fiscal Year 2023-24 through Fiscal Year 2032-33 during the term of the Lease and Use Agreement to fully compensate the City for all indirect services, management and facilities provided by the City to the Airport, and are equal to the greater of (i) 15% of Concession Revenues and (ii) \$5 million. "Concession Revenues" is defined in the Lease and Use Agreements as the fees and rentals earned by Commission for the right to provide and operate restaurants, car rental services, shops, advertising, courtesy vehicles, ground transportation services, hotel and other concessions and services and parking and other services.

The Lease and Use Agreements provide that the Commission shall not make any payments other than the Annual Service Payment to the City's General Fund for indirect services provided by the City to the Airport.

The Lease and Use Agreements further provide that the Commission may reimburse the City for the cost of certain direct services provided to the Airport by other City departments.

Events of Default; Termination or Suspension of Lease and Use Agreement Provisions

Each of the following events constitutes an Event of Default under the Lease and Use Agreement: (i) a failure punctually to pay any amount due that continues beyond the date specified in a written notice of default from the Airport, which date will be no earlier than the tenth (10th) day after the date of the notice; provided that if two payment defaults occur, the Commission will have no obligation to give further notices and an immediate Event of Default will occur; (ii) various events of insolvency or bankruptcy relating to the Signatory Airline; (iii) an involuntary bankruptcy petition is filed against the Signatory Airline and not dismissed within 30 days; (iv) an unauthorized transfer of the Lease and Use Agreement without the prior approval of the Commission that is not voided or rescinded within ten days after receipt of notice to the Signatory Airline; (v) the abandonment of the leased premises; (vi) a lien is filed against the lease premises as a result of an act or omission of the Signatory Airline, and is not discharged or contested within 30 days after receipt of notice; (vii) a failure to maintain the required security deposit for a period of more than three days after receipt of notice; (viii) a failure to maintain the required insurance or self-insured reserves; (ix) a failure to observe any covenant in the Lease and Use Agreement for a period of more than ten days after receipt of notice, or failure to commence a cure within ten days after receipt of notice, followed by a failure to diligently prosecute the cure within one hundred twenty days after the notice; (x) the occurrence a default under any other agreement between the Signatory Airline and the Commission that is not cured as provided in the other agreement; or (xi) a failure timely to remit any passenger facility charges collected by the Signatory Airline.

Upon the occurrence and continuation of an Event of Default, the Commission may elect from the following remedies in addition to any other rights and remedies available to the Commission under applicable law: (i) terminate the Signatory Airline's use of the leased premises and recover statutory damages from the Signatory Airline; (ii) not terminate the Lease and Use Agreement and continue to collect rent as it becomes due; (iii) appoint a receiver to take possession of the leased premises and collect rents therefrom; (iv) terminate any other agreement between the Signatory Airline and the Commission.; Should a Signatory Airline fail to pay any amount when due under the Lease and Use Agreement, the Commission also may require prepayment of any amounts due under the Lease and Use Agreement.

If a Signatory Airline fails to perform a duty under its Lease and Use Agreement and does not cure within three days (as to any emergency) or 30 days (as to any non-emergency) following notice, the Commission has the right to perform such duty at the Signatory Airline's expense. The Commission also has the right to impose and collect

finances from the Signatory Airlines as set forth in the Airport Rules as established and updated from time to time by the Commission.

In addition, the Commission may terminate a Lease and Use Agreement if the Signatory Airline ceases revenue aircraft arrivals at the Airport for more than 30 consecutive days for reasons other than certain force majeure events.

A Signatory Airline may terminate its Lease and Use Agreement upon the occurrence of any of the following events: (i) the issuance of a permanent injunction by any court of competent jurisdiction which remains in force for 180 days and substantially prevents the Signatory Airline from using all or major portions of the Airport; (ii) any action of any governmental authority, board, agency or officer with proper jurisdiction preventing the Signatory Airline from operating at the Airport; (iii) the involuntary termination by any governmental authority, board, agency or officer having jurisdiction, of Signatory Airline's right to serve the Airport; (iv) a default by the Commission in the performance of any material covenant, which default materially and adversely limits or prohibits the Signatory Airline's operations at the Airport, and the failure by the Commission to remedy such default in a timely manner as provided in the Lease and Use Agreement; (v) if the Signatory Airline's leased premises are destroyed and the Commission elects to terminate the Lease and Use Agreement with respect to the damaged or destroyed portion of the leased premises, and the loss of the use of the leased premises that is no longer available will have a substantial adverse effect on the Signatory Airline's use of the remaining premises and its business and operations at the Airport; (vi) all or a substantial part of a Signatory Airline's leased premises are taken or condemned by any competent authority through exercise of its power of eminent domain, and the Commission does not notify the Signatory Airline within 60 days before the date of taking that it will provide mutually acceptable substitute facilities; or (vii) the Annual Service Payments can no longer be made and the Commission elects to suspend certain portions of the Lease and Use Agreement. See "*Commission's Right to Suspend Part of Lease and Use Agreement*" below.

Commission's Right to Suspend Part of Lease and Use Agreement

In the event that the Annual Service Payments cannot be made for any reason for 12 months, other than through the City's or Commission's own inaction or action not in conformance with the Lease and Use Agreements, including, but not limited to, supervening legislation or court decision, the Commission may elect to suspend uniformly as to all Signatory Airlines, all or some of the provisions of the Lease and Use Agreements relating to: the calculation and adjustment of landing fees; the limitation on funding capital projects from current revenues; the right of a Majority-in-Interest of the Signatory Airlines to delay capital improvements; the Commission's covenant to require all users of the Airfield Area to pay for their use thereof and to credit the amounts received to the appropriate cost centers, so as to reduce the amounts needing to be collected from the Signatory Airlines through landing fees; and the provisions regarding holding over after the expiration date of the Lease and Use Agreement. If the Commission elects to suspend any of these provisions, any Signatory Airline may terminate its Lease and Use Agreement upon 30 days' notice.

In addition, or alternatively in such event, the Commission may: (1) appropriate an amount equal to the then-payable Annual Service Payments for capital improvements included in its then-current capital program; and (2) during any period of suspension of certain provisions of the Lease and Use Agreements, adjust the level of terminal rental rates, observing in the calculations of such adjusted rental rates the cost centers and procedures for allocation of revenues, expenses, and debt service to such cost centers in accordance with the Lease and Use Agreement, and maintaining the relationships between rental rates for each category of space described in the Lease and Use Agreement.

During the period when the Annual Service Payments cannot be made, the Commission is required to segregate the amounts that would otherwise have been paid to the City General Fund in an identifiable, interest-bearing subaccount of the Airport Revenue Fund, to be applied to any lawful purpose of the Commission other than as security for any bond issue. To the extent monies are so segregated and applied, the Annual Service Payments will be deemed to have been satisfied. The Commission shall use commercially reasonable efforts to achieve resumption of the Annual Service Payment or receipt in the General Fund of a sum equivalent thereto in lieu thereof.

Upon resumption of the Annual Service Payments or receipt of an equivalent amount by City's General Fund, the right of the Commission to suspend the provisions of the Lease and Use Agreements described above will terminate.

and the Commission will release any segregated amounts to the Airport Revenue Fund for customary budgeting disposition. The Commission will also make any necessary adjustments to terminal rentals and landing fees.

Limited Obligations of the City

Any obligation or liability of the City created by or arising out of the Lease and Use Agreements will be payable solely out of the Revenues and other lawfully available moneys of the Airport, and will not constitute a general obligation of the City or a charge upon its General Fund. The Lease and Use Agreements will not obligate the City to make any appropriation from its General Fund for any payment due thereunder. No breach by the Commission under the Lease and Use Agreements will impose any pecuniary liability upon the City, other than from Revenues, or be payable from or constitute a charge upon the general credit or against the taxing power of the City.

West of Bayshore Lands

The Lease and Use Agreements restrict the development of Airport property west of the Bayshore Freeway. Maintenance costs of the property in its current undeveloped state are an obligation of the Commission and are included in calculations to determine landing fee rates. Any future development of such property, however, may be undertaken solely with non-Airport revenues and without the use of Airport staff, facilities and resources. The airlines disclaim the right to any revenues from the area.

Other Lease and Use Agreement Covenants

The Commission covenants in the Lease and Use Agreements to: (i) efficiently manage and operate the Airport on the basis of sound business and airport management principles in effect at airports of comparable size in the continental United States and with efficient and prudent control of all capital and operating expenses; (ii) use commercially reasonable efforts to operate the Airport in a manner consistent with its strategic marketing and public relations plans in order to maximize revenues from concessionaires, lessees and other non-airline users; and (iii) require all users to pay for use of the airfield, with the fees paid by users other than Signatory Airlines and their Affiliate Airlines to be credited to the appropriate cost centers so as to reduce the amounts required to be collected from the Signatory Airlines and their Affiliate Airlines through landing fees.

Except as otherwise provided in the Lease and Use Agreements or as the Commission and the Signatory Airlines may subsequently agree, the Commission may not impose or collect any rates, fees or charges from any Signatory Airline. The Commission, however, may impose and use passenger facility charges in accordance with applicable law.

In the Lease and Use Agreements, the Commission agrees that all Airport-related functions provided as of July 1, 2009, by City employees assigned to the Commission and working under the direct authority and control of the Director will continue to be provided by employees assigned to the Commission and may only be transferred to other City departments upon 60 days' notice to the Signatory Airlines, and consideration and response to any comments, questions or objections of the Signatory Airlines to the proposed transfer of functions within 45 days of receipt. Any City department head whose department receives work relating to the Airport in a transfer of functions is to coordinate and consult with the Director at least annually to ensure that the work is performed in a manner that is efficient, meets the needs of the Airport, conforms to sound business and airport management principles, and is properly documented as required by FAA rules and regulations.

Holding Over

If a Signatory Airline shall, with the concurrence of the Director, hold over after the expiration date of the Lease and Use Agreement, the resulting tenancy shall, unless otherwise mutually agreed, be on a month-to-month basis, and may be terminated by the Signatory Airline or the Commission at any time on 30 days written notice to the other party. During such month-to-month tenancy, the Signatory Airline shall pay to the Commission the same rate of rentals and landing fees as are set forth in its Lease and Use Agreement, unless different rates shall be agreed upon, and the parties shall be bound by all of the provisions of such Lease and Use Agreement, insofar as they may be pertinent, unless different terms and conditions shall be agreed upon. If a Signatory Airline shall, without the written

consent of the Director, hold over after the expiration date of the Lease and Use Agreement, the Signatory Airline shall pay to the Commission on a month-to-month basis the rentals and a 25% premium on landing fees as provided in its Lease and Use Agreement for any such holdover period and shall otherwise be subject to the terms and conditions of its Lease and Use Agreement beyond the end of its term. Any holding over without the Director's prior written consent shall constitute a default by the Signatory Airline and entitle the Commission to exercise any or all remedies as provided in the Lease and Use Agreement, notwithstanding that the Commission may elect to accept one or more payments of Terminal Area rentals, and whether or not such amounts are at the holdover rate specified above or the rate at the end of the term of the Lease and Use Agreement.

APPENDIX F

SUMMARY OF CERTAIN PROVISIONS OF THE CONTINUING DISCLOSURE CERTIFICATE

The following is a summary of certain provisions of the master Continuing Disclosure Certificate entered into by the Commission, the terms of which will apply to the Series 2024A-C Bonds (the “Disclosure Certificate”). This summary is not to be considered as a full statement of the Disclosure Certificate and reference is made thereto for the full details of the terms thereof.

Purpose

The Disclosure Certificate is being executed and delivered by the Commission for the benefit of the Holders and Beneficial Owners of the Series 2024A-C Bonds and in order to assist the Participating Underwriter in complying with SEC Rule 15c2-12(b)(5).

Definitions

In addition to the definitions set forth in the 1991 Master Resolution, which apply to any capitalized term used in the Disclosure Certificate unless otherwise defined below, the following capitalized terms have the following meanings for purposes of the Disclosure Certificate:

“Annual Disclosure Report” shall mean any Annual Disclosure Report provided by the Commission pursuant to, and as described in, the Disclosure Certificate.

“Beneficial Owner” shall mean any person who has or shares the power, directly or indirectly, to make investment decisions concerning ownership of any Series 2024A-C Bonds, including persons holding Series 2024A-C Bonds through nominees, depositories or other intermediaries.

“Dissemination Agent” shall mean the Commission, or any successor Dissemination Agent designated in writing by the Commission and which has filed with the Commission a written acceptance of such designation.

“Holder” shall mean the person in whose name any Series 2024A-C Bond shall be registered.

“Listed Events” shall mean any of the events listed as such in the Disclosure Certificate.

“MSRB” shall mean the Municipal Securities Rulemaking Board or any other entity designated or authorized by the Securities and Exchange Commission to receive reports pursuant to the Rule. Until otherwise designated by the MSRB or the Securities and Exchange Commission, filings with the MSRB are to be made through the Electronic Municipal Market Access (EMMA) website of the MSRB, currently located at <http://emma.msrb.org>.

“Obligated Person” shall have the meaning set forth in the Rule.

“Participating Underwriter” shall mean any of the Underwriters of the Series 2024A-C Bonds required to comply with the Rule in connection with the issuance of the Series 2024A-C Bonds.

“Rule” shall mean Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

Provision of Annual Disclosure Reports

The Commission shall, or shall cause the Dissemination Agent to, not later than 270 days after the end of the Commission’s fiscal year (which currently ends June 30), commencing with Fiscal Year 2023-24, provide to the MSRB an Annual Disclosure Report which is consistent with the requirements of the Disclosure Certificate, with a

copy to the Trustee. The Annual Disclosure Report must be submitted in electronic format, accompanied by such identifying information as is prescribed by the MSRB, and may cross-reference other information as provided in the Disclosure Certificate; provided that the audited financial statements of the Commission may be submitted separately from the balance of the Annual Disclosure Report, and later than the date required above for the filing of the Annual Disclosure Report if they are not available by that date. If the Commission's fiscal year changes, it shall give notice of such change in the same manner as for a Listed Event under the Disclosure Certificate.

Not later than fifteen (15) Business Days prior to the date specified above for providing the Annual Disclosure Report to the MSRB, the Commission shall provide the Annual Disclosure Report to the Dissemination Agent (if other than the Commission).

If the Commission is unable to provide to the MSRB an Annual Disclosure Report by the date required above, the Commission shall send a notice, in electronic format to the MSRB, in substantially the form attached to the Disclosure Certificate.

The Dissemination Agent shall file a report with the Commission (if the Commission is not the Dissemination Agent) certifying that the Annual Disclosure Report has been provided pursuant to the Disclosure Certificate and stating the date it was provided.

Content of Annual Disclosure Reports

The Commission's Annual Disclosure Report shall contain or include by reference the following for the most recently ended fiscal year:

1. Audited Financial Statements of the Commission, presented in accordance with generally accepted accounting principles applicable to the Commission from time to time. If the Commission's audited financial statements are not available by the time the Annual Disclosure Report is required to be filed as described above, the Annual Disclosure Report shall contain unaudited financial statements in a format similar to the financial statements contained in the Official Statement, and the audited financial statements shall be filed in the same manner as the Annual Disclosure Report when they become available.
2. Air Traffic Data (number of scheduled aircraft arrivals and departures, domestic enplanements and deplanements, international enplanements and deplanements, and total passengers at the Airport; number of enplanements by carrier for top ten carriers).
3. Cargo Traffic Data (weight of air cargo on and off at the Airport).
4. Total Landed Weights (landed weight by carrier of the top ten carriers and total landed weight at the Airport).
5. Airline Service (identity of all domestic and international carriers serving the Airport during such Fiscal Year).
6. Ten Highest Revenue Producing Concessionaires (name, lease expiration, minimum annual rent, if any, and concession revenues).
7. Ten Highest Revenue Producers (name and revenues produced).
8. Total Outstanding Long-Term Debt of the Commission (outstanding principal amount and lien position).
9. Historical Landing Fees and Terminal Rentals.

10. Calculation of Net Revenues and compliance with the Rate Covenant (each as defined in the 1991 Master Resolution).
11. Passenger Facility Charge Collections Designated as Revenues by the Commission for Payment of Debt Service on Outstanding Bonds (designation date, amount designated, and applicable fiscal year).
12. Summary of Payments Made by the Airport to the City and County of San Francisco (annual service payment and reimbursement for direct services, including police, fire, other and utility costs).
13. Liquidity Facilities and Credit Facilities Supporting Outstanding Bonds and Commercial Paper (principal amount, type, expiration date, insurer and insurer rating, credit or liquidity provider, short term and long term rating).
14. Summary of Interest Rate Swap Agreements (effective date and expiration date, initial notional amount, counterparty or guarantor and ratings, insurer, fixed rate payable by Commission, market value to the Commission).*

Any of all of the items listed above may be included by specific reference to other documents, including official statements of debt issues of the Commission or related public entities, which have been made available to the public on MSRB's website. The Commission shall clearly identify each such other document so included by reference.

Reporting of Significant Events

A. Pursuant to the provisions of the Disclosure Certificate, the Commission shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the Series 2024A-C Bonds not later than ten business days after the occurrence of the event:

1. Principal and interest payment delinquencies;
2. Unscheduled draws on debt service reserves reflecting financial difficulties;
3. Unscheduled draws on credit enhancements reflecting financial difficulties;
4. Substitution of credit or liquidity providers, or their failure to perform;
5. Issuance by the Internal Revenue Service of proposed or final determination of taxability or of a Notice of Proposed Issue (IRS Form 5701-TEB);
6. Tender offers;
7. Defeasances;
8. Rating changes;
9. Bankruptcy, insolvency, receivership or similar event of the Obligated Person; or
10. Default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation of the Commission, any of which reflect financial difficulties.

* There is no "Summary of Interest Rate Swap Agreements" table in this Official Statement because the Commission is not currently party to any interest rate swap.

Note: For the purposes of the event identified in subparagraph (9), the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for an Obligated Person in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the Obligated Person, or if such jurisdiction has been assumed by leaving the existing governmental body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the Obligated Person.

Note: For purposes of the events listed as A(10) and B(8), the term “financial obligation” means any (i) debt obligation; (ii) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation; or (iii) guarantee of (i) or (ii). The term financial obligation shall not include municipal securities as to which a final official statement has been provided to the MSRB consistent with the Rule.

B. The Commission shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the Series 2024A-C Bonds, if material, not later than ten business days after the occurrence of the event:

1. Unless described in subparagraph A(5) above, adverse tax opinions or other material notices or determinations by the Internal Revenue Service with respect to the tax status of the Series 2024A-C Bonds or other material events affecting the tax status of the Series 2024A-C Bonds;
2. Modifications to rights of the Series 2024A-C Bondholders;
3. Optional, unscheduled or contingent calls of the Series 2024A-C Bonds;
4. Release, substitution, or sale of property securing repayment of the Series 2024A-C Bonds;
5. Non-payment related defaults;
6. The consummation of a merger, consolidation, or acquisition involving an Obligated Person or the sale of all or substantially all of the assets of the Obligated Person, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms;
7. Appointment of a successor or additional trustee or the change of name of a trustee; or
8. Incurrence of a financial obligation of the Commission, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the Commission, any of which affects security holders.

Whenever the Commission obtains knowledge of the occurrence of an event listed in paragraph B above, the Commission shall as soon as possible determine if such event would be material under applicable federal securities laws.

If the Commission learns of the occurrence of an event listed in A above or determines that knowledge of the occurrence of an event listed in paragraph B above would be material under applicable federal securities laws, the Commission shall within ten business days of occurrence file a notice of such occurrence with the MSRB. Notwithstanding the foregoing, notice of Listed Events described in A(7) and B(3) above need not be given any earlier than the notice (if any) of the underlying event is given to Holders of affected Series 2024A-C Bonds pursuant to the 1991 Master Resolution.

Termination of Reporting Obligation

The Commission's obligations under the Disclosure Certificate with respect to a Series of Bonds shall terminate upon (a) the legal defeasance, prior redemption or payment in full of all of such Bonds or (b) if, in the opinion of nationally recognized bond counsel, the Commission ceases to be an Obligated Person with respect to such Bonds or such Bonds otherwise cease to be subject to the requirements of the Rule. If such termination occurs prior to the final maturity of such Series of Bonds, the Commission shall give notice of such termination in the same manner as for a Listed Event.

Dissemination Agent

The Commission may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under the Disclosure Certificate, and may discharge any such Dissemination Agent, with or without appointing a successor Dissemination Agent. The initial Dissemination Agent shall be the Commission.

Amendment; Waiver

Notwithstanding any other provision of the Disclosure Certificate, the Commission may amend the Disclosure Certificate, and any provision of the Disclosure Certificate may be waived, provided that the following conditions are satisfied:

(a) If the amendment or waiver relates to the provisions described in the first paragraph under "Provision of Annual Disclosure Reports" or described under "Content of Annual Disclosure Reports" or described in the first two paragraphs under "Reporting of Significant Events," it may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law or change in the identity, nature or status or an Obligated Person with respect to the Series 2024A-C Bonds, or the type of business conducted;

(b) The undertaking, as amended or taking into account such waiver, would, in the opinion of nationally recognized bond counsel, have complied with the requirements of the Rule at the time of the original issuance of the Series 2024A-C Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(c) The amendment or waiver either (i) is approved by the Holders of the Series 2024A-C Bonds in the same manner as provided in the 1991 Master Resolution for amendments to the 1991 Master Resolution with the consent of the Holders, or (ii) does not, in the opinion of the Trustee or nationally recognized bond counsel, materially impair the interests of the Holders or Beneficial Owners of the Series 2024A-C Bonds.

In the event of any amendment or waiver of any provision of the Disclosure Certificate, the Commission shall describe such amendment in the next Annual Disclosure Report, and shall include, as applicable, a narrative explanation of the reason for the amendment or waiver and its impact on the type (or in the case of a change in accounting principles, on the presentation) of financial information or operating data being presented by the Commission. In addition, if the amendment relates to the accounting principles to be followed in preparing financial statements, (i) notice of such change shall be given in the same manner as for a Listed Event, and (ii) the Annual Disclosure Report for the year in which the change is made should present a comparison (in narrative form and also, if feasible, in quantitative form) between the financial statements as prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

Additional Information

Nothing in the Disclosure Certificate shall be deemed to prevent the Commission from disseminating any other information, using the means of dissemination set forth in the Disclosure Certificate or any other means of communication, or including any other information in any Annual Disclosure Report or notice of occurrence of a Listed Event, in addition to that which is required by the Disclosure Certificate. If the Commission chooses to include any information in any Annual Disclosure Report or notice of occurrence of a Listed Event in addition to that which is specifically required by the Disclosure Certificate, the Commission shall have no obligation under the Disclosure

Agreement to update such information or include it in any future Annual Disclosure Report or notice of occurrence of a Listed Event.

Default

In the event of a failure of the Commission to comply with any provision of the Disclosure Certificate, the Trustee may (and, at the request of any Participating Underwriter or the Holders of at least 25% aggregate principal amount of Outstanding Series 2024A-C Bonds and upon receipt of indemnity satisfactory to the Trustee, shall), or any Holder or Beneficial Owner of the Series 2024A-C Bonds may take such actions as may be necessary and appropriate, including seeking specific performance by court order, to cause the Commission to comply with its obligations under the Disclosure Certificate. Failure by the Commission to comply with any provision of the Disclosure Certificate shall not be deemed an Event of Default under the 1991 Master Resolution, and the sole remedy under the Disclosure Certificate in the event of any failure of the Commission to comply with the Disclosure Certificate shall be an action to compel performance.

Beneficiaries

The Disclosure Certificate shall inure solely to the benefit of the Commission, the Trustee, the Participating Underwriter and Holders and Beneficial Owners from time to time of the Series 2024A-C Bonds, and shall create no rights in any other person or entity.

APPENDIX G

PROPOSED FORMS OF OPINIONS OF CO-BOND COUNSEL AND SPECIAL TAX COUNSEL

FORM OF OPINION OF CO-BOND COUNSEL

_____, 2024

To: Airport Commission of the City and County of San Francisco
San Francisco, California

We have acted as Co-Bond Counsel to our client the Airport Commission (the “Commission”) of the City and County of San Francisco (the “City”) in connection with the issuance and sale by the Commission of \$782,535,000 principal amount of the Commission’s San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024A (AMT) (the “Series 2024A Bonds”), \$123,590,000 principal amount of the Commission’s San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024B (Non-AMT/Governmental Purpose) (the “Series 2024B Bonds”) and \$18,540,000 principal amount of the Commission’s San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024C (Federally Taxable) (the “Series 2024C Bonds” and, together with the Series 2024A Bonds and the Series 2024B Bonds, the “Bonds”).

The Bonds are authorized to be issued by the authority of the Charter of the City, the laws of the State of California, and Resolution No. 91-0210, adopted by the Commission on December 3, 1991, as supplemented and amended to the date hereof, including as supplemented by the Certificate of Additional Terms of the Commission relating to the Bonds, dated the date hereof (collectively, the “1991 Master Resolution”). Capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the 1991 Master Resolution.

In our capacity as Co-Bond Counsel, we have examined the transcript of proceedings relating to the issuance of the Bonds, a copy of the signed and authenticated Bonds, the 1991 Master Resolution and such other documents, matters and law as we deem necessary to render the opinions set forth in this letter.

Based on that examination and subject to the limitations stated below, we are of the opinion that, under existing law:

1. The Bonds are valid and binding special, limited obligations of the Commission, enforceable in accordance with their terms. The principal of and interest and redemption premium, if any, on the Bonds (collectively, “debt service”) are payable from and secured solely by the Net Revenues and the funds and accounts provided for in the 1991 Master Resolution. The payment of debt service on the Bonds is not secured by an obligation or pledge of any money raised by taxation, and the Bonds do not represent or constitute a general obligation or a pledge of the faith and credit of the City, the State of California or any of its political subdivisions. The Commission has no taxing power.
2. The 1991 Master Resolution constitutes the valid and binding obligation of the Commission. The 1991 Master Resolution creates a valid pledge of Net Revenues to secure the payment of debt service on the Bonds, subject to the provisions of the 1991 Master Resolution permitting the application thereof for the purposes and on the terms and conditions set forth in the 1991 Master Resolution.

The opinions stated above are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. In rendering all such opinions, we assume, without independent verification, and rely upon (i) the accuracy of the factual matters represented, warranted or certified in the proceedings and documents we have examined and (ii) the due and legal authorization, execution and delivery of those documents by, and the valid, binding and enforceable nature of those documents upon, any parties other than the Commission and the City.

The rights of the owners of the Bonds and the enforceability of the Bonds and the 1991 Master Resolution are subject to bankruptcy, insolvency, reorganization, moratorium, fraudulent conveyance or transfer, and other laws relating to or affecting the rights and remedies of creditors generally; to the application of equitable principles, whether considered in a proceeding at law or in equity; to the exercise of judicial discretion; and to limitations on legal remedies against charter cities and counties in California.

No opinions other than those expressly stated herein are implied or shall be inferred as a result of anything contained in or omitted from this letter. Specifically, we express no opinion as to any federal, state or local tax consequences of acquiring, carrying, owning or disposing of any of the Bonds, and we understand that the Commission is relying upon the opinion, dated the date hereof, of Orrick, Herrington & Sutcliffe LLP, special tax counsel to the Commission, as to such matters. The opinions expressed in this letter are stated only as of the time of its delivery and we disclaim any obligation to revise or supplement this letter thereafter. Our engagement as Co-Bond Counsel in connection with the original issuance and delivery of the Bonds is concluded upon delivery of this letter.

Respectfully submitted,

FORM OF OPINION OF SPECIAL TAX COUNSEL

_____, 2024

Airport Commission of the City
and County of San Francisco
San Francisco International Airport
San Francisco, California

Airport Commission of the City and County of San Francisco
San Francisco International Airport
\$782,535,000 Second Series Revenue Refunding Bonds, Series 2024A (AMT),
\$123,590,000 Second Series Revenue Refunding Bonds,
Series 2024B (Non-AMT/Governmental Purpose)
and
\$18,540,000 Second Series Revenue Refunding Bonds, Series 2024C (Federally Taxable)

(Special Tax Opinion)

Ladies and Gentlemen:

We have acted as special tax counsel to the Airport Commission of the City and County of San Francisco (the “Commission”) in connection with the issuance by the Commission of \$782,535,000 aggregate principal amount of San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024A (AMT) (the “2024A Bonds”), \$123,590,000 aggregate principal amount of San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024B (Non-AMT/Governmental Purpose) (the “2024B Bonds”) and \$18,540,000 aggregate principal amount of San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2024C (Federally Taxable) (the “2024C Bonds,” and together with the 2024A Bonds and 2024B Bonds, the “Bonds”), issued pursuant to the Charter of the City and County of San Francisco (the “Charter”) and the laws of the State of California supplemental thereto, and Resolution No. 91-0210, adopted by the Commission on December 3, 1991, as supplemented and amended to the date hereof, including as supplemented by the Certificate of Additional Terms of the Commission relating to the Bonds, dated the date hereof (collectively, the “1991 Master Resolution”). Capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the 1991 Master Resolution.

In such connection, we have reviewed the Charter, the 1991 Master Resolution, the Tax Certificate, dated the date hereof (the “Tax Certificate”), executed by the Commission, opinions of counsel to the Trustee and of the City Attorney, certificates of the Commission, certain of the Co-Municipal Advisors, the Trustee, the Underwriters, and others, and such other documents, opinions and matters to the extent we deemed necessary to render the opinions set forth herein. In particular, we have relied on the opinions of Squire Patton Boggs (US) LLP and Amira Jackmon, Attorney at Law, co-bond counsel to the Commission (the “Bond Counsel Opinions”), regarding, among other matters, the validity of the Bonds. In rendering the opinions expressed herein, we expressly have relied on the Bond Counsel Opinions that, among other matters, the Bonds are valid and binding obligations of the Commission. We call attention to the fact that the interest on the 2024A Bonds and 2024B Bonds may not be excluded from gross income for federal income tax purposes and interest on the Bonds may not be exempt from State of California personal income taxes if the Bonds are not valid, binding and enforceable in accordance with their terms.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions may be affected by actions taken or omitted or events occurring after original delivery of the Bonds on the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or any other matters come to our attention after original delivery of the Bonds on the date hereof. Accordingly, this letter speaks only as of its date and is not intended to, and may not, be relied upon or otherwise used in connection with any such actions, events or matters. We disclaim any obligation to update this letter. We have assumed the genuineness of all documents and signatures provided to us and the due and legal execution and delivery thereof by, and validity against, all parties. We have assumed, without undertaking to verify, the accuracy of the factual matters

represented, warranted or certified in the documents, and of the legal conclusions contained in the opinions, referred to in the second paragraph hereof. Furthermore, we have assumed compliance with all covenants and agreements contained in the 1991 Master Resolution and the Tax Certificate, including (without limitation) covenants and agreements compliance with which is necessary to assure that future actions, omissions or events will not cause interest on the 2024A Bonds and 2024B Bonds to be included in gross income for federal income tax purposes. We call attention to the fact that the rights and obligations under the Bonds, the 1991 Master Resolution and the Tax Certificate and their enforceability may be subject to bankruptcy, insolvency, receivership, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights, to the application of equitable principles, to the exercise of judicial discretion in appropriate cases and to the limitations on legal remedies against cities and counties in the State of California. Our services did not include financial or other non-legal advice. Finally, we undertake no responsibility for the accuracy, completeness or fairness of the Official Statement of the Commission with respect to the Bonds, dated May 14, 2024, or other offering material relating to the Bonds and express no view with respect thereto.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the opinion that interest on the 2024A Bonds and 2024B Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 (the "Code"), except that no opinion is expressed as to the status of interest on any 2024A Bond for any period that such 2024A Bond is held by a "substantial user" of the facilities financed or refinanced by the 2024A Bonds or by a "related person" within the meaning of Section 147(a) of the Code. Interest on the 2024B Bonds is not a specific preference item for purposes of the federal individual alternative minimum tax. We observe that interest on the 2024A Bonds is a specific preference item for purposes of the federal individual alternative minimum tax and interest on the 2024A Bonds and 2024B Bonds included in adjusted financial statement income of certain corporations is not excluded from the federal corporate alternative minimum tax. Interest on the Bonds is exempt from State of California personal income taxes. We observe that interest on the 2024C Bonds is not excluded from gross income for federal income tax purposes under Section 103 of the Code. We express no opinion regarding other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds.

Faithfully yours,

ORRICK, HERRINGTON & SUTCLIFFE LLP

APPENDIX H

LIST OF REFUNDED BONDS

Refunded Bonds

The Commission expects that the Refunded Bonds will consist of all of the Bonds identified below.

**Airport Commission of the
City and County of San Francisco
San Francisco International Airport
Second Series Revenue Bonds
Series 2014A
(AMT)
Dated Date: September 24, 2014**

Maturity Date (May 1)	Principal Amount	Interest Rate	Redemption Date	Redemption Price	CUSIP [†] (79766D)
2039	\$41,895,000	5.000%	August 30, 2024	100%	FD6
2040	63,620,000	5.000	August 30, 2024	100	FE4
2044	270,795,000	5.000	August 30, 2024	100	RH4

**Airport Commission of the
City and County of San Francisco
San Francisco International Airport
Second Series Revenue Bonds
Series 2014B
(Non-AMT/Governmental Purpose)
Dated Date: September 24, 2014**

Maturity Date (May 1)	Principal Amount	Interest Rate	Redemption Date	Redemption Price	CUSIP [†] (79766D)
2044	\$97,290,000	5.000%	August 30, 2024	100%	FF1
