Introduction

The Summary of Airport Charges provides information on fees and charges established and levied by the Airport Commission for the use of the San Francisco International Airport.

This booklet provides airlines, aviation support service providers, transportation operators, and other tenants with a description of the charges to which they may be subject. This booklet will also serve Airport staff as a comprehensive reference document by assembling in one source the fees, charges, and rates currently in effect.

While the Summary of Airport Charges attempts to describe current rates for the major charges established by the Airport Commission, it is not intended to be all-inclusive. Many Airport Commission charges are incorporated in tenant leases that are fixed until renegotiated or adjusted periodically, in accordance with specific lease terms.

This booklet is intended to be informational only. It is not intended to provide definitions and terms for each fee type that would carry the weight of law. The Airport Commission and the City of San Francisco is not liable for actions resulting from an interpretation of charges based on this booklet.

Fees, charges, and rates contained herein are effective July 1, 2024 unless noted otherwise, but may be subject to change and may have changed since the publication of this booklet. Please contact San Francisco International Airport Finance Division with any questions on airport charges.

Legal Authority Reference

The fees, charges, and rates contained herein were approved by the Airport Commission on May 21, 2024 by Resolution 24-0094, and were calculated in accordance with the policies and procedures of the Commission and certain agreements between the Commission and various users of the Airport, including the 2023-2033 Lease and Use Agreement (Agreement).
